Sir James Crosby was appointed to establish and chair the Public Private Forum on Identity Management in July 2006 with a remit to produce a preliminary report to Ministers by Easter 2007. In March 2007 he discussed his preliminary conclusions with the then Chancellor of the Exchequer and was invited to work with the forum to produce a fuller report later in the year. The report is now being finalised. No date has been fixed for publication

Immigration: Skilled Workers

Mr. Hancock: To ask the Secretary of State for the Home Department what measures she has put in place to ensure that immigrants applying for skilled jobs in the UK who are from countries where English is not the first language will not be discriminated against as a result of the English language test requirement. [175497]

Mr. Byrne: The Government are introducing the new points based system (PBS) to ensure that decisions on migration are objective, transparent and fair. While we recognise that an English language test presents an additional requirement for migrants, this is an important element of the new PBS which will help facilitate the integration of skilled workers coming to live and work in the UK. We expect that majority of skilled workers coming to the UK should be able to meet this requirement. Nevertheless, we will closely monitor the implementation of this requirement, and prior to launch of the PBS we will carry out an equality impact assessment.

Police: Arrests

Mr. Ruffley: To ask the Secretary of State for the Home Department how many arrests were made by (*a*) police and (*b*) immigration officers for offences under the Immigration Act 1971 in each year since 1997. [172864]

Mr. Byrne: The arrests collection undertaken by the Ministry of Justice provides aggregated data only on persons arrested for recorded crime (notifiable offences) by age group, gender, ethnicity, and main offence group, i.e. violence against the person, sexual offences, robbery, burglary, etc. Data are collected from 43 police forces in England and Wales. More detailed data about specific offences do not form part of this collection.

The Border and Immigration Agency does not compile statistical records on which Act an arrest by an immigration officer pertains to.

Published information is available on the total number of persons proceeded against, and found guilty, for offences under the Immigration Act 1971, in the Control of Immigration: Statistics United Kingdom Command Paper. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Prisons: Deportation

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer to the hon. Member for Reading, East (Mr. Wilson) of 8 October 2007, *Official Report*, column 169W, on prisons: deportation; when the Chief Executive of the Border and Immigration Agency will next update the Home Affairs Committee on the position of foreign national prisoners in the immigration detention estate. [169602]

Mr. Byrne: The chief executive wrote to the Home Affairs Committee on 20 November in which she provided an update on the position of foreign national prisoners. A copy of this letter is available in the Library of the House.

NORTHERN IRELAND

Bail

Mr. Dodds: To ask the Secretary of State for Northern Ireland what use the Police Service of Northern Ireland has made of street bail since the power was introduced; and if he will make a statement. [170498]

Paul Goggins: The information requested is not readily available. The Police Service of Northern Ireland has, however, undertaken to collate figures over the last reporting year (2006-07) and I will write as soon as I receive their response.

Departmental Correspondence

Mr. Harper: To ask the Secretary of State for Northern Ireland how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* parliamentary questions and *(b)* correspondence from hon. Members and peers. [174968]

Mr. Woodward: There are four staff working in the parliamentary branch of my Department: one head of branch, one Parliamentary Clerk, one Committee Clerk and one Questions Clerk. The Questions Clerk deals solely with parliamentary questions. The Parliamentary Clerk spends approximately 35 per cent. of his time on PQ related matters.

Correspondence from MPs and peers is handled through my and the Minister of State's private offices, rather than parliamentary section. Staff at all grades within the private offices deal with correspondence. However, there are two full-time Correspondence Clerks who mainly process correspondence from hon. Members, peers and the public.

These figures are in addition to the policy and operational staff across the Department who are responsible for drafting answers to parliamentary questions and correspondence from MPs and peers, the numbers of which could be calculated only at disproportionate cost.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for Northern Ireland pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174986]

Mr. Woodward: Near-cash and non-cash are essentially used as departmental expenditure limit (DEL) budgetary control concepts and are not specifically identified with voted resources in estimates. However, we have been able to break down net total resources for each section in the part II: subhead detail table of our main and winter supplementary estimates as follows:

£000

	NIO section titles	2007-08 main estimates (net resource) Near cash	2007-08 main estimates (net resource) Non cash	2007-08 winter supplementary (net resource) Near cash	2007-08 winter supplementary (net resource) Non cash

RfR = request for resource

Departmental Redundancies

Mr. Hoban: To ask the Secretary of State for Northern Ireland what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175324]

Mr. Woodward: There have been no redundancies in each of the 12 months preceding 30 June 2004, 30 June 2005 and 30 June 2006.

Members' Correspondence

Mr. Harper: To ask the Secretary of State for Northern Ireland how many letters his Department received from hon. Members and peers in each session of Parliament since 1997. [174940]

Mr. Woodward: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Police Stations: Closures

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland which police stations in Northern Ireland he expects to have closed by the end of 2009. [175641]

Paul Goggins: The current PSNI estate strategy identifies 61 police stations for potential closure and to date the Northern Ireland Policing Board have approved 20 closures and these stations are now closed.

The PSNI are currently reviewing district police facilities with a view to developing a schedule of potential closures during 2009. It is anticipated that these reviews will be completed by March 2008.

Prisoners: Foreigners

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to the answer of 6 December 2007, *Official Report*, columns 1473-74W, on prisoners: foreigners, what provision has been made for interpreting services for foreign prisoners by the Prison Service in each of the last 12 months, and what the cost was of such services. [175824]

Paul Goggins: Over the last 12 months interpreting services have been provided on an ad hoc basis based on individual prisoner need, largely through a telephone interpreting service. As part of the development of a specific strategy to meet the needs of foreign national prisoners in custody, the service issued a tender earlier in the year to secure interpreting and translation services and two service providers have now been appointed.

Prison Service records do not currently provide a breakdown between translation and interpreting costs except for the costs of the telephone interpreting service.

The following table shows the costs in each of the last 12 months for telephone interpreting and other interpreting and translation costs (i.e. written translations and face to face interpreters).

£

	Telephone interpreting	*Written translation and face to face interpreting*	*Total*
December 2006		70	70
January 2007	237	100	337

November 2007		1,378	1,378
Total	2,297	5,501	7,798

Prisons: Education

Lady Hermon: To ask the Secretary of State for Northern Ireland pursuant to the answer of 6 December 2007, *Official Report*, column 1474W, on prisons: education, what the earliest anticipated date is that infrastructure could be in place to process those sentenced to imprisonment for public protection sentences in Northern Ireland. [175825]

Paul Goggins: Infrastructure is already in place within Northern Ireland prisons to undertake risk assessments, provide programmes and work directly with dangerous offenders to reduce their risk. The impact of the proposed legislation on the Prison Service will increase over time and additional infrastructure will be in place when it is required.

Rape: Victims

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons in Northern Ireland have been victims of rape in each of the last 10 years, broken down by (*a*) age and (*b*) sex. [174858]

Paul Goggins: The following table shows the number of recorded rape offences (including attempted rape) from 1998-99, categorised by age group and gender.

Until the Criminal Justice (Northern Ireland) Order 2003, males could not be designated as victims of rape.

	Age under 18	*Age 18-64*	*Age 65+*	*Age unknown*	*All ages*
1998-99

COMMUNITIES AND LOCAL GOVERNMENT

Cosmetics

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much was spent by her Department and its predecessor on (*a*) make-up artists for media appearances and (*b*) cosmetics for media appearances in each of the last four years for which figures are available. [176597]

Mr. Dhanda: Neither Communities and Local Government nor its predecessor department has incurred any expenditure on cosmetics and make up artists for media appearances, in the previous four years.

Council Tax: Renewable Energy

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether ground source heat pumps are taken into account in the valuation of a property for council tax purposes by the Valuation Office Agency. [176632]

John Healey: I refer the hon. Member to the answer I gave him on 13 December 2007, *Official Report*, column 897W.

Crossrail Line: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government for how many years the supplementary business rate on London businesses will remain in force to pay for Crossrail. [176232]

John Healey: The Mayor of London envisages levying a business rate supplement across the Greater London Authority area to service debt raised for Crossrail's construction, which will cease once the debt has been fully repaid. As with any authority proposing to levy a business rate supplement, the Mayor will be required to undertake a statutory consultation with local businesses and other stakeholders, setting out detailed plans for expenditure, including time scales.

Crossrail Line: Non-Domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether her proposals to allow a supplementary business rate to be levied will apply to London; and whether local authorities will be able to charge the supplementary business rate on top of the Crossrail business rate levy. [176559]

John Healey: We intend that the power to raise local business rate supplements should apply across England but that only the highest tier authority in any area should be entitled to levy them. This means that, in London, the power to levy supplements will rest with the Greater London Authority.

Departmental Correspondence

Mr. Harper: To ask the Secretary of State for Communities and Local Government which section in her Department is responsible for answering correspondence from hon. Members and peers, and how many staff work in that section. [177238]

Mr. Dhanda: 12 staff work in the ministerial correspondence team in the ministerial group which is responsible for processing responses to correspondence from hon. Members and peers.

Fire Services: Cost Effectiveness

Mr. Harper: To ask the Secretary of State for Communities and Local Government what target for Gershon savings the Government has set for (*a*) each stand alone fire authority and (*b*) each fire authority which is part of a local authority (i) in total and (ii) as a proportion of expenditure. [177244]

John Healey *[holding answer 9 January 2008]*: At the start of SR04, all Fire and Rescue Authorities (FRAs) in England were set a national target to achieve £105 million gross cashable efficiency gains in the years 2005-06 to 2007-08. FRAs were not set individual authority efficiency targets. The evidence received by the Department to date indicates that FRAs are set to exceed this target and have already achieved approximately £132.9 million in cashable efficiency gains in 2005-06 and 2006-07. Based on forecast figures provided by FRAs, a further £44 million will be achieved in 2007-08.

Cashable efficiency gains by authority type to the end of 2006-07 are as follows:

	£
Metropolitan Fire and Rescue Authorities	50,850,000
Combined authorities	45,993,000
London	20,813,000
County authorities	15,287,000
Total	132,900,000

FRAs in England are being set a national target of a further £110 million of net cashable efficiency gains for the CSR07 period.

Housing: Finance

Mr. Chope: To ask the Secretary of State for Communities and Local Government what the value was of discretionary housing payments made by each local authority in the last year for which figures are available; and what the value was of contributions made towards such payments by the Government. [173407]

Mr. Plaskitt *[holding answer 11 December 2007]*: I have been asked to reply.

The available information has been put in the Library.

Housing: Haringey

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government when Haringey council and Homes for Haringey will be given their full funding under the Decent Homes Programme for improvement to housing stock; and what the reasons are for the time taken to provide the funding. [175562]

Mr. Iain Wright: The Department has been in discussion with Haringey council and Homes for Haringey since November 2007 over their bid for capital funding support to deliver a Decent Homes investment programme. The bid is a substantial one, and needs to be considered in detail. We aim to conclude our discussions and agree an overall funding total, and specific allocations for 2008-09 and 2009-10, for Haringey, by the end of January.

Housing: Overcrowding

Mr. Andrew Smith: To ask the Secretary of State for Communities and Local Government what steps her Department is taking on overcrowding in housing following the Tackling Overcrowding consultation. [175525]

Mr. Iain Wright: On 12 December my right hon. Friend the Minister for Housing and Planning, announced an additional £15 million funding for overcrowding and launched an action plan setting out the Government's commitment to tackling overcrowding—copies have been placed in the Library of the House. We have already announced an increase in the provision of new social housing including a year-on-year increase in the number of family homes, namely those with three or more bedrooms.

Housing: Renewable Energy

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what estimate the Valuation Office Agency has made of the number of domestic dwellings with (*a*) wind turbines and (*b*) solar panels. [176611]

John Healey: I refer the hon. Member to the answer I gave him on 13 December 2007, *Official Report*, column 898W.

Land Use Planning Review

Mr. Pickles: To ask the Secretary of State for Communities and Local Government when the hon. Member for Truro and St Austell is expected to publish the conclusions of her review of land use and planning. [176198]

Mr. Iain Wright: I refer the hon. Member to the answer given to the hon. Member for Romford (Andrew Rosindell) on 29 October 2007, *Official Report*, column 666W.

Local Government Executive

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many referendums have taken place on whether to establish an elected mayor since 1997. [176740]

John Healey: I refer the hon. Member to the answer I gave him on 12 December 2007, *Official Report*, column 685W.

Local Government Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much of the funding allocated to local authorities to deliver the Community Empowerment Action Plan is (*a*) new and (*b*) additional funding. [176742]

John Healey: All funding to local authorities to deliver the Community Empowerment Action Plan is new funding.

Ministerial Duties: West Midlands

Mr. Andrew Mitchell: To ask the Secretary of State for Communities and Local Government what proportion of his working week the Minister for the West Midlands spent carrying out his regional responsibilities in the latest period for which figures are available. [172171]

Mr. Dhanda *[holding answer 10 December 2007]*: My hon. Friend the Member for Birmingham, Hodge Hill (Mr. Byrne) was appointed Regional Minister on 29 June 2007.

Time spent on regional duties very much varies from week to week.

Non-Domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the receipts from supplementary business rates may be used for capital expenditure other than on infrastructure and revenue expenditure. [176163]

John Healey: The Government's White Paper Business rate supplements, published in October 2007, makes it clear that supplements should be used only to finance investment in economic development that would not otherwise have taken place. In addition to infrastructure projects, the White Paper gives business centres and retail development as examples of capital projects that could be supported by the additional resources raised through business rate supplements. Revenue from supplements could also be used for revenue projects such as increasing the security or improving the environment of a business district.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what factors she took into account when deciding whether to conduct a consultation on introducing supplementary business rates. [176321]

John Healey: There has been extensive public debate on reforms to business rates, including the introduction of supplements, with contributions from the business community, local and central Government as well as independent experts and academics. We also held discussions with stakeholders as part of developing the proposals in our White Paper 'Business rate supplements', published in October 2007. These included the Local Government Association, the Greater London Authority, the Royal Institution of Chartered Surveyors, the Confederation of British Industry, the British Chambers of Commerce, the British Retail Consortium and the Federation of Small Businesses, as well as representatives of individual businesses.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the business rate multiplier, including each of the different rates for small and large firms, was in each year since the introduction of the uniform business rate. [176558]

John Healey: Details of the national non-domestic rating multiplier since 1990-91 and of the small business non-domestic rating multiplier since its introduction in 2005-06 are in the following table:

Pence

	National non-domestic multiplier	Small business multiplier
1990-91	34.8	
1991-92	38.6	
1992-93	40.2	
1993-94	41.6	
1994-95	42.3	
1995-96	43.2	
1996-97	44.9	
1997-98	45.8	
1998-99	47.4	
1999-2000	48.9	
2000-01	41.6	
2001-02	43.0	
2002-03	43.7	
2003-04	44.4	
2004-05	45.6	
2005-06	42.2	41.5
2006-07	43.3	42.6
2007-08	44.4	44.1
2008-09	[1]46.2	[1]45.8

[1] Provisional

The small business multiplier is used to calculate the rate liability for those non-domestic properties in receipt of small business rate relief. For all other properties, the national non-domestic multiplier is used. At revaluations, the multipliers are adjusted to take account of changes in valuations.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which property attributes will form part of the Valuation Office Agency's multiple regression analysis in its proposed Automated Valuation Model for business rates. [176595]

John Healey: I refer the hon. Member to the answer I gave him on 17 December 2007, *Official Report*, column 1154W.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the rateable value of a business premises changes between statutory revaluations if there is a material change to the property. [176606]

John Healey: I refer the hon. Member to the answer I gave him on 17 December 2007, *Official Report*, column 1154W.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the rateable value of a business premises is re-assessed when it is *(a)* sold and *(b)* rented to a different body outside statutory revaluations. [176607]

John Healey: There is no automatic requirement for non-domestic properties to be revalued following a change in ownership or occupation. However, the rateable value of a property may be reassessed following a proposal to the valuation officer to have the value altered. Valuation officers may also alter the rateable value of non-domestic properties as part of their duty to maintain the rating lists.

Non-Domestic Rates: Fines

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which public authority retains the revenue from civic penalty notices issued for failure to provide information requested for non-domestic rating purposes; and what the average size of the penalty payment is. [176749]

John Healey: Any sums received from civil penalty notices issued for failure to provide information requested by a valuation officer for non-domestic rating purposes must be paid into the Consolidated Fund.

The average penalty payment from 1 April 2005 to 31 December 2007 was £311.

Non-Domestic Rates: Tax Allowances

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what plans she has to review business rate relief for (*a*) previously developed and (*b*) derelict land. [176563]

John Healey: Where previously developed or derelict land constitutes a hereditament for the purposes of non-domestic rates, the ratepayer may be entitled to relief under the existing arrangements. As stated in the White Paper Business rate supplements, published in October 2007, the Government have concluded their review of business rates reliefs and exemptions following the Lyons Inquiry recommendation to conduct such a review.

Planning Permission: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the de minimis threshold will be for a residential planning application to incur the new standard planning charge. [176560]

Mr. Iain Wright: The Government have made it clear that subject to low de minimis thresholds, residential and commercial development will be liable to pay the Community Infrastructure Levy (CIL). Consultation, on the draft regulations setting out the details of the CIL including any proposals on de minimis thresholds will be undertaken later this year.

Public Houses: Non-Domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency collates information on (*a*) pub quizzes, (*b*) darts and (*c*) pool tables when valuing licensed premises for business rates purposes. [176187]

John Healey: The Valuation Office Agency does not collate this information.

Social Security Benefits: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what local area agreements have been agreed on targets for the number of (*a*) benefit awards and (*b*) unclaimed benefits; and with which local authorities. [176588]

John Healey: Local area agreements (LAAs) have been agreed with all top tier local authorities, with the exception of the Isles of Scilly. Since 21 pilots were launched in October 2004, 104 of these agreements have targets relating to benefit awards and unclaimed benefits. These are listed in the following list.

Local area agreements with benefit targets

Pilots

Barnsley;
Bradford;
Brighton and Hove;
Coventry;
Derbyshire;
Devon;
Doncaster;
Dorset;
Gateshead;
Greenwich;

Haringey.

Valuation Office: Consultants

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether there is (*a*) a termination date and (*b*) an option to terminate in the contract between Cole Layer Trumble and Capgemini, for the consultancy services that it provides to assist the ongoing work of the Valuation Office Agency. [176610]

John Healey: I refer the hon. Member to the answer I gave him on 17 December 2007, *Official Report*, column 1162W.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Better Regulation Executive

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he last met officials of the Better Regulation Executive to discuss the reduction of regulatory burdens on industry. [176964]

Mr. McFadden: My right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform has been in regular contact with his officials from the Better Regulation Executive ever since the department's creation in the summer of 2007, as he has been with other areas of the department.

Business: Regulation

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the financial effect on UK industry of changes in the level of the burden of regulation in each year since 2005; [176963]

(2) what estimate he has made of the likely effect on the costs of business of the Government's proposed 25 per cent. reduction in administrative burdens. [176969]

Mr. McFadden: In May 2005 the Government embarked on a programme to reduce the administrative burden of regulation—the direct cost to businesses and third sector organisations of filling in forms, dealing with inspections and providing statutory information to third parties—by a net 25 per cent. by 2010. Simplification plans published in December 2007 demonstrated that Government have identified annual savings of £3.5 billion by 2010 (26 per cent. of the May 2005 baseline) with £800 million (6 per cent. of the baseline) already delivered.

Further details have been provided in the following table 1.

Table 1

	Net administrative burden reduction (£ million)
2005-06	265
2006-07	647
2007-08	1,474
2008-09	2,505
2009-10	3,485

The Government have also announced gross reductions in the policy costs that arise from complying with regulations, such as paying licence fees or purchasing new equipment. Details of the annual reductions delivered to date, and forecast to May 2010, have been provided in the following table 2.

Table 2

	Policy savings (£ million)
2005-06	102
2006-07	469
2007-08	807
2008-09	1,246
2009-10	1,364

More information can be found at:

http://bre.berr.gov.uk/regulation/reform/simplifying/plans.asp

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made in developing methods to measure the impact of regulatory burden reduction in those areas identified by the National Audit Office as non-quantified irritation factors. [176966]

Mr. McFadden: The Government regularly consult with business and others on the areas of regulation they believe are most burdensome and key 'irritants'. Departmental simplification plans published in December 2007 and December 2006 include details of regulations identified as such, and how these will be addressed.

BERR consults stakeholders both formally and informally in the development of policy to ensure their concerns, including regulatory irritants, are taken into account.

In addition, representatives of business, consumer and employee organisations participate in the oversight of BERR's better regulation programme as well as contributing their views to the individual projects which make up our simplification plan. This helps to ensure that we are addressing those issues that are of most concern to our stakeholders.

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made by the Better Regulation Executive in working with industry to reduce regulatory burdens. [176967]

Mr. McFadden: To ensure the Better Regulation Executive understands the regulatory issues facings those in the private, public and third sectors a visits programme has been established where staff at all levels see first hand how those being regulated are impacted by regulation and seek their ideas for change.

The Better Regulation Executive also created a website

(www.betterregulation.gov.uk)

to enable those in the; private, public or third sectors to submit ideas on how regulations, or the guidance surrounding them, could be improved. Both ideas submitted and Governments responses are posted online within 90 days.

The administrative burdens reduction programme, the drive to reduce data burdens on the public sector front line, improving inspection and enforcement and other better regulation initiatives are the result of close working between the Better Regulation Executive, Government departments, regulators and those being regulated. An update on progress on better regulation can be found at:

http://bre.berr.gov.uk/regulation/reform/simplifying/plans.asp

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many businesses his Department has consulted to identify areas for potential regulatory burden reduction in the last 12 months. [176968]

Mr. McFadden: BERR conducts extensive formal and informal consultation of business across the full range of its activities.

Ministers and officials regularly meet a wide range of individual businesses and business representative organisations and the Department uses a range of consultation techniques including business surveys and advisory groups, in addition to formal consultations to gather the views of business including on better regulation.

Hundreds of businesses and business organisations have contributed their views in these ways to the Department in the last 12 months.

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what steps his Department is taking to determine the effects of reductions in regulatory burdens on businesses of all sizes; [176970]

(2) by what means his Department assesses the effectiveness of reductions in regulatory burdens on businesses arising from initiatives by Government. [176991]

Mr. McFadden: In May 2007 Government introduced the revised impact assessment process that aims to improve clarity and transparency of new regulations, including new requirements to summarise both the rationale for Government intervention and evidence supporting the final proposal. This has increased the focus on both the costs and benefits associated with regulation, with the strengthened ministerial declaration used to bolster the quality of the analysis further supported by improved arrangements within departments.

The revised impact assessment process has also placed greater weight on post implementation reviews, which are used to establish whether implemented regulations are having the intended effect and whether they are implementing policy objectives efficiently.

The Small Firm Impact Test (SFIT) is also a key element of this revised process. The SFIT enables policy makers to consider the impact that future policy may have on small business, and encourages examining at the earliest stages of policy design whether small businesses can be given a "complete or partial" exemption from new rules. Government are committed to creating new regulation only where it is needed, and that annual costs to micro, small and medium size businesses are quantified.

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) by what mechanisms his Department measures the effectiveness of the means by which businesses are made aware of changes to regulation; [176971]

(2) what steps his Department is considering to improve the means by which businesses are (*a*) made

aware of and (*b*) advised on matters relating to changes in regulation. [176972]

Mr. McFadden: On the 7 of January Government published a consultation document on a Code of Practice on Good Guidance on Regulation. The Code outlines golden rules of good guidance which set the standards businesses and third sector organisations can expect from guidance on regulations. The consultation will run until the 31 of March to give businesses and others time to give their views on what the Code should contain.

To reduce the burden of changing regulations for business, the majority of changes affecting business come into force on two dates (Common Commencement Dates). In October 2007 for the first time, simple, easy to understand guidance was produced with the help of business to support the changes taking effect and communicated to businesses via the Business Link website (www.businesslink.gov.uk) and business and professional organisations. Business can also sign up on the Business Link website for email alerts informing them of forthcoming regulations.

In addition, the Department publishes on its website an annual statement of forthcoming legislation where we provide details of all legislation for which BERR is responsible due to enter into force in the next 12 months. http://www.berr.gov.uk/bbf/better-regulation/forthcoming-leg/page24668.html

Farmers: Bankruptcy

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many farmers in Copeland have declared bankruptcy over the last 20 years. [175941]

Mr. McFadden: The closest available estimates for bankruptcies among farmers are the numbers of bankruptcy orders made under the category "agriculture and horticulture" according to the Insolvency Trade Classification (ITC). The following table provides the numbers of such cases for England and Wales as a whole, which are available from 1990 onwards.

The ITC is not consistent with the Standard Industrial Classification (SIC), which is used to classify businesses held on the Companies Register by Companies House, and elsewhere. Additionally, a bankruptcy order would only cover those business insolvencies among sole traders (and some partnerships) not among registered companies, which would be the subject of a company liquidation. It is not, therefore, possible to provide estimates of the proportions of farmers becoming bankrupt. Bankruptcy statistics for the period covered are classified regionally according to the locations and areas of responsibility of Official Receivers' (ORs') offices, each of which covers a number of courts having insolvency jurisdiction, and are not directly comparable with administrative geographies, such as government office regions or districts. Additionally, statistics broken down by both detailed industry and regionally are not readily available.

Bankruptcies in England and Wales in the Agriculture sector, January 1990 to September 2006

1990	198
1991	266
1992	313
1993	277
1994	231
1995	218
1996	168
1997	155
1998	157
1999	183
2000	173
2001	183
2002	132
2003	151
2004	204
2005	195
2006[1]	129

1 Up to September. Figures from October 2006 are not available due to development work to update the classification to the Standard Industrial Classification (SIC) 2003. These will be available for new cases from July 2007.

Note:
Figures are not available prior to January 1990.

Fisheries: Bankruptcy

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of commercial fishermen in (*a*) England, (*b*) the north-west and (*c*) Copeland have been declared bankrupt over the last 20 years. [175939]

Mr. McFadden: The closest available estimates for bankruptcies among fishermen are the numbers of trader bankruptcy orders made under the category "forestry and fishing" according to the Insolvency Trade Classification (ITC). The following table provides the numbers of such cases for England and Wales as a whole, which are available from 1992 through to September 2006.

The ITC is not consistent with the Standard Industrial Classification (SIC), which is used to classify businesses held on the Companies Register by Companies House, and elsewhere. Additionally, a bankruptcy order would, only cover those business insolvencies among sole traders (and some partnerships) not among registered companies, which would be the subject of a company liquidation. It is not, therefore, possible to provide estimates of the proportions of fishermen becoming bankrupt. Bankruptcy statistics for the period covered are classified regionally according to the locations and areas of responsibility of official receivers' (ORs') offices, each of which covers a number of courts having insolvency jurisdiction, and are not directly comparable with administrative geographies, such as government office regions or districts. Additionally, statistics broken down by both detailed industry and regionally are not readily available.

Bankruptcies in England and Wales in the Forestry and Fishing sector, January 1992 to September 2006

1992	98
1993	71
1994	72
1995	52
1996	91

Bankruptcies in England and Wales in the Forestry and Fishing sector, January 1992 to September 2006

1997	75
1998	65
1999	47
2000	76
2001	68
2002	88
2003	60
2004	51
2005	43
2006[1]	37

[1] Up to September. Figures from October 2006 are not available due to development work to update the classification to the Standard Industrial Classification (SIC) 2003. These will be available for new cases from July 2007.

Note:
Reliable figures are not available prior to 1992.

Post Offices: Closures

Mr. Vara: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what effect the Review of the Postal Services Sector announced in his written ministerial statement of 17 December will have on the most recently announced round of post office closures currently being consulted upon; and if he will make a statement. [175828]

Mr. McFadden: The Review of the Postal Services Sector will look at developments in the mails market. It has not been set up to look at the future of the post office network or the current round of consultations on post office closures. The Government have already agreed a funding package of some £1.7 billion to support the post office network up to 2011.

Post Offices: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what the staffing establishment was at the main post office in Church Street, Peterborough, on 31 December *(a)* 2004, *(b)* 2005 and *(c)* 2006; [177149]

(2) how many people used the main post office at Church Street, Peterborough, on average per day in each year since 2001; [177150]

(3) how many branch post offices there were operating within *(a)* two, *(b)* three and *(c)* four miles of the main post office at Church Street, Peterborough as at 30 November 2007. [177158]

Mr. McFadden *[holding answer 9 January 2008]*: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member. I will place copies of the letter in the Libraries of the House.

Regional Development Agencies: South East Region

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of whether the South East of England Regional Development Agency offers value for money. [176365]

Mr. Timms: SEEDA's performance, like that of other RDAs, is assessed in a number of ways:

Performance against targets: In all except three cases SEEDA has met or exceeded the thirty-four targets set over the last five years.

Independent Performance Assessment: The NAO assessment last year found that SEEDA was performing strongly. This judgement was based on performance on: ambition; prioritisation; capacity; performance management; and achievement (report available on www.nao.org.uk.)

Regional Economic Strategy: SEEDA's review of the Strategy in 2006 and subsequent development of the RES action plan has demonstrated its strengths in achieving wide regional backing for the Strategy and its delivery.

Evaluation: SEEDA and other RDAs have a major programme of evaluation of the impact of their spending. Results from this will be available later this year.

Skilled Workers: English Language

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the likely effect on the UK restaurant trade of skilled chefs from abroad needing to pass the English language test requirement. [175496]

Mr. Byrne: I have been asked to reply.

The Government have not yet made a full assessment of the likely effect on the UK restaurant trade of skilled chefs from abroad needing to pass the English language test requirement. Full impact assessments for each tier of the PBS will be published in due course.

Small Businesses

Chris Ruane: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many small to medium sized businesses there were in each region of the UK in each of the last 20 years. [177513]

Mr. Timms: The number of small to medium sized businesses in each region of the UK is shown for 1991, 1998, 1999, 2001, 2003 and 2005. BERR's small and medium sized enterprise statistics were only published to the regional level in these years. Regional data for 2007 will be available by the end of 2008.

The number of small to medium sized businesses increased in all regions between 1997 and 2005. Overall, the number of small to medium sized businesses in the UK increased by 635,000 (17 per cent.), from 3,701,070 to 4,336,070 between 1997 and 2005.

Number of small and medium-sized businesses in the UK, by region

	1997[1]	*1998*	*1999*	*2001*	*2003*	*2005*	*Percentage change 1997-2005*
UK[2]	3,701,070	3,651,230	3,670,210	3,739,590	4,015,310	4,336,070	17
North East	96,915	98,910	91,045	96,790	98,760	108,500	12
North West	383,260	355,465	355,470	349,095	386,125	436,655	14

Number of small and medium-sized businesses in the UK, by region

	1997[1]	1998	1999	2001	2003	2005	Percentage change 1997-2005
Yorkshire and the Humber	291,060	269,395	258,665	255,740	277,865	313,335	8
East Midlands	239,875	228,695	234,435	235,890	263,145	283,005	18
West Midlands	306,095	286,330	288,080	289,320	314,830	352,870	15
East of England	378,335	378,550	351,595	385,930	430,315	455,060	20
London	566,300	566,850	664,455	672,940	640,880	674,615	19
South East	612,130	618,575	604,985	624,470	681,440	728,595	19
South West	363,100	370,790	360,075	348,760	379,310	417,125	15
Wales	157,890	153,115	143,925	154,295	172,160	175,280	11
Scotland	243,500	246,600	232,975	236,595	266,570	276,215	13
Northern Ireland	84,430	83,230	84,505	89,745	103,905	114,830	36

[1] Regional data for 1997 and 1998 are not directly comparable to other years because they include employment agencies.
UK totals may not equal the sum of the regional figures. This is due to rounding, and in the years 1997 and 1998 because employment agencies were excluded for the UK, but not at the regional level.

Source:
BERR Small and Medium sized Enterprise Statistics for the UK and Regions, 1997-2006 available at: http://stats.berr.gov.uk/ed/sme/index.htm

HEALTH

Broadmoor Hospital

Mr. Lidington: To ask the Secretary of State for Health how many attacks on staff were recorded at Broadmoor Hospital in each year since 1997. [170334]

Mr. Ivan Lewis: This information is not held centrally. However, to improve consistency in reporting incidents by the high secure hospitals, a new national reporting policy which includes information on assaults was introduced in January 2007, and this information is reviewed regularly by a dedicated performance manager for each hospital.

Carers

Harry Cohen: To ask the Secretary of State for Health what *(a)* financial support and *(b)* advice on rights is available to carers who (i) live and (ii) work in (A) Leyton and Wanstead constituency, (B) Redbridge and (C) Waltham Forest. [177051]

Mr. Ivan Lewis: This information is not held centrally.

Drugs: Misuse

Mr. Sanders: To ask the Secretary of State for Health when he expects to receive the report into the findings of the National Treatment Agency survey into drug treatment projects. [169574]

Dawn Primarolo: We have received the report from the survey of drug treatment prescribing services, independently undertaken by the Central Office of Information, on behalf of the Department and National Treatment Agency (NTA) for substance misuse. The NTA published the results from the report on 14 December 2007.

The results provide a robust representation of treatment services.

The results of the survey were published alongside a detailed statement from the Clinical Guidelines on Drug Misuse and Dependence Update 2007 Working Group. The chair of the working group summarised the message of the statement as follows:

"The objective in prescribing is to give the patient the right medication at a dose that produces the greatest therapeutic benefit, without incurring unnecessary risk of harm. It is inappropriate for medications to be used as a reward, or to be withheld, or dose reduced solely as a punishment or sanction. Our new guidelines clarify this beyond doubt."

A full copy of the Audit of Prescribing Practitioners Summary Report has been placed in the Library.

Henderson Hospital: Closures

Lynne Jones: To ask the Secretary of State for Health what discussions he has had on the planned closure of the Henderson Hospital; and if he will make a statement. [176859]

Mr. Ivan Lewis: The Secretary of State for Health, (Alan Johnson) has had no discussions with the local national health service regarding the proposed closure of the Henderson Hospital, as this is a matter for the local NHS.

The Parliamentary Under-Secretary for Care Services the hon. Member for Bury, South (Mr. Lewis) spoke to Peter Houghton, Chief Executive of South West London and St George's Mental Health National Health Service Trust by telephone regarding the Trust's proposals to close the Henderson Hospital on 17 December 2007.

The Parliamentary Under-Secretary for Care Services also met with clinicians from Henderson Hospital, the National Clinical Director for Mental Health, managers from South West London, and St. George's Mental Health National Health Service Trust, the hon. Member for Sutton and Cheam (Mr. Burstow) and the hon. Member for Carshalton and Wallington (Tom Brake) on 8 January 2008 to discuss this issue.

Mental Health

Anne Milton: To ask the Secretary of State for Health (1) what assessment he has made of the ability of patients with *(a)* mental illness and *(b)* learning difficulties to access (i) NHS emergency treatment and (ii) respite care; and if he will make a statement: [177018]

(2) what assessment he has made of the ability of carers of patients with (a) mental illness and (b) learning difficulties to access NHS emergency treatment. [177019]

Mr. Ivan Lewis: In 2003 we published guidance entitled "Improving the Management of Patients with Mental Ill Health in Emergency Care". This provides practical support and guidance for those working in accident and emergency departments, mental health trusts and ambulance trusts to help improve the care of patients with mental illness when they access emergency care. We have not published similar guidance for people with learning disabilities.

The Carers Grant, which we introduced in 1999, provides financial support for carers to have breaks and to provide respite care. The Grant, which is worth £185 million in 2007-08 and £224 million in 2008-09, includes £25 million from which councils can provide emergency cover for carers. We have also issued guidance to councils about using this additional funding. We want to ensure that each council is able to provide short-term cover for carers in emergency situations, and that these monies are available for carers of people with mental illness, learning disabilities and all other conditions.

Mr. Harper: To ask the Secretary of State for Health pursuant to the answer of 5 December 2007, *Official Report*, column 1318W, on mental health and employment: meeting the challenge, how much of the £173 million will be spent in each year to 2010-12. [177240]

Mr. Ivan Lewis: The comprehensive spending review (CSR) covers the period to 2010-11. Additional investment in the Improving Access to Psychological Therapies programme, identified in the CSR 2007-10 will be in excess of £300 million, with an investment of £33 million in 2008-09, £103 million in 2009-10, rising to £173 million by 2010-11.

Mental Health Services: Greater London

Lynne Featherstone: To ask the Secretary of State for Health how many successful appeals against involuntary detention for treatment there were in each London mental health trust in each of the past five years; and if he will make a statement. [176028]

Bridget Prentice: I have been asked to reply.

The information requested is not held centrally and could be obtained only by means of a manual sift of some 10,000 files, incurring disproportionate cost.

The Mental Health Review Tribunal considers whether people should continue to be detained under the Mental Health Act 1983. The Annual Report of the MHRT records that, in 2005-06 it received almost 22,000 applications and referrals of which 57 per cent. progressed to a substantive hearing. Of those applications 11 per cent. resulted in an order for discharge from the relevant provision of the Act.

A new database is being built for the Tribunal and is estimated to be live from summer 2008.

Mental Health Services: Hospital Beds

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 12 December 2007, *Official Report*, column 655W, on mental health services: hospital beds, how many community psychiatric nurses were practising in the NHS in each year since 1997; and if he will make a statement. [177168]

Mr. Ivan Lewis: The number of qualified nursing staff in the community psychiatry area of work in England is shown in the following table.

National health service hospital and community health services: qualified nursing staff in the community psychiatry area of work in England

As at September	England
1997	9,736
1998	10,231
1999	10,552
2000	11,080
2001	12,224
2002	12,292
2003	13,173
2004	14,909
2005	15,844
2006[1]	17,076

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total workforce figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration when analysing trends over time.

Note

Workforce planning is a matter for local NHS organisations to deal with. They are best placed to assess the health needs of their local health community. The number of community psychiatric nurses has increased by 75 per cent. since 1997.

Source

The Information Centre for health and social care Non- Medical Workforce Census.

Overcrowding: Health Hazards

Mr. Andrew Smith: To ask the Secretary of State for Health (1) what assessment his Department has made of the effects of overcrowding in housing on health; [175523]

(2) what steps he has taken to ensure that the effects of overcrowding on health are reflected in the development of standards for housing. [175524]

Mr. Iain Wright *[holding answer 18 December 2007]*: I have been asked to reply.

The Office of the Deputy Prime Minister undertook a review of the evidence and literature looking at the impact of overcrowding on health and education in 2004 "(The Impact of Overcrowding on Health and Education: A Review of the Evidence and Literature (Housing Research Summary Number 210, 2004)" copies of which are available on :

www.communities.gov.uk/housing.

The published summary indicates that there is a small relationship between overcrowding and aspects of physical health of both children and adults. Additionally, evidence suggests that overcrowding in childhood affects aspects

of adult health. The evidence on any relationship between overcrowding and mental health (children and adults) is inconclusive.

The Housing Health and Safety Rating System (HHSRS) and its Operating Guidance is an assessment tool for local authorities to determine risks arising from a range of potential hazards (including overcrowding) across all tenures and to take appropriate enforcement action through Environmental Health Officers. The HHSRS was introduced in April 2006.

The HHSRS is evidence-based. It is supported by extensive reviews of the literature and by detailed analysis of statistical data on the impact of housing conditions on health.

Pathology: Children

Dan Rogerson: To ask the Secretary of State for Health (1) what steps he is taking to ensure that sufficient pathologists are trained to carry out specialist examinations on deceased children; (2) how many such pathologists are available in each Government Office region; and (3) if he will make a statement; [177739]

(2) if he will take steps to assist coroners in the South West in locating child pathologists to carry out specialist examinations on deceased children for the purposes of an inquest. [177740]

Dawn Primarolo: The Department has worked closely with the Royal College of Pathologists to increase the number of paediatric pathologists in the national health service. Funding has been available for a Conversion Fellowship scheme to enable existing pathology consultants to retrain as paediatric pathologists to increase numbers in the short-term and this was vigorously promoted by the Royal College of Pathologists. However, the Conversion Fellowships were not taken up.

However the number of trainee paediatric pathologists has risen slightly in the last few years. The Royal College of Pathologists' Paediatric Pathology Specialist Advisory Committee anticipates that any difficulties will be largely resolved as the extra trainees become qualified in the next year or two and long-term service needs will be met. Paediatric pathology will remain a specialised service and ways of working in the specialty are changing to reflect this. Paediatric pathology is developing in a smaller number of specialist centres to focus resources where there will be adequate expertise and support. We understand that coroners, including in the South West, are aware of where paediatric pathologists are currently located and are able to contact them. We have asked officials from the Department to discuss with their counterparts at the Ministry of Justice the information currently provided to coroners about the availability of paediatric pathologists.

The Department does not collect data centrally about the number of paediatric pathologists in England. 2007 data from the Royal College of Pathologists show a total of 40 paediatric/perinatal pathology posts in England.

Personality Disorders

Norman Lamb: To ask the Secretary of State for Health (1) what estimate he has made of the number of people in England who have a severe personality disorder; how many are receiving treatment; what treatments are available and in how many centres; and what estimate he has made of the effectiveness of treatments; [177198]

(2) what estimate he has made of the proportion of those with severe personality disorder that are a danger (*a*) to themselves and (*b*) to others. [177199]

Mr. Ivan Lewis: Personality disorders (PDs) are common conditions, although there is a considerable variation in severity, and in the degree of distress and dysfunction caused. The Department does not hold the requested information centrally, but research studies currently indicate a prevalence of 10 to 13 per cent. of the adult population in the community. The incidence in the sentenced prison population is around 64 per cent. for men and 50 per cent. for women. Estimates of the prevalence of personality disorders in psychiatric hospital populations vary between 36 to 67 per cent.

The treatment of patients with personality disorders is increasing through the development of new PD services in line with the implementation of "Managing Dangerous Offenders with a Severe Personality Disorder (1999), Personality Disorder: No Longer a Diagnosis of Exclusion" (2004) and the Mental Health Act 2007. The development of effective services for those most a risk to the public is being piloted through the Dangerous and Severe Personality Disorder (DSPD) programme which is a joint venture between the Department and the Ministry of Justice.

The number of people in England with a severe PD who are a significant risk to other people is currently estimated as being between 3,000-5,000. The DSPD programme provides assessment, treatment and management in conditions of high and medium security as well as in community residential and outreach services.

In respect of all those people with a PD who are no risk to others it is intended that the provision of treatment and support for this patient population will be through the growth of PD appropriate services within mainstream mental health services. Services for this patient group have been piloted and evaluated in each region of England through the Department's PD programme and are now devolved to the national health service for wider development by primary care trusts at a local level. While there is no accurate estimate of the numbers of patients overall treated in the NHS over 1,500 patients with PD have been treated in the non forensic PD pilot services to date.

Prescriptions: Fees and Charges

Jon Trickett: To ask the Secretary of State for Health (1) how much was raised from prescription charges in 2006-07; [175975]

(2) what the total cost was of collecting prescription charges in the last financial year. [175985]

Dawn Primarolo: As set out in "Department of Health Resource Accounts 2006-07", published by The Stationary Office, on 11 October 2007, for the period April 2006 to March 2007, the revenue raised from prescription charges collected by pharmacists, appliance contractors and from prescription prepayment certificate fees was £411.7 million. This figure excludes prescription

charges collected by dispensing doctors, which is not collected centrally, but remains with primary care trusts. A copy of the Resource Accounts is available in the Library.

Pharmacists, appliance contractors and dispensing doctors collect the prescription charge as part of the dispensing process. They are paid a fee for the dispensing process irrespective of whether a charge is collected. It is not possible to determine separately the cost of collecting prescription charges.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Peacekeeping Operations

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of civilians killed by the recent bombing at Nabo Aka in Afghanistan. [177041]

Meg Munn: The Government are not aware of any civilian casualties resulting from a bombing at Nabo Aka.

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions (*a*) the British Government, (*b*) the British army and (*c*) coalition forces in Afghanistan have had with the Taliban. [177509]

Meg Munn: The UK supports President Karzai's efforts to bring disaffected Afghans into society's mainstream, providing they renounce violence and accept Afghanistan's constitution. In this context we have provided funds for the Afghan reconciliation programme, Programme Takhim-e-Solh. We support Afghan-led efforts to reach out to Taliban elements who no longer want to continue their armed opposition, in order to weaken the insurgency and isolate its leadership. We will continue to support President Karzai and his government in their efforts to reconcile all parties to Afghanistan's democratic constitution.

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs what definition the Government uses of the Taliban. [177510]

Meg Munn: "Taliban" is an umbrella term used for an increasingly splintered group of anti-government elements in Afghanistan. This includes warlords, those in the narcotics trade and jihadi fighters. The anti-government insurgency also includes Hezb-e Islami Gulbuddin and the Haqqani network. It is associated with, but separate from, members of Al Qa'eda and the extremist tribesmen in Pakistan (the so-called "Pakistan Taliban").

Afghanistan: Taliban

James Duddridge: To ask the Secretary of State for Foreign and Commonwealth Affairs how many meetings have taken place in (*a*) Helmand Province and (*b*) Afghanistan in the last 12 months between British representatives and (i) current, (ii) former and (iii) suspected Taliban insurgents. [177293]

Meg Munn: Our embassy in Kabul and the UK-led provincial reconstruction team in Lashkar Gah have made a wide range of contacts within the Afghanistan government and people in public life, some of whom will have held positions under the former Taliban regime. Data on these contacts are not collated in a form to enable the Foreign and Commonwealth Office to respond to the hon. Member's question.

The UK position on reconciliation remains unchanged. We support President Karzai' efforts to bring disaffected Afghans into society's mainstream, providing they renounce violence and accept Afghanistan's constitution.

Asylum: Finance

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the European Refugee Fund was spent in each member state in each year since 2000; and on what types of projects. [175439]

Mr. Byrne: I have been asked to reply.

The European Commission has not yet published the actual spend for each member state in respect of the European Refugee Fund as many annual programmes are still in the process of being closed by the Commission.

The first phase of the European Refugee Fund ran from 2000 to 2004. The second phase, which runs from 2005 to 2007, is under way. Projects for both phases have been funded for eligible actions which relate to reception, integration and voluntary repatriation of specified target groups. These include those with full refugee status or subsidiary forms of humanitarian protection, and those who have applied for this.

Ballistic Missile Defence

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he was formally consulted by the Secretary of State for Defence on the request by the US to use RAF Menwith Hill as part of the Ballistic Missile Defence System; and if he will make a statement. [173685]

David Miliband: I was formally consulted by my right hon. Friend the Defence Secretary on 10 July 2007 over the decision to agree to the request by the US to use Menwith Hill as part of the Ballistic Missile Defence System.

Colombia: Armed Forces

Mr. David Anderson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to encourage the Colombian Government to investigate alleged murders of civilians by the Colombian army. [177147]

Meg Munn: Whilst the majority of murders in Colombia are committed by illegal armed groups, we regularly call on the Colombian Government, privately and in public, to ensure procedures are in place to fully

investigate alleged abuses against civilians by the Colombian army. My hon. Friend the Minister of State for Foreign and Commonwealth Affairs, Dr. Howells, did so with the Colombian Defence Minister and Vice President during their visits to the UK last year, and he repeated these concerns when visiting Colombia in November 2007. We have been impressed at the Colombian government's commitment to tackling this problem, but we recognise that more needs to be done. This is why the UK continues to provide the Colombian armed forces with human rights training and practical advice on military justice reform—which includes forging a closer working relationship between the Colombian Attorney General's Office and the Colombian armed forces—so to promote their adherence to international humanitarian law.

Committee of Permanent Representatives

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people form the UK's *(a)* Committee of Permanent Representatives I and *(b)* Committee of Permanent Representatives II to the EU Council. [176826]

Mr. Jim Murphy: The UK is represented by the Deputy Permanent Representative in the Committee of Permanent Representatives I and the Permanent Representative in the Committee of Permanent Representatives II.

EC Law

Mr. Hollobone: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of primary legislation passed between 3 May 1997 and 27 June 2007 originated in *(a)* EU regulations, *(b)* EU directives and *(c)* EU decisions. [177677]

Mr. Jim Murphy: The information requested by the hon. Member is not held centrally.

English Language

Damian Green: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on English language classes for staff in the last year for which figures are available. [177489]

Meg Munn: The Foreign and Commonwealth Office does not spend anything on English language training for staff in the UK. Overseas, most locally recruited jobs require prior working knowledge of English. In certain circumstances posts may have contributed from their own budgets to the cost of English tuition for junior staff (e.g. drivers); but no central record is kept of this expenditure and to collate the figures would incur disproportionate cost.

European Union

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on *(a)* polling in the UK on EU-related issues and *(b)* publications and advertising relating to the EU in each of the last 11 years. [175438]

Mr. Jim Murphy: The spend in each financial year from the Foreign and Commonwealth Office (FCO) EU Directorate budget codes related to EU communications in the UK are in the following table.

	£
1997-98	[1]13,500
1998-99	n/a
1999-2000	102,574
2000-01	258,000
2001-02	246,819
2002-03	167,891
2003-04	604,730
2004-05	400,499
2005-06	274,274
2006-07	200,00
April to December 2007	43,320

n/a= Not available

[1] Excluding EU presidency EU communications. Figures not available

[2] Plus 434,233 EU presidency public diplomacy

In line with the FCO's public service agreement, FCO spending on EU communications covers a wide range of projects to raise awareness and debate on EU issues, such as: the europe.gov.uk website, publications and public events on EU issues.

In terms of polling in the UK on EU-related issues, the FCO commissioned ICM in June 2004 to test the clarity of its Guide to the EU before publication at a cost of approximately £10,000.

Gibraltar: EU Action

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the EU's position on Gibraltar in relation to the proposed Race Directive. [177067]

Mr. Jim Murphy: While the UK is the member state responsible for Gibraltar within the European Union, the government of Gibraltar is responsible for implementing European legislation within Gibraltar. The Race Directive (2000/43 EC) has been transposed by the government of Gibraltar through Gibraltar's Equal Opportunities Act 2006 which came into force on 1 March 2007.

International Cooperation: Mining

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to assist other governments to make mining practices safer and to reduce numbers of preventable accidents since 1997. [173422]

Mrs. McGuire *[holding answer 13 December 2007]:* I have been asked to reply.

The principal way in which the UK has assisted other Governments to make mining practices safer has, since 2004, been through its membership of the European Commission's Advisory Committee on Safety, Hygiene and Health Protection at Work's Standing Working Party (SWP) for the Mining and other Extractive Industries. Before 2004 this was done through the SWP's predecessor, the Safety and Health

Commission for the Mining and Other Extractive Industries (SHCMOEI). The UK Government have been represented on these bodies by HM Chief Inspector of Mines.

Since the expansion of the European Union (EU) in 2004, one of the specific tasks of the SWP has been the promotion of the exchange of information with EU Member States on aspects of health and safety in mining. The mandate of the SWP has recently been expanded to include the provision of advice to the EC on cooperation with other countries, in particular with China, in respect to health and safety in the mining and the extractive industries sector.

Kenya: Overseas Residence

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British ex-patriates are living in Kenya; and what provisional plans the Government have to repatriate them. [177309]

Meg Munn: There are currently approximately 11,500 British citizens registered with our High Commission in Nairobi.

The Foreign and Commonwealth Office has emergency and contingency plans for Kenya, which are constantly being reviewed and updated to ensure preparedness for a range of eventualities.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 28 November, from the right hon. Member for Manchester Gorton, regarding Mrs H. Malik. [177545]

David Miliband: I replied to my right hon. Friend on 8 January.

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter, dated 21 November, from the right hon. Member for Manchester Gorton, regarding Mr I. Rigby. [177549]

David Miliband: I replied to my right hon. Friend on 20 December 2007.

Pakistan: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Pakistan. [175141]

Meg Munn: I refer the hon. Member to the statement on Pakistan and Kenya made by my right hon. Friend the Foreign Secretary to the House on 7 January 2008, *Official Report*, columns 21-24.

The world has been shocked and outraged by Ms Bhutto's tragic assassination on 27 December 2007. This senseless attack must not be allowed to undermine the move towards democracy in Pakistan. The priority now must be to ensure the democratic process remains on track.

Palestinians: EU Aid

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take to ensure that EU aid to the Occupied Palestinian Territories is used for legal and legitimate purposes. [177305]

Meg Munn: The European Commission takes fiduciary risk management very seriously. Most projects are managed internally and therefore the European Commission is able to ensure that it has complete control over all funds. The EU also funds the UN Refugee and Works Agency, which delivers support to Palestinians in Gaza, this funding is managed by strict UN controls. Other EU assistance to the Occupied Palestinian Territories is provided through the EU's Temporary International Mechanism. This provides allowances for public sector workers, including teachers, and for the poorest Palestinians. It also pays for basic services such as healthcare and provides fuel for electricity supplies. The Temporary International Mechanism is organised so that funds pass directly to beneficiaries and suppliers of goods and services. Either the World Bank or the European Commission approves all expenditure and all Palestinians paid under the Temporary International Mechanism are vetted against five different internationally recognised terrorist lists.

Palestinians: EU Aid

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his EU counterparts on the reported seizure in the Occupied Palestinian Territories of potassium nitrate disguised in sugar bags that were marked as being part of the humanitarian aid provided by the European Union. [177306]

Meg Munn: My right hon. Friend the Foreign Secretary has not discussed this with his EU counterparts. The UK welcomes the European Commission's statement on this issue on 30 December 2007 that:

"Based on the information received, it appears that these bags cannot be confused with any kind of European Union humanitarian aid. We would consider it an isolated criminal act and we condemn it."

The EU distributes its food aid through United Nations agencies, rather than directly, and does not export any sugar to Gaza.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Free School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of the proportion of children known to be eligible for free school meals in each academy and its predecessor school for each year from 2000-01 to 2007-08; and if he will make a statement. [163311]

Jim Knight: The proportion of pupils known to be eligible for free school meals in each open academy and in their predecessor school(s) is given in the following table:

School name	Percentage FSM for whole school						
	2001	2002	2003	2004	2005	2006	2007
The Business Academy Bexley			41.9	37.0	38.2	38.5	39.2

2007 School Census returns

Departmental Manpower

Norman Baker: To ask the Secretary of State for Children, Schools and Families how many reports have been made to his Department's nominated officers under paragraph 16 of the revised Civil Service Code since its publication on 6 June 2006. [162480]

Kevin Brennan: Since the publication of the revised Civil Service Code on 6 June 2006, my Department's nominated officers have received two reports made under paragraph 16.

Extra-curricular Activities

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families which schools in Hendon are offering extended hours; what additional services they are providing in the extended hours; what funding has been made available for those extended hours; and if he will make a statement. [177701]

Beverley Hughes: We want all schools to offer access to extended services by 2010, including providing access to child care and a range of activities, with at least half of all primary and a third of secondary schools doing so by September 2008. The core offer of extended services in and around schools comprises: a varied menu of activities in primary and secondary schools; high quality child care 8 am to 6 pm 48 weeks a year in primary schools; parenting support; swift and easy access to a wide range of specialist support services such as health and social care; and wider community access to ICT, sports and arts facilities.

We do not hold reliable information on individual services within schools but the Training and Development Agency for Schools (TDA) does collect reliable data on schools delivering access to the extended schools full core offer. We encourage schools to work in clusters to help maximise delivery and to provide more joined up services for their local communities. Clusters often cross constituency boundaries, which means that information on extended services at constituency level must be treated with care. The following table shows the extended schools data for Hendon.

LEA: Hendon

	Number/percentage
Total number of schools	39
Total number of schools providing access to the full core offer	18
Percentage of schools providing access to the full core offer	46.2

The following list shows the schools providing access to the full core offer of extended services in the Hendon parliamentary constituency area.

Dollis Junior School
St. Mary's and St. John's CE Primary School
Woodcroft Primary School
Independent Jewish Day School
St. Joseph's RC Junior School
St. Joseph's RC Infant School
St. Vincent's RC School
The Orion Primary School
The Hyde School
Fairway Primary School
Edgware Infant School
Edgware Junior School
Dollis Infant School
Deansbrook Infant School
Bell Lane Primary School
Barnfield Primary School
Parkfield Primary School
Northway School

Month to month variations can occur, resulting in figures going down as well as up in individual parliamentary constituencies, for example as a result of local school reorganisations. There are many other schools which are already providing individual parts of the core offer that are not yet included in these figures.

Funding is not broken down to constituency level. Funding for the extended schools programme for 2008-11 in Barnet is detailed as follows.

Barnet	*Start up and sustainability funding*
2008-09	1,270,074
2009-10	1,466,160
2010-11	1,401,171

We are providing over £1.1 billion for extended schools in England for the period 2008-09 to 2010-11.

Family Fund: Eligibility

Bob Russell: To ask the Secretary of State for Children, Schools and Families if he will increase the age limit for recipients of Family Fund grants to enable those between 16 and 18-years-old to qualify; and if he will make a statement. [171230]

Beverley Hughes: As part of the Children's Plan published on 11 December, the Secretary of State announced an additional £8.4 million over the next three years to allow the Family Fund Trust to increase the eligibility age from 16 to 18 in England.

The Department already provides £22.8 million annually to the Family Fund, allowing the fund to distribute 38,857 grants in England in 2006-07, averaging £549 per grant. The additional £8.4 million is equivalent to around 16,000 grants for families with 16 and 17-year-old disabled young people over the next three years.

This renews our commitment to providing low income families with a tailored package of support and is all part of the philosophy of the Children's Plan and part of our drive to end child poverty.

Graduates: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how many young people from *(a)* Cumbria and *(b)* Copeland graduated from higher education in each of the last 10 years. [175992]

Bill Rammell: I have been asked to reply.

The latest available information is shown in the table. Figures for 2006/07 will be available in January 2008.

Number of young[1] first degree graduates from Cumbria local authority and Copeland parliamentary constituency, English higher education institutions, academic years 1996/97 to 2005/06

	Graduates from Cumbria local authority	Graduates from Copeland parliamentary constituency
1996/97	1,000	135
1997/98	1,110	130
1998/99	1,205	160
1999/2000	1,140	155
2000/01[2]	1,250	160
2001/02	1,310	155
2002/03	1,420	170
2003/04	1,425	175
2004/05	1,480	190
2005/06	1,470	180

[1] Young refers to those students aged under 25.
[2] From 2000/01 students qualifying from a dormant mode of study are included in the figures, they are excluded in all previous years. Incoming exchange students are excluded from the figures from 2000/01 onwards; they were included in all previous years.

Note:
Figures are rounded to the nearest 5.

Higher Education Statistics Agency (HESA).

Secondary Education: Admissions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what percentage of secondary school pupils were taught in schools with more than *(a)* 1,000 pupils, *(b)* 1,500 pupils and *(c)* 2,000 pupils in (i) 1990, (ii) 1995, (iii) 2000, (iv) 2005, (v) 2006 and (vi) 2007. [163182]

Jim Knight: The requested information is given in the following tables.

Maintained secondary schools,city technology colleges and academies[1], number of schools and pupils by size of school[2], position in January each year: 1990, 1995, 2000, 2005, 2006 and 2007, England

	Schools with up to and including 1,000 pupils			Schools with 1,001 to 1,500 pupils			Schools with 1,501 to 2,000 pupils		
	Number of schools	Number of pupils	Percentage of pupils[3]	Number of schools	Number of pupils	Percentage of pupils[3]	Number of schools	Number of pupils	Percentage of pupils[3]
1990	3,244	1,983,150	69.3	677	786,140	27.5	58	94,110	3.3
1995	2,563	1,684,840	56.0	946	1,120,690	37.3	115	190,020	6.3
2000	2,226	1,397,750	46.8	1,146	1,377,020	43.1	186	308,740	9.7
2005	1,839	1,296,690	38.7	1,296	1,572,330	47.0	261	435,420	13.0
2006	1,830	1,292,490	38.6	1,295	1,573,270	47.0	259	433,640	13.0
2007	1,841	1,290,040	38.8	1,270	1,539,480	46.3	266	444,480	13.4

	Schools with more than 2,000			All schools		
	Number of schools	Number of pupils	Percentage of pupils[3]	Number of schools	Number of pupils	Percentage of pupils[3]
1990	0	0	0.0	3,979	2,863,390	100.0
1995	5	10,450	0.3	3,629	3,006,000	100.0
2000	7	14,900	0.5	3,565	3,198,410	100.0
2005	20	43,240	1.3	3,416	3,347,680	100.0
2006	21	45,090	1.3	3,405	3,344,490	100.0
2007	22	47,540	1.4	3,399	3,321,530	100.0

[1] Includes middle schools as deemed.
[2] Based on a headcount of pupils. Excludes dually registered pupils.
[3] The number of pupils by size band of schools expressed as a percentage of the total number of pupils in maintained secondary schools, city technology colleges and academies.

Note:
Pupil numbers have been rounded to the nearest 10.

School Census.

Young People: Unemployment

Mr. Bellingham: To ask the Secretary of State for Children, Schools and Families how many 16 to 18-year-olds are not in education, training or employment. [177270]

Beverley Hughes: We estimate that 206,000 young people of academic age 16 to 18[1] in England were not in education, employment or training (NEET) at the end of 2006. This represents 10.3 per cent. of all 16 to 18-year-olds.

[1] Academic age is defined as age at the start of the academic year, 31 August.

INNOVATION, UNIVERSITIES AND SKILLS

Cross-disciplinary Research

11. **Ian Lucas:** To ask the Secretary of State for Innovation, Universities and Skills how much research council spending has been allocated to cross-disciplinary research over the next comprehensive spending review period; and if he will make a statement. [177258]

Ian Pearson: The science budget allocations which I announced on 11 December, set out funding for four major cross-council interdisciplinary programmes. These four programmes are "Living with Environmental Change",

"Ageing", "Global Threats to Security" and "Energy" and will allocate a total of £1.3 billion to research in these areas. In addition, research councils fund cross disciplinary research in a wide variety of other areas.

Physics Research

12. **Mr. Lilley:** To ask the Secretary of State for Innovation, Universities and Skills what steps his Department is taking to support physics research in the UK. [177261]

Ian Pearson: The overall science budget will be almost £4 billion per year by 2010-11, taking our support for the UK's research base to its highest level ever.

Our overall expenditure on physics research, postgraduate training and facilities through the Research Councils will exceed £500 million per year by 2010-11.

Our overall expenditure on physics research, postgraduate training and facilities through the research councils will exceed £500 million per year in 2010-11. This includes investments from the Science and Technology Facilities Council, Engineering and Physical Sciences Research Council, Natural Environment Research Council, Medical Research Council and the Biotechnology and Biological Sciences Research Council.

In addition, UK universities receive funding from the Higher Education Funding.

Leitch Report

13. **Mr. Drew:** To ask the Secretary of State for Innovation, Universities and Skills what plans he has for implementing the recommendations of the Leitch report. [177262]

Mr. David Lammy: The Government are committed to achieving the ambition articulated by Lord Leitch. We set out in world class skills how we would work with our partners, employers, unions, and individuals to affect a skills revolution in this country.

In November, DWP and DIUS set out in 'Opportunity, Employment and Progression: making skills work', how we will work together so that people can gain the training and support they need to enter and progress in work.

Russell Group

14. **Mr. Chaytor:** To ask the Secretary of State for Innovation, Universities and Skills what recent discussions he has had with the Russell Group of universities on widening access. [177263]

Bill Rammell: This Government remain fully committed to widening access to higher education for people from disadvantaged backgrounds. I have had many discussions about this important matter with a range of people, including members of the Russell Group of universities.

Apprenticeships

15. **Mr. Clapham:** To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to improve the advice available to young people on apprenticeships; and if he will make a statement. [177264]

Mr. David Lammy: My right hon. Friend, the Secretary of State for Children, Schools and Families, published a range of measures to improve information, advice and guidance to young people in his Children's Plan. In addition, the Education and Skills Bill, currently before the House, will ensure that all young people receive good information about all routes post-16, including apprenticeships.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeships were offered by (*a*) central Government, (*b*) local government and (*c*) other public bodies in each year since 1997. [175749]

Mr. Lammy: There are over 200 different apprenticeship or advanced apprenticeship frameworks on offer to potential learners across more than 80 industry sectors. However, there exists no definitive classification of frameworks by sector of employer.

Manufacturing Businesses

17. **Mr. Kidney:** To ask the Secretary of State for Innovation, Universities and Skills what steps his Department is taking to ensure that manufacturing businesses benefit from innovations developed in English universities. [177267]

Bill Rammell: In July 2007 we established the Technology Strategy Board to provide innovation and technology support to business. The Technology Strategy Board is a key delivery partner in supporting collaboration between business and universities and also works closely with the Research Councils. In England, the Government's Higher Education Innovation Fund is another way in which we are helping universities increase their capacity for working with businesses.

Train to Gain

18. **Rob Marris:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effectiveness of Train to Gain provision in the west midlands; and if he will make a statement. [177269]

Mr. Lammy: Train to Gain has been successful in the West Midlands with 8,334 employers working with the service to identify and meet their training needs. Since April 2006 42,000 employees have started a learning activity and 12,395 have gained a Level 2 qualification. We remain committed to the expansion of Train to Gain as the Government's premier skills service for employers and expect all regions including the West Midlands to step up their performance.

Advanced Apprenticeships

Mr. Mahmood: To ask the Secretary of State for Innovation, Universities and Skills what recent assessment he has made of the availability of advanced apprenticeships; and if he will make a statement. [177266]

Mr. David Lammy: We have announced a major expansion of apprenticeships with Government funding rising to over £1 billion in 2010-11 to boost numbers, including advanced apprenticeships. The balance between advanced apprenticeships and Level 2 apprenticeships reflects employer need. However, the Government will expect to see a significant increase above the current 97,000 advanced apprenticeships in England as we move towards a national entitlement in 2013.

Engineering and Physical Sciences Research Council: Grants

Mr. Pickles: To ask the Secretary of State for Innovation, Universities and Skills how much funding the Engineering and Physical Sciences Research Council provided to the Sustainability of Land Use and Transport in Outer Neighbourhoods project. [176676]

Ian Pearson: The Sustainability of Land Use and Transport in Outer Neighbourhoods, (SOLUTIONS) project received funding of £1.75 million from the Engineering and Physical Sciences Research Council (EPSRC) for the period April 2004 to September 2008.

£154,136 was also awarded for a scoping study from April 2003 to March 2004.

Higher Education: Sunderland

Mr. Kemp: To ask the Secretary of State for Innovation, Universities and Skills what percentage of 18 to 22-year-old people from the City of Sunderland were studying at university *(a)* in 1997 and *(b)* at the latest date for which figures are available. [175225]

Bill Rammell: The main measure for tracking progress on increasing participation is currently the higher education initial participation rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. It covers English-domiciled first time entrants to HE courses, which are expected to last for at least six months, at UK higher education institutions and English, Scottish and Welsh further education colleges, and who remain on their course for at least six months. The earliest figure is 39.3 per cent for 1999/2000 and the latest available figure is 42.8 per cent. for 2005/06.

Equivalent figures for the 18-22-year-old age group are 33.4 per cent. for 1999/2000 and 36.2 per cent. for 2005/06.

Figures for 2006/07 will become available in 2008. The HEIPR is not disaggregated below national level.

HEFCE's "Young participation in Higher Education" publication includes the proportion of young people who enter higher education at age 18 or 19 by parliamentary constituency, although this only covers the years up to 2000. Participation rates based on this work are given on the supporting POLAR website (www.hefce.ac.uk/polar). These indicate that, for the cohort reaching 18 in 1997, the proportion of young people from Sunderland who entered higher education at age 18 or 19 was 20 per cent.. For the cohort reaching 18 in 2000, the proportion of young people from Sunderland who entered higher education at age 18 or 19 was 19 per cent.

Overseas Students

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills which 50 *(a)* universities and *(b)* further education colleges have the highest numbers of non-European Union students registered for courses; and how many such students each has registered. [170438]

Bill Rammell: The information is as follows:

(a) The latest available information for universities is given in the following table. Figures for 2006/07 will be available in January 2008.

50 higher education institutions in England with the highest number of non-EU enrolments[1], academic year 2005/06

Higher Education Institution	*Non-EU enrolments*
The University of Manchester	5,195
The University of Nottingham	4,830
The University of Warwick	4,500
The University of Oxford	4,195
London School of Economics and Political Science	4,160
Middlesex University	3,825

Student Loans Company

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many reviews were conducted by his Department and its predecessor into the workings of the Student Loans Company in the last three years; and if he will place the results in the Library. [175710]

Bill Rammell: There have been no reviews solely of the Student Loans Company in the last three years. However an end to end review of student finance delivery in England was commissioned in 2005. The review looked at the arrangements for delivering financial support to students, including the future role of the Student Loans Company. The findings of the review were published on 31 January 2006 and a copy of the report has been placed in the Library. On 3 July 2006, I announced in a statement to the House our response to the review including plans for transforming the student finance service which will be available for new students applying in September 2008 to enter higher education in 2009/10 academic year.

Tom Brake: To ask the Secretary of State for Innovation, Universities and Skills how many students from each London borough entering higher education applied for loans from the Student Loans Company in each year since 1997. [169231]

Bill Rammell: The available data are given in the table.

Number of students[1] in receipt of student loans. Students domiciled in each of the London boroughs. Academic years 1997/98 to 2006/07

Written Answers to Questions

Monday 14 January 2008

OLYMPICS

Look of London

Hugh Robertson: To ask the Minister for the Olympics pursuant to the answer of 17 December 2007, *Official Report*, column 919W, on Look of London, who was responsible for drawing up the estimate for the funding allocated to the Look of London while hosting the 2012 Olympic Games; and if she will make a statement. [177946]

Tessa Jowell: An allowance of £40 million for street dressing and cleaning to improve the Look of London was included in the original public sector funding package announced in 2003 and was reported by the Culture, Media and Sport Committee in their Third Report of Session 2002-03 "A London Olympic Bid for 2012" HC 268. The allowance was estimated by DCMS and was based on spending in Manchester on the Commonwealth Games. The allowance was revised downwards to £32 million, as a result of the cost review carried out by DCMS after the bid was won, and this amount was included in the revised public sector funding package that I announced on 15 March 2007. The expenditure on Look of London is not programmed until 2011-12 and 2012-13 and the details of how and to what extent the funds from this allowance will be drawn on will be determined before then.

ELECTORAL COMMISSION COMMITTEE

Northern Ireland Certification Officer

Mr. Tyrie: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what meetings the Electoral Commission has had with the Northern Ireland Certification Officer since the establishment of the commission. [177707]

Peter Viggers: The Electoral Commission informs me that it has had no meetings with the Northern Ireland Certification Officer.

Political Parties: Donors

Mr. Tyrie: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 11 December 2007, *Official Report*, column 351W, on political parties: donors, on what date the most recent version of the donation and loans guidance was sent to each political party. [177708]

Peter Viggers: The Electoral Commission informs me that the guidance was published on 1 September 2006. A letter was sent on 8 September 2006 to all registered party treasurers in Great Britain announcing the publication of the guidance and its availability on the commission's website.

Political Parties: Finance

Mr. Tyrie: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 17 December 2007, *Official Report*, column 922W, on political parties: finance, on what date the document, "Donations and loans: guidance for political parties in Great Britain" was sent to the Registered Treasurer of each registered political party; and whether the document was emailed or posted. [177706]

Peter Viggers: The Electoral Commission informs me that the guidance was published on 1 September 2006. A letter was sent by post on 8 September 2006 to all registered party treasurers in Great Britain announcing the publication of the guidance and its availability on the commission's website.

WALES

Departmental Christmas Cards

Mr. Burns: To ask the Secretary of State for Wales how much his Department spent on (*a*) Christmas cards and (*b*) postage of Christmas cards in 2007. [176912]

Mr. Hain: My Department spent £710.83 on Christmas cards in 2007.

Postage records are not in a format that allows individual items to be singled out. This could be obtained only at a disproportionate cost.

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Wales what the (*a*) objective and (*b*) value was of each contract placed with (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by his Department in each year since 2004-05. [179027]

Mr. Hain: The Wales Office has not entered into any contracts, consultancies or other services with the aforementioned companies since 2004-05.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Wales whether personal data for which his Department is responsible is (*a*) stored and (*b*) processed overseas; and if he will make a statement. [176011]

Mr. Hain: My Department does not store or process personal data overseas.

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Wales what obligations his Department and its agencies place on contractors in relation to the audit of personal data and IT equipment. [176471]

Mr. Hain: Within my Department, contractors have not conducted any audits of personal data.

All IT is provided to my Department under Ministry of Justice (MOJ) PFI contracts. Any audits would meet with regulations issued by MOJ. To date there have been no IT audits.

Mrs. Villiers: To ask the Secretary of State for Wales what audits his Department carried out in relation to personal data and IT equipment in each of the last 10 years. [176486]

Mr. Hain: My Department has not carried out any audits on personal data in the last 10 years.

Since 2004 all IT equipment within my Department has been provided under Ministry of Justice PFI contracts. There have been no audits within that time.

Prior to 2004 IT equipment was provided by the Welsh Assembly Government. The information could be obtained only at a disproportionate cost.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Wales whether any of his Department's special advisers also work for organisations outside his Department. [178471]

Mr. Hain: Neither of my special advisers work for any outside organisations.

Departmental Pay

Mr. Harper: To ask the Secretary of State for Wales what salary each of his Department's Ministers drew *(a)* in 2006-07 and *(b)* since July 2007. [178956]

Mr. Hain: Ministerial salaries are paid in accordance with the Ministerial and Other Salaries Act 1975. Details of ministerial salaries are available at:

http://www.parliament.uk/documents/upload/m06.pdf

and in the Library of the House.

English Language

Damian Green: To ask the Secretary of State for Wales how much his Department has spent on English language classes for staff in the last year for which figures are available. [177428]

Mr. Hain: Nil.

WOMEN AND EQUALITY

Domestic Violence

Philip Davies: To ask the Minister for Women and Equality what plans the Government has to increase support for families affected by domestic violence. [172807]

Barbara Follett: Action on the National Domestic Violence Plan, including the delivery of support to victims and their families, is monitored through the Inter-departmental Ministerial Group on Domestic Violence, on which I sit.

A lot has been done to improve and increase the support available for families affected by domestic violence:

This year, the Home Office has allocated just under £6 million to tackle domestic violence including £2 million to support and improve local delivery on domestic violence for victims and their children and funding for improved public protection arrangements for domestic violence victims and a matrix of help lines to provide advice and support to victims and their families.

The Ministry of Justice has allocated £3 million for Independent Domestic Violence Advisers whose aim is the safety and support of victims and their children. This is in addition to annual court business costs.

The Every Child Matters: Change for Children programme aims to improve the welfare of all children by putting in place arrangements for earlier and more effective assessment and intervention for vulnerable children, such as those affected by domestic violence.

Communities and Local Government has developed a range of accommodation options for victims including Sanctuary scheme guidance, and £61 million of Supporting People funds were used by local authorities in 2006-07 to provide housing related support for victims of domestic violence and their families.

Guidance available for Jobcentre Plus staff provides advice about domestic violence and its potential impact on victims, explains the sorts of support they may need and provides advice on taking account of their particular circumstances when dealing with a benefit application. The guidance also has contact details of a range of organizations which provide advice and support to domestic violence victims.

Financial support in respect of children, such as child benefit and child tax credits, is paid to the person who is responsible for those children and is often already paid directly to mothers. Where there is any family breakdown, the benefits will, where necessary, normally be transferred to the person with whom the children are residing.

Domestic violence tears apart families and always negatively impacts on children. The Government recognise the strong links between child protection concerns and domestic violence. Victims leaving a violent relationship will often need a range of financial and practical support for themselves and their children. The Inter-departmental Ministerial Group will continue to monitor this aspect of delivery.

Equality

Jo Swinson: To ask the Minister for Women and Equality whether a racial impact assessment was carried out on the decision to reform the Women and Equality Unit as the Government Equalities Office. [170587]

Barbara Follett *[holding answer 13 December 2007]*: No. The decision to create the Government Equalities Office did not in itself require a race equality impact assessment.

Human Trafficking

Mrs. May: To ask the Minister for Women and Equality what estimate she has made of the number of trafficked people who arrived in the UK in each of the

last five years, broken down by (*a*) country of origin and (*b*) sex; and how many of these were (i) British and (ii) foreign nationals. [174507]

Barbara Follett: The most up to date estimate suggests that at any one time in 2003 there were approximately 4,000 victims of trafficking for prostitution in the UK.

However, no research has been undertaken which would provide a basis for estimates of the number of trafficked people arriving in the UK in the last five years broken down by (*a*) country of origin or (*b*) sex, or for estimates on how many of these victims were (i) British or (ii) foreign nationals.

We do know that the top four nationalities of victims referred to the Poppy project are Lithuania/Albania/Nigeria and Thailand. The project has found that the largest number of referrals are for women aged between 17-25 years.

Religion: Harassment

Jo Swinson: To ask the Minister for Women and Equality what the Government's policy is on the introduction of a religious harassment offence covering insulting or abusive language. [170297]

Barbara Follett: The Government introduced statutory protection from harassment on grounds of religion or belief in employment and vocational training in 2003, as part of the Employment Equality (Religion or Belief) Regulations. As a consequence, where an individual is subjected to unwanted conduct in the workplace, which violates their dignity or creates an intimidating, hostile, degrading or offensive environment for them, they have recourse to a civil remedy through employment tribunal.

As part of the Discrimination Law Review, we recently consulted on the possibility of extending similar statutory protection from harassment on grounds of religion or belief in the provision of goods, facilities and services, education in schools, the management or disposal of premises and in the exercise of public functions.

The Government Equalities Office is currently analysing over 4,000 responses which were received as a result of the consultation, and we will carefully consider the views expressed in these responses before any decisions are taken.

The aim of any provisions in this area would be to clarify the existing protection from less favourable treatment because of a person's religion or belief when accessing goods, facilities or services, offered by part 2 (religion or belief) of the Equality Act 2006. If we decided to legislate in this area, it would not affect social interaction between private individuals, or prevent proselytising in the street. As with the employment provisions, harassment provisions in this context would give rise to civil remedies, not create any criminal offences of religious harassment.

The separate, criminal offence of incitement to religious hatred came into force on 1 October 2007. This covers threatening words and behaviour which is intended to stir up religious hatred.

LEADER OF THE HOUSE

Members: Pay

Mr. Evans: To ask the Leader of the House what the cost of the Senior Salary Review Body's most recent review of hon. Members' and Ministers' pay was. [178054]

Ms Harman: The current cost of the review is £136,296 and covers SSRB Members' fees, and travel and subsistence, and consultancy costs. The cost of publishing the report has not been finalised.

CULTURE, MEDIA AND SPORT

Archaeology: Finance

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport why funding for the Portable Antiquities Scheme was not ring-fenced in the Comprehensive Spending Review; and if he will make a statement. [176798]

James Purnell *[holding answer 7 January 2008]:* The Portable Antiquities Scheme (PAS) is funded by the Museums, Libraries and Archives Council (MLA) and so any decisions on its funding are a matter for the MLA. The MLA has already committed to maintain current levels of support for the scheme for 2008-09. Since the 2004 spending review, the Department's funding allocation to the MLA has not included ring-fencing for the PAS.

Casinos: Planning Permission

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport when he plans to bring forward proposals to authorise the development of 16 small and large casinos; and if he will make a statement. [178324]

Mr. Sutcliffe: In July 2007 the Secretary of State wrote to the 16 licensing authorities recommended for the eight large and eight small casinos to see if they still wished to license a casino. Ministers are now considering the next steps.

Culture

Mr. Hayes: To ask the Secretary of State for Culture, Media and Sport what the role of the cultural ambassador for the United Kingdom is; if he will break down the allocated budget by mission statement priorities; and what prior discussions were held with the British Council on respective responsibilities and avoiding duplication. [178216]

Margaret Hodge: The World Collections programme, which will be chaired by Neil MacGregor, director of the British Museum, (acting as a cultural ambassador for the UK), will share the best of British cultural excellence and expertise with museums in Africa and Asia.

The programme will receive £3 million over three years from April 2008. This will be spent on supporting activities agreed by the six partner organisations (British Museum, British Library, Tate, Royal Botanic Gardens Kew, Natural History Museum and V&A) with further details to be determined.

We have worked closely with the British Council and others in developing this programme, which is fully supported by all involved.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for Culture, Media and Sport pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's (*a*) main estimate and (*b*) winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174988]

Margaret Hodge: Near-cash and non-cash are essentially used as Departmental Expenditure Limit (DEL) budgetary control concepts and are not specifically identified with voted resources in Estimates. However, we have been able to break down net total resources for each section in the Part II: Subhead detail table of our Main and Winter Supplementary Estimates.

Line F, funding for the Royal Parks Agency in RfR1 includes non-cash costs of £2.571 million which did not increase in the Winter Supplementary Estimate. Similarly Line 1, relating to Administration and Research has non-cash costs totalling £5.947 million that have not increased in year. All other provision in the Estimate is near cash.

Domestic Visits

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport if he will list each event attended by the Minister for Sport in an official role since June; and what the cost of facilitating attendance was in each case. [166020]

Mr. Sutcliffe: The following table lists each event I have attended in an official role since June 2007:

Date	*Event*
6 July	Langley House Trust Awards Ceremony, Bradford
8 July	British Grand Prix, Silverstone
17 July	Northampton Racecourse Park Changing Facilities Opening Launch
28 July	Bulls vs St. Helens, Challenge Cup Semi Final, Huddersfield
3 August	Grand Prix Athletics, Crystal Palace
4 August	England vs Wales, Twickenham
5 August	Manchester United vs Chelsea (Charity Shield), Wembley
25 August	St. Helens vs Catalan Dragons, Carnegie Challenge Cup Final, Wembley
26 August	UK School Games, Coventry
5 September	Your Game reception, 11 Downing Street
6 September	Visit to Warrington Town FC and Warrington Wolves
7 September	Junior Whitter vs Vivian Harris, Doncaster
12 September	England vs Russia, Wembley Stadium
14 September	England vs South Africa, Stade de France
15 September	Racing at Doncaster
2 October	British Olympic Association Annual Ball, London
8 October	Boston Celtics Reception, Foreign Office
9 October	Gamcare Annual Conference, London
10 October	Boston Celtics vs Minnesota Timberwolves NBA exhibition match, 02 Arena, London
13 October	Super League Grand Final, Old Trafford
15 October	Annual Outstanding Service to Cricket Awards, Lords Cricket Ground
16 October	Visit to English Institute of Sport, Loughborough
17 October	Wheel Appeal Launch, London
20 October	England vs South Africa World Cup final, Paris
22 October	Boxing Writers Club dinner, London
24 October	EU Sports Ministers Conference, Estoril, Portugal
30 October	Responsibility in Gambling Trust Seminar, London
1 November	IT Sports Industry Cocktail Reception, London
2 November	Sport and Recreation Association Moulin Rouge Charity dinner, Bradford
3 November	Joe Calzaghe vs Mikkel Kessler, Millennium Stadium, Cardiff
7 November	Visit to Olympic Park, Stratford
8 November	Visit to Silverstone Circuit
12 November	World Class Coaching Conference dinner, Sutton Coldfield
13 November	Stewards of the National Greyhound Club Dinner, London
14 November	Society and the Value of Sport Conference, London
14 November	Remote Gambling Association AGM, London
14 November	Business in Sport and Leisure Lunch, London
15 November	World Anti-Doping in Sport Conference, Madrid
20 November	Institute of Licensing Conference, Bristol. Visit to Bath University sports facilities
21 November	England vs Croatia, Wembley
22 November	BACTA Convention, London
24 November	Visit to Haydock racecourse
26 November	Visit to Fulham FC training ground, New Malden
28 November	DCLG Living Places Launch, London
28 November	Surf Life Saving Great Britain and rescue 2010 Great Britain reception, London
29 November	Angling Awards Ceremony, London
2 December	PFA Centenary Event, Manchester
3 December	Yorkshire Sports Awards, Brigg
5 December	Launch of Coping Through Football, Emirates Stadium, London
6 December	Queensbury Rugby League Dinner, Bradford
9 December	BBC Sports Personality of the Year, Birmingham
12 December	Sports Journalists Association Award Lunch, London
12 December	Annual UK Coaching Awards, London
15 December	Red card against racism event, Valley Parade, Bradford
19 December	BBC Sports Weeks Lunch

Details of costs for each individual case is not held centrally by the Department. However, details of any expenditure in 2007-08 will be available when the Department's resource accounts are fully audited and laid before Parliament.

All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers.

Music: Young People

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what steps his Department has (*a*) taken since 1997 and (*b*) plans to take in each of the next three years to make music studios more accessible to young people; what discussions he has had since June 2007 with representatives of the music industry about this issue; and if he will make a statement. [177320]

Margaret Hodge: The Government recognise the importance of young, developing musicians having access to affordable and professional facilities to rehearse and perform live music. That is why, following a recommendation by the Live Music Forum, we recently asked Feargal Sharkey, the ex-chair of the Forum, to work with local authorities, the music industry and other partners over the next two years to establish a number of pilot music rehearsal spaces across the country. £500,000 has been allocated to assist with the cost of setting up these pilots. In the longer term, we will continue to explore what other funding streams may be available for this purpose, such as our proposed unclaimed assets scheme. As part of this initiative, my officials have spoken to representatives of the British phonographic industry, the Association of Independent Music and Sony BMG Music Entertainment (UK) who have agreed to assist.

Olympic Games 2012: National Lottery

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport what proportion of National Lottery funding for good causes will be allocated to hosting the London 2012 Olympic Games in each relevant year. [177110]

James Purnell: As announced on 15 March 2007, and subject to parliamentary approval, we intend to transfer £1,085 million from the national lottery distribution fund to the Olympic Lottery Distribution Fund. The profile of these transfers by year is as follows:

	£ million
2008-09	73
2009-10	292
2010-11	292
2011-12	292
2012-13	136

In addition, the Sport Lottery distributors will be spending £340 million on Olympic-related projects, the profile of which is at their discretion; and £750 million is being raised from dedicated Olympic Lottery products from 2005-06, the timing of which is dependent on the commercial view of the operator and the regulator.

On current projections, the £2,175 million total contribution to the Olympics represents less than 20 per cent. of expected Lottery income over the eight years from 2005-06 to 2012-13.

Tourism

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport on how many occasions (*a*) he and (*b*) the Minister for Tourism has met (i) VisitBritain, (ii) the Tourism Alliance and (iii) other tourism related organisations in the last 12 months. [176898]

Margaret Hodge: Over the last 12 months my right hon. Friend the Secretary of State and his predecessor held the following meetings:

	Meeting
22 January 2007	Meeting with Christopher Rodrigues, Chairman, Visit Britain
12 March 2007	Attended the launch British Tourism week
13 March 2007	Attended the British Travel Fair in Birmingham
24 April 2007	Meeting with Christopher Rodrigues, Visit Britain
18 July 2007	Meeting with Christopher Rodrigues and Tom Wright, Visit Britain
7 August 2007	Meeting with the Tourism Industry Emergency Response group (TIER)
14 August 2007	Breakfast meeting with TIER
18 October 2007	Meeting with Christopher Rodrigues and Tom Wright, Visit Britain
15 November 2007	Meeting with Brian Wisdom, People 1st

I and my predecessor held the following meetings:

	Meeting
30 November 2006	Speaking at the Business in Sport and Leisure Conference
17 January 2007	Meeting with the Business Tourism Partnership Forum
24 January 2007	Meeting with the Tourism Management Institute, Destination Performance UK, Tourism Society, Institute of Leisure and Amenities Management and British Resort and Destinations Association
19 January 2007	Meeting with Christopher Rodrigues, VisitBritain
19 January 2007	MAG Meeting
19 January 2007	Meeting with Tom Wright, VisitBritain
7 March 2007	4th Tourism Skills Summit
12 March 2007	Attended the Launch of British Tourism Week
27 March 2007	MAG Meeting
18 April 2007	Meeting with the Tourism Alliance
30 April 2007	Meeting with Grant Hearn, Travelodge Ltd.
2 May 2007	Meeting with Grant Hearn, Travelodge Ltd.
9 May 2007	MAG Meeting
14 May 2007	The British Holiday and Home Parks Association, and Norfolk tourism businesses representatives
8 June 2007	Liverpool tourism business representatives
18 June 2007	Dudley tourism business representatives
21 June 2007	MAG Meeting
11 July 2007	Meeting with TIER
17 July 2007	Meeting with Bob Cotton, British Hospitality Association, and Brigid Simmonds, Business in Sport and Leisure
18 July 2007	Meeting with Ros Pritchard, British Holiday and Home Parks Association and Peter Hampson, British Resort and Destinations
18 July 2007	Meeting with Christopher Rodrigues and Tom Wright, Visit Britain

	Meeting
10 July 2007	Meeting with Hugh Taylor, Hilton Group
25 July 2007	The British Educational Travel Association Summer Reception
11 September 2007	Meeting with the Tourism Alliance
17 September 2007	Launch of the DCMS Tourism Strategy for the 2012 Olympic and Paralympic Games
10 October 2007	Launch of Partners 4 England
16 October 2007	National Visitor Attractions Conference
16 October 2007	Meeting with Destination Performance UK and Tourism Together
18 October 2007	Meeting with Tom Wright and Christopher Rodrigues, VisitBritain
22 October 2007	Land Use Planning and Tourism Regional Seminar
25 October 2007	Meeting with Michael Hirst and Representatives from the Events Sector
12 November 2007	Meeting with Lancashire and Blackpool Tourism Board
15 November 2007	Breakfast Meeting with the Tourism Alliance
26 November 2007	Meeting with Bob Cotton of British Hospitality Association
28 November 2007	Launch of the Good Employer Guide
28 November 2007	National Skills Strategy Monitoring and Implementation Group
29 November 2007	Meeting with Tom Wright and Christopher Rodrigues (CSR)
3 December 2007	Visitor Attractions Forum
5 December 2007	Tourism APPG Dinner
13 December 2007	VisitBritain Board Meeting

Tourist Information: Rural Areas

Tim Farron: To ask the Secretary of State for Culture, Media and Sport how many tourism information centres in rural areas have been closed in each of the last five years, broken down by local authority area. [178461]

Margaret Hodge: Figures on an annual basis by local authority area are not available.

Television Licensing

Mr. Dismore: To ask the Secretary of State for Culture, Media and Sport how many pensioners over 75 years in Hendon have free television licences.[177500]

James Purnell: TV Licensing, which administers free television licences for people aged 75 or over as agents for the BBC, is not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over claiming the winter fuel payment in the Hendon constituency in 2006-07 was 5,820, according to the records of the Department for Work and Pensions.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Head Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether the National Professional Qualification for Headship will be compulsory for all new head teachers of academies, including those changing schools; and if he will make a statement. [177013]

Jim Knight: The National Professional Qualification for Headship is not compulsory for new head teachers of Academies. However, we would expect all Academies to have robust policies in place for the performance management and continuing professional development of all staff.

Children and Family Court Advisory and Support Service

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families (1) how many section 7 cases were completed by the Children and Family Court Advisory and Support Service in each of the last five financial years; and what the cost was of such work; [175760]

(2) which Children and Family Court and Advisory Support Service regions will be recruiting additional staff during the 2007-08 financial year; and what estimate he has made of the cost of such additional staff. [175759]

(3) what plans he has to recalculate workload measurements for Children and Family Court and Advisory Support Service staff; and whether this will involve additional expenditure; [175758]

(4) on how many occasions Children and Family Court Advisory and Support Service staff were involved in early intervention or dispute resolution during the financial year 2007-08; and what the cost was of such work. [175761]

Kevin Brennan: These are matters for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the Chief Executive, will write to the hon. Member with this information and a copy of his reply will be placed in the Library.

Letter from Anthony Douglas, dated 9 December 2007:

I am writing to you in response to the four Parliamentary Questions that you tabled recently.

175760 To ask the Secretary of State for Children, Schools and Families, how many section 7 cases were completed by the Children and Family Court Advisory and Support Service in each of the last five financial years, and what the cost was of such work.

175759 To ask the Secretary of State for Children, Schools and Families, which Children and family Court Advisory Support Service regions will be recruiting additional staff during the current financial year, and what the estimated cost is of such additional staff.

175758 To ask the Secretary of State for Children, Schools and Families, what plans he has to recalculate workload measurements for children and Family Court and Advisory Support Service staff, and whether this will involve additional expenditure.

Another MP (Ms Julie Morgan, Parliamentary Questions 162332, 162296 and 162297) has asked similar questions for the above three parliamentary questions. A response was sent on 3 December 2007 and a copy can be found in the House Library.

175761 To ask the Secretary of State for Children, Schools and Families, on how many occasions Children and Family Court Advisory and Support Service staff were involved in early intervention or dispute resolution during the financial year 2007-08 and what the cost was of such work.

We have provided figures from April 2007 to end of November 2007 in the table below. However, as Unit Costs are calculated at the end of each financial year we have used the Unit Cost figures

from 2006-07, therefore these figures should be considered as indicative only. The cost has been calculated by multiplying the number of hours spent on Dispute Resolution in the year by the Unit Cost[1] (2006-07) for an hour of practitioner activity. Statistics do not currently fully capture all case related support activity and we plan a diary survey in the spring which will enable us to make more accurate calculations and calculate averages in respect of time taken on such work. Related activity in screening cases coming before the courts prior to embarking on Dispute Resolution is also not included in these figures but plays an important part in ensuring appropriate safeguards are in place.

Financial year	Total dispute resolution hours	Unit cost (£ per hour)[2]	Total cost (£)
April 2007 to November 2007 (does not incl. Wales)	47,642	50	2,382,100

[1] Unit costs are calculated at the end of each financial year dividing the total Direct[2] spend for the Organisation by the estimated number of hours spent on Public and Private Law cases completed in the year. As unit costs are not available for the period April to November 2007 we have used the unit cost for 2006/07.

[2] Direct spend only includes costs directly linked to practice e.g. Staff Salary, Training, Travel and Subsistence. It does not include indirect costs e.g. Accommodation, Recruitment and Utilities.

Another MP (Ms Julie Morgan Parliamentary Question 162333) has asked a similar question for the above parliamentary question. A response was sent on 3 December 2007 and a copy can be found in the House Library.

A copy of this reply will be placed in the House Library.

Education: Isle of Wight

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 19 November 2007, *Official Report*, column 630W, on education: Isle of Wight, for what reason the recent presentation by his Department's officials on challenges facing schools on the Isle of Wight described schools reorganisation as necessary; and if he will make a statement. [178049]

Jim Knight: The presentation given by DCSF officials on 15 November 2007 was given on the basis of existing proposals, then under consideration. The Department did not recommend the re-organisation of schools on the Isle of Wight but it was stated that re-organisation on its own would probably not be sufficient to raise the standards of attainment in the authority's schools. It was made clear that any decision to reorganise would be entirely for local decision within the Isle of Wight, but that the problems in relation to school under-performance were immediate and re-organisation alone will not be sufficient to resolve them.

Pupils: Assessments

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what percentage of school pupils in Hendon achieved *(a)* level 4 or above at key stage 2 and *(b)* level 5 or above at key stage 3 in (i) English, (ii) mathematics, (iii) science and (iv) English, mathematics and science in 2007. [177731]

Jim Knight: The latest available information is set out in the following tables:

Percentage of school pupils achieving level 4 or above at key stage 2, 2007

	Percentage of pupils achieving level 4 plus			
	English	Mathematics	Science	English, mathematics and science
Hendon	85	80	89	75
England	80	77	88	71

Notes

1. Revised data.
2. England figures are based on all schools.

Percentage of school pupils achieving level 5 or above at key stage 3, 2006

	Percentage of pupils achieving level 5 plus			
	English	Mathematics	Science	English, mathematics and science
Hendon	81	82	77	71
England	73	77	72	63

Notes

1. Final data.
2. England figures are based on all schools.

Key stage 3 2007 revised data are scheduled for publication in February 2008.

Schools: Admissions

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many appeals were lodged by parents against non-admission of their children to schools in Barnet in the last year for which figures are available; what percentage of appeals were successful; where Barnet ranks in each case in relation to other local education authorities in *(a)* London and *(b)* England; and if he will make a statement. [177496]

Jim Knight: Information from the School Census and Admission Appeals Survey shows that in 2005/06, the latest year for which data is available, there were 66 appeals lodged by parents against non-admission to primary schools in Barnet local authority, 42.9 per cent. of which were successful; and 704 appeals lodged by parents against non-admissions to secondary schools in Barnet local authority, 24.9 per cent. of which were successful.

In terms of the numbers of appeals lodged, Barnet local authority ranks: *(a)* 20th out of 33 at primary and 4th out of 33 at secondary when compared with all London authorities; and *(b)* 50th out of all 150 at primary and 18th out of all 150 at secondary when compared with all local authorities in England, where the authority ranked 1 has the highest number appeals lodged.

In terms of the percentage of successful appeals, Barnet local authority ranks: *(a)* 2nd out of 33 at primary and 4th out of 33 at secondary when compared with all London local authorities; and *(b)* 50th out of 150 at primary and 105th out of 150 at secondary when compared with all local authorities in England, where the authority ranked 1 has the highest percentage of successful appeals.

Schools: Capital Investment

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families which schools in Hendon have received capital funding from the Government since 1997; how much each school received; how much of that funding was for *(a)* new school buildings and *(b)* major repairs; and if he will make a statement. [177729]

Jim Knight: Capital allocations are made by the Department to local authorities and to schools, who prioritise how they are spent in local asset management plans. Departmental allocations may also be supplemented by other resources available locally. The Department does not impose conditions on how resources should be spent and, accordingly, does not keep records of the split between *(a)* new school buildings and *(b)* major repairs.

Total allocations are recorded by the Department on a local authority basis, and Hendon lies within Barnet. Allocations to Barnet and its schools for the period 1997-98 to 2007-08 are set out in the following table:

	£ million
1997-98	1.8
1998-99	5.6
1999-2000	3.9
2000-01	11.9
2001-02	7.5
2002-03	15.9
2003-04	12.0
2004-05	18.5
2005-06	15.1
2006-07	41.4
2007-08	13.6

Large changes in allocations from year to year are due to bid-based projects, and these supplement formulaic allocations. In 2004-05 and 2005-06, £6.8 million and £4.4 million was allocated respectively for Targeted Capital Fund projects. In 2006-07, an additional £28.4 million was allocated in respect of a Building Schools for the Future school pathfinder project.

Schools: Uniforms

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what steps he is taking to ensure schools' uniform policies are fair, reasonable and inclusive. [177702]

Jim Knight: The Department published guidance in October 2007 which provides advice to schools on how to formulate fair, reasonable, affordable and inclusive school uniform policies.

In addition, the School Admissions Code makes clear that all governing bodies must take steps to ensure that their policies, including school uniform policies, do not disadvantage certain social groups or discourage some groups of parents from applying for places.

Schools: Wolverhampton

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the merits of proposals to create project-based rather than discipline-based schools in Wolverhampton. [177303]

Jim Knight: I have made no assessment of the merits of these proposals. Schools are required to teach pupils all of the statutory content of the programmes of study for the compulsory subjects specified for each of the Key Stages.

How schools design their curriculum and structure their teaching and learning to ensure that they meet the statutory requirements of the curriculum is entirely a matter for them. Wolverhampton schools will be expected to monitor the effectiveness of their project-based curriculum, while Ofsted will provide an external assessment.

Science: GCE A Levels

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of *(a)* the academic rigour of and *(b)* the ability level required to study A level (i) physics and (ii) chemistry courses; and if he will make a statement. [177312]

Jim Knight: It is for the Qualifications and Curriculum Authority (QCA) as the qualifications regulator to ensure maintenance of standards in A level, including the level of what is assessed and the rigour applied in doing so. QCA is robust in ensuring that standards are maintained: with reference to A levels, an OECD Independent Committee on exam standards concluded in late 2004 that:

"No examination system at the school or other level is so tightly or carefully managed".

Last year QCA accredited new A level specifications, including in physics and chemistry, which will be taught from September this year. As these are revised qualifications, QCA has proposed that it will take a more active role in monitoring the setting of the first question papers to ensure that standards are maintained.

Special Educational Needs: Manpower

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how many special educational needs co-ordinators there were per pupil in each local authority in each year since 2001; and if he will make a statement; [177218]

(2) how many special educational needs co-ordinators were employed in maintained schools in each year since 2001. [177219]

Jim Knight: The information requested is not collected centrally.

Specialist Diplomas

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families which schools in Hendon will offer the new diplomas from September 2008; what financial assistance they will receive from his Department to do so; and if he will make a statement. [177728]

Jim Knight: Schools, colleges and other providers wishing to offer the new Diplomas need to pass through a Gateway process, which assesses their readiness for doing so. We did not receive a Gateway application from schools in Hendon to offer the new Diplomas from September 2008. We have, however, received an application from a consortium in Barnet aiming to offer the Creative and Media Diploma from September 2009. This consortium includes Copthall School from Hendon. The London Academy is also a partner in a joint application to offer the Construction and Built Environment Diploma from a group of North London boroughs. We plan to announce the results of this year's Gateway exercise by the end of March and financial assistance will depend upon whether these applications are successful.

Local authorities with pupils starting Diplomas in 2009 will receive funding for pupils taking Diplomas at Key Stage 4 through the Diploma grant and through the Dedicated Schools Grant. The Learning and Skills Council will provide funding for 16 to 18-year-olds taking Diplomas in sixth forms and colleges. Other support will also be provided to those who pass through the Gateway in March 2008 to ensure they are fully equipped to deliver from September 2009. This will include a comprehensive package of work force training and support, and a specific Gateway support grant to support Diploma and Functional Skills delivery.

PRIME MINISTER

Afghanistan: Peacekeeping Operations

Mr. Hoban: To ask the Prime Minister what discussions he has had with Government officials on negotiations with the Taliban in Afghanistan; and if he will make a statement. [178555]

The Prime Minister: I have nothing further to add to my statement on Afghanistan on 12 December 2007, *Official Report*, column 303.

Armed Forces: Deployment

Mr. Arbuthnot: To ask the Prime Minister on how many occasions and on what dates when he was Chancellor of the Exchequer he visited British troops deployed abroad. [177116]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House.

Armed Forces: Mental Health Services

Mr. Hoban: To ask the Prime Minister whether his predecessor visited the combat stress centres at *(a)* Tyrwhitt House, *(b)* Hollybush House and *(c)* Audley Court between 1 April and 26 June 2007. [179083]

The Prime Minister: I refer the hon. Member to the answer given by my predecessor (right hon. Tony Blair) to the hon. Member for Forest of Dean (Mr. Harper) on 15 February 2006, *Official Report*, column 2032W.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Prime Minister whether any of his Department's special advisers also work for organisations outside his Department. [178490]

The Prime Minister: Special advisers are appointed under the terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

Departmental Redundancy

Mr. Hoban: To ask the Prime Minister what the cost was of redundancies in his Office in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175331]

The Prime Minister: I refer to the hon. Member to the answer given by my hon. Friend the Parliamentary Secretary, Cabinet Office (Gillian Merron) today.

Lord Ashcroft

Mr. Gordon Prentice: To ask the Prime Minister if he will instruct the Cabinet Secretary to respond to the request of the hon. Member for Pendle, made at the meeting of the Public Administration Select Committee on 15 November 2007, for information on the nature of the undertaking given by Michael Ashcroft in 2000 about his UK residence for tax purposes. [177910]

The Prime Minister: The Cabinet Secretary has replied to my hon. Friend.

Trade Unions

Mr. Hoban: To ask the Prime Minister what discussions he has had with trade unions officials on a future national policy forum. [178556]

The Prime Minister: My officials and I have meetings with a wide range of organisations and individuals on a range of subjects.

NORTHERN IRELAND

Antisocial Behaviour Disorders

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many antisocial behaviour orders were issued in each parliamentary constituency in Northern Ireland in 2007. [178492]

Paul Goggins: The relevant authorities have notified the Northern Ireland Office of 60 antisocial behaviour orders being granted in Northern Ireland since they were made available in August 2004. The relevant authorities have reported that nine of these orders were made in 2005, 32 in 2006 and 19 in 2007.

Location of antisocial behaviour orders

Court area	*Total number of ASBOs*
Antrim	2
Ballymena	13

Location of antisocial behaviour orders

Court area	*Total number of ASBOs*
Bangor	2
Belfast	18
Coleraine	3
Craigavon	2
Derry	3
Downpatrick	2
Dungannon	3
Enniskillen	1
Larne	3
Lisburn	1
Magherafelt	1
Newry	3
Newtownards	2
Omagh	1

We do not collect data by parliamentary constituency.

Departmental Christmas Cards

Mr. Burns: To ask the Secretary of State for Northern Ireland how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176759]

Mr. Woodward: The following table gives a breakdown of the amount spent by the NIO on Christmas cards in 2007.

Christmas cards 2007

	£
Secretary of State's cards	823
Ministers' cards	576
Total	1,399

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Northern Ireland whether personal data for which his Department is responsible is *(a)* stored and *(b)* processed overseas; and if he will make a statement. [176015]

Paul Goggins: The Northern Ireland does not store or process personal data overseas.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Northern Ireland whether any of his Department's special advisers also work for organisations outside his Department. [178473]

Mr. Woodward: My special advisers do not work for any outside organisations.

Emergency Calls

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many 999 calls were received by the Police Service of Northern Ireland *(a)* in the year before the introduction of their non-emergency 0854 600 8000 number and *(b)* between November 2006 and October 2007. [171785]

Paul Goggins: The PSNI introduced its non-emergency number 0845 600 8000 on 1 November 2005. Between November 2006 and October 2007, more than 173,000 calls were made to this number.

The PSNI receives approximately 300,000 emergency 999 calls per annum.

Complete information on the number of 999 calls received by the PSNI is available from June 2007. For the periods November 2004 to October 2005 and November 2006 to May 2007, information is only available for 999 calls received within PSNI's Urban region. Systems were not in place to collate the number of 999 calls received within Rural region during these periods. Systems were implemented for Rural region from June 2007 with the introduction of enhanced technology and the consolidation of rural control rooms.

The figures do not permit comparisons to be made because of changes to district structures.

The total number of 999 calls received on a monthly basis from June to October 2007 is shown in the following table.

1997	*Total 999 calls received by PSNI*
June	19,457
July	20,788
August	21,022
September	20,124
October	21,004

Fuels: Smuggling

Miss McIntosh: To ask the Secretary of State for Northern Ireland what recent discussions he has had with police authorities in Northern Ireland and the Republic of Ireland on fuel smuggling; and if he will make a statement. [176849]

Paul Goggins: As Her Majesty's Treasury are the lead Department in respect of revenue fraud, HM Revenue and Customs have primacy in respect of fuel smuggling in Northern Ireland, and have strong and effective links with their counterparts in the Revenue Commissioners in the Republic of Ireland.

I have had recent discussions through the Organised Crime Task Force with the Police Service of Northern Ireland and HM Revenue and Customs in respect of tackling fuel smuggling; law enforcement agencies on both sides of the border work in partnership to disrupt fuel smugglers, confiscate their illegal assets and bring them before the courts.

Immigration Controls

Mr. Hollobone: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Home Department on the Common Travel Area; and if he will make a statement. [176091]

Paul Goggins: There is a review of the operation of the Common Travel Area under way at present. However, there is no question of ending the principle that Common Travel Area nationals are not subject to immigration control on the internal borders.

I have had discussions with the Immigration Minister in the Home Office about the Common Travel Area. These discussions will continue as the review progresses. My officials are also in regular contact with their counterparts in the Home Office on this issue.

Police Service of Northern Ireland: Graduates

Mr. Dodds: To ask the Secretary of State for Northern Ireland pursuant to his answer of 5 December 2007, *Official Report*, column 1212W, on Police Service of Northern Ireland: graduates, (1) if he will consider including educational qualifications as part of the Police Service of Northern Ireland recruitment process; [174856]

(2) if he will consider including educational qualifications as part of the Police Service of Northern Ireland recruitment process. [174862]

Paul Goggins: The recruiting process for regular constables assesses candidate competency against the role profile for the job. This is consistent with practice across the UK. Competencies tested reflect national standards and measure ability to perform the role. The Police Service of Northern Ireland is content that the recruiting process continues to meet best practice standards, and is confident that the police college student officer programme is comprehensive, robust and fit for purpose.

There are therefore no plans to introduce academic qualifications as pre-entry criteria.

Prisoner Escapes

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many prisoners have escaped custody while on their way to court in Northern Ireland in each of the last three years for which figures are available. [177870]

Paul Goggins: No prisoners have escaped from the custody of prison staff while on their way to court in Northern Ireland during the last three years. However, a high risk prisoner escaped from the holding cells at Lisburn courthouse on 7 June 2005 while in the custody of Maybin Custodial Services. The escape was fully investigated. Every effort is now made to avoid sending high risk prisoners to Lisburn. If necessary, additional safeguards are put in place.

Prisons: Telephones

Lady Hermon: To ask the Secretary of State for Northern Ireland what monitoring is undertaken of telephone calls made by inmates of Northern Ireland prisons. [175796]

Paul Goggins: In accordance with the prison rules, all telephone calls made by inmates in Northern Ireland prisons are recorded; they are randomly monitored for security reasons. The only exception to this is telephone calls to legal advisers and confidential calls to the Samaritans, Prisoner Ombudsman, Crimestoppers and addiction counsellors.

Regulation

Mrs. May: To ask the Secretary of State for Northern Ireland for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175318]

Mr. Woodward: The Northern Ireland Office has responsibility for the following regulators/inspectorates since 1997.

The cost of the Criminal Justice Inspection Northern Ireland was:

	£
2004-05	833,112
2005-06	1,277,718
2006-07	1,245,910

There were no costs for restructuring.

In addition, the Prisoner Ombudsman has been in existence since 2005 and their budget incorporates a Secretariat function for the Independent Monitoring Board for prisons. This could be disaggregated only at disproportionate cost. There were no costs for restructuring.

Schools

Adam Price: To ask the Secretary of State for Northern Ireland what procedure was used in selecting Mr. Vivian Thomas as consultant to the Bain Review; what remuneration he receives; and what role there was in the appointment process by his predecessor as Secretary of State, the right hon. Member for Neath. [179053]

Mr. Woodward: The Secretary of State ceased to be in charge of the Northern Ireland Departments on 8 May 2007 when devolution was restored and the Northern Ireland Executive took over responsibility. Papers relating to the appointment of Mr. Vivian Thomas are held by the Department of Education Northern Ireland which has been asked to provide me with the information requested by the hon. Member.

TRANSPORT

A1: Nottinghamshire

John Mann: To ask the Secretary of State for Transport what assessment she has made of the effect of the removal of the final three roundabouts on the A1 in Nottinghamshire on the safety of access to the road. [177850]

Mr. Tom Harris: The Highways Agency presented a safety assessment for each of the three junction improvements on the A1 in Nottinghamshire at their respective public inquiries. These junctions are three of six roundabouts that will be improved as part of the A1 Peterborough to Blyth grade separated junction improvement scheme.

The assessments indicate that safety will be improved as a result of the scheme. It will remove the existing roundabouts and replace them with new two-level

junctions allowing the A1 traffic to pass straight through the junctions with slip roads providing links to local roads.

It will remove conflicting traffic turning movements between the A1 and the local road network, reducing accidents and congestion.

Airports: Police

Harry Cohen: To ask the Secretary of State for Transport what the cost was to each local authority in London arising from the police service agreements for each designated airport servicing London in the latest period for which figures are available. [177046]

Jim Fitzpatrick: Police service agreements are currently being finalised at the nine designated airports in the UK, including the three serving London Heathrow, Gatwick and Stansted. The police costs set out in those agreements will be met by the airport operator and not local authorities.

Aviation: Mobile Phones

Tom Brake: To ask the Secretary of State for Transport what recent discussions have taken place between the Civil Aviation Authority and her Department on mobile telephone use in aeroplanes. [177287]

Jim Fitzpatrick: The Department sought information from the Civil Aviation Authority in July 2007 on the European Aviation Safety Agency certification of airborne global system for mobile communications (GSM), and this was provided.

Tom Brake: To ask the Secretary of State for Transport what the policy of *(a)* her Department and *(b)* the Civil Aviation Authority is on the use of mobile telephones in aeroplanes. [177288]

Jim Fitzpatrick: The Department's policy is not to object to the use of mobile telephones in aeroplanes, provided that the CAA states that their use is safe. The installation of systems that enable the use of mobile phones is a matter for individual airlines, who will take the views of their passengers into account.

The safety policy of the CAA is set out in the CAA's Aeronautical Information Circular (AIC) No. 1/2004, which is updated as necessary. This deals with the use of portable electronic devices of all kinds, including mobile telephones, in aircraft. It specifies the main categories of such equipment, and imposes a duty on operators to ensure the use of devices does not affect the safety of the aircraft.

Tom Brake: To ask the Secretary of State for Transport what recent research *(a)* her Department and *(b)* the Civil Aviation Authority has undertaken on the effect of mobile telephone use on planes on flight systems. [177289]

Jim Fitzpatrick: The most recent research undertaken on the effects on aircraft flight systems of mobile telephones used by passengers is CAA Paper 2003/03 entitled "Effects of Interference from Cellular Telephones on Aircraft Avionic Equipment", published 30 April 2003 at: www.caa.co.uk/docs/33/CAPA2003_03PDF

Tom Brake: To ask the Secretary of State for Transport what research *(a)* her Department and *(b)* the Civil Aviation Authority has undertaken on the effect of the introduction of mobile telephone use on aeroplanes on the incidence of air rage. [177290]

Jim Fitzpatrick: The Department for Transport and the Civil Aviation Authority (CAA) have not carried out any research on the effect of the introduction of mobile telephone use on aeroplanes on the incidence of air rage. However, the CAA's disruptive database does record incidents where mobile phones have been the subject of a disruptive passenger incident. Typical examples would include passengers refusing to turn off their mobile phones or attempting to use them in flight when asked not to.

Blue Badge Scheme

Mr. Harper: To ask the Secretary of State for Transport when the independent strategic review of the blue badge scheme will be published; and if she will place a copy in the Library. [178957]

Ms Rosie Winterton: I can confirm that the independent strategic review will be published shortly and copies will be placed in the House Library.

Blyth Flyover

John Mann: To ask the Secretary of State for Transport when she expects Blyth flyover to be opened on the A1 in Nottinghamshire; and what the contracted date for completion of the flyover is. [177849]

Mr. Tom Harris: The new bridge at Blyth opened to traffic on 19 December 2007. The new A1 passing under the new bridge carrying the local roads is planned to open to traffic in mid-March 2008.

The contractual date of completion of the junction is late April 2008.

British Railways Board: Property

Norman Baker: To ask the Secretary of State for Transport if she will place in the Library a list of all property, including railway structures, owned by the British Railways Board (Residuary). [178139]

Mr. Tom Harris: A list of BRB (Residuary) Ltd.'s (BRBR) railway structures was placed in the Library of the House in 2006. I will arrange for an updated list to be placed in the Library shortly. Details of BRBR's non-operational property are available on their website at www.brbr.gov.uk. The company also has leasehold interests in the following buildings.

Birmingham, Axis
Birmingham, Meridian
Crewe, Rail House
Croydon, Southern House
Croydon, Stephenson House
Liverpool, Rail House
London N1, Whittles House
London SE1, Friars Bridge Court

Manchester, Rail House
Nottingham, Furlong House
Orpington, Nightingale House
Southampton, Overline House

Cars: Fuels

Norman Baker: To ask the Secretary of State for Transport what percentage change there has been in the average fuel efficiency of cars sold in England in each year since 1997. [178134]

Jim Fitzpatrick: The annual changes in grammes-per-kilometre carbon dioxide emissions and litres-per-100-kilometres fuel consumption are as follows:

	Average new car CO_2 (g/km)	*Annual percentage change*	*Cumulative percentage change*	*Fuel consumption (l/100km)*	*Annual percentage change*	*Cumulative percentage change*
1997	190		0.0	7.96		0.0
1998	188	-0.7	-0.7	7.91	-0.6	-0.6

[1] 2007 figures for g/km CO_2 emissions come from the Society of Motor Manufacturers and Traders. Those for fuel consumption in 2007 are extrapolated from the SMMT figures.

Christmas

Mr. Burns: To ask the Secretary of State for Transport how much her Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176909]

Jim Fitzpatrick: The information is as follows.

Christmas cards 2007

	(a) Cards	£ *(b) Postage*
Central Department	1,737	Not recorded
Driver and Vehicle Licensing Agency (DVLA)	4,126	Not recorded
Driving Standards Agency	2,200	462
Maritime and Coastguard Agency	No card	
Vehicle and Operator Services Agency	No card	
Vehicle Certification Agency	No card	
Government Car and Despatch Agency	No card	
Highways Agency	No card	

Note:
Costs include VAT.

In the central Department and DVLA it is not possible to separate out postage costs from normal mail, but where postage is paid the policy is to mainly use second class.

David Abrahams

Chris Huhne: To ask the Secretary of State for Transport whether she and her predecessor have met *(a)* Mr. David Abrahams and *(b)* representatives of Mr. Abrahams' companies since 2004. [171168]

Jim Fitzpatrick: My right hon. Friends the Secretary of State and her predecessors have not attended meetings in their official capacity since 2004 with Mr. David Abrahams or representatives of companies registered to Mr Abrahams.

Departmental Marketing

Mr. Pickles: To ask the Secretary of State for Transport how many branded plastic bags her Department has purchased in the last 24 months for which figures are available; and at what cost. [176370]

Jim Fitzpatrick: Two of the Executive agencies—the Driver and Vehicle Licensing Agency and the Maritime Coastguard Agency—have procured plastic bags for use in exhibitions and campaigns. Numbers procured and expenditure in financial year 2005-06 totalled 40,000 bags at a cost of £5,314. Figures for 2006-07, were 95,400 bags at a cost of £14,486.

A further 6,650 bags costing £731 have been procured by the Department over the last three financial years to package posters for the 'Arrive Alive' child road safety campaign.

The Department and Executive Agencies are reviewing their practices on the purchase of bags used to facilitate the dissemination of information in campaigns and at exhibitions, following the Prime Minister's 19 November announcement that we should phase out single-use bags altogether, in favour of long-lasting and more sustainable alternatives.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Transport pursuant to the answer of 13 December 2007, *Official Report*, column 788W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 2003. [177174]

Jim Fitzpatrick: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information, I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-50WS.

Departmental Public Expenditure

Mr. Letwin: To ask the Secretary of State for Transport pursuant to the Winter Supplementary Estimates (HC 29), if she will break down her Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174994]

Jim Fitzpatrick: Near-cash and non-cash are essentially used as departmental expenditure limit (DEL) budgetary control concepts and are not specifically identified with voted resources in estimates. However, we have been able to break down net total resources for each section in the Part II: Subhead detail table of our Main and Winter Supplementary Estimates as follows:

£000

		Main estimate 2007-08			Winter Supplementary 2007-08		
Section	*Section title*	*Near cash*	*Non cash*	*Total*	*Near cash*	*Non cash*	*Total*

Driving Under Influence: Alcoholic Drinks

Mr. Ellwood: To ask the Secretary of State for Transport whether she plans to lower the legally permitted blood alcohol concentration for driving on public roads. [178333]

Jim Fitzpatrick: We explained in the report of the second three-yearly review of the Road Safety Strategy, published in February 2007, that we will keep the case for a reduction in the legal alcohol limit for drivers under review. Our first priority is to improve the enforcement of the current limit, building on the recent achievements of the police. We believe this has the potential to deliver a substantial further reduction in deaths and serious injuries, so continuing the good progress of recent years.

Driving: Licensing

Mr. Dismore: To ask the Secretary of State for Transport how many Hendon pensioners over 70 years received free driving licence renewals in each of the last three years. [177502]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency does not hold information on the number of renewal transactions for specific geographical areas. All customers who have paid a life licence fee and renewed at the age of 70 (and over) would have been issued with a new licence free of charge.

Electrification

Mr. Hancock: To ask the Secretary of State for Transport what her policy is on the electrification of the railway network; and what assessment she has made of the effect of the electrification on carbon dioxide emissions. [177348]

Mr. Tom Harris: The Government's position on rail electrification was set out in the rail White Paper "Towards a Sustainable Railway" published in July 2007. This was informed by a Rail Safety and Standards Board report which analysed a range of electrification schemes including their impact on carbon emissions.

Mr. Hancock: To ask the Secretary of State for Transport what recent assessment she has made of the *(a)* cost and *(b)* benefits of the electrification of those non-electrified parts of the rail network between (i) Southampton and Salisbury, (ii) Wokingham and Aldershot South junction and (iii) Basingstoke and Salisbury; and if she will make a statement. [177349]

Mr. Tom Harris: The Department for Transport has not made such an assessment. The Government's position on rail electrification was set out in the rail White Paper "Towards a Sustainable Railway" published in July 2007.

English Language

Damian Green: To ask the Secretary of State for Transport how much her Department has spent on English language classes for staff in the last 12 months for which figures are available. [177429]

Jim Fitzpatrick: The Department for Transport reports expenditure of £332 on English language classes for staff in the last 12 months for which figures are available.

First Great Western: Compensation

Adam Price: To ask the Secretary of State for Transport what estimate has been made of the potential cost of compensation payable to First Great Western as a result of disruption to its services by the *(a)* construction and *(b)* operation of Crossrail. [178187]

Mr. Tom Harris: Train operators will be properly compensated for the loss of, or disruption to, services during the construction and operation of Crossrail. The Secretary of State's policy is set out in Crossrail Information Paper H2, "Railway Compensation"

(http://bilidocuments.crossrail.co.uk), and discussions are on-going with the rail industry to develop suitable arrangements.

The project cost estimate has taken into account that compensation will be payable to other train operators as a result of the Crossrail works, based on experience elsewhere on the national rail network. However, exactly what compensation might be payable to any given train operator will vary according to the detail of how the Crossrail works are carried out.

Once Crossrail services commence in 2017, they will be subject to the normal industry processes for compensation for disruption. It is not possible to estimate at this time what compensation might be payable between train operators and Network Rail.

International Labour Organisation Maritime Labour Convention

Mr. Carmichael: To ask the Secretary of State for Transport when she expects the UK to ratify the International Labour Organisation Maritime Labour Convention. [178519]

Jim Fitzpatrick: The UK Government, in line with all other EU member states, are committed to ratifying the Maritime Labour Convention and aim to do so by 2010, or earlier if possible.

Intimidation

John McDonnell: To ask the Secretary of State for Transport what definition of bullying is used in her Department's human resources policy. [178512]

Jim Fitzpatrick: Bullying is offensive, intimidating, malicious or insulting behaviour, an abuse or misuse of power which undermines, humiliates or injures the person on the receiving end.

Irish Lights

Mr. Brazier: To ask the Secretary of State for Transport what steps she plans to take in response to the Review of Funding of the Commissioners of Irish Lights; and if she will make a statement. [176984]

Jim Fitzpatrick: We expect the Irish Lights Study will be completed shortly and are working closely with the Irish Government to ensure a long term funding solution is reached. The study's findings will be published. We will then consider how to take forward any recommendations made.

M1: Motorways

Mr. Greg Knight: To ask the Secretary of State for Transport when she expects work to (*a*) commence and (*b*) be completed in respect of the construction of junction 29A of the M1 motorway, what lane closures are planned to take place during construction, and if she will make a statement. [178017]

Mr. Tom Harris: Work on the new M1 junction 29A started on the 13 August 2007. All the work has been outside the motorway carriageways but has involved the closure of the hard shoulder on the southbound carriageway from mid-September 2007.

To enable the construction of the tie ins of the slip roads to the motorway, sign gantry removal, and installation of safety fencing, it will be necessary to close lane 1, and occasionally lane 2, of each carriageway between 10 pm and 6 am. These lane closures are planned to take place between 25 January and 31 March 2008.

The junction will be completely open for traffic by mid-April 2008.

Mr. Greg Knight: To ask the Secretary of State for Transport what the expected benefits are of the construction of junction 29A of the M1 motorway, what consultation was undertaken prior to approving the plan, what representations she received, and from whom, in favour of the project, and if she will make a statement. [178025]

Mr. Tom Harris: The new M1 junction 29A would provide good access opportunities with the Markham Employment Growth Zone area, an essential element to the viability of the Markham Vale development.

While the Department for Transport contributed funding towards the Markham Vale Employment Growth Zone, the scheme was led by Derbyshire county council. Therefore, consultation was undertaken by them. Consultation representations would have been made direct to Derbyshire county council.

Marine Accident Investigation Branch: Industrial Health and Safety

Ann McKechin: To ask the Secretary of State for Transport how many work-related deaths were investigated in (*a*) Scotland and (*b*) the UK by the Marine Accident Investigation Branch in the last five years. [178253]

Jim Fitzpatrick: From 2003 to 2007 the Marine Accident Investigation Branch carried out on-site investigations into:

(*a*) 16 deaths in Scottish waters (including inland waters);

(*b*) 41 deaths in all UK waters (including Scottish waters);

in which the fatally injured persons were working on commercially operating vessels.

Motor Vehicles: Exhaust Emissions

Norman Baker: To ask the Secretary of State for Transport what the average amount of carbon dioxide emitted per mile driven was for road traffic in each EU country in the latest year for which figures are available, and if she will make a statement. [178133]

Jim Fitzpatrick: The Department for Transport does not hold this information.

There are figures for total CO_2 emissions from all types of road transport, in million tonnes of carbon dioxide, the most recent year being 2005. These can be found in Table 10.11 of "Transport Statistics Great Britain 2007", at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/tsgb/2007edition/sectionteninternat1849.pdf

Motorways: Lighting

Mr. Greg Knight: To ask the Secretary of State for Transport if she will ensure that motorway lighting is installed at and in the vicinity of junction 29A of the M1 motorway during construction. [178016]

Mr. Tom Harris: The Highways Agency has no plans to install lighting at junction 29A of the M1 motorway. The roundabouts which connect the motorway entry and exit slip roads to the local road network will be lit

Network Rail: Repairs and Maintenance

Mr. Hancock: To ask the Secretary of State for Transport if she will initiate an official inquiry into the performance of contractors employed by Network Rail on projects at (*a*) Liverpool Street station and (*b*) Rugby, and if she will make a statement. [177442]

Mr. Tom Harris: The Office of Rail Regulation has launched an investigation into Network Rail's management of engineering projects including the causes of the engineering over-runs at Liverpool street and Rugby over Christmas and new year and expect to announce their preliminary findings by 29 February 2008. We will not seek to pre-empt the Office of Rail Regulation by speculating on causes before the report is issued.

North Sea SOx Emission Control Area

Mr. Carmichael: To ask the Secretary of State for Transport when she expects to bring forward legislation to enforce the North Sea SOx Emission Control Area regulations and set penalties for non-compliance. [177820]

Jim Fitzpatrick: Legislation to implement the North Sea SOx Emission Control Area is currently being prepared for public consultation and is planned to be in force by summer of this year. Penalties for non-compliance will be included in this legislation.

Rail Services

Adam Price: To ask the Secretary of State for Transport what assessment has been made of the potential extent of disruption of long-distance train services from Paddington to South Wales arising from the (*a*) construction and (*b*) operation of Crossrail. [178188]

Mr. Tom Harris: The Crossrail works are being planned to minimise disruption to existing railway services during construction. The detailed planning of these works, which Network Rail envisages undertaking, will be managed through the normal industry processes nearer to the start of construction. The Crossrail Environmental Statement (ES) contains an assessment of the expected disruption to services on the Great Western Main Line (http://bilddocuments.crossrail.co.uk: ES Volume 1, 2.5.19 and Volume 8a, 6.15-6.16).

Crossrail services will subsume most of the suburban services that use the "slow" lines between Maidenhead and Paddington. Since the Welsh services will continue to use the "fast" lines, no changes are proposed to services to Wales as a result of Crossrail during normal operations (ES, Volume 1, 2.4.9).

Mrs. Ellman: To ask the Secretary of State for Transport what assessment she has made of whether extra rolling stock is required for rail services provided in the North West by (*a*) Northern Rail, (*b*) Merseyrail, (*c*) First TransPennine Express, (*d*) Virgin West Coast and (*e*) Arriva Cross Country franchises. [177859]

Mr. Tom Harris: On 24 July 2007 the Secretary of State announced that around 1,300 extra carriages are to come into service between now and 2014. They will go on routes into London, Birmingham, Cardiff, Leeds, Manchester and Liverpool to provide the capacity to meet growing demand. It is now for the DFT to work with train operating companies and Network Rail to identify how these additional carriages will be distributed across each of the train operating companies.

Railway Network

Mrs. Ellman: To ask the Secretary of State for Transport what criteria will be used to allocate the additional 1,300 carriages referred to in the rail White Paper across the rail network; and if she will make a statement. [177857]

Mr. Tom Harris: The extra rolling stock will be deployed as necessary to provide the amount of extra capacity at London termini and in other urban areas as set out in tables A4 and A5 of The Railways Act 2005 Statement, subject to value for money.

Railway Stations

Norman Baker: To ask the Secretary of State for Transport how many railway stations have been (*a*) opened and (*b*) re-opened since 1 May 1997. [178141]

Mr. Tom Harris: Since 1 May 1997, 36 stations have opened on the national network, two of which Canning Town and West Ham were resited because of Jubilee line works. Another three have reopened.

Railways: Freight

Norman Baker: To ask the Secretary of State for Transport what estimate she has made of the maximum additional (*a*) passenger and (*b*) freight capacity in percentage terms which can be delivered by the existing rail network without the reopening of lines or opening of new lines, and what additional capacity in percentage terms is likely to be delivered by the implementation of all proposals in the Government's Delivering A Sustainable Railway paper. [178181]

Mr. Tom Harris: No estimate has been made of the maximum additional capacity possible on the existing network. This would depend not only on the nature and extent of investment, but on the type, routeing, timetabling and mix of train services operated.

In the July 2007 White Paper 'Delivering a Sustainable Railway', the Government set out the

capacity required to meet forecast passenger demand in England and Wales to 2014, taking into account the needs of freight, and are investing in the railway to meet this growth.

Railways: Norwich

Dr. Gibson: To ask the Secretary of State for Transport how many and what percentage of delays to trains on the Norwich to London railway line there were between the hours of *(a)* 6 am and 10 am, *(b)* 10 am and 3 pm and *(c)* 4 pm and 11.30 pm in each direction in 2007. [177329]

Mr. Tom Harris: The Department does not receive the information at this level of detail. Data relating to punctuality of train services are collected and processed by Network Rail. The hon. Member should contact Network Rail's chief executive at the following address for a response to his question.

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Railways: Overcrowding

Mrs. Ellman: To ask the Secretary of State for Transport what assessment her Department has made of levels of overcrowding on rail journeys taken at *(a)* peak and *(b)* off-peak times between (i) Liverpool and Manchester, (ii) Leeds and Manchester, (iii) Newcastle and York and (iv) Liverpool and Birmingham; and if she will make a statement. [177858]

Mr. Tom Harris: The rail White Paper was published in July 2007. It sets out the resources we intend to make available to the rail industry and the increases in capacity, as well as safety and performance, that we expect the industry to deliver in return.

There are no specific requirements regarding levels of overcrowding on these routes. The Department's general requirements for overcrowding are that passengers should not be expected to stand for more than 20 minutes.

Railways: Radioactive Wastes

Norman Baker: To ask the Secretary of State for Transport how many rail journeys have taken place in which *(a)* spent nuclear fuel and *(b)* nuclear waste was carried through the Channel Tunnel since 2001; and for each such journey what the (i) place of origin, (ii) destination and (iii) volume carried was. [178147]

Jim Fitzpatrick: Eurotunnel does not permit these materials to be transported through the Channel Tunnel.

Roads: Safety

Mr. Leech: To ask the Secretary of State for Transport what research she has commissioned on the effect on road traffic casualties of the introduction of 20mph zones in *(a)* Portsmouth, *(b)* Hull, *(c)* Edinburgh, *(d)* Aberdeen and *(e)* London. [175816]

Jim Fitzpatrick: Individual highway authorities monitor the effectiveness of their local road safety schemes, including 20 mph zones.

TRL Report 215 "Review of Traffic Calming Schemes in 20 mph Zones", published in 1996, found that self enforcing 20 mph zones achieved an average 9 mph reduction in vehicle speeds, that accident frequency fell by 60 per cent. and that the number of accidents involving children reduced by 67 per cent.

No specific research has been commissioned by the Department on the effectiveness of 20 mph zones in the areas identified. The Department is intending to commission shortly a review of the implementation of 20 mph zones as part of a wider research project which will develop and deliver a programme of process and outcome evaluation of local road user safety policy and practice. It is likely that the review of 20 mph zones will include some of these areas.

Mr. Leech: To ask the Secretary of State for Transport what steps her Department has taken to ensure that local authority best practice in road traffic speed management is shared. [175815]

Jim Fitzpatrick: The Department publishes best practice advice on a wide range of speed management measures in the form of Traffic Advisory Leaflets.

The Department's research project, 'Research to Develop Guidance for Highway Authorities on How to Monitor and Evaluate Speed Management Interventions, Programmes and Strategies', is involving extensive consultation with local authority practitioners, and will include a number of case studies.

The Department is also intending to commission shortly a wider research project which will develop and deliver a programme of process and outcome evaluation of local road user safety policy and practice. This will cover a wide range of road safety initiatives and measures, including speed management.

Mr. Leech: To ask the Secretary of State for Transport if she will *(a)* monitor and *(b)* assess the effect on road safety of 20 mph zones. [175818]

Jim Fitzpatrick: TRL Report 215 "Review of Traffic Calming Schemes in 20 mph Zones", published in 1996, found that self enforcing 20mph zones achieved an average 9 mph reduction in vehicle speeds, that accident frequency fell by 60 per cent. and that the number of accidents involving children reduced by 67 per cent.

The Department intends to commission shortly a review of the implementation of 20 mph zones as part of a wider research project which will develop and deliver a programme of process and outcome evaluation of local road user safety policy and practice.

Town and Country Planning (General Development Procedure) Order 1995

Mr. Pickles: To ask the Secretary of State for Transport whether she authorised the Article 14 directions under the Town and Country Planning (General Development Procedure) Order 1995, issued by the Highways Agency in relation to the Durham Green Business Park in *(a)* 2006 and *(b)* 2005. [176351]

Mr. Tom Harris: As an Executive agency of the Department for Transport, the Highways Agency has

delegated authority to make the relevant decisions under the Town and Country Planning (General Development Procedure) Order 1995 in the name of the Secretary of State. The Secretary of State was not asked to approve the Highways Agency decisions and had no involvement in any part of the process.

West Coast Railway Line

Mrs. Ellman: To ask the Secretary of State for Transport when she last discussed the West Coast mainline with Network Rail; and if she will make a statement. [177856]

Mr. Tom Harris: While the Government have no power to intervene in Network Rail's operations, the Secretary of State met with Iain Coucher, Chief Executive of Network Rail, on 3 January to discuss the engineering overruns on West Coast mainline. She made it clear that delays such as those faced by passengers over the new year period were completely unacceptable.

FOREIGN AND COMMONWEALTH OFFICE

Admiralty House: Official Residences

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs what changes have been made to the fittings and fixtures of the official Ministerial residence in Admiralty House previously occupied by the right hon. Member for Kingston upon Hull and now occupied by Lord Malloch-Brown in the last 12 months. [176930]

Meg Munn: I refer the hon. Member to the reply I gave him on 14 November 2007, *Official Report*, column 913W.

Brussels

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on Eurostar tickets to Brussels in each of the last 11 years; and how many first class Eurostar tickets to Brussels his Department purchased in each of the last 11 years. [175436]

Meg Munn: The Foreign and Commonwealth Office spent a total of £214,373 on Eurostar tickets for official travel to Brussels in the last calendar year (January to December 2007). It would incur disproportionate cost, however, to collate information for previous years. It is also not possible to provide a breakdown of the number of first class Eurostar tickets purchased to Brussels as this information is not held centrally.

Craig Alden

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent efforts have been made by the Government to secure the release of Craig Alden, a British subject imprisoned in Brazil; and if he will make a statement; [178087]

(2) what response the British embassy in Brasilia has made to the recent letter from Mr. Craig Alden, a British subject imprisoned in Brazil, calling for a petition to be made to the Brazilian Supreme Court in relation to his case. [178088]

Meg Munn: We have provided Mr. Alden with full consular assistance since his arrest in July 2002. We supported his application for Presidential Expulsion (equivalent to clemency for foreign nationals) in 2005, but this was rejected by the Brazilian authorities. Most recently we supported Mr. Alden's appeal to the National Justice Council in May 2007, which was rejected in June 2007. Consular staff, from our embassy in Brasilia, propose to meet Mr. Alden and his legal representatives to discuss what further action may be open to Mr. Alden and his legal team. We continue to offer Mr. Alden consular assistance in the most effective way we can.

Cyprus

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 January 2008, *Official Report*, column 90W, on Cyprus: diplomatic relations, what meetings in the UK have been attended by the hon. Member for Enfield, North in her capacity as the Government's Special Representative to Cyprus. [177843]

Mr. Jim Murphy: My right hon. Friend the Member for Enfield, North (Joan Ryan), in her capacity as my right hon. Friend the Prime Minister's Special Representative to Cyprus, provides a link between the Cypriot diaspora in the UK and Ministers, and explores how they can help promote a settlement in Cyprus, while also maintaining an overview of the political situation and UN settlement negotiations in Cyprus. As such, she regularly holds meetings with representatives of both the Greek Cypriot and Turkish Cypriot communities from the UK and Cyprus, other interested parties, Foreign and Commonwealth Office representatives and Ministers.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 January 2008, *Official Report*, column 90W, on Cyprus: diplomatic relations, when the Government's Special Representative to Cyprus, the hon. Member for Enfield, North, next plans to visit Cyprus; and whom she plans to meet on the visit. [177845]

Mr. Jim Murphy: My right hon. Friend the Member for Enfield, North (Joan Ryan), my right hon. Friend the Prime Minister's Special Representative to Cyprus, visited the island in October 2007. There are no plans at present for another visit.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 January 2008, *Official Report*, column 90W, on Cyprus: diplomatic relations, what meetings were held during the visit to Cyprus by the Government's Special Representative to Cyprus, the hon. Member for Enfield, North, in October 2007; and what the cost of the visit was. [177846]

Mr. Jim Murphy: My right hon. Friend the Member for Enfield, North (Joan Ryan) met the following

representatives from both communities during her visit to Cyprus in October 2007:

UN Special Representative of the Secretary-General, Michael Moller; UN Peacekeeping Force in Cyprus (UNFICYP), Chief of Staff Peter Fraser Hopewell and US Ambassador Ron Schlicher;

UNFICYP Green Line Tour with Peter Fraser Hopewell;

Cyprus House of Representatives President and Progressive Party of the Working People of Cyprus (AKEL) leader, Demetris Christofias;

Ioannis Kasoulides, opposition leader;

Eleni Mavrou, Mayor of Nicosia (AKEL);

Bicommunal civil society groups and the UN Development Programme Action for Co-operation and Trust;

Republic of Cyprus Foreign Minister, Erato Marcoullis;

President of the Republic of Cyprus, Tassos Papadopoulos;

Nicos Anastassiades, leader of opposition party Democratic Rally;

Emine Erk, Turkish Cypriot Human Rights Foundation;

Mehmet Ali Talat, Leader of Turkish Cypriot Community;

Rasit Pertev, former "Under-secretary" to Mehmet Talat;

Tahsin Ertugruloglu;

Oktay Kayalp;

Oya Talat;

Ferdi Sabat Soyer, Republican Turkish Party (CTP) Leader;

Commander British Forces in Cyprus and Sovereign Base Area Administrator, Air Vice Marshall Dick Lacey; and

Chief Officer of Sovereign Base Areas, Peter Draycott

The cost of the visit was £937.60, which was met by the Foreign and Commonwealth Office.

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 January 2008, *Official Report*, column 90W, on Cyprus: diplomatic relations, who accompanied the Government's Special Representative to Cyprus on her visit to that country in October 2007. [178265]

Mr. Jim Murphy: My right hon. Friend the Member for Enfield, North (Joan Ryan), in her capacity as my right hon. Friend the Prime Minister's Special Representative to Cyprus, was unaccompanied on her visit to Cyprus in October 2007. However, officials from our high commission in Nicosia accompanied her in meetings.

Departmental Internet

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 December 2007, *Official Report*, column 828W, on departmental internet, how much equipment to film blog content cost; and whether this equipment is used for other purposes by his Department. [178336]

Meg Munn: The camcorders bought for filming blog content cost £5,612.77. The equipment has also been used for filming videos and pictures that have been loaded on the Foreign and Commonwealth Office's (FCO) website at:

www.fco.gov.uk

as well as on the FCO's channels on YouTube at:

http://uk.Youtube.com/ukforeignoffice

and Flickr at:

http://www.flickr.com/photos/foreignoffice/.

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 December 2007, *Official Report*, column 828W, on departmental internet, what the grade is of each of the staff who deal with the blogging platform. [178408]

Meg Munn: Two members of staff work full-time on updating the Foreign and Commonwealth Office's (FCO) blogging platform and on its upkeep. One is graded at C5, the other at B3. Other members of staff within the FCO devote a proportion of their time to the blogging platform, covering a range of grades, from the senior management structure to a locally engaged commercial officer.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 November 2007, *Official Report*, columns 1036-37W, on departmental pay, how many of those earning over £100,000 were employed as (*a*) special advisers and (*b*) in a political role in each year since 1997. [177185]

Meg Munn: None of the 42 Foreign and Commonwealth Office (FCO) staff listed in the 2007 FCO Annual Departmental Report as earning over £100,000 were employed as special advisers or in a political role.

Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the written ministerial statement made by my right hon. Friend the Prime Minister on 22 November 2007, *Official Report*, columns 147-150WS.

Before 2003 Ministers provided information on the number and cost of special advisers at regular intervals. This information is available in the Library of the House.

Departmental Plastics

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs how many FCO-branded plastic bags his Department has procured; and at what cost in the last 24 months for which figures are available. [176355]

Meg Munn: In the last 24 months for which figures are available 11,000 branded plastic bags were procured by the Foreign and Commonwealth Office at a cost of £3,320.

EU Presidency

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to seek the establishment of a procedure to remove the new full-time President of the European Council before their term of office expires if one or a specified number of member states feel this course of action is appropriate. [175784]

Mr. Jim Murphy: The Government support a full-time President of the European Council, appointed for a mandate of two and a half years, renewable once. He or she will replace the current President of the European Council, who changes every six months. He or she will be chosen by Heads of State and Government by qualified majority, and will be accountable to them. The treaty of Lisbon provides that the European Council can end the President's term of office by a qualified majority in the event of an impediment or serious misconduct.

HMS Sussex

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on the retrieval of bullion from HMS Sussex, with particular reference to Gibraltarian territorial waters. [178225]

Mr. Jim Murphy: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Under-Secretary of State for Defence (Derek Twigg) to the hon. Member for Romford (Andrew Rosindell) on 7 March 2007, *Official Report*, column 1971W, and the reply given by the then Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin) to my hon. Friend the Member for Hendon (Mr. Dismore) on 2 February 2005, *Official Report*, column 898W. I also refer the hon. Member to the answer given by my right hon. Friend the then Minister for Europe (Mr. Douglas Alexander) to the hon. Member for Hereford (Mr. Keetch) on 14 February 2006, *Official Report*, column 1902W, which states that the wreck, which we believe could be the Sussex, lies in the straits of Gibraltar outside British Gibraltar territorial waters in international waters.

Iraq: Politics and Government

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of foreign contractors in Iraq having been arrested by the Iraqi authorities; and whether any UK individuals or companies are involved. [177040]

Meg Munn: We do not receive reports of foreign contractors arrested by the Iraqi authorities. We are aware of one British national working for a private security company having been detained briefly in Iraq since March 2003.

Mahmoud Salehi

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Iran on *(a)* the medical condition and *(b)* the need for specialist treatment of the imprisoned trade union leader, Mahmoud Salehi. [177367]

Meg Munn: Mahmoud Salehi, former head of the Trade Association of Saqez Bakery Workers and a well-known labour rights activist, has been arrested several times for activities relating to the trade association and mobilising the labour movement in Iran, and has been imprisoned since April 2007. We are deeply concerned by recent reports about his treatment and health in prison. The EU Presidency, with strong UK support, raised concerns about Mr. Salehi's situation in meetings with the Iranian Ministry of Foreign Affairs on 1 May, 1 September and 10 October last year. More recently, on 5 December 2007, the EU Presidency raised specific concerns that Mr. Salehi had been ill treated in detention and denied access to suitable medical care. We will continue to raise Mr. Salehi's case with the Iranian authorities, and urge Iran to honour its international human rights obligations and its commitments as a member of the International Labour Organisation, by respecting fully the right to freedom of expression and the right to form or join trade unions.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Foreign and Commonwealth Affairs when a reply will be sent to the hon. Member for West Worcestershire's letter, dated 22 November 2007, on behalf of a constituent about the case of Mr. Craig Alden. [179004]

Meg Munn: I replied to the hon. Member on 2 January 2008.

Recycling

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs what recycling schemes are in operation in each building operated by his Department. [176356]

Meg Munn: The Foreign and Commonwealth Office operates recycling schemes at its two London buildings, Old Admiralty Building and the Main Building in King Charles Street, and at its Hanslope Park site in Buckinghamshire. At these locations we recycle:

paper and cardboard;
glass;
cans and metal;
wood;
clear plastic cups;
domestic batteries;
toner cartridges;
mobile telephones;
Christmas cards; and
usable old furniture is given to charity for re-use.

Additionally at Hanslope Park we compost food and plant waste and recycle plastic bottles and compact discs.

We maintain no central record of the recycling arrangements for our overseas estate. This information could be obtained only at disproportionate cost.

Tanzania: Overseas Investment

Mr. Gale: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps Ministers *(a)* have taken and *(b)* are taking to protect the interests of UK citizens who have invested in business interests in Tanzania. [178322]

Meg Munn: Where UK citizens seek help in protecting investments in Tanzania, our high commission in Dar es Salaam provides support—for example, by providing information, by facilitating contacts with the Tanzanian authorities, or by lobbying on the investors' behalf. Ministers have sometimes lobbied as well.

Zimbabwe: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 19 November 2007, *Official Report*, column 566W, on Zimbabwe: sanctions to the hon. Member for East Devon, if he will list the Zimbabwean individuals who are not already subject to an EU travel ban and assets freeze that the UK has decided to exclude from the UK; and when these decisions were taken. [168386]

David Miliband: It is not the Government's policy to comment on exclusions unless the individuals concerned have made their own exclusion public. Because he did so, we are able to confirm that Gideon Gono, Governor of the Reserve Bank of Zimbabwe, was excluded from the United Kingdom by my right hon. Friend the Home Secretary on 17 August 2007. Prior to this, two other Zimbabwean nationals have been excluded under my right hon. Friend the Home Secretary's powers, but we cannot provide further details as the individuals concerned have chosen not to disclose the matter publicly.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Wastes

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect of requiring a restricted time frame to be imposed for spreading of slurry on voluntary agreements to avoid such work on weekends and bank holidays. [175757]

Mr. Woolas *[holding answer 7 January 2008]:* The proposed closed period for organic manures with high available nitrogen, as set out in the consultation on implementation of the Nitrates Directive in England, reflects long-standing advice contained in Fertiliser Recommendations for Agricultural and Horticultural Crops (RB209) and the Code of Good Agricultural Practice for the Protection of Water. These publications advise that organic manures should be applied in late winter or spring as these are times of maximum crop growth and will optimise the use of nitrogen contained in the manure. This is particularly important for slurry which has a high available nitrogen content.

The Code of Good Agricultural Practice for the Protection of Air advises farmers to avoid spreading at weekends and bank holidays to reduce odour problems but suggests that this practice may be acceptable if a band spreader or an injector is used or the slurry has been treated. We expect farmers to continue following this good practice advice.

Animal Welfare Act 2006

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he intends to produce codes of conduct for *(a)* animal quarantine premises, *(b)* boarding kennels and *(c)* catteries under the Animal Welfare Act 2006. [175011]

Jonathan Shaw: Government have already produced a code of practice for the welfare of dogs and cats in quarantine premises, and do not intend to produce a further code under the Animal Welfare Act 2006.

The Government are committed to repealing the Animal Boarding Establishments Act 1963 and replacing it with regulations and a supporting code of practice for dog and cat boarding under the Animal Welfare Act 2006. During the passage of the 2006 Act through Parliament, dog and cat boarding was seen as a lower priority in comparison with other animal welfare matters and we have yet to establish any timescale for the regulations to be introduced.

Bats: Ecology

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of bat ecologists. [177546]

Joan Ruddock: We do not hold numbers on bat ecologists but there are currently just over 800 volunteer bat workers who support Natural England in providing advice on bats.

EU Grants and Loans

Mr. Heathcoat-Amory: To ask the Secretary of State for Environment, Food and Rural Affairs how many people employed in his Department work on administering EU structural funds; and what the cost of such staff was in 2006-07. [176046]

Jonathan Shaw: In 2006-07, staffing on the DEFRA-administered EU Structural Funds equated to three full-time posts. The total salary costs to the Department were £115,000.

European Fisheries Fund

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the answer of 5 December 2007, *Official Report*, column 1269W, on European Fisheries Fund, what discussions he has had with the European Commission on the UK's Operational Programme for the spending of the European Fisheries Fund; and if he will make a statement; [176128]

(2) what discussions he has had with *(a)* the European Commission and *(b)* his counterparts in EU member states on the possible reduction in the EFF budget for the UK that the Commission could impose for (i) 2007 and (ii) 2008; and if he will make a statement; [176129]

(3) what representations he has made to the European Commission on the possibility of the 2007 European Fisheries Fund monies for the UK being carried over to future years; and if he will make a statement; [176130]

(4) when he expects to know whether the European Commission will permit the UK to carry over the European Fisheries Fund for *(a)* 2007 and *(b)* 2008 until such time that the UK Operational Programme is approved; and if he will make a statement; [176131]

(5) whether he plans to raise the issue of the European Fisheries Fund and the carry over of monies from *(a)* 2007 and *(b)* 2008, at the December Fisheries Council meeting; and if he will make a statement. [176132]

Jonathan Shaw: I have discussed with Commissioner Borg the arrangements and timing for submitting the UK's National Strategic Plan and obtaining approval for the UK's Operational Programme. The National Strategic Plan has now been finalised, and I plan to formally submit this to the Commission later this month. My officials are working with those from the devolved administrations to complete the UK Operational Programme, in order to enable consultation to take place in early 2008. My officials will also be liaising closely with Commission officials to enable approval of the UK Operational Programme to be obtained as quickly as possible following formal submission.

The Financial Instrument for Fisheries Guidance closed at the end of 2007. To obtain access to the new European Fisheries Fund requires the approval by the European Commission of the UK's Operational Programme. I have made clear to Commissioner Borg the importance I attach to the UK having access to those funds in 2008 and subsequent years.

I have not had any discussions, or made any representations to either the European Commission, or other member states, regarding EFF budget reductions or allocations being carried forward, because it is not yet clear that any reductions will be imposed. I will support any Commission proposal, and seek the necessary EU Council and Parliament agreement, which would result in the 2007 allocation being carried forward.

Floods: Risk Assessment

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to acquire mapping information on surface water flooding from *(a)* the Association of British Insurers and *(b)* local authorities with a view to identifying areas at highest risk of flooding. [175668]

Mr. Woolas: The Environment Agency is investigating the development of maps showing areas at risk from surface water flooding. The agency has been liaising with a number of local authorities to ascertain the feasibility of collating data from a range of sources.

As the Environment Agency develops its proposals it will liaise with a number of other data owners who are expected to include the Association of British Insurers, with a view to incorporating all available appropriate data.

Fly Tipping

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many fly-tipping incidents involved household waste were recorded by Flycapture in *(a)* 2004-05, *(b)* 2005-06 and *(c)* 2006-07 in each local authority in England. [176172]

Joan Ruddock: I refer the hon. Member to the answer I gave on 8 January 2008, *Official Report*, column 385W.

Fly Tipping: Enforcement

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the Flycapture Enforcement training package, including the module on the Regulation and Investigatory Power Act 2000. [176766]

Joan Ruddock: I am arranging for copies of this training package to be placed in the Library of the House.

Fly Tipping: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of fly-tipping were recorded in *(a)* North East Lincolnshire and *(b)* North Lincolnshire in each of the last five years. [176866]

Joan Ruddock: I have arranged for a table to be placed in the Library of the House showing the number of fly-tipping incidents and prosecutions recorded by each local authority on Flycapture for 2004-05, 2005-06 and 2006-07. Data are only available from 2004 onwards.

Following the release of the 2006-07 Flycapture statistics on 9 October 2007, this information has been sent to all MPs and has been placed in the Printed Paper Office.

It is also available to download electronically on DEFRA's Flycapture website:

http://www.defra.gov.uk/environment/localenv/flytipping/flycapture-data.htm

Fly Tipping: Prosecutions

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions were *(a)* undertaken and *(b)* successful in relation to fly-tipping incidents in 2006-07 in (i) absolute terms and (ii) as a percentage of the total number of fly-tipping incidents. [176541]

Joan Ruddock: Prosecution data are taken from Flycapture, the national fly-tipping database. In 2006-07, local authorities and the Environment Agency submitted the data in the following table.

Prosecutions figures are only cases taken through the court system and do not include wider enforcement action.

In 2006-07, local authorities recorded an additional 378,974 enforcement actions, consisting of warning letters, statutory notices, fixed penalty notices, duty of care inspections, vehicle seizures and formal cautions. Excluding Liverpool city council, this figure was 172,042.

	Local authorities	*Environment Agency*
Total incidents	2,633,518	982
Total incidents (excluding Liverpool city council)	1,316,209	n/a
Total prosecutions undertaken	1,371	161
Successful prosecutions	1,289	152

	Local authorities	Environment Agency
Total prosecutions as percentage of total incidents	0.05	16.4
Total prosecutions as percentage of total (excluding Liverpool city council)	0.1	n/a
Successful prosecutions as percentage of total incidents	0.05	15.5
Successful prosecutions as percentage of total incidents (excluding Liverpool city council)	0.1	n/a

Fly Tipping: Romford

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions have been brought against fly tippers in Romford in the last four years. [177644]

Joan Ruddock: Flycapture, the national fly-tipping database records data at the local authority, not district or ward, level. Prosecution data for Romford will therefore be included in the total data for the London borough of Havering.

Data are only available from 2004 onwards.

I have arranged for a table to be placed in the Library of the House showing the number of fly-tipping incidents and prosecutions recorded in each local authority by local authorities on Flycapture for 2004-05, 2005-06 and 2006-07.

Following the release of the 2006-07 Flycapture statistics on 9 October 2007, this information has been sent to all MPs.

It is also available to download electronically on DEFRA's Flycapture website at:

http://www.defra.gov.uk/environment/localenv/flytipping/flycapture-data.htm

Game Birds

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 December 2007, *Official Report*, column 1000W, on game birds, what steps he takes to assess the reliability of data from reports by other organisations referred to by him in answers to parliamentary questions. [177424]

Joan Ruddock: It is my understanding that before publication the report referred to in the answer of 17 December 2007 was peer reviewed by Emeritus Professor David Colman of Manchester university, President of the International Association of Agricultural Economists.

In general, scientific data referenced in parliamentary questions are drawn from peer reviewed publications or are reviewed by staff within the Department or its statutory advisers.

Home Energy Efficiency Scheme

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs how many people awarded Warm Front grants have been asked to make an excess payment in *(a)* Shropshire, *(b)* West Midlands and *(c)* England. [177001]

Mr. Woolas: Since June 2005 the number of households who have been asked to make excess payment contributions towards their Warm Front measures are shown in the following table.

Total excess payments required (households)

	Number
Shropshire	792
West Midlands	17,072
England	90,789

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of Warm Front grants have been subject to an excess payment in *(a)* Shropshire, *(b)* West Midlands and *(c)* England. [177002]

Mr. Woolas: Since June 2005, the proportion of households which have been asked to make an excess payment contribution towards their Warm Front measures are shown in the following table.

Warm Front grants subject to excess payment

	Percentage
Shropshire	19.25
West Midlands	22.04
England	16.94

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what the value of Warm Front grants made in *(a)* Shropshire, *(b)* West Midlands and *(c)* England has been in 2007-08. [177003]

Mr. Woolas: The information requested is shown in the following table:

Scheme year 2007-08

	Value of grants (£)
Shropshire	2,269,804.26
West Midlands	46,280,487.56
England	263,548,038.84

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs when the grant limits for the Warm Front scheme will be reviewed. [177006]

Mr. Woolas: We are currently reviewing the Warm Front grant limits.

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs if he will ensure that excess payments for the Warm Front scheme are collected via the scheme's managing agents. [177009]

Mr. Woolas: Clients are asked to pay excess payment contributions directly to the installation company in order that the work can proceed as quickly as possible, and to reduce the administrative costs of another agency handling the payment.

There are no current plans to instruct the Warm Front scheme manager to collect client excess payments.

Home Energy Efficiency Scheme: Heating

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how many backboilers have been replaced under the Warm Front scheme; how many such backboilers have been disconnected rather than removed; and how many chimneys have been converted to allow a gas fire to be installed. [177640]

Mr. Woolas *[holding answer 10 January 2008]:* Since June 2005 7,543 back boiler heating systems have been replaced through Warm Front.

Data on the number of back boilers disconnected but not removed through Warm Front are not held.

No chimneys have been converted to allow a gas fire to be installed through Warm Front.

Home Energy Efficiency Scheme: Standards

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms his Department uses to ensure high standards of workmanship and service by Warm Front contractors. [177007]

Mr. Woolas: To ensure that installation work performed through the Warm Front Scheme meets the required standards, the Scheme Manager of eaga plc, inspects all central heating installations as well as a proportion of other completed work.

All contractors are assessed against a vendor-rating system, which analyses performance against various criteria, including (but not limited to) customer service, professionalism and workmanship. The vendor rating of each contractor determines the amount of work they receive in the future.

Contractors who fall short of these standards are removed from the Warm Front Scheme.

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the average waiting time for *(a)* receipt of a quotation and *(b)* completion of work under the Warm Front scheme in the latest period for which figures are available. [177010]

Mr. Woolas: Data on the waiting times for the receipt of a quotation are not collected.

Average waiting times since April 2007 are 65.3 working days for heating measures and 26.7 working days for insulation measures, from the point of the Warm Front assessment survey.

Landfill: Plastics

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the percentage of waste which went to landfill in England that was made up of plastics that could not be recycled in each of the last five years. [175743]

Joan Ruddock: The Government's waste strategy, published last year, includes estimates for quantities of plastic waste and its management based on a published DEFRA-funded research report 'Carbon balances and energy impacts of the management of UK Wastes' by ERM. Based on this, and figures on total waste to landfill, it can be estimated that broadly around 5 per cent. of the total waste to landfill is plastics (dense and film).

Virtually all plastics can be recycled, however, this recyclability is ultimately determined by collection and reprocessing facilities available.

Local Government Finance

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities received grant funding from the *(a)* Waste Minimisation and Recycling Fund, *(b)* Waste Performance and Efficiency Grant and *(c)* Behavioural Change Local Fund in each year since 2005-06; and what projects received grants in each case. [176564]

Joan Ruddock: Local authorities were able to bid for funding under the Waste Minimisation and Recycling Fund. £135 million was made available across 2004-05 and 2005-06. £20.55 million of this was specifically set aside for local authorities in London. Successful projects funded are listed on DEFRA's website.

The Waste Performance and Efficiency Grant (WPEG) awarded £40 million in 2005-06, £105 million in 2006-07 and £110 million in 2007-08 to all local authorities in England. The grant was allocated by formula and was 'unringfenced', in line with the Government's policy of giving freedom and flexibility to local authorities.

A full list of WPEG allocations to local authorities in 2006-07 and 2007-08 is available on DEFRA's website.

I have arranged for the list of local authorities awarded funding under the Waste and Resources Action Programme's (WRAP) Behavioural Change Local Fund from 2005-06 to be placed in the House Library.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when a reply will be sent to the hon. Member for West Worcestershire's letter to the Parliamentary Under Secretary of State, dated 23 November 2007, on the future of British Waterways. [178019]

Jonathan Shaw: A reply was sent to the hon. Member on 4 January 2008. I apologise for the delay in replying.

Mercury: Health Hazards

Mr. Jenkin: To ask the Secretary of State for Environment, Food and Rural Affairs what adverse health reactions arising from exposure to mercury have been reported among those working in the manufacture of mercury barometers in the UK in the last 10 years. [175989]

Mr. Woolas *[holding answer 7 January 2008]*: Under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 a report must be sent to the enforcing authority where a person at work suffers from mercury poisoning. The Health and Safety Executive (HSE) is the enforcing authority for all manufacturing activities, including mercury barometer manufacture. HSE statisticians advise that from 1993-94 to 2006-07 (inclusive), there have been five cases of 'poisoning by mercury' reported to HSE. The latest of these were two cases in 1999-2000.

Mercury released from barometers, on breakage or ultimate disposal, will persist in the environment and as such can indirectly lead to risks to human health.

Natural England: Finance

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of how changes in funding for Natural England will affect the Government's 2010 target of halting biodiversity loss; and if he will make a statement. [177562]

Joan Ruddock *[holding answer 10 January 2008]*: We have started discussions with Natural England on options for its budget for 2008-09 but do not expect to take final decisions until February. It is therefore too early to set out what the implications will be.

Securing a healthy natural environment remains a top priority and is one of my Department's two high level goals alongside tackling climate change. Natural England will be a key contributor to this work. Following decisions on next year's funding settlement, we will be working with Natural England to finalise its next corporate plan, which will set Natural England's priorities and the outcomes to be achieved.

Nature Conservation: Seas and Oceans

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on the establishment of a network of marine conservation zones to protect marine wildlife; what steps he plans to take on better co-ordination of the activities of commercial *(a)* dredging, *(b)* fishing and *(c)* energy production; and if he will make a statement. [174646]

Jonathan Shaw: DEFRA has received representations from the Royal Society for the Protection of Birds (RSPB), Greenpeace and the World Wildlife Fund (WWF) on the establishment of marine protected areas (MPAs).

Through the Marine Bill, we aim to create a marine planning system that will be a key tool in helping the UK Government deliver their vision for the marine environment in which resources and activities in UK waters are strategically managed and coordinated, integrating conservation, energy and resource needs.

Marine planning will take a strategic view of the way in which all marine activities (including dredging, fishing and energy generation) interact and will address possible conflicts between them more quickly. It will also consider the cumulative impact they have on the marine environment, and guide decisions on licence applications and other issues providing users of the sea with more certainty. Marine plans will also take account of designated marine conservation zones, and the information gathered during planning will help us to ensure that we are properly protecting the areas that need it.

Packaging: Plastics

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs what progress his Department has made on reducing the use of plastic bags; and what assessment he has made of the effectiveness of the Irish government's policy on the matter. [177025]

Joan Ruddock: The Government have secured an agreement with retailers to reduce the environmental impact of single use shopping bags (paper and plastic) by 25 per cent. by the end of 2008.

A number of retailers have already implemented initiatives and are working with the Waste and Resources Action Programme on their individual programmes of activity. A review of progress towards the 25 per cent. target will be completed by the end of this year to assess what would be required to make further reductions by 2010.

On 19 November 2007, the Prime Minister announced that the Government would convene a forum of supermarkets, the British Retail Consortium and other interested groups to urgently assess together how, and how quickly, we can eliminate single-use disposable bags altogether, in favour of long-lasting and more sustainable alternatives.

An assessment of the Irish levy on plastic bags has been carried out in the past by HM Treasury. This concluded that a similar tax in this country would not be effective on environmental grounds. The Government have no current plans for a national plastic bags tax, although the Chancellor keeps all taxes under review.

Plastics: Biodegradability

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the Government's policy is on biodegradable plastics; [175741]

(2) what recent discussions *(a)* he and *(b)* officials from his Department have had with third parties on the use of biodegradable plastics. [175753]

Joan Ruddock: The Government fully support the development of new, innovative technologies including some products made from biodegradable materials and particularly the sustainable development of biodegradable plastics from non-fossil sources.

The strategy for non-food crops and uses, (published in November 2004 by DEFRA and the former Department of Trade and Industry), set out a number of actions, aimed at promoting opportunities for biopolymers and other renewable products.

The strategy recognises that polymers derived from renewable materials can have lifecycle advantages over petrochemical based products, provided they are correctly disposed of, usually through composting or, in some circumstances, incineration with energy recovery. The Government are working with industry

and trade organisations to support the development of schemes to increase composting of biodegradable materials and to inform consumers and businesses of the importance of doing this.

Primates: Pets

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when he intends to bring forward secondary legislation under the Animal Welfare Act 2006 on keeping primates as pets. [175030]

Jonathan Shaw: The Government intend to introduce a code of practice on the keeping of primates as pets under the Animal Welfare Act 2006 as soon as possible in line with available resources. A working group has already been tasked with producing such a code. This and all other codes issued by the Government will be subject to public consultation and parliamentary approval.

Seabed: Scotland

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 28 November 2007, *Official Report*, column 530W, on Seabed: Scotland, when he next plans to discuss the Marine Bill with the devolved administrations; if he will discuss the control of the seabed to the 200 nautical miles limit around Scotland; whether he intends to use the Marine Bill to give the Scottish Executive control over that seabed; and if he will make a statement. [173026]

Jonathan Shaw: DEFRA officials and I meet regularly with our counterparts in the devolved administrations to discuss marine issues, including the Marine Bill. Proposals for the draft Marine Bill respect the current devolution settlement with Scotland. It is for the UK Government as a whole to consider any proposals for changes in responsibility for the control of the seabed to the 200 nautical mile limit around the whole of the UK.

Seas and Oceans: Scotland

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what responsibilities *(a)* his Department and *(b)* the Scottish Executive have within the (i) six and (ii) 12 nautical mile limit around Scotland; and if he will make a statement. [173027]

Jonathan Shaw: Activities in the marine area out to both six and 12 nautical miles are controlled under a variety of regimes. Responsibilities under these regimes in different parts of our territorial sea are subject to the devolution settlements and other management arrangements agreed with the devolved administrations. As a consequence, DEFRA responsibilities across the marine area vary and some of those responsibilities are shared with other Government Departments and agencies.

Responsibilities within those parts of the territorial sea adjacent to Scotland are defined under the Scotland Act 1998. The Scottish Executive has responsibility in that area for all matters not reserved to the UK Government by virtue of that Act, and for any reserved matters which have been executively devolved to the Scottish Ministers.

Sewers: Urban Areas

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects the urban drainage pilot projects to be completed; and if he will publish their conclusions on *(a)* effectiveness, *(b)* cost and benefits and *(c)* contribution to the reduction of flooding. [177103]

Mr. Woolas: DEFRA's integrated urban drainage pilots are due to finish in spring 2008, with a final report and guidance produced in autumn 2008. We expect the final report to cover the costs, benefits and effectiveness of an integrated approach to urban drainage, particularly with respect to improved flood risk management.

Stray Dogs

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what expenditure local councils have made on kennels for stray dogs; and, what resources have been given to local councils to enable them to implement the relevant provisions of the Clean Neighbourhood and Environment Act 2005; [177100]

(2) when the provisions of the Clean Neighbourhood and Environment Act 2005 in relation to stray dogs will be fully implemented.' [177101]

Jonathan Shaw: The commencement of section 68 of the Clean Neighbourhoods and Environment Act 2005 will take place on 6 April 2008, at which point local authorities will become solely responsible for stray dogs functions under sections 149 and 150 of the Environmental Protection Act 1990.

Local authorities will be funded through the Revenue Support Grant arrangements, which will include an additional £4 million a year for authorities in England and Wales.

Local authorities are free to decide how to spend the funding for their services in relation to stray dogs, and DEFRA does not collect data on individual local authorities' expenditure.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what funding will be made available to local authorities for the 24-hour service for stray dogs in advance of the coming into force of section 68 of the Clean Neighbourhoods and Environment Act 2005; and whether this money will be ringfenced for this purpose. [177386]

Jonathan Shaw: From 6 April 2008, the police will cease to have responsibility for stray dogs functions under sections 149 and 150 of the Environmental Protection Act 1990; the functions will be the responsibility of local authorities. Local authorities must decide what represents a reasonable service in accordance with local needs. Where practicable, they should provide at least one acceptance point which, where possible, is open around the clock.

£4 million per year for the three years of the revenue support grant period will be paid to local authorities in England and Wales. Future spending reviews will consider funding for the longer-term for all local authority services, including their responsibilities for stray dogs. Local authorities are free to spend the money they receive on the services they feel are appropriate for their area.

Waste and Resources Action Programme: Finance

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how much central Government funding the Waste and Resources Action programme will receive in each of the next three years in cash terms. [176539]

Joan Ruddock: As a UK-wide programme, funding is provided to the Waste and Resources Action Programme (WRAP) from DEFRA, the Scottish Government, the Welsh Assembly Government and the Department of the Environment (Northern Ireland).

No final decisions on budget allocations from this Department have yet been made. The DEFRA financial settlement for 2008-11 increases the budget by 1.4 per cent. and it is important that spending is aligned with wider departmental priorities and gives best value for money. Operating an effective delivery service, combating climate change and protecting the natural environment are three of our key priorities and funding allocations will reflect this.

Waste Disposal: Costs

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 December 2007, *Official Report*, columns 42-43W, on waste disposal: costs, what the average cost per household was of collecting household waste in councils with (*a*) weekly rubbish collections and (*b*) alternate weekly collections. [176261]

Joan Ruddock: DEFRA does not hold a list of local authorities operating alternate weekly collections of household waste. However, the Waste and Resources Action Programme (WRAP) does hold some information to assist local authorities with support and guidance. This information has been made available in Hansard in response to previous questions on this topic.

No comparative assessment of the variation in costs and frequencies of household waste collection services provided by local authorities in England has been made by DEFRA. Such an assessment would not provide meaningful results as, while we are aware that many local authorities operate household waste collections at frequencies other than weekly, we do not hold specific details on the types of scheme used and the extent of their coverage.

The Government do not believe it is right to prescribe centrally how household waste is collected in different parts of the country. This is a matter for local authorities.

Waste Disposal: Crime

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what new powers have been given to local authorities to (*a*) seize and (*b*) inspect vehicles, in relation to waste offences, in the last 12 months. [176542]

Joan Ruddock: The Clean Neighbourhoods and Environment Act 2005 introduced new powers for local authorities to instantly stop, search and seize vehicles involved in fly-tipping related offences. However, these powers have not yet been commenced.

My Department is currently developing the detailed regulations that will give effect to these powers. A consultation is planned for May 2008 with the regulations planned to come into force in April 2009.

Waste Disposal: Domestic Waste

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate the Environment Agency has made of the proportion and volume of household rubbish that is burned by households in their gardens. [176533]

(2) what estimate (*a*) his Department and (*b*) the Environment Agency has made of the number of households who burn household rubbish in their garden. [176568]

(3) what research (*a*) his Department and (*b*) the Environment Agency has undertaken into burning of household waste inside the curtilage of domestic dwellings. [176581]

Joan Ruddock: No specific assessment has been made by my Department or the Environment Agency of the level of burning of domestic waste by households in England.

Complaints about statutory smoke nuisance from domestic bonfires, or the burning of other materials, are made at the local authority level. Statistics are not held centrally by my Department. However, in 2006 DEFRA published a research project to review complaints received by local authorities about bonfire smoke, which advised on the legal and practical remedies available to local authorities and private individuals. It reported that a total of 29,147 complaints were made to local authorities in 2000; and that in a part year survey of 2004 involving 47 local authorities 5,424 complaints were made. The research report did not attempt to analyse the type of burning that was the subject of complaint.

In addition, DEFRA carried out research into emissions of dioxins from the burning of domestic waste in 2006. The review recommended that further work should be done to establish what practical measures could be taken to reduce dioxin emissions from bonfires and domestic combustion and, consequently, exposure to dioxins. Further work in estimating dioxin emissions from domestic burning is currently being undertaken by my Department. Results from the on-going work will be due later this year.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department has given waste collection authorities

on (*a*) closed lid polices and (*b*) no side waste policies in relation to the collection of household waste. [176551]

Joan Ruddock: Following requests by local authorities for clarification of the legislation regarding 'side waste', DEFRA sent a letter in August 2005 to all English waste authorities setting out our interpretation of the legislation. A copy of this letter is available on DEFRA's website.

No advice has been offered by DEFRA on the subject of closed lid policies. However, section 3.11.2 of the waste and resources action programme's (WRAP) revised advice on alternate weekly collections, published on 16 July 2007, includes a short statement on closed lid/no side waste policies. However, the decision on whether to adopt either of these policies is one for each individual local authority to take.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what additional funding is being provided to local authorities undertaking the rubbish tax pilots; [176556]

(2) whether additional funding will be given to local authorities taking part in the pilots for new bin taxes. [176167]

Joan Ruddock: As I said in my written ministerial statement to Parliament of 15 November 2007, DEFRA has committed up to £1.5 million per year over three years to help support the waste incentive pilot schemes.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms will be used to tackle non-payment by residents of the proposed charges for the collection of household waste; and whether the rubbish collection of non-payers will be cancelled for non-payment. [176571]

Joan Ruddock: It is envisaged that local authorities would be able to recover any money owed by residents through the courts as a civil debt.

Local authorities' duty to collect household waste would still apply.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department's definition of revenue neutral for its proposals for new taxes on the collection of household rubbish would include the costs of (*a*) technology to weigh individual bins, (*b*) computer systems to record bin weights and generate invoices, (*c*) administration of customer databases, (*d*) systems for dealing with rented property and houses of multiple occupation, (*e*) systems for dealing with disputes, non-payment and bad debts, (*f*) enforcement, (*g*) publicity and promotion and (*h*) clearing up additional fly-tipping; and whether the householder would be expected to pay for these additional costs via (*i*) the rubbish tax and (ii) council tax. [176574]

Joan Ruddock: Revenue collected through charges under a waste incentive scheme could not be used to cover any costs.

Whether local authorities incur the costs listed here, will depend in large part on how the schemes are designed. In any case, authorities may be able to avoid or limit many of these costs, through effective planning and communication.

Modelling commissioned by my Department suggests that local authorities could make savings more than sufficient to pay for the costs of waste incentive schemes. These savings arise as a result of less waste for the authority to collect and dispose of.

My Department is also providing up to £1.5 million per year for three years to help support the pilots.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which organisations have been contacted to tender for the contract to conduct the evaluations into the pilots for new bin taxes. [176575]

Joan Ruddock: No organisations have been contacted.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for introduction of new charges for the collection of household rubbish. [176578]

Joan Ruddock: There is no timetable for the introduction of the five pilot household waste incentive schemes (including those which have a charging element) announced last year. However, as stated during the Communities and Local Government Select Committee's hearing on waste on 17 December 2007, the earliest the pilots are likely to start (including those which have a charging element) is April 2009. The exact timing will be subject to the parliamentary process.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many full-time equivalent staff in his Department are developing or researching policy in relation to (*a*) charging for the collection of household waste and (*b*) the frequency at which household waste is collected. [176584]

Joan Ruddock: One full-time and two part-time members of staff are currently working on the proposals announced last year for pilot waste collection schemes to encourage waste reduction and recycling.

The Environmental Protection Act 1990 provides obligations and powers to local authorities for household waste collection. The Government do not believe it is right to centrally prescribe the frequency with which household waste is collected in different parts of the country. That is a matter for local authorities and the Government are not developing or researching policy in this area.

The policy team responsible for existing collection and disposal legislation spends a small proportion of its time responding to queries about frequency of collection.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what the starting date for the pilots for the proposed household rubbish collection tax is. [177152]

Joan Ruddock *[holding answer 9 January 2008]* There is no timetable for the introduction of the five pilot household waste incentive schemes (including those which have a charging element) announced last year. However, as stated during the Communities and Local Government Select Committee's hearing on waste on 17 December 2007, the earliest the pilots are likely to start (including those which have a charging element) is April 2009. The exact timing will be subject to the parliamentary process.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what the maximum charge that can be levied per year by waste collection authorities under the new proposed household rubbish collection tax is planned to be. [175434]

Joan Ruddock *[holding answer 9 January 2008]* Powers provided in the Climate Change Bill allow five local authorities to pilot incentives to encourage household waste minimisation and recycling.

No maximum charge has been set, although the Government retain a reserved power to create a cap on the level of incentive in the future, should this be necessary.

Since local authorities will not be able to keep any revenue which they collect through pilot schemes, they have no incentive to raise the level of the payments beyond what will encourage positive behaviour. Experience in other countries where incentive schemes are in operation also suggests that payments do not need to be high to be effective. For example, variable charges in the region of £30 to £50 have been shown to drive behaviour change overseas.

Waste Management: Northern Ireland

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions and communications *a* his Department and *b* the Waste Resources Action Programme have had with the Northern Ireland Department of the Environment in relation to the Northern Ireland Waste Management Strategy 2006-2020 and bringing forward for public consultation proposals to give councils powers to charge for the collection of household waste. [176698]

Joan Ruddock: The Northern Ireland Waste Management Strategy 2006-20 contains a commitment to consult publicly on proposals for financial incentive schemes to encourage householder separation of waste. Such schemes would be administered by district councils in Northern Ireland.

We have shared policy thinking on waste management with the Devolved Administrations and have kept them informed about the waste incentive scheme proposals. My Department is in contact with Northern Ireland across the full range of waste regulation issues.

The Waste and Resources Action Programme (WRAP) has had no discussions with Department of the Environment, Northern Ireland (DoENI) in relation to financial incentives. However WRAP has had discussions with DoENI about how it might help implement other elements of the strategy.

Water: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what the average water bill in *a* England and Wales and *b* each water company area was for an unmetered household with (i) one, (ii) two, (iii) three and (iv) four bedrooms in the latest period for which figures are available. [176528]

Mr. Woolas: Ofwat is the economic regulator of the water and sewerage industry in England and Wales and sets price limits for each water company at price reviews.

a The average unmetered water bill in England and Wales is £325. The following table shows Ofwat's breakdown of the average unmetered household water and sewerage bill for 2007-08 in England and Wales.

Average unmetered water bill

	£
Water	137
Sewerage	162
Combined	325

b Unmetered charges for water are based on the rateable value of the property not number of bedrooms. Ofwat does not collect specific information on average water bills broken down by number of bedrooms.

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been conducted by *a* his Department and *b* OFWAT into the relative distributional effects of rateable value for domestic water bills following the publication by his Department of the Cross-Government Review of Water Affordability report in 2004. [176544]

Mr. Woolas: Since publishing the cross Government review of water affordability we have been working closely with water companies and Ofwat on a project looking at the distributional effects of a range of measured and unmeasured tariffs, including under the current regulatory framework. We will be looking at this work in the context of the new DEFRA water strategy which will be published early this year.

Wolves

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions his Department has held on the reintroduction of wild wolves into the UK, and if he will make a statement. [177641]

Joan Ruddock: My Department has held no discussions on the reintroduction of wolves into England and we have no plans for any such reintroduction.

This is a devolved issue and is the responsibility of respective devolved administrations within the UK.

DEFENCE

Afghanistan: Peacekeeping Operations

Patrick Mercer: To ask the Secretary of State for Defence what estimate he has made of the number of Taliban members who surrendered to ISAF forces then subsequently returned to join anti-western forces. [162791]

Des Browne: I refer the hon. Member to my answer of 13 December 2007, *Official Report*, column 773W.

Patrick Mercer: To ask the Secretary of State for Defence what estimate he has made of the number of Taliban commanders who surrendered in Afghanistan as a result of (*a*) diplomatic and (*b*) military actions. [162792]

Des Browne: I refer the hon. Member to my answer of 11 December 2007, *Official Report*, column 394W.

Patrick Mercer: To ask the Secretary of State for Defence how many (*a*) commanders and (*b*) foot soldiers surrendered to (i) the International Security Assistance Force and (ii) the Afghan National Army in each month in 2007. [162823]

Des Browne: I refer the hon. Member to my answer of 18 December 2007, *Official Report*, column 1444W.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, what proportion of helicopter missions by British forces are used for (*a*) military tasks and (*b*) moving routine freight in Regional Command South; and if he will make a statement. [175463]

Des Browne: ISAF records for helicopter usage do not make a distinction between flights for "military tasks" and those for "moving routine freight" because the movement of freight (logistic movement) is a military task. To maximise usage of available aviation capacity, helicopter missions invariably move both personnel and freight. Accordingly we do not hold this information centrally and the question could be answered only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 310, on Afghanistan, when he expects the eight Chinook helicopters to be ready for service; and whether any will be sent to Afghanistan. [175482]

Des Browne: As I announced on 18 December 2006, *Official Report*, column 106WS, we expect the first aircraft to be available for operations in 2009 and all eight from 2010. Decisions on the operational deployment of these aircraft will be taken closer to the time.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 312, on Afghanistan, if he will define the phrase, next period of time, as used with reference to the deployment of Sea King, Chinook and Merlin helicopters to Afghanistan. [175483]

Des Browne: The deployment of additional Sea Kings to Afghanistan will be complete by April 2008. As I announced on 18 December 2007, *Official Report*, column 106WS, we expect the first Chinooks to be available for operations in 2009 and all eight from 2010. Merlin is currently deployed in Iraq; we are currently examining the balance of our helicopter force levels across theatres, and this will include the deployment of Merlin helicopters to Afghanistan in due course, subject to operational requirements.

Dr. Fox: To ask the Secretary of State for Defence (1) how many medical civic action programmes British forces have conducted in (*a*) Kabul, (*b*) Helmand and (*c*) Kandahar provinces since 2005. [175580]

(2) how many medical civic action programmes British forces have conducted without assistance from the United States military in Afghanistan since 2005. [175593]

Des Browne: UK forces do not undertake medical civic action programmes to provide direct delivery of medical care. UK forces may be involved in providing logistics and security for events carried out by the Government of Afghanistan or other nations and UK military medical personnel may also act as observers during these events in order to identify best practice with regard to the emergency treatment of local nationals.

Armed Forced: Prosthetics

Dr. Murrison: To ask the Secretary of State for Defence what meetings (*a*) Ministers and (*b*) officials have had with the Department of Health to discuss the ongoing care of armed forces veterans with C-leg limb prostheses. [175343]

Derek Twigg: The Defence Medical Services attach a high priority to ensuring a smooth and seamless transition of care upon medical discharge, including for those service personnel with prostheses such as C-leg limbs (an advanced lower-leg prosthetic). Officials are currently working with their NHS counterparts and Department of Health officials to address the feasibility of establishing relationships with a small number of NHS facilities that could offer a service to veterans comparable to that provided to serving members by the Defence Medical Rehabilitation Centre at Headley Court. Two such centres have been visited to date and their response has been very positive. Further visits are planned in the coming months, after which detailed procedures will be drawn up to enable veterans to access these regional centres if they so wish. The Department is also engaged in similar discussions with the devolved administrations.

Armed Forces: Coroners

Mr. Jenkin: To ask the Secretary of State for Defence what the cost was of providing legal representation for (*a*) the families of servicemen and women killed on operations which were paid for by his Department and (*b*) his Department at coroners' inquests in the last 12 months for which figures are available. [174665]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive letter from Bob Ainsworth to Bernard Jenkin:

I undertook to write to you in answer to your Parliamentary Question (174665) on 17 December 2007, (Official Report, column 1023W) about:

"the cost of providing legal representation for the families of servicemen and women killed on operations, the Department and for the Department at coroners' inquests in the last 12 months for which figures are available."

With respect to the funding for the families of Service personnel, the Legal Services Commission is responsible for legal aid. Legal aid is not usually available for representation at inquests because an inquest is a fact-finding process to determine who the deceased was and when, where and how he or she died. It is not adversarial. However, as a result of changes introduced by the Government (under the Access to Justice Act 1999) legal aid can now be granted in cases, such as inquests, where it is not normally available, but only where there are exceptional circumstances. There are published criteria that help determine whether a case is exceptional. Applications for exceptional funding must be made to the Legal Services Commission and where the Commission considers that the criteria have been met the application will be passed to the Ministry of Justice for consideration. Where conditions have been met, legal aid has been provided to service families.

For the majority of inquests, MOD does not have legal representation because they are non-adversarial, fact-finding proceedings. However, on some occasions the MOD, as an "interested person" may engage Counsel to assist the coroner in establishing the relevant facts surrounding the death, particularly in cases which are complex, often involving sensitive matters relating to national security. The presence of Counsel may make the proceedings appear more formal, but it does not change the fact-finding nature of an inquest. The MOD believes that the assistance we can provide to the coroner in these cases, and thus the proceedings more generally, is worthwhile and of benefit to everyone involved. From 1 January 2007 to 14 December 2007, the MOD has been billed for £793,971.66 on legal representation at the inquests of Service personnel and Service related deaths (the majority of which will be for operational deaths).

As mentioned above, legal aid for the families of Service personnel is ultimately the responsibility of the Ministry of Justice and it would therefore not be appropriate for the MOD to fund legal representation. Nonetheless, the MOD takes its responsibilities towards the families of deceased seriously. All casualties and deaths suffered by the UK Armed Forces are a source of profound regret. Nevertheless support to families is part of our debt to those who have given their lives, from the time when the tragic news must be conveyed to the next of kin, through to the potentially difficult experience of a Coroner's inquest and beyond.

The MOD has robust policies and procedures in place to ensure the best possible support is offered to all families. These procedures are continually under review to ensure they reflect the needs and expectations of all those concerned. Support is given to families through visiting officers who are drawn from members of the Services and who have received relevant training. Visiting officers are appointed to act as a liaison, through regular contact, between the bereaved family and the Services. They establish links with the various agencies to provide ongoing support, both financial and emotional, and help the bereaved family to adjust to life without their loved one. Specific financial help is available to the bereaved family to help meet the costs of the funeral, incidental funeral expenses, travel and accommodation and subsistence to attend the repatriation ceremony and the pre-inquest and inquest hearing.

I am placing a copy of this in the Library of the House.

Armed Forces: Firearms

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* SA-80 assault rifles and *(b)* 9mm Browning pistols were reported (i) lost or missing and later recovered and (ii) lost or missing and not recovered by British armed forces in the United Kingdom in each year since 1997. [177587]

Mr. Bob Ainsworth: The information is not held in the format requested and could be provided only at disproportionate cost. However, I am able to provide the total number of MOD owned rifles and pistols lost or stolen from UK based units from 2000 to 2007 which is shown in the following tables. No reliable information is held prior to this period.

	Pistol		Rifle and SA80	
	Lost	Recovered	Lost	Recovered
2000	2	2	0	0
2001	2	1	0	0
2002	1	0	6	5
2003	1	1	1	1
2004	4	1	0	0
2005	2	2	1	1
2006	1	1	1	1
2007	2	0	1	0
Total	15	8	10	8

	Pistol		Rifle and SA80	
	Stolen	Recovered	Stolen	Recovered
2000	28	6	0	0
2001	2	1	2	0
2002	1	0	2	1
2003	2	0	18	4
2004	1	1	7	3
2005	3	0	7	1
2006	3	1	5	0
2007	3	0	3	1
Total	43	9	44	10

Armed Forces: Health Services

Anne Milton: To ask the Secretary of State for Defence what assessment he has made of the effect of the decision to charge nurses employed by his Department £15 for influenza inoculations on the operational effectiveness of the armed forces. [178006]

Derek Twigg: All military and civilian nurses working for the Ministry of Defence are eligible to receive any necessary influenza inoculations free of charge at service medical centres.

Armed Forces: Housing

Dr. Fox: To ask the Secretary of State for Defence how many complaints were made to Modern Housing Solutions in each of the last 12 months. [177540]

Derek Twigg: The number of complaints received in each of the last 12 months is as follows:

	Number
January 2007	651
February 2007	551
March 2007	593
April 2007	460

	Number
May 2007	427
June 2007	401
July 2007	744
August 2007	650
September 2007	641
October 2007	744
November 2007	572
December 2007	488

Armed Forces: Rehabilitation

Dan Rogerson: To ask the Secretary of State for Defence what support his Department provides to help rehabilitate servicemen and women on their return from active service in the armed forces. [168864]

Derek Twigg: It is assumed that the question refers to our post-operational stress management policy. This applies to all the Armed Services, although each has its own individual processes that recognise its particular structure and culture. Operational deployments can be very stressful experiences, so wherever possible we look to offer individuals briefing prior to returning to their home base. Where possible a "decompression period" is arranged during which personnel can begin to unwind mentally and physically after their operational tour while having time to talk to colleagues and superiors with whom they have deployed about their experiences. Decompression can take place in a number of locations, for example in theatre while waiting for the return flight, or the Commander can arrange for it to take place in a third location (i.e. not home base and not theatre), such as Cyprus. For seagoing units, including embarked forces, decompression usually occurs as a matter of routine during the return passage to the UK which may include one or more operational standoffs or foreign port visits providing an opportunity for individuals to separate themselves, albeit briefly, from their working environment. Alternatively, Service personnel returning from operations can spend a period of time in their home base location to assist with the winding down period prior to progressing to Post Operational Tour leave. Access to specialised mental healthcare is available if required, both during the decompression period and back in the UK at MOD's regional Departments of Community Mental Health.

The families of returning personnel are also offered presentations and issued with leaflets to alert them to the possible after-affects of an operational deployment. Welfare Officers, Padres, and other associated organisations (such as regimental and other support groups) also provide information and advice to families.

Reservists are treated in a similar fashion where possible, with all having access to the Regular welfare support system or having support delivered through their parent unit. All Reserve units in the Royal Navy, Royal Marines and Royal Air Force have Welfare Officers, while in the Territorial Army the Regimental Operational Support Officer will perform Welfare duties. Their duties will include support to the families of mobilised reserves, including the provision of briefing and leaflets.

Where mobilised Reservists are returning to regular civilian employment, support and advice is available to the civilian employer to help them understand the potential after-effects of an operational deployment on an individual.

Armed Forces: Schools

Dr. Fox: To ask the Secretary of State for Defence what the mobility rate was for each service children's education (*a*) primary and (*b*) secondary school in the last academic year. [177594]

Derek Twigg: In order to combine primary and secondary statistics within a single database, Service Children's Education (SCE) is currently revising the Data Collection System employed to monitor pupil mobility rates in SCE schools. I shall write to the hon. Member once this information becomes available.

Armed Forces: Training

Dr. Fox: To ask the Secretary of State for Defence how many training airborne jumps have been conducted by British service personnel in each year since 2001; and how many of these jumps were made from a (*a*) C-17 Globemaster, (*b*) C-130K Hercules, (*c*) C-130J Hercules, (*d*) other aeroplanes, (*e*) Chinook helicopters and (*f*) other helicopters in each year. [177544]

Mr. Bob Ainsworth: The following table shows the total number of annual parachute descents by entitled service personnel conducted between 2001 and 2007 broken down by aircraft type. This includes displays conducted by the RAF Falcons display team, whose descents cannot be broken out from the annual parachute descents.

Year	Total descents	C-17 (Globemaster)[1]	C130	Other aircraft	Chinook	Other helicopters
2001	27,721	0	24,265	3,234	25	197
2002	21,510	0	16,509	4,865	0	136
2003	16,022	0	10,688	5,070	0	264
2004	25,692	0	20,030	5,610	0	52
2005	12,932	0	9,394	3,462	0	76
2006	10,761	0	8,449	2,139	0	173
2007[4]	10,001	0	9,554	203	0	244

[1] Although the C17 Globemaster has a parachute capability it is not used for parachute training as the aircraft have been designated for strategic airlift.
[2] We cannot differentiate between the C130 variants.
[4] Only includes figures to October.

Athena

Dr. Fox: To ask the Secretary of State for Defence how much expenditure from the public purse has been spent on European Security and Defence Policy military operations (*a*) under the Athena mechanism and (*b*) not under the Athena mechanism since January 2004, broken down by operation. [177526]

Mr. Bob Ainsworth *[holding answer 10 January 2008]:* The amount spent on ESDP military operations since January 2004 under the Athena mechanism is set out as shown.

The amount spent on ESDP military operations since January 2004 not under the Athena mechanism format includes national borne costs which are held theatre wide rather than for NATO/ESDP (for example in the Balkans). Further work is therefore required to determine these costs as accurately as possible. I will write to the hon. Member as soon as this work is complete.

EU operation	Where	When	Under ATHENA (£ million)
ALTHEA	(Bosnia and Herzegovina	Since July 2004	15.177
EUFORDRC	Democratic Republic of Congo	April 2006 to November 2006	1.417
EUFOR CHAD/ CAR	CHAD/ Central African Republic	Yet to deploy	5.902
Total			22.496

Christmas

Malcolm Bruce: To ask the Secretary of State for Defence what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173530]

Derek Twigg: The Government's timber procurement policy, which requires that all timber and wood-containing products procured by Departments, including the Ministry of Defence, must come from legal, and preferably sustainable, sources, applies to the selection of real Christmas trees. There is no central Departmental policy on the selection of artificial Christmas trees. It is our policy that Christmas trees should be recycled after use.

Defence Aviation Repair Agency: Privatisation

Mr. Hoyle: To ask the Secretary of State for Defence if he will visit the Defence Aviation Repair Agency Fleetlands and Almondbank to discuss with staff the reasons for the consideration of the privatisation of the agency and to inspect facilities. [178924]

Mr. Bob Ainsworth: My right hon. Friend Baroness Ann Taylor, the Minister for Defence Equipment and Support, has already met with trade union officials at local and national level on this matter.

In addition, MOD officials have and continue to consult with all staff and relevant trade unions on matters concerning the future direction of the businesses.

Mr. Hoyle: To ask the Secretary of State for Defence what assessment he has made of the *(a)* benefits and *(b)* risks of privatising the Defence Aviation Repair Agency. [178926]

Mr. Bob Ainsworth: I announced on 25 July 2007, *Official Report*, column 74WS, that, following a robust evaluation of bids from industry, work would continue to assess whether sale offers best overall value for Defence for the remaining Defence Aviation Repair Agency Rotary Wing and Components businesses that would not be merging into the Defence Support Group.

As part of this assessment, officials are currently considering the benefits and risks before a final decision is made.

Defence: Finance

Chris Ruane: To ask the Secretary of State for Defence what the defence budget was for Northern Ireland in each of the last 30 years at 2007 prices. [176663]

Mr. Bob Ainsworth: The information is not held in the format requested and could be provided only at disproportionate cost.

General Officer Commanding (GOC) Northern Ireland was established as a separate Top Level Budget Holder (TLB) between 1992-93 and 2006-07. However, I provided information on all MOD Budget Holders (Sub Head) allocations for the last seven years in my letter of 30 November 2007, to the hon. Member for West Dorset (Mr. Letwin). A copy of my reply and the relevant information is available in the Library of the House. The HM Treasury website provides information regarding comparative pricing (the GDP deflator) at:

www.hm-treasury.gov.uk/Economic_Data_and_Tools/GDP_Deflators/data_gdp_index.cfm

Defence: Northumberland

Mr. Beith: To ask the Secretary of State for Defence whether the Department's grounds for objection to recent wind farm planning applications in Northumberland apply to other proposed wind farm sites in the parts of Northumberland identified in the regional planning strategy as areas of least constraint for wind farm applications; and whether he is proposing any modification of the strategy to meet defence operational requirements. [177446]

Derek Twigg: The decision whether or not to object to a planning application for one or more wind turbines is taken on a case-by-case basis and the decision in one case does not automatically relate to another. The key issues are whether proposed turbines will affect Ministry of Defence (MOD) interests such as operations and safety, and, if they do, whether the predicted effects will be manageable.

The Government office for the north east is in the process of drafting the north east regional spatial strategy and their officials are in discussion with MOD to ensure that MOD interests are adequately represented and protected in all relevant new and revised strategy and guidance documents.

Departmental Catering

Mr. Roger Williams: To ask the Secretary of State for Defence what percentage of *(a)* beef, *(b)* lamb, *(c)* pork and *(d)* dairy products used in his departmental headquarters were imported products in the most recent period for which figures are available. [166646]

Mr. Bob Ainsworth: I refer the hon. Member to the data published in the report deposited in the House of Commons Library on 8 November 2007 giving the proportion of UK produce supplied to Government Departments, the NHS and HM Prison Service. A copy of the report is also available on the Public Sector Food Procurement Initiative (PSFPI) website at:

http://www.defra.gov.uk/farm/policy/sustain/procurement/pdf/govt-food-usage.pdf

Departmental Domestic Visits

Mr. Hands: To ask the Secretary of State for Defence (1) what plans *(a)* he has and *(b)* his ministerial colleagues have to visit wounded service men and women; [167156]

(2) on which occasions *(a)* he and *(b)* his ministerial colleagues visited wounded service men and women in each of the last two years; [167157]

(3) on which occasions *(a)* he and *(b)* his ministerial colleagues attended (i) funerals and (ii) memorial services of service men and women in each of the last two years. [167158]

Derek Twigg: Defence Ministers make, and shall continue to make, frequent visits to wounded service personnel both in the UK and overseas. Since 1 January 2006 a total of 42 visits have been made to visit wounded personnel in hospitals in the UK and overseas, including field hospitals in the operational theatres in Iraq and Afghanistan. The following list gives the visits made by each Minister.

In addition, Ministers meet personnel in the UK once they have returned from operational duty. On some of these occasions Ministers have met with injured personnel and their families.

Secretary of State for Defence (Total 14)

Visit to field hospital at Camp Bastion in Afghanistan between 6 and 10 August 2007;

Visited the Royal Centre of Defence Medicine at Selly Oak on 17 May 2007;

Visited the field hospital at the Basra air station in Iraq on 28 April to 2 May 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 30 March to 2 April 2007;

Visited the field hospital at the Basra air station in Iraq on 29 to 30 January 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 23 to 24 October 2006;

Visited the Royal Centre of Defence Medicine at Selly Oak on 27 September 2006;

Visited the Royal Centre of Defence Medicine at Selly Oak on 15 August 2006;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 15 August 2006;

Visited the field hospital at Shaibah logistics base in Iraq on 18 May 2006;

Visited Afghanistan on 24 to 26 April 2006;

Visited the field hospital at Shaibah logistics base in Iraq on 18 March 2006.

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 20 January 2006;

Visited the Royal College of Defence Medicine at Selly Oak on 20 January 2006.

Minister for the Armed Forces (Total 11)

Visited the field hospital at Basra air station in Iraq on 17 to 20 December 2007;

Visited the Royal College of Defence Medicine at Selly Oak on 15 October 2007;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 25 July 2007;

Visited the field hospital at Basra air station in Iraq on 19 to 22 July 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 9 to 12 July 2007;

Visited the Royal College of Defence Medicine at Selly Oak on 1 May 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 20 to 21 December 2006;

Visited the field hospital at Basra air station in Iraq on 28 to 30 September 2006;

Visited the field hospital at Camp Bastion in Afghanistan on 4 to 8 September 2006;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 10 July 2006;

Visited 7th Armoured Brigade in Germany on 8 to 9 May 2006.

Minister for Defence Equipment and Support (formerly Minister for Defence Procurement) (Total 3)

Visited the field hospital at the Basra air station in Iraq on 9 March 2007;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 23 February 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 5 to 7 October 2006.

Under Secretary of State (Total 16)

Visited the Royal College of Defence Medicine at Selly Oak on 20 December 2007;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 19 December 2007;

Visited the Royal Hospital Neurological Department, Putney on 29 November 2007;

Visited the Royal College of Defence Medicine at Selly Oak on 1 October 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 17 September 2007;

Visited the Royal Hospital Neurological Department, Putney on 10 August 2007;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 18 July 2007;

Visited the Royal College of Defence Medicine at Selly Oak on 22 June 2007;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 20 June 2007;

Visited the Royal College of Defence Medicine at Selly Oak on 5 April 2007;

Visited the field hospital at the Basra air station in Iraq on 1 to 2 February 2007;

Visited the field hospital at Camp Bastion in Afghanistan on 29 to 30 January 2007;

Visited the Royal College of Defence Medicine at Selly Oak on 21 December 2006;

Visited the Defence Medical and Rehabilitation Centre at Headley Court on 21 November 2006;

Visited the Royal College of Defence Medicine at Selly Oak on 6 October 2006;

Visited Royal College of Defence Medicine at Selly Oak on 16 June 2006.

Funeral services of deceased service personnel are private events and it is for the family of the deceased service person to decide who they wish to attend the funeral. No Defence Minister has been invited to attend any funeral of any service person in the past two years. Ministers have attended services of remembrance when invited.

Departmental Freedom of Information

Norman Baker: To ask the Secretary of State for Defence what percentage of Freedom of Information requests received by his Department have given rise to responses that have been published by his Department. [175708]

Derek Twigg: The following table details the number of requests received, and the number and percentage of these which have been published via the online Disclosure Log in each of the last three years since the FOI Act came into force. Figures for 2007 are currently available only up until the end of September of that year.

	RFIs received	*Responses published on the Disclosure Log*	*Percentage of published responses as a proportion of the total of RFIs received*
January to December 2005	4,604	127	2.8
January to December 2006	3,300	63	1.9
January to September 2007	2,287	132	5.8
Total	10,191	322	3.2

The Disclosure Log is available at the MOD's website at:

http://www.mod.uk/DefenceInternet/FreedomOfInformation/DisclosureLog

and is easily accessible from the main FOI website, www.foi.mod.uk

Norman Baker: To ask the Secretary of State for Defence what criteria are used to decide which of his Department's responses to requests under the Freedom of Information Act 2000 are published on the Department's website; and if he will make a statement. [175715]

Derek Twigg *[holding answer 7 January 2008]:* Where responses to requests made under the Freedom of Information Act are judged to be of wider public interest, the Ministry of Defence publishes them through the Department's online Disclosure Log. In determining which responses are of wider public interest, the Ministry of Defence assesses whether responses meet one or more of the following criteria:

response to a request received from parliamentarians, businesses and academics;

response to a request received from the media;

response containing information relating to topical or high-profile subjects or judged to be of interest to the wider public, or that promote the transparency or accountability of MOD;

response to a repeated or common request; and

response to a request that asks for a copy of a response to a previous request.

These criteria are broadly in line with the "Best Practice Guidance on Disclosure Logs" issued by the then Department for Constitutional Affairs in 2005. However, these criteria are neither prescriptive nor exhaustive, and other responses are considered for publication if they are identified as potentially being of wider public interest.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Defence pursuant to the answer of 29 November 2007, *Official Report*, column 578W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 1997. [177179]

Derek Twigg: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information, I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-51WS.

Information on the number and costs of special advisers prior to 2003 was provided at regular intervals and this information is available in the Library of the House.

Departmental Responsibilities

Dr. Fox: To ask the Secretary of State for Defence which *(a)* reports, *(b)* surveys and *(c)* studies his Department has (i) commissioned, (ii) conducted and (iii) completed in the last six months; and what the purpose was of each. [177542]

Derek Twigg: The Department keeps all its activities, processes and structures under regular review. As a result, a wide range of internal and external reports, surveys and studies are being carried out at any one time. Information on these is not held centrally and could be provided only at disproportionate cost.

English Language

Damian Green: To ask the Secretary of State for Defence how much his Department has spent on English language classes for staff in the last year for which figures are available. [177486]

Derek Twigg: Total identified MOD expenditure on English language training support for the financial year 2006-07 was £720,000.

There are no identified costs for English language classes for the Royal Navy, the RAF or MOD civilians. The MOD's requirement for English language training support is primarily for Gurkha and Commonwealth recruits to the Army.

The total cost for Gurkha Language Wing for Financial Year 2006-07 was £678,000. This cost includes both English language training for Gurkha soldiers and the teaching of Nepali to British officers

of the Brigade of Gurkhas and other attached British personnel. Individual costs are not separately identifiable. English language support across the rest of the Army is provided by basic skills development managers.

Iraq: Detainees

Mr. Tyrie: To ask the Secretary of State for Defence pursuant to the answer of 5 December 2007, *Official Report*, columns 1224-5W, on Iraq: detainees, whether the United States authorities have at any time requested British consent for any individual to be transferred to the detention facility at Guantanamo Bay. [177561]

Des Browne *[holding answer 10 January 2008]*: We have no record of the United States' authorities making any request for our consent to transfer an individual to their detention facility at Guantanamo Bay, and no record of any such individual being transferred without our consent.

Iraq: Peacekeeping Operations

Lady Hermon: To ask the Secretary of State for Defence by how much UK troop numbers in Iraq were reduced in each of the last six months in net terms; and by how much UK troop numbers are expected to be reduced in each of the next six months, in net terms. [175795]

Des Browne: The following table sets out for each of the last six months the net reduction in the number of established UK military posts in Iraq.

2007	*Net reduction in posts*	*Cumulative total*
July	0	0
August	100	100
September	300	400
October	100	500
November	600	1,100
December	0	1,100

By the end of January 2008, we aim to have reduced the number of posts in Iraq by a further 350. Work continues to plan for future force level reductions, down to around 2,500 in southern Iraq from spring 2008, in line with the statement made by my right hon. Friend the Prime Minister on 8 October 2007, *Official Report*, column 23. We are unable at present to provide a month-by-month projection of this reduction. Our plans will, of course, be guided by the advice of our military commanders and are subject to conditions on the ground.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 18 December 2007, *Official Report*, column 1458W, on Iraq: peacekeeping operations, what plans he has to instruct commercial barristers in respect of the Hercules inquest. [177332]

Des Browne: In my answer of 18 December 2007, *Official Report*, column 1458W, to the hon. Member, I confirmed the costs that MOD has incurred in engaging external legal advice and representation in respect of the Hercules inquest. Such representation includes instructing the Treasury Solicitors and Crown Counsel who will represent the Department at the inquest.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Defence when he will reply to the letter from the hon. Member for West Worcestershire, dated 23 November 2007, ref: MC06419/2007. [178020]

Derek Twigg: I replied to the hon. Member on 18 December.

Military Bases: USA

Norman Baker: To ask the Secretary of State for Defence if he will place in the Library a copy of the Tiger Team report into security at RAF bases occupied by US forces. [178155]

Mr. Bob Ainsworth: I will place a digest of the USAFE Tiger Team report on security at RAF bases provided by the UK for the use of US visiting forces in the Library of the House. This is already in the public domain following a request from a member of the public in 2006. A copy of the digest is enclosed with this answer for ease of reference. The full report has been exempted from publication under Section 31 (Law Enforcement) and Section 38 (Health and Safety) of the Freedom of Information Act.

Ministry of Defence Police and Guarding Agency

Dr. Fox: To ask the Secretary of State for Defence what plans there are to change the number of Ministry of Defence police officers. [177585]

Derek Twigg: The forecast for MDP officers in 2008 is currently approximately 3,500. Security at MOD establishments is kept under constant review and future numbers will reflect the needs of the Department.

Dr. Fox: To ask the Secretary of State for Defence what roles Ministry of Defence police officers have in supporting the British armed forces. [177589]

Derek Twigg: The main crime and security risks faced by the Ministry of Defence are terrorist attack, disruption and disorder caused by protestors, theft of key assets and major financial fraud. To combat these risks the Ministry of Defence police provides armed security, uniformed policing and the investigation of minor and serious crime.

Dr. Fox: To ask the Secretary of State for Defence what the recruiting targets for Ministry of Defence police officers were in each year since 1997. [177591]

Derek Twigg: The Ministry of Defence police has no set annual targets for recruitment. Instead it keeps recruiting requirements under constant review and recruits sufficient police constables to meet the numbers required to allow the chief constable to discharge his civilian policing function across the Defence Estate.

Netherlands: International Cooperation

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 3 December 2007, *Official Report*, column 842W, on the Netherlands: international co-operation, which units form the existing UK/Netherlands Amphibious Landing Force; how many joint training exercises between the UK and the Netherlands were conducted in support of the UK/Netherlands Amphibious Landing Force in each year since its creation; and what percentage of funding for the UK/Netherlands Amphibious Landing Force was paid by *(a)* the UK and *(b)* the Netherlands in each year since its creation. [177733]

Des Browne: The Netherlands Amphibious Landing Force (UK/NL LF) is not a standing force but a framework for long term cooperation between 3 Commando Brigade and the Royal Netherlands Marine Corps that was first conceived in 1973. From 1973-91 two joint training exercises were held annually, one in Norway during the winter and one on Salisbury plain during the summer.

Since 1991 joint training exercises have been less regular, typically taking place as work up training for operational deployment of the UK/NL LF, such as northern Iraq in 1991 and Bosnia in 1995. Joint training exercises took place in 1999, 2000, 2006, 2007 and two joint training exercises of the UK/NL LF are planned for 2008.

As with all NATO activities the principle of funding for the UK/NL LF is that costs lie where they fall; each nation therefore pays its own costs.

Prince William

Lynne Jones: To ask the Secretary of State for Defence what application procedures were followed in respect of Prince William's training to be a pilot; which of the armed forces he will be attached to after training; to which unit; what estimate he has made of the cost to the public purse of training Prince William as a pilot; and if he will make a statement. [177377]

Mr. Bob Ainsworth: His Royal Highness Prince William attended the Officers and Aircrew Selection Centre and a medical board prior to his attachment to the Royal Air Force and he met the standards required to be trained as a pilot. He will continue to be attached to the Royal Air Force once he has completed his flying training, gaining experience with several different units, to familiarise him further with the Royal Air Force, its structure, roles, history and ethos. No specific estimate has been made of the cost of his flying training but it is unlikely to exceed that of equivalent training undertaken by other trainees. After his time with the RAF, Prince William will be attached to the Royal Navy. As with the RAF, he will spend time gaining an understanding of the fullest spectrum of the Royal Navy's capabilities—from submarines to the ships of the surface fleet, including the Royal Marines and Fleet Air Arm.

Princess Royal Barracks

Mr. Hancock: To ask the Secretary of State for Defence what discussions his Department has held with local authorities on supplementary planning guidance needed to facilitate the redevelopment of Deepcut Barracks; and if he will make a statement. [178196]

Derek Twigg: There have been preliminary discussions with Surrey Heath borough council. The announcement that part of the site will be released for redevelopment after 2013 was timed to allow the site to be included in the council's core strategy. This will allow potential alternative uses to be discussed within the normal planning process.

RAF Kinloss

Angus Robertson: To ask the Secretary of State for Defence how many bedspaces his Department has of each classification on fitness for habitation for personnel based at *(a)* RAF Kinloss and *(b)* RAF Lossiemouth. [178129]

Derek Twigg: At 31 December 2007, the number of single living accommodation bedspaces at RAF Kinloss and RAF Lossiemouth, at each condition grade (Grade 1 being the highest and Grade 4 the lowest), is shown in the following table.

Number of bedspaces

Grade	*RAF Kinloss*	*RAF Lossiemouth*
Grade 1	379	99
Grade 2	388	0
Grade 3	59	770
Grade 4	0	94
Total	826	963

RAF: Training

Lynne Jones: To ask the Secretary of State for Defence how much it costs to train a Royal Air Force (RAF) pilot on *(a)* fixed and *(b)* rotary wing aircrafts; what commitment to further service in the RAF is required by applicants for training; what the criteria and application procedures are; how many applicants there were for such training in each of the last three years; and how many were successful. [177376]

Mr. Bob Ainsworth: Royal Air Force pilots continue to train throughout their careers and new entrants are not considered to have joined the trained strength until they have completed a course at an Operational Conversion Unit (OCU); on starting with an OCU, they incur an obligation to incur a minimum of six years further service following completion of their

OCU tour. For the purposes of the information requested, the end of training has been defined as the point when a pilot moves to an OCU. At this point pilots have learnt to fly and are transferred to front-line aircraft types. The indicative cost to train a Royal Air Force pilot up to transfer to an Operational Conversion Unit is about £3.1 million for Fast Jet, £0.6 million for Multi-Engine and £0.8 million for Rotary Wing aircraft. These costs are for financial year 2007-08 and cover flying training and related activities, for example, recruitment, ground training, aircraft maintenance and training on simulators. They are made up of both direct and indirect costs, and include an allowance for broader MOD overheads.

For a career as a pilot in the Royal Air Force, potential recruits need to be aged between 17 and a half and 23 years of age and have been a British citizen since birth or hold dual British/other nationality. The qualifications required are five GCSEs/SCEs at Grade C/3 minimum (to include English Language and Maths) and two A-levels or three Highers or equivalent. During the application process the aptitude, health and fitness of applicants is tested to ensure that they are ready for a career in the RAF. All applicants have to attend the Officers and Aircrew Selection Centre (OASC) based at Royal Air Force College Cranwell.

The details of the numbers who applied to enter the Royal Air Force as a trainee pilot and the number who progressed into service in each of the last three financial years (rounded to the nearest 10) are as follows:

Financial year	*Number of applicants*	*Number of pilots who progressed into service with the Royal Air Force*
2004-05	1,260	100
2005-06	1,120	120
2006-07	1,160	140

RM Condor

Mr. Weir: To ask the Secretary of State for Defence how many bed-spaces his Department has of each classification for fitness for habitation for personnel based at RM Condor in Arbroath. [178128]

Derek Twigg: As at 31 December 2007, the number of single living accommodation bed-spaces at RM Condor in Arbroath, at each condition grade (Grade 1 being the highest and Grade 4 the lowest), is shown in the following table.

Grade	*Number of bed-spaces*
1	383
2	0
3	566
4	72
Total	1,021

Special Boat Squadron: Pay

Derek Wyatt: To ask the Secretary of State for Defence (1) when he expects the Special Boat Service personnel serving in Afghanistan to receive their full pay; [169202]

(2) when the Specialist Pay Team last paid the salaries of the Special Boat Service in Afghanistan; [169203]

(3) what steps he has taken with the Specialist Pay Team to ensure the payment of the full salaries of the Special Boat Service in Afghanistan. [169204]

Derek Twigg *[holding answer 29 November 2007]:* Problems have been identified with the specialist pay components of total salary for a small number of members of the Special Boat Service. This is very much regretted. I have asked for the issues to be investigated and I will write to the hon. Member when the investigation is complete.

Substantive answer from Derek Twigg to Derek Wyatt:

I undertook to write to you in answer to your Parliamentary Questions of 3 December 2007, (Official Report, column 844W), about the problems identified with the specialist pay components of the total salary received by a small number of the Special Boat Service personnel serving in Afghanistan. Clearly, any inconvenience caused to our personnel is very much regretted.

Staff within the Royal Navy and the Service Personnel and Veterans Agency (SPVA) have completed their investigations and these have revealed that a small number of personnel did not have their employment category, grade scale and payroll type changed successfully on the JPA system on joining the SBS. The principle cause of these omissions has been identified as unfamiliarity with the new JPA processes. I can confirm that the issue was not caused by any problem with the JPA Information Technology system.

In consultation with the SPVA, the Royal Navy Human Resource staff have made the necessary changes to the affected individuals' records. The JPA system has automatically recalculated and paid the relevant personnel their full entitlements in the December pay run, and I can confirm that the correct monies have now been credited to the individuals' bank accounts.

The Royal Navy Human Resource staff have informed the affected personnel that the problem has been identified and remedial action taken. In addition, the Human Resource staff have received additional instructions and guidance to ensure that the error does not reoccur.

In cases where Service personnel experience pay problems arrangements are in place for emergency payments to be made. Individuals have access to duty personnel at their parent units who are able to make arrangements for emergency issues of cash if required or arrange support by other units if, for example, an individual is on leave in the UK when normally based in Germany.

Where problems do arise with the pay of personnel deployed on operations there is a fast track process, that can be instigated by either the individual Service person, or their spouse/partner in the UK, that allows the unit Human Resource staff direct access to the SPVA Customer Complaints Team.

I hope this is helpful.

Vetting

Mr. Wallace: To ask the Secretary of State for Defence what the average cost was to vet a UK citizen to the level of *(a)* developed vetting, *(b)* security check, *(c)* counter terrorism check and *(d)* baseline personal security standard in the latest period for which figures are available. [177548]

Mr. Bob Ainsworth: The Defence Vetting Agency (DVA) is responsible for vetting applicants for security clearance (who need not necessarily be UK citizens) for members of the armed forces, civilians in the Ministry of Defence and Defence Industry and a number of other Government Departments (OGDs) on a repayment basis. The DVA does not undertake work for all OGDs, however, and the costs shown may not apply to clearances undertaken by OGDs on their own behalf.

The Baseline Personnel Security Standard is a pre-employment check, not part of national security vetting, and as such is not carried out by the DVA.

Individual vetting costs incurred by the DVA are as follows:

	£
Counter terrorist check	48.18
Security check	52.88

Developed vetting: £794.30-£928.25 for initial cases and from £611.00-£707.35 for review cases, depending on the depth of the inquiries undertaken.

These costs apply only to the work carried out by the DVA: additional costs are incurred before the application is received in the DVA and post DVA activity. In addition, work undertaken by another agency carrying out checks on the DVA's behalf is not included in the quoted prices. It is not possible to quantify these associated costs.

Warships: Security

Dr. Fox: To ask the Secretary of State for Defence what security measures are taken to ensure the security of Royal Navy ships when in port in the United Kingdom. [177522]

Mr. Bob Ainsworth: In UK naval ports all Royal Navy ships are protected by the ports' own security arrangements including perimeter walls or fencing, access control, CCTV and armed foot and boat patrols. Each ship also has its own protection teams including armed sentries and an armed response force at short notice. For some vessels further fencing with access control to the jetty/berth, and a water-borne boom to enhance seaward security, is provided.

In commercial UK ports, in addition to the ship's protection teams, bespoke advice is provided as to the security measures that are required. This is dependent on threat analysis and existing security measures in place within the port. It may include water-borne patrols, booms and jetty access control.

World War II: Medals

Mr. Dismore: To ask the Secretary of State for Defence how many Veteran Badges have been issued to residents of Hendon. [177505]

Derek Twigg: Since 18 April 2005 a total of 80 veterans' lapel badges have been issued to residents with a Hendon area postcode.

World War Two: Anniversaries

Mr. Dismore: To ask the Secretary of State for Defence what funding is available under the Heroes Return Scheme to (*a*) veterans and (*b*) war widows to visit war graves in 2007-08; and how many (i) veterans and (ii) war widows from (A) Hendon and (B) the UK have received funding since the scheme's inception. [177504]

Derek Twigg: The Heroes Return Scheme, funded by 'the Big Lottery', ran during the years 2004-05. During that period, 18,222 veterans and 1,553 widow(er)s in the UK, together with their carers, were assisted to travel to theatres where they or their spouses had previously served, to visit war graves, and to attend commemorative events surrounding the 60th anniversary of the end of the second world war. This included 31 veterans but no war widow(er)s resident in Hendon.

The Government operate the War Widow(er)s Pilgrimage Scheme to enable war widow(er)s whose service husband or wife died as a result of military service overseas between 1914 and 1967 to make one visit to the grave/memorial, provided they have not done so before at public expense. Since 1967, the next-of-kin of personnel who died during service overseas have been given the option of having the body repatriated or for the burial to take place overseas and relatives to attend the funeral service.

TREASURY

Capital Gains Tax

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he will reply to the letter of 9 November 2007 from the hon. Member for West Worcestershire on capital gains tax and the loss of indexation allowance. [175489]

Jane Kennedy *[holding answer 18 December 2007]*: I have replied to the hon. Member.

Child Benefit: Personal Records

Harry Cohen: To ask the Chancellor of the Exchequer to whom letters of apology have been sent following the recent loss of data by HM Revenue and Customs; how many letters he expects to be sent; and what the cost is expected to be of sending those letters. [169467]

Philip Davies: To ask the Chancellor of the Exchequer how much has been spent by HM Revenue and Customs in sending out letters of apology for the loss of the child benefit discs containing confidential personal data. [173821]

Jane Kennedy: For the year April 2006 to March 2007 HMRC handled approximately 300 million pieces of outgoing post at a cost of around £79 million.

The cost of sending letters to the families affected by the recent loss of data by HMRC is estimated at £2.25 million including postage costs.

Mr. Evans: To ask the Chancellor of the Exchequer to how many people HM Revenue and Customs has written to advise them that their personal data were included on the two lost discs; how many families this accounted for; and what the total cost of this correspondence was. [170664]

Jane Kennedy *[holding answer 6 December 2007]*: For the year April 2006 to March 2007 HMRC handled approximately 300 million pieces of outgoing post at a cost of around £79 million.

The cost of sending letters to the families affected by the recent loss of data by HMRC is estimated at £2.25 million including postage costs.

Child Tax Credit

Mr. Gauke: To ask the Chancellor of the Exchequer on what grounds HM Revenue and Customs suspended the provision of information in relation to the chosen frequency of payment of child tax credit in December 2007. [177091]

Jane Kennedy: HMRC regularly review the data used for tax credit publications and it was decided that the information for table 7.1 could more efficiently be extracted from a different data source. Unfortunately this process was not completed in time for the pre-announced December 2007 publication date. The table will be reinstated in the April 2008 publication. The December 2007 publication will be updated at the same time.

Childbirth

Anne Milton: To ask the Chancellor of the Exchequer how many *(a)* live births and *(b)* stillbirths there were in each region of England in 2006. [177976]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician I have been asked to reply to your request for information on how many live births and stillbirths there were in each region of England in 2006. (177976)

The table below shows the number of live births and stillbirths in England by Government Office Region for 2006.

Live births and stillbirths by Government office region in England, 2006

Government office region of usual residence	*Live births*	*Stillbirths*
North East	29,184	156
North West	84,155	453
Yorkshire and the Humber	62,955	343
East Midlands	50,717	290
West Midlands	67,688	379
East	66,870	307
London	120,898	762
South East	98,566	479
South West	54,715	249
All	635,748	3,418

Conditional Cautions

Mr. Kidney: To ask the Chancellor of the Exchequer what assessment he has made of the effectiveness of conditional cautions in bringing about the payment of compensation by offenders to victims. [178325]

Maria Eagle: I have been asked to reply.

The conditional cautioning scheme is still in the process of being rolled out across England and Wales, with full coverage due by March 2008. While central collection of data began in 2005, concerns over quality, which we are currently addressing, mean that figures have yet to be published. However, information from the Crown Prosecution Service, made available to practitioners, shows that between 1 April 2005 and 30 November 2007, almost 5,000 conditional cautions were issued. Approximately 63 per cent. of these involved the payment of compensation. Data for the same period show a non-compliance rate for all conditional cautions of just under 6 per cent.

Mr. Kidney: To ask the Chancellor of the Exchequer how many police forces have exercised their powers to issue conditional cautions since the Criminal Justice Act 2003 came into force; and if he will make a statement. [178440]

Maria Eagle: I have been asked to reply.

Following piloting of the conditional cautioning scheme in 2005, national roll-out commenced in July 2006, and is due to be completed by March 2008. All 43 police forces in England and Wales are now operating a conditional cautioning scheme in at least one of their Basic Command Units and all areas have issued conditional cautions.

Death: Norfolk

Dr. Gibson: To ask the Chancellor of the Exchequer how many excess winter deaths were recorded in *(a)* Norwich and *(b)* Norfolk in each of the last five years. [177801]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician, I have been asked to reply to your recent question asking how many excess winter excess deaths were recorded in (*a*) Norwich and (*b*) Norfolk in each of the last five years. (177801)

Estimates of excess winter deaths relate to a four-month period from December of one year to March of the next year. The table attached provides the number of excess winter deaths in (*a*) Norwich local authority district and (*b*) Norfolk county for the years 2001-02 to 2005-06 (the latest available).

Table 1: Excess winter deaths[1,2]: Norwich local authority district and Norfolk county, 2001-02 to 2005-06

Deaths (persons)

Winter	*Norwich*	*Norfolk*
2001-02	130	790
2002-03	40	430
2003-04	30	480
2004-05	80	630
2005-06	70	520

[1] The estimated number of excess winter deaths is the difference between the number of deaths during the four winter months (December to March) and the average number of deaths during the preceding four months (August to November) and the following four months (April to July). Figures are rounded to the nearest 10.
[2] Data are based on deaths occurring in each month.

Departmental Correspondence

Mr. Harper: To ask the Chancellor of the Exchequer how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174944]

Jane Kennedy: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Departmental Pay

Sarah Teather: To ask the Chancellor of the Exchequer pursuant to the answer of 26 November 2007, *Official Report*, column 49W, on departmental pay, how many of those earning over £100,000 were employed (*a*) as special advisers and (*b*) in a political role in each year since 1997. [177184]

Angela Eagle: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-51WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Stephen Hammond: To ask the Chancellor of the Exchequer how many officials in (a) his Department and (b) his Department's agencies received bonuses in each year since 2002; and what the total sum paid in bonuses was in each case in each of those years. [178963]

Angela Eagle: I refer the hon. Gentleman to the answer I gave the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 8 October 2007, *Official Report*, column 218-19W.

Departmental Security Officer

Mr. Wallace: To ask the Chancellor of the Exchequer when the Departmental Security Officer for (*a*) his Department and (*b*) HM Revenue and Customs were appointed. [169735]

Jane Kennedy: The current Departmental Security Officers for HM Treasury and HM Revenue and Customs were appointed on (*a*) 29 October 2007 and (*b*) 2 July 2007 respectively, following the retirement of their predecessors.

Electorate

Mr. Hands: To ask the Chancellor of the Exchequer (1) what the (*a*) number of electors and (*b*) total population is of each United Kingdom parliamentary constituency; [178958]

(2) what the (*a*) total population and (*b*) number of electors in each new United Kingdom parliamentary constituency effective after the next general election is expected to be. [179018]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician, I have been asked to reply to your questions asking what the (a) number of electors and (b) total population is of each United Kingdom parliamentary constituency; and what the (a) total population and (b) number of electors in each new United Kingdom parliamentary constituency effective after the next general election is expected to be (178958, 179018).

The latest UK electoral statistics by parliamentary constituency are published on the Office for National Statistics (ONS) website. For a qualifying date of 1 December 2006 these can be downloaded from:
http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14776&image.x=8&image.y=9. For a qualifying date of 1 May 2007 they can be downloaded from: http://www.statistics.gov.uk/statbase/Product.asp?vlnk-14963&image.x=16&image.y=7

ONS is currently collecting electoral data for a qualifying date of 1 December 2007 both on the existing boundaries and the new England and Wales parliamentary constituencies that will come into effect after the next general election. Please note that some local authorities are able to supply data on existing boundaries only. This information is due to be published on 28 February 2008 and will be available to download from the 'UK Electoral Statistics—Datasets' link from: http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=319

ONS does not currently have population estimates for parliamentary constituencies for the whole of the UK. However mid-2005 estimates for parliamentary constituencies covering England and Wales are due to be published in early 2008, a publication date has not yet been finalised; and mid-2006 estimates for parliamentary constituencies covering Scotland are due to be published on 1 February 2008 and will be available from the General Register Office for Scotland website at: http://www.gro-scotland. gov.uk/statistics/publications-and-data/population-estimates/index.html.

Mid-2006 estimates for parliamentary constituencies covering Northern Ireland are available on the Northern Ireland Statistics

and Research Agency website at: http://www.nisra.gov.uk/demography/default.asp?cmsid=20_21_24&cms=demography_population%20statistics_Mid-year+population+estimates&release=

The changes for new parliamentary constituencies effective after the next general election will result in boundary changes for the parliamentary constituencies in England and Wales only. ONS does not currently have plans to publish population estimates for the new parliamentary constituencies in England and Wales.

Equitable Life

Mr. Evans: To ask the Chancellor of the Exchequer for what reasons publication of the report on Equitable Life has been postponed until summer 2008; and if he will make a statement. [178935]

Angela Eagle: The timetable for the completion of the parliamentary ombudsman's investigation into the prudential regulation of Equitable Life is entirely a matter for her.

Excise Duties: Motor Vehicles

Ms Katy Clark: To ask the Chancellor of the Exchequer how much revenue is expected to be received from vehicle licence duty in financial year *(a)* 2006-07 and *(b)* 2007-08. [177878]

Angela Eagle: The details of current receipts from the major tax streams including Vehicle Excise Duty is customarily published bi-annually in the Chancellor's Budget and pre-Budget reports. Table B8 in Annex B of the 2007 pre-Budget report contains the requested information:

http://www.hm-treasury.gov.uk/pbr_csr/pbr_csr07_index.cfm

Gastrointestinal System: Death

Mr. Lansley: To ask the Chancellor of the Exchequer how many people died from upper gastrointestinal haemorrhage in the last five years in each region. [178235]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician, I have been asked to reply to your recent questions asking how many people died from upper gastrointestinal haemorrhage over the last five years in each region. (178235)

Deaths due to haemorrhage may be certified using a variety of medical terms, depending on the anatomical site and associated health condition. Some of these can be clearly identified as relating to the upper gastrointestinal tract. In other cases, death is certified as being due to a gastrointestinal haemorrhage, but without mention of the exact anatomical site within the gastrointestinal tract. Consequently, the precise number of deaths from upper gastrointestinal haemorrhage is not known.

The table attached provides the number of deaths with an underlying cause of (a) haemorrhage where the site reported was any part of the upper gastrointestinal tract, and (b) gastrointestinal haemorrhage of unspecified site, for each government office region from 2002 to 2006 (the latest year available).

Table 1: Number of deaths from (a) haemorrhage of the upper gastrointestinal tract, and (b) gastrointestinal haemorrhage of unspecified site: Government Office Regions, 2002-06[1,2]

Deaths (persons)

		North East	North West	Yorkshire and the Humber	East Midlands	West Midlands	East of England	London	South East	South West
(a) Site specified[3]	2002	107	333	178	147	236	218	254	386	246
	2003	133	280	198	168	241	185	248	361	230
	2004	105	286	194	164	212	247	284	357	224
	2005	100	283	187	138	217	198	241	310	207
	2006	108	251	178	142	253	202	213	317	187
(b) Site unspecified[3]	2002	93	164	156	169	142	158	131	245	161
	2003	82	171	167	163	162	188	140	249	145
	2004	97	168	171	160	132	157	138	200	157
	2005	81	182	155	144	128	124	149	207	155
	2006	98	168	152	158	132	130	124	181	167
Total[3] (a and b)	2002	200	497	334	316	378	376	385	631	407
	2003	215	451	365	331	403	373	388	610	375
	2004	202	454	365	324	344	404	422	557	381
	2005	181	465	342	282	345	322	390	517	362
	2006	206	419	330	300	385	332	337	498	354

[a] Based on boundaries as of 2008.
[b] Figures are for deaths registered in each calendar year.
[c] Deaths from upper gastrointestinal haemorrhage, site specified as the upper gastrointestinal tract, were defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes I85.0, K22.6, K25.0, K25.2, K25.4, K25.6, K26.0, K26.2, K26.4, K26.6, K27.0, K27.2, K27.4, K27.6, K28.0, K28.2, K28.4, K28.6, K29.0, and K92.0, where any one of these codes was recorded as the underlying cause of death.
[d] Deaths from gastrointestinal haemorrhage, site unspecified, were defined using the ICD-10 code K92.2, where this was recorded as the underlying cause of death.
[e] The total figure is an over-estimate of the number of deaths from upper gastrointestinal haemorrhage, since it includes deaths where the site was unspecified.

Housing: Carbon Emissions

Mr. Pickles: To ask the Chancellor of the Exchequer what records (*a*) the Valuation Office Agency and (*b*) his Department keep of the number and location of zero carbon homes. [176252]

Jane Kennedy: The stamp duty land tax relief for new zero carbon homes can be claimed using the stamp duty land tax return, which contains a specific code for this tax relief. HM Revenue and Customs is therefore able to monitor the number of claims and the amount of relief given. HM Treasury has access to these data in an aggregated form. The Valuation Office Agency does not collate information in respect of zero carbon homes.

Joint Child Poverty Unit

Julia Goldsworthy: To ask the Chancellor of the Exchequer what his responsibilities are in relation to the Joint Child Poverty Unit, and what arrangements are in place for liaison with other Departments on the work of the Unit. [178427]

Jane Kennedy: The Child Poverty Unit brings together the expertise of officials from both DWP and DCSF. HMT works closely with the Unit and officials are in regular contact. The Child Poverty Unit is a member of the PSA Board chaired by HMT.

The Child Poverty Unit will report to a child poverty board comprised of senior officials from across Whitehall. At ministerial level, this board will report to DA(FCY). The Unit is also currently setting up working groups with officials across a number of Government Departments and Local Government Offices.

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when the Financial Secretary will provide a substantive reply to the letter of 31 October 2007, from the hon. Member for West Worcestershire (acknowledgement 10 October, reference 1/50946/07). [175408]

Jane Kennedy *[holding answer 18 December 2007]*: I have replied to the hon. Member.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when a reply will be sent to the hon. Member for West Worcestershire's letter of 29 November 2007, about paying VAT on flood defences, PO ref: 1/53090/2007. [178000]

Jane Kennedy: I replied to the hon. Member on 5 January.

Migration

Mr. Clappison: To ask the Chancellor of the Exchequer how many estimates of long-term population growth attributable to migration have been made by the Government since 1997; what those estimates have been, including the most recent longest term estimate of population growth attributable to migration and total future population size; what assessment he has made of the environmental and housing implications of these estimates; and what the Government's population policy is. [177459]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician I have been asked to reply to your question regarding how many estimates of long-term population growth attributable to migration have been made by the Government since 1997, what those estimates have been, including the most recent longest term estimate of population growth attributable to migration and total future population size, what assessment he has made of the environmental and housing implications of these estimates, and what the Government's population policy is (177459).

National population projections, based on a full review of all the underlying assumptions, are normally produced every two years. The most recent set is the 2006-based national projections published in October 2007. In the intervening year between these 'full' projections, special sets of 'interim' national projections may be produced. Two sets of interim projections (2001-based and 2003-based) have been produced in recent years.

The underlying assumptions for the projections are demographic trend based and should not be seen as predictions. If, as in recent years, there is an increase in migration levels then the assumptions are changed to reflect this. The long-term assumptions of annual net migration to the United Kingdom in these recent national population projections have been as follows.

Based projections	
1998	+95,000
2000	+135,000
2001	+100,000
2002	+130,000
2003	+150,000
2004	+145,000
2006	+190,000

Since the 2002-based projections, an analysis has been published of the impact of the assumed level of net migration on population growth in the period to 2031. These analyses are available from the following links:

2002-based projections

http://www.gad.gov.uk/Demography_Data/Population/2002/methodology/mignote.asp

Interim 2003-based projections

http://www.gad.gov.uk/Demography_Data/Population/2003/methodology/mignote.asp

2004-based projections

The Office for National Statistics cannot comment on the policy issues raised in your question.

Money: Northern Ireland

Mr. McGrady: To ask the Chancellor of the Exchequer (1) what recent estimate he has made of the amount of currency issued annually by Northern Irish banks; [177095]

(2) which Northern Irish banks have the right to issue bank notes; [177096]

(3) what funding reserves are required to back up the issue of currency by Northern Irish banks. [177291]

Angela Eagle: As at 24 November 2007 the total value of banknotes in circulation issued by banks in Northern Ireland was reported to be £1,607 million. The Treasury holds no estimate of the amounts issued annually by banks in Northern Ireland.

Commercial banks in Northern Ireland that currently issue their own banknotes are:

The Bank of Ireland

First Trust Bank

The Northern Bank Ltd

Ulster Bank Ltd

Under the legislation regulating banknotes issued in Northern Ireland, the Bankers (Ireland) Act 1845 and Bankers (Northern Ireland) Act 1928, those commercial banks permitted to issue banknotes are required to ensure that, at the close of business on each Saturday over specified four week periods, the average value of note-covering assets that they hold is not less than the average value of their banknotes that are in circulation (above a small fiduciary level) at the close of business on each Saturday during the same four week periods.

Non-domestic Rates: Microgeneration

Mr. Pickles: To ask the Chancellor of the Exchequer what the estimated yearly cost to the public purse is of the proposal in the pre-Budget report 2007 that microgeneration equipment in business premises will only trigger an increased liability for business rates when a property is revalued during the five-yearly revaluation process. [176250]

Jane Kennedy: The cost for not including microgeneration investments in ad hoc reassessments of business rates liability will be published at the Budget.

Office of Government Commerce: Departmental Records

Mr. Brady: To ask the Chancellor of the Exchequer (1) on what dates early versions of gateway reviews relating to *(a)* identity cards, *(b)* the NHS IT programme and *(c)* other projects were shredded by the Office of Government Commerce; [178541]

(2) whether the decision to shred early versions of gateway reviews relating to identity cards and the NHS IT programme was taken by Ministers; [178542]

(3) whether all versions prior to the final version of the gateway reviews relating to *(a)* identity cards and *(b)* the NHS IT programme were shredded by the Office of Government Commerce; and on what dates. [178543]

Angela Eagle: Working copies of Gateway reports are destroyed prior to the production of the final Gateway report to the SRO (senior responsible owner) of the project being reviewed. This 'version control' is to ensure that there is no confusion created between notes made during work in progress and the final Gateway report. Two copies of the final Gateway report are held, one by the SRO and another by the OGC, electronically, and kept on file permanently. This procedure is standard practice across all Gateway reviews. Ministers have approved the Gateway process.

Since the working copies of the Gateway reports are destroyed before the production of the final report on the last day of a review, documents will have been destroyed before the last day of the following reviews for the Identity Card Programme and the NHS:

National Programme for IT in the NHS (ID0217)

Gate 0, 24 June 2002 - 28 June 2002

Gate 0a, 25 October 2004 - 29 October 2004

Identity Cards Programme (ID0412)

Gate 0, 23 June 2003 - 25 June 2003

Gate 0a, 26 January 2004 - 29 January 2004

Gate 1, 12 July 2005 - 15 July 2005

Gate 0b, 9 October 2006 - 13 January 2006

Pregnancy: Young People

Norman Lamb: To ask the Chancellor of the Exchequer what the conception rate is for women aged 19 years and under; how many women aged 19 and under had *(a)* a live birth, *(b)* an abortion and *(c)* miscarried in the last year for which figures are available; and what proportion of all live births were to teenage mothers in the last two years. [177195]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician I have been asked to reply to your recent question asking what the conception rate is for women aged 19 years and under; how many women aged 19 and under had (a) a live birth, (b) an abortion and (c) miscarried in the last year for which figures are available; and what proportion of all live births were to teenage mothers in the last two years. (177195)

The overall number and rate of conceptions for women aged 19 years and under in England and Wales in 2005 (the most recent year for which figures are available) are shown in the

attached table. It is not possible to provide figures on conceptions leading to a live birth only as conception statistics are estimated using maternities (i.e. a pregnancy resulting in one or more live or still births) and notifications of legal abortions. Figures on conceptions leading to a maternity and conceptions leading to an abortion for women aged 19 and under in England and Wales in 2005 (the most recent year for which figures are available) are also shown in the attached table.

Figures for women who miscarried are not collected centrally.

The number and percentage of live births to mothers aged 19 and under for England and Wales in 2005-2006 (the most recent years for which figures are available) are also shown in the attached table.

Conceptions to women aged 19 years and under, England and Wales, 2005

	All conceptions		Conceptions leading to a maternity		Conceptions leading to an abortion	
	Number	Rate[1]	Number	Rate[1]	Number	Rate[1]
2005	102,312	60	61,111	36	41,201	24

[1] Conceptions per 1,000 women aged 15 to 19.

Live births by age of mother, England and Wales, 2005-06

	All ages	19 years and under	
	Number	Number	Percentage
2005	645,835	44,830	7
2006	669,601	45,509	7

Norman Lamb: To ask the Chancellor of the Exchequer what the conception rate is for girls aged 15 years and under; how many women aged 15 and under had *(a)* a live birth, *(b)* an abortion and *(c)* miscarried in the last year for which figures are available; and what proportion of all live births were to mothers aged 15 and under in the last two years. [177196]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician I have been asked to reply to your recent question asking what the conception rate is for women aged 15 years and under; how many women aged 15 and under had (a) a live birth, (b) an abortion and (c) miscarried in the last year for which figures are available; and what proportion of all live births were to mothers aged 15 and under in the last two years. (177196)

The overall number and rate of conceptions for women aged 15 years and under in England and Wales in 2005 (the most recent year for which figures are available) are shown in the attached table. It is not possible to provide figures on conceptions leading to a live birth only as conception statistics are estimated using maternities (i.e. a pregnancy resulting in one or more live or still births) and notifications of legal abortions. Figures on conceptions leading to a maternity and conceptions leading to an abortion for women aged 15 and under in England and Wales in 2005 (the most recent year for which figures are available) are also shown in the attached table.

Figures for women who miscarried are not collected centrally.

Proof of Concept Pilot Scheme

Greg Clark: To ask the Chancellor of the Exchequer what results have been reported from the proof of concept pilot scheme between HM Revenue and Customs, the Department for Work and Pensions and 12 local authorities; and when he plans to publish those results. [178534]

Mr. Plaskitt: I have been asked to reply.

The findings from the joint working proof of concept between Her Majesty's Revenue and Customs, the Department for Work and Pensions and 12 local authorities were fed into Sir David Varney's report, "Service Transformation a Better Service for Citizens and Businesses: A Better Deal for the Taxpayer", published in December 2006. This report recommended the establishment of a service that enables a citizen to report a change in circumstance only once starting with birth and bereavement, followed by change of address. The Department for Work and Pensions is taking forward this recommendation on behalf of Government as a whole and will present its business case to Her Majesty's Treasury for a decision on whether or not to begin implementation from April 2009.

Registration of Births Deaths Marriages and Civil Partnerships: Internet

Mr. Gauke: To ask the Chancellor of the Exchequer what assessment he has made of the effectiveness of the introduction of Registration On-line by the General Register Office. [177092]

Angela Eagle: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking, what assessment has been made of the introduction of Registration On-line by the General Register Office. (177092)

The introduction of the RON system has encountered some delays. However, all local authorities in England and Wales are using it for registering civil partnerships, and 102 out of 172 are using it for birth, death and stillbirth registrations. Local authorities who are not yet able to use it for births, deaths and stillbirths are able to provide a fully adequate registration service using alternative software.

Mr. Gauke: To ask the Chancellor of the Exchequer on what date he expects the General Register Office to introduce Registration On-line for marriages. [177093]

Angela Eagle: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 14 January 2008:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking on what date it is expected the General Register Office will introduce Registration On-line for marriages. (177093)

The Registration On-line marriages module has been tested and is ready for use in a live environment. However, by agreement with the local registration service, it will not be introduced until the births, deaths and stillbirths module has been adopted in all local authority areas and shown to be working satisfactorily. No firm date has yet been set.

Reparation by Offenders

Mr. Kidney: To ask the Chancellor of the Exchequer if he will bring forward measures to grant powers to the police to require an offender to pay compensation to a victim without the need to put the offender before a court. [178439]

Maria Eagle: I have been asked to reply.

The Criminal Justice Act 2003 (as amended by the Police and Justice Act 2006) already enables the police and Crown Prosecution Service (CPS) to offer a caution with conditions attached to an offender where there is sufficient evidence to charge him or her with an offence which is admitted.

Conditions are currently aimed at rehabilitation (addressing the offender's behaviour) and/or reparation (making good the harm the offender has caused including the payment of compensation to a victim) and may include restorative justice processes.

The offender must agree to that caution and the conditions attached. It is for the CPS to decide whether a conditional caution is suitable and to identify appropriate conditions. If the conditions are not complied with, the offender can be prosecuted for the original offence.

The Government have no plans to grant the police powers to require offenders to make reparation by way of compensation.

Revenue and Customs: Cardiff

Anne Main: To ask the Chancellor of the Exchequer what proportion and how many of the staff at HM Revenue and Customs office in Ty-Glas Llanishen, Cardiff were employed *(a)* on permanent contracts, *(b)* on temporary contracts and *(c)* via an employment agency in each of the last three years; and if he will make a statement. [177021]

Jane Kennedy: The headcount data for HMRC staff on *(a)* permanent HMRC contracts and *(b)* non-permanent HMRC contracts, in Ty-Glas Llanishen, Cardiff for each of the last three years and at October 2007 are as follows:

	Permanent	*Non-permanent*	*Total*
1 April 2005	2,458	142	2,600
1 April 2006	2,451	201	2,652
1 April 2007	2,613	225	2,838
1 October 2007	2,567	159	2,726

Data for agency staff are not available.

Revenue and Customs: Correspondence

Mr. Burns: To ask the Chancellor of the Exchequer when he expects HM Revenue and Customs to reply to the letter from the hon. Member for West Chelmsford of 12 July on his constituent Mrs C. Irvine (Ref: 2007/07/002840). [171774]

Jane Kennedy: HM Revenue and Customs replied to the hon. Member on 30 November 2007.

Revenue and Customs: Tyne and Wear

Anne Main: To ask the Chancellor of the Exchequer what proportion and how many of the staff at HM Revenue and Customs office in Washington, Tyne and Wear were employed *(a)* on permanent contracts, *(b)* on temporary contracts and *(c)* via an employment agency in each of the last three years; and if he will make a statement. [177022]

Jane Kennedy: The headcount data for HMRC staff on *(a)* permanent HMRC contracts and *(b)* non-permanent HMRC contracts, in Washington, Tyne and Wear for each of the last three years and at October 2007 are as follows:

	Permanent	*Non-permanent*	*Total*
1 April 2005	2,832	292	3,124
1 April 2006	2,619	349	2,968
1 April 2007	2,539	272	2,811
1 October 2007	2,498	230	2,728

Data for agency staff are not available.

Stamp Duties

Mr. Pickles: To ask the Chancellor of the Exchequer how many homes, according to HM Revenue and Customs stamp duty land tax return records, have claimed the zero rate of stamp duty on zero carbon homes. [176390]

Jane Kennedy: The stamp duty land tax relief for new zero carbon homes has been claimed for three transactions. A stamp duty land tax certificate was issued for these transactions between 1 October 2007, the date from which the relief can be claimed, and the end of November 2007.

HMRC expect the numbers of qualifying transactions to rise as more properties eligible to claim the relief go on the market. The Government are committed to conducting an interim review of the relief in 2010 which will examine the effectiveness of the relief in stimulating the innovation necessary to ensure that by 2016 all new homes are zero-carbon.

Strokes: Finance

Mrs. Moon: To ask the Chancellor of the Exchequer what the Barnett consequentials have been for Wales of improved funding for stroke services in England in 2007-08. [177623]

Andy Burnham: Funding for the Welsh Assembly Government in 2007-08 was announced as part of the 2004 spending review. The Welsh Assembly Government received Barnett consequentials on the increases in spending for the Department of Health but the Welsh funding is on a block basis rather than disaggregated by specific spending streams such as funding for stroke services.

Tax Havens: British Nationality

Harry Cohen: To ask the Chancellor of the Exchequer what estimate he has made of the amount of income foregone by the Exchequer as a result of people of British origin entering tax exile. [177074]

Jane Kennedy: No such estimate is available.

Taxation: Bingo

Stewart Hosie: To ask the Chancellor of the Exchequer for what reasons both value added tax and gross profit tax are applied to the bingo industry; and if he will introduce a single tax regime for the industry. [177893]

Angela Eagle: The Government consider all relevant factors when establishing and maintaining fair regimes for the gambling taxes and keep all taxes under review.

Taxation: Northern Ireland

Mr. Pickles: To ask the Chancellor of the Exchequer what assessment his Department has made of the effect of the introduction of the discrete capital values system of domestic taxation in Northern Ireland on house prices. [176385]

Jane Kennedy: The local domestic taxation system in Northern Ireland is a devolved matter for the Northern Ireland Executive.

Valuation Office: Official Hospitality

Mr. Pickles: To ask the Chancellor of the Exchequer what the rules are for staff members of *(a)* the Valuation Office Agency and *(b)* HM Revenue and Customs on recording details of entertainment and hospitality received. [176417]

Jane Kennedy: The information requested is as follows.

VOA

(a) The rules for staff members of the Valuation Office Agency on recording details of entertainment and hospitality received are set out in Staff Handbook, Section 9.6 which states as follows:

Recording of benefits offered

"You must inform your Group Management, or your line manager for non-Group staff, in writing of any offers of gifts, inducements or hospitality (including invitations to working lunches and dinners) which you accept or, with the agreement of your Group Management, or your line manager for non-Group staff, record them directly in the office hospitality record maintained for that purpose.

You should also report or record any significant (worth 25 or more) or repeated offers which you have declined. If you are in doubt whether an offer you have turned down should be reported, you should seek the advice of your Group Management, or your line manager for non-Group staff."

HMRC

(b) The staff of HMRC are expected to maintain the highest standards of propriety at all times. To avoid any suggestion of impropriety they must not accept benefits of any kind from a third party including customers, suppliers and contractors other than isolated gifts of a trivial nature such as a calendar or diary, or conventional hospitality. HMRC has detailed guidance on gifts and hospitality, an extract of the guidance follows:

HMRC—Recording of benefits offered

"If you have been given permission to accept an offer of a gift or hospitality, for example, invitations to working lunches and dinners, you must record the details in the gifts and hospitality register held in your location. This includes the acceptance of a gift that is trivial in nature, for example, calendars or diaries. Minor refreshments such as tea, coffee and biscuits need not be recorded.

You must also report and record any significant single offer or inducement (worth £25 or more) or repeated offers of inducement that you have declined. If you are in doubt about reporting an offer you have declined, you must ask your manager's manager for advice or contact HR Service Centre."

Welfare Tax Credits: Borders Region

Mr. Moore: To ask the Chancellor of the Exchequer how many families in Berwickshire, Roxburgh and Selkirk were in receipt of *(a)* child tax credit and *(b)* working tax credit on (i) 30 April 2006, (ii) 31 December 2006, (iii) 30 April 2007 and (iv) 31 December 2007. [178085]

Jane Kennedy: The information is not available for the dates requested. Estimates of the number of recipient families with tax credits, by each parliamentary constituency, at 3 April 2006, 2 December 2006, 3 April 2007 and 4 December 2007, are available in the HMRC snapshot publication "Child and Working Tax Credits Statistics. Geographical Analyses" for each relevant date. This is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

We do not produce statistics separately for child tax credit and working tax credit.

Welfare Tax Credits: Overpayments

Mr. Laws: To ask the Chancellor of the Exchequer how many requests to pay back overpaid tax credits (forms TC610) were issued by HM Revenue and Customs and its predecessor organisation in each month since April 2002; and if he will make a statement. [172774]

Jane Kennedy: HM Revenue and Customs (HMRC) started issuing TC610 notices to pay in October 2004. The number of requests to pay back overpaid tax credits (forms TC610) issued by HMRC in each month from October 2004 to October 2006 inclusive was:

Month	*Thousand Forms TC610 issued*
2004-05	
October 2004	9
November 2004	10
December 2004	184
January 2005	325
February 2005	284
March 2005	201
2005-06	
April 2005	43
May 2005	56
June 2005	98
July 2005	85
August 2005	99
September 2005	110
October 2005	175
November 2005	260
December 2005	239
January 2006	312
February 2006	91
March 2006	81
2006-07	
April 2006	96
May 2006	88
June 2006	82
July 2006	136
August 2006	125
September 2006	210
October 2006	495

For the period November 2006 to October 2007 inclusive I refer to the answer I gave the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 4 December 2007, *Official Report*, column 1206W.

DUCHY OF LANCASTER

Admiralty House

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster for how many months the official ministerial residences in Admiralty House previously occupied by the *(a)* right hon. Member for Ashfield and *(b)* right hon. Member for Derby, South have remained empty. [176344]

Gillian Merron: I refer the hon. Member to my answer of 17 December 2007, *Official Report*, column 1080W.

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 27 November 2007, *Official Report*, column 352W, on Admiralty House, what payments were made by other Departments to his Department for *(a)* repairs and *(b)* furnishing or refurbishing of official ministerial residences in each of the last three years; and of what value. [176762]

Gillian Merron: Occupying Departments are responsible for the relevant costs associated with the ministerial residencies in Admiralty House. Information on costs is not held centrally.

Charities

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what plans he has to bring forward proposals for *(a)* primary legislation, *(b)* secondary legislation and *(c)* guidance on allowing charities greater freedom to campaign on changes to legislation; and what plans he has to issue a consultation paper on this matter. [175175]

Gillian Merron: The Government have no plans to consult or bring forward legislation to change the law in relation to campaigning or political activities by charities. In response to calls from charities for clearer guidance, the Charity Commission has agreed to revise its guidance on campaigning and political activities, which is expected to be published early in 2008.

Chequers

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what the Government's policy is on civil servants staying overnight at Chequers when the Prime Minister is not resident. [176512]

Gillian Merron: I refer the hon. Member to my answer of 13 December 2007, *Official Report*, column 825W.

Civil Contingencies Act 2004

Mr. Sanders: To ask the Chancellor of the Duchy of Lancaster what Government funding has been made available to *(a)* local authorities and *(b)* fire authorities to meet obligations under the Civil Contingencies Act 2004; and if he will make a statement. [177448]

Gillian Merron: Government funding for local authorities, including fire authorities to fulfil their duties under the Civil Contingencies Act 2004 was taken into account in the spending plans for formula grant (Revenue Support Grant and National Non Domestic Rates) announced in the Comprehensive Spending Review 2007. The Government's proposals for funding local authority services for the three years 2008-09 to 2010-11, will see increases in total grant (formula grant, area-based grant and specific grants) of 4.0 per cent., 4.4 per cent. and 4.3 per cent. respectively.

In London, in addition to the grant paid to London boroughs, a separate grant is made to the London Fire and Emergency Planning Authority (LFEPA) to support London authorities in discharging their duties under the Civil Contingencies Act, including provision of a secretariat for London's Local Resilience Forums and other discrete emergency planning activities.

Departmental Data Protection

Mr. Walker: To ask the Chancellor of the Duchy of Lancaster whether the Cabinet Office's information technology and data management systems are BS7799 compliant. [168755]

Gillian Merron: I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. On 17 December, *Official Report*, column 98WS, the Cabinet Office published an interim progress report, which was laid before the House by the Chancellor of the Duchy of Lancaster. A further report is expected in spring 2008.

Departmental Equality

Philip Davies: To ask the Chancellor of the Duchy of Lancaster how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173820]

Gillian Merron: Diversity is integrated into all of the Cabinet Office's policy and operational functions, and as such, it is not possible to isolate the total costs associated with this work.

Departmental Legal Opinion

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how much has been spent by *(a)* the Cabinet Office and *(b)* the Prime Minister's Office on legal advice in relation to police investigations in each of the last 12 months. [178564]

Phil Hope: I refer the hon. Member to the answer given by the Minister for the Cabinet Office my right hon. Friend the Member for Doncaster, North (Edward Miliband) to the right hon. Member for Horsham (Mr. Maude) and the right hon. Member for North Norfolk (Norman Lamb) on 10 January 2008, *Official Report*, columns 755-56W.

Mr. Burrowes: To ask the Chancellor of the Duchy of Lancaster what the cost to the public purse was of external legal advice provided to *(a)* civil servants and *(b)* special advisers in relation to the police investigation into allegations of cash for peerages. [179329]

Phil Hope: I refer the hon. Member to the answer given by my right hon. Friend the Minister for the Cabinet Office (Edward Miliband) to the hon. Member for Horsham (Mr. Maude) and the hon. Member for North Norfolk (Norman Lamb) on 10 January 2008, *Official Report*, columns 755-56W.

Departmental Official Hospitality

Norman Baker: To ask the Chancellor of the Duchy of Lancaster how many receptions were held by the Cabinet Office between 1 and 14 October 2007; on what dates they were held; at which venues; what the purpose was of each; who *(a)* hosted and *(b)* paid for each; what the estimated attendance was of each; and what each cost his Office. [165085]

Gillian Merron *[holding answer 19 November 2007]*: The Cabinet Office held two receptions between 1 and 14 October 2007. Details of each event are as follows:

Date	*Venue*	*Host*	*Estimated attendance*
9 October 2007	Admiralty House, Whitehall, London	e-Delivery Team Transformational Government	52
10 October 2007	Church House, Westminster, London	e-Delivery Team Transformational Government	100

The purpose of both events was the promotion of Government Gateway, a website for individuals and organisations to access online Government services.

Both events were funded by enGage, the managed service supplier for the Government Gateway. The service charges for the delivery of the Government Gateway, by enGage, are broken down and audited, and neither of these receptions formed part of these service charges.

Information on official and charity receptions held at No. 10 Downing street will be published in the usual way following the end of the financial year

Departmental Parliamentary Questions

Mr. Harper: To ask the Chancellor of the Duchy of Lancaster how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174951]

Gillian Merron: The Department's parliamentary branch has three members of staff who work on a range of matters connected with parliamentary business, including parliamentary questions (PQs) and legislation. It is not possible to distinguish the time the team spends on PQs from that of other parliamentary branch duties.

The parliamentary branch does not deal with Members' or peers' correspondence.

Departmental Pay

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster how much *(a)* his Department and its agencies, *(b)* the Prime Minister's office and *(c)* the Leader of the House's office spent on end-of-year bonus payments in each of the last five years. [171549]

Gillian Merron: The Prime Minister's Office and the Leader of the House's Office are an integral part of the Cabinet Office.

For 2003, the cost of end year bonuses paid is not held centrally and therefore only available at disproportionate cost. For details of the cost of end-of-year bonuses in 2004-06 I refer the hon. Member to the answer given on 2 July 2007, *Official Report*, column 901W, to the hon. Member for Upper Bann (David Simpson). The cost of end year bonuses paid in 2007 will be available only when the Department's resource accounts are fully audited and laid before Parliament. This is expected to be before the 2008 summer recess.

Departmental Property

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster (1) what the total cost of repairs to facilities and items in Number 10 Downing Street and the Prime Minister's Offices has been since 27 June: [173135]

(2) how many *(a)* telephones, *(b)* computers and *(c)* doors in (i) Number 10 Downing Street and (ii) the Prime Minister's Offices have been replaced due to malfunction or damage since 27 June; [173136]

(3) on how many occasions repairs have been made to *(a)* telephones, *(b)* computers and *(c)* doors in (i) Number 10 Downing Street and (ii) the Prime Minister's Offices since 27 June. [173137]

Gillian Merron: Figures for the financial year 2007-08 will be available after the end of the financial year.

The Government maintain the Downing street complex to standards appropriate to its grade 1/2 listed status. Repairs to buildings and equipment are carried out as and when required to ensure continuity of business.

David T.C. Davies: To ask the Chancellor of the Duchy of Lancaster how much has been spent by the Prime Minister's Office on renovation and refurbishment of its property in each of the last five years. [164367]

Gillian Merron: The Government are legally required to maintain the Downing Street complex to standards appropriate to its Grade 1/2 listed status in consultation with English Heritage. In addition to providing office accommodation the building also fulfils an important representational role.

No significant refurbishment works have been undertaken at the Downing street complex since the large scale rebuilding works that took place between 1960 and 1963. As a result much of the infrastructure now needs to be renewed or upgraded. It has therefore been recommended that essential improvements are undertaken through on-going annual maintenance works.

For details of the total costs of refurbishment, maintenance and structural improvements between 2002-03 and 2004-05, I refer the hon. Member to the answer the Prime Minister gave the hon. Member for Bridgwater (Mr. Liddell-Grainger) on 16 March 2006, *Official Report*, column 2393W. For details of the total costs of refurbishment and maintenance for 2005-06, I refer the hon. Member to the answer given by my right hon. Friend the Member for North-West Durham, then Minister for the Cabinet Office (Hilary Armstrong), to the hon. Member for North-East Hertfordshire (Mr. Heald) on 12 March 2007, *Official Report*, column 97W.

For 2006-07 work commenced on replacing the failed cooling and heating systems, part of a rolling programme of refurbishment that will take several years to complete. The cost in 2006-07 was £734,631. The cost of refurbishment, maintenance and other structural improvements in 2006-07 was £648,614. This expenditure was funded out of existing budgets to maintain the fixed assets, plant and machinery, the fabric of the building, floors, walls and ceilings and the upkeep and repair of heritage assets, and to ensure a safe working environment for staff and visitors.

Departmental Redundancies

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175325]

Gillian Merron: In the 12 months preceding 30 June 2006, the redundancy cost to the Cabinet Office was £72,199 arising from voluntary departure.

There were no redundancy costs in the 12 months preceding 2005.

The Cabinet Office is unable to provide costs for redundancy in the 12 months preceding 30 June 2004 as the relevant figures are not separately identified.

Disclosure of Information: Public Sector

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what the terms of reference are of the review into data sharing in the public sector. [176335]

Mr. Wills: I have been asked to reply.

The terms of reference for the independent data sharing review being led by Richard Thomas and Doctor Mark Walport are:

The review will consider whether there should be any changes to the way the Data Protection Act 1998 operates in the UK and the options for implementing any such changes. It will include recommendations on the powers and sanctions available to the regulator and courts in the legislation governing data sharing and data protection. It will also make recommendations on how data sharing policy should be developed in a way that ensures proper transparency, scrutiny and accountability. To inform its recommendations, the review panel will consult with:

(a) the devolved administrations;

(b) the European Commission;

(c) the academic and legal community and the media;

(d) representatives of the IT community and the private sector;

(e) a representative sample of Government Departments and agencies with an interest in data sharing and privacy;

(f) other parties identified by the review team.

The recommendations will seek to take account of technological advances and strike a balance that ensures appropriate privacy and other safeguards for

individuals and society, while enabling sharing information to protect the public, increasing transparency enhancing public service delivery as well as the need to minimise the burden on business.

English Language

Damian Green: To ask the Chancellor of the Duchy of Lancaster how much his Department has spent on English language classes for staff in the last year for which figures are available. [177432]

Gillian Merron: The Department does not centrally run English language classes. Information on whether individual management units have supported staff to attend any English language classes is not held centrally and therefore can be obtained only at disproportionate cost.

Labour Turnover

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many civil servants have left the *(a)* Prime Minister's Office and *(b)* Cabinet Office to work elsewhere (i) in and (ii) outside the civil service since 27 June 2007. [173148]

Gillian Merron: The Prime Minister's Office forms part of the Cabinet Office.

There has been a total of 348 staff who have left the Cabinet Office since 27 June 2007. Of these:

194 left to work for another Government Department (of which 112 members of staff transferred in the machinery of government moves of the Better Regulation Executive and Prime Minister's Delivery Unit);

31 members of staff were loaned out to another Government Department (three of which on a machinery of government move);

16 members of staff were seconded to an external organisation;

95 left to work outside the civil service;

12 people retired or were dismissed.

Ministers: Official Residences

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster which Ministers of the Crown have *(a)* one, *(b)* two and *(c)* three or more residences consequent on his or her office. [176514]

Gillian Merron: I refer the hon. Member to the answer given to him and the hon. Member for Lewes (Norman Baker) by my right hon. Friend the Prime Minister on 17 October 2007, *Official Report*, column 1135W.

National Identity Register

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster what plans his Department has to make use of data on the national identity register when it is established; and what the estimated cost to his Department of that use is. [174030]

Gillian Merron: The Cabinet Office will be working with the Home Office prior to the introduction of the national identity scheme to establish how identity information held on the proposed national identity register might be used to provide easier access services for our customers. It is too early in the process to establish the detailed costs and benefits.

Official Hospitality

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster what Government policy is on *(a)* Ministers and *(b)* civil servants making bets on political events (i) with and (ii) via a commercial organisation. [177380]

Gillian Merron: Ministers and civil servants are required to conduct themselves in accordance with the requirements of the 'Ministerial Code' and the 'Civil Service Code' as appropriate.

Public Participation: Incentives

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 December 2007, *Official Report*, column 1344W, on public participation: incentives, if he will place in the Library a copy of each of the handouts provided to participants at the forum. [174875]

Gillian Merron: The handouts provided to participants at the forum are available on the Cabinet Office website at:

http://www.hmg.gov.uk/draftlegislativeprogramme/public_engagement/national_workshop/index.asp

A copy has also been placed in the Library.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 December 2007, *Official Report*, column 1344W, on public participation: incentives, what the cost to the public purse of the forum was. [174878]

Gillian Merron: I refer the right hon. Member to the answer given to the hon. Member for North-West Cambridgeshire (Mr. Vara) on 17 December 2007, *Official Report*, column 1083W, by the Minister for the Cabinet Office, my right hon. Friend the Member for Doncaster, North (Edward Miliband).

Regulation

Mrs. May: To ask the Chancellor of the Duchy of Lancaster for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175316]

Gillian Merron: Details on all Cabinet Office sponsored public bodies, including those with regulatory and inspection functions, are published annually. Information covering the period 1997-2006, including details of expenditure, is available in the "Public Bodies" publication which can be downloaded from the Civil Service website (www.civilservice.gov.uk/about/public/bodies.asp). More detailed information on expenditure appears in individual bodies' annual reports and accounts.

Information for 2007 will be published on the site in due course.

Social Exclusion Task Force: Finance

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the budget of the Social Exclusion Task Force was in *(a)* each of the last five years and *(b)* each year of the 2007 comprehensive spending review period. [173158]

Gillian Merron: The Social Exclusion Task Force was created in 2006.

Details of its budget for 2006-07 can be found in the Cabinet Office resource accounts, a copy of which has been placed in the Library.

Details of its budget for 2007-08 will not be finalised until the spring supplementary report is published in February 2008.

The Social Exclusion Task Force's budget for each year of the 2007 comprehensive spending review period has not yet been agreed. It will be a portion of the overall Cabinet Office budget.

COMMUNITIES AND LOCAL GOVERNMENT

Aerials: Health Hazards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what recent research her Department has commissioned, into the potential effect on health of mobile telephone masts. [176206]

Dawn Primarolo: I have been asked to reply.

Research on the potential health effects from mobile phone technology is evaluated by the Health Protection Agency (HPA). The HPA's Advisory Group on Non-ionising Radiation, in its comprehensive scientific review of Health Effects of Radiofrequency Electromagnetic Fields, concluded that

"exposure levels from living near to mobile phone base stations are extremely low, and the overall evidence indicates that they are unlikely to pose a risk to health".

Further information is available on the HPA's website at:

www.hpa.org.uk/radiation.

Responding to continuing concerns however, the independently managed Mobile Telecommunications and Health Research (MTHR) programme, jointly funded by Government and Industry, has supported a number of studies into the possible health effects of technology relating both to masts (base stations) and hand-held mobile phones. These studies, some in progress and some already published, are described on the MTHR website at www.mthr.org.uk. None of the research published in its 2007 report so far demonstrates that biological or adverse health effects are produced by radiofrequency exposure from mobile phones or base stations.

The HPAs Radiation Protection Division continues to keep the science under review.

Audit Commission: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the running costs were of the Audit Commission in 1996-97; and what the expected costs are in 2007-08. [176161]

John Healey: This is an operational matter for the Audit Commission and I have asked the Chief Executive of the Audit Commission to write to the hon. Member directly.

Letter from Peter Wilkinson, dated 8 January 2008:

Your Parliamentary Question on what the running costs were of the Audit Commission in 1996-97 and what the estimated rate is for 2007-08 has been passed to me for reply in the absence of our Chief Executive, Steve Bundred.

The running costs of the Commission, based on total operating costs, were £93.1m for 1996/97. The estimate for 2007/08 is £216.6m.

A copy of this letter will be placed in the House of Commons Library.

Departmental Responsibilities

John McDonnell: To ask the Secretary of State for Communities and Local Government what her Department's powers are in respect of *(a)* each of its non-departmental public bodies, *(b)* each of its executive agencies and *(c)* the Government Offices of the Regions to (i) grant and withdraw delegated personnel responsibilities, (ii) oversee and control the exercise of delegated personnel responsibilities, including those for pay, and (iii) ensure compliance with all equality legislation. [178497]

Mr. Dhanda: I refer my hon. Friend to the answer I gave him on 12 September 2007, *Official Report*, columns 2124-25W.

Eco-Towns

Peter Luff: To ask the Secretary of State for Communities and Local Government (1) what *(a)* criteria and *(b)* process will be used to determine the geographical (i) location and (ii) distribution of eco-town sites; and what her policy is on the distribution of such towns across the English regions. [166916]

(2) what the timescale is for decisions on new eco-towns; and what steps she will take to integrate such decisions with local *(a)* core strategies and *(b)* development frameworks. [166918]

Yvette Cooper: Our approach to taking forward eco-towns is set out in the eco-towns prospectus, and as the Prime Minister has indicated we would like to see a spread of schemes across the regions. We expect to publish the proposals for eco-towns shortly, once we have completed an initial assessment of the applications received. There will be considerable opportunity for consultation on the proposals including the local authorities and the public before the process is completed.

Once potential eco-towns have been selected their planning and development can be delivered through the operation of the spatial planning system, which may require the review of existing plans. Where necessary, the Government will commit resources to facilitate the operation of the planning process, so as to minimise delay. As set out in the eco-towns prospectus, there may be circumstances where use of the New Towns Act powers might be used.

Peter Luff: To ask the Secretary of State for Communities and Local Government what proposals she has received for eco-towns situated wholly or partially in Worcestershire. [166920]

Yvette Cooper: We expect to announce proposals shortly, once an individual assessment has taken place. There will be considerable opportunity for consultation before the process is completed.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government who will run the citizens' juries for the design of the new eco-towns; what procurement process has been undertaken in the selection of that individual, organisation or company; and how much has been allocated from what budget for such juries. [173339]

Yvette Cooper: On 30 October I confirmed that an ideas competition would be run to develop and set the design standards for 10 new eco-towns. As part of this there will also be an opportunity for public involvement to judge the short-listed eco-towns designs through a citizens' panel. Final details of the competition, being undertaken with CABE, the Prince's Foundation and RIBA, will be announced shortly. We expect to undertake the procurement process to select the organisation to run the citizen's jury shortly.

Peter Luff: To ask the Secretary of State for Communities and Local Government what planning process will be used for construction of an eco-town that is not *(a)* supported and *(b)* proposed by the relevant local authority. [173873]

Yvette Cooper *[holding answer 17 December 2007]*: I refer the hon. Member to the answer I gave him today to questions 166916 and 166918.

Peter Luff: To ask the Secretary of State for Communities and Local Government when she plans to announce the sites which she will take forward to the next stage as possible sites for eco-towns; and what processes will be adopted to ensure the full engagement of *(a)* local authorities and *(b)* the public before final decisions are taken. [174390]

Yvette Cooper *[holding answer 18 December 2007]*: We are consulting with local authorities in the relevant areas covered by proposed eco-towns in January 2008 as part of an initial assessment of bids and expect to publish proposals shortly. There will be considerable opportunity for consultation and engagement involving local authorities and the public before the process is completed.

Where a planning application for an eco-town is submitted it will be determined in the normal way under the Planning Acts. Section 38(6) of the Planning and Compulsory purchase Act 2004 requires that the application is determined in accordance with the development plan unless material considerations indicate otherwise. We will set out the full planning process as part of the announcement, and this may include reviewing the RSS or development plan. As set out in the Eco-towns Prospectus, there may be circumstances where use of the New Towns Act powers might be used.

Peter Luff: To ask the Secretary of State for Communities and Local Government what representations she has received on the proposed eco-town at Throckmorton; and if she will make a statement. [177311]

Yvette Cooper *[holding answer 10 January 2008]*: I refer the hon. Member to the answer I gave him today to questions 166920 and 174390.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government (1) what plans she has to designate eco-towns as healthy towns; [165552]

(2) what proportion of the new eco-towns are also expected to be designated as healthy towns. [165554]

Yvette Cooper: The eco-towns prospectus, launched on 23 July alongside the Housing Green paper, sets out the vision and outline criteria for eco-towns. The aim in terms of health is to promote a healthy and sustainable environment through design and planning to deliver physical and mental benefits.

Equality and Human Rights Commission: Public Appointments

Mr. Allen: To ask the Secretary of State for Communities and Local Government what factors she takes into account in appointing commissioners to the Equality and Human Rights Commission; and what assessment she makes of the experience or knowledge of appointees in *(a)* the field of human rights and *(b)* the rights of faith communities. [165827]

Barbara Follett: I have been asked to reply.

Commissioners are appointed on the basis of relevant experience or knowledge of discrimination and human rights and the desirability of the Commissioners together having experience and knowledge relating to the relevant matters.

Individuals with knowledge or expertise in human rights and discrimination on grounds of religion or belief were invited to apply for the post of Commissioner. Applicants were then asked to demonstrate at application and interview an understanding of issues relevant to discrimination on grounds of religion or belief and a commitment to human rights.

Fire Services: Industrial Health and Safety

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many firemen were *(a)* injured and *(b)* killed whilst on duty in each of the last five years. [178933]

Mr. Dhanda: Available information, based on financial years, is shown as follows.

Firefighters injured in England and Wales

	All firefighters injured	Number of fatal injuries
2001-02	6,508	1
2002-03	6,591	3
2003-04	6,907	1
2004-05	5,793	5
2005-06	4,887	0

Source:
Annual returns to Communities and Local Government

Flood Control: Coastal Areas

Mr. Waterson: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effects of flood risk on the development of coastal towns. [165331]

Yvette Cooper: Planning Policy Statement 25 (PPS25) on development and flood risk aims to avoid and reduce flood risk as far as possible. Some coastal communities are already within areas at risk of flooding. PPS25 is designed to ensure that when proposals come forward for necessary development and regeneration in these areas, they realise opportunities to reduce flood risk to the community and they are safe, less susceptible to flood damage and will not increase flood risk elsewhere. Planning applications will be determined on their individual merits, in the light of local development frameworks, supported by strategic flood risk assessments, and the principles of PPS25.

Home Information Packs

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government if she will place in the Library the reports of *(a)* the trials of home information packs (HIPs) conducted by her Department and *(b)* research conducted or commissioned by her Department into HIPs. [174307]

Yvette Cooper: A copy of the area trial research report will be placed in the Library of the House once the project has been finalised. Previous research conducted or commissioned by the Department into HIPs including the analysis by Europe Economics has already been placed in the Library of the House or on the departmental website.

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government whether energy performance certificates can be generated without home information packs. [174310]

Yvette Cooper: Householders can choose to commission an energy performance certificate whether or not they are selling a home and need a home information pack.

Homesale Network

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government which questions her official, Andrew Lock, *(a)* answered and *(b)* did not answer at the Homesale Network meeting on 9 November. [174309]

Yvette Cooper: The official named attended the event and responded on behalf of the Department to a wide range of issues related to home information packs. A record of every individual question asked was not kept.

Housing: Carbon Emissions

Mr. Meacher: To ask the Secretary of State for Communities and Local Government what criteria she uses to determine whether a home may be classified as an eco-home. [165537]

Yvette Cooper *[holding answer 19 November 2007]:* The Government criteria for high environmental standards in housing is set out in the Code for Sustainable Homes which has six levels.

The code is a set of sustainable design principles covering performance of new homes in nine key areas, including Energy and CO_2 Emissions, Water, Materials, Surface Water Run-off, Waste, Pollution, Health and Well-being, Management and Ecology.

New homes that are assessed against the code receive a one to six star rating. A one star home is built to higher sustainability standards than those set out in building regulations while a six star home is a truly sustainable 'zero carbon' home. The criteria on how to achieve each star rating is set out in detail in 'Code for Sustainable Homes: Technical guide' available on the Communities and Local Government's website at:

www.communities.gov.uk/thecode.

The code is based on the Building Research Establishment's Environmental Assessment Method (BREEAM) for homes 'EcoHomes', which it replaced for new homes in England from April 2007. The code is more robust than 'Ecohomes' as it sets minimum standards for Energy/CO_2, Water, Materials, Surface Water Run-off and Waste.

Housing: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Communities and Local Government what assessment she has made of levels of housing overcrowding in Cleethorpes constituency. [176872]

Mr. Iain Wright: Communities and Local Government do not collect data on overcrowding from local authorities. However, within the context of developing their strategic housing role, we would expect local authorities to have an understanding of levels of overcrowding within their area.

Housing: Databases

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the unique property reference number generated by the Register Operator for inclusion in an energy performance certificate is the same unique property reference number used for a property in the National Land and Property Gazetteer. [173225]

Yvette Cooper: The National Land and Property Gazetteer have their own unique reference property numbers, which are not the same as those generated by the Register.

Housing: Fire Services

John McDonnell: To ask the Secretary of State for Communities and Local Government how many firefighters have used the key worker housing scheme in each of the last three years for which figures are available. [176901]

Yvette Cooper *[holding answer 7 January 2008]*: The following table shows the number of firefighters who have used the key worker housing scheme in each of the last three years in London, the south east and east of England.

Firefighters assisted through the KWL scheme

	Number of firefighters
2005	6
2006	93
2007 (as at end of October)	51

Housing: Green Belt

Anne Main: To ask the Secretary of State for Communities and Local Government how many dwellings were built within the 1997 designated green belt in (*a*) St. Albans District and (*b*) Hertfordshire in each year between 1997 and 2006. [177024]

Mr. Iain Wright: The Department does not hold information in a format which would enable the number of dwellings built between 1997 and 2006 on designated, or previously designated, Green Belt in either St. Albans or Hertfordshire to be readily identified.

The information could be obtained by the Department but this could be done only at disproportionate cost.

Housing: Low Incomes

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) what her Department's internal targets were for the number of completed sales for Social Homebuy in each year since its inception; [171597]

(2) how much of the funding allocation to Social Homebuy for the period between 2006 and 2008 has been spent. [171557]

Yvette Cooper: Social HomeBuy is running as a voluntary pilot scheme until March 2008. The pilot scheme which was launched in April 2006 enables tenants of local authorities and housing associations to purchase a minimum 25 per cent. share in their rented home at a discount. No target has been set for Social HomeBuy pilot sales as final numbers in the pilot programme are dependent on participation of landlords and take up by tenants.

Between April 2006 and October 2007, a total grant of £1.2 million was given to Registered Social Landlords for 111 Social HomeBuy sales in that sector.

Mr. Love: To ask the Secretary of State for Communities and Local Government when the Minister expects to publish her response to the report entitled Ends and Means, the Future of Social Housing by Professor J. Hills; and if she will make a statement. [172962]

Yvette Cooper: The written ministerial statement made on 12 December 2007, *Official Report*, column 35WS, set out an initial response to the challenges raised by the Hills review of social housing. A copy of the accompanying speech will be placed in the Library of the House. Further work is under way.

Tim Farron: To ask the Secretary of State for Communities and Local Government how many affordable homes have been built in national parks in each of the last five years; and how many planning applications to build affordable homes in national parks have been refused in each of those years. [178462]

Mr. Iain Wright: Information on the number of affordable homes built in national parks, or the number of planning applications to build affordable homes in national parks is not held centrally.

Tim Farron: To ask the Secretary of State for Communities and Local Government how many affordable homes have been built in each local authority area in England in each of the last five years. [178463]

Mr. Iain Wright: I have placed information on the numbers of affordable homes provided for each local authority area in the Library. These numbers include social rent, intermediate rent, and low cost home ownership, and cover new build and acquisitions.

Housing: Radon Gas

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) what estimate her Department has made of the number of homes in England and Wales exposed to significant levels of radon; [176773]

(2) what information is available to the public on radon levels in homes. [176772]

Mr. Iain Wright: The Health Protection Agency (HPA) currently estimates that 100,000 homes in England and Wales exceed the current radon Action Level of 200 Bq m^3 (becquerel per cubic metre of air). Radon gas formation is directly related to the underlying geology and the majority of the affected homes occur in the south-west of England but there are significant numbers in other areas of England and Wales.

The Radiation Protection Division of the HPA maintains a radon information function that includes a dedicated website, www.ukradon.org, as well as a 24 hour-freephone number to obtain a radon information pack, 0800 614529. The Building Research Establishment also maintains a radon section on their website:

www.bre.co.uk/radon

Local Authorities: Elections

Mr. Pickles: To ask the Secretary of State for Communities and Local Government why her Department's list of councils which have elections in 2008, published by her Department on 10 October lists Bristol as having elections. [176204]

John Healey: The Department's list of councils holding elections in 2008, to be found on the Department's website at:

http://www.communities.gov.uk/localgovernment/360902/electoralarrangements/elections/localgovernmentelections/

has been corrected to reflect that Bristol, anomalously for district councils electing by thirds, does not have elections in 2008. Bristol's cycle of elections, established by The City of Bristol (Electoral Changes) Order 1998 No. 2699, provides for elections in 2007, 2009, 2010, and 2011.

Local Government Finance

Justine Greening: To ask the Secretary of State for Communities and Local Government by what criteria the Working Neighbourhood Fund has been allocated to local authorities; what relative weighting each criterion is given; and if she will make a statement. [178491]

John Healey: Three criteria were used in determining eligibility for the Working Neighbourhoods Fund (WNF):

Any authority that has 20 per cent. or more of its lower super output areas (LSOAs) in the most deprived decile on the employment domain;

Any authority that has 20 per cent. or more of its lower super output areas (LSOAs) in the most deprived decile on the overall Index of Multiple Deprivation (IMD); and

Any authority among the top 40 districts on an equally weighted measure of key benefit claim rate and employment rate.

Eligible authorities were required to meet one of the above criteria to qualify for the fund. No weighting was applied to the criteria.

All eligible authorities were allocated a standard amount per head of working age population living in the 10 per cent. most deprived LSOAs on the employment domain.

Authorities that did not qualify for WNF but currently receive a Neighbourhood Renewal Fund (NRF) allocation have been awarded transitional payments over 2008-10. Payments of 60 per cent. of the 2007-08 NRF allocation will be paid in 2008-09 and 40 per cent. of the 2008-09 allocation will be paid in 2009-10.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government when she will reply to the letter from the hon. Member for West Worcestershire, dated 13 November 2007 on the planning system. [178021]

Mr. Iain Wright: I replied to the hon. Member on 11 January.

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government when a reply will be sent to the hon. Member for West Worcestershire's letter to the Minister of State, dated 22 November 2007, on the proposed number of new homes planned for building over the next few years. [178022]

Mr. Iain Wright: I replied to the hon. Member on 6 January.

Sir Michael Spicer: To ask the Secretary of State for Communities and Local Government when a reply will be sent to the hon. Member for West Worcestershire's letter of 29 November 2007, addressed to the Secretary of State for Environment, Food and Rural Affairs and transferred to the Department for Communities and Local Government on 12 December (DEFRA reference: 58563/MG). [178999]

Mr. Dhanda: I replied to the hon. Member on 7 January 2008.

Parish Councils: Public Participation

Mary Creagh: To ask the Secretary of State for Communities and Local Government if she will bring forward proposals to discourage parish council referenda being held on issues of national interest. [177210]

John Healey: Parish polls may be held on any question arising at a parish meeting, which is a forum for the discussion of parish affairs. We are looking at whether these polls are being used appropriately.

Planning: Energy

Gregory Barker: To ask the Secretary of State for Communities and Local Government (1) what her Department's definition is of local energy generation in relation to planning policy; [172876]

(2) what assessment her Department has made of the effect on the take-up of *(a)* photovoltaics, *(b)* solar hot water and *(c)* micro wind technologies of the decision to include offsite and local generation in the definition of the Merton planning rule. [172877]

Yvette Cooper *[holding answer 10 December 2007]:* On 17 December 2007, the Government published a new planning policy statement (PPS) on climate change. The PPS sets out for planning authorities the circumstances where renewable and low carbon technologies, including micro-renewables, should be used to supply new development in their area.

The PPS includes a definition of decentralised energy supply, which makes it clear that this means energy supply from local renewable and low carbon sources (i.e. on-site and near site, but not remote off site) usually on a small scale.

Planning: Renewable Energy

Gregory Barker: To ask the Secretary of State for Communities and Local Government under what circumstances the proposed off-site rule under the new Planning Policy Statement on Climate Change for the provision of locally stipulated contributions from renewable energy would apply to new developments. [165246]

Yvette Cooper *[holding answer 19 November 2007]:* On 17 December 2007, the Government published a new planning policy statement (PPS) on climate change. The PPS sets out for planning authorities the

circumstances where renewable and low carbon technologies, including micro-renewables, should be used to supply new development in their area.

The PPS includes a definition of decentralised energy supply, which makes it clear that this means energy supply from local renewable and low carbon sources (i.e. on-site and near site, but not remote off site) usually on a small scale.

Property: Databases

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the unique property reference number generated by the Register Operator for inclusion in an energy performance certificate is the same unique property reference number used for a property in the National Land and Property Gazetteer. [176752]

Yvette Cooper: The National Land and Property Gazetteer have their own unique reference property numbers, which are not the same as those generated by the Register.

Recycling: Greater London

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will make a statement on the Waste and Recycling Board in London; and what involvement the Mayor of London will have with the Board. [176205]

Joan Ruddock: I have been asked to reply.

The role of the London Waste and Recycling Board is set out in the Greater London Authority Act 2007. Broadly speaking, it will help deliver an increase in the environmental sustainability of waste management in London. To this end, it will manage the London Waste and Recycling Fund and may provide advice to such persons as it sees fit. It will also have to act in accordance with the Mayor's municipal waste management strategy.

The details of the constitution and administration of the Board are currently being considered and an Order setting this out will be laid in the House as soon as possible. It is disappointing that the Mayor has announced his intention not to sit on the Board or contribute to the Fund. However, the Government will continue to seek ways of working together to ensure that the efforts of the Board and the Mayor to improve waste infrastructure in London are mutually reinforcing.

Thames Gateway: Internet

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government when the Thames Gateway news web page was last updated; and what alterations have been made to this web page since 12 July. [165127]

Yvette Cooper *[holding answer 20 November 2007]*: The Communities and Local Government Thames Gateway website at:

www.communities.gov.uk/thamesgateway

has been regularly updated since 12 July 2007. Additionally, following the Prime Minister's speech and the launch of the delivery plan at the Thames Gateway forum on 28 November 2007, the Thames Gateway executive made significant updates to the site to reflect this announcement.

In addition, Communities and Local Government contributes to the site

www.thamesgateway.gov.uk

which is managed by Thames Gateway South Essex Partnership web developers (Pixelwork) on behalf of all Thames Gateway strategic partners. That site was re-launched at the Thames Gateway forum and will now complement the new Thames Gateway marketing and communications strategy.

Travelling People: Caravan Sites

Mr. Prisk: To ask the Secretary of State for Communities and Local Government if she will make a statement on the provision of sites for Travellers and Gypsies in Hertfordshire. [178337]

Mr. Iain Wright: The Government recognise the need to address the on-going shortfall in permanent and transit sites for Gypsies and Travellers. All local authorities are now required to assess the accommodation needs of Gypsies and Travellers in their area. The results of these assessments will inform regional spatial strategies, which will set out the number of pitches to be provided in each local planning authority area.

The July 2007 caravan count found a total of 442 caravans in Hertfordshire, 305 of which are on local authority or registered social landlord sites. A further 120 are located on private sites.

The East of England regional assembly are preparing an alteration to the regional spatial strategy for the East of England, which we understand is due to be approved by the assembly on 25 January 2008. This alteration will determine how many pitches will be required for Gypsies and Travellers in the region. The current draft suggests the need for 1,187 pitches by 2011, 176 of which are in Hertfordshire. These figures will be tested at the examination in public under an independent panel before being finalised by the Secretary of State.

Valuation Office: Press Releases

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many press releases the Valuation Office Agency issued in 2006-07. [176391]

Jane Kennedy: I have been asked to reply.

Between 1 January 2006 and 31 December 2007, the Valuation Office Agency issued eight press releases.

Written Questions

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government when she will reply to question 165127, on the Thames Gateway web page tabled by the hon. Member for Thurrock on 13 November 2007. [174343]

Yvette Cooper: I have now replied to my hon. Friend's question.

Peter Luff: To ask the Secretary of State for Communities and Local Government when she will provide a substantive answer to Question 174390, on eco-towns, tabled by the hon. Member for Mid Worcestershire on 11 December 2007 for named day answer on 18 December 2007. [178437]

Yvette Cooper: I have now replied to the hon. Member's question.

JUSTICE

Aviation

Chris Huhne: To ask the Secretary of State for Justice (1) how many air miles were travelled by Ministers in his Department in each year since its establishment, and what estimate he has made of the total amount of carbon dioxide emissions produced as a result; [172235]

(2) how many miles he and other Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172569]

Maria Eagle: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code".

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at: http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

Chorley Magistrates Court

Mr. Hoyle: To ask the Secretary of State for Justice what effect staff training on a new computer system is likely to have on the availability of courts at Chorley magistrates court. [177072]

Maria Eagle: South-West Lancashire magistrates courts will be migrating to a new IT system (called Libra) on 9 May 2008. This migration is part of a national roll-out programme to bring a new, improved and consistent IT package to all magistrates courts in the country. An integral element of the implementation will be the training of staff to operate the new system efficiently. To reduce the impact of staff absences, and keep disruption to court users to a minimum, staff training will take place on site at Chorley magistrates court.

To facilitate this, one courtroom at Chorley magistrates court will be closed for six weeks. The work that would ordinarily be accommodated in this court will be allocated to neighbouring courthouses, namely Leyland and Ormskirk (primarily to Leyland). This arrangement will be monitored to ensure it is operating effectively, and to minimise any impact on court services.

Timely roll-out of Libra is particularly important for the Lancashire magistrates courts, as their existing IT systems are coming to the end of their working life, and are becoming increasingly unreliable. Were the existing IT to fail, it is unlikely that the position could be recovered, and court data would be corrupted and/or lost.

Coroners: Diana Princess of Wales

Mr. Gale: To ask the Secretary of State for Justice what estimate he has made of the total likely costs of the inquests into the death of Diana, Princess of Wales; how such costs will be met; and if he will make a statement. [176978]

Bridget Prentice: The costs of the inquests into Diana, Princess of Wales and Dodi Al Fayed up to 30 November 2007 were posted on the inquests website www.scottbaker-inquests.gov.uk.

Costs up until 2006-07 were met by the relevant funding authorities. Costs since then have been met by central Government. Further estimated costs will be published in the spring parliamentary supply estimates in February.

Courts: Drugs

Mr. Malins: To ask the Secretary of State for Justice if he will publish the independent evaluation of the pilots of dedicated drug courts at Leeds and West London; and if he will make a statement. [178185]

Maria Eagle: The independent evaluation of the pilots at Leeds and West London is currently being completed. It is intended that, once quality assurance processes are satisfactorily completed, the report will be published.

Courts: Interpreters

Mr. Malins: To ask the Secretary of State for Justice how many Lithuanian interpreters were used by the courts in the Greater London area in the last year for which figures are available. [178184]

Maria Eagle: From April 2007 to date, no Lithuanian interpreters have been booked for civil and family cases in the Greater London area. Information on interpreters used in criminal proceedings is not centrally collected and could be provided only at disproportionate cost through the manual searching of individual court files. The routine collection of data relating to interpreters and translation services at court is being considered by Her Majesty's Courts Service as part of wider work on interpreting and translation in the criminal justice system, being led by the Office for Criminal Justice Reform.

Mr. Malins: To ask the Secretary of State for Justice how many foreign language interpreters were used in the courts in the Greater London area in the most recent year for which figures are available. [178186]

Maria Eagle: From April 2007 to date, the number of foreign language interpreters used in civil and family cases in the Greater London area is 171. Information on interpreters used in criminal proceedings is not centrally collected and could be provided only at disproportionate cost through the manual searching of individual court files. The routine collection of data relating to interpreters and translation services at court is being considered by Her Majesty's Courts Service as part of wider work on interpreting and translation in the criminal justice system, being led by the Office for Criminal Justice Reform.

Courts: Northern Ireland

Mr. Gregory Campbell: To ask the Secretary of State for Justice what difficulties have been experienced on access to courts in Northern Ireland in the last year; and what improvement works are scheduled for each of the courts used by the Court Service in Northern Ireland during 2008. [177869]

Mr. Hanson: Relatively few access issues were recorded during the past 12 months. The following table summarises those of which the Northern Ireland Court Service is aware.

Venue	*Date*	*Issue*	*Remedy*
Royal Courts of Justice	20 September 2007	A member of the public experienced difficulty using the passenger elevator	Alterations and possible replacement of the lift will be actioned before the end of this financial year
Newry	10 December 2007	A defendant with restricted mobility was unable to gain access to the courtroom as the lift was out of order	The court session was delayed while the necessary repairs were completed
Coleraine	28 February 2007	A court user with restricted mobility encountered difficulty accessing a courtroom	The court video suite was utilised to allow the witness to give evidence
Enniskillen	26 June 2007	A witness who was a wheel chair user could not access the witness box	Arrangements were made for this witness to give evidence from an adjacent area
Limavady	19 December 2007	The Northern Ireland Prison Service, following a risk assessment and consultation with the Court Service, decided not to produce a prisoner at Limavady courthouse	A protocol for the production of prisoners assessed as high risk has been agreed

A programme of maintenance work is being developed for the forthcoming year. In addition a further audit will be commissioned early in the 2008-09 financial year which will focus on the scope for improving access to courtrooms and juror areas.

Crown Courts

Mr. Malins: To ask the Secretary of State for Justice (1) in what percentage of criminal cases in the Crown courts in England and Wales there was a change of plea to guilty at the start of the trial in the last 12 months for which figures are available; [178100]

(2) what percentage of prosecutions in magistrates courts in England and Wales resulted in dismissal following the Crown offering no evidence at the start of the trial in the last 12 months for which figures are available. [178101]

Maria Eagle: During the 12 month period ending in November 2007 there was a late change of plea to guilty at the start of the trial in 25.9 per cent. of all cases listed for trial (9,662 of 37,266) in the Crown courts in England and Wales. This figure includes all trials where a late guilty plea was entered in respect of the original charge, but not those where the prosecution accepted a guilty plea in respect of an alternative charge.

During the same period, 5.5 per cent. of all trials (10,399 out of 189,138) recorded in the magistrates courts in England and Wales did not proceed owing to the prosecution ending the case because of insufficient evidence.

Departmental Consultants

Mr. Garnier: To ask the Secretary of State for Justice how many outside consultants were employed by his Department to provide *(a)* advice and *(b)* design services for the (i) NOMIS programme, (ii) C-NOMIS, (iii) LIDS, (iv) Data Share, (v) OASys' and (vi) CRAMS; and what the cost of each contract was to his Department. [178311]

Mr. Hanson: The NOMIS programme consists of:

(a) A version of C-NOMIS to be provided to HM Prison Service.

(b) 'Data Share' which will provide a new mechanism for the sharing of information between Prisons and Probation Areas.

(c) A redeveloped OASys system to provide a single offender risk assessment system across Prisons and Probation Areas.

(d) National Probation Service Case Management Systems, with Delius (a system already in use in some Probation Areas) being implemented in others where systems are in urgent need of replacement. Options to address a range of issues associated with CRAMS (the case management system currently in use in most probation areas) are also being considered.

This response considers these, but does not cover legacy systems such as LIDS, existing OASys systems and the existing CRAMS, which are all outside the NOMIS Programme. Advisory and design expenditure around such legacy systems is understandably limited.

The NOMIS programme has so far this financial year employed five firms for providing advice and 15 firms for providing design services. The numbers cover firms directly employed and exclude those engaged through a subcontracting route.

The NOMIS programme is about the development and associated implementation of new systems and so most of the expenditure can be considered as relating to design activity, especially as a full implementation has not yet been commenced for any of its elements. The total amount expensed by the programme with

firms providing just advisory services in the nine months to the end of December 2007 is estimated at £0.6 million.

The cost of each contract is commercially confidential and therefore this information is not provided.

Until recently the focus of the NOMIS Programme has principally been on C-NOMIS and so nearly all the expenditure, and hence numbers of firms employed, are attributable to it. One firm providing limited design services to the redeveloped OASys is not though engaged on the C-NOMIS project. The other parts of the NOMIS Programme have also involved discussions with various potential parties but have not involved the employment of additional advisors or designers.

Departmental Labour Turnover

Mr. Philip Hammond: To ask the Secretary of State for Justice what the percentage turnover of staff was in (*a*) his Department and (*b*) his Department's agencies in (i) the last 12-month period and (ii) the last 24-month period for which figures are available. [169040]

Maria Eagle: The percentage turnover rate for (i) the last 12 months and (ii) the last 24 months of staff for the Ministry of Justice headquarters and its agencies is detailed in the following tables.

(a) Percentage staff turnover rate for Ministry of Justice headquarters

	(i) Covering 12-month annualised period	Percentage (ii) Covering 24-month annualised period
Ministry of Justice (excluding agencies)	9.01	8.07
Office for Criminal Justice Reform		
National Offender Management Service		

The figures for the National Offender Management Service and Office for Criminal Justice Reform are included in the response to this question from the Home Office.

(b) Percentage staff turnover rate for Ministry of Justice agencies

	(i) Covering 12-month period annualised	Percentage (ii) Covering 24-month period annualised
Her Majesty's Prisons Service	8.20	8.40
Her Majesty's Courts Service	9.00	9.02
Office of the Public Guardian	9.82	9.49
Tribunals Service	8.74	9.64
Scotland Office and offices of Advocate General	11.76	6.67
Wales Office	14.55	19.81
Land Registry	3.57	3.44
National Archives	13.85	14.93

Departmental Manpower

Mr. Hayes: To ask the Secretary of State for Justice how many and what proportion of his Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the (*a*) bonus structure, (*b*) retirement provision, (*c*) expenses provision, (*d*) total expenses incurred in each of the last 10 years, (*e*) average age of employee, (*f*) number of (i) women and (ii) men and (*g*) ethnic composition is. [171402]

Maria Eagle: Table A has been collated to show grade bands and job roles; each of the grade bands/job roles command different levels of remuneration dependent on responsibility levels, economic factors and department/agency within the Ministry of Justice.

The narrative provides a response to (*a*) bonus structure (*b*) retirement provision (*c*) expense provision (*d*) total expenses incurred.

Table B sets out the percentage of staff employed within each of the salary bands together with information in respect of (*e*) average age of employee (*f*) number of (i) women and (ii) men and (*g*) ethnic composition.

The Ministry of Justice salary bands are based on responsibility level as detailed in the following table. The precise roles performed by staff within each band is not recorded centrally.

Table A

	Paperkeeper		Nursing Grades
	Security		OSG/IG4,5
	Typist		Typist / Support Grade Band 2

(a) Bonus structure. SCS bonuses are allocated by the Departmental Pay Committee in accordance with guidelines issued by Cabinet Office each year following the Senior Salaries Review Body recommendations. Within the former Department for Constitutional Affairs, the Office for Criminal Justice Reform and the National Offender Management Service Performance Bonus is paid to staff who achieve the top performance marking over the appraisal year. The level of bonus payments vary by grade and business unit. There is no defined bonus structure for staff other than senior civil servants in the Prison Service. In addition, the Ministry of Justice' staff have access to a range of in-year bonuses awarded locally under various Recognition and reward schemes. These awards include small gifts or vouchers, small bonuses of up to £100 and special bonuses of £100 or more. Special bonuses provide recognition for outstanding achievements by staff for working on demanding tasks or situations.

(b) Retirement provision. The normal retirement age for staff is 65 although Justices' Clerks have a normal retirement age of 70. The minimum retirement age, irrespective of grade, is 60. Staff who wish to remain employed beyond the normal retirement age may do so provided they meet the normal standards of health, efficiency, conduct, performance and attendance. Requests to work beyond age 70 are allowed only in exceptional circumstances.

(c) Expenses provision. There are numerous types of expenses paid. In the main these are based on standard allowances or reimbursement of expenses within defined guidelines.

(d) It is not possible to provide the total expenses incurred for each grade for each of the last 10 years. This information could be provided only at disproportionate cost.

(e) Figures on the average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition are reflected in the following tables. The bands are based on responsibility level as illustrated in Table A. The precise roles performed by staff within each band is not recorded centrally.

The following tables reflect the figures within the Ministry of Justice Headquarters and Agencies as at reference date 30 September 2007.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Justice pursuant to the answer of 28 November 2007, *Official Report*, columns 480-81W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 1997. [177181]

Maria Eagle: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my hon. Friend the Prime Minister on 22 November 2007, *Official Report*, 147-51WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Driving Offences: Convictions

Mr. Drew: To ask the Secretary of State for Justice if he will bring forward proposals to enable motorists held responsible for the deaths of cyclists to be charged with the offence of manslaughter. [178979]

Maria Eagle: The offence of manslaughter (and culpable homicide in Scotland) is already available for bad driving offences that result in death, and would apply to the death of a cyclist in the same way as it would to other victims of road traffic incidents.

It is for the Crown Prosecution Service (CPS) to decide on the appropriate charge in a particular case and their guidance makes it clear that a manslaughter charge might be appropriate where the driving was so bad, or the risk of death so great, that a prosecution for manslaughter must be brought.

Driving Offences: Hampshire

Mr. Hancock: To ask the Secretary of State for Justice how many *(a)* cautions and *(b)* prosecutions for mobile telephone use by (i) motorists and (ii) other road users there have been in each district and unitary council area in Hampshire in each of the last eight quarters for which records are available. [178200]

Maria Eagle: Available information from 2004 to 2005 (latest available) is provided in the following table. 2006 data will be available later this year.

Data are available at police force area level and by calendar year only.

Written warnings[1], fixed penalty notices issued[2] and court proceedings[3] at the magistrates courts for the offence of use of hand held mobile phone while driving[4] within Hampshire police force area, 2004-05

	Number of offences
2004	
Written warnings	0
Fixed penalty notices issued	2,032
Total court proceedings	18
Written warnings	0
2005	
Fixed penalty notices issued	4,078
Total court proceedings	40

[1] Includes formal cautions.
[2] Covers tickets paid where there is no further action.
[3] Includes cases where a fixed penalty notice was originally issued but not paid and subsequently referred to court.
[4] Offences under the Road Vehicles (Construction and Use) Regulations 110 (1), 110 (2) and 110 (3).

Notes:
1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Drugs: Sentencing

Mr. Malins: To ask the Secretary of State for Justice what guidance the Government gives to courts on sentencing in first time class C drug possession cases. [178108]

Maria Eagle: Sentencing for possession of a class C drug is covered by the provisions of the Misuse of Drugs Act 1971, which set a maximum penalty of two years imprisonment. Within that statutory maximum, it is open to the courts to use their discretion when sentencing in individual cases, subject to any extant guidelines from the Sentencing Guidelines Council (SGC). The Sentencing Guidelines Council—an independent statutory body—is responsible for issuing sentencing guidelines which criminal courts must take into account. Its draft magistrates courts sentencing guidelines, which are currently out for consultation, contain proposed guidelines for possession of a class C drug. The draft guidelines can be viewed at:

www.sentencingguidelines.gov.uk/docs/SGC%20Final.pdf

The definitive guidelines will be finalised and published later this year.

Environment Protection: Fixed Penalties

Mr. Pickles: To ask the Secretary of State for Justice pursuant to the answer of 29 November 2007, *Official Report*, column 676W, on environment protection: fixed penalties, what the aggregate revenue was from the fines in each year since 1999-2000. [176843]

Jonathan Shaw: I have been asked to reply.

The aggregate revenue from the fixed penalty notices is set out in the following table:

Reporting Period	Aggregate Revenue (£)
April 2006 to March 2007	1,997,879
April 2005 to March 2006	1,100,669
April 2004 to March 2005	369,368

Data are not held centrally on revenue prior to April 2004.

Pursuant to the answer of 29 November 2007, *Official Report*, column 676W, new data have been published on the number of fixed penalty notices issued by local authorities. From April 2006 to March 2007, 54,015 fixed penalty notices were issued, of which 33,255 were paid.

These data are also available on the Defra website.

Mr. Pickles: To ask the Secretary of State for Justice pursuant to the answer of 29 November 2007, *Official Report*, column 676W, on environment protection: fixed penalties, which legislation the fines in 2005-06 were issued under. [176844]

Jonathan Shaw: I have been asked to reply.

The fixed penalty notices, to which the answer of 29 November 2007 refer, were issued under the following legislation:

section 88 of the Environmental Protection Act 1990 for litter offences;

section 4 of the Dogs (Fouling of Land) Act 1996 and section 59 of the Clean Neighbourhoods and Environment Act for dogs-related offences;

section 43 of the Anti-social Behaviour Act 2003 for graffiti and fly-posting; and

section 8 of the Noise Act 1996 for noise.

A breakdown of the statistics collected by the Department on local authorities' use of fixed penalty notices is available on the Defra website.

HM Court Service

John McDonnell: To ask the Secretary of State for Justice what the anticipated change in budget to 2010-11 is for HM Courts Service. [174331]

Maria Eagle: The Ministry of Justice recently agreed its CSR settlement with HM Treasury and as part of the CSR settlement, we are taking forward an ambitious value for money programme to enable the delivery of cash releasing savings of 3 per cent. per annum. We are in the process of working out the implications of this settlement to HM Courts Service and other business areas within the Ministry.

HM Courts Services 2008-09 allocations will be decided shortly.

Human Trafficking: Compensation

Mr. Steen: To ask the Secretary of State for Justice how many women who had been trafficked into the UK have been awarded compensation under Criminal Injuries Compensation Authority guidelines; what the value was of such awards; from which countries those women were trafficked; whether he has made an estimate of any likely future payments; and if he will make a statement. [177916]

Maria Eagle: The Criminal Injuries Compensation Scheme pays compensation to blameless victims of violent crime within Great Britain. Compensation is based on the criminal injury sustained not on the criminal act which caused the injury. Victims of trafficking do not therefore receive compensation under the scheme for the fact of being trafficked, but only if they were victims of a violent crime in Great Britain. The Criminal Injuries Compensation Authority (CICA) does not record centrally how many award recipients were also victims of trafficking, since that information is not necessary for the purpose of determining claims. CICA are accordingly unable to supply the information requested.

Interpreters

Mr. Harper: To ask the Secretary of State for Justice what guidance is issued to court services on the provision of *(a)* sign language interpreters and *(b)* lip speakers for hearing-impaired people in the criminal justice system. [177212]

Maria Eagle: In January 2007 the Office for Criminal Justice Reform (OCJR), in conjunction with Criminal Justice Agencies, published a revised National Agreement on Arrangements for the Use of Interpreters, Translators and Language Service Professionals in Investigations and Proceedings within the Criminal Justice System to help ensure that only suitably qualified interpreters and translators are used in criminal proceedings. Sign language and lip speakers fall in the category of interpreters known in the profession as LSPs (Language Service Professionals). In addition, a Good Practice Guide for HMCS staff on the use of interpreters in the criminal courts has been produced to supplement the new National Agreement. I have placed a copy of the National Agreement and the Good Practice Guide for HMCS staff in the Libraries of the House.

National Offender Management Information System

Mr. Garnier: To ask the Secretary of State for Justice how much money from *(a)* his own Department and *(b)* other public sources has been spent on the NOMIS programme since it was initiated (i) in total and (ii) in each relevant financial year. [178312]

Mr. Hanson: The NOMIS programme has been fully funded by the Ministry of Justice since its formation and prior to that by the Home Office. The total expenditure to the end of December 2007 is estimated at £179 million, of which £56 million was expensed in 2005-06 (including a small proportion incurred in earlier years), £69 million in 2006-07 and £54 million in the first nine months of this financial year. The total spend to date of £155 million previously advised was up until the end of July 2007.

Prison NOMIS will continue the roll-out of C-NOMIS, with a version that builds on the one currently running successfully in three prisons, preserving the financial and business benefit from work completed to date.

Mr. Garnier: To ask the Secretary of State for Justice how much the strategic review of the NOMIS programme cost his Department between the date of its announcement in August 2007 and 7 January 2008. [178313]

Mr. Hanson: Strategic review of the NOMIS programme was conducted using already existing project and business resource, the bulk of whom were Crown and civil servants and were available as a result of the moratorium placed on further development of the NOMIS application. Some additional expenditure was employed on a few days of consultancy time to ensure external assurance of some elements of the review.

The NOMIS programme will be in budget for the financial year 2007-08.

Offenders: Foreigners

Mr. Clappison: To ask the Secretary of State for Justice (1) how many *(a)* foreign nationals and *(b)* non-EU foreign nationals convicted of an offence in the UK had (i) a previous conviction in the UK, (ii) a previous conviction in the UK resulting in a custodial sentence, (iii) more than one previous conviction in the UK and (iv) more than one previous conviction in the UK resulting in a custodial sentence in each year since 1997; [177404]

(2) how many *(a)* foreign nationals and *(b)* non-EU foreign nationals convicted of an offence or offences in the UK resulting in a custodial sentence had (i) a previous conviction in the UK, (ii) a previous conviction in the UK resulting in a custodial sentence, (iii) more than one previous conviction in the UK and (iv) more than one previous conviction in the UK resulting in a custodial sentence in each year since 1997. [177405]

Mr. Hanson: The requested information is not available.

Mr. Clappison: To ask the Secretary of State for Justice how many non-UK prisoners of each sex who were returned to serve their sentences in their home countries were serving custodial sentences of *(a)* 12 months or more, *(b)* two years or more and *(c)* four years or more in the last year for which figures are available; and what these figures are as a proportion of (i) foreign prisoners and (ii) foreign prisoners returned to their home countries. [177455]

Mr. Hanson: The final figure for the number of foreign national prisoners who were deported or removed from the UK in 2007 has not yet been finalised. However, in December it was reported that 4,000 foreign national prisoners have been removed or deported from the UK. In addition 111 foreign national prisoners were repatriated to their home countries in 2007 to continue serving their sentences there. Of these, 81 male and 25 female prisoners were serving sentences of four years or more and four male and one female prisoners were serving sentences of two years or more but less than four years. No prisoners serving sentences of less than two years were repatriated in 2007.

As at 30 September 2007, the number of foreign national prisoners held in England and Wales was 11,211.

Peterborough Prison: Drugs

Mr. Stewart Jackson: To ask the Secretary of State for Justice what the failure rate was for mandatory drug

testing at HMP Peterborough in the last 12 months for which figures are available. [178239]

Mr. Hanson: The latest random mandatory drug testing positive rates for HMP Peterborough are set out in the following table:

	2006-07	Percentage 2007-08[1]
Peterborough		
Female	7.8	5.1
Male	21.5	15.5

[1] Financial year to date (April to November 2007).

Political Parties, Elections and Referendums Act 2000

Mr. Tyrie: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Southend, West of 12 December 2007, *Official Report*, columns 594-96W, on the Political Parties, Elections and Referendums Act 2000, what the penalty given to each individual found guilty of an offence under the Act was in *(a)* 2004, *(b)* 2005 and *(c)* 2006. [177698]

Mr. Straw: Data on the penalties given for offences under the Political Parties, Elections and Referendums Act 2000 are shown for the years 2004, 2005 and 2006 in the following table.

Number of defendants found guilty at all courts for offences under the Political Parties, Elections and Referendums Act 2000, including penalties given, in England and Wales, 2000 to 2006, broken down by sex[1], year and police force area[2]

	2004[3]			2005				2006	
	Greater Manchester	Sussex	Metropolitan Police	Leicestershire	Staffordshire	Metropolitan Police	West Midlands	Metropolitan Police
Found guilty	2	1	4	1	1	6	2	6
Attendance order—12 hours	1							
Community punishment order—100 hours		1						
Fine								
£50								2
£75			1			2		
£80					1			
£100			1			3		
£120				1				
£7,500								1
Reference to a youth offender panel			1				1	
Conditional discharge								
180 days						1	1	
360 days	1		1					
Imprisonment								
270 days								1
300 days								1
Supervision order—180 days								1

[1] All defendants found guilty were male.
[2] Please see the footnotes to the original PQ (172425) found in *Hansard* on 12 December 2007, *Official Report*, column 594W.
[3] There were no triable either way offences in 2005.

Political Parties: Finance

Mr. Tyrie: To ask the Secretary of State for Justice what plans he has for a public consultation on reform of political party funding prior to introducing legislation. [177697]

Mr. Straw: I refer the hon. Member to the answer given to the right hon. Member for Horsham (Mr. Maude) of 19 November 2007, *Official Report*, column 515W.

Prison Service

Mr. Bellingham: To ask the Secretary of State for Justice how many and which prison establishments met

the key performance target for sustainability for the year ending March 2007; what steps he is taking to ensure that more establishments meet the target in future; and if he will make a statement. [175199]

Maria Eagle: The Prison Service is committed to making savings by more efficient management of energy and water. This is achieved through local and central initiatives, management information, training, awareness campaigns, and advice.

To ensure the Prison Service is capable of delivering its obligations in respect of energy efficiency, the Energy Efficiency Project Board (EEPB) monitors implementation of an annual work programme. The EEPB reports to the Sustainable Development Working Group, provides quarterly progress reports to the Prison Service Management Board and publishes an annual report.

Prisons calculate and report energy and water consumption monthly. The Prison Service aims to develop a comprehensive, automated reporting, monitoring and targeting system to improve management information. These initiatives will give prisons a greater incentive to achieve their targets. However, 68 establishments passed the carbon dioxide target, 58 establishments passed their water target and 31 passed both in the year ending March 2007. Individual prison performance is detailed in the following table.

Performance of prisons against the sustainability key performance targets

Establishment	*2006-07 carbon dioxide emissions KPT (tonnes/month)*	*Carbon dioxide performance (tonnes/month)*	*Pass or fail*	*2006-07 water use KPT (litres/prisoner/month)*	*Water performance (litres/prisoner/month)*	*Pass or fail*

Prisoners

Mr. Clappison: To ask the Secretary of State for Justice which 20 nationalities had the highest number of *(a)* prisoners and *(b)* prisoners without leave to remain in the UK in custody in the UK in (i) 1997 and (ii) the most recent year for which figures are available. [177456]

Mr. Hanson: The available information for England and Wales relates to the numbers of foreign national prisoners, not taking account of their leave to remain status, held in prison establishments in England and Wales at 30 June 1997 and 30 June 2007. This is published in "Prison Statistics England and Wales 1997", table 6.2, and "Population in Custody June 2007" monthly tables available at:

http://www.justice.gov.uk/docs/population-in-custody-june07.pdf

The following table is derived from these published tables:

	Number
30 June 1997	
Irish Republic	734
Jamaica	651
Pakistan	336
India	272
Nigeria	243
Turkey	155
Netherlands	155
Ghana	114
Columbia	100
Italy	92
USA	81
Algeria	73
Cyprus	67
Bangladesh	75
Germany	78
Somalia	67
South Africa	64
France	63
China	51
Portugal	46
30 June 2007	
Jamaica	1,270
Nigeria	844
Irish Republic	605
Vietnam	391
Pakistan	375
Somalia	334

	Number
China	331
Poland	301
India	279
Iraq	256
Turkey	210
Iran	201
Lithuania	182
Algeria	178
Portugal	178
Ghana	174
Zimbabwe	174
Albania	163
South Africa	158
Bangladesh	157

Information relating to immigration status could be obtained only at disproportionate cost.

Comparable information for Scotland and Northern Ireland is the responsibility of the Scottish Executive and the Northern Ireland Prison Service.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: EC Nationals

Mr. Malins: To ask the Secretary of State for Justice how many nationals of other EU member states are in prison in England and Wales. [178114]

Mr. Hanson: The information requested is published quarterly for England and Wales, within the regular prison population in custody statistics available from the Ministry of Justice website:

http://www.justice.gov.uk/publications/populationincustody.htm

At 30 September 2007 there were 2,491 foreign nationals in prison establishments in England and Wales who were non-British EU nationals. This includes those held under the Immigration Act 1971 (including those in the immigration removal centres of Dover, Haslar and Lindholme) as well as those held on remand or serving custodial sentences.

The following table shows the information requested by nationality, as at 30 September 2007:

	Number
Austria	14
Belgium	40
Bulgaria	33
Cyprus	52
Czech Republic	54
Denmark	9
Estonia	22
Finland	3
France	152
Germany	131
Greece	20
Hungary	22
Irish Republic	651
Italy	95
Latvia	59
Lithuania	203
Luxembourg	0
Malta	6
Netherlands	118
Poland	362
Portugal	192
Romania	140
Slovakia	20
Slovenia	5
Spain	72
Sweden	15
Total	2,491

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Females

John McDonnell: To ask the Secretary of State for Justice (1) how many women have been sent to prison for non-payment of fines for loitering and soliciting since 1983; [177015]

(2) how many women are in prison for non-payment of fines for loitering and soliciting; [177016]

(3) how many women are in prison for non-payment of fines; and how many were in prison in each year since 1983. [177017]

Mr. Hanson: The number of female prisoners received into, and detained within, all prison establishments in England and Wales 1983-2006, excluding police cells, as fine defaulters, can be found in this table:

	Total yearly receptions	Population[1]
1983	1,321	46
1984	1,486	40
1985	1,385	23
1986	1,075	20
1987	919	28
1988	936	27
1989	868	24
1990	845	25
1991	976	12
1992	1,044	23
1993	1,306	24
1994	1,454	23
1995	1,370	26
1996	461	5
1997	372	3
1998	326	1
1999	215	5
2000	149	7
2001	73	2
2002	79	3
2003	76	3
2004	138	4
2005	160	1
2006	148	6

[1] The population figure is as at 30 June every year.

It is not possible to show the circumstances of the original fine without disproportionate cost as the information is not held centrally and it would entail examination of every individual record. Therefore the proportion of these that were for the offences of loitering and soliciting is unknown. At the end of October 2007, the last date for which figures are available, there were eight females held in custody in England and Wales as fine defaulters.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Rehabilitation

Mr. Burrowes: To ask the Secretary of State for Justice which prisons provide (*a*) therapeutic communities, (*b*) 12 step, (*c*) cognitive behaviour treatment (CBT) and (*d*) shorter duration CBT programmes for offenders. [177086]

Maria Eagle: The following list sets out the information requested about drug programmes.

Prisons which provide therapeutic communities, 12 step, cognitive behaviour treatment, and shorter duration programmes cognitive behavioural therapy programmes

(a) Therapeutic communities

Channings Wood

[1] Female establishment. Working towards accreditation

[2] Either FOCUS and/or STOP (Substance Treatment and Offending Programme)

[3] Either SDP (Short Duration Programme) and/or P-ASRO (Prisoners Addressing Substance Related Offending)

In addition, a range of accredited offending behaviour programmes based on cognitive behavioural principles are provided across the prison estate.

Mr. Burrowes: To ask the Secretary of State for Justice which prisons offer treatment for prisoners with *(a)* alcohol and *(b)* crack heroin dependency. [177087]

Mr. Hanson: The information requested is as follows.

(a) The following treatment options are available for those with an alcohol problem:

clinical services (alcohol detoxification), available in all local and remand prisons, as well as some Young Offenders Institutes (see list 1);

Alcoholics Anonymous run groups in 67 per cent. of prisons (see list 2);

where alcohol is part of poly-drug misuse, CARATs (Counselling, Assessment, Referral, Advice and Throughcare services) are available in all prisons with the exception of HMP Blantyre House;

a 12-Step programme is being piloted at HMP Bullingdon on a rolling basis; and,

the Young Persons Substance Misuse Service for 16 to 18-year-olds provides support for those with both alcohol and drug problems in 18 prisons (see list 3).

(b) A comprehensive drug treatment framework is in place to address the needs of those with drug misuse problems, including crack cocaine and heroin dependency, comprising:

clinical services (detoxification and maintenance prescribing) available in all local and remand prisons (see list 1);

CARAT services;

CARATs take the lead Drug Intervention Programme (DIP) role in prisons, engaging with prison Resettlement teams and Criminal Justice Integrated Teams (CJITs) in the community;

intensive drug rehabilitation programmes, run in 99 prisons (see list 4); and,

an intervention specifically for those with crack cocaine problems is available as part of the Integrated Drug Treatment System (IDTS) (no records are currently kept of which prisons offer this service).

Mr. Burrowes: To ask the Secretary of State for Justice what the failure rate for mandatory drug testing in prisons was in the most recent period for which figures are available. [177088]

Mr. Hanson: The random mandatory drug testing positive rate for 2006-07 was 8.8 per cent.

Mr. Burrowes: To ask the Secretary of State for Justice how many prisoners entered *(a)* detoxification, *(b)* maintenance, *(c)* 12 step, *(d)* cognitive behaviour

therapy (CBT), (e) shorter duration CBT and (f) therapeutic community treatment programmes in (i) 2005-06 and (ii) 2006-07; and at what cost for each type of programme for each year. [177089]

Mr. Hanson: Figures (rounded to the nearest 10) for the number of prisoners recorded as entering the particular treatment modalities and the associated costs for the years 2005-06 and 2006-07 are given in the following tables:

Entrants into Drug Treatment Services

	2005-06	2006-07
Detoxification/ Maintenance (Clinical Services)[1]	53,770	51,520
12-Step	980	930
Cognitive Behaviour Therapy (CBT)	310	360
Short Duration Programme (SDP)[2]	5,210	5,760
P-ASRO[2, 3]	3,560	3,780
Therapeutic Community Treatment Programmes	370	300

[1] Figures for Detoxification and Maintenance cannot be disaggregated. [2] A shorter duration CBT. [3] Prisons - Addressing Substance Related Offending.

Cost of Drug Treatment Services and Programmes

£ million

	2005-06	2006-07
Detoxification/ Maintenance (Clinical Services)[1, 2, 3]	11.3	23.3
12-Step	2.9	3.0
Cognitive Behaviour Therapy (CBT)	1.7	1.6
Short Duration Programme (SDP)	7.6	7.9
P-ASRO	7.3	7.3
Therapeutic Community Treatment Programmes	1.7	1.7

[1] Funding for clinical services is now managed by the Department of Health.
[2] Figures for Detoxification and Maintenance cannot be disaggregated.
[3] Additional spending review funding.
Note
This figure includes £11.3 million transferred from NOMS to primary care trusts (as in 2005-06) and a £12 million investment by Department of Health into the Integrated Drug Treatment System (iDTS).

Mr. Burrowes: To ask the Secretary of State for Justice how many prisoners received treatment for (a) alcohol and (b) drug dependency while in custody in (i) 2005-06 and (ii) 2006-07. [177090]

Mr. Hanson: (a) This information is not available. Alcohol treatment for those with an alcohol dependency is in the main provided within the wider drug treatment framework. The proportion of prisoners accessing treatment services for alcohol is not disaggregated.

(b) The total numbers of prisoners (rounded to the nearest 10) receiving treatment for drug dependency while in custody in 2005-06 and 2006-07 are indicated in the following table.

Treatment Intervention[1]	*2005-06*	*2006-07*
Clinical services (detoxification/ maintenance)	53,770	51,520
CARATs[2] initial assessments	74,720[3]	77,860[3]
Intensive rehabilitation programme entrants	10,740	11,150

[1] Individuals may engage in more than one type of treatment.
[2] Counselling, Assessment, Referral, Advice and Throughcare.
[3] CARATs figure includes juvenile substance misuse services.

Prisons: Drugs

Mr. Burrowes: To ask the Secretary of State for Justice how the (a) quality and (b) effectiveness of drug treatment in prisons is assessed. [177085]

Mr. Hanson: The drug treatment framework in prisons is modelled on the evidence-based National Treatment Agency's Models of Care and a number of measures are in place to assure quality and consistency of delivery:

the Prison Service Interventions Group conducts annual audits of drug treatment delivery at each establishment;

intensive drug treatment programmes are accredited by the independent Correctional Services Accreditation Panel (CSAP) prior to implementation;

voluntary sector drug treatment providers are quality assessed against detailed service specifications; and

the Prison Service conducts periodic internal audits of each establishment, of which the drug strategy is one element.

Research evidence shows that prison drug treatment, with effective follow-up in the community can reduce the level of re-offending by up to 10 per cent.

Reparation by Offenders

Mr. Kidney: To ask the Secretary of State for Justice if he will bring forward proposals for the police to have power to compel an offender to pay compensation to a victim without the precondition of a prosecution for a criminal offence. [178212]

Maria Eagle: The Criminal Justice Act 2003 (as amended by the Police and Justice Act 2006) already enables the police and Crown Prosecution Service (CPS) to offer a caution with conditions attached to an offender where there is sufficient evidence to charge him or her with an offence which is admitted.

Conditions are currently aimed at rehabilitation (addressing the offender's behaviour) and/or reparation (making good the harm the offender has caused including the payment of compensation to a victim) and may include restorative justice processes.

The offender must agree to that caution and the conditions attached. It is for the CPS to decide whether a conditional caution is suitable and to identify appropriate conditions. If the conditions are not complied with, the offender can be prosecuted for the original offence.

The Government have no plans to provide the police with powers to compel offenders to pay compensation.

Swansea Prison

Mrs. James: To ask the Secretary of State for Justice if he will make a statement on the future role of Swansea prison. [178227]

Maria Eagle: There are no current plans to change the role of HMP Swansea.

Winchester Prison: Pest Control

Mr. Oaten: To ask the Secretary of State for Justice what the outcome was of the risk assessment required under the EU Biocide Directive into the possibility that rats in the area may become resistant to that rodenticide after the licensed use of Brodificoum in Winchester prison in December 2006. [171838]

Maria Eagle: The Prison Service complies with the regulations set out in the Control of Pesticide Regulations (1986).

The European Biocide Directive has been introduced to develop a common market for pest control products across all member states. The Health and Safety Executive have confirmed that under the directive there is no need to carry out a risk assessment.

There have been no known cases of resistance to Brodificoum. These facts were confirmed by the contractor licensed to use the product. The very short term use of very limited quantities of Brodificoum solved the problem with minimal risk to non target species.

Prolonged and extensive use of rodenticides against populations that seem to be resistant, places non targets at very high risk, in circumstances where this risk could be far better managed by using Brodificoum.

The use of Brodificoum was risk assessed in accordance with current health and safety legislation by the contractor using this product. No consideration was given as to the potential that the rodents could become resistant to the substance as it is such a potent poison. Its use was strictly controlled over a comparatively short period.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Carbon Emissions

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what national generation carbon dioxide emissions factor is used by his Department in its calculations of emissions savings. [175695]

Malcolm Wicks: For long-term electricity savings the Government assume that new-build combined-cycle gas turbine (CCGT) generation is displaced. It is currently estimated that new-build CCGT plant emits 0.43 kg carbon dioxide per kWh delivered to the point of consumption. This emissions factor includes distribution losses.

This factor was used in the 2007 Energy White Paper to calculate emissions reductions from those policies which lead to reduced electricity consumption.

Coal Fired Power Stations: Planning Permission

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what applications for new coal-fired power stations he is considering; when he expects to reach a decision on each; whether he plans to consult hon. Members before making his decisions; and if he will make a statement. [179073]

Malcolm Wicks: The Department is considering one application for a coal-fired station at Kingsnorth in Medway. There are no plans to consult hon. Members on individual applications, but that is not to say that hon. Members cannot raise matters with me if they so wish.

Deregulation (Deduction from Pay of Union Subscriptions) Order 1998

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether a Regulatory Impact Assessment was produced to accompany the Deregulation (Deduction from Pay of Union Subscriptions) Order 1998. [177696]

Mr. McFadden: No. The requirement to produce Regulatory Impact Assessments was introduced after this Deregulation Order was made.

Energy: Meters

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will require suppliers of energy to install smart meters in *(a)* new properties and *(b)* existing properties when the meter is (i) faulty and (ii) at the end of its working life; and if he will make a statement. [177366]

Malcolm Wicks: The Government are assessing responses to their recent consultation on metering and billing, and will shortly set out their next steps, including their approach to the delivery of smart meters.

English Language

Damian Green: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department has spent on English language classes for staff in the last year for which figures are available. [177425]

Mr. Thomas: Learning and development budgets are delegated across the Department so no central record is available. Individuals and managers decide in discussion what development is appropriate and pay for it from local budgets.

Export Credit Guarantees: Fossil Fuels

Mr. Chaytor: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much funding for investment projects was made available by the Export Credits Guarantee Department

in each of the last five years; and what proportion of this funding was allocated to fossil fuel extraction projects. [170156]

Malcolm Wicks *[holding answer 12 December 2007]*: The following table shows maximum exposure figures arising from ECGD support for the funding of civil projects in each of the last five years including those for two projects that included fossil fuel extraction.

£

	Total support	*Of which fossil fuel extraction projects*
2002-03	643.75 million	127.6 million
2003-04	1.05 billion	
2004-05	803.6 million	62.7 million
2005-06	1.38 billion	
2006-07	892.9 million	

For the sake of clarity the fossil fuel extraction projects listed exclude petrochemical and pipeline projects that did not include extraction responsibilities.

Export Credit Guarantees: Sakhalin Island

Mr. Chaytor: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received on compliance with the environmental conditions attached to the proposed Export Credits Guarantee Department funding of the Sakhalin II project; what assessment he has made of these representations; when he expects to make a decision on the application; and if he will make a statement. [170157]

Malcolm Wicks *[holding answer 12 December 2007]*: ECGD has received submissions from a number of interested parties about the environmental impacts of the Sakhalin II project. These will be taken into account in accordance with ECGD's published Case Impact Analysis Process (www.ecgd.gov.uk).

In considering whether to provide support for the project, ECGD will apply its normal underwriting policy and its business principles. Relevant factors include the financial, technical and environmental aspects of the project.

ECGD has not made a decision on support; a note of decision will be published in due course.

Financial Assistance Scheme

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects the Government to make an announcement on whether it will be appealing against the European Commission's recent ruling on the state aid rules infringements by Shetland's trusts as a result of local financial assistance schemes operated by them. [175709]

Jonathan Shaw: I have been asked to reply.

Although I have yet to see any grounds for an appeal, I have written to my counterpart in Scotland seeking his views on the matter. Should the Government decide to lodge an appeal, I will write to the hon. Member.

Furniture: Fire Prevention

Mrs. Moon: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make it his policy to seek the amending of EU legislation on fire safety of furnishings in line with UK regulations. [177624]

Mr. Thomas: There is currently no EU legislation which specifically deals with the fire safety of furniture/furnishings. The general product safety directive (GPSD) covers the safety of all products not covered by other legislation. I understand that the GPSD Committee has begun discussions on whether further work should be undertaken on the European furniture/furnishings flammability standard. The UK, at official level, is represented on this Committee.

Greenhouse Gas Emissions

Mr. Meacher: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the likely level of greenhouse gas emissions from the 10 new opencast coal mines in each year that they are expected to operate. [176993]

Malcolm Wicks *[holding answer 9 January 2008]*: As shown by the following table, there is a general balance between surface mines opening and closing in any particular year. The net impact of new mines is therefore broadly neutral.

	Mines closed			*Mines opened*		
	2006	*2007*	*2008 (f/c)*	*2006*	*2007*	*2008 (f/c)*
England	4	3	3	3	4	3
Scotland	4	3	5	3	2	4
Wales	1	1	2	2	1	2
Total	9	7	10	8	7	9

Source:
The Coal Authority

In 2006 coal-fired power stations used 57.3 million tonnes of coal in supplying 37.7 per cent. of UK electricity supplies. UK surface mines contributed 8.6 million tonnes of this coal (down from 10.4 million tonnes in 2005), representing 15 per cent. of total feedstock and around 5.5 per cent. of total UK electricity supply.

Land: Radioactivity

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what it would cost the Government to remediate all land which has been radioactively contaminated to date. [177703]

Malcolm Wicks: Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland, where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter. We currently know of no such radioactively contaminated land which would trigger these regulations.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up the nuclear sites in its ownership. This will involve future remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which outline activities required to take the site from the present to the assumed or agreed site end state.

The above information relates to civil nuclear sites only. My right hon. Friend the Secretary of State for Defence has responsibility for defence nuclear sites.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the total cost to Government of the identification and remediation of radioactively contaminated land in the UK up to 2020. [177704]

Malcolm Wicks: Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland, where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter.

We currently know of no such radioactively contaminated land which would trigger these regulations. The likelihood of an event of this nature arising in the future is sufficiently remote and its possible nature so variable, that no advance estimates or advance provisions for it can be made.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up the nuclear sites in its ownership. This will involve future remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which outline activities required to take the site from the present to the assumed or agreed site end state. The majority of these programmes extend well beyond 2020.

The above information relates to civil nuclear sites only. My right hon. Friend the Secretary of State for Defence has responsibility for defence nuclear sites.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the costs of remediation of land radioactively contaminated by the nuclear energy industry falls to those whose activities contaminated the land; and who is liable for any remaining remediation costs arising from radioactive contamination by the current generation of nuclear power stations. [177705]

Malcolm Wicks: Under the Nuclear Installations Act 1965, nuclear site license holders are liable for the identification and remediation of radioactive contaminated land within the sites they operate. This is enforced by the Health and Safety Executive via the site license conditions.

Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland, where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter.

We currently know of no such radioactively contaminated land which would trigger these regulations. The likelihood of an event of this nature arising in the future is sufficiently remote and its possible nature so variable, that no advance estimates or advance provisions for it can be made.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up the nuclear sites in its ownership. This will involve future remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which outline activities required to take the site from the present to the assumed or agreed site end state.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost to his Department is of underwriting the liabilities of land contamination against radioactive pollution from the British nuclear industry. [177709]

Malcolm Wicks: Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland, where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter.

We currently know of no such radioactively contaminated land which would trigger these regulations. The likelihood of an event of this nature arising in the future is sufficiently remote and its possible nature so variable, that no advance estimates or advance provisions for it can be made.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up the nuclear sites in its ownership. This will involve future remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which

outline activities required to take the site from the present to the assumed or agreed site end state.

The information given relates to civil nuclear sites only. My right hon. Friend the Secretary of State for Defence has responsibility for defence nuclear sites.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many acres of land are known to be sufficiently contaminated by radioactivity to warrant remediation to limit danger to workers or the general public; and what estimate he has made of the acreage likely to be so contaminated after the decommissioning of all the UK's nuclear power plants. [177710]

Malcolm Wicks: Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland, where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter.

We currently know of no such radioactively contaminated land which would trigger these regulations. The likelihood of an event of this nature arising in the future is sufficiently remote and its possible nature so variable, that no advance estimates or advance provisions for it can be made.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up sites in its ownership. This will involve further remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which outline activities required to take the site from the present to the assumed or agreed site end state.

The proportion of land that requires remediation across the NDA estate and the level of remediation, will be fit for purpose, reflecting the risk that the land poses to humans and the environment and taking account of the proposed end use and the delicensing requirements of the Health and Safety Executive as appropriate.

Nuclear Power Stations: Coastal Areas

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has *(a)* undertaken and *(b)* evaluated on the risk of inundation of existing coastal nuclear energy installations from tidal flooding. [177839]

Malcolm Wicks: A cross-nuclear industry group operating under the oversight of the Health and Safety Executive has carried out research into the methodology for the prediction of flooding from extreme sea levels. Subsequent research has evaluated the additional effects of climate change for the UK as a whole, and local to five representative coastal nuclear sites.

Nuclear Power Stations: Security

Lynne Featherstone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the costs of providing security for nuclear energy power stations, associated facilities and storage will come from the public purse in 2007-08; and if he will make a statement. [178206]

Malcolm Wicks: The public does not meet any of the direct costs incurred for the provision of security at licensed civil nuclear sites. These costs, including costs for the civil nuclear constabulary, in-house security arrangements, and the Office for Civil Nuclear Security, (the security regulator) are met by the operators of such sites.

Lynne Featherstone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost was of providing security for nuclear energy power stations, associated facilities and storage in each of the last five years; and if he will make a statement. [178208]

Malcolm Wicks: All security costs at licensed civil nuclear sites in the UK are met by the operators of such sites. These include the costs of corporate security, in-house security arrangements and, at those sites where there is a regulatory requirement for a dedicated, on-site armed response provided by the Civil Nuclear Constabulary (CNC), the cost of providing and maintaining this dedicated policing resource. The industry regulator for security, the Office for Civil Nuclear Security, (OCNS, part of the Nuclear Directorate of the Health and Safety Executive), also recovers the cost of its regulatory activity from the industry.

Before March 2005, security measures at the nine nuclear generating sites did not include armed officers from the CNC. Between March 2005 and March 2007, CNC Support Units comprising authorised firearms officers were recruited, trained and deployed to the nine nuclear generating sites to augment the in-house, unarmed civilian security staff. The costs of this deployment (including start-up costs) and the charges raised since March 2007 are £30.1 million. These were met by British Energy and Magnox Electric, the operators of the sites.

There are 42 licensed nuclear sites in the UK, including the nine nuclear generating stations. OCNS recovered a total of £10.88 million from the operators of these 42 licensed nuclear sites over the last five financial years as a charge for its regulatory activity at all sites.

Political Levy

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what figures *(a)* his Department and *(b)* the Certification Officer holds on the average political levy charged by (i) all trades unions and (ii) each trade union in the latest period for which figures are available [177602]

Mr. McFadden *[holding answer 10 January 2008]:* Neither the Department nor the Certification Officer holds the particular information that is needed to provide figures on the average political levies charged.

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 17 December 2007, *Official Report*, column 1073W, on the political levy, according to records held by *(a)* his Department and *(b)* the Certification Officer, which unions (i) provide a reduced subscription fee for members who opt-out of the political fund and (ii) collect the political levy as a separate charge from the main union membership subscription. [177693]

Mr. McFadden: Neither the Department nor the Certification Officer holds the information requested.

Political Levy: Northern Ireland

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification Officer for Great Britain has produced on whether revenue from a trade union's political fund raised in Northern Ireland may be spent by the same trade union in another part of the UK for political purposes, where the trade union has branches in both Northern Ireland and other parts of the UK. [177600]

Mr. McFadden *[holding answer 10 January 2008]*: Neither the Department nor the Certification Officer has produced guidance on this specific issue.

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether revenue raised from trade union political levies in other parts of the UK may be spent in Northern Ireland; where a union has branches in both Northern Ireland and other parts of the UK. [177603]

Mr. McFadden *[holding answer 10 January 2008]*: Revenue raised from the trade union political levies in other parts of the UK may be spent in Northern Ireland, where the union has branches in both Northern Ireland and other parts of the UK.

Post Offices: Closures

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform on what date he or his ministerial colleagues informed the Post Office Ltd that it could not issue recommendations in the run up to the local elections in England due to the operation of purdah. [175661]

Mr. McFadden: Following discussion with Post Office Ltd over a number of months, the company was formally advised on 5 November of the particular application to the Network Change Programme of the principles set out in the Cabinet Office guidelines relating to public consultations in the period preceding local elections.

Postal Services: Iraq

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many packages were sent to UK armed forces personnel serving in Iraq and Afghanistan over the Christmas period; [177578]

(2) how many packages were sent to UK armed forces personnel serving in Iraq and Afghanistan in each two week period in 2007. [177579]

Mr. Bob Ainsworth: I have been asked to reply.

Packages are recorded by weight in kilograms and are not individually counted.

Over the Christmas period (November and December 2007), BFPO dispatched a total of 284,871 kg of mail to Operation Telic (Iraq) and Operation Herrick (Afghanistan).

The monthly total volumes (shown in kilos) of mail dispatched to Operation Telic and Operation Herrick are as follows:

	Telic	*Herrick*	*Total*
January 2007	29,500	19,793	49,293
February 2007	24,408	19,768	44,176
March 2007	24,302	20,124	44,426
April 2007	20,336	23,006	43,342
May 2007	22,432	29,977	52,409
June 2007	31,969	27,436	59,405
July 2007	28,169	24,959	53,128
August 2007	25,684	26,656	52,340
September 2007	29,072	36,036	65,108
October 2007	28,884	48,080	76,964
November 2007	32,548	66,088	98,636
December 2007	72,455	113,780	186,235

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what the cost was of sending packages during the free post period to UK armed forces personnel serving in Iraq and Afghanistan in *(a)* 2007 and *(b)* each of the last three years; [177580]

(2) what estimate he has made of the cost of extending free post throughout the year to UK armed forces personnel serving in Iraq and Afghanistan. [177581]

Mr. McFadden: This is an operational matter for Royal Mail. I have therefore asked Adam Crozier, chief executive of Royal Mail to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Public Telephones

John Mann: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many public telephone boxes there *(a)* are and *(b)* were 12 months ago. [177738]

Mr. Timms: I understand from the independent regulator, the Office of Communications (Ofcom), that on UK streets there are 61,796 public telephone boxes as at the end of quarter three 2007-08. 12 months ago the number at the end of quarter three 2006-07 was 62,942. These numbers exclude managed payphones at public places like airports and railway stations.

Radioactive Wastes: Land

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether those operating nuclear power plants are liable for the identification and remediation of radioactive contaminated ground within the sites they operate. [177745]

Malcolm Wicks *[holding answer 10 October 2008]*: Under the Nuclear Installations Act 1965, nuclear site license holders are liable for the identification and remediation of radioactive contaminated land within the sites they operate. This is enforced by the Health and Safety Executive via the site licensed conditions.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the Government's total liability for remediation of radioactively contaminated land in the UK. [177746]

Malcolm Wicks *[holding answer 10 January 2008]*: Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland, where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter.

We currently know of no such radioactively contaminated land which would trigger these regulations. The likelihood of an event of this nature arising in the future is sufficiently remote and its possible nature so variable, that no advance estimates or advance provisions for it can be made.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up the nuclear sites in its ownership. This will involve future remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which outline activities required to take the site from the present to the assumed or agreed site end state.

The information given relates to civil nuclear sites only. My right hon. Friend, the Secretary of State for Defence has responsibility for defence nuclear sites.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the total cost of contaminated land remediation following the planned decommissioning of existing nuclear power stations. [177807]

Malcolm Wicks: Under the various Radioactive Contaminated Land Regulations 2007, covering England, Scotland, Wales and Northern Ireland., where civil liability for a nuclear incident is regulated by the Nuclear Installations Act 1965, the Government are liable, in certain circumstances, for the remediation of land outside a nuclear site contaminated above a certain threshold by nuclear matter.

We currently know of no such radioactively contaminated land which would trigger these regulations. The likelihood of an event of this nature arising in the future is sufficiently remote and its possible nature so variable, that no advance estimates or advance provisions for it can be made.

In addition, the Nuclear Decommissioning Authority (NDA) has plans in place to decommission and clean-up the nuclear sites in its ownership. This will involve future remediation of areas of land that may be contaminated to much lower levels than the threshold of the above regulations. The NDA strategy for the decommissioning and clean up of the 20 civil public sector nuclear sites designated to the NDA is available to download from the NDA website (NDA Final Strategy 2006). Also available for download are the 2006-07 Lifetime Plan Site Summaries, which outline activities required to take the site from the present to the assumed or agreed site end state.

Renewable Energy

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* fiscal and *(b)* other incentives are available to developers of (i) large-scale and (ii) small-scale renewable energy electricity generation projects. [175689]

Malcolm Wicks: There are a number of fiscal incentives to encourage renewable generation: renewable generators are exempt from the climate change levy; microgenerators are exempt from income tax on any renewable obligation certificates (ROCs) which they sell and electricity which they export; there is a reduced rate of VAT on microgeneration technologies; and homes meeting the zero carbon criteria are exempt from stamp duty up to £500,000.

In addition to these, the renewables obligation is the Government's key mechanism for encouraging new renewable generating capacity. The RO is a market-based mechanism, which requires electricity suppliers to source an increasing percentage of their electricity sales from eligible sources of renewable energy. Suppliers can meet their obligation by presenting renewables obligation certificates (ROCs) as evidence of renewable generation, by paying a penalty (the 'buyout' price), or a combination of the two. The price of a ROC is subject to the market and is affected by various other factors. The buyout price, which rises in line with inflation each year, caps the costs of the system to suppliers and thus ultimately electricity consumers. Generators of all sizes can claim ROCs for each megawatt of electricity they produce.

We recognise that additional help is needed to encourage small-scale renewable generation, and have a number of beneficial measures in place to provide support. For those wishing to install microgeneration technologies, we provide grants under the low carbon buildings programme, to contribute to the costs of installation.

We are taking steps to ensure that excess electricity generated by small operators can be sold to the grid for adequate reward; an important incentive for

microgenerators. The Climate Change and Sustainable Energy Act gives powers to the Secretary of State to require that energy suppliers offer a tariff to their own customers for exported electricity from microgeneration units. We are working closely with the energy suppliers to encourage voluntary action, and all major suppliers are now committed to offering some form of export tariff. Some smaller companies too, like Good Energy, offer a rate for all renewable energy generated —9p/kWh— regardless of whether it is used on site or not. We will keep under review the need to exercise the power to require action.

We are committed to ensuring that generators are aware of the benefits that are available to them, and can access them readily. Ofgem are currently examining the prices paid to green homes when they sell electricity back to the grid. In considering this they will also be looking at how easy it is for green homes to access this information and determine the value of the excess electricity that they sell. We will consider the outcomes of this work and the need for further action. In other areas, a number of steps have been taken to make it easier for smaller generators to access ROCs and we have recently published a joint BERR/Ofgem consultation on a range of initial proposals to make it easier for smaller distributed generators to interact with the wider electricity system and realise the value of the electricity that they generate.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what policy decisions have been taken on renewable energy as a result of recommendations made by the Renewables Advisory Board since November 2002. [177840]

Malcolm Wicks: The Renewables Advisory Board (RAB) was set up in 2002 in order to provide independent advice to Government on renewable electricity.

Governmental policy decisions are not based purely on the advice of the RAB, though they do contribute to consultations relating to renewable energy and have produced a number of reports advising Government on renewables policy. I would refer you to the RAB website for further details: http://www.renewables-advisory-board.org.uk/index.htm.

As I announced on 10 December 2007, the remit for RAB has also been expanded with specific reference to the delivery of the EU 2020 target of 20 per cent. renewable energy in the UK.

Renewables Obligation: Carbon Emissions

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of *(a)* the total quantity of emissions of carbon dioxide which have been avoided as a result of the renewables obligation to date and *(b)* the expected quantity of such emissions in each year between 2008 and 2020. [175696]

Malcolm Wicks: The information is as follows:

(a) Electricity generated from renewable sources, on a renewable obligation basis are given in chapter 7:5 of the Digest of UK Energy Statistics 2007. Assuming that renewable electricity displaces gas generation, with a carbon factor of 95.7 MtC per GWh additional generation, estimated carbon saved is given in the following table.

Finalised figures for 2007 are not currently available.

	2002	*2003*	*2004*	*2005*	*2006*
Total renewables generation on an obligation basis (GWh)	5,755	7,156	9,906	13,138	14,554
Estimated carbon saved (MtC)	0.6	0.7	0.9	1.3	1.4

(b) Estimates of carbon savings from renewable electricity under the renewables obligation between 2008 and 2020 is given in the following table. These estimates assume that renewable electricity displaces gas generation, with a carbon factor of 95.7 MtC per GWh additional generation. The table gives savings based on its current structure, and under the regime proposed in the Energy Bill 2008.

	Estimated carbon savings from current RO structure (MtC)	*Estimated carbon savings from proposed RO structure (MtC)*
2008-09	1.8	1.9
2009-10	2.2	2.4
2010-11	2.4	2.7
2011-12	2.6	3.0
2012-13	2.8	3.3
2013-14	3.0	3.5
2014-15	3.3	3.8
2015-16	3.5	4.2
2016-17	3.4	4.3
2017-18	3.4	4.3
2018-19	3.5	4.2
2019-20	3.6	4.2

Note:
Estimates are based on results from the model of the renewables obligation from independent consultants. These figures are different from those included in the report 'Reform of the Renewables Obligation—what is the likely impact of changes?'[1] as they take into account updated estimates of electricity sales and technology costs.

[1] http://www.berr.gov.uk/files/file39039.pdf.

Royal Mail: Delivery Services

Mr. Gale: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the business handled by Royal Mail comprised downstream access mail in the last three years for which figures are available. [177514]

Mr. McFadden: This is an operational matter for Royal Mail. I have asked the chief executive of Royal Mail, Adam Crozier, to reply direct to the hon. Member.

I will put copies of the letter in the Libraries of the House.

Trades Union Congress: Finance

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the Trades Union Congress has a political fund, according to the records held by the Certification Officer. [177601]

Mr. McFadden *[holding answer, 10 January 2008]*: According to the records held by the Certification Officer, the Trade Union Congress has no political fund.

UK Trade and Investment: Defence

Mr. Benyon: To ask the Secretary of State for Business, Enterprise and Regulatory Reform on what date he was informed of the Prime Minister's decision to close the Defence Export Services Organisation and to move its remit to UK Trade and Investment. [173403]

Mr. Thomas *[holding answer 11 December 2007]*: I refer the hon. Member to the answer given to the hon. Member for New Forest, East (Dr. Lewis) by my right hon. Friend the Prime Minister on 12 December 2007, *Official Report*, columns 292-93.

Unfair Commercial Practices Directive Regulations

Mr. Greenway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what timetable he envisages for the (a) publication, (b) consultation on and (c) implementation of the unfair commercial practices directive regulations. [177372]

Mr. Thomas: The Department of Trade and Industry consulted on draft Consumer Protection from Unfair Trading Regulations (CPRs) implementing the unfair commercial practices directive (UCPD) in May 2007. The draft CPRs reflect the outcome of two earlier consultations about implementing the UCPD. The first consultation paper was published in December 2005 and sought views in three areas: interpretation; enforcement; and simplification of existing legislation. The second consultation in December 2006 sought views on how to frame the criminal offences in the regulations implementing the directive.

I propose to lay the draft CPRs before Parliament in January. If approved in debate the regulations will come into force on 6 April 2008.

Wind Power

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of full-time equivalent person years that will be required to build sufficient *(a)* wind turbines and *(b)* associated infrastructure to meet the EU 20 per cent. renewables target. [175676]

Malcolm Wicks: It is too early to estimate what proportion of the UK contribution to the EU 20 per cent. target will come from any particular source of renewable energy, and the impact that will have. Agreement has not yet been reached on the contribution that each member state will make toward the 20 per cent. target, but we will consult in 2008 on policy options to meet the UK's contribution and publish our foil UK renewable energy strategy the following spring once the EU directive has been agreed.

Wind Power: North East Region

Andrew Rosindell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the Government's policy is on the development of a North sea wind farm. [177648]

Malcolm Wicks: In November 2002, DTI published a consultation document 'Future Offshore' which outlined a strategic approach to offshore wind development in UK waters, available at the following link:

http://www.berr.gov.uk/files/file22791.pdf.

To date, the Government and The Crown Estate have held two competitions, Round 1 in 2000 and Round 2 in 2003, for offshore wind development rights. A map of these site lease areas can be found at the following link:

http://www.thecrownestate.co.uk/round_1_2_windfarm_sites-2.pdf.

On 10 December, the Government announced the launch of a strategic environmental assessment (SEA) on a draft plan for up to 25 GW of new offshore wind development rights in UK waters, including in the North sea. A scoping consultation document, entitled 'UK Offshore Energy SEA Scoping for Environmental Report', is currently available at the following web link:

http://www.offshore-sea.org.uk/downloads/Offshore_Energy_SEA_Scoping.pdf.

Depending on the results of the SEA and the magnitude of impacts identified, the Government will take a decision on what the acceptable level of offshore wind development is. As in previous rounds, developers would then be required to bid for site leases through leasing competitions to be held by the Crown Estate and, if successful, conduct their own site evaluations and undertake an environmental impact assessment before applying for the necessary development and environmental consents to build an offshore wind farm.

HEALTH

Abortion (Amendment) Bill of Session 1979-80

Mr. Amess: To ask the Secretary of State for Health what records his Department holds of the Abortion (Amendment) Bill of Session 1979-80; and if he will make a statement. [177736]

Dawn Primarolo: The Department no longer holds any files on the Abortion (Amendment) Bill of Session 1979-80. Four files have been transferred to the National Archives at Kew and are closed to the public under the 30-year rule. Two other files were destroyed following a review of the contents.

Action on Smoking and Health Foundation

Mr. Jenkins: To ask the Secretary of State for Health how much his Department allocated to the Action on Smoking and Health Foundation in each year since its inception. [173627]

Dawn Primarolo: The Department's grants to Action on Smoking Health under section 64 of the Health Services and Public Health Act 1968 are set out in the following table.

Financial year	*Grants (£)*
1996-97	229,425
1997-98	114,713
1998-99	143,618
1999-2000	155,000
2000-01	156,170
2001-02	160,860
2002-03	147,810
2003-04	164,000
2004-05	168,000
2005-06	180,000
2006-07	185,400
2007-08	191,000

Ambulance Services: Shropshire

Daniel Kawczynski: To ask the Secretary of State for Health if he will meet members of Shropshire county council to discuss the future status of the Shrewsbury Ambulance Control Centre. [165842]

Mr. Bradshaw: The organisation and location of ambulance service control centres is a matter for local ambulance trusts. Therefore, it is recommended that the members of Shropshire county council request a meeting with Mr. Anthony Marsh, chief executive of the West Midlands Ambulance Service NHS Trust, in order to discuss the future status of the Shrewsbury Ambulance Control Centre. The Minister of State has already met the hon. Member to discuss his concerns about the future of Shrewsbury Ambulance control centre.

Atrial Fibrillation

Mr. Hayes: To ask the Secretary of State for Health what plans he has to provide services to tackle atrial fibrillation. [174392]

Ann Keen: The provision of national health service services is the responsibility of commissioners, providers and other local service managers who are best placed to plan for and deliver the particular mix of services needed by their local population.

The Department launched Chapter 8 of the Coronary Heart Disease National Service Framework, covering arrhythmias and sudden cardiac death, in March 2005. Chapter 8 sets out quality requirements and markers of good practice for the NHS for the development of all arrhythmia services including those for people with, or suspected of having, atrial fibrillation.

In addition, the National Institute for Health and Clinical Excellence produced a clinical guideline on the management of atrial fibrillation (CG36) in June 2006.

In 2006-07, the Quality and Outcomes Framework of the general medical services contract has included quality indicators for the detection and management of patients with atrial fibrillation.

Atrial fibrillation is also a significant risk factor for stroke. The recently published stroke strategy, therefore, reiterates the importance of good quality care for those with atrial fibrillation.

Bournemouth and Christchurch Primary Care Trust: Finance

Mr. Ellwood: To ask the Secretary of State for Health for what reasons specialist top-up funds paid to Bournemouth and Christchurch primary care trust district general hospitals in recognition of patients with complex conditions have been discontinued. [177357]

Mr. Bradshaw: We outlined our proposals to refine the targeting of specialist top-ups for 2008-09 in the "Options for the Future of Payment by Results: 2008-09 - 2010-11" consultation document published on 15 March 2007. The arrangements for 2008-09 were published on 13 December 2007 alongside the NHS operating framework.

The aim of these proposals is to better target the top-up payments at the most specialised activity within the scope of payment by results. Copies of the consultation document are available in the Library.

Breast Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health what proportion of eligible women *(a)* in total and *(b)* in each ethnic group took part in the NHS Breast Cancer Screening Programme in each year since 1997. [175112]

Ann Keen: The information requested on the total proportion of eligible women who took part in the NHS breast screening programme in each year since 1997 is shown in the following table.

	Coverage (percentage)
	Women aged 50 to 64
1997	65.6
1998	66.4
1999	67.7
2000	69.3
2001	70.2
2002	69.8
2003	69.3
2004	69.0
2005	69.5
2006	69.9

Note:
1. Coverage is the percentage of eligible women with a breast screening test result in the previous three years.
2. The KC63 return from which this data is gathered does not collect information on ethnic groups.

Source:
Office for National Statistics/The Information Centre for health and social care, Breast Screening Programme: England 2005-06.

Mr. Lansley: To ask the Secretary of State for Health what his latest estimate is of the number of interval breast cancers in each year since 1997; and what plans he has to reduce the round length of breast cancer screening. [175134]

Ann Keen: The number of interval cancers in the national health service breast screening programme are not routinely collected.

Recent improvements in ensuring consistency in data collection have allowed for a major exercise to be undertaken between the NHS breast screening programme, the NHS cancer registries and the Cancer Screening Evaluation Unit at the Institute of Cancer Research to produce reliable national interval cancer figures for the first time. These figures will be published in 2008.

We take the issue of the 36-month standard between screens very seriously. That is why Professor Mike Richards, the National Cancer Director, wrote to the chief executives of all 10 strategic health authorities in England on 9 February 2007 highlighting the importance of maintaining the 36-month interval. Data from NHS cancer screening programmes are monitored quarterly.

Mr. Lansley: To ask the Secretary of State for Health what proportion of eligible women were seen within the 36-month standard for breast cancer screenings (*a*) in England and (*b*) in each breast screening unit in the latest period for which figures are available. [175136]

Ann Keen: Data on the 36 month interval for breast cancer screening are collected quarterly by national health service cancer screening programmes. Data for England and each breast screening unit are provided in the following table. 38 month interval rates are also given as an indicator of how close intervals are to the national standard of 36 months.

Breast screening unit	*Percentage 36 month breast cancer screening interval rate—July to September 2007*	*Percentage 38 month breast cancer screening interval rate—July to September 2007*
England	70	88
Bolton	86	99

We take the issue of the 36-month standard between screens very seriously. That is why Professor Mike Richards, the national cancer director, wrote to the chief executives of all 10 strategic health authorities in England on 9 February 2007 highlighting the importance of maintaining the 36-month interval.

Cancer

Mr. Lansley: To ask the Secretary of State for Health what cancer networks there are in England; and, for each, what their constituent primary care trusts are. [174775]

Ann Keen: The information requested has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the likely number of cases of cancer in each of the next 10 years. [175097]

Ann Keen: Estimates of the likely number of new cases have not been made for every one of the next 10 years. However, they have been made of the likely number of new cases in each of the following years 2011, 2016 and 2020. This information is shown in the following table.

Projected number of cancer cases (rounded to nearest 100)

	Number of cases
2011	256,600
2016	277,000
2020	298,900

Mr. Lansley: To ask the Secretary of State for Health how many emergency in-patient admissions for cancer there were in each year since 1997-98; what proportion of these were emergency readmissions in each year; and if he will make a statement. [175102]

Ann Keen: The following table gives the finished admission episodes (FAE) for emergency admissions with a primary diagnosis of cancer for all years since 1997-98. There are no data available for readmissions for cancer.

	Finished admission episodes for emergency admissions
2006-07	146,050
2005-06	149,524
2004-05	146,203
2003-04	143,519
2002-03	143,733
2001-02	141,519
2000-01	141,051
1999-2000	144,074
1998-99	141,799
1997-98	141,059

Notes:
FAE
A FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Diagnosis (primary diagnosis)
The primary diagnosis is the first of up to 14 (7 prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
Data Quality
HES are compiled from data sent by over 300 national health service trusts, and primary care trusts (PCTs) in England. Data is also received from a number of Independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected from the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
Source:
HES, The Information Centre for health and social care.

Mr. Lansley: To ask the Secretary of State for Health what the (*a*) elective and (*b*) emergency bed occupancy rates for cancer patients in the NHS as described in figure 13 of his Department's Cancer Reform Strategy were (i) for all cancers in total and (ii) for each cancer type in each year since 1997. [175103]

Ann Keen: Information on bed occupancy rates for cancer patients is not available.

The title to Figure 13 on page 97 of the Cancer Reform Strategy is incorrect. As described in paragraph 7.24, Figure 13 shows the number of beds by cancer type rather than the bed occupancy.

The number of elective and emergency bed days for all cancers since 1997 is shown in the following table.

	Elective	*Emergency*
1997-98	2,007,489	2,588,500
1998-99	1,953,676	2,629,029
1999-2000	1,968,890	2,735,877
2000-01	1,935,569	2,851,509
2001-02	1,903,450	2,949,132
2002-03	1,885,870	3,053,128
2003-04	1,856,090	3,064,913
2004-05	1,812,749	3,083,436
2005-06	1,841,968	3,103,193
Total	17,165,751	26,058,717

Source:
National Cancer Services Analytical Team, www.canceruk.net

Information on the number of elective and emergency bed days broken down by cancer type since 1997 has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the analysis referred to in paragraph 7.22 of his Department's Cancer Reform Strategy on projected cancer in-patient costs. [175104]

Ann Keen: The information requested has been placed in the Library.

Mr. Lansley: To ask the Secretary of State for Health how many specialist diagnostic units, referred to in paragraph 7.14 of his Department's Cancer Reform Strategy, there are; where they are situated; and if he will make a statement. [175105]

Ann Keen: Information on the number and location of all specialist diagnostic units is not held centrally.

Over 99 per cent. of patients with suspected cancer are now seen by a specialist within two weeks of referral, and over 99 per cent. of patients receive their first treatment within 31 days of diagnosis, while over 97 per cent. of patients begin treatment within 62 days of being urgently referred.

As part of the Cancer Reform Strategy, these targets will be extended to more patients and by 2010, the 31-day target will apply to all treatments, not just the first.

Cancer Action Team

Mr. Lansley: To ask the Secretary of State for Health who the members are of his Department's Cancer Action Team. [175140]

Ann Keen: The Cancer Action Team works with and supports the national health service nationally. In particular, it works with cancer networks to implement the Government's strategy for improving cancer and end of life care services. It is not a part of the Department.

Teresa Moss is the Director of the Cancer Action Team and she has 24 members of staff.

Cancer; Clinical Trials

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis was for the statement in paragraph 1.9 of his Department's Cancer Reform Strategy, that England has the highest national per capita rate of cancer trial participation in the world; and if he will make a statement. [174774]

Ann Keen: The number of cancer patients entering trials in the United Kingdom has grown since 2001 to the point where it is almost the same as the number entering trials in the United States of America (USA). The USA and the UK have the largest number of cancer trial participants in the world. These facts, and the difference in population size between the two countries, form the basis of our assessment of the relative level of the current per capita participation rate in the UK.

Cancer: Death

Mr. Lansley: To ask the Secretary of State for Health when he expects cancer networks to agree local cancer mortality reduction targets for 2012, as described in paragraph 6.9 of his Department's Cancer Reform Strategy; what definition of cancer mortality he intends to use; how achievement against cancer mortality targets will be assessed; whether each local cancer mortality reduction target will be published; and if he will make a statement. [175108]

Ann Keen: Local mortality reduction goals will be developed and finalised during 2008. It is important to note that these are goals and not targets.

The details, include definitions, assessment and publication, are yet to be decided.

Cancer: Drugs

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement in paragraph 10.8 of his Department's Cancer Reform Strategy, that there is significant variation in cancer drugs approved by the National Institute for Health and Clinical Excellence (NICE) between cancer networks; what the levels of expenditure on NICE-approved cancer drugs by each cancer network is; and if he will make a statement. [175096]

Ann Keen: The evidential basis for the statement that there is variation in expenditure on cancer drugs approved by the National Institute for Health and Clinical Excellence (NICE) between cancer networks is set out in two reports published by the National Cancer Director:

Variation in usage of cancer drugs approved by NICE, June 2004

Usage of Cancer Drugs approved by NICE, September 2006

Both these reports are available on the Department of Health website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4083901

and

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_4139061

respectively). Copies of both reports are available in the Library.

The Department does not collect the actual levels of expenditure on NICE-approved cancer drugs by network. However, Figure 17 in the Cancer Reform Strategy sets out the estimated cost per head of NICE-approved cancer drugs used in hospitals between January-June 2005. This chart was based on data from the National Cancer Director's 2006 report plus estimates of drug prices. The chart is anonymised because the data on which it is based has many limitations and the error range is large. It provides a useful indication of the likely spread of spend across the country but is not deemed accurate enough to provide a fair comparison between named networks.

Progress has been made in reducing variation in usage of cancer drugs across the country but there is scope for further reductions. The National Cancer Director recommended in his 2006 report repeating his evaluation of cancer drug usage periodically to ensure that the level of variation is reduced as much as possible. The Cancer Reform Strategy confirmed that the next evaluation will take place during 2008.

Mr. Lansley: To ask the Secretary of State for Health whether the National Cancer Director intends to conduct an evaluation of usage of cancer drugs approved by the National Institute for Health and Clinical Excellence, as stated in paragraph 4.51 of his Department's Cancer Reform Strategy, in the years after 2008. [175119]

Ann Keen: The National Cancer Director recommended, in his 2006 report "Usage of cancer drugs approved by NICE", that such evaluations should be repeated periodically. No decision has yet been taken about when it would be most appropriate to repeat the exercise following the one due in 2008.

Mr. Lansley: To ask the Secretary of State for Health whether he intends to issue national guidance to clinicians to assist them in discussing with their patients drugs which are not available on the NHS, as described in paragraph 4.50 of his Department's Cancer Reform Strategy. [175121]

Ann Keen: The Department has no plans to issue national guidance on this matter. However, the National Institute for Health and Clinical Excellence (NICE) publishes information targeted specifically at service users ("Understanding NICE Guidance") to explain its appraisals. Clinicians could use these documents to help discuss drugs which NICE has concluded are not clinically or cost effective for a particular patient's condition.

Mr. Lansley: To ask the Secretary of State for Health if he will make it his policy that primary care trusts should publish their individual criteria for determining which patients should access treatments for cancer drugs in those cases where guidance on the use of the drug has not been issued by the National Institute for Health and Clinical Excellence. [175123]

Ann Keen: The Department has no plans to issue guidance or revise policy on this matter.

Cancer: Health Education

Mr. Lansley: To ask the Secretary of State for Health how frequently the surveys of cancer symptom awareness, referred to in paragraph 3.47 of his Department's Cancer Reform Strategy, will be conducted. [175132]

Ann Keen: As set out in paragraph 8.6 of the Cancer Reform Strategy, the first survey is likely to be in late 2008 or 2009. It will then be repeated at least every two years.

Cancer: Health Services

Mr. Lansley: To ask the Secretary of State for Health what national measures are used to assess cancer services through peer review, as stated in paragraph 1.26 of his Department's Cancer Reform Strategy. [174772]

Ann Keen: The national measures used to assess cancer services through peer review are set out in the "Manual for Cancer Services 2004" which is available on the Department's website at:

www.dh.gov.uk/en/Policyandguidance/Healthandsocialcaretopics/Cancer/DH_4135595

Mr. Lansley: To ask the Secretary of State for Health what proportion of patients received their first treatment for cancer within one month of diagnosis in the latest period for which figures are available, calculated using *(a)* Korner and *(b)* Hospital Episode Statistics data. [174777]

Ann Keen: The data requested are not available, as the waiting times standards within the NHS Cancer Plan (2000) are not monitored using Korner data collections or Hospital Episode Statistics.

The most recently available statistics from the Cancer Waiting Times Database (quarter 2 2007-08) show that 99.7 per cent. of patients received first treatment within one month of diagnosis.

Mr. Lansley: To ask the Secretary of State for Health when he intends to develop a kitemark for good cancer facilities, as described in paragraph 11.8 of his Department's Cancer Reform Strategy. [175094]

Ann Keen: The Department will be working in partnership with Macmillan Cancer Support to develop the kitemark for cancer facilities. This work will commence in 2008.

Mr. Lansley: To ask the Secretary of State for Health in which cancer networks three-year planning for implementing Improving Outcomes Guidance was found to be weak, as described in paragraph 9.29 of his Department's Cancer Reform Strategy. [175099]

Ann Keen: 19 Cancer Networks did not have an agreed three year Network Service Delivery Plan at the time of their peer review visit. These were:

Lancashire and South Cumbria
Humber and Yorkshire Coast
North West Midlands

Pan-Birmingham
North West Midlands
South Essex

Sussex

It should be noted that the peer review visits took place between November 2004 to March 2007 and so do not necessarily reflect the current position. It should also be noted that some of these networks have since merged.

Mr. Lansley: To ask the Secretary of State for Health when he expects to complete the design of the technical specifications for the NHS Cancer Patient Experience Survey Programme, as described in paragraph 5.73 of his Department's Cancer Reform Strategy; when he expects the national contract to run the cancer patient experience surveys to be let; and when he expects the first survey to be published. [175114]

Ann Keen: An expert group, including patients, will be set up in the first half of 2008 to design the technical specifications of the national health service cancer patient experience survey programme and a national contract will then be let for the collection, management and analysis of cancer patient experience surveys in 2008-09 with first results expected in 2009-10.

Mr. Lansley: To ask the Secretary of State for Health what proportion of multi-disciplinary cancer teams dealing with each type of cancer do not have clinical nurse specialist cover, as described in paragraph 5.43 of his Department's Cancer Reform Strategy 2007; and if he will make a statement. [175115]

Ann Keen: The percentage of multi-disciplinary cancer teams (MDT) without clinical nurse specialist cover at the time of their peer review visit is set out, for the tumour types known, in the following table:

Type of MDT	*Percentage of MDTs without CNS cover at peer review visit*
Urology (local)	20
Urology (specialist)	10
Lung	20
Upper Gastro-intestinal (local)	31
Upper Gastro-intestinal (specialist)	14
Bowel	5
Breast	4
Gynaecology (local)	21
Gynaecology (specialist)	2

This information has been extracted from the cancer quality improvement network system (CQuINS), a web-based tool that has been developed to support acute trusts and cancer networks as part of the national cancer peer review programme. However, it should be noted that the peer review visits on which this information is based took place between November 2004 and March 2007 and so that position does not necessarily reflect the current position.

The cancer reform strategy, published on 3 December 2007, acknowledged the vital role that clinical nurse specialists can play in improving the experience of people living with cancer and across many aspects of the management and support of cancer patients. The strategy noted that good commissioners should benchmark their local cancer nurse specialist provision against that of similar primary care trusts and take action where this work force is found to be insufficient.

Mr. Lansley: To ask the Secretary of State for Health which cancer networks do not have information managers in post. [175116]

Ann Keen: The following cancer networks do not currently have an information manager in post:

Anglia
Arden
Essex
Kent and Medway
Mid Trent
Mount Vernon
North London
Peninsula
South East London
South West London
Sussex
West London
Yorkshire

For networks where no current information manager is in post, two will be recruiting in January 2008, as funds have become available, and nine networks will be given a year's funding from Macmillan to support an information role.

Mr. Lansley: To ask the Secretary of State for Health where the pilots undertaken by the Cancer Services Collaborative referred to in paragraph 4.7 of his Department's Cancer Reform Strategy were undertaken; what new approach to implementing cancer waiting time reductions was investigated in each pilot; whether the pilots have been formally evaluated; and if he will make a statement. [175127]

Ann Keen: The Cancer Services Collaborative Improvement Partnership pilot sites were:

County Durham and Darlington NHS trust (tested the proposed two-week wait for all breast problems);

Whittington Hospital NHS trust (proposed two-week wait for all bowel problems);

Manchester Cancer Network (proposed two-week wait for all lung referrals);

Cambridge Breast Unit (reducing follow up);

Sheffield teaching hospital (31-day standard for all radiotherapy treatments and the right of consultants to upgrade patients onto a 62-day pathway where cancer is suspected); and

Luton and Dunstable hospital (stretching the current standards to see how quickly patients could be seen and treated).

The work of the pilot sites is reported on the Cancer Services Collaborative Improvement Partnership website at:

www.cancerimprovement.nhs.uk

The new approach involved using service improvement techniques (such as High Impact Changes, and Lean), to assess whether proposed extensions to the current cancer waiting times standards were achievable. The work of the pilot sites informed the development of the Cancer Reform Strategy.

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* missed diagnoses of cancer; *(b)* radiotherapy errors and *(c)* chemotherapy errors were reported to the National Patient Safety Agency in each of the last five years for which figures are available. [175130]

Ann Keen: The National Patient Safety Agency collects reports of patient safety incidents on the National Reporting and Learning System (NRLS) in England and Wales. All national health service trusts have been able to report into this system since late 2005. The number of reports received each year has increased as more trusts report into the system. Staff usually report patient safety incidents before any further investigation or follow-up has taken place.

Complete statistics are available for the years October 2005 to September 2006 and for October 2006 to September 2007. The following figures refer to England and Wales.

Missed diagnoses of cancer

Incidents were identified from the NRLS where the incident type related to delay or failure to diagnose or related to problems with tests or scans.

Between October 2005 and September 2006, 433 such incidents were reported.

For the period October 2006 to September 2007 there were 502 cases reported.

Radiotherapy errors

Incidents were identified from the NRLS for the most recent two years where the patient was receiving radiotherapy treatment. It is important to note that the incidents identified will have resulted from a range of factors and may not be directly related to radiotherapy treatment.

Between October 2005 and September 2006, 1,468 such incidents were reported. Between October 2006 and September 2007 there were 1,854 cases reported.

Chemotherapy errors

Incidents were identified from the NRLS where the patient was receiving chemotherapy treatment. Cases were identified from drug names used in the incident description or medication fields relating to chemotherapy therapy. It is important to note that the incidents identified will have resulted from a range of factors and may not be directly related to chemotherapy treatment.

Between October 2005 and September 2006 there were 4,942 such incidents reported. For the period October 2006 to September 2007 there were 6,344 cases reported.

Mark Simmonds: To ask the Secretary of State for Health when he will publish a report on the outcomes of the National Cancer Peer Review Programme. [175511]

Ann Keen: The report of the 2004-07 round of cancer peer review will be published this year.

Harry Cohen: To ask the Secretary of State for Health what additional cancer *(a)* treatment and *(b)* equipment has been made available to trusts in Redbridge and Waltham Forest since the appointment of his Department's National Cancer Director; and what the involvement was of the National Cancer Director in such provision. [177045]

Ann Keen: Aside from correspondence with the right hon. Member concerning Whipps Cross Hospital, Professor Mike Richards, the National Cancer Director, has had no direct involvement with Redbridge and Waltham Forest primary care trusts.

The location and organisation of cancer services are a matter for local decisions.

Cancer: Information

Mr. Lansley: To ask the Secretary of State for Health what recent assessment he has made of the proportion of cancer patients who are not given any financial support information in the course of their treatment. [175139]

Ann Keen: The latest assessment of the proportion of cancer patients who were not given any financial support information during the course of their treatment was made by the National Audit Office in their 2005 report, "Tackling Cancer: Improving the Patient Journey".

Cancer: Medical Treatments

Mr. Lansley: To ask the Secretary of State for Health from which countries he intends proton therapy for suitable cancers to be commissioned as described on page 61 of his Department's Cancer Reform Strategy; and what the expected budget for this is in 2008-09. [175124]

Ann Keen: It has not yet been decided from which countries proton therapy will be commissioned. The budget will depend on demand and there is a degree of uncertainly about what that demand will be. However, it is currently estimated that the budget for 2008-09 will need to be in the region of £600,000.

Cancer: Nurses

Mark Simmonds: To ask the Secretary of State for Health how many cancer clinical nurse specialists there were *(a)* of each cancer specification and *(b)* in each cancer network working in the NHS in (i) 1997, (ii) 2001, (iii) 2005 and (iv) 2007. [175509]

Ann Keen: This information is not collected centrally.

Cancer: Screening

Mr. Lansley: To ask the Secretary of State for Health how much his Department's plans *(a)* to tackle the falling participation of women aged 25 to 35 years in cervical screening, *(b)* to extend breast cancer screening to nine screening rounds between 47 and 73 years, *(c)* rollout digital mammography, *(d)* to expand the bowel cancer screening programme from 2010 and *(e)* to introduce a new National Awareness and Early Diagnosis initiative are expected to cost in each financial year for which an estimate has been made. [172451]

Ann Keen: The requested information is shown in the following table.

Estimates for annual costs of CRS components

£ million

	2008-09	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18
(a) Increase participation of young women in cervical cancer screening	0.9	1.9	1.9	1.9	1.9	1.9	1.9	1.9	1.9	1.9
(b) Extend breast cancer screening to nine rounds	12.0	24.0	24.0	24.0	24.0	24.0	24.0	24.0	24.0	24.0
(c) Digital mammography	3.3	5.1	5.1	5.1	5.1	5.1	5.1	5.1	5.1	5.1
(c) Digital mammography—capital	59.6	56.3								
(d) Expand bowel cancer screening programme			66.4	66.4	66.4	66.4	66.4	66.4	66.4	66.4
(e) National awareness and early diagnosis and inequalities	3.0	7.0	11.0	11.0	11.0	11.0	11.0	11.0	11.0	11.0

Mr. Lansley: To ask the Secretary of State for Health what the expected expenditure is on the NHS Cancer Screening Programme's press offices public relations strategy, referred to in paragraph 3.17 of his Department's Cancer Reform Strategy; and if he will make a statement. [175135]

Ann Keen: National health service cancer screening programme's press office public relations strategy to improve the coverage of cervical screening is in its planning stages, and exact costings cannot be provided at this stage. NHS cancer screening programmes will take steps to ensure the strategy is structured and delivered in the most cost effective manner.

Mr. Lansley: To ask the Secretary of State for Health what proportion of women participated in the cervical screening programme *(a)* in total and *(b)* in the 25 to 33 age group in each year since 1997. [175138]

Ann Keen: The Cancer Reform Strategy highlighted the falling participation in cervical screening of women aged 25 to 35. The information requested is provided in the following table.

Coverage	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Women aged 25-64	82.0	82.5	82.3	82.0	81.3	81.6	81.2	80.6	80.3	79.5	79.2
Women aged 25-29	78.4	78.8	78.0	77.0	75.5	75.0	74.0	72.8	71.6	69.4	68.2
Women aged 30-34	83.2	83.5	83.0	82.5	81.5	81.7	81.0	80.0	79.2	78.0	77.5

Note:
Coverage is the percentage of eligible women with a cervical screening test result in the previous five years
Source:
Office for National Statistics/The Information Centre for health and social care, Cervical Screening Programme: England 2006-07

Cannabis

Mr. Boris Johnson: To ask the Secretary of State for Health how many admissions there were related to the use of cannabis in each hospital within Greater London in each year since 1997. [178459]

Dawn Primarolo: The information is not available in the format requested. Such information as is available has been placed in the Library.

Carers' Allowances

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans he has for the future of the carer's allowance. [175354]

Mrs. McGuire: I have been asked to reply.

The whole issue of carers' incomes, including carer's allowance, is being examined in depth as part of the current review of our National Carers Strategy. The findings of the review are due to be published in spring 2008.

College of Chiropractors: Royal Charters

Mr. Hancock: To ask the Secretary of State for Health if he will make it his policy to support the application by the college of Chiropractors to the Privy Council for a royal charter. [175203]

Mr. Bradshaw: An application by the college of Chiropractors has been submitted to the Privy Council for a royal charter. Decisions as to whether to grant a royal charter are a matter for the Privy Council, who will of course assess the college's application against the published criteria. It would not be appropriate for us to prejudge or pre-empt the Privy Council's collective discussions.

Communication Skills: Children

Mr. Lansley: To ask the Secretary of State for Health where the pilots on communication skills for effective face-to-face communication for children and young people, referred to in paragraph 5.14 of his Department's Cancer Reform Strategy, have been undertaken; and when he expects the course based on the national model to be developed. [175117]

Ann Keen: Two pilots were held, one in Esher and one in Liverpool. It is anticipated that the children and young people communication training programme will be taken forward when the united model for adult advanced communications skills training is rolled out early next year.

Communication Skills: Health Professions

Mr. Lansley: To ask the Secretary of State for Health what funding has been committed to the national programme for advanced communication skills training for senior healthcare professionals, as described in paragraph 5.11 of his Department's Cancer Reform Strategy, in each year since 2003; and how many senior healthcare professionals have taken part in the national programme in each of those years. [175118]

Ann Keen: The following table shows the funding allocated to the national programme for advanced communications skills training between the financial years 2005-06 and 2007-08. This funding is allocated through the bundle of central budgets to strategic health authorities.

	Funding (£ million)
2005-06	0.5
2006-07	1.5
2007-08	1.9

Source:
Cancer Action Team

The cancer action team manage this programme in partnership with other parts of the national health service. In the last three years, the programme has trained 150 facilitators to deliver this course and approximately 1,300 senior healthcare professionals have participated in the training. It is estimated that an equivalent number will be trained in 2007-08.

Prior to 2005-06 the programme was managed by the NHS University and figures are not available for that period.

Community Hospitals

Derek Wyatt: To ask the Secretary of State for Health if he will make representations to the Chief Executive Officer of the Eastern and Coastal Primary Care Trust to address the concerns raised in a letter to him dated 6 November 2007 from the hon. Member for Sittingbourne and Sheppey on behalf of Rodmersham Women's Institute on the changes to community hospitals in general and at Sittingbourne Memorial Hospital in particular. [176264]

Mr. Bradshaw *[holding answer 7 January 2008]:* It is for primary care trusts (PCTs) in conjunction with other local stakeholders and their strategic health authorities (SHAs) to make assessments of health needs and to make decisions on local services.

South East Coast SHA has advised officials, that the Chief Executive of Eastern and Coastal Kent PCT replied to the hon. Friend's letter dated 6 November, on 19 December.

More generally, the Department set up a £750 million fund for community hospitals and services in July 2006. The Department has so far approved 23 schemes, and released £190 million from the community hospitals programme for these schemes.

Community Hospitals: Greater London

Mr. Boris Johnson: To ask the Secretary of State for Health (1) how many bids from primary care trusts within Greater London have been received for the funding for community hospitals announced by his Department in December 2005 also work for organisations outside his Department; [178455]

(2) how much has been allocated to primary care trusts within Greater London from the funding for community hospitals announced by his Department in December 2005. [178456]

Mr. Bradshaw: We have received seven bids from primary care trusts within the London strategic health authority. Four schemes have been approved with a total value of £33.6 million, of which £14.3 million is funded from the community hospitals and services programme.

Community Nurses: Manpower

Anne Milton: To ask the Secretary of State for Health with reference to the answer of 23 October 2007, *Official Report*, column 262W, on community matrons, what assessment he has made of progress in meeting his departmental target of recruiting 3,000 community matrons by 2008. [173234]

Ann Keen: Although the National Health Service Improvement Plan (2004) stated that there would be 3,000 community matrons in post by 2008, we brought delivery forward to 2007, to ensure that the appropriate number of community matrons were in post to support delivery of the Emergency Bed Day reductions.

During the local delivery planning exercise last summer, strategic health authorities raised the need for flexibility to change their target envelopes for community matrons in situations where they could provide compelling evidence that there was a local need to do this. The Department provided this flexibility in recognition of the fact that in some cases a case manager other than a community matron may be best placed to provide the service to the patient.

2006 NHS work force census showed there were 366 community matrons in post, an increase of 37.1 per cent. since 2005. However, local intelligence suggests that there are actually many more community matrons in post than the work force census suggests, along with others delivering care and providing services to patients.

We remain committed to increasing the number of community matrons and local development plans strongly suggest this is happening. The equivalent results of the 2007 NHS work force census will be published in the spring of this year.

Dental Services: Hampshire

Mr. Hancock: To ask the Secretary of State for Health if he will initiate research on the number of Hampshire residents who have to travel *(a)* up to five miles, *(b)* between five and 10 miles and *(c)* over 10 miles in order to gain access to an NHS dentist; and if he will make a statement. [174645]

Ann Keen: It would not be appropriate for the Department to centrally commission research into travelling times in any particular local area. It is for Primary Care Trusts (PCTs) to commission local dental services to meet local needs. PCTs are expected to develop robust commissioning plans. These will include consideration of access to local dental services at the time and place people want.

Dentistry: Manpower

Mr. Todd: To ask the Secretary of State for Health what estimate he has made of the numbers of orthodontists available to the acute health sector in England; and if he will make a statement. [175160]

Ann Keen: As of 30 September 2006 there was a total of 544 orthodontists in England, who worked in hospital and community services. Of these, 189 were consultants.

The figures quoted are headcounts.

Mr. Hancock: To ask the Secretary of State for Health how many dentists have been recruited to *(a)* part-time and *(b)* full-time NHS work in each primary care trust area in Hampshire in each of the last five years; and what his forecast is of such numbers for the next three years. [174188]

Ann Keen: Information on dentists recruited to the national health service is not available at a part-time basis. Information on dentists who joined the NHS, by primary care trust (PCT) within Hampshire and Isle of Wight strategic health authority (SHA) area, as at year ending 31 March 2002 to 2006 can be found in the following table.

General Dental Services (GDS) and Personal Dental Services (PDS): Number of NHS dentists who joined the GDS or PDS, in Hampshire and Isle of Wight SHA by PCT as at year ending 31 March 2002 to 2006

	2002	2003	2004	2005	2006
Hampshire and Isle of Wight SHA	58	48	45	63	89
Blackwater Valley and Hart PCT	7	3	7	10	9
East Hampshire PCT	6	4	3	5	5
Eastleigh and Test Valley South PCT	3	1	0	4	9
Fareham and Gosport PCT	8	6	3	3	9
Isle of Wight PCT	2	2	1	9	11
Mid-Hampshire PCT	5	7	4	7	8
New Forest PCT	6	5	7	7	13
North Hampshire PCT	6	6	3	6	6
Portsmouth City Teaching PCT	9	7	9	7	5
Southampton City PCT	6	8	8	7	13

Notes

1. A joiner indicates that the dentist had an open GDS or PDS contract as at 31 March of the specified year but didn't at the same date of the previous year.
2. A dentist may have joined a GDS or PDS contract within more than one PCT or SHA area, in which case they would appear in figures for each individual PCT or SHA area.

Source

The Information Centre for health and social care, NHS Business Services Authority.

This information is based on the old contractual arrangements. To provide information based on the new contractual arrangements, introduced on 1 April 2006, could be produced only at disproportionate cost.

The Government have provided for the expansion of the dental workforce by increasing the number of undergraduate training places at dental schools in England from 670 to 840, a 25 per cent. increase. The new dental schools currently under development in the South West Peninsula and in central Lancashire, which are part of this expansion programme, are a clear sign of the Government's commitment to putting the growth of the dental workforce on a secure footing.

An additional 40 dentists (graduate entrants on a shorter course) will graduate in 2009 with build up to the full 170 in 2010.

Mr. Hancock: To ask the Secretary of State for Health how many dentists *(a)* partially and *(b)* entirely gave up NHS work in each primary care trust area in Hampshire in each of the last five years; and what his forecast is for the numbers expected to do so in each of the next three years. [174189]

Ann Keen: Information on dentists partially giving up national health service work is not available. Information on dentists who left the NHS, by primary care trust (PCT) within Hampshire and Isle of Wight strategic health authority (SHA) area, as at year ending 31 March 2002 to 2006 can be found in the following table.

This information is based on the old contractual arrangements. Information based on the new contractual arrangements, introduced on 1 April 2006, could be provided only at disproportionate cost.

General Dental Services (GDS) and Personal Dental Services (PDS): Number of NHS dentists who left the GDS or PDS, in Hampshire and Isle of Wight strategic health authority by PCT as at year ending 31 March 2002 to 2006

	2002	2003	2004	2005	2006
Hampshire and Isle of Wight SHA	43	46	62	43	48
Blackwater Valley and Hart PCT	4	9	2	4	7
East Hampshire PCT	4	7	12	4	7
Eastleigh and Test Valley South PCT	4	3	2	4	3
Fareham and Gosport PCT	3	4	8	6	1
Isle of Wight PCT	3	2	5	3	4
Mid-Hampshire PCT	5	4	10	7	5
New Forest PCT	4	5	4	7	5
North Hampshire PCT	4	2	7	1	4
Portsmouth City Teaching PCT	5	5	4	5	4
Southampton City PCT	7	5	9	3	8

Notes

1. Leaver indicates that the dentist didn't have an open GDS or PDS contract as at 31 March of the specified year but did at the same date of the previous year.
2. A dentist may have left a GDS or PDS contract within more than one PCT or SHA area, in which case they would appear in figures for each individual PCT or SHA area.

An additional 40 additional dentists (graduate entrants on a shorter course) will graduate in 2009 with build-up to the full 170 in 2010.

Departmental Aviation

Chris Huhne: To ask the Secretary of State for Health (1) how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result; [172238]

(2) how many air miles were travelled by *(a)* him and *(b)* Ministers in his Department on short haul flights over the last year; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172452]

Mr. Bradshaw: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007, and is available on the Cabinet Office website at:

www.cabinetoffice.gov.uk/propriety_and_ethics/ministers.aspx

Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the 'Ministerial Code'.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government carbon offsetting fund members, their emission figures and what activities they have offset through the fund is available online at:

www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm.

Mr. Hayes: To ask the Secretary of State for Health how much has been spent by his Department on international flights in each year since 1997. [174358]

Mr. Bradshaw: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007, and is available on the Cabinet Office's website at:

www.cabinetoffice.gov.uk/propriety and ethics/ministers.aspx.

Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas travel undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

Information in respect of flights taken by officials could be provided only at disproportionate cost.

Departmental Board

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, on what date the NHS Management Board met to discuss the health input to the Olympics, as referred to in paragraph 1.9 of the minutes of the meeting held in June 2007. [172445]

Mr. Bradshaw: The National Health Service Management Board discussed the health input to the Olympics on 25 September 2007.

Departmental Correspondence

Mr. Harper: To ask the Secretary of State for Health how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174934]

Mr. Bradshaw: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library.

Departmental Internet

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the site map for his Department's Delphi staff intranet. [165713]

Mr. Bradshaw: A copy of the site map for the Department's staff intranet, Delphi, has been placed in the Library.

Departmental Manpower

Mr. Walker: To ask the Secretary of State for Health what the full-time equivalent headcount in his Department is; what the forecast full-time equivalent headcount for his Department is for (*a*) 2008-09 and (*b*) 2009-10; and if he will make a statement. [163977]

Mr. Bradshaw: The full-time equivalent headcount for the Department is contained in quarterly workforce statistics published by ONS, which can be found at:

www.statistics.gov.uk/pdfdir/pse0907.pdf

Forecasts for 2008-09 and 2009-10 will be established through a business planning exercise which will begin shortly.

Mrs. May: To ask the Secretary of State for Health how many (*a*) men and (*b*) women are employed by his Department, broken down by civil service grade. [172691]

Mr. Bradshaw: This information has been provided by the Office for National Statistics in Table H on page 28 of the amendment to Civil Service Statistics 2006 published on 19 July 2007, which can be found at:

www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Departmental Pay

Mr. Hayes: To ask the Secretary of State for Health how many and what proportion of his Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the (*a*) bonus structure, (*b*) retirement provision, (*c*) expenses provision, (*d*) total expenses incurred in each of the last 10 years, (*e*) average age of employee, (*f*) number of (i) women and (ii) men and (*g*) ethnic composition is. [171408]

Mr. Bradshaw: Figures showing how many departmental staff and what proportion of staff are employed within each salary band, are presented in the following table. Figures include all people currently on the Department's payroll.

Salary band	*Number of staff in band*	*Proportion of total staff in band (percentage)*
Up to £15,000	6	0.3
£15,001-£20,000	111	4.7

As the Department has over 2,000 members of staff, the question as to what the title and role of each position within each salary band is can be produced only at disproportionate cost.

The Department operates a recognised civil service grade structure, with an associated reward policy.

Special bonuses can be awarded to any member of staff in recognition of work beyond their normal range of duties. Annual bonuses are paid to staff who are members of the senior civil service (SCS). Details of arrangements, including provision for bonuses, can be found in the Human Resource Practitioners' Guide to SCS reward benefits and recruitment which is available at the civil service website at:

www.civilservice.gov.uk/documents/doc/pay_reward/HR_Reward_guide_2007.doc

Details of retirement provision can be found on the civil service pensions website at:

www.civilservice-pensions.gov.uk

Expenses provision is not recorded by salary band and to derive the figures requested would incur disproportionate costs.

However, total expenses incurred overall form part of the "Department of Health Resource Accounts" which are laid before Parliament annually, and are available in the Library.

The average age of employees is currently 42.2 years.

Information on the number of women and men and ethnic composition within the Department has been provided by the Office for National Statistics in table H on page 28 of the amendment to Civil Service Statistics 2006 published on 19 July 2007, which can be found at:

www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

Sarah Teather: To ask the Secretary of State for Health pursuant to the answer of 10 December 2007, *Official Report*, column 303W, on departmental pay, how many of those earning over £100,000 were employed as *(a)* special advisers and *(b)* in a political role in each year since 1997. [177186]

Mr. Bradshaw: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on Thursday 22 November 2007, *Official Report*, columns 147-51WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information is available in the Library.

Departmental Public Bodies

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 13 November 2007, *Official Report*, column 188W, on departmental bodies, if he will *(a)* place in the Library a copy of the survey carried out in autumn 2006 and *(b)* provide a list of all such groups that are currently being run by his Department. [167797]

Mr. Bradshaw: The survey carried out in autumn 2006 by the Department was a short-term project to identify the number of working groups that existed at the time. A copy of the survey questions and the list of groups identified have been placed in the Library. There is no current update of the survey results.

Departmental Public Buildings

Andrew Stunell: To ask the Secretary of State for Health what percentage of new buildings approved by his Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172292]

Mr. Bradshaw *[holding answer 10 December 2007]*: The National Health Service Environmental Assessment Tool kit (NEAT) is the Department's response to the Government's objective of a sustainable construction programme through the Building Research Establishment Environmental Assessment Methodology (BREEAM).

All NHS capital development schemes must submit a NEAT as part of their Appointment of Preferred Bidder Case or Full Business Case for private finance initiative (PFI) and public capital funded schemes respectively. To be approved the business case must demonstrate a commitment to meeting the NEAT score rating of 'excellent' for a new build or 'Very Good' for a refurbishment scheme. All business cases approved by the Department in the last five years and for which records are held centrally have therefore done so. The full list of these schemes and their construction (capital) costs is in the following table.

NHS trust	*Financial close/ tender award date*	*Procurement route*	*Capital value (£ million)*
Tees, Esk and Wear Valleys	4 July 2003	PFI	16
East Lancashire Hospitals	9 July 2003	PFI	110

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Health what the cost was of redundancies in his Department in the 12 months preceding (*a*) 30 June 2004, (*b*) 30 June 2005 and (*c*) 30 June 2006. [175337]

Mr. Bradshaw: The requested information organised with respect to financial years is shown in the following table. Data for 2003-04 could be gathered only at disproportionate cost.

	Compulsory (£)	Voluntary (£)	Total (£)	Number of leavers
2004-05	18,808,078	4,334,777	23,142,855	200
2005-06	3,560,055	2,981,767	6,541,822	33

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Health how many staff in his Department (*a*) were disciplined and (*b*) had their employment terminated as a result of a poor sickness record in each of the last five years. [163701]

Mr. Bradshaw: Central human resources (HR) records do not hold the required information before 1 August 2006 as prior to that date the HR function was devolved and information was held only locally.

The Department of Health manages long-term absence through a standard procedure based on accepted policy. Between 1 August 2006 and 31 March 2007 seven staff were taken through the procedure because of long-term absence due to ill-health.

Three of these returned to work with no subsequent recurring absence. The other four are still absent and are at various stages of the long-term sick policy procedure.

Since 1 August 2006 no staff have had their employment terminated as a result of a poor sickness record.

Doctors: Housing

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on doctors: housing, which elements of the consultation between 1 October and 31 January referred *(a)* directly and *(b)* indirectly to the changes to the arrangements for accommodation for junior doctors. [172007]

Ann Keen: The requirement for doctors to be resident was contained within section 10 of the Medical Act. The consultation document contained a copy of the draft order which included a repeal of section 10.

There was also a section specifically relating to the new training and supervision requirements for recently qualified practitioners. This specifically referred to the new section 10A.

The consultation document also contained an invitation for interested parties to submit comments on any issues dealt with in the draft order.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on doctors: housing, whether the Junior Doctors Committee supported the removal of free accommodation from junior doctors. [172009]

Ann Keen: Changes to the Medical Act, which removed the statutory requirement for residence were subject to consultation. The British Medical Association were involved in the consultation process and do not appear to have objected to the proposed revisions to the Act.

Doctors: Manpower

Mr. Clappison: To ask the Secretary of State for Health (1) how many and what percentage of *(a)* doctors and *(b)* nurses employed by the NHS were (i) non-UK citizens and (ii) non-EU citizens in each year since 1997; [177407]

(2) how many *(a)* doctors and *(b)* nurses were recruited by the NHS from (i) non-EU countries and (ii) African countries in each year since 1999. [177408]

Ann Keen: This information is not collected centrally.

The Information Centre for health and social care does not collect data on the nationality of doctors working in the national health service but does collect data on their country of qualification group. The latest information can be found at table four of the 'NHS Hospital and Community Health Services: Medical and Dental Staff England 1996-2006', a copy of which has been placed in the Library. No similar information is collected for nurses.

The Nursing and Midwifery Council (the regulatory body for nurses, midwives and health visitors) does not collect data on the nationality of registered nurses or midwives but does record the country of qualification of new registrants. The latest information is available in the document 'Nursing and Midwifery Council, Statistical Analysis of the Register, 1 April 2005 to 31 March 2006', which is available in the Library. Registration with the Nursing and Midwifery Council is not a guarantee of employment in the NHS and newly registered nurses and midwives may not be in the United Kingdom or working in the NHS.

Drugs: Rehabilitation

Mr. Streeter: To ask the Secretary of State for Health what the average waiting time was for residential rehabilitation treatment for drug addicts *(a)* nationally and *(b)* in Plymouth in the most recent period for which figures are available. [177911]

Dawn Primarolo: The information is not available in the format it has been requested.

On average across England, 96 per cent. of people were able to access drug treatment in three weeks or under. Data on waiting times for substance misuse treatment for April to October 2007 show that 89 per cent. of clients entering all forms of drug treatment in Plymouth waited three weeks or under. These data are not broken down by individual types of drug treatment[1].

Latest information from Plymouth drug action team shows that 67 out of 68 referrals for 2007 up to mid December to enter residential rehabilitation treatment (including multiple presentations by the same person) commenced treatment within 21 days and the remaining one commenced treatment within 43 days.

The Department has made available £54.3 million of capital funding commencing in 2007 to support the expansion of residential based treatment services.

[1] *Source:*
National Drug Treatment Monitoring System.

Eyesight: Testing

Sarah Teather: To ask the Secretary of State for Health how many people received free eye tests in each London borough in each year since 1997. [172943]

Mr. Bradshaw: The information is not available in the format requested.

The total number of sight tests paid for by the national health service are available at health authority (HA) level for 1996-97 to 2002-03 (in table 1) and at strategic health authority (SHA) and primary care trust (PCT) level for 2003-04 to 2006-07 (table 2).

In both tables, figures are the total number of free sight tests and do not take into account individuals

who may have had more than one sight test in the same area within the same time period.

Table 1: Total number of sight tests paid for by the NHS, by health authority, in London[1] between 1 April and 31 March in the specified years

Family Practitioner Services

Andrew Mackinlay: To ask the Secretary of State for Health in what circumstances trusts may grant GPs the status of closed practice lists; and if he will make a statement. [177298]

Mr. Bradshaw: A general practitioner practice can apply to their primary care trust (PCT) to have its list of patients closed. The PCT will consider the reasons

for closure put forward by the practice and are required to discuss all such applications with the practice. Both the PCT and the practice are required to use reasonable endeavours to keep the practice list open but if this is not possible the PCT may agree to the practice list being closed.

Food: Safety

Mr. Peter Ainsworth: To ask the Secretary of State for Health what criteria are used by the Food Standards Agency when determining whether to issue a food alert; and if he will make a statement. [177851]

Dawn Primarolo: The Food Safety Act 1990 places a statutory responsibility on the Food Standards Agency (FSA) to inform stakeholders of issues relating to food safety and food standards.

The FSA provides such information to stakeholders in number of ways including webstories, press releases, letters and food alerts. Food alerts, in particular, are the FSA's formal method of communication with local authorities, who have responsibility for enforcing food law, on food safety issues that are of particular relevance to them. In determining the need for a food alert the agency takes into account the food safety requirements as specified in Regulation (EC) 178/2002 Article 14 of General Food Law, information already placed in the public domain, for example by a food business operator and the need to provide relevant additional information to local authorities.

Food alerts either provide local authorities with additional information or outline what action they should take in response to a particular food safety issue.

In line with the agency's policy of openness these alerts are also published on the agency's website bringing them to the attention of other stakeholders. This information can be accessed on the FSA's website at

www.food.gov.uk/enforcement/alerts

Mr. Peter Ainsworth: To ask the Secretary of State for Health what food alerts have been issued by the Food Standards Agency since April 2005; and what the date and reason for each was. [177852]

Dawn Primarolo: The Food Standards Agency (FSA) issued 230 food alerts between April 2005 and December 2007. No food alerts have been issued, as yet, in 2008.

All food alerts are published on the FSA's website. Information on the subject of each alert and its date of issue can be accessed on the FSA's website at:

www.food.gov.uk/enforcement/alerts/2005/

www.food.gov.uk/enforcement/alerts/2006/

www.food.gov.uk/enforcement/alerts/2007/

Information has also been placed in the Library.

Mr. Peter Ainsworth: To ask the Secretary of State for Health what monitoring of food and foodstuffs for the presence of Sudan 1 food colorant has been undertaken by *(a)* the Food Standards Agency and *(b)* other public bodies since April 2007; and if he will make a statement. [177853]

Dawn Primarolo: Under European Commission Decision 2005/402/EC imports of chilli, chilli products, curcuma and palm oil must be accompanied by an analytical report demonstrating that the product does not contain Sudan 1. Member states are also required to undertake random sampling of imports as well as those foodstuffs already on the market.

Random sampling is carried out by port health authorities and local authorities across the United Kingdom. The results are collated on behalf of the Food Standards Agency (FSA), who then report these to the European Commission. The FSA is also part of an European Union (EU) wide rapid alert system that informs member states of any positive samples being found of Sudan 1 in food within the EU.

General Practitioners

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government have taken to assist general practitioners in detecting signs of serious illnesses at the earliest opportunity since 1997. [173424]

Mr. Bradshaw *[holding answer 13 December 2007]:* The Quality and Outcome Framework incentives provided by Government for GPs as part of the General Medical Services Contract introduced in April 2004 include case finding for people who have risk factors for the most serious diseases. These incentives include identifying people who smoke, or who are obese, or who have high blood pressure, as these are all key risk factors for serious diseases such as coronary vascular disease, strokes, diabetes and a number of cancers. Identifying people with these risk factors facilitates the earliest possible opportunity of diagnosis.

There are a number of other initiatives to support practices including National Service Frameworks. For example, for groups such as children and older people and for specific disease areas such as cancer or diabetes. In addition there is a new cancer strategy which includes proposals for supporting early diagnosis and treatment.

Genetically Modified Organisms: Imports

Mr. Peter Ainsworth: To ask the Secretary of State for Health (1) how many samples from cargoes entering the United Kingdom from *(a)* outside the EU and *(b)* within the EU, were taken by (i) port health authorities and (ii) other public bodies, for the purposes of assessing the presence of approved and unapproved GM traits in each of the last two years; and what the cost was of taking and analysing such samples; [177854]

(2) how much was spent on enforcement of the Genetically Modified Organism Traceability and Labelling (England) Regulations by *(a)* the Food Standards Agency and *(b)* other public bodies in each year since the regulations came into force. [177855]

Dawn Primarolo: Records are not held centrally for the total numbers and costs of samples and analyses undertaken by port health authorities and other public bodies for assessing the presence of authorised and unauthorised genetically modified (GM) varieties.

The Food Standards Agency (FSA) carried out a survey in 2006 to provide information specifically on the presence of the non-authorised GM variety, LLRICE601, in United States long grain rice held at United Kingdom rice mills. 31 samples were taken from rice mills and the total cost for sampling and testing was £5,150. A full report is available on the FSA website

www.food.gov.uk/multimedia/pdfs/fsis1906a.pdf

Enforcement of the law relating to food and feed, including provisions relating to the Genetically Modified Organisms (Traceability and Labelling) (England) Regulations, is the responsibility of local authorities and port health authorities. Records of spending on enforcement of these regulations by local authorities and port health authorities are not held centrally.

Health Services

Mr. Stephen O'Brien: To ask the Secretary of State for Health which *(a)* NHS trusts, *(b)* strategic health authorities and *(c)* departmental units each of the 14 providers appointed to the Framework for Procuring External Support for Commissioners (i) have previously worked in and (ii) currently work in, broken down by services provided. [174313]

Mr. Bradshaw: The Department does not centrally collect the information requested in relation to national health service trusts and strategic health authorities. Information regarding which areas of the Department in which companies on the Framework for Procuring External Support for Commissioners list have provided services is taken from the Department's finance system. However, this information is only available from April 2004 and it is not possible to identify either the Departmental teams or the types of services provided currently or in the past, without incurring disproportionate cost:

AXA PPP Healthcare Administration Services Limited
CHKS Ltd, trading as Partners In Commissioning
Dr. Foster Limited, trading as Dr. Foster Intelligence
KPMG LLP
McKesson Information Solutions UK Limited
McKinsey and Company Inc. United Kingdom
Navigant Consulting, Inc.
Tribal Consulting Limited
UnitedHealth Europe Limited

Mr. Jamie Reed: To ask the Secretary of State for Health what the *(a)* powers and *(b)* role of local government overview and scrutiny committees in the reconfiguration of local health services are. [177192]

Ann Keen: Any national health service body with a proposal to make substantial changes or developments to its services must consult relevant local authority overview and scrutiny committees (OSC).

OSCs may: review any matters relating to the planning, provision and operation of health services in the area of the committee's local authority; make reports and recommendations to local NHS bodies which are required to respond; require the attendance of an officer of a local NHS body to answer questions and provide explanations relating to the planning, provision and operation of health services in the area; require a local NHS body to provide information relating to the planning, provision and operation of health services in the area; report to the Secretary of State for Health or Monitor where the committee is concerned that consultation on substantial variations or developments of services has been inadequate or where the committee considers that the proposal is not in the interests of the health service.

The role of OSCs in the context of a reconfiguration is to consider whether the proposal is in the interests of the health service for the area covered by that local authority.

Further information about the wider review and scrutiny role of OSCs is available at :

www.dh.gov.uk/en/Policyandguidance/Organisationpolicy/PatientAndPublicinvolvement

Health Services: Armed Forces

Mr. Hancock: To ask the Secretary of State for Health if he will list the 10 primary care trusts with the highest concentration of serving and veteran service personnel within their area. [170211]

Mr. Bradshaw: Information is not available about which primary care trusts (PCTs) have the highest concentration of veterans within their area.

On the basis of the information available at present, our assessment is that the 10 PCTs with the highest concentration of serving personnel are Wiltshire, Hampshire, North Yorkshire, Devon, Portsmouth City, Oxfordshire, Lincolnshire, Surrey, Cornwall and Berkshire East. Together, they cover about 60 per cent., of the armed forces in England.

Health Services: Overseas Visitors

Mr. Lansley: To ask the Secretary of State for Health how much of the £38,100,000 in claims made by the UK against other European Economic Area member states in respect of healthcare provided in the UK was claimed from each member state in respect of 2006-07. [178057]

Dawn Primarolo: The following table shows the claims for medical treatment made by the United Kingdom against other European economic area member states by country.

UK claims against member states

	£000
Austria	540,000
Belgium	2,900,000
France	3,800,000
Germany	930,000
Greece	400,000
Iceland	10,000
Ireland	21,140,000
Italy	3,850,000

UK claims against member states

	£000
Netherlands	1,950,000
Spain	1,810,000
Sweden	750,000
Switzerland	20,000

Note
Totals are rounded to nearest £10,000.

Health Services: West Midlands

Mr. Lansley: To ask the Secretary of State for Health pursuant to the written statement of 15 November 2007, *Official Report*, columns 78-81WS, on health service provision, how much was spent on the contract for diagnostic services in the West Midlands that will be terminated; and how many patients were treated under this contract. [167758]

Mr. Bradshaw: Around £7.7 million has been spent on the West Midlands diagnostics scheme contract, with 2,277 diagnostic procedures delivered to national health service patients at the end of October 2007.

An increase in productivity by local NHS providers has substantially reduced the need for the capacity provided by this scheme, with the average waiting time for all diagnostics in the West Midlands being just under three weeks at the end of September 2007.

Hospitals: Admissions

Mr. Amess: To ask the Secretary of State for Health how many alcohol-related emergency admissions to hospitals in Southend West constituency there were in each year since 1997, broken down by *(a)* age group and *(b)* sex. [177132]

Dawn Primarolo: Information is not available in the format requested. The following table shows the count of finished admission episodes for alcohol-related emergency admissions by age and gender for Southend University Hospital NHS Foundation Trust. Data are for the years 1997-98 to 2006-07.

National health service hospitals England and activity performed in the independent sector in England commissioned by English NHS

	Male			Female		
	Age under 18	*Age 18 and over*	*Age unknown*	*Age under 18*	*Age 18 and over*	*Age unknown*
2006-07	10	452	4	13	234	1
2005-06	17	433	1	21	218	3
2004-05	21	405	1	13	216	0
2003-04	11	256	3	10	149	0
2002-03	6	233	0	*	89	1
2001-02	6	302	1	9	123	0
2000-01	5	335	1	5	127	1
1999-2000	9	301	2	9	130	1
1998-99	8	247	2	*	122	0
1997-98	7	266	2	*	133	1

Notes:
Data quality
HES are compiled from data sent by over 300 NHS trusts, and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Finished admission episodes (FAE)
A FAE is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Admission method codes used:
21 = Emergency: via accident and emergency (A & E) services, including the casualty department of the provider
22 = Emergency: via general practitioner
23 = Emergency: via Bed Bureau, including the Central Bureau
24 = Emergency: via consultant out-patient clinic
28 = Emergency: other means, including patients who arrive via the A & E department of another health care provider.
Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Low numbers
Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with "*" (an asterisk). This has not been done for the age unknown column as the admissions in this column would not be identifiable.
All diagnoses count of mentions
These figures represent a count of all mentions of a diagnosis in any of the 14 diagnosis fields in the HES data set. Therefore, if a diagnosis is mentioned in more than one diagnosis field during an episode, all diagnoses are counted.
Diagnosis codes used
F10 - Mental and behavioural disorders due to use of alcohol
K70 - Alcoholic liver disease
T51 - Toxic effect of Alcohol
Finished consultant episode (FCE)
A FCE is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.
Ungrossed data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
Source:
Hospital Episode Statistics (HES), the Information Centre for health and social care.

Incontinence: Medical Equipment

Bob Spink: To ask the Secretary of State for Health what his Department's policy is on maintenance and improvement of the *(a)* supply systems and *(b)* quality of stoma and incontinence products for elderly people in (i) residential care homes and (ii) their own homes; and if he will make a statement. [176652]

Dawn Primarolo: In primary care, users of stoma and incontinence appliances listed in part IX of the Drug Tariff are prescribed these appliances whether they live in their own home or a care home. The Department's policy on maintenance and improvement is set out as follows:

Supply systems

In primary care, stoma and incontinence appliances which have been prescribed on a FP10 are dispensed by a dispensing pharmacist, dispensing appliance contractor or dispensing doctor. As a related service, patients may also receive home delivery.

However, the Department has consulted on new arrangements for the provision of those appliances and related services in primary care in England. A key objective is that patients should receive the same standard of care no matter where they live. Consequently, one of the proposals is that dispensing appliance contractors and dispensing pharmacists shall, in the normal course of their business, provide a home or care home delivery service in respect of these appliances if the patient desires it.

Quality of stoma and incontinence products

Manufacturers apply directly to the prescription pricing division (PPD) of the NHS Business Services Authority Manufacturers to have these products approved for listing on part IX of the Drugs Tariff.

In assessing whether the product is appropriate for prescribing in primary care, the PPD may require applicants to provide clinical data to demonstrate that the product delivers clinical benefits, and any products required to carry a CE marking must do so. Providing these conditions are met, the PPD also requires that products are safe and of good quality and that they are cost-effective.

In relatively rare cases, the PPD may seek independent advice bearing on these issues although responsibility for the eventual decision will remain with the PPD and the evidence required will depend on the individual application. The need for evidence is likely to be greater if similar products have not been listed before. The PPD may require applicants to provide clinical data to demonstrate that the product delivers clinical benefits.

Lambert Hospital

Miss McIntosh: To ask the Secretary of State for Health when he next plans to visit the Lambert Hospital in Thirsk. [177102]

Ann Keen: The Secretary of State (Alan Johnson) makes regular visits to national health service facilities across the country. Invitations are considered on a case-by-case basis and will depend upon diary pressures and parliamentary business. Therefore, if the hon. Member wishes to, she may send a formal request to Ministers regarding a visit to the Thirsk area.

Macular Degeneration: North Yorkshire

Miss McIntosh: To ask the Secretary of State for Health (1) when he expects more rapid treatment to be available to those living in North Yorkshire for age-related macular degeneration; [175246]

(2) what provision there is for treatment for wet macular degeneration in North Yorkshire. [175376]

Ann Keen: The Yorkshire and Humber Strategic Health Authority reports that the National Institute for Health and Clinical Excellence (NICE) has already recommended the use of photodynamic therapy for treating wet age-related macular degeneration (ARMD) in some patients. North Yorkshire and York Primary Care Trust (PCT) is funding this treatment in accordance with the guidelines set out in the latest North Derbyshire, South Yorkshire and Bassetlaw Commissioning Consortium Policy document with which the PCT adheres.

Three new drugs have been identified as possible treatment options for wet ARMD. These drugs are Macugen (Pegaptinib), Lucentis (Ranibizumab) and Avastin (Bevacizumab). NICE is currently carrying out an appraisal of Lucentis and Macugen and expects to publish final guidance in the new year. NICE published draft guidance on 14 December 2007, which is now subject to consultation with stakeholders. Avastin is not included in the appraisal, as it is not licensed.

Where NICE has not issued guidance, PCTs are expected to make their own decisions on the funding of specific treatments based on an assessment of the available evidence.

Medical Equipment: Procurement

Mr. Spellar: To ask the Secretary of State for Health if he will take steps to ensure that the 34 million disposable respirators and 350 million surgical face masks he is purchasing are bought from companies in the UK. [170200]

Mr. Bradshaw: The tender for the procurement of the 34 million disposable respirators and 350 million surgical face masks has not commenced at this stage.

In purchasing goods and services for the national health service, the Department is subject to all European Union public procurement regulations. The rules compel the Department to advertise and award any proposed contract in accordance with the legal procedure set out in the regulations. This ensures that the process is fair, transparent and non-discriminatory. It would be a breach of this legislation to ensure the products were only supplied by companies in the United Kingdom.

Mr. Jim Cunningham: To ask the Secretary of State for Health how much the Government has spent on updating hospital equipment since 1997. [175594]

Mr. Bradshaw *[holding answer 7 January 2008]:* The Department does not collect information on hospital equipment spend centrally. A decision on the procurement of hospital equipment is made at a local level.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will publish all documents of *(a)* his Department and *(b)* Connecting for Health on the review into the possibility of NHS patient data being processed overseas by approved organisations. [172905]

Mr. Bradshaw: A reference to a 'review' was made in an unrestricted operational guidance document made widely available to the NHS by NHS Connecting for Health in March 2006. This was subsequently wrongly described in media reports as a leaked document. However, no such formal review has taken place and

the reference was in respect of a general question asked by some suppliers as to whether patient data in respect of the National Programme for IT (NPfIT) could be held abroad. It was subsequently confirmed to all suppliers that there was no change to the policy that NPfIT patient data should not be held or processed overseas. The guidance document concerned has been reissued with the reference removed but there is no 'review' documentation to publish.

Medical Records: Databases

James Brokenshire: To ask the Secretary of State for Health how many people he expects to have access to the entire content of the NHS Medical Records Database. [167986]

Mr. Bradshaw: The security measures controlling access to national health service care records service clinical records are set at the Cabinet Office standard e-Government Interoperability Framework level 3, with access restricted to only those with a legitimate relationship with the patient, and further role-based access restrictions to specific information. It follows, therefore, that no one will have access to the entire content of the database.

In exceptional circumstances, when required by law, specialist staff may, for example, be authorised to access records without there being a clinical relationship with the patient or patients concerned. Theoretically these staff could be authorised to access any individual record within the database, but all such access is for specific purposes and in tightly controlled circumstances.

Jeremy Wright: To ask the Secretary of State for Health whether the provisions of section 10 of the Data Protection Act 1998 can be applied to the processing of data on any component of the national care records database; and whether this could include a patient requirement not to record clinical information on a database that can be accessed by users who are not directly involved in their care. [168954]

Mr. Bradshaw: Requests made by patients under the provisions of section 10 of the Data Protection Act 1998 must be considered on a case by case basis. For section 10 to apply, the data in question must be personal identifiable data and processing must not be subject to a legal requirement or other exception set out in the Act. Patient contact details held as part of the National Health Service Care Records Service (NHS CRS) are subject to legal requirements so are exempt from the section 10 provisions. Clinical information held nationally is not exempt from the section 10 provisions, but this information can only be accessed by NHS CRS users directly involved in the patient's care.

Information is added to the national system in a number of different ways, some by deliberate clinical decision and some by automated processes. In some cases local organisations able and willing to accede to a request under section 10 may be able to withhold information from record systems. In other cases the record is created as a consequence of the treatment or action that takes place, for example the creation of an x-ray image in the new digital picture recording systems, and a section 10 request could only be considered after the event. In the case of the summary care record, which is fed by both clinical decision and automated processes, patients may elect not to have a summary care record or to impose access controls upon it so that information is only shared either with their consent, when anonymised, or where required by law.

Medical Treatments Abroad

Mr. Lansley: To ask the Secretary of State for Health how much of the £526,700,000 in claims made against the UK in respect of European Economic Area (EEA) claims for medical treatment was claimed by each EEA member state in the year 2006-07. [178056]

Dawn Primarolo: The following table shows the claims for medical treatment made against the United Kingdom by other European Economic Area member states by country of claim.

EEA Healthcare Cost Claims

Member states claims against UK	*£000*
Austria	2,960,000
Belgium	3,770,000
Cyprus	11,370,000
France	83,000,000
Germany	5,630,000
Greece	860,000
Iceland	30,000
Ireland	289,190,000
Italy	5,480,000
Netherlands	4,910,000
Portugal	1,370,000
Spain	117,450,000
Sweden	680,000

Note: Totals are rounded to nearest 10,000.

Medical Treatments Abroad: France

Mr. Streeter: To ask the Secretary of State for Health if he will extend the E106s of British citizens currently living abroad in France, so they will not have to obtain private medical insurance to access healthcare following a change in French law. [177912]

Dawn Primarolo: Under European Union regulations if someone moves to another European Economic Area country to live they are entitled to health care paid for by the United Kingdom in the following circumstances only:

they are in receipt of a UK state pension or other exportable benefit (an E121 will be issued by the UK)

they are posted abroad by a UK employer and still pay tax and national insurance in the UK (an E106 will be issued by the UK).

In addition the UK does under certain circumstances pay the health care costs for a limited period of those people who move abroad before they are in receipt of their pension. (An E106 will be issued by the UK). There are no plans to extend this entitlement.

Members: Correspondence

Mr. Grieve: To ask the Secretary of State for Health when a reply will be sent to the hon. Member for Beaconsfield's letter of 30 July 2007 to the Parliamentary Under-Secretary of State responsible for Care Services on the SIGN charity in Beaconsfield constituency. [178005]

Mr. Bradshaw: A reply was sent on 23 August 2007.

Musculoskeletal Disorders

Harry Cohen: To ask the Secretary of State for Health what support is available to employers to ensure patients with musculoskeletal disorders access early diagnosis and treatment to remain in work. [177048]

Ann Keen: We are not aware of any support available to employers to ensure patients with musculoskeletal disorders have access to early diagnosis and treatment to remain in work.

National Institute for Health and Clinical Excellence

Mr. Harper: To ask the Secretary of State for Health what assessment he has made of primary care trusts' compliance with (*a*) his Department's and (*b*) the National Institute for Health and Clinical Excellence's guidelines that three cycles of in vitro fertilisation should be provided to couples by the NHS. [177231]

Dawn Primarolo: In response to a survey carried out by the Department in autumn 2007, approximately one third of primary care trusts (PCTs) report that they are offering at least one fresh cycle of in vitro fertilisation to eligible patients, just over a third report one full cycle of fresh plus frozen embryos, and a third report two cycles or more. A very small number report a temporary suspension of the service. We are working with the patient support organisation Infertility Network UK to help PCTs share best practice in the provision of fertility services and move to the implementation of the National Institute for Health and Clinical Excellence recommendations. To build on the progress being made we are establishing an expert group to advise the project and consider how to help PCT commissioners.

NHS: Disclosure of Information

Mr. Stephen O'Brien: To ask the Secretary of State for Health what policies his Department has for making data collected by the NHS available to the pharmaceutical industry; what assessment he has made of the effectiveness of these policies; and if he will make a statement. [170073]

Mr. Bradshaw: Any requests for national health service data from the pharmaceutical industry are treated in the same way as other requests from outside the NHS.

NHS: Finance

Andrew George: To ask the Secretary of State for Health what progress has been made in reviewing the impact of the market forces factor on (*a*) the overall NHS funding formula and (*b*) overall budgets of NHS trusts. [176052]

Mr. Bradshaw: The Advisory Committee on Resource Allocation (ACRA) continually oversees the development of the weighted capitation formula. ACRA's current work programme includes a review of the market forces factor (MFF). The review of the MFF will also inform the MFF adjustments made to providers of national health service services paid for through the national tariff.

Although ACRA has made good progress on some major aspects of its work programme, it has requested, and been granted, additional time to finalise the work that it is doing to review the formula. Given the importance of the weighted capitation formula it is crucial that ACRA has the time required to produce a robust and transparent formula.

Only when this work programme is completed will ACRA finalise its recommendations to Ministers on potential changes to the funding formula. Ministers will then look at all of ACRA's recommendations and decide how to take these recommendations into account when making allocations to primary care trusts (PCTs) for 2009-10 and 2010-11.

We will inform providers and PCTs of the changes to the formula, and the revenue allocations as soon as is practically possible after the completion of ACRA's work programme. The aim is to announce revenue allocations to PCTs for 2009-10 and 2010-11 by the summer 2008. The MFF indices applied to providers of NHS services paid for by the national tariff were published on the Department's website on 13 December as part of the national tariff package for 2008-09, and are available at:

www.dh.gov.uk/en/Policyandguidance/Organisationpolicy/Financeandplanning/NHSFinancialReforms/DH_081226

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) what effect the recent renegotiation of the Connecting for Health contract with BT has had on the (*a*) capital and (*b*) revenue costs of the programme; [172914]

(2) what change there has been in the value of the Connecting for Health contract with BT following the recent renegotiation; [172915]

(3) if he will make available the details of the renegotiation of the Connecting for Health contract with each of the local service providers. [172916]

Mr. Bradshaw: There has been no renegotiation of primary supplier contracts let by national health service Connecting for Health under the national programme for information technology, and no changes to their terms and conditions. There have, however, been 'resets' of the contracts. Reset is a normal, repeatable, process for contracts with a long lifetime to ensure that their ongoing delivery reflects progress to date, current priorities, and deployment plans for the future, and that they continue to support the evolving needs of the NHS. However, reset allows for the option of agreeing enhancements to existing services or functionality that does not effect a change in contract scope or risk allocation.

In the course of the reset of the BT contract for London, new requirements and additional services were identified by the NHS, for which a separate business case and funding of £55 million £41.8 million capital and £13.2 million revenue over the lifetime of the contract was subsequently approved. This does not represent an increase in the original cost of the contract for the original specification, but reflects new requirements for additional functionality.

NHS: KPMG

Derek Conway: To ask the Secretary of State for Health if he will place in the Library a copy of the report prepared by KPMG and paid for by NHS London and the acute hospital trusts in outer South East London which provides analysis of the financial viability of the four acute hospital trusts in outer South East London. [172685]

Mr. Bradshaw: Currently officials within the Department are using the report in relation to current policy formulation and development.

With this in mind we are currently applying section 36 of the Freedom of Information Act to the report as the information would be likely to inhibit free and frank provision of advice and the free and frank exchange of views for the purposes of deliberations.

The results of this review process are being discussed with the strategic health authorities and solutions are being prepared in the context of the Operating Framework for 2008-09.

NHS: Private Finance Initiative

Mr. Stephen O'Brien: To ask the Secretary of State for Health what representations his Department received from HM Treasury in respect of *(a)* the planning and *(b)* the delivery of each project undertaken under the private finance initiative. [175352]

Mr. Bradshaw: HM Treasury regularly publishes guidance and reports on all aspects of the planning and delivery of private finance initiative (PFI) schemes in terms of evaluating business cases, ensuring value for money and developing standardised contract terms, which all Government Departments must follow. HM Treasury approval is required for all PFI business cases in the national health service exceeding £100 million.

HM Treasury also worked specifically with this Department on developing and conducting the reappraisal of all major NHS PFI schemes in procurement launched in January 2006.

NHS: Property

Mike Penning: To ask the Secretary of State for Health how much revenue has been received since May 1997 from the sale of NHS property. [170625]

Mr. Bradshaw: Details of national health service property sales are not held centrally. However, the information in the following table shows receipts from the sale of fixed assets including dwellings, plant and machinery, transport equipment, information technology, land, buildings and furniture and fittings during the period requested.

	Receipts from all fixed assets (£000)
1997-98	252,795
1998-99	191,380
1999-2000	290,961
2000-01	390,869
2001-02	766,411
2002-03	1,078,294
2003-04	397,975
2004-05	455,625
2005-06	440,360
2006-07	575,873

This information is collected on the cash receipts from the sale of fixed assets by the NHS through their annual audited summarisation schedules. The table does not include sales by NHS foundation trusts. Receipts include sales to other NHS organisations as well as to the private sector. Funds released from the disposal of fixed assets are capital in nature, and are therefore generally reinvested in local capital schemes.

NHS: Public Participation

Daniel Kawczynski: To ask the Secretary of State for Health (1) what account was taken of rurality in establishing the level of funding provided to each local authority to set up and run local involvement networks; [177011]

(2) what criteria were used to establish the level of funding provided to each local authority to set up and run local involvement networks. [177012]

Ann Keen: The allocations made to local authorities (LAs) to support the establishment of local involvement networks were based on two elements: a general baseline payment to all LAs with the rest allocated according to the relative needs formula.

The first element allocates a basic amount of £60,000 to each LA.

The remainder of the available funding is allocated according to the social care relative needs formulae. These are mathematical formulae designed to allocate funding for relevant services between LAs according to the needs of each LA relative to other LAs. They are a rigorously developed and accepted method of allocating funds to LAs (and are recognised by key organisations such as the Local Government Association). There are separate formulae for older people, younger adults and children. The formulae take into account the population in the LA area and other key factors. The older people's formula consists of a basic amount per person aged 65 and over and top-ups for age, deprivation, sparsity, low income from fees and charges, and area costs. The younger adult's formula consists of a basic amount per person aged 18-64 and top-ups for deprivation and area costs. The children's formula consists of a basic amount per child aged 0-17 and top-ups for deprivation, foster costs and area costs.

NHS: Standards

Sarah Teather: To ask the Secretary of State for Health what estimate he has made of the cost of implementing the recommendations of Lord Darzi's report; and if he will make a statement. [172945]

Mr. Bradshaw: Proposals for the provision of services are a matter for the national health service, working in conjunction with clinicians, patients and other stakeholders.

The projected costs of implementing the proposed models of care in London have been provided in the consultation document 'Healthcare for London: consulting the capital'. These are estimated forecasts which are dependent on many factors over the next few years, such as demand on services, population growth, and the continued increase in the health care budget.

NHS: Telephone Services

Mr. Lansley: To ask the Secretary of State for Health (1) which *(a)* organisations and *(b)* individuals his Department intends to consult on the possibility of introducing a new three-digit number for urgent care services, as stated in his Department's NHS next stage review interim report, Our NHS, Our Future; [175029]

(2) how the NHS Next Stage Review will take forward the exploration of the possibility of introducing a single three-digit number for urgent care services, as described on page four of his Department's document Urgent care update: Key areas highlighted by the Direction of Travel consultation and other work; [175031]

(3) whether a new three-digit number for urgent care services, as referred to in his Department's NHS next stage review interim report, Our NHS, Our Future, will be delivered through NHS Direct. [175033]

Mr. Bradshaw: As part of the national health service next stage review, local clinical pathway groups are considering ways to improve the public's understanding of how to access urgent care services. As the interim report of the review, published on 4 October, made clear, there may be benefit in adopting a three-digit number as a single point of access to urgent care. Various options are being considered.

The NHS Direct telephone advice service, which currently operates on 0845 4647, will shortly have to change its number. While it could move to an 03 number, we have had a preliminary discussion with Ofcom about the possibility of securing a three-digit number for NHS Direct. Any proposal would need to follow Ofcom's normal process for consultation with the public.

Postal Services

Mr. Hayes: To ask the Secretary of State for Health how many items of post sent by his Department were reported missing by the intended recipient in each year since 1997. [171288]

Mr. Bradshaw: I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on Department's procedures will be made on completion of the review.

Psychiatry: Standards

Mr. Andrew Smith: To ask the Secretary of State for Health what steps his Department has taken to promote understanding by general practitioners of the role of the therapeutic relationship in talking therapies. [175403]

Ann Keen: The educational and training curricula of general practitioners, including the therapeutic relationship in psychological therapies, is set and managed by the Royal College of General Practitioners, not by the Department.

Post-registration training needs for national health service staff are determined against local NHS priorities, through appraisal processes and training needs analyses informed by local delivery plans and the needs of the service. Services are delivered at a local level, with funding for continuing professional development, including training in new therapies, included as part of the baseline allocation to strategic health authorities (SHAs).

Subject to the Multi-Professional Education and Training Levy Service Level Agreement, it is for each SHA to decide how to allocate this funding against their work force planning strategies.

Mr. Andrew Smith: To ask the Secretary of State for Health what standards of *(a)* self-development and *(b)* qualifications psychological therapists will be required to meet under the Improving Access to Psychological Therapies programme. [175404]

Mr. Ivan Lewis: Therapists delivering evidence-based psychological therapies will be required to reach different standards depending on the level of the therapy given and their prior experience. Those delivering high intensity interventions will be expected to reach the standard of a post-graduate qualification.

Therapists will receive supervision during and after training to develop and maintain their skills. The Department is undertaking work to specify the competencies for supervision and the training required to develop and implement the professional development required to deliver evidence-based psychological therapies.

Radiotherapy

Mr. Lansley: To ask the Secretary of State for Health in which areas of the country additional radiotherapy equipment will be needed as stated in paragraph 4.27 of his Department's Cancer Reform Strategy. [175125]

Ann Keen: This information is not held centrally.

The need for additional radiotherapy equipment was recognised as an area for development in the National Radiotherapy Advisory Group report, which recommended that 54,000 fractions per million of population by 2016 and that the current average was around 30,000 fractions with a range between 17,000-48,000 per million between networks.

It is for local determination whether additional equipment is needed or services are reconfigured to ensure that the network meets this recommendation by 2016.

Screening: Finance

Mr. Lansley: To ask the Secretary of State for Health how much money has been allocated to increase NHS provision of preventative screening in each of the next three financial years; and how much will be spent on each type of screening. [178310]

Dawn Primarolo: Detailed spending decisions are a matter for the local national health service.

Money will be allocated for the delivery of those policy commitments including the £3 million already announced.

Smoking: Prescription Drugs

Dr. Iddon: To ask the Secretary of State for Health what representations he has received on adverse reactions to the anti-smoking prescription drug Champix. [177304]

Dawn Primarolo: Varenicline (Champix) was first launched in the United Kingdom in December 2006 as a stop-smoking aid for adults. Since that time its safety has been monitored closely by the Medicines and Healthcare products Regulatory Agency (MHRA) in conjunction with the European Medicines Agency.

To date over 1,400 reports of suspected adverse reactions have been received via the yellow card scheme in the UK. The reactions most commonly reported through the yellow card scheme are recognised side effects and are listed in the product information. The most commonly reported side effects are nausea, depression/depressed mood, headache, vomiting, and dizziness. It is important to note that the suspected reactions are not necessarily caused by the drug and may relate to other factors such as nicotine withdrawal, other illnesses or other medicines taken concurrently.

Recently concerns have arisen about reports of depression including suicidal thoughts and behaviour reported in association with the use of varenicline. These data have prompted a Europe wide review of this issue and careful consideration of the available data. Following the most recent consideration the varenicline product information for doctors and the Patient Information Leaflet is being updated to contain warnings that depression has been reported in patients who are trying to stop smoking using varenicline and that the symptoms of this depression may include suicidal thoughts and behaviour. In December 2007, information was posted on the MHRA website regarding this issue. Suicidal behaviour associated with the use of varenicline remains under close review in the UK and within Europe.

Tinnitus: Research

Mr. Evans: To ask the Secretary of State for Health how much was spent by the NHS on research into tinnitus in 2007. [178055]

Dawn Primarolo: I refer the hon. Member to the reply given by my right hon. Friend the Secretary of State (Alan Johnson) to my hon. Friend the Member for North-West Leicestershire (David Taylor) on 12 September 2007, *Official Report*, column 2084W.

Tomography

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* computerised tomography scanners, *(b)* magnetic resonance imaging scanners, *(c)* linear accelerators and *(d)* positron emission tomography scanners have been available for use in the NHS in each year since 2000. [174776]

Mr. Bradshaw: The Department does not collect this data centrally. Such data as are available from the Health Protection Agency (HPA) is shown in the following table. Data for positron emission tomography scanners are unavailable.

Modality	*Installed base at January 2000*	*Installed base November 2007*
Computerised Tomography	285	395
Magnetic Resonance Imaging	182	285
Linear accelerators	152	243

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* endoscopies, *(b)* non-obstetric ultrasound tests, *(c)* computerised tomography scans and *(d)* magnetic resonance imaging scans took place in the NHS in each year since 1997-98. [175106]

Ann Keen: Such information as is available is shown in the following table.

Total number of endoscopies, CT, MRI and non-obstetric ultrasound tests, England, 1997-98 to 2006-07

	Endoscopy						
	Gastroscopy	*Colonoscopy*	*Flexible and rigid sigmoidoscopy*	*Cystoscopy*	*Computer tomography (CT)*	*Magnetic resonance imaging (MRI)*	*Non-obstetric ultrasound*
1997-98					1,172,656	473,074	2,884,883
1998-99					1,254,474	522,138	3,068,276
1999-2000					1,359,852	585,797	3,289,919
2000-01					1,488,752	632,594	3,430,753
2001-02					1,625,304	705,706	3,579,412
2002-03	522,186	188,584	173,140	347,412	1,767,791	786,646	3,626,903
2003-04	508,992	195,713	172,553	341,603	1,992,826	857,550	3,881,945
2004-05	488,143	203,165	175,017	331,898	2,141,652	944,935	3,949,303
2005-06	505,025	234,152	198,085	356,507	2,481,571	1,118,487	4,253,361
2006-07	537,835	272,715	211,343	366,677	2,728,119	1,257,972	4,461,490

Note:
This only includes endoscopies performed as inpatients.

Hospital Episode Statistics for Endoscopy

Urological Cancers

Mark Simmonds: To ask the Secretary of State for Health what assessment he has made of the progress made by cancer networks in implementing the Improving Outcomes Guidance for Urological Cancers; and if he will make a statement. [175510]

Ann Keen: The majority of cancer networks are expected to have fully implemented the Improving Outcomes Guidance by the end of December 2007. We will assess the exact position early this year.

In addition, the report of the 2004-07 round of cancer peer review will be published early this year. This will include information on how cancer networks were progressing with this Improving Outcomes Guidance at the time of the peer review visits.

HOME DEPARTMENT

Drugs Misuse

11. **Dr. Iddon:** To ask the Secretary of State for the Home Department if she will liaise with the Secretary of State for Health to develop a strategy to combat the misuse of prescription and over-the-counter drugs. [177768]

Mr. Coaker: The Medicines and Healthcare Products Regulatory Agency (MHRA) is an Executive agency of the Department of Health, and is responsible for monitoring the safety of all medicines in the UK, including concerns about misuse, and takes suitable action to safeguard public health when necessary.

12. **Ann Winterton:** To ask the Secretary of State for the Home Department what steps she is taking to combat drug misuse among young people. [177769]

Mr. Coaker: We have a comprehensive programme of action under way to prevent today's young people from becoming tomorrow's drug users, through:

tackling the supply of drugs;

delivery of high quality drug education and information to young people and their families; and

early intervention and treatment for those young people most at risk.

Prostitution

13. **Fiona Mactaggart:** To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of organisations which help women to exit prostitution. [177770]

Mr. Coaker: We have not made any formal assessment of the effectiveness of organisations which help women to exit prostitution, but we will be evaluating the implementation of the Government's prostitution strategy in local areas in the near future.

Developing routes out is a key element of our strategy, which provides a framework for local areas to develop their own strategies including the provision of tailored support for those involved in prostitution.

Biometric Visas

14. **Chris Mole:** To ask the Secretary of State for the Home Department if she will make a statement on the timetable for the introduction of biometric visas for people travelling to the UK. [177771]

Mr. Byrne: Our target to introduce fingerprint visas by April 2008 has been met. This has been achieved ahead of time and under budget. All applicants for a UK visa are now required to provide their fingerprints.

Human Trafficking

15. **Dr. Starkey:** To ask the Secretary of State for the Home Department what assessment she has made of when the UK will be in a position to ratify the Council of Europe convention against trafficking in human beings. [177772]

Mr. Coaker: We will ratify the Convention as soon as possible. This will be subject to the necessary domestic legislation being in place in all parts of the UK to ensure we can fully comply with the Convention.

Police Priorities

17. **Angela Watkinson:** To ask the Secretary of State for the Home Department what recent assessment she has made of the impact of targets on police priorities. [177774]

24. **Mr. Amess:** To ask the Secretary of State for the Home Department what recent assessment she has made of the impact of targets on police priorities. [177782]

Mr. McNulty: In setting our new public service agreements (published on 9 October last year) we have, as always, taken account of feedback from the police and others. The new objectives and the supporting performance framework have been designed to promote local flexibility while ensuring that the most harmful issues, like tackling more serious violent crime, are given the priority they deserve.

Data Loss

18. **Mr. Gray:** To ask the Secretary of State for the Home Department what her latest estimate is of the number of accidental data loss in her Department in the last 12 months. [177775]

Mr. Byrne: I refer the hon. Member to the review being undertaken by the Cabinet Secretary and security experts into procedures within Departments and agencies for the storage and use of data. I also refer the hon. Member to the statement of 17 December by my

right hon. Friend the Minister for the Cabinet Office on measures to improve the security of personal data.

As a result of this interim report, and in common with all departments, the Home Office will cover information assurance, including material on potential breaches, in its annual report.

Points-based Migration

19. **Chris Ruane:** To ask the Secretary of State for the Home Department what progress has been made on her plans to introduce a points-based system for migrant workers, and if she will make a statement. [177776]

Meg Hillier: The points-based system is on track to start in early Spring. Initially it will apply to highly skilled migrants who contribute significantly to the growth and productivity of the UK economy. When fully implemented it will reduce routes of entry to the UK from over 60 to five.

Neighbourhood Policing

20. **Mr. Chaytor:** To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of the implementation of neighbourhood policing. [177777]

22. **Lynda Waltho:** To ask the Secretary of State for the Home Department, what assessment she has made of the effectiveness of neighbourhood policing schemes; and if she will make a statement. [177780]

Mr. McNulty: The joint HMIC and Home Office Police Performance Assessment of the implementation of neighbourhood policing for 2006-07 awarded six forces an excellent grade and recognised 12 other forces as having improved on the previous year.

The Home Office is also conducting an evaluation of neighbourhood policing which is scheduled to end in March 2009 but a report of early findings will be published in the first half of 2008.

Gun Crime

21. **Tom Brake:** To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of the steps taken by the Government to reduce gun crime since 1997. [177779]

Mr. Coaker: We have made significant progress in efforts to reduce gun crime since 1997. We have increased enforcement operations, introduced tougher legislation and given more powers to the police and courts to deal with offenders. We are also empowering communities to take local action against guns and criminal gangs.

Antisocial Behaviour Orders

23. **Mr. Stewart Jackson:** To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of anti-social behaviour orders; and if she will make a statement. [177781]

Mr. Coaker: Three independent reports have confirmed our approach to tackling anti-social behaviour is working: Home Affairs Select Committee (2005), Audit Commission (2006), NAO (2006).

The NAO Report found that:

65 per cent. of people desisted from ASB after one intervention

85 per cent. after two

and 93 per cent. after three

We have also appointed IPSOS Mori to undertake a qualitative study investigating the circumstances in which different antisocial behaviour interventions are most effective. Antisocial behaviour orders are just one of these. This research is due to be published later this year.

John McDonnell: To ask the Secretary of State for the Home Department how many women have been served with an anti-social behaviour order (ASBO) for prostitution-related activities; and how many women have been sent to prison for breach of such an ASBO. [177014]

Mr. Coaker: Data are not collected centrally about the behaviour leading up to the granting of an antisocial behaviour order.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in each (*a*) police authority area and (*b*) criminal justice system area; how many of these have been breached; how many people received a custodial sentence for such a breach; and how many people have been taken to court for a breach. [176313]

Mr. Coaker: Police force areas and criminal justice system areas are co-terminous. Data showing the number of antisocial behaviour orders issued and breached broken down by criminal justice area are shown in the following table. Unfortunately, data on the number of orders incurring a custodial sentence for a breach, and how many people have been taken to court for a breach, are not available broken down by area. The breach rate nationally is 47 per cent. overall with 57 per cent. for juveniles and 41 per cent. for adults.

Number of antisocial behaviour orders (ASBOs) issued, breached and breaches subsequently receiving a custodial sentence as reported to the Home Office by the Court Service, 1 June 2000 to 31 December 2005

	Number of ASBOs	
CJS area	*Issued*	*Breached*
Avon and Somerset	213	103
Bedfordshire	82	32
Cambridgeshire	96	34
Cheshire	208	90
Cleveland	115	74
Cumbria	115	68
Derbyshire	125	51
Devon and Cornwall	177	53
Dorset	77	51
Durham	96	71
Dyfed Powys	35	16
Essex	149	81
Gloucestershire	68	41
Greater London	1,163	463

Number of antisocial behaviour orders (ASBOs) issued, breached and breaches subsequently receiving a custodial sentence as reported to the Home Office by the Court Service, 1 June 2000 to 31 December 2005

	Number of ASBOs	
CJS area	Issued	Breached
Greater Manchester	1,227	686
Gwent	72	46
Hampshire	272	133
Hertfordshire	145	54
Humberside	236	100
Kent	159	22
Lancashire	357	176
Leicestershire	120	59
Lincolnshire	43	21
Merseyside	380	136
Norfolk	117	45
Northamptonshire	84	9
Northumbria	302	131
North Wales	168	77
North Yorkshire	91	41
Nottinghamshire	255	109
South Wales	147	59
South Yorkshire	245	132
Staffordshire	170	67
Suffolk	165	65
Surrey	110	48
Sussex	245	121
Thames Valley	162	70
Warwickshire	87	48
West Mercia	231	103
West Midlands	776	373
West Yorkshire	692	384
Wiltshire	52	28
England and Wales	9,749	4,368

[1] ASBOs may be issued in one area and breached in another. Breaches are counted in this table on the area of ISSUE.

[2] Breach data from the magistrates court administrative systems in Kent and Northamptonshire are known to have been under-reported.

Notes

1. On the occasion of the severest sentence received. Custodial sentences for breaching an ASBO may have been given concurrently with custodial sentences for other offences for which the person was found guilty.

2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Sources:

Issued - As reported to the Home Office by the Court Service.

Breached - OCJR Court Proceedings Database.

Alcoholic Drinks: Crime

Mr. Pickles: To ask the Secretary of State for the Home Department what statistics her Department collates on alcohol-related crime in (*a*) England and (*b*) each local authority area. [176707]

Mr. Coaker: The British Crime Survey collects information on the number and proportion of violent incidents where the victim believed the offender to be under the influence of alcohol. While these statistics are published for England and Wales as a whole they are not available at local authority area level.

The Office for Criminal Justice Reform (OCJR) holds information on defendants proceeded against, found guilty and sentenced for criminal offences in England and Wales on an offenders basis. These data include information on the age of the defendants, their gender, the police force area and court where proceedings took place as well as the specific offence and statute for the offence. Alcohol offence categories collected include offences of drunkenness with and without aggravation and offences under the licensing acts. The court proceedings database does not hold specific information on offences beyond descriptions provided by the statutes under which prosecutions are brought. For example information on prosecutions for the offences of 'violent disorder' cannot identify which offences involved alcohol use.

The Home Office is also leading an evaluation of the Licensing Act 2003 on levels of crime and disorder, using a range of measures and statistics at both a national and local level. It is planned to publish the results from this evaluation in the spring.

To complement the findings of the main report, a monitoring exercise was carried out to get an indication of the change in police recorded crime statistics following the introduction of the Act. The results of this exercise were published in 'Violent crime, disorder and criminal damage since the introduction of the Licensing Act 2003', Home Office Online Report 16/07. A copy is available at:

http://www.homeoffice.gov.uk/rds/pdfs07/rdsolr1607.pdf

No statistics on alcohol-related crime are available from the police recorded crime statistics. Such offences are not specifically defined by statute and details of the individual circumstances of offences do not feature in the recorded crime data series.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department what assessment she has made of the potential for adverse physical and psychological effects, other than those included in the Guidance Notes to Animals (Scientific Procedures) Act 1986, to be experienced by animals for each of the severity bandings used to classify scientific procedures on animals; how often the procedures that fall within these bandings are reviewed; and when the last revision took place. [175621]

Meg Hillier *[holding answer 8 January 2008]:* Severity of suffering is classified in four categories: "unclassified", "mild", "moderate" or "substantial". Sections 5.40 to 5.49 of the Home Office Guidance on

the Operation of the Animals (Scientific Procedures) Act 1986 (HC321) explain how these levels are assigned and provide examples of some of the adverse effects they may entail. The current guidance was published in March 2000 following a review of earlier guidance published in February 1990. At present, we have no plans to review the guidance as a whole or to expand on the examples provided in respect of severity limits.

The severity of suffering authorised in project licences is reviewed by inspectors during visits of inspection and in discussion with licensees. Severity is also reviewed by inspectors when amendments to existing protocols are considered. In addition, a standard condition of issue requires that project licence holders report to the Secretary of State if the severity limit of a protocol appears to have been or is likely to be breached, at which point the severity of the protocol is also reviewed. One of the duties of local ethical review processes in designated establishments is also to ensure that severity is minimised throughout the duration of project licences.

Animal Housing: Security

Miss McIntosh: To ask the Secretary of State for the Home Department what guidance police provide to kennels on measures to be taken to protect kennels against the risk of attacks from the public and organisations wishing to prevent injured strays being put down. [177383]

Mr. McNulty: All police forces will give crime prevention advice through crime reduction officers to members of the public seeking assistance. This includes advice to owners of kennels who may be subject to threats of attacks from the public or organisations. In addition forces also employ officers with a specialist knowledge of domestic extremism who can provide advice on dealing with the unwelcome attention of extremist groups. They in turn have access to advice from specialist national police units such as the National Extremism Tactical Co-Ordination Unit which was set up to provide a consistent response to domestic extremism across the country.

The Government are clear that threats of attacks on individuals and businesses are unacceptable. The Government fully support a person's right to protest lawfully about activities they oppose, but is equally clear that people also have a right to be free to carry out their lawful business without fear of intimidation and violence. We therefore condemn individuals or organisations who are prepared to resort to criminal action to deliver their message.

Asylum

Mr. Randall: To ask the Secretary of State for the Home Department what estimate she has made of the number of asylum seekers who have exhausted all avenues of appeals in England in each year since 1997. [171518]

Mr. Byrne: Information on asylum decisions and appeals relating to asylum seekers in particular areas of the UK is not available since applications are for asylum in the UK and not any particular part of it (and we do not generally require asylum seekers to reside in a particular location). Also, asylum seekers can leave the UK voluntarily at any time and some do so without informing the authorities.

Information on appeal rights exhausted is published annually; information prior to 2003 is not available. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Harry Cohen: To ask the Secretary of State for the Home Department if she will consider a system of pre-paid cards for asylum seekers as an alternative to the existing vouchers. [177064]

Mr. Byrne: Destitute asylum seekers who have been assessed as eligible for asylum support receive cash on a weekly basis by presenting their application registration card at a nominated post office.

Those refused asylum whose appeal rights are exhausted and who are unable to leave the UK immediately due to circumstances beyond their control may receive support under section 4 of the Immigration and Asylum Act 1999 (IAA 1999). Section 4 support comprises self-catering accommodation with vouchers to purchase food and essential toiletries.

There are no plans to change these arrangements.

Mr. Clappison: To ask the Secretary of State for the Home Department how many (*a*) asylum seekers and (*b*) dependants of asylum seekers have been given leave to remain in the UK in each year since 1997, broken down by type of leave granted. [177338]

Mr. Byrne: Information on the annual number of asylum seekers and dependants of asylum seekers given leave to enter is available from the annual Statistical Bulletin Asylum Statistics United Kingdom. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Asylum: Newcastle

Jim Cousins: To ask the Secretary of State for the Home Department what contractual commitments for units of accommodation the Border and Immigration Agency has with (*a*) Your Homes Newcastle and (*b*) other accommodation providers in Newcastle; and how much notice is required before that figure can be altered. [169005]

Mr. Byrne: The Border and Immigration Agency (BIA) have three regional accommodation contracts providing accommodation for asylum seekers in Newcastle; two with the private sector (Kimberley Housing Group and Angel London Ltd.), and one with the public sector (North East Contract Consortium for Asylum Support). BIA does not have any contractual arrangements with Your Homes Newcastle.

The three contracts BIA has with providers in the North East contain minimum and maximum volume capacities which can be renegotiated at any time. The information is not made public due to commercial confidentiality.

Asylum: Sudan

Lynne Jones: To ask the Secretary of State for the Home Department whether Sudanese Embassy officials have conducted interviews in the UK with Sudanese asylum seekers whose appeal rights have not been exhausted or who have made a fresh claim; and if she will make a statement. [165758]

Mr. Byrne: We take great care to protect individuals who pass through our asylum system and have confidence in the quality of our decision making process. We have a clear policy that external Governments do not become involved in the re-documentation process until decisions have been made on cases. Removal of the individual should take place only once appeal rights have been exhausted and there are no other barriers to their removal.

Burglary: Schools

Annette Brooke: To ask the Secretary of State for the Home Department how many burglaries were committed on school premises in 2006; and what proportion involved theft of IT equipment. [177865]

Mr. Coaker: The information requested is not available centrally. Burglaries on school premises are recorded under the Home Office offence classification of 'Burglary in a building other than a dwelling'. As such they cannot be separately identified from other offences recorded within this classification e.g. burglaries in factories or warehouses.

Community Policing: Greater London

Andrew Rosindell: To ask the Secretary of State for the Home Department how many community police support staff have been in post in Romford since 2003; and if she will make a statement. [176793]

Mr. McNulty: Figures collected centrally relate to police community support officers (PCSOs) in the London borough of Havering since 2005. The Home Office started collecting PCSO data below police force level at this time, and these local area data relate to police basic command units (BCUs). Romford is part of the London borough of Havering BCU.

The figures appear in the following table.

Numbers of police community support officers in the London borough of Havering 2005-07

	Police community support officers (FTE)[1]
30 June 2005	41
30 June 2006	47
31 March 2007	83

[1] All figures are full-time equivalents (FTE) rounded to the nearest whole number.

Note:
Figures may not be directly comparable to the 2007 figure in the table, which is part of the Home Office's regular police personnel collection.

Control of Immigration Statistics 2006

Mr. Clappison: To ask the Secretary of State for the Home Department if she will break down by sub-category the Other category in Table 5.6, Grant of Settlement by main category and geographic region of nationality 1996-2006 of the Control of Immigration Statistics 2006; and what assessment she has made of the factors underlying the increase in this category since 1997. [177412]

Mr. Byrne: A more detailed breakdown of settlement grants by category can be found in Table 5.3 in the Command Paper "Control of Immigration: Statistics United Kingdom 2006". This publication may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html.

The significant rise in grants in the "Other" category mainly reflects a rise in grants of settlement to recognised refugees and persons granted exceptional leave to remain, including grants under measures aimed at reducing the backlog of pre-1993 asylum applications and grants due to the Family Indefinite Leave to Remain (ILR) exercise.

Departmental Consultants

Mr. Walker: To ask the Secretary of State for the Home Department what contracts her Department has with external consultants; what the total value, including all VAT and disbursements, of these contracts are for the current financial year; how long each contract lasts; and what the forecast total value is of each contract. [163817]

Mr. Byrne: The Home Department engages consultancy firms to support and augment civil servants in the delivery of a specific range of work, including large IT development programmes and, where more cost-effective, longer term service delivery programmes.

The Department's expenditure on these services is allocated across a wide range of firms, from small, specialist companies with niche expertise and few employees, to global multinational organisations offering a broad spectrum and substantial depth of consultancy expertise.

The Department awards contracts in competition according to the EU procurement directives based on value for money. The Department uses OGC framework agreements where appropriate. The use of external consultants provides the Department with specialist knowledge, skill, capacity and technical expertise that would not otherwise be available. Some expenditure is on consultants to whom we have outsourced services, such as IT.

The Department does not hold a central record of individual contracts with external consultants showing the level of detail requested. Only spend figures are held centrally. To assemble the requested details from individual records would incur disproportionate cost. The Department is able to provide the information set out as follows.

The information held by the Home Department on the total value of spend on consultancy and professional legal services from April to September and the forecasted total value for the current financial year is as follows:

£ million

	Home Office including Border and Immigration Agency	Identity and Passport Service	Total
April to September financial year 2007-08 spend			
Consultancy	35	7.6	42.6
Legal	11	0	11
Total	46	7.6	53.6
Full financial year 2007-08 forecast			
Consultancy	100	20.3	120.3
Legal	20	0	20
Total	120	20.3	140.3

Note

Figures include non-recoverable VAT and disbursements.

The information held by the Home Department on the total spend on the top, by spend, eight major suppliers of consultancy services from April to September of the current financial year is as follows:

April to September financial year 2007-08 spend	£
PA Consulting Services Ltd.	7,163,806
COI Communications	5,592,649
Deloitte and Touche	5,053,946
Fujitsu Services Ltd.	2,251,713
Detica Ltd.	1,739,042
Oracle Corporation UK Ltd.	1,650,161
Walker-Cox Ltd.	1,246,376
KPMG LLP	1,084,747

Departmental Manpower

Mr. Redwood: To ask the Secretary of State for the Home Department how many staff employed by her Department during the last 12 months have not been entitled to work in the United Kingdom. [166104]

Jacqui Smith *[holding answer 19 November 2007]:* I informed the House 17 December 2007, *Official Report*, column 966W that, as a result of prioritised enforcement action undertaken by the Border and Immigration Agency with respect to the Security Industry, one member of staff employed by a sub-contractor providing services to the Department was identified as not having the right to work within the United Kingdom. This person was immediately detained and has since been deported.

As a result of this discovery, the permanent secretary ordered a review of the immigration status and entitlement to work in the United Kingdom of over 30,000 people employed by and contracted to the Department.

This review will be completed by the end of February 2008.

Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department further to the answer of 17 December 2007, *Official Report*, column 951W, on deportation, how many of the 72,550 asylum applicants removed from the UK between April 2003 and September 2007 were *(a)* enforced removals, *(b)* persons refused entry at port within the UK and subsequently removed, *(c)* persons refused entry outside the UK at juxtaposed controls, *(d)* persons leaving voluntarily after enforcement action had been initiated against them, *(e)* persons leaving under assisted voluntary return programmes run by the International Organisation for Migration and *(f)* persons otherwise voluntarily leaving the UK. [177479]

Mr. Byrne: Between April 2003 and September 2007, 72,550 asylum applicants, including dependants, were removed, including voluntary departures. Of these, 42,325 were removed as a result of enforcement action (including voluntary departures and persons leaving voluntarily after enforcement action had been initiated against them), 14,495 were refused entry at port and subsequently removed (including cases dealt with at juxtaposed controls), and 15,730 departed under Assisted Voluntary Return Programmes run by the International Organization for Migration. These data have been rounded to the nearest five and may not sum to the overall total due to independent rounding.

These figures include management information on the breakdown of dependants of asylum applicants removed in 2003. This information has not been quality assured under National Statistics protocols and should be treated as provisional.

Deportation: Overseas Students

Mr. Clappison: To ask the Secretary of State for the Home Department what instructions have been given to immigration officers on the deportation of students who overstay their visas; what assessment she has made of the effectiveness of enforcement measures in respect of student overstayers; and if she will make a statement. [177399]

Mr. Byrne: A person who stays in the United Kingdom (UK) beyond the time limit specified by his/her leave, an overstayer, is liable to administrative removal under section 10 of the Immigration and Asylum Act 1999. The Operational Enforcement Manual (OEM) provides guidance and information for officers dealing with enforcement (after entry) immigration matters. Chapters 10 and 11 of the OEM specifically deal with persons liable to administrative removal under section 10 and administrative removal procedures respectively.

A copy of the OEM is available to view in the House Library and on the Border and Immigration Agency website at:

http://www.ind.homeoffice.gov.uk/sitecontent/documents/oem/oemsectionb/

Intelligence-led operations are conducted every day of the week across the country to detect and remove those people who have breached UK immigration laws and in 2006 we removed over 63,000 people altogether, including amongst others failed asylum seekers and overstayers.

Driving Offences: Surveillance

Mr. Amess: To ask the Secretary of State for the Home Department what plans she has to use the photographs taken by surveillance cameras to *(a)* detect and *(b)* prosecute those seen committing an offence under (i) section 14 of the Road Traffic Act 1988 and (ii) the Road Vehicles (Construction and Use) (Amendment) (No.4) Regulations 2003; what recent representations she has received on the issue; and if she will make a statement. [177577]

Mr. Coaker: How the offences are enforced and what evidence it is helpful and appropriate to put forward are matters for the police and the prosecuting authorities.

Failure to wear a seat-belt is recognised in the national Roads Policing Strategy as one of the key behaviours contributing to road casualties and there is a specific commitment to address it. We recognised the danger inherent in using a mobile phone while driving by increasing the penalty for the offence in the Road Safety Act 2006. This is a matter on which we regularly receive correspondence.

Entry Clearances

Mr. Paul Goodman: To ask the Secretary of State for the Home Department (1) what percentage of decisions on applications for *(a)* extension of stay and *(b)* indefinite leave to remain were made within 13 weeks in each year since 2001; [173958]

(2) how many *(a)* applications for and *(b)* decisions on (i) extension of stay and (ii) indefinite leave to remain there were in each year since 2001. [173967]

Mr. Byrne: Service standards were introduced during 2004. Charged and non-charged turnaround performance for 2004-05, 2005-06 and 2006-07 is published on the BIA website under making an application—service standards.

The requested statistics on decisions on (i) extension of stay and (ii) indefinite leave to remain (settlement) are shown in the following table.

This information is published annually in the yearly Command Paper "Control of Immigration: Statistics United Kingdom". This publication may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html.

n/a not applicable.

[1] Excludes dependants of principal applicants, asylum related decisions and withdrawn applications.

[2] Includes nationals of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia before 1 May 2004, but excludes them from this date.

[3] Excludes the outcome of appeals.

[4] Includes writers and artists.

[5] Includes investors and innovators.

[6] Includes unmarried partners.

[7] Revised.

[8] Provisional.

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the letter of 17 December 2007 from the chief executive of the Border and Immigration Agency to the Home Affairs Committee, when the criteria used to determine the

grant of leave to remain to foreign nationals was adopted; and what means were used to publicise them. [177363]

Mr. Byrne *[holding answer 10 January 2008]*: All decisions are made on a case by case basis under existing law and policy. The Border and Immigration Agency's website provides details of the policy and guidance that staff follow. We publish this information as part of our commitment to freedom of information.

Entry Clearances: Employment

Mr. Clappison: To ask the Secretary of State for the Home Department further to the answer of 11 December 2007, *Official Report*, column 481W, on entry clearances: employment, how many non-EU citizens have obtained leave to *(a)* remain and *(b)* enter the UK under the categories of (i) the International Graduate Scheme, (ii) Innovator, (iii) working and the (iv) Gap Year Students Highly Skilled Migrant Programme in each year since the scheme began. [175266]

Mr. Byrne *[holding answer 18 December 2007]*: The following table shows the number approvals of leave to remain and leave to enter the UK for overseas nationals under the categories of the International Graduate Scheme, Innovator, Working Holiday Maker, Work Permits, Gap Year Students and Highly Skilled Migrant Programme for each year for which data are available.

The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

	Leave to enter—out of country	*Leave to remain—in country*	*Grand total*
Gap year entrant			
2004	415	20	435
2005	795	45	840

[1] Scheme started in May 2007.
[2] Including members of groups.

Notes:
1. The data in this publication are based on Management Information, are provisional and may be subject to change.
2. The data are not National Statistics.
3. Figures are rounded to nearest five.
4. Because of rounding, figures may not add up to totals shown.

Entry Clearances: Iraq

Mr. Andrew Smith: To ask the Secretary of State for the Home Department how many Iraqi *(a)* interpreters and *(b)* other employees of the British armed forces have been granted admission to the UK. [167943]

Mr. Byrne *[holding answer 27 November 2007]*: No Iraqi interpreters or other employees of the British armed forces have yet been granted admission to the UK under the scheme of assistance for locally engaged Iraqi staff that was announced by the Prime Minister on 8 October, and which was outlined in more detail by the Foreign Secretary in his written ministerial

statement of 30 October. Employing Departments are in the process of confirming eligibility for the scheme from those applicants who have expressed an interest and we are working to ensure suitable reception arrangements are in place for their arrival. We anticipate the first admissions to the UK will take place in late January.

Information on how many interpreters or other employees of the British forces have been granted admission to the UK outside this scheme is only available at disproportionate cost.

Frontiers: Northern Ireland

Mr. Paterson: To ask the Secretary of State for the Home Department (1) whether there are plans to establish border controls between Northern Ireland and the Republic of Ireland; [168401]

(2) what contribution the Irish government makes to the Common Travel Area. [168409]

Mr. Byrne: There are no fixed controls on either side of the land border and there is no intention of introducing such controls in the future for political and practical reasons.

Since 1997, Ireland has maintained an immigration control on non-CTA nationals arriving directly from the UK by air and sea. British and Irish passengers are only required to show an acceptable form of photo-identification to prove their nationality and exempt them from immigration control. Irish Garda National Immigration Bureau work collaboratively with UK border agencies and run regular intelligence-led operations to counter immigration risks to the intra CTA borders. These joint operations have successfully prevented non-CTA nationals attempting to cross the boundary illegally in both directions.

Frontiers: Security

Mr. Paterson: To ask the Secretary of State for the Home Department what the implications are of an e-borders system circumscribing Great Britain for travel between mainland Britain and Northern Ireland; and what documents will be required under the proposed e-border system for travel between Britain and Northern Ireland. [168443]

Mr. Byrne: The police service already screens passengers travelling between Northern Ireland and the mainland and there are no plans to introduce passport controls for those travelling on domestic journeys.

Section 14 of the Police and Justice Act 2006 introduced a new power that will allow the police to capture passenger, crew and service information on air and sea journeys within the United Kingdom. The intention is that the power will be brought into force by secondary legislation in 2008. The specific police requirements under this power, which will include details of the routes affected and data required, are still under discussion within Government. Once the proposals have been finalised they will be subject to a 12-week public consultation.

It is expected that this police power will only apply to air and sea routes between Great Britain and Northern Ireland. Passengers will not be required to use passports, but may be required to produce one of several types of documentation, including passports, when travelling, to enable the carrier to the meet the requirements of a police request.

Illegal Immigrants: Employment

Keith Vaz: To ask the Secretary of State for the Home Department how much revenue was received in fines from employers who knowingly gave a job to an illegal immigrant in *(a)* 2005, *(b)* 2006 and *(c)* 2007. [169705]

Mr. Byrne: Under section 8 of the Asylum and Immigration Act 1996 it is a criminal offence to employ a person, aged 16 or over, who is subject to immigration control and who is not entitled to work in the UK or to undertake the employment in question. Prosecution statistics for section 8 collated by the Border and Immigration Agency do not distinguish between cases involving employers convicted because they simply failed to carry out specified document checks and those cases in which employers were found knowingly to have acted in contravention of the 1996 Act and lost their statutory defence against conviction.

Information is available on total fines imposed by the courts following conviction for the section 8 offence. In 2006, the total amount imposed in fines by the courts under section 8 was £25,570. In 2007 (up to and including 30 November 2007), the total amount imposed by the courts was £41,623. The Border and Immigration Agency's crime management information database was established on 1 April 2006 and figures from before this date are not available. These figures represent management information which is updated on a daily basis and may be subject to change. These figures represent prosecutions instigated by investigators in the Enforcement and Compliance Directorate of the Border and Immigration Agency only.

Mr. Evans: To ask the Secretary of State for the Home Department how many illegal immigrants have been found to be employed by her Department in 2007. [173383]

Jacqui Smith *[holding answer 11 December 2007]:* I informed the House—17 December 2007, *Official Report*, column 966W—that, as a result of prioritised enforcement action undertaken by the Border and Immigration Agency with respect to the Security Industry, one member of staff employed by a sub-contractor providing services to the Department was identified as not having the right to work within the United Kingdom. This person was immediately detained and has since been deported.

As a result of this discovery, the permanent secretary ordered a review of the immigration status and entitlement to work in the United Kingdom of over 30,000 people employed by and contracted to the Department.

This review will be completed by the end of February 2008.

Immigration Controls

Damian Green: To ask the Secretary of State for the Home Department for which compliance offences by sponsors of migrants her Department plans to seek *(a)* civil penalties and *(b)* prosecution. [172965]

Mr. Byrne: The employment of an illegal migrant worker who does not have leave to enter or remain in the United Kingdom, or is not permitted to undertake the employment in question, may make an employer liable for payment of a civil penalty or prosecution under the new measures in the Immigration, Asylum and Nationality Act 2006, which will come into force on 29 February 2008. The law on preventing illegal migrant working in the United Kingdom (UK) applies to all UK employers, whether or not they are licensed to sponsor migrant workers.

Employers who are on the points based system register of licensed sponsors will face alternative sanctions for failing to comply with their responsibilities, as set out in the statement of intent for sponsorship under the points based system. For instance, non-compliant sponsors may and in some cases must have their licence withdrawn or downgraded from being an A-rated sponsor to being a rated sponsor. If an employer who is also a sponsor is found to have employed illegal migrants that will be taken into account in reviewing their sponsorship status.

Damian Green: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of organisations that are likely to be B-rated when her Department begins to license organisations for the sponsorship of migrant workers; and if she will make a statement. [172974]

Mr. Byrne: The criteria for B-rated sponsors have clearly been set out in the Statement of Intent. However, it is not possible to predict accurately sponsor behaviour and hence the number of organisations that will be B-rated.

Immigration: Crime

Greg Clark: To ask the Secretary of State for the Home Department how many people were detained for suspected immigration offences in each of the last 10 years. [177038]

Mr. Byrne: The requested information is not available.

The Home Office publishes a quarterly snapshot of people detained solely under Immigration Act powers on the last Saturday of each quarter starting from the third quarter of 2001. These data exclude persons detained in police cells and those detained under both criminal and immigration powers.

Statistics on persons recorded as leaving detention solely under Immigration Act powers during 2005 and between January and September 2006 have also been published.

The number of prisoners detained awaiting trial for immigration offences is not available because the offences are not recorded centrally to this level of detail.

Copies of these publications may be found in the quarterly asylum web pages and in the annual statistical bulletin Asylum Statistics United Kingdom and the Control of Immigration: Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Immigration: Hillingdon

Mr. Randall: To ask the Secretary of State for the Home Department what steps she is taking to remove asylum seekers who have exhausted all appeals in the London Borough of Hillingdon. [171115]

Mr. Byrne: The removal of asylum seekers who have exhausted all appeals remains a priority for the Border and Immigration Agency across the United Kingdom. We are committed to clearing, by July 2011, the backlog of unresolved electronic and paper asylum records within the Border and Immigration Agency.

Since 5 March 2007, regional asylum teams have managed all new asylum claims under an end-to-end case ownership process. Asylum case owners in West London are working with all of their local authorities, including Hillingdon, to manage cases through to integration or removal. The asylum teams have a target of 40 per cent. of cases to be concluded within six months by December 2007.

Immigration: Manpower

Mr. Clappison: To ask the Secretary of State for the Home Department how the caseworkers for the immigration legacy exercise were recruited and on what basis; and if she will make a statement. [177353]

Mr. Byrne: Permanent members of staff deployed as caseworkers in the case resolution directorate of the Border and Immigration Agency have been selected on merit through fair and open competition and in accordance with the Civil Service Commissioners' Recruitment Code.

Migrant Workers

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what checks are carried out by her Department into the nationality and immigration status of job applicants before offers of employment are made; and if she will make a statement. [177861]

Jacqui Smith: Potential Home Office employees who are UK citizens may demonstrate their identity in a variety of ways in accordance with central guidance promulgated by the Cabinet Office; for example, by presenting a passport, current UK photo driving license or birth certificate. Electronic and paper records held by the Department and its agencies are also used to help validate the evidence supplied by the applicant. Where an applicant is not a UK citizen, the

Department undertakes checks to demonstrate that the individual is lawfully in the UK and entitled to work in the UK.

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what checks employers are expected to carry out on the nationality and immigration status of job applicants before offers of employment are made; and if she will make a statement. [177862]

Jacqui Smith: Employers are advised to see, copy and retain the copy of specified document(s) belonging to prospective employees that demonstrate that they are entitled to undertake the employment in question. Such action provides a statutory defence against a conviction for the offence of employing an illegal migrant worker under section eight of the Asylum and Immigration Act 1996. The employer must also satisfy himself that the document(s) belong to the holder.

Such document(s) are issued or endorsed by the UK Government or issued by another Government and demonstrate that the individual is lawfully in the UK and entitled to undertake the work in question. Some documents, such as a full UK birth certificate, will only provide a statutory defence when produced in combination with other documents such as an appropriately documented permanent national insurance number.

Employers are advised to undertake these checks on every prospective employee. An individual's race, ethnicity or religion is no indication of their right to work here and employers have a legal duty under race relations legislation to avoid unlawfully discriminating on racial grounds.

Migrants: English Language

Mr. Clappison: To ask the Secretary of State for the Home Department what the pass rate was of those taking the *(a)* English language test and *(b)* Life in the UK test with a view to obtaining UK citizenship in each year since these requirements were introduced; and how many people (i) took and (ii) passed these tests in each year, broken down by nationality. [162957]

Mr. Byrne: The English Language tests are provided by a variety of further education, adult and community colleges across the UK and information on the numbers taking these courses and the pass rate for these courses is not available.

The Knowledge of Life (KOL) test was introduced in November 2005 for citizenship applicants. The overall pass rate since the test was introduced is 67.5 per cent. A breakdown of the numbers taking the test for each year with a view to applying for citizenship is as follows:

During 2005 (October to December), 7,398 took the test, 5,249 passed (71 per cent.) and 2,149 failed.

During 2006, 155,877 took the test, 105,402 passed (67.6 per cent.) and 50,475 failed.

During 2007 (January to October) 195,319 took the test, 131,549 passed (67.4 per cent.) and 63,770 failed.

The aforementioned information is based on the information provided by applicants when taking their test. In April 2007 the Home Office extended the Knowledge of Life test to those applying for settlement in the UK. Some applicants who intended to apply for citizenship may have in error selected settlement as the reason for taking their test.

The pass rates for different nationalities are set out in the tables placed in the House Library. This information is based on the nationality selected by applicants when taking their test. Some applicants through human error may select the wrong nationality.

Mr. Chanceless Takaruva

Rosie Cooper: To ask the Secretary of State for the Home Department what the residency status is of Mr. Chanceless Takaruva and his family, residents of Skelmersdale, West Lancashire (Home Office ref: T1095080). [178930]

Mr. Byrne: I refer my hon. Friend to the answer given on 7 January 2008, *Official Report*, column 287W.

National Asylum Support Service and the Border and Immigration Agency

Jim Cousins: To ask the Secretary of State for the Home Department how many *(a)* people and *(b)* units of accommodation were supported by the National Asylum Support Service and the Border and Immigration Agency in the City of Newcastle through (i) the city as housing provider and (ii) other providers in each quarter of (A) 2005, (B) 2006 and (C) 2007. [172045]

Mr. Byrne *[holding answer 6 December 2007]:* The statistics relating to asylum seekers in receipt of support are published on a quarterly and annual basis. Copies of the reports are available in the House of Commons Library and on the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Further breakdowns of those in receipt of support from Borders and Immigration Agency, by parliamentary constituency, are also available from the Library of the House.

The total number of cases supported in accommodation in Newcastle upon Tyne at the end of each of the relevant quarters split between cases accommodated by North East Consortium for Asylum and Refugee Support (NECARS) and by other providers. The City of Newcastle is the consortium provider in Newcastle upon Tyne. These data are in the following table.

Quarter	*Other*	*NECARS*
2005		
Q1	350	340
Q2	300	320
Q3	260	300
Q4	200	310

2007		
Q1	370	350
Q2	410	350
Q3	320	530

Offenders

Miss Widdecombe: To ask the Secretary of State for the Home Department how many people were convicted under the Hunting Act 2004 in *(a)* 2005 and *(b)* 2006, broken down by police force area. [177950]

Mr. Coaker: Data showing the number of defendants proceeded against, found guilty, cautioned and fined under the Hunting Act 2004, broken down by police force area, are in the following below table.

Number of defendants proceeded against at magistrates' courts, found guilty at all courts and fined, and the number of offenders cautioned by the police of offences under the Hunting Act 2004, England and Wales, by Police force area[1, 2, 3, 4]

Police force area	Proceeded against	Found guilty	Fined	Cautioned
2005				
Merseyside	1	1	1	1
Northumbria				
Thames Valley	2	2	2	
Total	3	3	3	1
2006				
Cheshire	2	2	2	
Durham	1			
Essex	4	3	3	
Humberside	4			
Total	11	5	5	0

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] The Hunting Act 2004 came into force in February 2005.
[4] Where police forces are not listed assume a nil figure.

Offenders: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department what estimate she has made of the average cost of returning a non-UK prisoner to serve his or her sentence in their home country. [177454]

Mr. Hanson: I have been asked to reply.

Under existing international prisoner transfer agreements to which the UK is a party, the cost of repatriating a prisoner and his continued detention following transfer is a matter for the state to which the prisoner is transferred.

Mr. Malins: To ask the Secretary of State for the Home Department whether records are kept or exist of the number of judicial recommendations for deportation of convicted criminals each year. [177871]

Maria Eagle: I have been asked to reply.

Her Majesty's Court Service maintains a central database of completed criminal proceedings in the Crown court. This contains a record of judicial recommendations for deportation made in relation to defendants in these proceedings.

Defendants with judicial recommendations for deportation in the Crown court, 2002-06

	Number
2002	1,073
2003	889
2004	935
2005	1,439
2006	1,882

Opium: Licensing

Mr. Frank Field: To ask the Secretary of State for the Home Department how many licences have been issued for growing poppies for medical purposes; and in which counties growers are licensed. [178025]

Mr. Coaker: The growing of opium poppies for medical purposes is not licensed under either international law, via the 1961 UN Single Convention on Narcotic Drugs, or domestic law, via the Misuse of Drugs Act 1971. Control arrangements in other growing countries are not known.

Passports: Lost Property

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department how many UK passports issued in Belfast were reported as either lost or stolen in 2006. [175642]

Meg Hillier *[holding answer 7 January 2008]:* Of the total processed reports of loss or theft of a British passport in 2006, 15,316 were originally issued by the Belfast office.

Police

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* operational police officers per head of population there were in each police authority in England in each of the last five years. [172860]

Mr. McNulty: The information requested is shown in the following tables.

Police officer strength by police force area, as at 31 March 2003 (FTE)[1, 2]

Mr. Ruffley: To ask the Secretary of State for the Home Department with reference to the answer of 26 February 2007, *Official Report*, columns 1056-60W and 1072-6W, on police, if she will provide figures for 2007. [17421]

Mr. McNulty: The management of the police estate and allocation of resources are matters for each police authority and the chief officer, who are responsible for assessing local needs.

Latest published statistics on police officer numbers can be found in the Home Office Statistical Bulletin (no 13/07) "Police Service Strength, England and Wales, 31 March 2007". A copy has been placed in the Library. It is also available on the Home Office website at:

www.homeoffice.gov.uk/rds/pdfs07/hosb1307.pdf

Mr. Ruffley: To ask the Secretary of State for the Home Department which police forces use mobile police stations; if she will take steps to require such forces to provide more (*a*) officers on the beat and (*b*) high speed police cars; and if she will make a statement. [176066]

Mr. McNulty: The management of the police estate and allocation of resources are matters for each police authority and the chief officer, who are responsible for assessing local needs.

Mr. Hollobone: To ask the Secretary of State for the Home Department what estimate she has made of the number of police posts which have been civilianised in (*a*) Northamptonshire and (*b*) England since the publication of Building Communities, Beating Crime in November 2004. [177918]

Mr. McNulty: Between September 2004 (the nearest date to the White Paper "Building Communities, Beating Crime") and March 2007 police officer numbers in Northamptonshire increased by 17 (+1.3 per cent.) to 1,281. For England officer numbers have increased during the same period by 1,617 (+1.2 per cent.) to 132,474.

Police Stations: Closures

Mr. Spring: To ask the Secretary of State for the Home Department how many police stations closed in (*a*) Suffolk and (*b*) the east of England in each year since 1997. [175720]

Mr. McNulty: The management of the police estate and allocation of resources are matters for each police authority and the chief officer, who are responsible for assessing local needs.

Police: Expenditure

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will rank police forces in order of expenditure per thousand population in each police force area. [176060]

Mr. McNulty: Police expenditure is determined by each authority within funding by grant and council tax. Government general grant is determined by formula which takes account of a number of factors, not just population.

Information on police authority expenditure and population are set out in the following table:

Police authority total gross revenue expenditure and population 2007-08

Police authority	*Total gross revenue expenditure (£000)*	*Police estimate at June 2007 (Thousand)*
Avon and Somerset	281,060	1,546,800
Bedfordshire	103,959	582,600
Cambridgeshire	128,665	732,900
Cheshire	187,702	1,000,400
City of London	86,884	327,200
Cleveland	138,836	546,700
Cumbria	112,257	502,900
Derbyshire	172,336	989,300
Devon and Cornwall	288,259	1,629,400
Dorset	127,657	709,700
Durham	129,388	599,000
Dyfed-Powys	98,342	504,500
Essex	289,052	1,665,000
Gloucestershire	115,575	577,400
Greater Manchester	612,035	2,547,700
Gwent	122,204	555,200
Hampshire	324,382	1,800,000
Hertfordshire	192,476	1,056,700
Humberside	182,196	887,500
Kent	316,396	1,634,400
Lancashire	287,976	1,451,800

Lincolnshire	108,166	696,500
Merseyside	355,662	1,355,000
Metropolitan Police	3,341,236	7,500,000
Norfolk	156,716	833,700
North Wales	145,150	674,000
North Yorkshire	147,613	768,700
Northamptonshire	124,424	658,200
Northumbria	317,695	1,385,100
Nottinghamshire	205,545	1,038,300
South Wales	268,595	1,224,500
South Yorkshire	264,662	1,285,600
Staffordshire	191,039	1,050,700
Suffolk	115,994	692,100
Surrey	205,514	1,083,500
Sussex	291,233	1,517,400
Thames Valley	394,881	2,152,000
Warwickshire	94,891	534,500
West Mercia	208,807	1,191,700
West Midlands	680,058	2,590,000
West Yorkshire	465,867	2,125,000
Wiltshire	112,539	630,600

Source:
CIPFA Police Statistics 2007-08 Estimates

Police: Firearms

Mr. Lansley: To ask the Secretary of State for the Home Department under what circumstances and on whose authority police officers may use hollow-point dum-dum bullets; what assessment she has made of whether use of such bullets is compatible with the UK's international obligations; and if she will make a statement. [177207]

Mr. McNulty: It is for chief officers to decide what ammunition and weapons are appropriate to use in order to meet their own operational requirements, subject to the general law that use of force by the police must be reasonable in the circumstances.

Police: Greater London

Andrew Rosindell: To ask the Secretary of State for the Home Department how many police officers have been in post in the London Borough of Havering since 1997; and if she will make a statement. [176794]

Mr. McNulty: While the Home Office has collected police officer data at police force area level since 1997, it only started collecting police officer data at a more local level, namely police basic command units (BCUs), in 2003. For this reason we can only provide figures for Havering (a Metropolitan police BCU) from 2003, and they appear in the following table.

Number of police officers in the London borough of Havering 2003-07

As at 31 March each year	*Police officers (FTE)*[1]
2003	340
2004	343
2005	383
2006	380
2007	383

[1] All figures are full-time equivalents (FTE) rounded to the nearest whole number.

Police: ICT

Mr. Ruffley: To ask the Secretary of State for the Home Department (*a*) how many and (*b*) what percentage of (i) police stations and (ii) police forces had livescan units, in each year since 1997. [176055]

Mr. McNulty: Information relating to the number, and the percentage, of police forces with Livescan in each year since 2001 is available and is contained in the following table:

	Number of police forces with Livescan	Percentage of police forces with Livescan
2001	17	34.50
2002	31	63
2003	33	67.70
2004	39	81.40
2005	39	81.40
2006	43	100
2007	43	100

Mr. Ruffley: To ask the Secretary of State for the Home Department what assessment she has made of the (*a*) reliability and (*b*) effectiveness of headcam technology in tackling crime, if she will make resources available to make this technology more widely available to the police, and if she will make a statement. [176301]

Mr. McNulty: A number of police forces have participated in trialling head cam (or 'body-worn video device') technology. This exercise was completed in April 2007 and a report, capturing the learning from the trials and providing other advice, was made available to the police service in July 2007.

In addition, all police forces will benefit from a £3 million Government investment in the current financial year for the procurement of 'body- worn video device' devices. This is in recognition of the potential for delivering operational and efficiency gains associated with this kind of technology. The wider roll-out of this body-worn video technology will be fully evaluated later this year.

Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department on how many occasions since 2 May 1997 her Department has issued a correction to police numbers statistics. [176298]

Mr. McNulty: No official records are kept of all corrections to police numbers statistics since 1997. Corrections are however rare and usually occur only after corrected data have been supplied from individual forces. If corrections of errors are required the National Statistics protocols on errors and revisions are followed.

Where the error is significant, in that the resultant change would qualify or contradict the conclusions that would previously have been drawn from the data, the protocols would require that Home Office would amend the electronic version of the release as soon as possible and include a prominent alert on the website to notify users of the change.

On only one occasion since 1997 has a significant error occurred to police numbers statistics. The statistical bulletin on Police Service Strength in England and Wales for 30 September 2000 was re-printed after one large police force notified the Home Office of large corrections to its officer numbers. This was enough to affect the direction of the national trend. At the time, the bulletin was not produced electronically, but the correction was highlighted on the front page and a re-printed version issued to all subscribers, including the media.

Police: Private Finance Initiative

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how many police authorities have been provided with private finance initiative (PFI) credits for new buildings and major refurbishments, what the capital value of each such project is, how many new buildings are proposed within each project, and at what stage they are in the PFI procurement process; [176304]

(2) which private finance initiative projects are (*a*) under way and (*b*) under consideration in each police force area in England and Wales. [176310]

Mr. McNulty: The following table lists all forces that have Home Office supported PFI projects either operationally in use or in construction.

Police force	Project	Equivalent capital cost £ million	Current status	Number of new buildings	Number of refurbished buildings
Cheshire	Force headquarters	35	Operational	1	0
Cheshire	Centralised custody suites	17	Operational	3	0
Cleveland	Action stations	29	Operational	4	0

Wiltshire	Divisional headquarters and satellite facilities	19.6	Operational	1	0
Wiltshire	Air support	3	Operational		

Note: Three other forces are developing Outline Business Cases

Police: Vehicles

John Mann: To ask the Secretary of State for the Home Department how many pedestrians have been hit by police vehicles in each of the last five years; how many of these incidents have been investigated by the Independent Police Complaints Commission and what the conclusions were of each investigation. [176995]

Mr. McNulty *[holding answer 9 January 2008]*: Responsibility for the collation and publication of studies and statistics relating to road traffic incidents involving police vehicles rests with the Independent Police Complaints Commission.

Police: Volunteers

Mr. Ruffley: To ask the Secretary of State for the Home Department what steps she has taken to support volunteers who work for the police, with special reference to staffing police stations. [176063]

Mr. McNulty: Non-uniformed volunteers make a very useful contribution to the work of the regular police service in that they are able to undertake a multitude of tasks which help free officers for frontline operational duties. They can often bring with them a range of specialist and unique skills that may not be readily available, for example, knowledge of forensic accountancy in the context of fraud investigations.

There are a number of initiatives in place to support the work of police volunteer support staff who help to staff police stations. This includes the provision of best practice guidance and awards in recognition of outstanding achievement. There are currently around 3,000 non-uniformed volunteers, and it is envisaged that this number will increase through a marketing and awareness campaign.

The Special Constabulary is staffed by volunteers, but is not used to staff police stations.

Seasonal Agricultural Workers Scheme

Mr. Brazier: To ask the Secretary of State for the Home Department how many seasonal agricultural workers scheme permit-holders are believed to have defaulted and failed to return at the end of the permit period in each of the last five years. [163620]

Mr. Byrne *[holding answer 15 November 2007]*: The information requested is not available.

All allegations of employment abuse are treated seriously.

Hugh Robertson: To ask the Secretary of State for the Home Department if she will ensure that the Seasonal Agricultural Workers Scheme continues to recognise the distinction between migrants entering the UK and students gaining work experience in this country as part of their higher education courses before returning to their countries of origin. [165644]

Mr. Byrne *[holding answer 19 November 2007]*: From 2008, the Seasonal Agricultural Workers Scheme will make no distinction between migrants entering the UK and students gaining work experience.

This distinction has been removed in order to ensure that while applications are accepted only from Romania and Bulgaria, in line with our obligations under EU law, there is a sufficient labour pool for SAWS operators to meet the SAWS quota.

In 2007, only 40 per cent. of the SAWS quota need be filled by applications from Romanian and Bulgarian workers, recognising the commitments some operators had made prior to announcement of the decision to restrict access to the scheme. In 2008, the SAWS quota will be 16,250, and applications will only be accepted from Romania and Bulgaria.

Written Questions

Mr. Clappison: To ask the Secretary of State for the Home Department when she expects to answer question 162141, tabled by the hon. Member for Hertsmere on 6 November, on non-EU citizens. [171129]

Mr. Byrne: I answered the hon. Members' previous question on 11 December 2007, *Official Report*, column 481W.

Mr. Clappison: To ask the Secretary of State for the Home Department when she expects to answer question 162345, tabled by the hon. Member for Hertsmere on 6 November, on the Worker Registration Scheme. [171130]

Mr. Byrne: I refer the hon. Member to the answer given on 11 December 2007, *Official Report*, column 481W.

Mr. Clappison: To ask the Secretary of State for the Home Department when she expects to answer question 162352, tabled by the hon. Member for Hertsmere on 6 November, on highly skilled workers. [171131]

Mr. Byrne: I refer the hon. Member to the answer given on 8 January 2008, *Official Report*, columns 453-54W.

Mr. Clappison: To ask the Secretary of State for the Home Department when she expects to answer question 162672, tabled by the hon. Member for Hertsmere on 6 November, on highly skilled migrants. [171132]

Mr. Byrne: I refer the hon. Member to the answer given on 11 December 2007, *Official Report*, columns 481-84W.

INTERNATIONAL DEVELOPMENT

Africa: Overseas Aid

Mr. Jamie Reed: To ask the Secretary of State for International Development (1) what funding his Department has allocated to support food aid programmes in developing African countries in the last five years. [176633]

(2) what funding his Department has allocated to provide safe, clean drinking water in developing African countries in the last five years; [176634]

(3) what funding his Department has allocated to support skills training in developing African countries in the last five years; [176635]

(4) what funding his Department has allocated to support AIDS and HIV education and prevention programmes in developing African countries in the last five years; [176636]

(5) what funding his Department has allocated to support health improvement programmes in developing African countries in the last five years; [176637]

(6) what funding his Department has allocated to support education programmes in developing African countries in the last five years; [176638]

(7) what funding his Department has allocated to support the development of agriculture in developing African countries in the last five years. [176639]

Mr. Thomas: Details on the amount of DFID's bilateral expenditure in Africa spent directly in each sector over the last five years are shown in the following table. The data are not mutually exclusive.

Table 1: DFID bilateral expenditure in Africa, by sector, 2002-03 to 2006-07

£ millions

	2002-03	2003-04	2004-05	2005-06	2006-07
Total bilateral expenditure	740.7	711.8	868.0	1,139.8	1,135.0
Food aid and security	93.6	53.6	35.2	65.6	33.8
Water and sanitation	4.3	4.2	4.5	10.8	23.3
Skills development	9.2	9.8	9.4	14.0	16.3
Health	122.2	133.2	173.2	199.8	221.1
Education	104.9	106.5	125.5	136.3	157.3
Agriculture, Forestry and Fishing	37.7	37.3	41.0	34.0	31.2
HIV and AIDS	92.8	112.0	133.5	170.3	171.5

These data do not include funding in Africa delivered through DFID's multilateral assistance.

African Caribbean and Pacific Countries: EC External Trade

Mr. Clifton-Brown: To ask the Secretary of State for International Development when his Department's website will be updated in relation to the conclusion of economic partnership agreements by the 31 December 2007 deadline. [177798][1]

Mr. Thomas: The Department for International Development's website pages on Economic Partnership Agreements were updated on 10 December 2007 and again on 14 January 2008.

Departmental Correspondence

Sir Michael Spicer: To ask the Secretary of State for International Development when a reply will be sent to the hon. Member for West Worcestershire's letter, dated 22 November 2007, on the Kenyan government. [179003]

Mr. Malik: The reply to the hon. Member for West Worcestershire's letter of 22 November 2007 has been issued.

Departmental Cost Effectiveness

Dr. Cable: To ask the Secretary of State for International Development what efficiency savings projects his Department put in place under the Spending Review 2004 targets; on what date each was initiated; how much each was expected to contribute to the target; how much was saved by each; and if he will make a statement. [164153]

1. *[Official Report, 16 January 2008, Vol. 470, c. 12MC.]*

Mr. Douglas Alexander: The answers to the following parts of the above question are contained in the reply given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 30 October 2007, *Official Report*, column 1062W:

(i) the efficiency savings projects DFID put in place under the Spending Review 2004 targets;

(ii) the date each was initiated; and

(iii) how much each was expected to contribute to the target.

The savings generated by each component of the target are as follows:

£ million

Efficiency component	*Cumulative savings by end of 2005-06*	*Cumulative savings by end of 2006-07*
Increase the percentage of our country programmes spent on programme-based approaches (the target savings for this action to produce by March 2008 is £113 million)	13	15
Increase value for money from procurement (target £10 million)	6	6
Improve our bilateral project performance (target £173 million)	73	298
Increase our contribution to low income countries through EC aid (target £31 million)	21	27
Increase our support to the International Development Association (target £75 million)	0	62
Reduce our administration costs (£20 million)	0	17
Total	113	425

The administrative cost category includes targets to reduce UK-based full-time staff to 1,610 by March 2008 (from 1,907 in March 2004) and a target to relocate 85 posts from the London office to East Kilbride. We have already exceeded our relocation target and by the second quarter of 2007-08 we had reduced our headcount by 232 UK-based full-time equivalent posts (our target by end March 2008 is 297).

On the basis of efficiencies realised by the end of 2006-07 and the current rate of progress in 2007-08 we are on course to exceed our efficiency target of £420 million of sustainable efficiencies by the end of 2007-08. A further update on progress in 2007-08 will be provided in the forthcoming Autumn Performance Report.

Departmental Recycling

Mr. Pickles: To ask the Secretary of State for International Development what recycling schemes are in operation in each building operated by his Department. [176349]

Mr. Malik: The Department for International Development has recycling schemes in place at both UK offices. All paper, aluminium cans, paper cups and cardboard are segregated in house and transported to the waste depot where the contractor further separates the mixed general waste. IT equipment and furniture is given to charitable organisations.

During 2004-05 DFID changed waste contractors at both buildings. The new waste contractors guarantee they will recycle at least 75 per cent. of all our waste and they provide monthly environmental reports with detailed breakdowns of the various waste streams. Hazardous waste such as fluorescent tubes is stored securely and uplifted by specialist waste contractors.

Developing Countries: Health

Lynne Featherstone: To ask the Secretary of State for International Development when his Department will respond to Lord Crisp's Report of February 2007; and if he will make a statement. [176651]

Mr. Malik: We have worked closely with other Government Departments, in particular with the Department of Health, and with civil society and professional groups to consider the recommendations of Lord Crisp's report. The Government's response to Lord Crisp's report will be issued shortly by the Inter-Ministerial Group. The response will provide a basis for taking forward those areas of work likely to be most useful in making a sustained difference to helping meet the health needs of developing countries.

Developing Countries: Overseas Aid

James Duddridge: To ask the Secretary of State for International Development what percentage of his Department's budget was spent on budget support for developing countries through *(a)* bilateral, *(b)* multilateral, *(c)* trust fund and *(d)* other arrangements in each of the last five years. [176900]

Mr. Thomas: The following table shows what percentage of DFID bilateral poverty reduction budget support (PRBS) was delivered directly to partner governments and through trust funds over the last five years, and what proportion of DFID's total programme this represents.

Table 1: Proportion of DFID's total programme delivered as bilateral PRBS, 2002-03 to 2006-07

Percentage

	Total DFID bilateral PRBS	*Total delivered direct to partner governments*	*Total delivered through trust funds*
2002-03	6.2	6.2	
2003-04	7.8	7.6	0.3
2004-05	8.9	8.4	0.5
2005-06	10.6	10.1	0.4
2006-07	9.4	8.0	1.4

While some multilateral organisations report the proportion of their programmes delivered as general budget support, they do not report the proportion delivered as sector budget support. As such, an imputed multilateral share for PRBS cannot be calculated.

Disasters Emergency Committee: Agriculture

Mr. Gale: To ask the Secretary of State for International Development if he will hold discussions with the Disasters Emergency Committee on widening

its membership to include representatives of those working with livestock and animal welfare in emergencies in developing countries; and if he will make a statement. [177444]

Mr. Malik: Membership of the Disasters Emergency Committee, which is independent of Government, is a matter for the Committee. Its purpose is to provide humanitarian relief in overseas disasters. This can and does include help with livestock for the purpose of protecting human life, welfare and livelihoods.

Economic Partnership Agreements

Mr. Clifton-Brown: To ask the Secretary of State for International Development what the timescale is for upgrading interim Economic Partnership Agreements (EPAs) to full EPAs. [177582]

Mr. Thomas: Of the six interim Economic Partnership Agreements (EPA); four include commitments to conclude a full EPA by 31 December 2008, these are the East African Community, the Pacific, West Africa and Central Africa. The East and Southern Africa EPA aims to conclude a full EPA by 31 July 2009 and the Southern African EPA includes commitments to complete negotiations on services and investment by 31 December 2008 but will only continue negotiations on competition and public procurement when adequate capacity has been built in the region.

Mr. Clifton-Brown: To ask the Secretary of State for International Development how many of the countries which have signed an interim economic partnership agreement have expressed an interest in including the Singapore terms in any future agreement. [177668]

Mr. Thomas: All of the current Economic Partnership Agreement (EPA) signatory countries have agreed to work towards concluding a comprehensive EPA including trade related areas to which the Singapore issues belong. The Caribbean EPA already includes provisions on investment, competition, public procurement and trade facilitation. The Southern Africa, West Africa, Central Africa and Pacific EPAs all include immediate provisions on trade facilitation. The remaining Singapore issues are covered by commitments to negotiate in the future by all parties.

Mr. Clifton-Brown: To ask the Secretary of State for International Development what safeguard clauses exist to protect African, Caribbean and Pacific producers from import surges in those countries who have concluded an Economic Partnership Agreement. [177583]

Mr. Thomas: All of the signed Economic Partnership Agreements (EPAs) contain safeguard clauses which provide the EPA signatory countries with the means to protect their industries where a high volume of imports from the EU looks likely to threaten it. These safeguard measures can include an increase in customs duties and/or the introduction of tariff quotas on the products concerned. These safeguards can be introduced where the EU imports are of such volume that they threaten serious injury to the industry producing like or directly competitive products, or where the imports could cause disturbances to a sector of the economy resulting in social problems or a deterioration of the economy. All of the EPAs also contain clauses to protect infant industries, where a high volume of EU imports could threaten an emerging industry producing like or directly competitive products.

Mr. Clifton-Brown: To ask the Secretary of State for International Development what monitoring and review mechanisms exist as part of the economic partnership agreements to enable countries to make their own assessment of the impact of the agreements. [177584]

Mr. Thomas: The specific texts of the agreements and council conclusions approved in November 2007 underpin the EU's commitment to ensure that the implementation of EPAs is properly monitored. We expect the arrangements for each regional review mechanism to take shape over the next few months following further consultation and planning between EU and ACP officials.

The UK pushed strongly at the November General Affairs and External Relations Council to ensure that the conclusions' language on monitoring and review mechanisms reflected a focus on assessing the development impact of EPAs with emphasis on inclusive, participatory processes. In 2008 we will explore with other European partners how to ensure adequate national ownership, capacity and resources for effective monitoring and review mechanisms. We are also in the process of preparing specific initiatives, such as support planned to strengthen monitoring through improved statistical capacity in the Caribbean.

Mr. Clifton-Brown: To ask the Secretary of State for International Development (1) what measures his Department has put in place to assess the effect on those countries which did not conclude an economic partnership agreement by the 31 December 2007 deadline; [177655]

(2) what measures his Department has put in place to make an impact assessment for those countries that have signed (*a*) a full economic partnership agreement and (*b*) an interim arrangement. [177659]

Mr. Thomas: We recognise it is crucial to assess the economic, social and other impacts of Economic Partnership Agreements (EPAs) on the African, Caribbean and Pacific (ACP) countries which have signed up to them. Over the course of 2007, as part of ongoing plans to strengthen the content and use of impact assessment—we have had discussions with the European Commission and others, particularly on improving the Sustainability Impact Assessments which the Commission is obliged to carry out for trade-related agreements (including EPAs).

Following the launch of both the full and interim EPAs, early work is now underway within DFID and the Department for Business, Enterprise and Regulatory Reform to review the content of the

agreements and assess how they will work for development. We are working through our offices in the ACP regions, consulting with ACP governments to ascertain their views on the impact of EPAs. In the Caribbean, we are in the process of planning some focused analytical work to identify the constraints and opportunities afforded by EPAs as part of our broader engagement on regional economic integration in the area. More broadly, we will be monitoring the development of the EPA review mechanisms due to be set up in each region. Terms of reference have not yet been developed for these mechanisms but we are investigating opportunities for development partners to be involved and will be working with EU partners, including the Commission on how to ensure national ownership, capacity and resources to ensure their and effectiveness and sustainability.

Mr. Clifton-Brown: To ask the Secretary of State for International Development how the EU will ensure that agricultural exports are duty and tariff free in accordance with the terms of the interim economic partnership agreements. [177646]

Mr. Thomas: On the 20 December, EU Ministers agreed a Regulation which provides all ACP countries which had brought forward WTO compatible market access offers by 31 December 2007, with duty free quota free access for all products being imported into the EU. This Regulation is the legal means by which the duty free quota free market access offer is to be realised and provides an instruction to all EU Governments to allow the qualifying ACP country to export goods to the EU duty and quota free. The EU member state's customs authorities would then update their import entry database. Upon presentation of the appropriate documentation (in this case an EUR1 certificate) from the exporter, which will have been obtained from the Export Issuing Authority in the originating country, proving they are entitled to EPA rates, the products will be given entry into the EU country duty and quota free.

Mr. Clifton-Brown: To ask the Secretary of State for International Development what the expected gains are for the African, Caribbean and Pacific countries from the duty and quota free offer from the EU following the EU's change in rules of origin; and whether any further modifications are anticipated. [177669]

Mr. Thomas: Changes in rules of origin for those countries which have signed an Economic Partnership Agreement (EPA) will primarily benefit those with textile, clothing and fisheries industries where there have been significant relaxations. These industries will now be able to sell more of their products to the EU under the preferential arrangements, where before they would have been excluded. Further changes to rules of origin for the EPA countries are possible as it is open to these countries to request areas for further relaxation. The form that these changes will take will depend on the negotiations which take place in the coming year.

English Language

Damian Green: To ask the Secretary of State for International Development how much his Department has spent on English language classes for staff in the last year for which figures are available. [177426]

Mr. Malik: English language training for staff appointed in country (SAIC) is encouraged in many DFID offices, particularly where English is not the most common second language. For example, DFID Rwanda successfully recently ran English language lessons for SAIC, one at basic level and one at intermediate level.

It is not possible to break down our training costs, to provide the amounts spent on English language training, without incurring a disproportionate cost.

HIV Infection: Medical Treatments

Dr. Naysmith: To ask the Secretary of State for International Development what steps he is taking to support national governments to encourage the provision of co-trimoxazole to all HIV-exposed children *(a)* as a prophylaxis and *(b)* for the treatment of opportunistic infections; and if he will make a statement. [176042]

Mr. Malik: Preventing and treating opportunistic infections are vital components of caring for and treating people, including children, living with HIV. A UK-supported trial in Zambia has shown that providing cotrimoxazole to children with HIV reduced mortality by as much as 43 per cent.

DFID is in the forefront of strengthening health systems and improving access to essential drugs. Cotrimoxazole is on the World Health Organisation's essential drugs list and interventions that improve availability of essential drugs will improve access to it. Essential drugs are intended to be available within the context of functioning health systems at all times in adequate amounts, in the appropriate dosage forms, with assured quality and at a price the individual and the community can afford.

DFID is also working with governments to strengthen their distribution systems for essential drugs. In Zambia we are working with the World Bank to develop a pilot for innovative ways to improve delivery in the public distribution system.

HIV Infection: Overseas Aid

Mr. Hancock: To ask the Secretary of State for International Development if he will make it his policy to earmark at least 10 per cent. of his Department's HIV and AIDS funding for children affected by HIV in the new HIV and AIDS Strategy; and if he will make a statement. [176887]

Mr. Malik: 'Taking Action: the UK's strategy for tackling HIV and AIDS in the developing world', included the commitment to spend at least £150 million on supporting orphans and vulnerable children, out of a total commitment to spend £1.5 billion on tackling HIV and AIDS over the 2005-08 period. We are currently updating 'Taking Action'. The needs and

rights of children affected by AIDS will remain a UK priority when the updated strategy is published this year.

Kenya: Financial Institutions

Annette Brooke: To ask the Secretary of State for International Development what steps he is taking to support microfinance institutions during the political disturbances in Kenya. [177864]

Mr. Douglas Alexander: Since January 2005 the UK has supported Kenyan microfinance institutions through the multi-donor funded Financial Sector Deepening Trust (£19 million in total since inception) that aims to increase access to financial services for the poor. The trust is an independent entity overseen by a multi-stakeholder board. The trust is currently exploring setting up an emergency facility for the industry to help microfinance institutions assist in the recovery efforts in Kenya.

Kenya: Overseas Aid

Tony Baldry: To ask the Secretary of State for International Development what changes the Government plan to make to the DFID-Kenya country programme following recent events in that country; and if he will make a statement. [177880]

Mr. Douglas Alexander: In 2007-08 DFID provided 5£0 million in aid to Kenya. The UK's aid programme in Kenya is directed largely at supporting health, education and social protection for poor Kenyans, and at improving governance in the country; any suspension of the programme would inevitably have a direct and immediate negative impact on the poorest people. It is too early to make decisions about any long-term impact on our aid programme, but we are keeping the programme under review to make sure that it continues to best meet the needs of the poorest Kenyans.

The size and content of the future programme will reflect the extent to which political differences can be resolved and the extent to which we can have an effective development relationship with whatever government emerges from the current crisis.

The DFID team in Kenya are monitoring the humanitarian situation closely. We have contributed £1 million to an appeal by the Red Cross and will provide additional support if needed.

Mott MacDonald

Mike Gapes: To ask the Secretary of State for International Development in what UK aid projects Mott MacDonald have participated in the last 10 years; and if he will make a statement. [175727]

Mr. Thomas: The contracts awarded by the Department for International Development to Mott MacDonald are listed in the following table for the period April 1997 to March 2007. All contracts were awarded following standard procurement procedures. The main focus of Mott MacDonald's involvement with DFID has been in relation to the delivery of development projects to help country governments and partners to reduce poverty.

These figures do not include lower-value contracts issued by DFID's overseas offices, which could be obtained only by incurring disproportionate cost. Those showing a zero value are framework agreements, which allow individual contracts to be called down as required.

Written Answers to Questions

Tuesday 15 January 2008

SOLICITOR-GENERAL

Sentencing: Appeals

Mr. Garnier: To ask the Solicitor-General how many appeals against all sentences on the grounds of undue leniency the Attorney-General has made in each of the last five years for which figures are available. [179353]

The Solicitor-General: The Attorney-General's office publishes annual statistics on unduly lenient sentence references on its website

www.attorneygeneral.gsi.gov.uk.

The following table shows the number of offenders whose sentences were referred to the Court of Appeal as unduly lenient, the number of offenders whose references were subsequently withdrawn and the number of offenders who were therefore brought before the Court of Appeal in each of the last five years for which full statistics have been published.

	2002	*2003*	*2004*	*2005*	*2006*
Offenders referred to Court of Appeal	148	102	159	127	160
Withdrawn references	9	6	22	19	16
Offenders brought to the Court of Appeal	139	96	137	108	144

Mr. Garnier: To ask the Solicitor-General how many appeals against the minimum tariff applied in cases of indeterminate sentences for public protection on the grounds of undue leniency the Attorney-General has made in each year since that sentence became available to the courts. [179354]

The Solicitor-General: The Attorney-General's office publishes annual statistics on unduly lenient sentence references on its website

www.attorneygeneral.gsi.gov.uk.

The following table shows the number of offenders whose sentences were referred to the Court of Appeal on the basis that the minimum term attached to a sentence of imprisonment for public protection (under section 225 (3) of the Criminal Justice Act 2003) was unduly lenient in each of the years when the sentence was available to the court and for which full statistics have been published.

	Offenders referred
2005[1]	0
2006	2

[1] The legislation came into force on 4 April 2005 and applies to offences committed from that date

ELECTORAL COMMISSION COMMITTEE

Political Parties: Finance

Mr. Tyrie: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what research the Electoral Commission has conducted into local spending in constituencies by party organisations with incomes of below £25,000 a year. [177636]

Peter Viggers: The Electoral Commission informs me that, in 2004 and in 2007, it canvassed all registered accounting units to inquire as to whether their total income or gross expenditure was greater than £25,000 for the prior financial year. Those that were under this threshold were asked to confirm so in writing.

The purpose of the exercise was to confirm which accounting units should be submitting accounts to the commission and which should not. The commission has conducted no research into spending by those associations under the threshold.

Mr. Tyrie: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, pursuant to the answer of 18 December 2007, *Official Report*, column 1235W, on political parties: finance, what research the Electoral Commission initiated on the operation of the political levy and political funds by trade unions. [177700]

Peter Viggers: The Electoral Commission informs me that it plans to undertake research on the operation of the political levy and political funds and has arranged a meeting with the United Kingdom Certification Officer.

TRANSPORT

A21

Greg Clark: To ask the Secretary of State for Transport, pursuant to the answer of 25 January 2007, *Official Report*, column 1909W, on the A21, what stage the tendering process for the A21 Tonbridge to Pembury and A21 Kippings Cross to Lamberhurst improvement has reached; and if she will make a statement. [179362]

Mr. Tom Harris: The tender process began in late March 2007, with invitations to tender. These were returned in early July and assessment was completed during mid-September.

The south east regional bodies have been asked to confirm their support for these schemes on the basis of the latest cost estimates. A decision regarding award of contract for the A21 Tonbridge to Pembury and A21 Kippings Cross to Lamberhurst improvement schemes will need to take this confirmation into account.

British Rail

Frank Dobson: To ask the Secretary of State for Transport how much was paid in subsidy from the public purse to British Rail in each of the two years preceding privatisation; and how much subsidy for rail services has been paid from the public purse in each year since privatisation. [177164]

Mr. Tom Harris: This information is available in National Rail Trends which is published by the Office of Rail Regulation (ORR). Copies are available in the Library of the House and on the ORR's website at:

www.rail-reg.gov.uk

Cycling: Accidents

Mr. Scott: To ask the Secretary of State for Transport how many cyclists have been killed in accidents involving left-hand-drive heavy goods vehicles in each of the last three years for which figures are available. [179162]

Jim Fitzpatrick: The number of pedal cyclists killed in reported road accidents involving at least one foreign registered left-hand-drive heavy goods vehicle in Great Britain for 2005 to 2006 is shown in the following table.

Number of fatalities

	Number
2005	0
2006	2

This information is not available for years prior to 2005.

Departmental Recycling

Mr. Pickles: To ask the Secretary of State for Transport what recycling schemes are in operation in each building operated by her Department. [176371]

Jim Fitzpatrick: The following table details the recycling schemes currently operated in DfT buildings.

Agency/office location	*Recycling schemes*	*Comments*
Driving Standards Agency (DSA)		
Nottingham	Furniture, cardboard, paper, aluminium cans, printer and photocopier toners.	The agency is currently undertaking a review of waste disposal and is working to reduce waste and increase recycling in an environmentally responsible manner.
430 driving test centres	Varying occupancy agreements prevent us capturing this information so we are unable to supply accurate waste and recycling data at present although they are rolling out a process to capture this data for 2008-09.	
Driver Vehicle and Licensing Agency (DVLA)		
Swansea	Paper, cardboard, cans, glass, silver flake, fluorescent tubes, toner cartridges, IT equipment, kitchen oil, furniture, metal, mobile phones, compact discs, clothes, batteries, wood and wooden pallets.	In the last financial year, 2006-07 the DVLA recycled some 67 per cent. of its waste, and the emphasis now is being placed on waste minimisation.
Local offices	Paper, cardboard, IT equipment, furniture, fluorescent tubes, toner cartridges, CD's, and mobile phones.	
Government Car and Despatch Agency (GCDA)		
London	Paper, toners, tyres, oil, batteries and confidential waste.	This conforms to Environmental Monitoring Systems ISO1 4001 2004 which is individually assessed by British Standard Institute.
Highways Agency		
All offices	Paper, CD's, fluorescent tubes, hard hats, furniture and batteries.	
Bedford	Additionally, stamps, plastic milk bottle tops, mobile phones, toner cartridges, cards, laptops and cans.	
Leeds	Additionally, cardboard, plastic and cans.	
Manchester	Additionally, spectacles, mobile phones and toners.	
Dorking	Additionally, cardboard, cans, bottles and food (wormery).	
Exeter	Additionally, glass, mixed metal and plastic.	
London	Additionally, toners, mobile phones and spectacles, glass and cans.	
Birmingham	Additionally, cardboard, cans, toners and mobile phones.	
Maritime and Coastguard Agency (MCA)		
Headquarters, Southampton	MCA introduced a system of waste segregation at its HQ building in 2007 increasing levels of recycling from 25 per cent. to 40 per cent. based on the figures for 2005-06.	In line with the set targets the MCA is keen to increase recycling across its estate. However due to the small amounts of waste produced at the majority of sites making private commercial collections uneconomic the agency are currently limited to recycling at locations where the local authority offers this service.

Agency/office location	Recycling schemes	Comments
Regional sites	The agency has in excess of 500 properties and are currently in the process of establishing how many of these currently take advantage of local recycling schemes. this information is expected to take several months to collate	
Vehicle Certification Agency (VCA)		
Bristol and Leatherhead	Paper including confidential, cardboard, batteries, mobile phones, toner cartridges, cans and plastics	
Nuneaton	As above plus scrap metal	
Vehicle and Operator Services Agency (VOSA)		
Headquarters, Bristol	Paper, cardboard, cans and plastic cups	VOSA is now conducting a national waste audit to identify the streams and general quantities produced by each of its major sites. The results will enable VOSA to establish a centrally administered national waste management contract with the aim of recycling as much of the waste as possible
Regional sites	Paper, card, printer cartridges, plastics and fluorescent tubes	
Core Department		
London HQ	Paper, glass, cans, plastic bottles, toner, cardboard, spectacles, mobile phones, fluorescent tubes and IT equipment	
Air Accident Investigation Branch, Farnborough	Paper, cardboard, metals, glass, toner cartridges, waste fuels/oils and IT equipment	
Marine Accident Investigation Branch, Southampton	Paper, cardboard, plastic bottles, cans, glass, and toner cartridges	
Rail Accident Investigation Branch, Woking	Paper, cardboard, toner cartridges, batteries and CD/DVD	
Rail Accident Investigation Branch, Derby	Paper,.cardboard, toner cartridges, cans, plastics, bottles, batteries and CD/DVD	

Driving Tests

Mr. Greg Knight: To ask the Secretary of State for Transport what changes she proposes to make to the driving test; what estimate she has made of the effect that her proposals will have on the average length of time it takes a 17-year-old person to qualify for a licence; and if she will make a statement. [178431]

Jim Fitzpatrick: In February 2007 we announced a fundamental overhaul of driver training and testing. We are working to bring proposals forward for consultation and hope to publish them in due course.

Galileo

Mr. Hayes: To ask the Secretary of State for Transport if she will make a statement on final operational control arrangements for the Galileo Supervisory Authority, with particular reference to the mechanism for shutdown in time of conflict. [178205]

Ms Rosie Winterton: Galileo is a European Union programme and the European GNSS Supervisory Authority (GSA) is the EU agency that will regulate and manage the system on behalf of the Community.

Galileo will not be fully operational until 2013 at the earliest, and the final operational control arrangements within the appropriate institutional framework have yet to be decided. These arrangements are likely to be progressed during discussions on access policy for the public regulated service of Galileo, on which we expect the Commission to make proposals during 2008.

The Council of Ministers has repeatedly confirmed that Galileo is a civil programme under civil control. The operation of any navigation aid, such as Galileo, can nevertheless have security implications for member states. A Council joint action of 2004 provides that any aspects of the operation of Galileo which affect member states' security can be referred to the Council, which would take the necessary decisions—including the option of suspending normal service—by unanimity.

Metronet

Andrew Rosindell: To ask the Secretary of State for Transport what the cost has been of running Metronet since it went into administration. [176782]

Ms Rosie Winterton: In addition to their infrastructure service charge payments, the Metronet companies receive money to cover their operating deficit. The public-private partnership administrator stated in September that the net operating deficit of Metronet while in administration was £14.4 million per week, a projection of £345.5 million for six months of administration. This net operating deficit is funded by a loan provided by Transport for London.

Much of the funding for the net operating deficit simply replaces planned Metronet borrowing which would, in due course, itself have been reflected in public accounts.

Railways

Norman Baker: To ask the Secretary of State for Transport what percentage change from a 2003 baseline she has projected for (*a*) rail passenger and (*b*) rail freight mileage by (i) 2010, (ii) 2015, (iii) 2020 and (iv) 2025. [178143]

Mr. Tom Harris: The percentage change relative to 2003-04 for rail passenger miles on franchised services in England and Wales is forecast as follows:

	Percentage growth
2010-11	26
2015-16	44
2020-21	54
2025-26	70

Rail freight is a commercial business between the freight operators and Network Rail. The Department does not make forecasts of this traffic.

Norman Baker: To ask the Secretary of State for Transport what recent assessment she has made of the effects of the business practices of the rolling stock companies on the operation of the rail network. [179137]

Mr. Tom Harris: The Department for Transport made a submission to the Office of Rail Regulation on 28 June 2006 requesting that it refer the market to the Competition Commission for investigation under Section 131 of the Enterprise Act 2002.

On 26 April 2007 ORR referred the leasing of rolling stock for franchised passenger services and the supply of related maintenance services to the Competition Commission. The Competition Commission issued their emerging thinking on 19 December 2007.

For further details, I would refer the hon. Member to: www.competition-commission.org.uk/inquiries/ref2007/roscos/index.htm

Norman Baker: To ask the Secretary of State for Transport what her policy is on the sale of rolling stock by rolling stock companies to overseas customers. [179139]

Mr. Tom Harris: Rolling stock is privately owned by the rolling stock companies. Sales and rolling stock are therefore a business matter for them.

Railways: Bridges

Bill Wiggin: To ask the Secretary of State for Transport what weights bridges across railway lines are required to support. [177803]

Ms Rosie Winterton: The carrying capacity of public highway bridges crossing railways is a matter for agreement between the relevant highway authority and the bridge owner (which may be the highway authority itself).

Bill Wiggin: To ask the Secretary of State for Transport how much funding her Department has provided for the (*a*) maintenance, (*b*) repair, (*c*) rebuilding and (*d*) construction of bridges across railway lines in each year since 1997; and if she will make a statement. [177804]

Ms Rosie Winterton: The Department for Transport provides funding to Network Rail, the Highways Agency and local highway authorities to support the construction and maintenance of their networks, but does not separately identify how much of this is spent on bridges crossing railways.

Railways: Freight

Norman Baker: To ask the Secretary of State for Transport (1) if she will estimate the amount of carbon emissions from (*a*) rail and (*b*) road haulage in each year since 1990 (i) per mile and (ii) in total; [178132]

(2) if she will estimate the amount of carbon emissions from rail haulage in each year since 1990. [178142]

Mr. Tom Harris: The following tables are based on data from the national atmospheric emissions inventory and Great Britain and Northern Ireland traffic censuses. It summarises carbon dioxide emissions of diesel rail haulage and heavy goods vehicles for the years requested. The tables exclude carbon dioxide emission figures for electric rail haulage and per kilometre for diesel rail haulage which are not available in the form requested.

		1990	1991	1992	1993	1994	1995	1996	1997
Diesel rail freight	CO_2 emissions (kilotonnes)	636	610	616	547	517	529	680	673
HGVs	CO_2 emissions (kilotonnes)	22038	20943	21015	21582	23291	23971	25360	26032
HGVs	Kt of CO_2 /billion km	847	817	842	849	898	899	922	924

		1998	1999	2000	2001	2002	2003	2004	2005
Diesel rail freight	CO_2 emissions (kilotonnes)	689	724	720	772	744	752	824	824
HGVs	CO_2 emissions (kilotonnes)	26245	26032	25764	25811	26732	27220	27809	28592
HGVs	Kt of CO_2 /billion km	898	878	862	870	883	887	889	920

Road Traffic

Norman Baker: To ask the Secretary of State for Transport what the percentage change in traffic levels (*a*) on English roads and (*b*) in each county within England was for each year since 1997, taking the 1997 levels as 100 per cent. [178130]

Ms Rosie Winterton: The change in traffic levels for England and its constituent counties can be found in the following table. The change is shown as an index based on 1997.

Index of traffic growth by English counties[1] (1997 = 100)

County name	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
England	100	102	104	104	106	108	109	111	111	112
Central London	100	102	102	101	98	96	95	98	98	98
Inner London excluding Central	100	100	102	102	102	102	102	101	99	101
Outer London	100	101	104	104	104	105	105	104	105	106
Avon	100	102	105	106	108	111	112	114	115	115
Bedfordshire	100	103	104	103	104	108	110	113	113	111
Berkshire	100	102	104	105	106	109	108	108	108	109
Buckinghamshire	100	102	106	109	110	111	111	110	110	111
Cambridgeshire	100	101	104	104	106	107	109	111	111	112
Cheshire	100	102	104	105	106	106	108	110	110	113
Cleveland	100	101	104	104	106	109	110	111	110	112
Cornwall	100	101	101	102	105	110	113	115	116	117

Somerset	100	102	104	104	107	110	111	113	114	117
South Yorkshire	100	103	104	105	107	111	111	115	115	116
Staffordshire	100	101	103	103	105	107	109	112	115	116
Suffolk	100	101	103	103	105	107	109	110	110	111
Surrey	100	104	104	103	106	107	107	108	107	108
Tyne and Wear	100	101	103	103	105	108	109	110	110	110
Warwickshire	100	103	102	103	105	106	106	110	111	114
West Midlands	100	102	103	103	103	107	107	108	108	108
West Sussex	100	103	105	106	107	108	109	111	111	111
West Yorkshire	100	103	103	104	105	107	107	109	109	112
Wiltshire	100	103	103	103	104	107	109	109	112	113

[1] The counties are based on the pre-1997 boundaries.

Roads: Accidents

Mr. Hands: To ask the Secretary of State for Transport how many fatalities have been caused by road traffic accidents in London in each of the last five years, broken down by London borough, and if she will make a statement. [179287]

Jim Fitzpatrick: The number of fatalities resulting from reported injury road accidents in each London borough for 2002 to 2006 is shown in the following table:

Number of fatalities

London borough	*2002*	*2003*	*2004*	*2005*	*2006*
Westminster	15	11	9	12	13
Camden	8	5	4	2	8
Islington	8	10	2	4	2
Hackney	10	4	8	4	7
Tower Hamlets	10	6	6	8	6
Greenwich	11	7	10	8	13
Lewisham	9	11	5	6	2
Southwark	8	4	9	7	7
Lambeth	10	13	4	8	10
Wandsworth	6	10	8	4	7
Hammersmith and Fulham	4	6	6	10	6
Kensington and Chelsea	7	9	5	10	3
Waltham Forest	6	7	1	5	1
Redbridge	11	7	9	7	5
Havering	7	17	10	7	5
Barking and Dagenham	9	6	9	6	4
Newham	6	4	4	2	3
Bexley	8	4	2	6	6
Bromley	9	13	10	9	12
Croydon	13	14	11	7	6
Sutton	6	6	3	2	2
Merton	5	6	2	1	5
Kingston-upon-Thames	4	3	4	3	3
Richmond-upon-Thames	7	2	6	2	6
Hounslow	12	9	15	14	13
Hillingdon	7	5	11	8	6
Ealing	18	18	7	9	10
Brent	5	2	6	7	10
Harrow	4	9	4	3	3
Barnet	14	20	12	12	17
Haringey	12	16	3	7	8
Enfield	9	7	8	13	21
City of London	3	1	3	1	1
London total	281	272	216	214	231

Mr. Boris Johnson: To ask the Secretary of State for Transport how many road accidents resulting in the death of a cyclist were recorded in each London borough (*a*) in total and (*b*) involving cyclists under the age of (i) 11 and (ii) 16 years in each year since 2000. [179344]

Jim Fitzpatrick: A table showing the number of reported personal injury road accidents resulting in at least one pedal cyclist fatality in each London borough (*a*) in total and (*b*) involving pedal cyclist fatalities under the age of (i) 11 and (ii) 16 years in each year since 2000 has been deposited in the Libraries of the House.

Roads: Tolls

Mr. Drew: To ask the Secretary of State for Transport if she will ensure that people who have to travel regularly to hospital are exempted from road user charging under the provisions of the Local Transport Bill. [177670]

Ms Rosie Winterton: The Government believe that the detailed design of local road pricing schemes is best decided at local level. However, we have given guidance to local authorities that scheme design will need to identify at-risk groups and consider how any negative impacts on these groups could be minimised or mitigated.

The Secretary of State may already set national regulations on exemptions and discounts under the Transport Act 2000, so an amendment to the Local Transport Bill would not be necessary.

South West Trains

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 7 January 2008, *Official Report*, column 15W, on South West Trains, what percentage of the mainline express fleet class 442 rolling stock units represented before their withdrawal. [178977]

Mr. Tom Harris: Twenty four Class 442 units were taken off lease before the start of the Stagecoach South Western Trains franchise that commenced in February 2007. The class 442s represented 10 per cent. of South West Trains mainline fleet in unit number terms under the previous franchise. No class 442s ran in service under Stagecoach South Western Trains.

Transport: Crime

Mrs. James: To ask the Secretary of State for Transport what estimate she has made of the cost to the economy of assaults on staff in the (*a*) bus and coach, (*b*) rail, (*c*) shipping and (*d*) transport industry in 2007-08. [179189]

Ms Rosie Winterton: The Department has not undertaken any estimation of the costs of transport staff assaults to the economy in 2007-08. However, the Department is currently undertaking research into the costs of crime committed on public transport, and the costs of staff assaults is one of the categories being investigated within this piece of research.

Transport: Schools

Mrs. Villiers: To ask the Secretary of State for Transport what discussions she has had with the Secretary of State for Children, Schools and Families on encouraging alternatives to car use for taking children to school. [168681]

Ms Rosie Winterton: The Secretary of State for Transport is happy to provide reassurance that there have been no meetings to which the hon. Lady has not been invited with the shadow Secretary of State for Children, Schools and Families or indeed any other of her colleagues in the shadow Cabinet. The Secretary of State for Transport has met with the Secretary of State for Children, Schools and Families to discuss a range of issues, including travel to school.

Travel

Norman Baker: To ask the Secretary of State for Transport how far people living in an English (*a*) urban and (*b*) rural area travelled per person on average in 2006. [178144]

Ms Rosie Winterton: The average annual distance travelled per person living in England in 2006, based on data from the national travel survey, was 6,677 miles in urban areas and 9,971 miles in rural areas.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Wastes

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate the Government have made of the costs likely to be incurred by farmers for arranging slurry storage for six months under the proposed nitrate vulnerable zones directive; [175755]

(2) what plans the Government have to compensate farmers for the extra costs incurred in storing slurry for six months under the proposed nitrate vulnerable zones directive. [175756]

Mr. Woolas *[holding answer 7 January 2008]*: The partial regulatory impact assessment and paper 'G4—Assistance on the partial RIA including extended Nitrate Vulnerable Zones', published in support of the consultation on implementation of the nitrates directive in England, provide details of my Department's assessment of the likely cost to farmers of the proposed nitrates action programme measures. Both these papers are available to view on DEFRA's website.

These assessments estimate the likely cost to farmers of meeting the proposed manure storage requirements as in the range £19 million to £24 million per year. This is assuming that the action programme is applied within proposed nitrate vulnerable zones covering 70 per cent. of England. Costs will be higher if the decision is taken to apply the action programme to the whole of England (annualised over 20 years).

My Department has also committed £98 million (under the rural development programme) to the livestock sector, to improve competitiveness, animal welfare and on-farm management of nutrients.

Animal Welfare: Finance

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what funding his Department provided local authorities in relation to stray animals in each year since 1997; and if he will make a statement. [177656]

Jonathan Shaw: Funding for stray dogs is one of the services supported through formula grant. Formula grant, which comprises revenue support grant, redistributed business rates and principal formula police grant, where appropriate, is an unhypothecated block grant; that is, councils are free to spend the money on any service. For this reason, and due to the method of calculation, particularly floor damping, it is not possible to say how much grant has been provided for any particular service.

From 6 April 2008, local authorities will have sole responsibility for stray dogs functions under sections 149 and 150 of the Environmental Protection Act 1990. An additional £4 million per year will be funded through the revenue support grant for local authorities in England and Wales.

Stray Animals

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of stray animals in each year since 1997; and if he will make a statement. [178218]

Jonathan Shaw: No such estimate has been made.

Biodiversity

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 December 2007, *Official Report*, columns 991-2W, on biodiversity, what the form of the socioeconomic studies is; who is undertaking them; what contribution the UK is making to them; and if he will make a statement. [177331]

Mr. Woolas: There is no set form for the provision of views and case studies on the socio-economic considerations. The UK has no plans to provide a contribution and has not yet seen any contributions provided by any other parties.

Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what adjustment the Government Carbon Offsetting Fund makes for the effect of radiative forcing. [176168]

Mr. Woolas: The Government Carbon Offsetting Fund (GCOF) applies a radiative forcing multiplier of two to emission calculations of medium and long-haul air travel.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how his Department plans to encourage domestic carbon offsetting and the reduction of emissions in 2008. [177642]

Mr. Woolas: DEFRA is currently undertaking a range of activities to encourage individuals to reduce emissions.

Through the Act on CO_2 campaign DEFRA is promoting awareness of climate change and encouraging individuals and households to take action to reduce their CO_2 emissions. DEFRA continues to promote the use of the Act on CO_2 carbon calculator to help raise awareness of an individual's or household's carbon footprint.

The Government will be publishing a voluntary Code of Best Practice for Carbon Offsetting in spring 2008. Offset providers that meet the standard set out in the code will receive accredited status.

Offsetting should be set in a hierarchy of actions. The most effective way to tackle climate change is to avoid and reduce emissions. When it is not possible to avoid or reduce emissions, consumers should consider offsetting. When carried out in this context, we support the use of offsets generated by robust and verifiable mechanisms bound by international regulation.

Carbon Emissions: Government Departments

Mr. Prisk: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps he has taken to meet the target of ensuring the Central Government Office Estate is carbon neutral by 2012; [175960]

(2) what steps were taken in *(a)* 2005-06 and *(b)* 2006-07 against the objective of making the Central Government Office Estate carbon neutral. [176724]

Mr. Woolas: Reducing carbon emissions is the most important element of delivering carbon neutrality. Departments are currently working towards meeting the sustainable operations targets for the Government estate, which include a requirement to reduce carbon emissions from office energy use by 12.5 per cent. by 2010-11, relative to 1999-2000 levels and by 30 per cent. by 2020. Options for the offsetting scheme that will be required to meet the 2012 carbon neutrality target will be considered during 2008.

Between 2005 and 2007, the Carbon Trust has used some of the funding it receives from DEFRA to help numerous Government Departments reduce their carbon emissions, and financial support is available through Salix Finance, a revolving loan scheme that can be used to invest in cost-effective energy efficiency projects in the public sector.

DEFRA is working towards minimising carbon emissions and energy consumption in its buildings through retrofitting energy efficiency technologies and behavioural change initiatives. DEFRA's new Alnwick office has been designed to be the first carbon neutrally operated office building on the DEFRA estate and a true benchmark for the future.

Carbon Emissions: Small Businesses

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what initiatives have been introduced since the Bali Climate Change Conference to help small businesses reduce their carbon emissions. [177643]

Mr. Woolas: DEFRA is already grant funding the Carbon Trust (with around £90 million in 2007-08) to help businesses of all sizes reduce their carbon emissions. The trust provides a range of support to small businesses, which includes interest-free loans for approved energy saving projects, site surveys identifying energy-saving opportunities for companies with energy bills of more than £50,000 per annum, a free telephone helpline and a range of online tools and bespoke information for different business sectors. Over the last three years the trust has provided around £90 million of support to small- to medium-sized enterprises (SMEs) and in 2006-07 alone, SMEs comprised 40 per cent. of the trust's customer base and received two-thirds of the 5,000 on-site energy surveys conducted by, or on behalf of, the trust.

The Government are also currently developing options for implementing the Energy Services Directive which requires that all (except very small) energy suppliers must take action to supply or promote some form of energy efficiency or energy services to all sectors, including small businesses. Once implemented this will complement the range of carbon abatement services offered to this sector by the Carbon Trust.

Crabs: Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 December 2007, *Official Report*, column 1267W, on crabs: conservation, whether he plans to discuss *(a)* brown crab and *(b)* lobster conservation with the European Commission and his European counterparts in the next 12 months; and if he will make a statement. [177622]

Jonathan Shaw: DEFRA is in discussion with the devolved Administrations regarding brown crab and lobster conservation. Plans to discuss these issues with the European Commission and European counterparts in the next 12 months will be dependent upon the outcome of these talks with the devolved Administrations.

Departmental Public Expenditure

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the effects of the change in his Department's budget following the most recent Comprehensive Spending Review on its ability to meet its target to halt biodiversity loss by 2010; [177552]

(2) what assessment he has made of the effects of the change in his Department's budget following the most recent Comprehensive Spending Review on Natural England's work on *(a)* local biodiversity partnerships, *(b)* national trails, *(c)* bridleways, *(d)* areas of outstanding beauty and *(e)* national nature reserves; [177553]

(3) when the budget for 2008 and onwards for Natural England will be *(a)* decided and *(b)* announced. [177556]

Joan Ruddock: We are currently considering allocation of the Department's resources for 2008-09 and have started discussions with Natural England on options for its CSR budget. However, it is too early to set out what the implications will be for individual areas of work.

Securing a healthy natural environment remains a top priority and is one of my Department's two high level goals alongside tackling climate change. Natural England will be a key contributor to this work. We expect to be in a position to confirm Natural England's financial settlement for 2008-09 by the end of February 2008 and will then be working with Natural England to finalise its next corporate plan, which will set Natural England's priorities and the outcomes to be achieved.

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effects of the change in his Department's budget following the most recent Comprehensive Spending Review on *(a)* staff morale, *(b)* staff numbers, *(c)* spending programmes and *(d)* grants to non-governmental organisations, including (i) Butterfly Conservations, (ii) The Royal Society for the Protection of Birds, (iii) the Wildlife Trusts, (iv) Plantlife and (v) the Bat Conservation Trust. [177555]

Joan Ruddock: The changes to the Department's budget following the CSR settlement in October 2007 have not yet been finalised. New budgets for the CSR period will be announced before the beginning of the next financial year and until these are decided it is not possible to make an assessment of the various issues listed. The exception being on *(b)*; staff numbers, where there are no pre-determined targets across the CSR period. However, staffing levels will be kept under review to ensure that DEFRA maintains a flexible and efficient work force within its administration budget, which will be reduced by 5 per cent. in real terms per annum in common with other Government Departments.

Discovering Lost Ways

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the Discovering Lost Ways project. [178387]

Jonathan Shaw: In February 2007, Natural England approved a review of the Discovering Lost Ways project. This is a fundamental review, which is being informed by evidence collected from a series of small-scale tests and a structured programme of engagement with stakeholders. Natural England is currently finalising its advice on the way forward for the project and will report to me shortly on the outcome of its deliberations.

Dog Wardens

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what information his Department has on the number of dog wardens in each local authority in England; and if he will make a statement. [178219]

Jonathan Shaw: The Department does not collect statistics on the number of dog wardens that individual local authorities employ. However, each local authority is required to appoint an officer to carry out the stray dogs functions set out in section 149 of the Environmental Protection Act 1990.

Dolphins: Moray Firth

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to protect bottlenose dolphins at the Moray Firth; and if he will make a statement. [177675]

Jonathan Shaw: The Secretary of State for Business, Enterprise and Regulatory Reform is currently consulting on a draft Appropriate Assessment for the Moray Firth in the context of the 24th Offshore Oil and Gas Licensing Round. The draft Appropriate Assessment has been carried out under the terms of the Habitats Directive which was implemented into UK law by the Offshore Petroleum Activities (Conservation of Habitats) Regulations 2001 (as amended). Those regulations require that before granting a petroleum licence, the Secretary of State carry out an Appropriate Assessment where he considers that any activity which might be carried on pursuant to such a licence is likely to have a significant effect on any Special Area of Conservation – whether individually or in combination with other plans or projects. Subject to certain exceptions, a licence can only be granted after having ascertained through the Appropriate Assessment that such activities will not have an adverse effect on the integrity of such a SAC.

The draft Appropriate Assessment considers the impact of potential oil and gas activities on the Moray Firth SAC, which has been designated as such because it contains one of only two resident bottlenose dolphin populations in UK waters. In carrying out his assessment, the Secretary of State for Business, Enterprise and Regulatory Reform obtained a report from the specialist Sea Mammal Research Unit which is based at St. Andrews University in Scotland. The Secretary of State's preliminary view – which is supported by the report from the SMRU – is that oil and gas activities which would flow from the grant of a petroleum licence in the Moray Firth would not have an adverse effect on the integrity of the Moray Firth SAC (or others).

The draft Appropriate Assessment was published on 21 December 2007 and the public consultation period on the draft runs until 14 March 2008. The Government's statutory environmental advisers are also being consulted.

Environment Protection

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* the total funding received from the business resource efficiency and waste programme and other Government sources, *(b)* the total landfill diverted in tonnes, *(c)* the total carbon dioxide saved in tonnes, *(d)* the amount of virgin materials saved in tonnes, *(e)* the amount of hazardous waste reduced in tonnes and *(f)* the amount of water saved in tonnes was by (i) the Carbon Trust, (ii) Envirowise, (iii) the National Industrial Symbiosis programme and (iv) WRAP in (A) 2005-06 and (B) 2006-07. [178038]

Joan Ruddock: DEFRA's BREW programme is returning £284 million raised from the landfill tax escalator back to businesses between 2005 and 2008. Work is being taken forward to improve businesses' resource

efficiency and to minimise waste that is unnecessarily sent to landfill. Funds are awarded to a number of regional and national BREW delivery bodies. Allocations for 2005 to 2007 are set out in the following table.

Delivery body	Budget 2005-06	£ million Budget 2006-07
Action Sustainability	0	0.219
Carbon Trust	3	23.382
DEFRA's Waste Data Strategy	0.5	2.1
Environment Agency	2	4.454
Envirowise	12	16.772
Market Transformation Programme	2.6	2.8955
National Industrial Symbiosis Programme (NISP)	2.675	5.7
Regional Development Agencies	5	11.71
Royal Society of Wildlife Trusts—Business Reuse Fund	0	2
Technology Strategy Board	2	5.654
WRAP	2.854	6.288
Other (includes coordination, communication, pilot projects, funding for agricultural waste project and programme contingency fund)	0.321	3.24
Total	33	84.415

The BREW programme has also continued to provide funding towards other business resource efficiency and waste activities in England, as shown in the following table:

Delivery body	Activity	2006-07 funding (£ million)
Carbon Trust	Energy efficiency and carbon emission reduction activities	13.618
WRAP	Work with the construction, manufacturing, retail and recycling and reprocessing industries to reduce waste and encourage recycling	4.7
Total		18.318

In 2005-06, the delivery bodies referred to in the question achieved the short-term savings aggregated in the following table. These show the results for £18.5 million of all £33 million of projects funded from the BREW programme.

The results must be viewed with caution, since delivery bodies report according to a range of methodologies. Work is under way to improve consistency of this reporting and to apply reporting more widely. The results are only for BREW-funded activities. Some savings will result from these interventions in future years, which are not counted here.

Metric	In-year result
(1) Waste diverted from landfill	675,000 tonnes
(2) Carbon savings	320,000 tonnes of carbon dioxide
(3) Virgin raw material savings	682,000 tonnes
(4) Hazardous waste savings	120,000 tonnes
(5) Water savings	5,630,000 cubic metres

DEFRA has not yet released individual delivery body results for 2005-06. These include some selected long-term results, which are not included in this table. Similarly, work is currently under way to verify BREW programme results for 2006-07. I will deposit both sets of results in the House Library when they are ready.

In addition to funding from the BREW programme, DEFRA has provided the following funding to the delivery bodies below. NISP has not received any non-BREW funding from DEFRA.

	2005-06	£ million 2006-07
Carbon Trust	57.6	41.644
Envirowise	2.292	2.292
WRAP	67.605	51.58

Environmental Research Institute: Finance

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much has been committed from the private sector to date for the Environmental Research Institute; [173153]

(2) which organisations have pledged contributions to the Environmental Research Institute. [173154]

Ian Pearson: I have been asked to reply.

In his 2006 Budget Statement, the Prime Minister announced the intention to create "a new energy and environmental research institute". The Energy Technologies Institute was legally established on 12 December 2007 as a Limited Liability Partnership. Private-sector partners are BP, Caterpillar, EDF Energy, EON UK, Rolls-Royce and Shell, together contributing up to £300 million over 10 years. Additional private sector partners are being sought to match the Government's commitment of up to £550 million, and to achieve a budget of up to £1.1 billion for the ETI over the next decade.

European Fisheries Fund

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 December 2007, *Official Report*, column 1270W, on the European Fisheries Fund, whether he submitted the UK National Strategic Plan to the European Commission by 31 December 2007; and if he will make a statement. [177688]

Jonathan Shaw: The NSP has now been finalised, and I expect to formally submit it to the Commission shortly.

Fish: Conservation

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to preserve endangered fish stocks in UK waters. [177649]

Jonathan Shaw: The UK Government are committed to the conservation of fish stocks. The common fisheries policy provides a framework for co-operation at European Union level. We continue to play an active role in negotiating improvements to the policy designed to provide more sustainable long-term fisheries management. We are working to ensure that depleted stocks are recovered and subsequently conserved, while at the same time delivering, in so far as we can, a viable future for the fishing industry.

Fisheries

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the value of fish caught by the 10 metre and under fleet in each year since 1997; and if he will make a statement. [176143]

Jonathan Shaw: The value at current prices of reported fish landings by the UK 10 metre and under fleet is provided in the following table.

Landings by the UK 10 m and under fleet

Year	£ million Value
1997	47.0
1998	50.4
1999	48.5
2000	44.5
2001	44.8
2002	43.4
2003	46.3
2004	47.4
2005	38.1
2006	76.2

The sharp increase in value in 2006 is a result of the introduction, by UK fishery administrations, of a scheme of registration for buyers and sellers of first sale fish. This has led to improved landings information for the 10 metre and under fleet. Figures for 2006 are therefore not comparable with those from earlier years.

Fisheries: Quotas

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will provide a detailed breakdown of the distribution of 2008 fishing quota to *(a)* producer organisations, *(b)* the 10 metre and under fleet and *(c)* the non-sector; what the estimated value is of this quota; and if he will make a statement. [177617]

Jonathan Shaw: Work is under way to allocate UK quotas to industry sectors, but it is not yet complete. It is not possible to make the allocations until final catch data for 2007 are available in order to assess whether penalties or compensation should apply. We also need to know what quota for 2008, in addition to that allocated to the UK at the December Council, is available. Officials are working to a timetable to make provisional quota allocations by mid April, and final allocations by mid May.

It is not possible to make any estimate of the value of the quotas until the allocations are made.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to allow the 10 metre and under fleet to lease quota in 2008; and if he will make a statement. [177618]

Jonathan Shaw: I refer the hon. Member to the answer given on 12 December 2007, *Official Report*, column 703W.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has identified possible quota swaps to benefit the 10 metre and under fleet; and if he will make a statement. [177619]

Jonathan Shaw: Two international swaps have been completed with Germany and the Netherlands to acquire an additional 150 tonnes of value North Sea sole quota for inshore fishermen operating in the southern North Sea. We are continuing to explore the scope for further swaps to boost fishing opportunities in key 10 metre and under fisheries.

Fisheries: Regulation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the level of compliance with regulations and rules for which he is responsible within the seafood and fishing industry in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland. [177441]

Jonathan Shaw: It is difficult to make an accurate formal assessment of levels of compliance due to the diverse fishery activity occurring in our waters. However, during 2006, the last year for which complete figures are available, the Marine and Fisheries Agency undertook some 11,744 inspections, of which 298 revealed one or more offences (some 412 infringements). Compliance in Scotland and Northern Ireland is a devolved issue.

Fisheries: Subsidies

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which countries have submitted their European Fisheries Fund Operational Programme to the European Commission; and if he will make a statement; [177684]

(2) which countries have had their European Fisheries Fund Operational Programme approved by the European Commission; and if he will make a statement. [177685]

Jonathan Shaw: Twenty five member states have formally submitted their Operational Programmes to the European Commission. Of these, 20 have been approved.

Flood Control

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs if he will accept interim conclusion number IC33 of the Pitt Review and bring forward legislation to update flooding legislation. [178244]

Mr. Woolas: The interim report sets out 72 interim conclusions, on which Sir Michael is seeking views before he publishes his final report. The Government will carefully consider these and respond to him, including the suggestion for legislative change. However, the Government are committed to early action on the urgent recommendations in the report—including for better identification of areas at risk from surface water and groundwater flooding. It is committed to bringing forward a complete package of measures that will ensure flood and coastal erosion risk is managed in a sustainable and holistic manner and avoiding a piecemeal approach to managing risk.

Home Energy Efficiency Scheme

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what the value of excess payments requested in respect of Warm Front grants has been in *(a)* Shropshire, *(b)* west midlands and *(c)* England in 2007-08. [177004]

Mr. Woolas: Between 1 April and 30 November 2007, the following client contributions were requested under the Warm Front scheme:

Area	£ *Total value of excess requirements*
Shropshire	288,347.38
West midlands	4,031,045.68
Total	23,609,213.88

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy is on excess payments for Warm Front scheme projects being paid *(a)* directly and *(b)* in cash by householders to contractors. [177008]

Mr. Woolas: Clients are asked to pay excess payment contributions directly to the installation company in order that the work can proceed as quickly as possible, and to reduce the administrative costs of another agency handling the payment.

The preferred method of payment for both parties is a matter for the client and the contractor.

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs when the White Young Green assessment of Warm Front will be made available to hon. Members and the general public. [177671]

Mr. Woolas: Two recent reviews of Warm Front pricing will be made available on the DEFRA website by the end of February.

Other Warm Front quality assessment reports can be requested from my Department.

Home Energy Efficiency Scheme: Heating

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how many radiators have been installed through Warm Front; and in how many homes. [177690]

Mr. Woolas: Since June 2005, 353,999 radiators have been installed in 83,628 households.

Home Energy Efficiency Scheme: Hendon

Mr. Dismore: To ask the Secretary of State for Environment, Food and Rural Affairs how many pensioner households in Hendon have received grants under the Warm Front scheme; what the cost of those grants has been; what the average grant was; what grants are available under the scheme; and if he will make a statement. [177499]

Mr. Woolas: Since the start of Warm Front, 786 pensioner households in Hendon have received grants. The total cost of these grants is £938,111.92, with the average grant being £718.31.

The Warm Front Scheme offers eligible households grants of up to £2,700, or £4,000 where an oil system is recommended. For pensioner households not eligible for a main grant, Warm Front offers a £300 voucher towards the cost of a heating measure.

Home Energy Efficiency Scheme: Iguana Services

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of Warm Front grants have been awarded to Iguana Services Limited *(a)* by number and *(b)* by value in each of the last three years. [177005]

Mr. Woolas: The information requested is shown in the following tables.

	Total number of heating installations under Warm Front	*Total number of heating installations completed by Iguana*	*Percentage of installations completed by Iguana*
2005-06	44,567	6,301	14.14
2006-07	86,828	25,324	29.17
2007-08	85,550	24,241	28.34
Total	216,945	55,866	26

	Total value of heating installations under Warm Front	*Total value of heating installations completed by Iguana*	*Proportion of value of installations completed by Iguana*
2005-06	75,359,434.38	5,035,666.68	6.68
2006-07	145,183,356.58	30,457,998.67	20.98
2007-08	150,377,506.58	37,044,220.00	24.63
Total	370,920,297.54	72,537,885.35	19.52

Oil: Moray Firth

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Secretary of State for Business, Enterprise and Regulatory Reform on oil and gas exploration at the Moray Firth; and if he will make a statement. [177674]

Jonathan Shaw: My right hon. Friend the Secretary of State for Environment Food and Rural Affairs (Hilary Benn) had no recent discussions with the Secretary of State for Business, Enterprise and Regulatory Reform on oil and gas exploration at the Moray Firth.

Pitt Review

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs which of the 15 recommendations for urgent action made by the Pitt review he plans to act on immediately; and if he will make a statement. [178434]

Mr. Woolas: The Government have said that it agrees with all 15 of the urgent recommendations in the report and we will work with all of the organisations involved to implement them.

Railways

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by his Department on first class train tickets in the last 12 months. [171261]

Jonathan Shaw: From information held centrally, the core-Department spent £1,030,331 on first-class train tickets in the period October 2006 to September 2007 inclusive.

First-class travel by Ministers, by officials accompanying Ministers and by officials is undertaken in accordance with departmental guidance which encourages people to use public transport wherever possible.

Not all rail travel taken is first class.

Sea Fisheries Committees

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to increase the representation of recreational sea anglers on Sea Fisheries Committees; and if he will make a statement. [177664]

Jonathan Shaw: Recreational sea anglers are currently represented on each SFC. All appointments to SFCs made by my right hon. Friend the Secretary of State last for a maximum of four years and the current round of appointments will end on 30 June 2009. The Marine Bill White Paper set out proposals to reform SFCs in England, including adjustments to their membership structure to improve decision-making and local stakeholder involvement. Sea anglers will continue to be represented on reformed SFCs but I have not at this stage made any decisions regarding the future level of that representation.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many recreational sea angling representatives were on each Sea Fisheries Committee in each year since 1997. [177667]

Jonathan Shaw: All appointments to SFCs made by the Secretary of State last for a four year period. For the appointment periods 2001-05 and 2005-09, each SFC had the following number of appointees with a known interest in sea angling (information for 1997-2001 is not readily accessible in the format required):

SFC	*2001-05*	*2005-09*
Cornwall	1	2
Cumbria	0	1
Devon	1	2
Eastern	0	2
Isles of Scilly	1	1
Kent and Essex	1	2
Northumberland	1	2
North Eastern	3	4
North Western and North Wales	1	2
Southern	1	1
Sussex	1	2

Within the above appointment periods, the level of angler representation may have varied in some instances where vacancies have arisen due to resignations.

Members appointed by the Secretary of State are required to represent all the local fishing and marine environmental interests in the SFC district in a balanced way. Appointees are reminded that they should not regard themselves as representing any one particular interest, and may have experience across several sectors.

Appointments to South Wales SFC are a matter for the Welsh Assembly Government.

Sea Fishing: Licensing

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether he plans to introduce a recreational sea angling licence; what estimate he has made of the revenue that a recreational sea angling licence would raise; and if he will make a statement; [177660]

(2) pursuant to the Marine Bill White Paper and associated Regulatory Impact Assessment, what estimate he has made of the cost of administering and enforcing a recreational sea angling licence; and if he will make a statement; [177661]

(3) pursuant to the Marine Bill White Paper and associated Regulatory Impact Assessment, to what use the revenue raised from a recreational sea angling licence would be put; and if he will make a statement. [177662]

Jonathan Shaw: The Marine Bill White Paper published in March 2007 includes proposals to introduce a chargeable licensing scheme for recreational sea angling. The RIA accompanying the White Paper estimated that the revenue from such a scheme could generate £9 million to £12 million per annum in licence fees, depending on uptake and the rate of the charge. The RIA also estimated the

one-off set-up cost to the Government could be between £0.1 million to £1.5 million, with annual running costs including enforcement between £1.2 million and £2.8 million, depending on how the scheme is implemented and the level of compliance.

The White Paper explained that the revenue raised from a recreational sea angling licence would be used to help support measures such as:

(i) improved scientific data to inform the development of management measures for stocks of specific interest to anglers;

(ii) protection and improvement of shore access and parking;

(iii) provision of more small boat launching facilities;

(iv) access to existing and new shore structures;

(v) creation of artificial inshore and offshore reefs; and

(vi) clear displays of relevant rules, codes of conduct and other useful data on the shore, at boat launch sites and aboard charter boats.

The revenue would also cover the costs of administration, monitoring and inspection and evaluation of any measures introduced for the benefit of anglers.

Seas and Oceans: Legislation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy not to introduce the draft Marine Bill before the Planning and the Energy Bills receive Royal Assent; and if he will make a statement. [177440]

Jonathan Shaw: I refer the hon. Member to the answer given on 21 November 2007, *Official Report*, column 868W.

Shellfish

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has reached an agreed approach on *(a)* brown crab and *(b)* lobster conservation with the devolved Administrations; and if he will make a statement. [177621]

Jonathan Shaw: DEFRA is in discussion with the devolved Administrations to explore whether an agreed approach would be the most appropriate course of action in relation to brown crab and lobster conservation.

Stray Dogs

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons were for the decision to transfer responsibility for stray dogs from the police to local authorities. [177657]

Jonathan Shaw: In July 2002, the Police Bureaucracy Taskforce made recommendations on the transfer of a range of ancillary tasks from the police service to other agencies in order to free up officer time to focus on core policing activities. Included in those recommendations was that responsibility for stray dogs should become the sole responsibility of local authorities. Implementation of the recommendation was agreed by the Association of Chief Police Officers and the Local Government Association. Parliamentary approval was received by enactment of section 68 of the Clean Neighbourhoods and Environment Act 2005 which removes any statutory responsibility on the police for stray dogs. The provision is due to be commenced on 6 April 2008.

Waste Management: Finance

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been allocated to research and development on the waste management programme in each of the next three years; and from what budget these resources will be drawn. [179286]

Joan Ruddock: DEFRA was allocated a total budget of about £4 billion under the comprehensive spending review for 2008-11.

No allocations have yet been determined for research and development on DEFRA's waste management programme, although the Department expects to do so before March this year.

Water Supply

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to encourage private water boards to improve their pipe networks to prevent leaks and wastage. [177645]

Mr. Woolas: The independent regulator, the Water Services Regulation Authority (Ofwat) sets leakage targets for the water companies and has regulatory powers which it can use should it consider that to be necessary. Across England and Wales leakage has been reduced by 24 per cent. overall since 1997 and most companies continue to meet the targets set by Ofwat. Ofwat has set water companies targets to reduce leakage by a further 2.9 per cent. from 2006-07 levels by 2009-10.

Water: Meters

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to impose compulsory water meters on currently unmetered family homes. [176526]

Mr. Woolas: Under the Water Industry Act 1999 water companies have powers to impose a meter on an individual household for discretionary purposes. They may also make a case that the water resources situation in their area requires compulsory metering of all properties.

Whaling

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what discussions he has had with *(a)* the Prime Minister and *(b)* Cabinet colleagues in relation to whaling since the IWC59 meeting of the International Whaling Commission; and if he will make a statement; [177612]

(2) when he last wrote to his Cabinet colleagues about whaling; and if he will make a statement; [177613]

(3) with reference to the answer of 19 February 2007, *Official Report*, column 195W, on whaling, whether he has received a response to the letters sent to his Cabinet colleagues; and if he will make a statement; [177682]

(4) with reference to the answer of 19 February 2007, *Official Report*, column 195W, on whaling, when Cabinet colleagues have drawn to the attention of their foreign counterparts the subject of *(a)* whaling, *(b)* whale conservation and *(c)* the whale watching industry; and if he will make a statement. [177683]

Jonathan Shaw: Cabinet members, along with all hon. Members, were sent a 'Dear Colleague' letter sent by my predecessor in June last year, which provided a full report of the outcome of last year's annual IWC meeting. The letter emphasised the UK's efforts to increase the number of conservation-minded countries in the IWC. The report of the meeting made clear that the UK remains vigorously opposed to whaling and details our position on issues such as the importance of welfare considerations and whale watching.

The UK has led efforts to recruit more conservation-minded countries to the IWC through our publication 'Protecting Whales—A Global Responsibility'. The Prime Minister emphasises the UK's strong commitment to whale conservation in the foreword to this document stating:

> "I urge Governments to join the UK, and other anti-whaling countries, in the International Whaling Commission to maintain the moratorium on commercial whaling so that our generation meets its responsibility to protect whales."

This year, my right hon. Friend the Secretary of State is also writing to 18 countries encouraging them to join the IWC for the greater protection of whales. In the coming weeks, Foreign and Commonwealth Office posts will deliver the updated version of the leaflet 'Protecting Whales—A Global Responsibility' to host Governments and lobby to support the UK's position. FCO posts are aware of the need to watch for indications that countries, including some mentioned in the answer of 19 February 2007, *Official Report*, column 195W, may join the IWC and adopt a pro-whaling stance. Posts in the relevant capitals are briefed, supplied with copies of our publication and engage in discussion with their counterparts on whaling at every appropriate opportunity. Such countries are left in no doubt as to the importance that the UK attaches to whale conservation.

As a result of the correspondence over lobbying mentioned by my predecessor in his answer of 19 February 2007, *Official Report*, column 195W prior to the 2007 Annual IWC Meeting in Anchorage, the UK and its like-minded allies managed to recruit six countries into the IWC, so that the pro-whaling majority in that organisation was overturned. In a further response to UK lobbying efforts, several other countries have indicated willingness to support our opposition to Japanese whaling and to join the IWC in time for this year's annual meeting in Santiago, Chile in June.

Whales: Japan

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to secure a complete ban on whaling by the Japanese Government. [177712]

Jonathan Shaw: The UK Government have consistently voiced its opposition to Japanese "scientific" whaling. Most recently, on 8 January, I called in the Deputy Ambassador from the Japanese Embassy in London to express the UK's outrage, and urge Japan to end its slaughter of whales.

On 21 December 2007, the UK, along with 29 other countries, took part in a demarché to the Japanese Government calling on Japan to

> "cease all its lethal scientific research on whales, and assure the immediate return of the vessels which are implementing JARPA II" (the Japanese "scientific" Research Programme in the Antarctic).

White Fish: Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to introduce measures to improve bass conservation and bass stocks; and if he will make a statement. [177620]

Jonathan Shaw: Scientific advice from the International Council for the Exploration of the Sea in 2004 suggested that the bass stock is fished sustainably. Last year I announced a review of bass nursery areas and inshore netting restrictions with a view to providing additional protection for stocks of bass. The first step will be to engage with stakeholders to agree how and when to take this work forward collaboratively this year.

INTERNATIONAL DEVELOPMENT

Afghanistan: Drugs

Dr. Fox: To ask the Secretary of State for International Development what the total expenditure on promoting alternative livelihoods to the drugs trade in Afghanistan was in each year since 2001. [177538]

Mr. Malik: Prior to 2003-04 much of DFID funding in Afghanistan focused on humanitarian assistance. By March 2007 DFID had spent £91.5 million on supporting alternative livelihoods to the drugs trade since 2001.

£

Financial year	*Amount in GBP*
2001-02	144,079
2002-03	36,699
2003-04	5,205,33
2004-05	7,350,806
2005-06	44,072,886
2006-07	34,460,725

Afghanistan: International Assistance

Dr. Fox: To ask the Secretary of State for International Development what the total expenditure on reconstruction and aid for Afghanistan was in each year since 2001. [177543]

Mr. Malik: Details of the UK's bilateral assistance and imputed multilateral assistance to Afghanistan since 2001 are laid out in the following tables.

Table 1: UK total bilateral gross public expenditure on development 2001-02 to 2006-07

	£000
	Afghanistan
2001-02	50,027
2002-03	76,018
2003-04	99,595
2004-05	98,959
2005-06	126,949
2006-07	123,011

Table 2: Imputed UK share of multilateral official development assistance (ODA), 2001 to 2005

	£000
	Afghanistan
2001	7,064
2002	23,300
2003	36,789
2004	27,676
2005	39,864

Departmental Pay

Sarah Teather: To ask the Secretary of State for International Development pursuant to the answer of 5 December 2007, *Official Report*, column 1255W, on departmental pay, how many of those earning over £100,000 were employed (*a*) as special advisers and (*b*) in a political role in each year since 1997. [177176]

Mr. Douglas Alexander: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 22 November 2007, *Official Report*, 147-151WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Ethiopia: Foreign Exchange

Mr. Scott: To ask the Secretary of State for International Development pursuant to the answer of 11 December 2007, *Official Report*, columns 414-5W, on Ethiopia: foreign exchange, what the (*a*) exchange rate obtained, (*b*) value of commission paid, (*c*) name of the exchange institution or bank used and (*d*) purpose of the transaction was of DFID Ethiopia's currency exchanges of (i) 27 July 2007 and (ii) 8 October 2007. [177170]

Mr. Thomas: (*a*) The exchange rates obtained were (i) 18.4789 Birr = £1 and (ii) 18.3706 Birr = £1 respectively.

(*b*) The value of commission paid was (i) £626.57 and (ii) £625.00 respectively.

(*c*) The transactions were made through the international banking division of the Commercial Bank of Ethiopia.

(*d*) Both transactions were made to fund payments in local currency.

Sudan

Mr. Gale: To ask the Secretary of State for International Development with reference to the answer of 5 March 2007, *Official Report*, column 1624W, on Sudan, what proportion of the grant aid given by his Department to the UN high commission for refugees was spent upon that organisation's priority areas of vaccination and veterinary care in co-operation with the Chadian government's livestock delegation and promoting the breeding of smaller animals (sheep and poultry) better suited to vulnerable refugees living in camps. [177438]

Mr. Thomas: In 2007, DFID gave the Office for the United Nations High Commissioner for Refugees (UNHCR) £2 million to support their operations in Chad. Our contribution was to their overall appeal rather than to specific parts of their programme. Under the Good Humanitarian Donorship initiative, we do not require separate reporting for DFID against each activity and it is not therefore possible to determine DFID support to this particular aspect of their programme. In total, however, the livestock component of UNHCR's programme was around £400,000 in 2007.

Tanzania: Overseas Investment

Mr. Gale: To ask the Secretary of State for International Development pursuant to the answer of 9 January 2008 to question 166007, what steps he has taken, in conjunction with the Foreign and Commonwealth Office, following his briefing by the UK High Commissioner in Dar es Salaam on 26 and 27 November 2007, in relation to the case of Mr. Stewart Middleton and Ms Sarah Hermitage. [179148]

Mr. Douglas Alexander: I raised the case with the President of Tanzania on 27 November 2007. Our high commissioner subsequently followed up that conversation with the Tanzanian Chief Secretary, who undertook to look into the matter with the relevant authorities. The Chief Secretary confirmed that it was his Government's intention that the issue should be justly and expeditiously resolved.

SCOTLAND

English Language

Damian Green: To ask the Secretary of State for Scotland how much his Department has spent on English language classes for staff in the last year for which figures are available. [177485]

David Cairns: Nothing.

Fuel Poverty

Mr. Carmichael: To ask the Secretary of State for Scotland what plans his Department has to contribute to the reduction of fuel poverty in Scotland; and what account he has taken of the Scottish House Condition Survey in developing such plans. [177113]

David Cairns: Tackling fuel poverty is a priority for the Government, with DBERR and DEFRA taking lead responsibility. Across the UK we are taking action to ensure the energy market is working effectively, and continuing to tackle poverty through ensuring adequate levels of income. The UK Fuel Poverty Strategy, and subsequent annual progress reports, set out this work.

In Scotland initiatives relating to the promotion of energy efficiency are devolved, such as the Central Heating programme and Warm Deal. The Scottish Executive therefore contribute to monitoring progress against the UK Strategy. The 5th Annual Progress Report, published in December 2007, draws on data from the Scottish House Condition Survey.

Official Engagements

Dr. Fox: To ask the Secretary of State for Scotland what his official engagements were between 1 November and 21 November 2007. [169460]

Des Browne: My official engagements as Secretary of State for Defence and Secretary of State for Scotland, throughout the period 1 November to 21 November, included various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland Office. On Thursday 1 November and Friday 2 November I was overseas visiting service personnel serving in Iraq. On Monday 5 November I met HBOS in Scotland. On Tuesday 6 November I attended the State Opening of Parliament. On Wednesday 7 November I hosted the French Defence Minister for bilateral discussions in London. On Thursday 8 November I attended the British Torch of Remembrance ceremony at Westminster Abbey and met National Grid. On Friday 9 November I visited Diageo with my hon. Friend the Member for Ochil and South Perthshire (Gordon Banks). On Saturday 10 November I attended the Royal British Legion Festival of Remembrance 2007 event and, on Sunday 11 November, I attended the Remembrance Ceremony at the Cenotaph. On Monday 12 November I met EU ambassadors in London, hosted by the Portuguese ambassador, before attending the Defence debate in the House of Commons. On Tuesday 13 November I met separately with the National Farmers Union Scotland and Scottish Financial Enterprise. On Wednesday 14 November I attended a Sailor, Soldier, Airmen and Families Association reception. On Thursday 15 November I hosted the Romanian Defence Minister for bilateral discussions in London. On Friday 16 November I hosted a reception in Edinburgh for Polish National Day. On Sunday 18 and Monday 19 November I was in Brussels attending a meeting of EU Defence Ministers. On Tuesday 20 November I met The Crown Prince of Bahrain.

Mr. Bone: To ask the Secretary of State for Scotland what engagements he has had since 8 October 2007; and what the *(a)* date, *(b)* location, *(c)* time and *(d)* duration was of each engagement. [170718]

Des Browne *[holding answer 3 December 2007]*: From Monday 8 October to Tuesday 9 October I was in London where I had various meetings, including with ministerial colleagues and officials from the Scotland Office and MOD. On Tuesday 9 October I attended Cabinet, had a telephone conversation with the First Minister of Scotland and attended the Chancellor's statement on the comprehensive spending review. I had no Scotland Office engagements on Wednesday 10 October, Thursday 11 October or Friday 12 October.

On Saturday 13 October I attended the Scotland v. Ukraine Euro 2008 Qualifier at Hampden Park, Glasgow. On Sunday 14 October I attended the National Youth Orchestras of Scotland Futures performance at Glasgow City Halls.

From Monday 15 October to Wednesday 17 October I was in London where I had various meetings, including with ministerial colleagues and officials from the Scotland Office and MOD. On Tuesday 16 October I attended Cabinet, and answered Scottish questions at the House of Commons. That evening I attended the Border and Immigration Agency reception in Dover House. On Wednesday 17 October I met the chief executive of Ofgem and that evening I attended the Poppy Scotland reception in Dover House.

From Thursday 18 October to Saturday 20 October I had no Scotland Office engagements. From Monday 22 October to Tuesday 23 October I was in London where I had various meetings, including with ministerial colleagues and officials from the Scotland Office and MOD. On Tuesday 23 October I attended Cabinet. That afternoon I delivered a statement on the Gould report in the House of Commons. That evening I attended the CBI reception in Dover House. From Wednesday 24 October to Thursday 25 October I had no Scotland Office engagements.

On Friday 26 October I attended the Glasgow Chamber of Commerce business breakfast. That afternoon I attended the launch of Stagecoach's bio-diesel coaches in Kilmarnock. From Saturday 27 October to Wednesday 31 October I had no Scotland Office engagements.

My official engagements as Secretary of State for Defence and Secretary of State for Scotland, throughout the period 1 November to 21 November, included various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland Office. On Thursday 1 November and Friday 2 November I was overseas visiting service personnel serving in Iraq. On Monday 5 November I met HBOS in Scotland. On Tuesday 6 November I attended the State Opening of Parliament. On Wednesday 7 November I hosted the French Defence Minister for bilateral discussions in London. On Thursday 8 November I attended the British Torch of Remembrance ceremony at Westminster Abbey and met National Grid. On Friday 9 November I visited Diageo with my hon. Friend the Member for Ochil and South Perthshire (Gordon Banks) On Saturday 10 November I attended the Royal British Legion Festival of Remembrance 2007 event and, on Sunday 11 November, I attended the Remembrance Ceremony at the Cenotaph. On Monday 12 November I met EU ambassadors in London, hosted by the Portuguese ambassador, before attending the Defence debate in the House of Commons. On Tuesday 13 November I met separately with the National Farmers Union Scotland and Scottish Financial Enterprise. On Wednesday 14 November I attended a Sailor, Soldier, Airmen and Families Association reception. On Thursday 15 November I hosted the Romanian Defence Minister for bilateral discussions in London. On Friday 16 November I hosted a reception in Edinburgh for Polish National Day. On Sunday 18 November and Monday 19 November I was in Brussels attending a meeting of EU Defence Ministers. On Tuesday 20 November I met The Crown Prince of Bahrain.

Throughout the period 22 November to 10 December, I had various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD

and Scotland Office. On Thursday 22 November, I had a meeting with the Columbian Defence Minister and a meeting with the Turkish Chief of Defence Staff. On Friday 23 November, I addressed the State of the City Economy Conference in Glasgow. On Wednesday 28 November, I answered oral questions for the Scotland Office in the House of Commons. On Thursday 29 November, I attended a reception to mark the homecoming of 12 Brigade from Iraq. On Saturday 1 December, I visited the Longannet Power Station in Alloa and participated in the Scottish Interfaith Week Come and Play the Diversity Game event in Edinburgh. On Monday 3 December, I answered oral Defence questions in the House of Commons. On Tuesday 4 December, I met service families about the Board of Inquiry findings into the crash of the RAF Nimrod XV230 before attending the House to make a statement about the same. On Wednesday 6 December, I gave oral evidence to the AFPRB and in the evening I attended a Sailor, Soldier, Airmen and Families Association carol service at the Guards' Chapel, Wellington Barracks. On Thursday 8 December, I met representatives from the services charity "Forward Edge Battle Area". Between December 7 and December 10, I was overseas visiting service personnel in Afghanistan.

Dr. Fox: To ask the Secretary of State for Scotland what his official engagements were from 22 November to 10 December 2007. [177536]

Des Browne: Throughout the period 22 November to 10 December, I had various meetings in London and Scotland, including with ministerial colleagues and officials from the MOD and Scotland Office. On Thursday 22 November, I had a meeting with the Columbian Defence Minister and a meeting with the Turkish Chief of Defence Staff. On Friday 23 November, I addressed the State of the City Economy conference in Glasgow. On Wednesday 28 November, I answered oral questions for the Scotland Office in the House of Commons. On Thursday 29 November, I attended a reception to mark the homecoming of 12 Brigade from Iraq. On Saturday 1 December, I visited the Longannet Power Station in Alloa and participated in the Scottish Interfaith Week Come and Play the Diversity Game event in Edinburgh. On Monday 3 December, I answered oral Defence questions in the House of Commons. On Tuesday 4 December, I met with service families about the Board of Inquiry findings into the crash of the RAF Nimrod XV230 before attending the House to make a statement about the same. On Wednesday 6 December, I gave oral evidence to the AFPRB and in the evening I attended a Sailor, Soldier, Airmen and Families Association carol service at the Guards' Chapel, Wellington Barracks. On Thursday 8 December, I met representatives from the services charity "Forward Edge Battle Area". Between December 7 and December 10, I was overseas visiting service personnel in Afghanistan.

CULTURE, MEDIA AND SPORT

Alcoholic Drinks: Licensing

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport how many small businesses had their licences to sell alcohol revoked in 2007 where sales to underage drinkers were cited as the reason. [179361]

Mr. Sutcliffe: This information is not held centrally.

Statistical bulletins on licences to sell alcohol include the number of licences revoked, but do not indicate the reason for revocation, nor the size of premises affected. Licences may be revoked on review for one or more reasons relating to the four licensing objectives, including sales of alcohol to children.

The latest DCMS Statistical Bulletin on Alcohol, Entertainment and Late Night Refreshment, was published on 8 November 2007 and shows that, between April 2006 and March 2007, there were 695 reviews which resulted in 92 licences being revoked and 91 being suspended.

Definition of Sport

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport (1) why recreational (*a*) horse riding and (*b*) swimming were included in the new definition of sport; [177107]

(2) why recreational cycling was excluded from the new definition of sport. [177108]

Mr. Sutcliffe: The definition of sport for the local and national government measurement framework from April 2008 will be largely based on the definition of sport currently used for the Comprehensive Performance Assessment framework. This is set out in the Secretary of State for Culture, Media and Sport's letter to the Local Government Association of 21 December 2007, a copy of which has been placed in the House Library.

The Secretary of State has asked Sport England to develop a new strategy for how it will deliver a world class community sport infrastructure of clubs, coaches, volunteers and facilities.

This new focus will deliver the provision of excellent sport opportunities from the grassroots up, sustaining and increasing participation and allowing everyone to develop their sporting talents at every level.

Sport England's tighter focus on sport will mean that some activities may fall outside Sport England's remit and funding. Decisions have not yet been taken on what activities fall within or outside of Sport England's remit.

To ensure that gaps do not appear, Her Majesty's Treasury is leading wider cross-Government work on creating a physical strategy for all, which should be completed by the end of March 2008.

DCMS has a clear Government lead on delivering sport and believes a tighter definition of sport will ensure Lottery and Exchequer funding through Sport England will more effectively deliver an excellent sporting infrastructure. Investment in wider physical activity falls to other Government Departments and agencies who have the policy and funding lead.

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Culture, Media and Sport what the (*a*) objective and (*b*) value was of each contract placed with (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by his Department and its agencies in each year since 2004-05. [179031]

Mr. Sutcliffe: The following contracts are those awarded over the stated time period:

Contract	Date	£
(i) Deloitte and Touche		
Undertaking of sports strategy	September 2004	24,000
Undertaking of Olympic programme assurance	November 2006	50,000
Conducting ICT security compliance/review	October 2007	58,000
(ii) Ernst and Young	Nil Return	
(iii) KPMG		
To provide validation of Olympic costs	November 2005	255,000
(iv) PricewaterhouseCoopers		
Review of Olympic cost validation	May 2004	114,000
Study of impact of Olympic Games	October 2004	72,000
Accountancy advice on fees to be charged through Licensing Act 2003	December 2004	29,500
Examination of Government sponsorship of British Library	February 2005	24,000
Review of public library standards	August 2006	99,570
Provision of economic advice for Olympics	February 2007	17,000
To ensure VAT regulations/compliance are met	April 2007	18,000
Appraisal and Evaluation of Olympic Games Legacy	October 2007	78,000
Assessment of costs/benefits of World Heritage Site	May 2007	69,000
(v) PA Consulting		
Delivery of strategic framework to respond to priorities of local communities	February 2004	151,410
Provision of advice on agency's governance arrangements	April 2006	26,000

The return includes Royal Parks Agency.

Departmental Correspondence

Mr. Harper: To ask the Secretary of State for Culture, Media and Sport which section in his Department is responsible for answering correspondence from hon. Members and peers; and how many staff work in that section. [177237]

Mr. Sutcliffe: DCMS have a central team - the Central Information and Briefing Unit - that drafts the majority of responses to correspondence from hon. Members and peers and the general public. This team is currently staffed at just under 17 full-time equivalents (FTE), but has a variety of other non-correspondence duties. In addition, some responses (roughly a quarter of the overall volume) are drafted in full by officials working directly on the policy area in question.

DCMS aims to provide a comprehensive and responsive service to its inquiries, and the central team have contributed significantly toward this aim. From 1 January 2007 to 31 October 2007 (the last date where data is currently available) the Department responded to 74.35 per cent. of hon. Members and peers letters within 20 working days of receipt, and 90.58 per cent. of correspondence from the general public to the same timescale.

Gambling

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport whether the use of fixed odds betting terminals remains under review following publication of the British Gambling Prevalence Survey 2007; and what evidence his Department is gathering on these machines to evaluate their impact on gambling behaviour. [177058]

Mr. Sutcliffe: The 2005 Gambling Act regulates fixed odds betting terminals for the first time and allows a maximum of four machines per licensed betting premises. However, if there is evidence of harm from particular forms of gambling, including individual categories of gaming machines, the Government have the power to place further restrictions on operators.

The Gambling Commission is also planning a programme of secondary analysis of the British Gambling Prevalence Survey 2007 data which will look more closely at the risk factors associated with problem gambling. The risks associated with gaming machines will be considered within this context.

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what representations he has received from (*a*) the Responsibility in Gambling Trust and (*b*) GamCare on the impact of the Gambling Act 2005 on problem gambling. [177059]

Mr. Sutcliffe: Following the implementation of the Gambling Act 2005 on 1 September 2007, Ministers and officials continue to hold meetings with key stakeholders including the RiGT and GamCare and which have included representations on a range of issues, including problem gambling.

The Gambling Commission has also recently launched a first consultation paper on the Review of Research, Education and Treatment for problem gambling and has invited views from a broad range of stakeholders including GamCare and RiGT.

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what plans the Gambling Commission has to undertake further research into

problem gambling following the publication of the British Gambling Prevalence Survey 2007, with particular reference to problem gambling associated with fixed odds betting terminals. [177060]

Mr. Sutcliffe: Following publication of the British Gambling Prevalence Survey 2007, the Gambling Commission is planning a programme of secondary research which will look at a range of risk factors associated with problem gambling. The risks associated with gaming machines will be considered within this context. The research will be commissioned shortly.

Gyms: Finance

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport how much his Department has allocated to mobile gymnasia in each year since 2005-06; and how much is likely to be allocated to such facilities in (*a*) 2008-09, (*b*) 2009-10 and (*c*) 2011-12. [177105]

Mr. Sutcliffe: There is no national funding programme specifically set up to support the provision of mobile gymnasia. Each Sport England region has an open application process to consider both capital and revenue projects and provides funding based on individual merit.

In the period 2005 to 2008, Sport England committed £896,007 to two mobile gymnasia projects. The first of these projects was completed in 2005 at a total cost to Sport England of £641,635. The project attracted an additional £483,906 in partnership funding. The second project was allocated funding of £254,372 to be spent over the three year period 2005 to 2008.

The allocation of funding by Sport England for the provision of mobile gymnasia in the period 2008 to 2012 will be subject to the consideration and merit of all submitted projects.

National Lottery: Community Development

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport what proportion of National Lottery funding for good causes, excluding resources for the 2012 Olympic Games, will be available for community projects in each of the next 10 years. [177109]

James Purnell: All non-Olympic Lottery funding is essentially available to community projects in all the non-Olympic good cause sectors, namely the arts, sport, heritage and the areas supported by the Big Lottery Fund. There is no clear distinction between community projects and those with wider national or regional significance, or grants to individuals for public benefit. Decisions on which Lottery applications to support are made at arm's length by the independent distributing bodies.

On current projections, even before these are revised to take account of likely returns under the third licence, over £5 billion of fresh Lottery income will be raised for the non-Olympic good causes in the five years from 2008-09 to 2012-13. This, together with further income raised until at least 2019, will be shared half for Big Lottery Fund causes, and a sixth each for sport, art and heritage.

Sports: National Lottery

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport what account will be taken of the new definition of sport in considering national lottery funding applications for community projects. [177106]

Mr. Sutcliffe: Sport England is currently developing a new strategy to build a world class community sports infrastructure for 2008 to 2011. As part of this work, it is considering what activities should fall within its remit to fund sport.

Lottery distributing bodies operate at arm's length from Government, therefore Sport England will continue to take decisions independently on which community project applications receive lottery funding.

UK Sport: Finance

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport if he will break down the £30,000 allocated by UK Sport to the 2008 Legacy Lives Conference in Barbados by main budget heading, how many UK representatives are planned to attend the conference and at what cost per head; and how many of such representatives are expected to be UK Sport officials. [177947]

Mr. Sutcliffe *[holding answer 14 January 2008]:* The £30,000 allocated by UK Sport to the 2008 Legacy Lives Conference is an award made to support the overall running costs of the event.

As the UK's lead agency for world class events, UK Sport has made this award from its international directorate budget as part of its ongoing strategy to promote greater knowledge and debate about the legacy benefits that arise from public investment in major sporting events. UK Sport aims to be a world leader in legacy benefits and its ambition is to influence event owners worldwide as to the importance of harnessing this element of major sporting events.

Two representatives will attend from the UK, both from UK Sport, following invitations to be a keynote speaker and a workshop moderator. As well as giving a keynote address, John Scott is also attending meetings in Barbados with colleagues from the Association of National Anti-Doping Organisations, of which he is vice-president.

The cost per head is approximately £1,500 and this has been met entirely from resources within the original £30,000 investment.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what estimate UK Sport has made of the cost of sending a British baseball team to the final 2008 Olympics qualification event in Taiwan. [177948]

Mr. Sutcliffe *[holding answer 14 January 2008]*: UK Sport's current investment strategy does not provide funding to baseball and has therefore made no estimate of the cost of sending a British baseball team to the final 2008 Olympics qualification event in Taiwan.

The sport will not receive world class funding in the future as it is not on the competition programme for London 2012.

NORTHERN IRELAND

Burglary: Businesses

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many burglaries were reported in business premises and how many persons were convicted in each Police Service of Northern Ireland District Command Unit in each of the last 10 years. [174859]

Paul Goggins: Table 1 shows the number of offences of non-domestic burglary recorded from 2001-02 to 2006-07 by District Command Unit. As the DCU structure was only in place from 2001-02 figures are not provided prior to this financial year.

Non-domestic burglaries include burglaries which have occurred at locations which are not business premises, for example vacant houses, hotel rooms let out on short-stay basis, holiday homes/caravans not in use at the time, and also other buildings such as schools, halls etc. which may not be considered to be businesses. A manual trawl of each record would be required to establish whether the non-domestic burglary related to a business premises.

The number of recorded non-domestic burglaries fell by 3,296 (41.5 per cent.) between 2001-02 and 2006-07.

It is not possible to give the total number of convictions for burglary of a business as the court prosecution and conviction datasets do not contain information in relation to the type of dwelling involved. It is only possible to give the number of convictions for those offences, which refer to a non-dwelling. These are documented in Table 2.

Data are collated on the basis of principal offence; this means that only the most serious offence with which an offender is charged is included.

It is not possible routinely to reconcile recorded crime data from PSNI with prosecution and conviction data. Data from PSNI relate to the number of offences whereas data on prosecutions and convictions relate to the number of offenders brought before the courts. In addition, PSNI data denote each offence as it has been initially recorded and this may differ from the offence for which a suspect or suspects are subsequently proceeded against in the courts, therefore prosecution and conviction statistics should not be compared with the number recorded.

Table 1: Number of recorded offences of non-domestic burglary

[1] Includes the offences of 'burglary with intent to steal—non-dwelling', 'burglary and theft non-dwelling and burglary and attempted theft—non-dwelling.

[2] Missing data relate to those offenders for whom police DCU information is not available.

Emergency Services: Crimes of Violence

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were charged with attacking emergency service workers in each of the last five years. [164446]

Paul Goggins: While there is no specific offence of attacking emergency service workers, the following tables set out the number of offences against the person and criminal damage offences recorded and cleared where:

the primary occupation of the victim is recorded as the emergency services (although it is not known whether they were on or off duty at the time of the offence) or;

the details recorded of the victim indicate "emergency services" this denotes a general offence against an emergency service rather than a named individual (for instance an attack on a manned police vehicle or ambulance).

The term "offences against the person" covers a range of matters of varying severity, from minor incidents to more serious assaults.

Offences against the person where the victim's primary occupation is "emergency services"

	Offences cleared by means of charge/summons
2002-03	1,626
2003-04	1,748
2004-05	1,861
2005-06	2,121
2006-07	2,315

[1]Offences against the person include offences of assault on police.

Criminal damage where the victim is listed as "emergency services"

	Offences cleared by means of charge/summons
2002-03	140
2003-04	191
2004-05	212
2005-06	211
2006-07	282

The PSNI have stressed that these figures include all the emergency services, and that they encompass many incidents which, while categorised as "offences against the person", are relatively minor in nature. The majority relate to interactions between police and public during arrests, interventions in assaults etc. rather than deliberate premeditated attacks on police.

During recent years, as policing with the community embeds, officers are having more and closer interactions with the public during night time economy operations and therefore are more likely to intervene in tense situations.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Northern Ireland what plans his Department has to make use of data on the National Identity Register when it is established; and what the estimated annual cost to his Department of that use is. [174032]

Paul Goggins: The Northern Ireland Office will work with the Home Office prior to the introduction of the National Identity Scheme to establish how identity information held on the proposed National Identity Register might be used to provide easier access to the Department's services.

It is too early in the process to estimate the costs of using the register within the Northern Ireland Office.

Orange Halls

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland if he will bring forward legislative proposals to facilitate the provision of criminal damage compensation in relation to arson attacks on Orange halls. [177313]

Paul Goggins: The Orange Order is entitled to make claims for statutory compensation in accordance with the provisions of the Criminal Damage (Compensation) (Northern Ireland) Order 1977. Following a meeting in February 2007 between the then Secretary of State and representatives of the Orange Order, Ministers have been working with the Orange Order, PSNI and the Compensation Agency to ensure the existing system operates more effectively.

DEFENCE

Afghanistan: Armoured Fighting Vehicles

Mr. Gerald Howarth: To ask the Secretary of State for Defence for what reasons he chose the Ridgeback to meet his requirement for additional specialist protected vehicles for Afghanistan. [176279]

Mr. Bob Ainsworth: Ridgback is the name that will be given to the vehicle that the Ministry of Defence selects to meet the requirement for additional protected patrol vehicles for Afghanistan – a requirement stated by military commanders. We are considering a number of factors, including mobility, capacity and protection as part of our assessment work. Negotiations are continuing and I am withholding further details on the likely vehicle or vehicles being considered as their release would, or would be likely to prejudice the capability, effectiveness and security of our armed forces.

Armed Forces: Deployment

Mr. Jim Cunningham: To ask the Secretary of State for Defence what steps the Government have taken to improve the morale of armed forces personnel on operational duty. [179179]

Mr. Bob Ainsworth: The MOD spends some £54 million per year on the provision of welfare services for our forces on operations. The exact provision of welfare facilities is dependent on location and the operational situation, but wherever possible personnel should receive 30 minutes of free telephone calls per week to anywhere in the world; free e-mail and internet access; a free forces aerogramme (bluey), e-bluey, fax bluey and photo bluey service; a free postal packet service; access to TVs, radios, DVD players and video gaming machines; British Forces Broadcasting Service TV and radio transmissions; books, newspapers, magazines and board games; combined services entertainment live shows and celebrity visits; rest and recuperation (R and R); the provision of basic shop facilities; a free Christmas box; the provision of financial assistance to home units to assist with families' welfare; the provision of concessionary families' travel;

and post deployment leave. In both Iraq and Afghanistan, the nature of some operations means that our personnel can often be deployed from a permanent base to a forward operating base where facilities are necessarily more basic, but even in these situations we aim to provide iridium satellite telephones and Textlink e-mail/SMS messaging terminals as a minimum.

The morale of our forces personnel in operational areas is good.

Armed Forces: Pay

Dr. Fox: To ask the Secretary of State for Defence on how many occasions since 1977 the Government have not implemented in full the recommendations of the Armed Forces Pay Review Body. [178507]

Mr. Bob Ainsworth: Since 1977, the Government have always implemented in full the recommendations of the AFPRB. The implementation of the AFPRB's recommendations have, however, been staged on seven occasions, but where this has occurred they have always been effected within the same financial year.

Astute Class Submarines: Repairs and Maintenance

Willie Rennie: To ask the Secretary of State for Defence what estimate he has made of the cost of repairing the Astute submarine damaged during routine tests. [179039]

Mr. Bob Ainsworth *[holding answer 14 January 2008]:* Repair work is currently under way and progressing well. Costs will be agreed between the Department and BAE Systems once all repairs have been completed.

AWE Burghfield

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 17 December 2007, *Official Report*, column 1035W, on Atomic Weapons Establishment Burghfield, how many safety shortfalls *(a)* were identified by the Nuclear Installations Inspectorate during the risk assessment, *(b)* were resolved by the delayed 27 September 2007 target date, *(c)* will shortly be resolved and *(d)* will remain unresolved under the current single operation licensing regime imposed by the NII for each warhead handling operation; and if he will make a statement. [177368]

Mr. Bob Ainsworth: As I indicated in my answer to the hon. Member on 7 January 2008, *Official Report*, column 28W, the safety case issues in question were identified not by the NII, but by AWE plc in its own Periodic Review of Safety. A total of 1,000 safety shortfalls were identified and these ultimately translated into 337 improvement packages requiring further action. Of these improvement packages, 234 were completed by 27 September 2007 with a further 50 due to be completed by 31 March 2008. The remaining 53 improvement packages are due to be completed by 31 December 2008.

It is important to note that NII has made a full assessment of AWE's Periodic Review of Safety and is satisfied that appropriate progress is being made at AWE Burghfield to address the findings. It is emphasised that, if NII believed a particular operation were unsafe, it would not allow it to take place, and has appropriate regulatory powers at its disposal to cease operations.

Defence: Procurement

Mr. Carswell: To ask the Secretary of State for Defence what the value of private sector funds pledged by contractors for each equipment acquisition programme audited by the National Audit Office and reported on in major projects reports published since 2001 is as a percentage of the contract price. [171827]

Mr. Bob Ainsworth: This information is not held in the format requested.

Departmental Public Buildings

Dr. Fox: To ask the Secretary of State for Defence what percentage of listed departmental buildings are in a *(a)* good, *(b)* fair, *(c)* poor and *(d)* unknown condition. [177533]

Derek Twigg: There are 782 listed buildings on the defence estate. The condition of these buildings at the end of the last financial year and at 9 January 2008 is shown in the following table:

Category	At 31 March 2007		At 9 January 2008	
	Number	Percentage	Number	Percentage
Good	390	50	435	56
Fair	184	24	187	24
Poor	83	11	84	11
Unknown	125	15	76	9
Total	782	100	782	100

A programme is in place to establish 100 per cent. known condition by the end of this financial year.

Destroyers

Dr. Fox: To ask the Secretary of State for Defence how many months each Royal Navy destroyer in service spent *(a)* on operations and *(b)* in maintenance in each year since 1997. [165881]

Mr. Bob Ainsworth: Following the definitions of operations and maintenance I set out in my letter to the hon. Member on the 5 November, the number of months each Royal Navy Destroyer spent on both in each year since 1997 were as follows:

	1997		1998		1999	
Vessel	Op time	Maintenance	Op time	Maintenance	Op time	Maintenance
Edinburgh	6	2	7	2	6	3
Gloucester	8	1	3	7	2	4

	1997		1998		1999	
Vessel	Op time	Maintenance	Op time	Maintenance	Op time	Maintenance
Manchester	3	3	7	3	4	4
York	7	3	8	2	1	6
Exeter	2	8	0	9	5	2
Liverpool	9	2	6	2	7	2
Nottingham	5	2	7	2	2	9
Southampton	8	2	0	12	0	6

	2000		2002		2002	
Vessel	Op time	Maintenance	Op time	Maintenance	Op time	Maintenance
Edinburgh	1	7	7	3	5	2
Gloucester	6	2	7	2	0	12
Manchester	6	5	0	12	1	5
York	6	3	3	4	7	3
Exeter	6	3	7	2	4	5
Liverpool	6	2	0	11	1	5
Nottingham	0	10	4	2	4	8
Southampton	8	1	6	3	7	2

	2003		2004		2005	
Vessel	Op time	Maintenance	Op time	Maintenance	Op time	Maintenance
Edinburgh	6	3	5	3	1	8
Gloucester	1	5	7	2	4	3
Manchester	6	2	4	3	5	3
York	7	2	0	10	6	1
Exeter	1	7	9	2	4	2
Liverpool	9	2	4	3	7	2
Nottingham	0	12	1	6	6	2
Southampton	2	8	4	3	6	2

	2006	
Vessel	Op time	Maintenance
Edinburgh	5	2
Gloucester	6	3
Manchester	1	8
York	7	4
Exeter	3	3
Liverpool	7	3
Nottingham	6	3
Southampton	4	3

The figures given have been rounded to whole months.

The tables do not include leave, trials and work-up periods.

Ex-servicemen: Suicide

Mr. Ellwood: To ask the Secretary of State for Defence if his Department will record the number of suicides of former UK military personnel who have served in either Iraq or Afghanistan. [177356]

Derek Twigg *[holding answer 10 January 2008]:* The Ministry of Defence currently publishes data on detailed causes of the mortality (including suicide) of veterans of the 1990-91 operation in the Gulf, together with comparative data for a matched cohort of personnel who did not deploy. We have also commissioned research from the University of Manchester into suicide between 1996 and 2006 among personnel who have left the UK armed forces using data from the National Confidential Inquiry into Suicide and Homicide; we expect this to report later this year.

We are currently considering whether we should undertake further research, into the detailed causes of mortality for those taking part in the current operations in Iraq (Operation Telic) and Afghanistan (Operation Herrick).

Hercules Aircraft

Mr. Breed: To ask the Secretary of State for Defence what percentage of the RAF Hercules transport fleet currently in service have been fitted with foam fire suppressant in the wings. [177888]

Mr. Bob Ainsworth: I am withholding the information as its disclosure would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces.

All Hercules aircraft that are routinely deployed on operations in Iraq and Afghanistan are now fitted with Explosion Suppressant Foam.

Iraq: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence whether his Department defines current operations in *(a)* Iraq and *(b)* Afghanistan as small, medium or large-scale contingencies. [168904]

Des Browne: The operations in Iraq and Afghanistan are both classed as medium scale.

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* telephones and *(b)* computer terminals are currently available to service members for welfare use in (i) Iraq and (ii) Afghanistan. [175448]

Des Browne: There are currently 151 telephones and 136 computer terminals available solely for welfare purposes to personnel deployed in Iraq. There is, in addition, limited wireless internet coverage at the Contingency Operating Base in Basra. There are currently 213 telephones and 85 computer terminals available solely for welfare purposes to personnel deployed in Afghanistan. As my right hon. Friend the Prime Minister announced on 8 October 2007, *Official Report*, column 24, work is in hand to expand these numbers and provide free wireless internet to both theatres.

Military Aircraft

Nick Harvey: To ask the Secretary of State for Defence what the planned out of service dates for all fixed-wing aircraft were in each year since 1997. [176842]

Mr. Bob Ainsworth: Full information on historic out of service dates for all fixed-wing aircraft is not held centrally and could be provided only at disproportionate cost. Such information in respect of the current fleet as is readily available is provided in the following table. The table does not include commercially owned aircraft.

	Planned out of service date				
Aircraft	*1997 to 2003*[1]	*2004*	*2005*	*2006*	*2007*
Harrier GR7/GR9	2015	2015	2018	2018	2018

[1] Out of service dates (OSD) were unchanged during these years except where separately indicated below.
[2] The C-17 aircraft was initially acquired on lease in 2000. An agreement was signed in 2006 to purchase the leased aircraft.
[3] Aircraft entered service in 1999.
[4] On current plans one Islander aircraft will remain in service until 2038.
[5] OSD extended as a result of new aircraft entering service.
[6] Comprehensive data is unobtainable in the time available. It is known that the OSD was 2006 in 1995. The Major Projects Report 2000 quoted an OSD of 2008. On 17 January 2002 an OSD of 2009 was given in response to a parliamentary question.
[7] The OSD of Nimrod R1 is dependent upon Project Helix decisions and will be determined in due course.
[8] Comprehensive data is unobtainable in the time available. Known OSDs during 1997-2003 are as follows:
Tristar: OSD 2011 in 2002. VC-10: OSD 2007 in 2000, 2010 in 2001, 2011 in 2003.

Military Bases: USA

Norman Baker: To ask the Secretary of State for Defence if he will list those *(a)* establishments and *(b)* parcels of land where the US authorities have been granted exclusive occupation by his Department. [178154]

Mr. Bob Ainsworth: The United States Visiting Force has never been granted exclusive occupation of UK bases; rather they are made available under the terms of the NATO Status of Forces Agreement 1951, and other arrangements. The following establishments in the United Kingdom are currently occupied by the USVF under the terms of the NATO SOFA of 1951:

Blenheim Crescent, London.

Joint Maritime Facility at RAF St. Mawgan, Cornwall.

RAF Alconbury, Cambridgeshire.

RAF Barford St. John, Oxfordshire

RAF Croughton, Northants.
RAF Fairford, Gloucestershire.
RAF Feltwell, Norfolk
RAF Lakenheath, Suffolk.
RAF Menwith Hill, North Yorkshire.
RAF Mildenhall, Suffolk.
RAF Molesworth, Cambridgeshire.
RAF Upwood, Cambridgeshire.
RAF Welford, Berkshire.

In addition, Edison House and Providence Court in London are privately owned buildings that MOD leases on behalf of the USVF. The USVF also has family quarters housing allocated to them, in several locations in the UK.

UK nationals work in a variety of roles at all the principal USVF bases. At RAF Menwith Hill and the Joint Maritime Facility at RAF St. Mawgan there is a joint UK-US mission, where UK nationals are also employed in an operational role.

RAF Lyneham

Mr. Gray: To ask the Secretary of State for Defence what *(a)* existing military capabilities and functions will be retained and *(b)* new military capabilities and functions will be undertaken at the RAF Lyneham site once the Hercules fleets have been redeployed to RAF Brize Norton; what capabilities and functions undertaken at RAF Lyneham will be relocated; and to where they will be relocated. [178003]

Mr. Bob Ainsworth: It is not planned to retain any of the current military capabilities or functions at RAF Lyneham after the RAF withdraw from the Station in 2012. The capabilities and functions currently based at RAF Lyneham will be relocated to RAF Brize Norton.

Programme Belvedere is studying the long-term requirement for military helicopter bases in the UK, and RAF Lyneham is one of a number of sites currently under consideration. This work is still ongoing and no decisions have yet been taken. Once the Programme has reached its conclusions, these will be put forward for consultation and announced in the usual way.

Taliban: Peace Negotiations

James Duddridge: To ask the Secretary of State for Defence whether meetings between the Taliban and the British army would have to receive Ministerial approval from his Department before going ahead. [177508]

Des Browne *[holding answer 10 January 2008]:* UK operations in Afghanistan are undertaken in accordance with ministerially endorsed policy.

United Kingdom Hydrographic Office

Nick Harvey: To ask the Secretary of State for Defence whether he has discussed the conclusions of his Department's review of the United Kingdom Hydrographic Office with the Office of Fair Trading. [176701]

Derek Twigg: As owner of the UK Hydrographic Office, I commissioned a review of structural and ownership options in February 2007. I have not specifically discussed the conclusions of the study with the Office of Fair Trading, but in light of the OFT's market study on the Commercial Use of Public Information the study team held discussions with the OFT, exploring the handling of public sector data collated and used by the UKHO.

Unmanned Air Vehicles

Robert Key: To ask the Secretary of State for Defence for what reasons the UK is purchasing the MQ-9 unmanned aerial vehicle system from the US; what effect this purchase will have on the acquisition and introduction into service of the Watchkeeper UAV system; and if he will make a statement. [177281]

Mr. Bob Ainsworth: Three MQ-9 UAVs, known as Reaper, have been purchased under urgent operational requirement arrangements to provide an all-weather, persistent Intelligence, Surveillance, Target Acquisition and Reconnaissance capability over a wide geographical area. Reaper provides a separate and complementary capability to that which Watchkeeper will provide, and will not affect the acquisition or introduction into service of Watchkeeper.

Robert Key: To ask the Secretary of State for Defence (1) whether the Watchkeeper Tactical Unmanned Aerial Vehicle is designed to allow full alignment and transparency with manned aircraft for all flight rules, including ability to assess in-flight conditions; [177282]

(2) whether the Watchkeeper Tactical Unmanned Aerial Vehicle will comply with visual flight rules and instrument flight rules as they affect manned aircraft flying as operational air traffic; [177283]

(3) whether the Watchkeeper Tactical Unmanned Aerial Vehicle pilot-in-command will have the ability to assess in-flight conditions for visual flight rules flight. [177284]

Mr. Bob Ainsworth: For a number of technical and regulatory reasons, Watchkeeper, as with other Unmanned Air Vehicles cannot comply with either Visual Flight Rules or Instrument Flight Rules. In the context of UAVs, the Aircraft Commander's responsibility for collision avoidance is discharged by operating the UAV within defined airspace, from which other aircraft are excluded.

Robert Key: To ask the Secretary of State for Defence whether the Watchkeeper Tactical Unmanned Aerial Vehicle will be pre-programmed with an appropriate contingency plan in circumstances where the pilot-in-command is no longer in control of the TUAV. [177285]

Mr. Bob Ainsworth: Yes, in the event that communication with the air vehicle is lost it will join a pre-programmed and cleared route. The Watchkeeper software system has a flight plan validation tool that will ensure that the air vehicle will remain within its assigned airspace, and within glide range of designated emergency recovery points.

Robert Key: To ask the Secretary of State for Defence whether the Watchkeeper Tactical Unmanned Aerial Vehicle pilot-in-command will be provided with an independent means of communication with air traffic control. [177286]

Mr. Bob Ainsworth: The Watchkeeper system will be equipped with two radios, powered from different supplies, dedicated to air traffic control.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Peacekeeping Operations

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with the Government of Afghanistan on the release from prison of the Taliban leader Mullah Sorkh Naqaibullah. [178116]

Dr. Howells: We are deeply concerned at the alleged circumstances of the release of Mullah Sorkh Naqaibullah. This is a matter for the Afghan Government and we understand the Afghan National Directorate of Security is investigating the case. We intend to follow the situation closely.

Christmas

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on purchasing Christmas cards in 2007. [179264]

Meg Munn: I refer the hon. Member to the reply I gave him on 8 January 2008, *Official Report*, column 445W.

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on postage for Christmas cards in 2007. [179265]

Meg Munn: I refer the hon. Member to the reply I gave him on 8 January 2008, *Official Report*, column 445W.

Departmental Manpower

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the planned number of departmental staff is for financial years 2008-09 to 2010-11, broken down by strategic priority. [179177]

Meg Munn: The Foreign and Commonwealth Office currently employs some 6,000 UK civil servants ("UK-based staff") at home and abroad. The FCO's new strategic workforce plan predicts that over the next five years there will be a net reduction of some 400 staff against this figure.

As my right hon. Friend the Foreign Secretary told the House on 8 January, *Official Report*, column 150, the FCO will be focusing its future policy work on countering terrorism and weapons proliferation; promoting a low carbon high growth local economy; preventing and resolving conflict; and developing effective international institutions. It is not possible to give a breakdown of staff numbers working on each of these priorities over the next few years, since the vast majority of FCO staff work on more than one.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the average number of departmental staff was for financial years 2001-02 to 2006-07, broken down by post. [179204]

Meg Munn: The average number of UK civil servants employed by the Foreign and Commonwealth Office at home and overseas for the financial years 2001-02 to 2006-07 is 6,148.

We are not able to break this figure down by individual post. This would incur disproportionate cost.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the planned number of departmental staff is for financial years 2008-09 to 2010-11, broken down by post. [179205]

Meg Munn: The number of Foreign and Commonwealth Office staff at post is under constant review in the light of changing world circumstances, operational requirements and financial constraints. It is therefore not possible to give an accurate estimate of the number of staff at each post over the next three years. In the latest FCO departmental report for financial year 2006-07, the number of staff worldwide employed by the FCO is given as 6,364.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the average number of departmental staff was for financial years 2001-02 to 2006-07, broken down by strategic priority. [179206]

Meg Munn: The vast majority of Foreign and Commonwealth Office staff work on more than one strategic priority. The SPs were introduced in 2003 and updated twice in 2006. It is not therefore possible to give an accurate breakdown of the numbers of staff who worked on each of the SPs.

Disclosure of Information

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs when Ministers in his Department were told that senior officials in his Department believed that the leaking of documents by Mr. Derek Pasquill had helped to provoke a constructive debate. [179251]

Meg Munn: It has never been the view of senior officials that the leaking of documents by Mr. Pasquill helped provoke a constructive debate.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment *(a)* Ministers and *(b)* officials in his Department made of the harm caused to international relations by Mr. Derek Pasquill's disclosures before the decision was taken to prosecute him. [179252]

Meg Munn: The Foreign and Commonwealth Office provided a witness statement to the police setting out our considered assessment of the damage caused, by the disclosures, to international relations under Section 3 of the Official Secrets Act 1989.

The statement was given by a senior FCO official on behalf of the Department, but FCO Ministers were briefed on its contents.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations Ministers in his Department made to *(a)* the Crown Prosecution Service and *(b)* law officers in respect of the decision to prosecute Mr. Derek Pasquill under the Official Secrets Act 1989. [179253]

Meg Munn: Foreign and Commonwealth Office Ministers made no representation to the Crown Prosecution Service or law officers in respect of their decision to prosecute.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what the classification was of the documents disclosed by Mr. Derek Pasquill which fell within the meaning of the Official Secrets Act 1989. [179254]

Meg Munn: The documents disclosed by Mr. Pasquill contained official information ranging in sensitivity and classification, including seven documents classified as confidential and three documents classified as restricted.

India: Christianity

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with the Government of India on *(a)* violence and *(b)* destruction of Christian churches in the state of Orissa. [178532]

Dr. Howells: While such incidents remain an internal matter for the Indian authorities, we continue to monitor the situation and seek out opportunities to raise human rights issues, including the need for the right to freedom of religion to be upheld.

Iraq: Christianity

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Iraqi counterpart on the Christian minority in Iraq. [179113]

Dr. Howells: I refer the hon. Member to the answer I gave to the hon. Member for Belfast, North (Mr. Dodds) on 27 November 2007, *Official Report*, column 346W. Although my right hon. Friend the Foreign Secretary has had no discussions with his counterpart on the Christian minority in Iraq, we recognise that Christians in Iraq, like all other communities, have been badly affected by the high levels of violence in the country.

We continue to press the Iraqi Government to take action to protect people regardless of faith or political persuasion and to take tough measures against those perpetuating the violence. I raised our concerns about the position of Iraqi Christians in October 2007 with the Iraqi Minister of Human Rights during her visit to the UK.

Palestinians: Travel Restrictions

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department holds on movement restrictions in the West Bank and East Jerusalem in the form of *(a)* checkpoints, *(b)* roadblocks, *(c)* closures, *(d)* road gates, *(e)* trenches and *(f)* earth mounds (i) operated and (ii) removed by Israel since the start of November 2007. [178536]

Mr. Jim Murphy: The latest authoritative information that we have is from the Movement and Access Report produced by the United Nations Office for the Co-ordination of Humanitarian Affairs, covering the period 14-17 November 2007, published on 11 January 2008. The report records that 563 obstacles were present in the West Bank, compared with 561 in the previous report. This represents an increase of 185 obstacles, or 49.7 percent. over the baseline figure for August 2005.

The ability of Palestinians to move within the West Bank has deteriorated due to the continued or increased use of checkpoints, curfews, roadblocks, a permit system and the barrier. Permit and other restrictions have isolated residents of the West Bank from East Jerusalem and from each other.

Terrorism: Finance

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to his *Sunday Times* article of 6 January 2008, whether the extra £80 million he intends to spend on counter-radicalism is in addition to the £37 million announced in the comprehensive spending review. [179203]

Meg Munn: The £37 million announced in the comprehensive spending review is part of the £80 million that will be spent on counter radicalisation over the next three years.

Trade Unions: EC Grants and Loans

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what trade union programmes are currently funded under EU budget line *(a)* 04 03 03 01 and *(b)* 04 03 03 03 that pertain to training in (i) arbitration, (ii) industrial action, (iii) employment rights and (iv) work as a shop steward. [178236]

Mr. Jim Murphy: The Foreign and Commonwealth Office does not hold specific information on spending under these budget headings. Information on grants awarded under the social dialogue budget lines are freely available on the Commission's website

http://ec.europa.eu/employment_social/social_dialogue/grants_en.htm.

Turkey: Migration

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what research he has *(a)* commissioned and *(b)* evaluated on the migration consequences for the UK of Turkish membership of the EU; what assessment he has made of these migration consequences; what account he has taken of migration in formulating UK policy on Turkish membership; and if he will make a statement. [177462]

Mr. Jim Murphy: The Government have not commissioned any research specifically on the migration consequences for the UK of Turkish membership of the EU. The European Commission prepared an assessment of Turkish membership before the EU opened negotiations with Turkey in 2005 and a copy has been placed in the Library of the House.

UN Commission on the Limits of the Continental Shelf

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what geographical claims the UK intends to submit to the UN Commission on the Limits of the Continental Shelf on areas off *(a)* the north west coast of Scotland, *(b)* Northern Ireland and *(c)* other UK territories. [177297]

Meg Munn: The UK is considering making submissions to the CLCS in respect of four distinct areas, before the right to do so expires in May 2009. The four areas under consideration are:

'Hatton-Rockall' – an area of the north east Atlantic off the north west coast of Scotland;

the area around Ascension Island;

areas around the Falkland Islands and South Georgia; and

the area off British Antarctic Territory.

In 2006 the UK made a joint submission to the CLCS with France, Ireland and Spain in respect of an area of the Bay of Biscay, and all four states are working with the Commission towards the production of its conclusions.

UN General Assembly: Depleted Uranium

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how the United Kingdom voted on the United Nations General Assembly Resolution on the effects of the use of armaments and ammunitions containing depleted uranium, A/C.1.62/L.18/REV/i, on 5 December 2007; which other states voted in the same way; and what the reasons were for the UK vote. [177842]

Meg Munn: The UK opposed the resolution on the effects of the use of armaments and ammunitions containing depleted uranium at the UN General Assembly's First Committee. Israel, US, Netherlands and the Czech Republic also voted against the resolution.

The current consensus of scientific and medical experts, including reports published by the Royal Society, is that the use of depleted uranium for military purposes has not had any significant impact on the health of veterans or civilian populations. The UK is also aware that the US National Academy of Sciences is currently carrying out an independent review of the type mentioned in the resolution.

Whales

Bill Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with representatives of foreign Governments on whaling since the International Whaling Commission 59 meeting; and if he will make a statement. [177576]

Meg Munn: My right hon. Friend the Foreign Secretary has had no discussions with his foreign counterparts on this issue.

The departmental lead on this subject is the Department for Environment, Food and Rural Affairs. Officials from the Foreign and Commonwealth Office and DEFRA work closely together regarding whaling, in particular lobbying foreign Governments, emphasising the importance which the UK attaches to whale conservation.

On 21 December 2007, the UK, along with 29 other countries and the EU, made a formal diplomatic representation to the Japanese Government in Tokyo urging it to stop its lethal whaling programme in the Antarctic.

In January 2008, the FCO and DEFRA will launch a lobbying campaign spearheaded by the global distribution of the newly revised DEFRA brochure "Protecting whales – a global responsibility" including a foreword from my right hon. Friend the Prime Minister.

Bill Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to discuss whaling and the international moratorium on whaling with other Governments before the IWC60 meeting; and if he will make a statement. [177609]

Meg Munn: My right hon. Friend the Foreign Secretary has no current plans for discussions with his foreign counterparts on this issue.

The departmental lead on this subject is the Department for Environment, Food and Rural Affairs. Officials from the Foreign and Commonwealth Office and DEFRA work closely together regarding whaling, in particular lobbying foreign Governments, emphasising the importance which the UK attaches to whale conservation.

Upcoming initiatives include a conference organised by our embassy in Reykjavik in March to highlight the advantages of whale watching. Our embassy in Copenhagen is arranging a similar event, also in March, in which a range of people will participate, including the International Fund for Animal Welfare.

In January 2008, the FCO and DEFRA will launch a lobbying campaign spearheaded by the global distribution of the newly revised DEFRA brochure "Protecting whales – a global responsibility" including a foreword from my right hon. Friend the Prime Minister. Further targeted lobbying will be carried out by FCO posts in the run up to IWC 60.

Bill Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his foreign counterparts on whale conservation; and if he will make a statement. [177610]

Meg Munn: My right hon. Friend the Foreign Secretary has had no recent discussions with his foreign counterparts on this issue.

I refer the hon. Member to the answer I have given to him today (UIN 177576).

HOME DEPARTMENT

Alcoholic Drinks: Misuse

John Mann: To ask the Secretary of State for the Home Department what assessment she has made of the effect on public order of supermarkets selling alcohol at cost price. [168115]

Mr. Coaker *[holding answer 26 November 2007]*: The Government published their National Alcohol Strategy 'Safe.Sensible.Social' in June 2007. This strategy sets out how the Government plan to achieve significant reductions in the harms and cost of alcohol misuse over the next 10 years. The Government have commissioned an independent review which will look at the relationship between alcohol price, promotion and harm. This review will look at in what circumstances price (including discounting, advertising and other forms of promotion) drives overall consumption of alcohol and problem drinking in particular. This review is expected to report in July 2008, and following public consultation, the Government will consider the need for regulatory change if necessary.

Cannabis

Mr. Malins: To ask the Secretary of State for the Home Department if the Government will seek to re-classify cannabis as a class B drug. [178108]

Mr. Coaker: We will carefully consider the findings of the Advisory Council on the Misuse of Drugs when it submits its advice in April 2008 and we will then make a decision about whether or not to bring a proposal to Parliament to reclassify the drug.

Community Policing

Barbara Keeley: To ask the Secretary of State for the Home Department what progress has been made on the establishment of neighbourhood policing teams in England and Wales. [177778]

Mr. McNulty *[holding answer 14 January 2008]*: The Government are committed to ensuring every community has a neighbourhood policing team by April 2008 and forces are well on the way to achieving this. As at the end of December 2007, there were over 3,600 neighbourhood policing teams across England and Wales and 33 forces had already fully rolled out neighbourhood policing.

Crime Prevention: Voluntary Organisations

Keith Vaz: To ask the Secretary of State for the Home Department what support her Department gives to voluntary organisations that help reduce crime in communities. [176834]

Mr. Coaker: The Department is committed to working with voluntary sector organisations that play a crucial role in helping to shape, and where appropriate, deliver crime reduction services directly. In recognising this role at both regional and national level, the Home Office in 2007-08 provided over £3 million in financial support to several organisations, which demonstrates our continued support to our partnership with third sector organisations.

In addition, the Connected Fund Government funding for community groups has so far made over £1.75 million available to 400 small voluntary groups working on gun crime and related issues across the country.

The Home Office has also provided funding of £5.9 million in 2007-08 to Crime Concern for the Positive Futures Programme. Positive Futures is a national sports-based social inclusion programme which targets vulnerable young people in 30 areas worst affected by drug-related crime across the country.

Other financial support from the Home Office also benefits voluntary organisations. In 2007-08 this included over £21 million to the Youth Justice Board to fund youth crime prevention: third sector organisations are often key local delivery partners. The Tackling Gangs Action programme is working with third sector community groups as well as statutory providers to tackle gang activity and gun and knife crime. In addition, a substantial amount of Home Office funding is pooled with other funding through local area agreements to be spent locally, and again voluntary organisations are often key delivery partners locally in tackling crime in communities: in the current 2007-08 Financial Year the Home Office contributed £65 million resource and 18 million capital through local area agreements.

Crime: Internet

James Brokenshire: To ask the Secretary of State for the Home Department what recent representations she has received from *(a)* businesses and *(b)* organisations representing business on the establishment of a Police Central E-Crime Unit. [173822]

Mr. Coaker: The Secretary of State has not received any formal representations from business or business organisations regarding the establishment of a Police Central E-Crime Unit.

James Brokenshire: To ask the Secretary of State for the Home Department what discussions Ministers and officials in her Department have had with HM Treasury on funding for a Police Central E-Crime Unit. [173824]

Mr. Coaker: Home Office Ministers and officials have not held any discussions with HM Treasury regarding funding for any police e-crime unit.

James Brokenshire: To ask the Secretary of State for the Home Department when she expects to receive a business case for the establishment of a Police Central E-Crime Unit. [173825]

Mr. Coaker: The Home Office has received an initial business case from ACPO, and has asked for a more developed case to be presented. It is essential that any new unit formed has clear objectives, and does not overlap with any other law enforcement activity.

James Brokenshire: To ask the Secretary of State for the Home Department what recent assessment she has made of the effectiveness of legal sanctions in prosecuting the hiring of botnets to carry out phishing, directed denial of service and other cyber attacks on computer networks. [173829]

Mr. Coaker: The Government have introduced amendments to the Computer Misuse Act 1990 under section 5 (37) of the Police and Justice Act 2006 that creates a new offence of making, adapting or supplying articles for use in computer misuse offences. This offence covers the potential hiring out of botnets to carry such attacks. It is likely that this offence will come into force in April 2008. Guidance on the use of this new offence will be issued by the end of 2007.

James Brokenshire: To ask the Secretary of State for the Home Department what recent estimate she has made of the number of computers in the UK infected with malicious software enabling them to be used by third parties in botnet attacks. [173830]

Mr. Coaker: The Government recognise the problems of malicious software, and works with industry to encourage them to implement security solutions both on their networks and for consumers. The Government also support Get Safe Online, which provides consumers and businesses with information on how to protect themselves.

Extradition: EC Countries

Frank Dobson: To ask the Secretary of State for the Home Department whether all European extradition warrants are handled by the Serious Organised Crime Agency. [175763]

Meg Hillier *[holding answer 8 January 2008]*: SOCA is the designated authority for the receipt and transmission of all European Arrest Warrants in the UK, with the exception of Scotland where this function is performed by the Crown Office of the Procurator Fiscal.

Human Trafficking

Mr. Bone: To ask the Secretary of State for the Home Department what recent estimate she has made of levels of people trafficking into the UK. [177906]

Mr. Coaker: The nature of the crime makes it difficult to make an accurate assessment of the extent of the problem although intelligence suggests there has been an increase in the trafficking problem over the last few years. In order to better understand the situation the Serious Organised Crime Agency along with the United Kingdom Human Trafficking Centre continue to work on improving intelligence collection as a priority. The intelligence collected as part of the current Operation Pentameter 2 will assist with improving our understanding of the nature and scale of trafficking throughout the UK.

However, findings from a Home Office research paper estimates that at any one time in 2003 there were in the region of 4,000 female victims of trafficking for prostitution in the UK.

Police: Finance

Mr. Amess: To ask the Secretary of State for the Home Department (1) how much was spent by each police force defending actions brought against them by victims of crime in each year since 2001; [177134]

(2) how much was spent by each police force defending itself against vexatious litigation in each year since 2001; [177135]

(3) which *(a)* barristers' chambers and *(b)* solicitors' firms have undertaken work for each police force in England and Wales in each of the last two financial years; and what the reason for the work and the fees paid were in each case; [177136]

(4) which 10 barristers instructed by each police force in England and Wales received the highest sums for this work in the last two financial years; how much each received; and if she will make a statement. [177137]

Mr. McNulty: The information for all police forces in England and Wales is not held centrally and could be obtained only at disproportionate cost.

Decisions on the distribution of resources are matters for the chief officer and the police authority.

Police: Migration

Mr. Hollobone: To ask the Secretary of State for the Home Department what assessment she has made of the effect of likely increases in population on the delivery of policing services in *(a)* Government designated growth areas and *(b)* Northamptonshire. [162135]

Mr. McNulty *[holding answer 14 November 2007]*: Projections of population are one of the key components in the funding formula which determines the distribution of the main Government police grant between police authorities in England and Wales.

Since 1997, increases in Government funding for the police have far outstripped increases in population. In the case of Northamptonshire, Government funding has increased by 55 per cent., 22 per cent. in real terms, while its population has increased by 10 per cent.

Theft: Computers and Bicycles

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department (1) what steps the Government have taken to reduce computer theft; [177847]

(2) what steps the Government have taken to assist the public in protecting their bicycles from thieves. [177848]

Mr. Coaker *[holding answer 14 January 2008]*: There has been a strong drive from Government to reduce acquisitive crime since 1997, through targets, policy interventions and good practice development. Acquisitive crime has decreased significantly since the mid 1990s with a 34 per cent. reduction in personal acquisitive crime and a 55 per cent. reduction in household acquisitive crime between 1995 and 2006-07. This is equivalent to around 1 million fewer personal acquisitive crimes and almost 5 million fewer household acquisitive crimes.

Where these particular offences are problems in local areas, the police and other partners such as local authorities, will include them in their strategic assessments and priorities. A good example of local activity is Coventry Community Safety Partnership's work with two universities to purchase 1,000 licences which enable laptops to be tracked if stolen.

Regarding bicycle theft, in 2006 the Home Office published a "Steer Clear of Cycle Theft" leaflet providing crime prevention guidance for owners and law enforcement. Details can be found on the Home Office website (http://www.homeoffice.gov.uk/crime-victims/how-you-can-prevent-crime/). This advice includes security marking the cycle; keeping a copy of the details including colour and frame number (and taking a photograph); and, registering the details with a central database.

Theft: Metals

Dr. Iddon: To ask the Secretary of State for the Home Department what steps she is taking to deal with people who steal expensive metal objects to sell to scrap yards. [178000]

Mr. Coaker: We are aware that thefts of valuable metals have been increasing over recent months and we are working closely with the industries affected and the police to develop a response to tackle these crimes.

The Association of Chief Police Officers has set up a working group, chaired by the British Transport police and with Home Office representation, to assess the scale of such incidents. The aim of the group will be to establish an action plan which will address all aspects of the problem from national co-ordination to local responses to tackle metal thieves, including an examination of the current effectiveness of legislation relating to scrap metal recycling.

WORK AND PENSIONS

Child Support Agency

Mr. Steen: To ask the Secretary of State for Work and Pensions if he will take steps to ensure that hon. Members' constituency cases are not referred to regional Child Support Agency offices without hon. Members' consent; and if he will make a statement. [166904]

Mr. Plaskitt: Where parliamentary questions or correspondence from Members of Parliament refers to child support operational matters, the Minister will ask the Child Support Agency to respond on their behalf as the administration of the Child Support Agency is a matter for the chief executive.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You have asked the Secretary of State for Work and Pensions if he will take steps to ensure that hon. Members' constituency cases are not referred to regional Child Support Agency offices without hon. Member's consent; and if he will make a statement.

Where Parliamentary Questions or correspondence from Members of Parliament refers to Child Support operational matters, the Minister will ask the Child Support Agency to respond on his behalf.

I reply personally to all Parliamentary Questions, including those relating to constituency cases. The Agency's Head of Client Relations, Florence Lea, will reply to all other correspondence from hon. Members to the Minister relating to constituency cases.

In cases where an hon. Member writes directly to me as Chief Executive, the Agency's policy is that all such correspondence is dealt with by the Agency's Head of Client Relations, unless the hon. Member is content to receive a response direct from the regional centre dealing with their constituent's case.

I hope you find the answer helpful.

Council Tax Benefit

Dr. Cable: To ask the Secretary of State for Work and Pensions what the take-up rate of council tax benefit was in the last period for which figures are available; and if he will make a statement. [178384]

Mr. Plaskitt: Estimates of the take-up rate of council tax benefit are available in the DWP publication series entitled "Income Related Benefits Estimates of Take-Up in 2005-06". Copies of the latest publication, plus past reports, can be found in the Library.

Credit: Low Incomes

Tony Baldry: To ask the Secretary of State for Work and Pensions what steps the Government is taking to encourage initiatives from mainstream lenders to provide affordable credit to those on benefits and others at risk of financial exclusion. [177882]

Angela Eagle: I have been asked to reply.

The Financial Inclusion Task-force has defined the role for banks in respect of affordable credit as supporting the growth of third sector lenders. The Government's recent action plan for financial inclusion announced a commitment by the banks—building on successful work in partnership with Government to increase take-up of basic bank accounts, and their support for other financial inclusion initiatives—to support third sector affordable credit. This will include action to develop new provision in 25 high priority areas identified by the Financial Inclusion Task-force; the Government will work with the banks to identify areas most suitable for action.

Fuel Poverty

Mr. Carmichael: To ask the Secretary of State for Work and Pensions what plans his Department has to reduce fuel poverty in Scotland; and what account he has taken of the Scottish House Condition Survey in developing such plans. [177114]

Mr. Mike O'Brien: The Department of Business, Enterprise and Regulatory Reform and the Department for Environment, Food and Rural Affairs have the lead responsibility for the reduction of fuel poverty, although DWP works very closely with them to ensure that as many households as possible receive help. This is a Government priority and we are taking action throughout the UK to maximise benefit take-up and improve joined up working with the energy suppliers and across Government.

We are currently undertaking a fuel poverty partnership pilot with the energy industry. This targets 250,000 pensioners in receipt of pension credit throughout England, Scotland and Wales, which aims to increase the take-up of energy efficiency measures and Warm Front grants. In Scotland, 16,500 recipients of pension credit will be contacted. This is just one of a range of activities designed to tackle fuel poverty as part of the cross government 'Keep Warm Keep Well' initiative.

With reference to the Scottish House Condition Survey, the Fifth Annual Progress Report of the UK Fuel Poverty Strategy, published in December 2007 by DBERR and supported by DWP, draws on the data from that report.

Health and Safety Executive: Finance

Paul Rowen: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of future funding plans for the Health and Safety Executive on its ability to perform its role. [173795]

Mrs. McGuire: The Department is currently discussing funding for the 2007 spending review period with the Health and Safety Commission and the Health and Safety Executive. As part of this process, Ministers have asked HSC/E to maintain front-line inspector numbers for the next spending period, at least at the March 2008 level. HSC/E has been asked to prepare a business plan for my approval which sets out how they will perform their role. HSC/E's final spending settlement will be announced in the new year.

Jobcentre Plus: Computer Software

Dr. Pugh: To ask the Secretary of State for Work and Pensions for what reason the personal benefit advice software provided by Jobcentre Plus is compatible with MS Windows platforms only. [174090]

Mr. Mike O'Brien: The personal benefit advice software essentially mirrors that of the Department of Work and Pensions' own networked better off calculator which is available to staff, primarily within Jobcentre Plus.

The better off calculator has been developed for use on the Department's standard operating platform which, along with the personal benefit advice software, is MS Windows.

Jobseeker's Allowance

Chris Grayling: To ask the Secretary of State for Work and Pensions whether claimants may receive jobseeker's allowance for more than 18 months as a result of single claim; and if he will make a statement. [173900]

Mr. Plaskitt: Yes. Since May 1997, the number of people claiming jobseeker's allowance for 18 months and over has fallen from 292,700 to 29,900 in November 2007.

Pensions: Financial Assistance Scheme

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 17 December 2007, *Official Report*, columns 100-02WS, on Financial Assistance Scheme, whether the level of compensation in the amended Financial Assistance Scheme will be identical to that offered by the Pension Protection Fund. [175719]

Mr. Mike O'Brien *[holding answer 7 January 2008]*: The assistance provided by the financial assistance scheme will be broadly comparable in value to that provided by the Pension Protection Fund, though not identical. Because FAS pension schemes started winding up under the regulatory framework and individual pension scheme rules that predate the PPF, and as many FAS schemes will already have bought annuities for members as part of the winding up process, there will inevitably be differences in the structure of assistance provided. In practice, we believe that for the majority of beneficiaries these differences will not be substantial.

Social Security Benefits

Mr. Byers: To ask the Secretary of State for Work and Pensions how much was unclaimed in means-tested benefits in each of the last five years. [179146]

Mr. Plaskitt: Estimates of unclaimed means-tested benefits are available in the DWP publication series entitled "Income Related Benefits Estimates of Take-up". Copies of the latest publication, plus past reports, can be found in the Library.

COMMUNITIES AND LOCAL GOVERNMENT

Housing: York

13. **Hugh Bayley:** To ask the Secretary of State for Communities and Local Government if the Minister for Housing will visit York to discuss the city's housing needs. [178397]

Yvette Cooper: Yes.

Councillors: Diversity

14. **Nia Griffith:** To ask the Secretary of State for Communities and Local Government what progress has been made in increasing the number of councillors who are women or from ethnic minorities. [178398]

Mr. Dhanda: We set up the Councillors Commission to examine how a wider range of people, especially from under-represented groups like women and ethnic minorities, can be encouraged to become councillors. The Commission has published its findings in December and we will respond to their recommendations this spring.

Young People: Local Authority Decision Making

15. **Sarah McCarthy-Fry:** To ask the Secretary of State for Communities and Local Government if she will improve opportunities for the involvement of young people in decision-making by local authorities. [178399]

Hazel Blears: My Department is deeply committed to increasing opportunities for all people, including young people to be involved in decision-making by local authorities. Our ambitions to widen and deepen these opportunities are set out in our Community Empowerment Action Plan published in October 2007, which is jointly owned by the Local Government Association.

Home Information Packs

16. **Mr. Evans:** To ask the Secretary of State for Communities and Local Government what provisions the Government have put in place for the regular review of the effect of home information packs on the housing market. [178400]

Yvette Cooper: An independent report by Europe Economics on the impact of home information packs on the market was published by my Department on 22 November. The Government continue to monitor the impact of home information packs.

Community Land Trusts

17. **Mr. Drew:** To ask the Secretary of State for Communities and Local Government what additional help she plans to make available to encourage the setting up of community land trusts. [178401]

Yvette Cooper: We are supporting 14 pilots for community land trusts through the Housing Corporation by:

giving local communities access to land for affordable house building;

inviting trusts to bid for funding through the National Affordable Housing Programme; and

providing support through the Innovation and Good Practice Programme.

Council Housing

18. **Ms Keeble:** To ask the Secretary of State for Communities and Local Government what steps she plans to take to improve the quality of council housing. [178402]

Yvette Cooper: In 2001 we introduced the decent homes standard, which for the first time set minimum standard, for all council housing in England, we have already reduced the number of non-decent social sector homes by over one million.

By 2010 over £40 billion will have been invested in improvements to social housing and work will have been completed to over 3.6 million social-sector homes, with improvements for 8 million people in total, including 2.5 million children.

Energy-Efficient Homes

19. **Lynne Jones:** To ask the Secretary of State for Communities and Local Government what recent discussions she has had with the Department for Environment, Food and Rural Affairs on steps to improve domestic energy efficiency. [178403]

Mr. Iain Wright: Communities and Local Government and the Department for Environment, Food and Rural Affairs has a wide range of mutually reinforcing policies and programmes in place aimed at improving domestic energy efficiency. Discussions are held at ministerial and official level on a regular basis. Both Departments will be jointly launching a green homes strategy which will include what Government is doing to reduce emissions from the domestic sector.

Local Government Funding

20. **Greg Mulholland:** To ask the Secretary of State for Communities and Local Government if she will make a statement on the local government finance settlement for 2008-09. [178404]

John Healey: The provisional local government finance settlement was announced on 6 December 2007. The ensuing consultation on Government's proposals has now closed, and the House will have the opportunity to debate the Government's proposals in due course.

Violent Extremism

21. **Mr. Khalid Mahmood:** To ask the Secretary of State for Communities and Local Government what progress has been made through the Pathfinder projects in preventing violent extremism. [178405]

Hazel Blears: Over 200 projects are currently being delivered through the preventing violent extremism Pathfinder fund, which is building resilience to violent extremism in around 70 priority local authorities.

Firefighters

22. **Dr. Nick Palmer:** To ask the Secretary of State for Communities and Local Government if she will review the regulations governing ill-health retirement of firefighters. [178406]

Mr. Dhanda: Representations from stakeholders about the terms of the current regulations governing the ill-health retirement of firefighters are being carefully considered. A statement will be made once our assessment of the representations is completed.

It is not the intention of the current regulations, nor the explanatory guidance produced by Communities and Local Government, either in 2004 or 2006, to adversely affect firefighters' entitlement to an ill-health pension.

Pension benefits for life are available to those who are permanently unable to perform the duties of a firefighter. Otherwise, the Department believes that another post within the fire and rescue authority, or alternative local authority employment, should be considered.

Ujima Housing Association

23. **Mr. Rob Wilson**: To ask the Secretary of State for Communities and Local Government if she will make a statement on the financial position of Ujima Housing Association and consequent action taken by the Housing Corporation under the Housing Act 1996. [178407]

Yvette Cooper: On 20 December, Ujima issued a statutory notice to the Housing Corporation and sought a winding-up order from court on the basis that it was unable to meet its debts when they fell due. Statutory notices were also issued by some secured creditors of Ujima on 20 December (in relation to defaults against credit agreements) and on 21 December (confirming the appointment of receivers). This latter action triggered a Moratorium under Part 1 of the Housing Act 1996, during which time the Housing Corporation may put proposals to secured creditors to safeguard the interests of tenants, taxpayers and creditors.

Following the acceptance of the Housing Corporation's proposal by the secured creditors of Ujima Housing Association, the Housing Corporation on 14 January, appointed Grant Thornton as Manager under the 1996 Act to implement the transfer of Ujima's assets and liabilities to London and Quadrant Housing Group. We anticipate that the transfer should be complete this week.

Councillors' Commission

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what criteria her Department used to determine the membership of the Councillors' Commission; and what *(a)* remuneration and *(b)* expenses members of the Commission are entitled to. [171639]

John Healey: The membership criteria for the Councillors' Commission were:

substantial understanding of local government and the role of a councillor;

experience of community activism;

good understanding of the business/commercial perspective on councillors as employees;

awareness of ethics in public life; and

sound understanding of the Government's agenda for local government.

The Chair in particular was required to command the confidence of the stakeholders, especially the local government sector. None of the Commissioners were remunerated for their work, but their expenses were covered in relation to any costs arising from attending Commission meetings, events and other related visits.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 3 December 2007, *Official Report*, column 874W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 2002. [177178]

Mr. Dhanda: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-151WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Departmental Public Expenditure

Miss McIntosh: To ask the Secretary of State for Communities and Local Government for what reason she is proposing to reduce the floor of spending. [177983]

John Healey: When setting the levels of the floors within the local government finance settlement we need to strike a balance between affordability, the floor level and the scaling factor applied to authorities above the floor.

Departmental Secondment

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many staff have been seconded to *(a)* her Department and *(b)* each of its executive agencies, in the last 12 months; from which outside body they were seconded; and what the length was of each secondment. [176593]

Mr. Dhanda: Fifty-two secondments to Communities and Local Government began during the 12 months to 31 December 2007. The planned lengths of these secondments and the outside bodies from which the secondments were drawn are given in the following tables.

Length of secondment	*Number of secondments*
Less than or equal to six months	7
More than six months, less than or equal to one year	36
More than one year, less than or equal to two years	6
More than two years	3
Total	52

Outside body	*Number of secondments*
Audit Commission	2
Basildon District Council	1
Bedfordshire and Luton Fire and Rescue Service	1

Outside body	Number of secondments
British Urban Regeneration Association (BURA)	1
Buckinghamshire and Milton Keynes Fire Authority	1
Cambridgeshire Fire and Rescue Service	1
Centrepoint	1
Chief Fire Officers' Association	1
Cornwall Fire and Rescue Service	1
Devon and Somerset Fire and Rescue Service	1
East Sussex Fire and Rescue Service	1
Essex County Council	1
Essex County Fire and Rescue Service	1
Fire Control West Midlands Fire and Rescue Service	1
Greater Manchester Fire and Rescue Service	2
Groundwork UK	1
Hampshire Fire and Rescue Service	4
Hereford and Worcester Fire Rescue Service	1
Homeless Link	1
Humberside Fire and Rescue Service	1
Improvement and Development Agency	1
London Borough of Lambeth	1
London Civic Forum	1
London Fire and Emergency Planning Authority	1
MAple Access	1
Merseyside Fire and Rescue Service	1
Mid-Sussex District Council	1
Norfolk County Council	1
Norfolk Fire and Rescue Service	1
Northamptonshire County Council	1
Northumberland Fire and Rescue Service	1
Nottinghamshire Fire and Rescue Service	1
Nottinghamshire Probation Area	1
Oxfordshire Fire and Rescue Service	1
Revolving Doors Agency	1
South Wales Fire and Rescue Service	1
Staffordshire Fire and Rescue Service	1
Stoke on Trent City Council	1
Surrey Fire and Rescue Service	1
The Housing Corporation	2
Town and Country Planning Association	1
West Berkshire	1
West Sussex Fire and Rescue Service	1
West Yorkshire Fire and Rescue Service	1
Wiltshire and Swindon Fire Authority	1
Record not available at this time	1
Total	52

There were no secondments to the Queen Elizabeth II Conference Centre in the last 12 months. There was one secondment to the Planning Inspectorate from North Somerset council which is planned to last for nine months. There were 12 secondments to the Fire Service college beginning in 2007. These were drawn from local fire and rescue services listed as follows. Each of these secondments is intended to last for three years.

Outside bodies from which staff were seconded to the Fire Service college:

Devon and Somerset Fire and Rescue Service
Tyne and Wear Fire and Rescue Service
West Yorkshire Fire and Rescue Service
Cleveland Fire and Rescue Service
Northamptonshire Fire and Rescue Service
Staffordshire Fire and Rescue Service
Greater Manchester Fire and Rescue Service
Warwickshire Fire and Rescue Service
Fife Fire and Rescue Service
Staffordshire Fire and Rescue Service
Gloucestershire Fire and Rescue Service
Central Scotland Fire and Rescue Service

Digital Technology

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to promote digital inclusion. [176207]

John Healey: The Department's work on digital inclusion is aimed at ensuring that all local authorities and local strategic partnerships have the capacity and capability to take advantage of new technologies in supporting communities and place shaping, and delivering on the Local Government White Paper.

This work includes continuing support to the winner of 2007's digital challenge competition, Sunderland city council, and the nine other finalists in their efforts to jointly develop good practice on digital inclusion initiatives and to promote digital inclusion as an aid to the successful delivery of local area agreements; a new digital inclusion theme for the beacon scheme in 2008; and funding the national digital inclusion team which runs a programme to explore and exploit the application of digital technologies to benefit socially excluded people across England.

Empty Property: Farms

Tim Farron: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of disused farm buildings in England. [179298]

Mr. Iain Wright: The information requested is not held centrally and could be provided only at disproportionate cost.

English Language

Damian Green: To ask the Secretary of State for Communities and Local Government how much her Department has spent on English language classes for staff in the last year for which figures are available. [177430]

Mr. Dhanda: My Department has not incurred any expenditure on English language classes for staff.

Fire Services: Costs

Mr. Sanders: To ask the Secretary of State for Communities and Local Government what the costs of support services as a percentage of total costs were for each fire authority in each of the last five years for which figures are available. [177437]

Mr. Dhanda: It is not possible to derive meaningful estimates of the cost of support services from the information collected from fire authorities, given the significant differences between years and between authorities in how support services costs are classified in their accounts.

Fire Services: Finance

Mr. Goodwill: To ask the Secretary of State for Communities and Local Government what factors were taken into account in determining the 2008-09 North Yorkshire fire and rescue provisional budgetary settlement. [178015]

Mr. Dhanda *[holding answer 14 January 2008]:* The distribution of formula grant takes into account the relative needs and potential to raise income locally (resources) of an authority, relative to all other authorities providing the same service. It also contains a central allocation and a floor damping mechanism.

For North Yorkshire fire and rescue the needs component is measured through the Fire and Rescue Relative Needs Formula (RNF) and the Capital Finance RNF. The Fire and Rescue RNF takes into account the resident population, coastline, deprivation, high risk sites, property and societal risk and community fire safety. The capital finance RNF takes into account assumed outstanding debt and supported capital expenditure (revenue).

The resources element uses a measure of the council tax base (number of Band D equivalent properties).

From the proposals for the 2008-09 settlement announced on the 6 December, North Yorkshire will also benefit by £1.71 million from the floor damping mechanism. This will ensure that they receive a 1 per cent. increase in grant on a like for like basis.

Government Offices for the Regions: Consultants

John McDonnell: To ask the Secretary of State for Communities and Local Government how much the Government Offices of the Regions spent on *(a)* running costs and *(b)* programme expenditure on consultants in (i) 2004-05, (ii) 2005-06 and (iii) 2006-07. [178500]

Mr. Dhanda *[holding answer 14 January 2008]:* The Government Offices for the Regions spent the following running cost amounts on consultancy:

	£
2004-05	4,133,464
2005-06	3,505,194
2006-07	2,427,162

The Government Offices receive financial delegations to incur programme expenditure on behalf of the sponsor Departments, however this is recorded against the accounts of the Departments and no central records are retained within the GOs of programme expenditure.

Housing Data Domain Group

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the answer of 16 October 2007, *Official Report*, column 1035W, on the Housing Data Domain Group, whether her Department compiles neighbourhood or local statistics on family breakdown. [176454]

Mr. Iain Wright: Communities and Local Government does not compile neighbourhood or local statistics on family breakdown.

Housing: Construction

Mr. Beith: To ask the Secretary of State for Communities and Local Government whether the provisions of the Housing Green Paper relating to house building targets are intended to be applied by planning authorities in determining planning applications currently under consideration or taken into account for planning applications currently subject to appeal before legislation is enacted. [177445]

Mr. Iain Wright: Local planning authorities must determine planning applications in accordance with the statutory development plan, unless material considerations indicate otherwise.

Government national statements of planning policy, such as planning policy for housing policies set out in Planning Policy Statement 3, and other policy, such as the house building targets set out in the Housing Green Paper 'Homes for the future: more affordable, more sustainable', are capable of being material considerations to be taken into account by local planning authorities, the Planning Inspectorate Agency or other relevant decision taker, in determining planning applications.

It is for the relevant decision taker to determine the weight to be given to any material consideration depending on the circumstances of any individual case.

Justine Greening: To ask the Secretary of State for Communities and Local Government how many *(a)* houses and bungalows and *(b)* flats and maisonettes she expects to be built as part of her Department's target of 3,000,000 new homes by 2020; and if she will make a statement. [179247]

Mr. Iain Wright: The Government target is in terms of net additional dwellings and is not divided between flats and houses. It is for regional and local planning authorities to plan for an appropriate mix of housing.

Housing: Low Incomes

Mr. Harper: To ask the Secretary of State for Communities and Local Government what estimates she has made of *(a)* the number of affordable houses that will be built by (i) 2010 and (ii) 2020 and *(b)* the proportion of those that will be accessible. [179348]

Mr. Iain Wright: We announced in the Housing Green Paper an increase of new affordable housing to at least 70,000 per annum by 2010-11. Of these 45,000 homes will be for social rent and 25,000 for low cost home ownership. We have a goal to go further in subsequent years to 50,000 new homes for social rent in the next spending review period.

The number of social rented homes to be provided from 2011-12 will be the subject of further spending reviews.

The Housing Corporation is committed to increasing the number of homes built to Lifetime Homes Standards (LHS) in their 2008 to 2011 Affordable Housing programme and are actively seeking to encourage bids to include LHS in the current bidding round. From 2011, public sector funded homes will be built to LHS.

Housing: Planning

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what plans she has to amend planning regulations on the conversion of family homes into bed sits. [176739]

Mr. Iain Wright: Under existing planning regulations, the conversion of a dwelling house into bed sits may require planning permission, depending on the characteristics of the proposed domestic arrangements and whether these are deemed to result in a material change of use. The Government recognise that there may be instances where the use of dwelling houses in group occupation may have adverse impacts upon the character and amenity of existing neighbourhoods. We intend to conduct further research into the extent of this problem and possible ways of addressing it. There may be a case for amending the Town and Country Planning (Use Classes) Order 1987 to strengthen the ability of local planning authorities to control the proliferation of houses in multiple occupation (HMOs). We propose to consult on possible amendments to the Use Classes Order in relation to HMOs later in the year.

Housing: Waiting Lists

Shona McIsaac: To ask the Secretary of State for Communities and Local Government how many households were on waiting lists for housing in *(a)* Cleethorpes constituency and *(b)* Great Grimsby constituency in each year since 1997. [176873]

Mr. Iain Wright: Information is collected at the local authority level. Cleethorpes constituency and Great Grimsby constituency falls within North East Lincolnshire council. The number of households on the waiting list for social housing in North East Lincolnshire council in each year since 1997, as at 1 April each year, is published on the Communities and Local Government website in Table 600. The figures for 2007 will be available by February 2008. The link for this table is as follows:

http://www.communities.gov.uk/documents/housing/xls/144458

Specifically, the waiting list for social housing in North East Lincolnshire council in each year since 1997 is given in the following table:

Households on the waiting list (excludes households looking for transfers)—North East Lincolnshire UA

	Number
1997	5,545
1998	4,279
1999	4,480
2000	3,130
2001	2,851
2002	3,155
2003	3,735
2004	3,067
2005	3,948
2006	4,181

Note:
As reported by local authorities.
Source:
Communities and Local Government Housing Strategy Statistical Appendix return (HSSA).

Local authorities in England report the numbers of households on their housing waiting list as at 1 April in their annual Housing Strategy Statistical Appendix returns. Not everyone on the waiting list is necessarily in urgent housing need. The waiting list includes those who consider social housing as their preferred or one of a number of housing options, and those who decide to get onto the waiting list ladder before they need or want to move house—particularly where the priority system is heavily based on waiting time. The size of the waiting list is not an indicator of absolute need, it is only useful as a broad indicator of housing demand in an area.

Local Authorities: Planning Permission

Norman Baker: To ask the Secretary of State for Communities and Local Government in what circumstances an intention by a local planning authority to issue a temporary planning permission is called in by her Department; how many such call-ins have occurred since 1 January 2005; and if she will make a statement. [178163]

Mr. Iain Wright: The Government's policy on calling-in planning applications, including those involving temporary planning permission, was set out by my right hon. Friend the Member for Sheffield, Central (Mr. Caborn) in reply to the former hon. Member for Sheffield, Heeley (Bill Michie) on 16 June 1999, *Official Report*, column 138. Since 1 January 2005, there has been one planning application seeking temporary planning permission called in for determination by the Secretary of State.

Local Government Finance

Mr. Swire: To ask the Secretary of State for Communities and Local Government what the cost of each bid for unitary status was in 2007, broken down by main budget heading. [174191]

John Healey: We do not hold information on the cost of preparing unitary proposals. The invitation to councils issued on 26 October made clear that it was wholly at the discretion of a council as to whether or not it responded to the invitation to make a proposal for future unitary local government structures in their area. It was for the authorities who submitted proposals to judge the level of resource they would apply to preparing proposals.

Local Government: Housing

Paul Holmes: To ask the Secretary of State for Communities and Local Government which local authorities managing their own housing stock are in *(a)* positive and *(b)* negative subsidy. [175008]

Mr. Iain Wright: Lists of authorities managing their own housing stock which were in positive and negative housing revenue account subsidy in 2005-06 (the last year for which we had audited data) are as follows.

Authorities which have retained their stock and are part of the subsidy system, but who had delegated the management of their housing stock to an arm's length management organisation at that time have been omitted from the lists.

Local authorities managing their own housing stock 2005-06

Minimum Wage

Jon Trickett: To ask the Secretary of State for Communities and Local Government how many London-based staff are employed by her Department on the national minimum wage. [175974]

Mr. Dhanda: All of the staff employed by the Department are paid more than the national minimum wage.

Motor Vehicles: Arson

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many deliberate road vehicle fires occurred in *(a)* 1996-97 and *(b)* the most recent year for which figures are available in Wales and each Government office region in England. [176179]

Mr. Dhanda: The information requested is in the following table, showing both the most recent financial year (2005-06) and the most recent calendar year (2006).

Deliberate road vehicle fires, England and Wales, England, and Government office regions, 1996-97, 2005-06 and 2006

	1996-97	*2005-06*	*2006*

Note:
Data for 2006 are provisional.

Non-Domestic Rates

Mr. Kidney: To ask the Secretary of State for Communities and Local Government what changes she proposes to make to the *(a)* precepting, *(b)* collection and *(c)* distribution of non-domestic business rates following the Lyons Report. [178466]

John Healey: The Lyons report did not recommend substantial changes and there are no plans to alter the current precepting, collection and distribution national non domestic rates regime. However, following the Lyons Report the White Paper "Business Rate Supplements", published in October 2007, set out the Government's plan to introduce powers for local authorities to levy a supplement on business rates.

Non-Domestic Rates: Tax Allowances

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will publish her Department's review of business rate reliefs and exemptions. [176254]

John Healey: Business rates reliefs and exemptions were reviewed as part of the ongoing maintenance of running the business rates system by Communities and Local Government. No document was drawn together for publication.

Planning Inspectorate: Consultants

Mr. Drew: To ask the Secretary of State for Communities and Local Government how much the Planning Inspectorate spent in *(a)* running costs and *(b)* programme expenditure on consultants in (i) 2004-05, (ii) 2005-06 and (iii) 2006-07. [178971]

Mr. Iain Wright: The information requested is as follows:

	2004-05	*2005-06*	*2006-07*
Running costs	1,661,509.98	1,433,169.89	1,083,585.54
Capital	1,163,441.94	1,839,694.08	406,863.20
Total spend	2,824,951.92	3,272,863.97	1,490,448.74

Note
The Planning Inspectorate (PINS) is programme funded and therefore all PINS expenditure is classified as programme expenditure.

Planning Permission: Playing Fields

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government how many planning applications have been approved affecting playing field sites of *(a)* more than and *(b)* less than 0.4 hectares in each year since 2001-02; and if she will make a statement. [177054]

Mr. Sutcliffe: I have been asked to reply.

Sport England collect information on all planning applications affecting playing fields of 0.4 hectares or more through their status as a statutory consultee. The following table shows the number of approved planning applications for all years since 2001 for which we have published data. These figures do not necessarily represent the 'threat' to playing fields, as many applications are from clubs and schools wishing to improve the quality of their playing fields and sporting provision. The second column therefore shows the percentage of these applications that represent a benefit or no change to sporting provision.

	Number of approved planning applications	*Percentage representing a benefit or no change to sporting provision*
2001-02	695	92
2002-03	807	90
2003-04	959	95
2004-05	910	95

Information on planning applications affecting playing fields of 0.2 hectares or under is not collected centrally. However, the Department for Communities and Local Government has committed to consulting this year on reducing from 0.4 hectares to 0.2 hectares the threshold at which Sport England must be consulted when a planning application for development is submitted.

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government when her Department plans to *(a)* consult on the proposals in the Town and Country Planning (General Development Procedure) Order 1995 on playing fields of 0.2 hectares and above and *(b)* bring forward the changes recommended in the Town and Country Planning (General Development Procedure) Order 1995 announced in her Department's press release Planning to Safeguard Open Spaces and Playing Fields of July 2002. [177055]

Mr. Iain Wright: We are committed to reducing the threshold for statutory consultation on the sale of playing fields from 0.4 ha to 0.2 ha and this topic will be included in the consultation paper on the review of statutory consultees to be published in due course. We hope to bring forward amendments to the Town and Country Planning (General Development Procedure) Order 1995 following consultation.

Public Buildings: Fire Prevention

Mr. Hancock: To ask the Secretary of State for Communities and Local Government if she will seek discussions with Cabinet colleagues on reviewing guidance on fire reduction *(a)* regulation and *(b)* technology in relation to publicly owned buildings; and if she will make a statement. [178242]

Mr. Dhanda: My Department has published technical risk assessment guidance for those responsible for fire safety under the Regulatory Reform (Fire Safety) Order 2005. This order applies to all non-domestic buildings and includes publicly owned buildings. As with all guidance documentation, my Department will keep this under review.

Regional Planning and Development: East Midlands

Sir Peter Soulsby: To ask the Secretary of State for Communities and Local Government which hon. and right hon. Members made formal submissions to the public consultation on the draft East Midlands Regional Plan. [178204]

Mr. Dhanda: The following hon. and right hon. Members made formal representations on the Draft East Midlands Regional Plan:

Right hon. and learned Member for Rushcliffe (Kenneth Clarke);

Hon. Member for Bassetlaw (John Mann);

Hon. Member for Leicester South (Sir Peter Soulsby);

Hon. Member for South Derbyshire (Mark Todd).

Regional Planning and Development: Planning Inspectorate

Sir Peter Soulsby: To ask the Secretary of State for Communities and Local Government what guidance her Department issues to the Planning Inspectorate on the admission of oral representations from hon. Members during examinations in public of regional plans; and how many hon. Members were invited to make oral representations to the examination in public of the draft East Midlands Regional Plan. [178995]

Mr. Iain Wright: Guidance on examinations in public (EiP) of draft regional spatial strategies is set out in PPS11: regional spatial strategies.

It is the responsibility of the panel to select matters that it considers ought to be examined and participants in an examination are invited by the panel, having regard to the nature of the representations they made during the consultation on the draft RSS and the contribution they can be expected to make to the specific matters to be discussed. In the case of the East Midlands no hon. Members were invited to attend.

Social Services: Asylum

Mr. Steen: To ask the Secretary of State for Communities and Local Government what additional funds were made available to local authority social services to provide care for unaccompanied asylum seeking children in each of the last three years, broken down by local authority; and if she will make a statement. [176121]

Mr. Byrne *[holding answer 7 January 2008]*: I have been asked to reply.

The grant payments made by the Home Office to local authorities in respect of unaccompanied asylum seeking children over the past three years are set out in the tables placed in the House Library.

UK Location Strategy

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what plans she has for consultation on the UK Location Strategy. [175655]

Mr. Dhanda: Place Matters: The Location Strategy for the United Kingdom was submitted to Ministers by the UK Geographic Information Panel in October 2007. It was formulated following wide consultation across the UK geographic information industry and related interests. The strategy provides a framework for the better management and stewardship of public sector information.

Decisions will be made shortly on how best to take forward the recommendations contained within the strategy.

Unitary Councils

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for publication of the first draft unitary implementation orders. [171615]

John Healey: The first draft unitary implementation orders were laid on 17 December 2007.

Youth Services: Finance

Keith Vaz: To ask the Secretary of State for Communities and Local Government (1) what schemes funded by her Department can be applied to by organisations that help young people in the community; [173468]

(2) what support her Department has given to voluntary organisations that work with young people in the community in each of the last five years. [173469]

John Healey: Communities and Local Government (CLG) is committed to supporting work to improve outcomes for young people. In October 2007 we published an Action Plan for Community Empowerment: Building on Success, with a key theme of empowering young people to shape their local services. Examples of current initiatives include the Young Advisors scheme which trains young people aged 15 to 21 to act as consultants to ensure the views of young people are considered in local authority decisions affecting them.

The total departmental budget comprises support from specific programmes, in addition to support through generic schemes such as the Neighbourhood Renewal Fund and Supporting People. Many of these programmes support organisations that work with young people. The level of support through these programmes for the voluntary and community sector is not held centrally. We estimate that our specific funding programmes for the voluntary and community sector over the last five years have provided support totalling:

	Estimated total (£ million)
2003-04	21.5
2004-05	26.5
2005-06	29.5
2006-07	32.5
2007-08	29.5

Information about any future funding schemes will be posted on our Department's website.

DUCHY OF LANCASTER

Abortion

Mr. Amess: To ask the Chancellor of the Duchy of Lancaster what files are held by the Cabinet Office on *(a)* the Abortion (Amendment) Bill of Sessions (i) 1979-80, (ii) 1987-88 and (iii) 1989-90, *(b)* the Unborn Children (Protection) Bills of sessions (A) 1984-85, (B) 1985-86 and (C) 1987-88 and *(c)* the Human Fertilisation and Embryology Bill of session 1989-90; and if he will make a statement. [177570]

Gillian Merron: As indicated in the Guide to Legislative Procedures which is published on the Cabinet Office website, it is normal practice for all private Members' Bills to be considered by the Cabinet Committee on legislation.

Information on the proceedings of all Cabinet committees, including when meetings are held and what is discussed, is retained for the historical record but is not normally released until after 30 years.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster whether any of his Department's special advisers also work for organisations outside his Department. [178485]

Gillian Merron: Special advisers are appointed under terms and conditions set out in the "Model Contract" and "Code of Conduct for Special Advisers", copies of which are available in the Library of the House.

Departmental Publicity

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster (1) how many full-time equivalent staff are responsible for brand management and marketing in his Department and its agencies; [165234]

(2) how much his Department and its agencies spent on staff working on *(a)* marketing and *(b)* branding in the last 12 month period for which figures are available. [167312]

Gillian Merron: In the last 12-month period for which figures are available (1 November 2006 to 31 October 2007) the Cabinet Office spent £23,800 on staff costs for work on marketing along with branding. From 1 April 2007, the Cabinet Office outsourced all its central external marketing function (including managing its brand) to the Central Office of Information (COI). Some general communications staff across the Department have marketing and branding functions, along with other communications functions such as strategy and planning, dealing with the media, internal communications and e-media.

Government Departments: Data Protection

Mr. Vara: To ask the Chancellor of the Duchy of Lancaster pursuant to the written statement of 17 December 2007, *Official Report*, column 98WS, on data handling procedures in Government and the Cabinet Secretary's interim progress report, how many Government Departments or agencies store data outside the UK; and how many people's details are stored in this way. [177166]

Gillian Merron: I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. The Cabinet Office published an interim progress report on 17 December 2007, *Official Report*, column 98WS. A further report is expected in spring 2008.

Ministers: Grace and Favour Housing

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster with reference to the answer of 17 October 2007, *Official Report*, column 1135W, on Ministers: grace and favour housing, whether Lord Malloch-Brown moved into the same ministerial residence as previously occupied by the right hon. Member for Kingston upon Hull. [176899]

Gillian Merron: I refer the hon. Member to the answer given to him by the Chancellor of the Duchy of Lancaster (Edward Miliband) on 27 November 2007, *Official Report*, column 352W.

Planning Permission

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster what planning applications the Cabinet Office has submitted in relation to requests for planning permission on its properties inside London in the last 12 months; in what buildings; and for what purposes. [176343]

Edward Miliband: I refer the hon. Member to the answer I gave to him on 17 December 2007, *Official Report*, columns 1084-85W.

Youth Volunteering

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer to the hon. Member for South Ribble of 12 December 2007, *Official Report*, column 562W, on youth volunteering, how many young people *(a)* have undertaken voluntary work arranged by v since its establishment and *(b)* are in a voluntary role arranged by v. [178350]

Phil Hope: Young people do not volunteer directly through v, they volunteer through local, regional and national organisations that v commissions to provide volunteering opportunities.

v is currently collating up-to-date information on the number of young people who have volunteered through the projects that they fund. This information will be available in February 2008.

PRIME MINISTER

Departmental Publicity

Mr. Philip Hammond: To ask the Prime Minister (1) how much his office spent on staff working on *(a)* marketing and *(b)* branding in the last 12 month period for which figures are available; [167298]

(2) how many full-time equivalent staff are responsible for brand management and marketing in his office. [169502]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) today.

HEALTH

Accident and Emergency Departments: Industrial Health and Safety

Mr. Evans: To ask the Secretary of State for Health (1) how many nurses were *(a)* injured and *(b)* killed while on duty in accident and emergency wards in each of the last five years; [178931]

(2) how many ambulance paramedics were *(a)* injured and *(b)* killed while on duty in each of the last five years. [178932]

Ann Keen *[holding answer 14 January 2008]*: The information is not available. It is being collected and is expected to be available in spring 2008. We will arrange to place a copy of this information in the Library in due course.

Alcoholic Drinks: Health Education

Mr. Lansley: To ask the Secretary of State for Health when he intends to launch his Department's national communications campaign to raise awareness of alcohol, as described in paragraph 2.36 of his Department's Cancer Reform Strategy; and for how many years he anticipates the national communications campaign will run. [174680]

Dawn Primarolo: The Department of Health and Home Office will jointly launch a much expanded, multi-million pound public health and education campaign on alcohol from April 2008 to challenge public tolerance of drunkenness and drinking that causes harm to health.

As outlined in the Government's strategy 'Safe, Sensible, Social', the national campaign will aim to raise the public's knowledge of units of alcohol and the Department's sensible drinking guidelines, promote advice around drinking and pregnancy, and target drinkers who harm their health and that of their families and friends. The current campaign targeting 18 to 24-year-old binge drinkers will continue. We expect the overall national campaign to run over a number of years.

Mr. Lansley: To ask the Secretary of State for Health who he intends will develop the targeted information and advice for people who drink at harmful levels, as described in paragraph 2.36 of his Department's Cancer Reform Strategy. [174890]

Dawn Primarolo: Targeted information and advice for people who drink at harmful levels will be established based on research commissioned by the Central Office of Information and the Department.

Barnet Primary Care Trust: Drugs

Mr. Dismore: To ask the Secretary of State for Health how much was spent on drugs and pharmaceuticals by Barnet Primary Care Trust in 2006-07; what estimated expenditure on such products is for *(a)* 2007-08 and *(b)* 2008-09; and if he will make a statement. [178072]

Mr. Bradshaw: Barnet primary care trust (PCT) spent a total of £46,984,000 on drugs and prescribing in 2006-07. Estimated expenditure for 2007-08 and 2008-09 is not collected centrally.

Source: 2006-07 audited summarisation schedules and financial returns for the PCT.

Barnet Primary Care Trust: Finance

Mr. Dismore: To ask the Secretary of State for Health what percentage change in revenue allocation Barnet primary care trust will receive for 2008-09; and what progress has been made in returning top sliced and other withheld funds relating to previous years to Barnet primary care trust. [178074]

Mr. Bradshaw: In 2008-09, all primary care trusts (PCTs) will receive an above-inflation cash increase of 5.5 per cent. Barnet PCT will receive a 2008-09 revenue allocation of £485.8 million, a cash increase of £25.2 million from 2007-08.

In 2006-07 Barnet PCT had £12.8 million funds topsliced. £2.9 million of this topslice was returned at the end of 2006-07 and a further £7.8 million has been returned in the current financial year.

Cancer: Health Services

Mr. Lansley: To ask the Secretary of State for Health on what date his Department initiated its review of customer experience information, as described in paragraph 5.73 of his Department's Cancer Reform Strategy; what the cost to the public purse has been of his Department's review of customer experience information; and if he will make a statement. [175113]

Ann Keen: The review of customer experience information started in October 2007. This review fulfils a commitment made in the 'Our Health, Our Care, Our Say' White Paper:

"To facilitate the better use of surveys, the Department of Health will review the (national patient) survey programme" (paragraph 7.21).

The cost of this work is £249,000 and it is due to conclude in February 2008.

The project scope is to look at how we might collect the most appropriate feedback from patients and users and ensure it is being used at all the right levels, such as policy making, commissioning, provision, staff accreditation and reward.

Care Homes: Closures

Mr. Lansley: To ask the Secretary of State for Health how many care homes closed in England in each of the last five years, broken down by region. [178290]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection (CSCI) that it is only able to provide data on the number of homes de-registered. De-registration includes not only homes permanently closed but also temporary closures, due, for example, to a change of ownership, an application to change the service a home provides or while refurbishment takes place. In instances such as these, a home will de-register and then re-register at a later date.

The following table shows the number of care homes deregistered by CSCI in each year and by each region for the years 2002-03 to 2006-07.

CSCI region	Year				
	2002-03	2003-04	2004-05	2005-06	2006-07
East Midlands	147	273	167	163	155
Eastern	136	210	156	169	151
London	135	238	136	172	154
North East	76	140	76	130	111
North West	430	480	277	224	213
South East	579	520	342	367	321

West Midlands	188	281	200	220	183
Yorkshire and Humberside	226	332	172	183	161
Total	2,443	2,941	1,811	1,921	1,681

Source:
CSCI registration and inspection database (data as at 10 December 2007)

Care Homes: Standards

Mrs. Maria Miller: To ask the Secretary of State for Health how many nursing homes receiving local authority-funded residents have been placed on a caution list in the last 12 months, broken down by local authority. [177528]

Mr. Ivan Lewis *[holding answer 10 January 2008]*: The Department is not aware of the use of caution lists in respect of nursing homes. All care and nursing homes in England are regulated and inspected by the Commission for Social Care Inspection (CSCI). The table shows data provided by CSCI on the numbers of nursing homes per local authority which are rated as 'poor' or 'undergoing enforcement' as at 9 January 2008.

All services which CSCI rates in these categories become part of its regional enforcement strategy. For any such services, CSCI will undertake a management review and request a mandatory improvement plan. These services will also receive a greater number of inspections—a minimum of two key inspections a year—as a result of their rating. As data are not collected on homes catering for local authority-funded residents, the numbers shown are in respect of all nursing homes in England.

Number of nursing homes with a CSCI quality rating of 'poor' or 'undergoing enforcement' as at 9 January 2008

Local authority	Number of homes

Care UK: Newcastle

Jim Cousins: To ask the Secretary of State for Health when he expects the central NHS commissioners to agree to meet the hon. Member for Newcastle upon Tyne, Central to discuss the hours of operation of CARE UK's Newcastle central walk-in centre. [172002]

Mr. Bradshaw: The Department has received a request on 7 November 2007 from the hon. Member for Newcastle Upon Tyne, Central to meet to discuss the hours of operation of the Newcastle walk-in centre. I understand that the Department will be writing to the hon. Member shortly to arrange a meeting.

Chlamydia: Screening

Mike Penning: To ask the Secretary of State for Health pursuant to the answer of 26 November 2007, *Official Report*, columns 235-6W, on Chlamydia: screening, when he plans to establish his Department's development priorities for sexual health payment by results; whether these development priorities will be published; what newly emerging recommendations have been made in relation to sexual health payment by results by interested parties, other than the Health Protection Agency; and if he will make a statement. [174003]

Mr. Bradshaw: The Department will publish its response to the 'Options for the Future of Payment by Results: 2008-09 to 2010-11' consultation in January 2008.

When we publish the Department's response to the consultation we will be making available electronically all the replies to the consultation, so it will be possible to see what respondents have said on sexual health. We will also provide an update on the progress of payment development sites, which are piloting new classifications and currencies for services such as sexual health.

Deloitte and Touche

Mr. Stephen O'Brien: To ask the Secretary of State for Health how much his Department has spent on services from Deloitte and Touche in each of the last 12 months; and on which of his Department's (*a*) programmes and (*b*) areas of work Deloitte has provided consultancy services in that period. [171771]

Mr. Bradshaw: The information is not available in the format requested. Such information as is available is included in the following table:

Expenditure for Deloitte and Touche in the last 12 month period

Period	Total expenditure £
December 2006	2,153,145
January 2007	1,530,177
February 2007	1,768,592
March 2007	1,536,192
April 2007	1,827,561
May 2007	1,988,210
June 2007	1,828,684
July 2007	1,825,577
August 2007	2,356,355
September 2007	1,750,315
October 2007	1,863,407
November 2007	1,228,848
Total	21,657,063

Departmental Christmas

Malcolm Bruce: To ask the Secretary of State for Health whether it is his Department's policy to use (*a*) incandescent light bulbs and (*b*) LED lights for festive decorations on departmental premises. [173501]

Mr. Bradshaw: The Department has a mix of incandescent and LED lighting for its Christmas tree decorations used in departmental premises. When the trees are removed the supplier retains the lights, and tests and reuses them.

Departmental Equality

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 28, page 35 of his Department's resource accounts for 2006-07, (1) on what date the Commission for Racial Equality completed its report, and if he will place in the Library a copy of the report; [178277]

(2) for what reasons the Commission for Racial Equality was concerned about his Department's production of race equality impact assessments. [178278]

Mr. Ivan Lewis: I refer the hon. Member to the reply I gave him on 11 December 2007, *Official Report*, column 510W. The answer on 11 December, explained that the Commission for Racial Equality published its report on the Department on 27 September and reported on the outcome of the Commission's investigation. A copy of the Commission's report has been placed in the Library. The reasons for the Commission's concerns are set out in the report.

Departmental Internet

Mr. Stephen O'Brien: To ask the Secretary of State for Health what amendments have been made to Wikipedia entries from computers with departmental IP addresses in the last 12 months. [174508]

Mr. Bradshaw: Using information available from the Wikipedia site, between 22 August 2005 and 3 August 2007, there have been close to 1,500 occasions when the Department's IP address has been associated with the creation or amendment of entries on the Wikipedia website.

Information on which particular entries have been amended is not held by the Department and could be obtained only at disproportionate cost.

Departmental Minimum Wage

Jon Trickett: To ask the Secretary of State for Health how many London-based staff are employed by his Department on the National Minimum Wage. [175982]

Mr. Bradshaw: All Departmental employees earn more than the national minimum wage.

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for Health how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* parliamentary questions and *(b)* correspondence from hon. Members and Peers. [174952]

Mr. Bradshaw: There are 10 staff in the parliamentary branch, of whom six deal exclusively with parliamentary questions. The four other post holders deal with parliamentary questions as part of their duties, equating to approximately one post. Staff in the parliamentary branch do not deal with correspondence.

Departmental Public Participation

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 20 November 2007, *Official Report*, column 822W, on departmental public participation, if he will place in the Library copies of the *(a)* summary and *(b)* full reports of findings for each of the three listed surveys. [173147]

Mr. Bradshaw: Perceptions of 'Our NHS Our Future and Public Attitude to NHS' will be laid before Parliament in February 2008. The small-scale staff survey will not be made available as it covers a small piece of work relating to the internal management of the Department. However, we will make available our next annual staff survey which we expect to report on in the summer of 2008.

Mr. Gale: To ask the Secretary of State for Health what steps his Department has taken to consult service users and their families on Valuing People Now. [177891]

Mr. Ivan Lewis: The consultation 'Valuing People now: from progress to transformation—a consultation on the next three years of learning disability policy', is open to service users and their families to respond. It is also available in easy read format. The deadline for response is 28 March 2008 after which time we will be collating responses to inform future policy development.

The valuing people support team within the Care Services Improvement Partnership is working with local groups including learning disability partnership boards to support locally led consultation events.

Copies of the consultation papers are available in the Library.

Departmental Supply Estimates

Mr. Letwin: To ask the Secretary of State for Health pursuant to the Winter Supplementary Estimates (HC 29), if he will break down his Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174997]

Mr. Bradshaw: The Department did not seek Parliament's approval to a Winter Supplementary Estimate. Near-cash and non-cash are essentially used as departmental expenditure limit (DEL) budgetary control concepts and are not specifically identified with voted resources in Estimates. However, we have been able to break down net total resources for each section in the Part II: Subhead detail table of our main estimates as follows:

	Resource DEL £000	
Main Estimates 2007-08	*Near-cash*	*Non-cash*
R1R1 Securing health care for those who need it		
Strategic health authority and primary care trust unified budgets and central allocations[1]	80,904,795	3,537,004
Pharmaceutical services	1,059,345	- 0
Prescription charges	-451,845	0
General ophthalmic services	379,000	0
Strategic health authorities and primary care trust grants to local authorities[1]	248,788	0
R1R2 Securing social care and child protection for those who need it and at national level, protecting, promoting and improving the nation's health		
Central department	217,473	19,223
National Health Service Purchasing and Supplies Authority	28,222	765
Other services including medical, scientific and technical services, grants to voluntary bodies, research and development and information services	305,880	0

Main Estimates 2007-08	Resource DEL £000	
	Near-cash	Non-cash
Welfare food and European Economic Area and other countries medical costs	321,500	428,492
Other personal social services	179,581	0
Medicines and Healthcare Product Regulatory Agency interest on loans	-1	0
AIDS support grant[1]	16,500	0
Services for people with a mental illness including service under the mental capacity act	147,525	0
Carers' grant	185,000	0
Preserved rights grant	275,248	0
National training strategy	107,859	0
Access and systems capacity grant	546,000	0
Human resources development strategy	49,750	0
Children and adolescents mental health grants	90,539	0
Delayed discharge grant	100,000	0
Assistive technology: older people	50,000	0
Prevention service pilots: older people	40,000	0
Individual budget pilots	6,000	0

[1] The near-cash and non-cash elements for some subheads do not add up to the voted provision since the Estimate also includes provision for capital grants which are part of the capital DEL.

Drugs: Rehabilitation

Jon Trickett: To ask the Secretary of State for Health how much funding was provided for drug treatment and rehabilitation in Wakefield district in each of the last five years. [177296]

Dawn Primarolo: The information has been set out in the following table:

	Total Wakefield funding for drug treatment and drugs intervention programme / DIP delivery[3]	Money allocated for drug treatment residential rehabilitation[4]
2003-04[1]	3,098,859	40,000
2004-05[1]	3,567,151	40,000
2005-06[1]	4,128,396	50,000
2006-07[2]	4,488,018	52,000
2007-08[2]	4,645,343	84,400

[1] Figures taken from the 2006-07 treatment plan.
[2] Figures taken from the 2007-08 treatment plan.
[3] Total funding for drug treatment and drug intervention programmes (DIP) delivery includes pooled treatment budget allocation, mainstream funding (in Wakefield 'mainstream' funding includes financial contributions from police, local authority, Primary Care Trust and probation) and young people budgets.
[4] These figures represent ring-fenced amount the Wakefield partnership identifies for drug treatment residential rehabilitation within the annual treatment plan. This ring fenced pot is accessed by the partnership on an individual needs basis. As a result, the money allocated for drug treatment residential rehabilitation may be amended through the year based on demand.
Source:
National Treatment Agency

East Kent Hospitals NHS Trust: Hospitals

Hugh Robertson: To ask the Secretary of State for Health how many hospitals there are in the *(a)* East Kent hospitals NHS trust area and *(b)* Maidstone and Tunbridge Wells NHS trust area; how many bed spaces there are in each hospital in each area; and how many cases of clostridium difficile there were in each such hospital in (i) 2004, (ii) 2005 and (iii) 2006. [177949]

Ann Keen *[holding answer 14 January 2008]:* There are five hospitals in the East Kent hospitals NHS trust. These are Buckland hospital, Kent and Canterbury hospital, Queen Elizabeth The Queen Mother hospital, Royal Victoria hospital and William Harvey hospital.

There are three main hospitals in the Maidstone and Tunbridge Wells NHS trust. These are Maidstone hospital, Pembury hospital and Kent and Sussex hospital. In addition to the listed sites the trust also provides services at Crowborough War Memorial hospital, Hawkhurst hospital and Uckfield hospital.

The data for bed spaces are not held centrally.

The data for Clostridium difficile are only held at trust level. The following table shows the data held for each trust for the over-65s only.

	Number of C. difficile cases reported in patients aged 65 years and over		
	2004	2005	2006
East Kent hospitals NHS trust	638	705	528
Maidstone and Tunbridge Wells NHS trust	484	464	545

Food: Contamination

Mr. Greg Knight: To ask the Secretary of State for Health what checks are made for illegal drug residues in seafood being imported from China; what monitoring takes place to prevent contaminated Chinese seafood being offered for sale in the UK; and if he will make a statement. [178432]

Dawn Primarolo: We are advised by the Food Standards Agency, which has responsibility for food safety matters, that the regulatory controls in respect of imports from non-European Union (EU) countries are comprehensive, and operate EU wide. Imported foods from non-EU countries are subject to checks at United Kingdom ports of entry by local authorities under EU food legislation.

These official controls ensure that products of animal origin such as fishery products from approved countries outside the EU, including China, have come from approved establishments. Such products must enter the UK through designated border inspection posts under the control of veterinary inspectors, where they undergo documentary and identity checks, and prescribed proportions are subject to physical checks, which may include testing for contaminants.

Since September 2001 EU legislation has prohibited the importation of aquaculture fishery products from China due to concerns regarding illegal residues of veterinary medicines. Since then, and as a result of EU inspections, the controls on aquaculture fishery products have been reduced and from August 2004 imports of certain aquaculture fishery products are permitted, if accompanied by an attestation from the competent Chinese authorities that the product has been tested and is free from illegal residues of chloramphenicol and nitrofurans.

The Veterinary Medicines Directorate carries out surveillance of imported foodstuffs. Since August 2004, 43 samples of farmed fish and 25 samples of crustaceans from China have been tested for illegal residues. In 2006 a sample of fish contained non-compliant residues of nitrofuran metabolites. In 2007 a sample of fish contained non-compliant residues of crystal violet – which is a dye not authorised for use as a veterinary medicine in the EU and therefore should not be present in imports.

Food: Genetically Modified Organisms

Mr. Peter Ainsworth: To ask the Secretary of State for Health what steps the Food Standards Agency has taken to ensure that genetically modified organisms which have not received EU approval can be detected in cargoes imported into the UK from non-EU countries. [179176]

Dawn Primarolo: At national level, the Food Standards Agency is responsible for overseeing the food law enforcement activities of local authorities, including those related to imported products. It supports local authorities by funding training, providing grants and making other resources available. In the case of genetically modified food, the European Commission through its Joint Research Centre (JRC) is also able to provide practical support for laboratories involved in analysing food and feed for unauthorized material. The Food Standards Agency is encouraging the Commission and the JRC to expand this work.

Food: Labelling

Mr. Greg Knight: To ask the Secretary of State for Health what representations he has received from *(a)* Sainsbury's *(b)* Asda, *(c)* Tesco, *(d)* Waitrose and *(e)* Marks and Spencer on food labelling in the past 12 months. [178435]

Dawn Primarolo: The Food Standards Agency has consulted publicly on a number of labelling issues including the European Commission Review of Food and Nutrition Labelling legislation and other issues such as voluntary front of pack nutrition labelling and the revision of voluntary guidance on clear labelling, country of origin labelling and marketing terms. The agency has received representation both as written submissions and in face to face meetings from the named supermarkets or their representative trade associations.

Funding of Primary Care Trusts

Mr. Stewart Jackson: To ask the Secretary of State for Health if he will review the funding of primary care trusts where the number of general practitioners per capita is significantly at variance with the national median; and if he will make a statement. [177921]

Mr. Bradshaw: On 10 October, following publication of the 'Our NHS Our Future' Next Stage Review Interim Report, my right hon. Friend, the Secretary of State for Health, (Alan Johnson) announced a £250 million access fund to deliver at least 100 new general practitioners (GP) practices in the most deprived areas (i.e. those with fewest GPs and nurses, poorest health outcomes and lowest patient satisfaction) and 152 GP-led health centres, one in each primary care trust (PCT) area.

On 23 November, the Secretary of State subsequently announced the final list of 38 PCTs where at least 100 new GP practices will be located.

The Department is currently working with strategic health authorities and PCTs to develop performance management arrangements and to establish the distribution of funding and potential time scales for delivery based on local plans.

In addition, the 2008-09 revenue allocations were announced on 13 December. These represent £74.2 billion investment in the national health service, nearly £4 billion more than 2007-08. All PCTs will receive an above-inflation cash increase of 5.5 per cent., a total cash increase of £3.8 billion.

The weighted-capitation formula used to inform PCT revenue allocations is continually overseen by the Advisory Committee on Resource Allocation (ACRA). ACRA's current review of the formula will be used to inform revenue allocations post 2008-09.

General Practitioners: Leicester

Sir Peter Soulsby: To ask the Secretary of State for Health how many GPs are practising in Leicester. [177935]

Mr. Ivan Lewis: The information requested is shown in the following table:

All general practitioners (excluding retainers and registrars)[1] in selected area, as at 30 September 2006

Numbers (headcount)

	Area	*Number*
5PA	Leicestershire County and Rutland primary care trust (PCT)	374
5PC	Leicester City PCT	154

[1] General medical practitioners (excluding retainers and registrars) includes GP providers and GP others.

Source:
The information Centre for health and social care General and Personal Medical Services Statistics

General Practitioners: Standards

Mr. Stephen O'Brien: To ask the Secretary of State for Health what percentage of general practitioners' premises were above minimum standards on the most recent date for which figures are available in *(a)* England and *(b)* each primary care trust area; and what percentage in each primary care trust area failed to meet minimum standards through not complying with the requirements of the Disability Discrimination Act 1995. [164595]

Mr. Bradshaw: Details of the minimum standards for general practitioner (GP) practice premises are set out in Schedule 1 of The National Health Service (General Medical Services—Premises Costs) (England) Directions 2004, a copy of which has been placed in the Library. Compliance with these standards is a matter for local primary care trusts (PCT) and each make their own arrangements for undertaking this assessment.

The most recent relevant data collected centrally comprised a snapshot return as at 31 March 2005 which was provided by PCTs. It has not been collected centrally since then. A copy was placed in the Library on 12 May 2006. The data are now almost three years out of date and do not reflect the investment in primary care premises that has taken place in the intervening period.

New premises that fully satisfy minimum standards are being provided under the NHS Local Finance Investment Trust (NHS LIFT) initiative. Some £1.3 billion in private sector capital has already been injected into GP premises and community facilities across the country with 45 NHS LIFT schemes established and another three in procurement. This has, to date, delivered 149 new buildings open to patients with another 61 under construction.

The NHS ProCure21 initiative has also provided premises that fully satisfy minimum standards. Over £221 million has already been invested in 49 GP and community facilities across England. Of that amount, 28 projects with a value of £98 million have been completed and 21 projects with a value of £123 million are currently in the early stages of development.

Healthy Start Programme: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many women in *(a)* Hendon and *(b)* Barnet participated in the Healthy Start programme in the last 12 months; and if he will make a statement. [178178]

Dawn Primarolo: The number of women eligible for Healthy Start at any given point in time varies. However, we estimate that take up of the scheme in England is currently approximately 87 per cent. This is equivalent to around 342,000 beneficiary households.

Information on take up at a local level is not yet available.

HIV Infection

Anne Milton: To ask the Secretary of State for Health what assessment his Department has made of the effectiveness of HIV prevention work in London primary care trusts; and if he will make a statement. [176979]

Mr. Bradshaw: This is a matter for the local national health service, who are responsible for the commissioning of HIV prevention services in London.

Hospitals: Admissions

Mr. Amess: To ask the Secretary of State for Health how many *(a)* males and *(b)* females in each age group admitted to each hospital in (i) Southend, (ii) Essex and (iii) England died as a consequence of (i) alcoholic liver disease and (ii) cirrhosis in each of the last 10 years. [177130]

Dawn Primarolo: The information requested has been placed in the Library.

Hospitals: Cleaning Services

Mr. Stewart Jackson: To ask the Secretary of State for Health whether a deep cleaning plan has been submitted to the East of England strategic health authority in respect of *(a)* Peterborough district hospital and *(b)* Edith Cavell hospital; and if he will make a statement. [177913]

Mr. Boris Johnson: To ask the Secretary of State for Health how many hospitals and what percentage of wards at each hospital in Greater London have undergone a deep clean as a measure against hospital acquired infections since 24 September 2007. [178058]

Mr. Lansley: To ask the Secretary of State for Health which hospitals have *(a)* had at least one ward deep-cleaned and *(b)* been fully deep-cleaned. [178309]

Ann Keen *[holding answer 14 January 2008]:* All trusts were required to submit and agree their deep clean plans with primary care trusts and providers in their area by 14 December 2007 and this process has been monitored and assessed by strategic health authorities (SHAs). An interim local progress report about the implementation of deep cleans will be published by SHAs shortly. All deep cleans will be complete by the end of March 2008.

Incontinence: Medical Equipment

Mr. Dismore: To ask the Secretary of State for Health what progress is being made with concluding the review of the provision of stoma and incontinence appliances; and if he will make a statement. [179103]

Dawn Primarolo: The latest consultation closed on 28 December 2007 and officials are in the process of evaluating the responses. They will also be meeting with a number of interested parties to discuss the conclusion of this review.

A summary of the responses—and an indication of next steps—will be published no later than 28 March 2008.

Maternity Units: Greater London

Mr. Boris Johnson: To ask the Secretary of State for Health how many consultant-led maternity units at hospitals in each primary care trust in Greater London have closed since 1997. [179346]

Mr. Bradshaw: The information requested is not held centrally.

Any decisions on changes to improve services are locally led, with full consultation with local people. It is only right that decisions about services are matters for local national health service trusts to determine how to best provide services for the communities they serve.

Medical Records: Data Protection

Susan Kramer: To ask the Secretary of State for Health (1) how many patients have had confidential medical data lost in each of the last 12 months; [178453]

(2) how many incidents involving the loss of patients' confidential medical data there have been in transfer between medical institutions in each of the last 12 months. [178454]

Mr. Bradshaw *[holding answer 14 January 2008]:* Each national health service body is responsible for compliance with data protection legislation and their boards are legally accountable. The Department provides clear guidance to help them do this. It does not routinely collect information about incidents of loss of patient data. Comprehensive information for the period concerned is not held centrally, and can be obtained only at disproportionate cost.

The Department is committed to ensuring that good practice is followed and that lessons are shared in the interests of improving protection of patient data across the NHS.

Susan Kramer: To ask the Secretary of State for Health what *(a)* guidance and *(b)* standards his Department has in place for the transfer of confidential medical data between medical institutions. [178460]

Mr. Bradshaw *[holding answer 14 January 2008]:* The Department has published clear rules and guidelines on the management of personal data by national health service bodies. These are in the form of three codes of practice on maintaining data confidentiality, security, and good records management, supported by numerous good-practice guidelines. An internal web-based resource, the NHS information governance toolkit, makes this guidance accessible to all parts of the NHS, and all major NHS organisations are required to provide an annual performance assessment against the standards derived from the three codes of practice.

Mental Health Services

Paul Rowen: To ask the Secretary of State for Health what assessment he has made of the level of demand for NHS services for dual-diagnosis patients who abuse substances and have a mental illness; what assessment he has made of whether that demand is being met; and what plans he has for future provision of services. [179175]

Dawn Primarolo: The Department has undertaken a substantial programme of work to ensure that the needs of this group are met. The implementation of this has been supported by substantial increases in funding across the NHS over the past 10 years and specific funding increases for substance misuse services through the introduction of the pooled drug treatment budget, which has tripled in size since it was introduced in 2001 (£129 million to £398 million in 2007-08).

Examples of work undertaken to support improvements in this area include:

In the "Mental Health Policy Implementation Guide: Dual Diagnosis Good Practice Guide" (Department of Health, 2002) it was made clear that people who have both drugs misuse and mental health problems need high quality, patient focused and integrated care, which should be delivered within mental health services. It charged local implementation teams in partnership with drug action teams with implementing the policy requirements.

The 2002 Good Practice guide alongside guidance published in 2006, "Dual diagnosis in inpatient and day hospital settings" represents a summary of current Government policy on this issue. The key message is the need for mainstreaming—the recognition that substance misuse is usual rather than exceptional among people with mental health problems, and that the relationship between the two is complex.

The updated "Drug Misuse and dependence - UK guidelines on clinical management" (the 'clinical guidelines'), published in September 2007 identifies that patients in drug treatment services with common mental illness problems additional to their drug misuse are often treated in drug treatment services, although clarity on competencies and shared care models is important. For all those with mental health problems, it is important that competent practitioners make adequate assessment and appropriate treatment be organised.

Proper assessment is the key to establishing a comprehensive care plan for dual diagnosis. Adequate risk assessment of mental health should be undertaken at initiation of treatment and at appropriate times during management. Specific psychological management in line with appropriate guidance, such as National Institute for Health and Clinical Excellence and other psychiatric and drug misuse guidelines can then be provided.

MRSA: Greater London

Mr. Boris Johnson: To ask the Secretary of State for Health how many cases of *(a)* MRSA and *(b)* clostridium difficile have (i) been reported and (ii) resulted in death, (A) in total, (B) of those under the age of one, (C) of those under the age of five and (D) of those aged over 65 years at each hospital in Greater London in each year since 2000. [178059]

Ann Keen *[holding answer 14 January 2008]:* The requested data are not available and the best source is the mandatory surveillance system. Surveillance of methicillin-resistant *Staphylococcus aureus* (MRSA) blood stream infections (bacteraemia) started in April 2001 and surveillance for *Clostridium difficile* infection began in January 2004. Data for individual trusts in the London region are shown in the following tables.

Figures on deaths involving MRSA or *C. difficile* in individual hospitals are not currently available

The total of MRSA bacteraemia reported in each trust for all age groups in the London region:

	MRSA bacteraemia reports

Obesity

Mr. Lansley: To ask the Secretary of State for Health what the locations are of the 13 specialist NHS obesity clinics located across England. [179147]

Dawn Primarolo: There are 12 obesity clinics, locations of which are shown in the following tables.

National health service operated obesity clinics for children in England

Clinic	Address
The Royal London Hospital	Nutrition and Dietetic Department, 59 Philpot Street, London E1 1BB
Surrey Hampshire Borders NHS Trust	Jarvis Centre, 60 Stoughton Road, Guildford, Surrey GU1 1LJ
Royal Hospital for Sick Children	St. Michael's Hill, Bristol BS2 8BJ
Birmingham Heartlands Hospital	Department of Paediatrics, Bordesley Green East, Birmingham B9 5SS
Alder Hey Hospital	Eaton Road Liverpool L12 2AP
University of Leeds	Belmont House, 3-5 Belmont Grove, Leeds LS2 9DE

NHS operated obesity clinics for adults in England

Centre	Address
University Hospital Aintree	University Clinical Department, Longmoor Lane, Liverpool L9 7AL
Leeds General Infirmary	Great George Street, Leeds LS1 3EX
Birmingham Heartlands Hospital	Department of Medicine, Diabetes and Endocrinology, Bordesley Green East, Birmingham B9 5SS
Queens Medical Centre	The Clinical Nutrition Unit, Nottingham NG2 7HU
The Royal Hospitals NHS Trust	Medical Unit, Whitechapel, London E1 1BB
Luton and Dunstable Hospital	Centre for Obesity Research, Lewsey Road, Luton LU4 0DZ

Peterborough and Stamford Hospitals NHS Foundation Trust: Clostridium

Mr. Stewart Jackson: To ask the Secretary of State for Health how many cases of clostridium difficile were reported in the Peterborough and Stamford hospitals NHS foundation trust in each month in 2007; and if he will make a statement. [177919]

Ann Keen: Information is not available in the format requested. However, the following table shows the number of clostridium difficile reports for patients aged 2 to 64 years old and for those patients aged 65 and over at Peterborough and Stamford hospitals NHS foundation trust (which are the latest data available).

C. difficile reports for patients

	Number
Aged >65 years	
January to March 2007	63
April to June 2007	54
Aged 2-64 years	
April to June 2007	2

Peterborough and Stamford Hospitals NHS Foundation Trust: Orthopaedics

Mr. Stewart Jackson: To ask the Secretary of State for Health what the average waiting time was for elective orthopaedic surgery in the Peterborough and Stamford hospitals NHS foundation trust in each month in 2007; and if he will make a statement. [177920]

Mr. Ivan Lewis: Information is not available in the format requested. However, the following table shows the average time waited by patients for in-patient treatment for trauma and orthopaedics for 2007 at Peterborough and Stamford hospital NHS foundation trust (these are the latest data available).

Month end as at 2007	*Median waiting time (weeks)*
January	13.1
February	14.6
March	15
April	14.9
May	15
June	14.3
July	13.2
August	12.4
September	12.1
October	11.8
November	10.6
December	will be published on 1 February 2008

MMRPROV Monthly Monitoring Return

Pharmacy

Mr. Lansley: To ask the Secretary of State for Health (1) what estimate he has made of the total difference, in respect of pharmacies in England, between the acquisition price of generic medicines and the reimbursement provided by his Department *(a)* in 2005-06 and *(b)* in 2006-07; and what the estimated amount is for 2007-08; [179134]

(2) what the total profit margin of pharmacists was in 2006-07 in respect of the reimbursement of generic medicines; [179135]

(3) what profit margin is allowed under the reimbursement arrangements for pharmacies for generic medicines, in line with the Pharmacy Contract. [179136]

Dawn Primarolo: The community pharmacy contractual framework allows pharmacy contractors to retain £500 million difference between the acquisition price of all medicines and the reimbursement. It makes no distinction between generic and branded medicines. The framework also provides for surveys to assess the level of this retained margin. Surveys in 2005-06 showed a net excess of £411 million on generic medicines, and surveys in 2006-07 showed a net excess of £558 million on generic medicines. Surveys are in progress for 2007-08, but no results are yet available.

Physiotherapy

John Penrose: To ask the Secretary of State for Health what information the Department holds on the number of physiotherapy graduates who have graduated in the last two years and who have not found employment as physiotherapists. [178988]

Ann Keen: The number of physiotherapy graduates from 2006 and 2007 registered in the newly qualified health care professionals pools as looking for their first post in the national health service has fallen from a peak of 771 on 10 September 2007 to its current figure of 498 on 10 January 2008.

Prescriptions: Fees and Charges

Mr. Lansley: To ask the Secretary of State for Health when he expects to publish the results of his review of prescription charges. [179133]

Dawn Primarolo: I refer the hon. Member to the written answer I gave on 18 December 2007, *Official Report*, column 1406W.

Screening

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Prime Minister's announcement of 8 January 2008, what form of test will be used to screen people for *(a)* heart disease, *(b)* kidney disease, *(c)* stroke and *(d)* diabetes; and what criteria will apply to whether people will be offered surgery in each case. [179951]

Ann Keen *[holding answer 14 January 2008]:* As the Prime Minister announced on the 7 January, the Department is currently developing proposals for a screening programme. Any such programme will use an assessment of risk based on a range of known predictive factors including age, gender, smoking status, body mass index, high blood pressure, and cholesterol and glucose, as appropriate. The subject of developmental work at the moment is to make an assessment of the most clinically and cost effective way of offering an integrated set of these tests and measurements. The purpose of the screening programme will be to identify people's levels of risk for cardiac and vascular disease so that they can be offered preventive measures. Should already established disease be uncovered in the process treatment will be offered as usual in accordance with clinical need and on the basis of current national clinical standards and guidelines.

Sexually Transmitted Diseases: Health Education

Mike Penning: To ask the Secretary of State for Health what expenditure on sexual health campaigns has been in each year since 1979 in *(a)* nominal and *(b)* real terms. [174058]

Dawn Primarolo: Direct comparisons of annual expenditure on sexual health campaigns over the last 20 years are not possible because expenditure in the 1980s and early 1990s reflected the high cost of mainstream television and cinema advertising on AIDS awareness campaigns which targeted the whole population. The move in the mid-1990s to targeted HIV health promotion programmes for high-risk groups, in line with the evidence on HIV transmission, resulted in a reduction in expenditure.

Expenditure on sexual health campaigns including HIV public education, contraception awareness, prevention of sexually transmitted infections plus helplines[1] is set out in the following table. Information is not available before 1985-86.

	£ million nominal	£ million real terms in 2006-07 prices
1985-86	0.52	1.09
1986-87	7.60	15.44
1987-88[1]	11.21	21.57
1988-89	10.00	17.99
1989-90	12.00	20.14
1990-91	10.00	15.56
1991-92	11.00	16.13
1992-93	11.23	15.95
1993-94	9.41	13.03
1994-95	9.87	13.46
1995-96	8.06	10.67
1996-97	5.25	6.72
1997-98	4.70	5.85
1998-99	4.80	5.83
1999-2000	6.00	7.14
2000-01	4.60	5.40
2001-02	4.60	5.27
2002-03	6.60	7.33
2003-04	6.60	7.12
2004-05	6.60	6.93
2005-06	5.12	5.27
2006-07	11.25	11.25
2007-08[2]	10.25	10.53

[1] Expenditure from 1987-88 to the early 1990s reflects the high cost of HIV television and cinema advertising for the whole population. Expenditure on mainstream HIV campaigns is not separately identified but it would have accounted for the majority.
[2] Identified spend so far.
[3] Contract for the Sexual Health Information Line (formerly the National AIDS Helpline) is delivered as part of a contract which also includes Drinkline and Frank.

Thrombosis: Medical Treatments

Sandra Gidley: To ask the Secretary of State for Health pursuant to the answer of 26 November 2007, *Official Report*, column 261W, on thrombosis: medical treatment, what plans he has for the National Institute for Health and Clinical Excellence to assess rivaroxaban for the prevention of venous thromboembolism in patients undergoing major orthopaedic surgery of the lower limbs. [177439]

Dawn Primarolo: Rivaroxaban for the prevention of venous thromboembolism after major orthopaedic surgery is currently being considered for referral to the National Institute for Health and Clinical Excellence for appraisal.

INNOVATION, UNIVERSITIES AND SKILLS

Christmas

Mr. Burns: To ask the Secretary of State for Innovation, Universities and Skills how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176760]

Mr. Lammy: Design: DIUS held a competition for further education college students to design an electronic Christmas card for the Department. The competition was won by Matthew Boulton College. This incurred no significant cost to the Department as colleges were individually invited to participate. The prize—a trip to a design centre or space centre—was donated by our partners.

Distribution: The DIUS Christmas Card was distributed electronically through existing email routes and therefore incurred no significant costs.

Education: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Innovation, Universities and Skills what percentage of 18 to 24-year-olds in Cleethorpes constituency were in full-time education in each year since 1997. [176869]

Bill Rammell: Annual average estimates of the proportion of people in full-time education by age are available at a local level from the annual population survey (APS) and its predecessors the local labour force survey (LLFS) and the labour force survey local area data base (LFS LADB). Estimates for Cleethorpes for 18-24 year-olds for 2006 and back to 2000 are shown in the following table. The data are not available for earlier years at constituency level. These small area estimates are based on very small samples and are therefore subject to high sampling variability. They should therefore be treated with caution and in particular changes from year to year should not be used in isolation from the figures for a run of years. Regional and national estimates have been shown for comparison. These are available back to 1997.

Percentage of 18-24 year-olds[1] in full-time education

	Cleethorpes	Yorkshire and the Humber	England
1997-98[2]	n/a	23	24
1998-99[2]	n/a	25	25
1999-00[2]	n/a	26	26
2000-01[3]	16	24	26
2001-02[3]	19	24	26
2002-03[3]	24	28	26
2003-04[3]	18	27	27
2004[4]	17	28	27
2005[4]	16	30	28
2006[4]	21	24	27

n/a = Not available.
[1] Based on age as at the time of the survey.
[2] LFS LADB estimates based on the average of the 12 months from March to the following February.
[3] LLFS estimates based on the average of the 12 months from March to the following February.
[4] APS estimates are for the average of the calendar year from January to December.

Educational Institutions: Sports

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his policy is on encouraging sport at establishments within the responsibilities of his Department; and if he will make a statement. [178247]

Bill Rammell: The Department for Innovation, Universities and Skills recognises the importance of sport and physical activity to us all, for our good health, positive leisure and for our economy.

We are working closely with the Department for Culture, Media and Sport and the Department for Children, Schools and Families to maximise the Government's substantial investment in school sport and sport for young people.

Further education colleges and higher education institutions are helping to build on the foundations of the Government's school sport strategy by sustaining participation and supporting talent development for young people beyond school, and by maximising the contribution of their facilities, staff and other resources to sport in schools and the wider community.

We are increasing the number of sport and physical activities available to our young people through the introduction of almost 400 FE sports co-ordinators during 2008-09, linked to the existing national network of School Sport Partnerships. Young people will be encouraged to access an offer of three hours of sporting activity. At the same time, our vocational learning programmes linked to the 14-19 and skills strategies, including the young apprenticeship in sports coaching and the advanced apprenticeship in sporting excellence, aimed at high performing young athletes, will support the growing demands from across the sport and leisure sectors.

We believe that sport can be an agent of regeneration. Through skills development, the sharing of facilities and sporting opportunities, and research and liaison with key partners, our further and higher education institutions are enhancing the education and the quality of life of their students and the wider communities they serve.

In addition, many further and higher education institutions are widening access to their often excellent sports facilities so that more people can enjoy the health and social benefits that participation in sport brings. Where colleges are undertaking substantial new builds, Sport England in association with the Learning and Skills Council are working with colleges to identify opportunities to expand and enhance original planned sports facilities with the aim of opening the facilities to the wider community.

Gemini Observatory: Finance

Adam Afriyie: To ask the Secretary of State for Innovation, Universities and Skills (1) what factors were taken into account by the Science and Technology Funding Council in making its decision to withdraw funding from the Gemini Observatory consortium; [171951]

(2) what assessment he has made of the likely effects of the decision by the Science and Technology Funding Council to withdraw funding from the Gemini Observatory consortium; and if he will make a statement. [171952]

Ian Pearson: The Science and Technology Facilities Council (STFC) has recently reviewed its participation in the Gemini Observatory in the light of its scientific priorities and overall budget. The Council has indicated that it is planning to withdraw from the Observatory project, but before doing so, it will discuss the implications with its consortium partners.

Higher Education: Cumbria

Mr. Jamie Reed: To ask the Secretary of State for Innovation, Universities and Skills what percentage of young people who left school at the age of 18 years in (*a*) Cumbria and (*b*) Copeland entered (i) higher education and (ii) further education in 2007. [175613]

Bill Rammell: The information requested is as follows:

(i) Higher education

The main measure for tracking progress on increasing participation in higher education is currently the higher education initial participation rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. It covers English-domiciled first time entrants to HE courses, which are expected to last for at least six months, at UK higher education institutions and English, Scottish and Welsh further education colleges, and who remain on their course for at least six months. The earliest figure is 39.3 per cent. for 1999-2000 and the latest available figure is 42.8 per cent. for 2005-06.

Equivalent figures for 18-year-olds only are 19.3 per cent. for 1999-2000 and 21.3 per cent. for 2005-06.

Figures for 2006-07 will become available in 2008. The HEIPR is not disaggregated below national level.

HEFCE's 'Young participation in Higher Education' publication includes the proportion of young people who enter higher education at age 18 or 19 by parliamentary constituency, although this only covers the years up to 2000. Participation rates based on this work are given on the supporting POLAR website (www.hefce.ac.uk/polar).

For England: these indicate that, for the cohort reaching 18 in 1997, the proportion of young people in England who entered higher education at age 18 or 19 was 29 per cent. For the cohort reaching 18 in 2000, the proportion of young people in England who entered higher education at age 18 or 19 was 30 per cent.

For Cumbria: these indicate that, for the cohort reaching 18 in 1997, the proportion of young people from Cumbria who entered higher education at age 18 or 19 was 27 per cent.

For the cohort reaching 18 in 2000, the proportion of young people from Cumbria who entered higher education at age 18 or 19 was 28 per cent.

For Copeland: for the cohort reaching 18 in 1997, the proportion of young people from Copeland who entered higher education at age 18 or 19 was 22 per cent. For the cohort reaching 18 in 2000, the proportion of young people from Copeland who entered higher education at age 18 or 19 was 23 per cent.

(ii) Further education

The Department's estimates of the proportion of young people in education and training at a local level are only available for young people of academic age 16 and 17. Figures for 18-year-olds are not available.

The proportion of 16 and 17-year-olds in Cumbria who were in education or work-based learning at the end of 2005 was 84 per cent. This compares to 76 per cent. in England overall. Figures are not available for Copeland.

Further information can be found at the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/index.shtml

Higher Education: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effect on the lifelong learning of Peterborough residents of the reduction in funding for equivalent or lower qualifications. [178094]

Bill Rammell: No students currently studying equivalent or lower qualifications will be affected by these changes. In future, our policy of redistributing grant will widen participation and mean that, as elsewhere, more of the majority of Peterborough residents who do not have a first higher-level qualification, especially those from non-traditional backgrounds, will be able to benefit from participating in higher education.

Higher Education: Standards

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his policy is on the decertification of university courses deemed not to be of adequate academic quality; and if he will make a statement. [178223]

Bill Rammell: Higher education institutions, as autonomous bodies, are responsible for the quality of their provision and the academic standards of the qualifications which they award. Individual institutions are therefore responsible for the quality of their courses. HE institutions are supported by the Quality Assurance Agency (QAA) for higher education, which exists to safeguard the public interest and to help improve the academic standards and quality of higher education in the UK. QAA reviews since 1997 have consistently shown that high quality and standards are being maintained.

Minimum Wage

Jon Trickett: To ask the Secretary of State for Innovation, Universities and Skills how many London-based staff are employed by his Department on the national minimum wage. [175964]

Mr. Lammy: All London-based staff in the Department are employed above the national minimum wage level.

Student Loans Company: Complaints

Martin Horwood: To ask the Secretary of State for Innovation, Universities and Skills how many complaints have been received by the Student Loans Company on loan repayments made via HM Revenue and Customs not being recorded by the Student Loans Company or appearing on Student Loans Company statements in each of the last 12 months for which figures are available. [175398]

Bill Rammell: The Student Loans Company's (SLC) data on complaints do not record this level of detail. The SLC received a total of 343 complaints about the Income Contingent Loan scheme in the year ending 30 November 2007, details of which are set out in the following table.

Within the total number of complaints, the SLC have categorised 109 as being about deductions taken, although a number of complaints recorded under other categories may also relate to loan repayment deductions. In addition HMRC receives and responds to MP enquiries on behalf of individual borrowers where there is a mismatch between deductions taken and annual statements. The number made in 2006-07 was 41; for 2007-08 it stands at 21 to date.

Complaints received by SLC about ICL repayments

	Category of complaint				
	Deductions taken	*Incorrect advice via telephone or correspondence*	*Misunderstood scheme*	*System/clerical error*	*Total*

JUSTICE

Chorley Magistrates Court

Mr. Hoyle: To ask the Secretary of State for Justice how many courts operate on a regular basis at Chorley magistrates court. [177071]

Maria Eagle: Chorley magistrates court is part of the South West Lancashire magistrates courts. South West Lancashire magistrates courts are administered from the courthouse at Chorley, and courts sit at courthouses in Chorley, Leyland and Ormskirk.

Chorley magistrates court has three actual courtrooms, which are in regular use. Currently three courts sit three days a week, with two courts sitting two days a week. One court sits on each Saturday and bank holiday.

One of the courtrooms at Chorley will be temporarily out of commission between 28 March and 16 May 2008. This is to enable staff to be trained on site, for the new IT system, Libra, which goes live at the court on 9 May 2008. The Libra IT system is being rolled out to all magistrates courts nationally.

Work that would ordinarily be accommodated in this courtroom will be allocated to the neighbouring courthouses, namely at South Ribble and Ormskirk (primarily to South Ribble). This arrangement will be monitored to ensure it is operating effectively, and any disruption to court users is kept to a minimum.

Clearsprings Management: Approved Premises

Mr. Garnier: To ask the Secretary of State for Justice how many defendants on (*a*) bail and (*b*) home detention curfew have been released into accommodation provided by Clearsprings HDC under the bail and accommodation support services in each month since August 2007, indicating the numbers that relate to (i) pre- and (ii) post- conviction remand. [179351]

Mr. Hanson: From 18 June 2007 to 14 January 2008 a total of 467 people have been released under the Clearsprings service; 298 on bail and 169 on home detention curfew. I will provide the monthly data requested as soon as possible. Information on the breakdown of bail cases between those untried and those convicted but unsentenced cannot be obtained except at disproportionate cost.

Coroners Act 1988

Mr. Hoban: To ask the Secretary of State for Justice how many people were (*a*) charged and (*b*) convicted in each of the last 10 years under the Coroners Act 1988. [178571]

Bridget Prentice: Coroners, jurors and medical practitioners may be charged and convicted under sections 3, 9, 10 and 21 of the Coroners Act. Records are not held centrally of any offences under the Act and as a result we are unable to provide details of the numbers of jurors and medical practitioners who have been charged or convicted. We do know, however, that during the past 10 years no coroner has been charged or convicted under section 3(5) of the Coroners Act which provides that a coroner found guilty of corruption, wilful neglect of duty or misbehaviour in the discharge of his duty shall be liable to conviction on indictment to imprisonment for a term not exceeding two years or a fine or to both.

Mr. Hoban: To ask the Secretary of State for Justice what meetings he had with his officials on the subject of the Coroners Act 1988 in each of the last three months, and what was discussed at these meetings. [178574]

Bridget Prentice: Ministers regularly have meetings with and receive advice from officials on the whole range of the Department's portfolio.

Criminal Injuries Compensation Scheme

Mr. Frank Field: To ask the Secretary of State for Justice pursuant to the answer of 7 January 2008, *Official Report*, column 138W, on the Criminal Injuries Compensation Scheme, what the 18 broad categories are; and what proportion of successful claims were awarded under each category. [178182]

Mr. Straw: The following table gives the 18 broad categories of occupational type, and shows the number of successful claims awarded under each category in the last 10 years.

Criminal injuries compensation scheme: awards made by occupational type

Occupations recorded	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Percentage resolved cases with occupational type recorded	73	78	80	79	77	75	74	76	77	77

Departmental ICT

Mr. Garnier: To ask the Secretary of State for Justice on what date each IT system or systems replacing those that are redundant or not fit for purpose within the GNOMIS system will be operational; and how much each replacement or adapted system is expected to cost. [179141]

Mr. Hanson: There are no redundant or not fit for purpose IT systems or systems within the NOMIS programme. GNOMIS is not a name recognised within the programme. C-NOMIS is now going to be limited to use within HMPS, rather than also including use within NPS. This has had minimal impact on the C-NOMIS software requirements. Commercial negotiations for this programme are on-going; therefore we are currently unable to reveal detailed costings of the individual elements of the overall programme.

Following on from commercial negotiations, detailed and assured delivery plans that reflect the new approach and ensure constituent projects are delivered effectively to prisons and probation areas will be available from the spring.

Driving Offences: Surrey

Mr. Malins: To ask the Secretary of State for Justice (1) how many persons in Surrey were *(a)* convicted for speeding and *(b)* received a fixed penalty for speeding in each of the last five years for which figures are available; [178096]

(2) how many persons in Surrey were convicted of drink driving in each of the last five years for which figures are available. [178097]

Maria Eagle: Available information from 2001 to 2005 (latest available) is provided in the following table.

2006 data will be available later this year.

Fixed penalty notices issued[1], findings of guilt at all courts for speeding[2] and driving etc. after consuming alcohol or taking drugs[3] within Surrey police force area, 2001 to 2005

	2001	*2002*	*2003*	*2004*	*2005*
Total found guilty at all courts for speed limit offences	3,478	2,021	1,508	4287	2,886
Total fixed penalty notices issued for speed limit offences	10,424	6,052	7,057	8,200	417,500
Total found guilty at all courts for drink-driving offences	1,592	1,614	1,464	1,425	1,503

[1] Only covers notices paid where there is no further action.
[2] Offences under the Road Traffic Regulation Act 1984 and the Motor Vehicles (Speed Limits on Motorways) Regs 1973.
[3] Data cover summary offences of driving etc. after consuming alcohol or taking drugs (which cannot reliably be distinguished separately).
[4] The Court Proceedings database from which this figure is derived only held 344 prosecutions in 2004 for this offence.
[5] Safety Camera Partnership went live in the force area on 1 April 2005.

Notes:
1. It is known that for some police force areas, the reporting of court proceedings in particular summary motoring offences, is less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative systems generated by the courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Drugs: Re-offenders

Mr. Malins: To ask the Secretary of State for Justice what the re-offending rate was for offenders given a drug rehabilitation requirement by the courts in the most recent period for which figures are available. [178105]

Mr. Hanson: Community orders were introduced for adult offenders in April 2005. The currently published statistics on re-offending do not include data on community orders (of which one possible requirement is the drug rehabilitation requirement). Re-offending data on community orders will be published for the first time in summer 2008. This publication will be based on offenders discharged from prison or commencing community orders in the first quarter of 2006.

Electoral Register

Mr. Stewart Jackson: To ask the Secretary of State for Justice whether he intends to pilot the use of individual electoral registration in *(a)* Peterborough city council and *(b)* any other English local authority in May 2008 or thereafter; and if he will make a statement. [178578]

Mr. Wills: The Representation of the People Act 2000 does not allow local authorities to pilot changes to registration. The legislation provides for three different types of pilot scheme: *(a)* when, where and how voting at the elections is to take place; *(b)* how the votes cast at the elections are to be counted; and *(c)* the sending by candidates of election communications free of charge for postage.

On 7 January, I confirmed in a response to a parliamentary question from the hon. Member for Brentwood and Ongar (Mr. Pickles) that there is no intention to undertake further electoral innovation pilot schemes in 2008.

The Government are committed to increasing registration rates. The Electoral Administration Act 2006 contained a number of measures to increase levels of electoral registration. These include:

Imposing a new duty on Electoral Registration Officers to take all necessary steps to ensure a comprehensive register;

Increasing the time available for registration by enabling people to register up to 11 days before the election; and

Introducing performance standards for Electoral Registration Officers. Electoral registration indicators were launched by the Electoral Commission during December 2007.

The Government are currently evaluating the effectiveness of these new measures.

Electronic Tagging

Mr. Garnier: To ask the Secretary of State for Justice how many defendants have been remanded on bail while subject to electronically-monitored curfew *(a)* before and *(b)* after conviction in each of the last seven years for which figures are available. [179352]

Mr. Hanson: The following table sets out the number of separate occasions on which courts imposed an electronically monitored curfew requirement as a condition of bail in each of the last seven financial years in England and Wales. The figures have been provided by the two electronic monitoring suppliers, G4S and SERCO.

Financial year	*Total number of times courts imposed a curfew with electronic monitoring as a bail condition*
2001-02[1]	42
2002-03	2,444
2003-04	4,427
2004-05	5,844
2005-06	8,548
2006-07	18,321
2007-08[2]	18,338

[1] Year of introduction.
[2] April to December 2007.

The caseload for tagging on bail has increased significantly after September 2005, when the Home Office advised the courts of the availability of curfew monitoring for adult defendants under the Bail Act 1976.

Information on the breakdown of the above cases between those untried and those convicted but unsentenced cannot be obtained except at disproportionate cost.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Justice when he will reply to the hon. Member for Walsall North's letter of 27 November 2007 on a constituent, reference 182213/33215. [179246]

Mr. Hanson: I wrote to the hon. Member on 7 January.

Ministry of Justice

Nick Herbert: To ask the Secretary of State for Justice when he plans to publish the Brennan Review of the Ministry of Justice. [179364]

Mr. Straw: The review of the organisation to my Department, following the creation of the Ministry of Justice and then the Carter Report, is continuing. I will inform Parliament of the findings when the work of the review is complete.

Offenders: Deportation

Mr. Clappison: To ask the Secretary of State for Justice how many non-UK prisoners were returned to serve their sentence in *(a)* EU and *(b)* non-EU home countries in each year since 1997; which 10 non-EU countries received the most prisoners in that period; and how many of those returned to non-EU countries did not have leave to remain in the UK. [177458]

Mr. Hanson: The number of prisoners returned to EU and non-EU home countries in each year since 2003 is given in the following tables. Figures for years prior to 2003 are not available. Nine non-EU countries have had prisoners repatriated to them since 2003. The figures are given in table 2.

Information relating to immigration status is not centrally available and could be obtained only at disproportionate cost.

Number of prisoners repatriated from England and Wales in each year since 2003

Offensive Weapons: Sentencing

Mr. Evans: To ask the Secretary of State for Justice (1) how many people were given a *(a)* custodial sentence and *(b)* fine or conviction for the offence of carrying and using a knife in a violent attack in 2007; [178051]

(2) how many people were given a *(a)* custodial sentence and *(b)* fine or conviction for the offence of carrying a knife in 2007. [178052]

Mr. Hanson: There are no specific offences for:

carrying and using a knife in a violent attack

carrying a knife in a violent attack.

For offences of wounding it is not possible to tell if a knife was used without going through court records. This would incur disproportionate costs to answering this question.

Political Levy

Mr. Tyrie: To ask the Secretary of State for Justice what assessment he has made of the performance of trade unions on payment of individual affiliation fees for those members of the union that are also members of the Labour Party. [175994]

Mr. Straw: I have made no such assessment. The responsibility for determining complaints from union members about trade unions in their application of funds for political objects is principally a matter for the Certification Officer, (for which the Department for Business, Enterprise and Regulatory Reform is responsible) and the Electoral Commission. I am aware that in the period over the last 10 years, the Certification Officer had received just 10 complaints in respect of trade union political funds, of which two have been upheld, and that the Electoral Commission have reported having received no complaints in this regard since their establishment.

Political Parties, Elections and Referendums Act 2000

Mr. Tyrie: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Southend, West of 12 December 2007, *Official Report*, columns 594-96W, on the Political Parties, Elections and Referendums Act 2000, what sentencing guidelines have been produced in relation to offences under the Act. [177699]

Mr. Straw: Sentencing guidelines are issued by the Sentencing Guidelines Council, a non-departmental public body.

The council has informed us that no sentencing guidelines have been issued in relation to the Political Parties, Elections and Referendums Act 2000 (PPERA).

Prison Accommodation

Mr. Garnier: To ask the Secretary of State for Justice what estimate he has made of the net impact on demand for prison places of remitting prison sentences in respect of time spent on remand on electronically monitored curfew *(a)* before and *(b)* after conviction in respect of offences committed on or after 4 April 2005. [179350]

Mr. Hanson: Remitting prison sentences in respect of time spent on remand on electronically monitored curfew as proposed in the Criminal Justice and Immigration Bill will result in an estimated saving of 200 prison places. The impact will be after conviction as remand time will be deducted from any prison sentence imposed.

Prisoners

Mr. Clappison: To ask the Secretary of State for Justice how many *(a)* non-UK citizens and *(b)* non-UK citizens without leave to remain in the UK were sentenced to custodial sentences in each year since 1997; what proportion of the prison population serving sentences fell into each of those categories in the same period; and what estimate he has made of the cost of detaining prisoners in each category in each of those years. [177457]

Mr. Hanson: The following table gives the numbers of foreign national prisoners received into all prison establishments in England and Wales under immediate custodial sentence between 1997 and 2006 showing their proportion against all receptions:

Immediate custodial sentenced receptions into prison establishments in England and Wales by nationality 1997-2006

	All nationalities	*British nationals*	*Foreign nationals*	*Unrecorded nationality*	*Foreign national receptions (percentage)*
1997	80,832	76,321	4,167	344	5.2
1998	85,908	80,772	4,895	241	5.7
1999	90,238	85,126	4,927	185	5.5
2000	91,195	85,712	5,237	246	5.7
2001	90,523	84,217	6,026	280	6.7
2002	93,615	86,114	7,018	483	7.5
2003	92,245	84,251	7,482	512	8.1
2004	93,326	84,579	8,355	392	9.0
2005	90,414	80,418	9,612	384	10.6
2006	88,134	77,975	9,832	327	11.2

This information is derived from table 7.5 of the supplementary tables of the recently published Offender Management Caseload Statistics 2006, a copy of which will be placed in the House of Commons Library and which is available at the following website:

http://www.justice.gov.uk/publications/prisonaandpobation.htm

The following table gives the numbers of sentenced foreign national prisoners held in all prisons in England and Wales over the same period, ie the population by category at each year specified:

Sentenced population in prison establishments in England and Wales by whether foreign national 1997-2006 (as at June each year)

	All	*British*	*Foreign nationals*	*Foreign national sentenced population (percentage)*
1997	48,674	45,311	3,250	6.7
1998	52,159	48,442	3,546	6.8
1999	51,293	47,377	3,862	7.5
2000	53,093	49,059	3,918	7.4
2001	54,169	49,471	4,576	8.4
2002	57,272	51,471	5,607	9.8
2003	58,190	51,791	6,168	10.6
2004	60,924	54,453	6,256	10.3
2005	62,179	55,497	6,509	10.5
2006	63,404	55,956	7,283	11.5

Comparable information for Scotland and Northern Ireland is the responsibility of the Scottish Executive and the Northern Ireland Prison Service.

This information is derived from tables 6.4 and 6.5 in Prison Statistics in England and Wales for years 1997-2002 and from table 8.29 in the Offender Management Caseload Statistics for the years 2003-06. Website versions of these tables can be found at:

http://www.homeoffice.gov.uk/rds/omcs/html

for years up to 2005 and at

http://www.justice.gov.uk/publications/prisonandprobation.htm

for 2006. Paper copies of these publications can be found in the House of Commons Library.

Information relating to immigration status is not centrally available and could be obtained only at disproportionate cost.

There are no separate estimates of the cost of detaining prisoners according to whether UK or foreign national. The average cost per prisoner in 2006-07 was approximately £37,500, taking account of all establishment types.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Jenny Willott: To ask the Secretary of State for Justice what estimate he has made of the average cost of a new prisoner place in a new building; and if he will make a statement. [179077]

Mr. Hanson: The capital cost of building each new prisoner place is dependent on the type of accommodation constructed. The following table shows the current approximate capital cost per place for different construction types.

Construction type	*Capital cost per place[1] (£)*
Houseblock	219,000
Ready built residential unit	178,000
Temporary custodial module	108,000
Temporary custodial facility	122,000
New prison	152,000

[1] Public sector prisons.

Jenny Willott: To ask the Secretary of State for Justice what projection has been made of the prison population in 2020; and if he will make a statement. [179095]

Mr. Hanson: No prison population projections have been made for 2020. The latest published prison population projections, which cover the period 2007-14, were published in August 2007 ("Prison population projections 2007-2014 England and Wales", N. de Silva, et al. Ministry of Justice, 2007). A copy is available in the Library of the House. When the methodology for projecting the prison population was developed ("Forecasting the prison population", P. Grove, J. Macleod and D. Godfrey, OR Insight, 11(1), 1998, pp. 3-9) seven years was the period chosen as a reasonable period for the projections. The further into the future a projection is made, the less accurate it becomes.

Prisoners Transfers

Mr. Bellingham: To ask the Secretary of State for Justice how many managed moves were authorised by Michael Spurr, Deputy Director General of HM Prison Service, in *(a)* 2004, *(b)* 2005 and *(c)* 2006; what proportion of these involved (i) male, (ii) female, (iii) white and (iv) ethnic minority personnel; and if he will make a statement. [175630]

Maria Eagle: All managed appointments of operational senior managers in the Prison Service are authorised by the Succession Planning Committee chaired by the deputy director general. Michael Spurr was appointed deputy director general in December 2006, therefore the figures for managed moves in the years in question include those overseen by the previous DDG. The number of managed appointments authorised in the years in question are as follows:

	Male	*Female*	*White*	*Ethnic minority*	*Total*
2004	12	4	16	0	16
2005	35	19	52	2	54
2006	34	14	46	2	48
Total	81	37	114	4	118

These figures do not cover all managed appointments within the service as the SPC oversees only operational senior managers.

To place this in context, the composition of operational senior managers as of 31 December 2007 broken down by gender and ethnicity, is as follows:

	Number
Male	231
Female	35
White	300
Ethnic minority	12
No data	4

Prisoners: Foreigners

Nick Herbert: To ask the Secretary of State for Justice how many foreign national prisoners serving sentences of less than 12 months have a court recommendation for deportation. [174904]

Maria Eagle: The following table shows the number of defendants for whom a judicial recommendation for deportation was issued at their trial or sentence hearing in the Crown court in England and Wales. This covers the last five calendar years for which data are available.

Defendants with judicial recommendations for deportation in the Crown court 2002-06

	Number
2002	1,073
2003	889
2004	935
2005	1,439
2006	1,882

Of the 1,882 defendants issued with a judicial recommendation for deportation in the Crown court in 2006, 1,422 were sentenced to at least 12 months imprisonment. Therefore 24 per cent. (460) of those recommended for deportation in the Crown court in 2006 were sentenced to less than 12 months or given a non-custodial sentence.

The above figures include defendants who were tried in the Crown court, as well as those who were committed for sentencing by the Crown court following summary trial in a magistrates court. Separately, there were a further 18 recommendations for deportation made in cases disposed of in the magistrates courts in 2006. However, the maximum possible custodial sentence that can be handed down in the magistrates courts is six months.

Prisoners: Muslims

David Davis: To ask the Secretary of State for Justice whether any faith-based organisations make weekly visits to Muslim inmates in HMP Highpoint. [177077]

Maria Eagle: There is one faith-based organisation which makes weekly visits to Highpoint. Muslim mentors from a scheme based at a London mosque visit two or three prisoners on a weekly basis. The aim of this scheme is to help resettle Muslim offenders into their community and is available to prisoners who are due to resettle in the London area.

David Davis: To ask the Secretary of State for Justice what schemes are in place in prisons in England and Wales aimed at preventing Muslim inmates being exposed to extremist *(a)* views and *(b)* indoctrination. [177078]

Maria Eagle: The Prison Service is delivering a programme of work to address the risks associated with violent extremism and radicalisation in prisons including: training and awareness raising for staff; intelligence gathering; and enhancing faith provision through Muslim chaplains. Decisions on the management of individual prisoners are taken on a case-by-case basis.

Prisoners: Self-Mutilation

Nick Herbert: To ask the Secretary of State for Justice how many prisoners in open prisons have been judged as posing a *(a)* high and *(b)* very high risk of causing serious harm. [174905]

Mr. Straw: Only prisoners classified as category D, the lowest security category, and thus assessed as presenting a low risk, are eligible for open conditions.

In the case of offenders sentenced to indeterminate sentences, they may be placed in open conditions only on a recommendation of the Parole Board, which has been accepted by the Secretary of State.

In either case, offenders will only be placed in an open prison following an individual and rigorous risk assessment. In all cases, the protection of the public is paramount.

The National Offender Management Service now also uses the Offender Assessment System (OASys) to assess the risk of serious harm presented by offenders. Probation officers have been undertaking OASys assessments for relevant offenders already placed in open prisons, following the risk assessment processes that were in place at the time.

As at 9 January, there were no offenders in open prisons who were assessed on the OASys system as very high risk of serious harm and 280 who had been assessed as high risk of harm.

Prisoners such as those who are now being assessed as high or very high risk on OASys have been successfully managed in open conditions for many years and open prisons provide an ideal environment to prepare prisoners for the transition from custody to management in the community.

It should also be noted that, for those prisoners who are subject to Multi Agency Public Protection Arrangements, release plans are in place to address risk to the public when the prisoner reaches their release date, and open prisons provide an ideal bridge between custody and management in the community.

Prisons

Mr. Hoban: To ask the Secretary of State for Justice what estimate he has made of the cost of *(a)* the land and sites for and *(b)* the building of the three titan prisons announced on 5 December 2007; and whether funding to cover these costs has been allocated to his Department. [178559]

Mr. Hanson: The cost of the land and sites for the Titan prisons has been estimated at £122 million, and funding for this has been provisionally earmarked.

The cost of construction of the Titan prisons has been estimated to be around £350 million each at 2007-08 prices.

As I informed the Joint Select Committee on 17 December 2007 the cost of building and operating the Titan prisons, which will be post 2011 spending review period, will be subject to the usual Comprehensive Spending Review processes.

Rehabilitation: Young People

Mr. Kidney: To ask the Secretary of State for Justice if he will discuss with the Secretary of State for Defence the provision of training programmes by the armed services for young people as an alternative to court *(a)* proceedings and *(b)* sentences under (i) voluntary and (ii) court-ordered arrangements; and if he will make a statement. [178438]

Mr. Hanson: We will be consulting with a range of organisations which have an interest in youth justice and the provision of youth justice services as part of the Youth Crime Action Plan which will be published in the summer.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

British Franchise Association

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the British Franchise Association's compliance with the European code of ethics for franchising. [178013]

Mr. Timms: The Department has made no assessment of the British Franchise Association's (BFA) compliance with the European code of ethics for franchising. The BFA is a voluntary body, and its compliance with the code is a matter for the association.

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent representations he has received on the British Franchise Association's mediation in disputes with its members. [178014]

Mr. Timms: The Department has received no such representations.

Business: Inspections

Mr. Lilley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when inspectors' reports into *(a)* Graylaw Holdings Ltd, *(b)* Link Service Stations Ltd, *(c)* British Anzani plc, *(d)* Bank Street Securities Ltd, *(e)* Medway Secondary Metals Ltd and *(f)* Pennine Commercial Holdings plc were completed; and what plans he has to publish the report in each case. [177063]

Mr. McFadden: The inspectors' reports into Graylaw Holdings Limited, Link Service Stations Limited and Bank Street Securities Limited were all completed on 26 July 1996; the report into British Anzani plc was completed on 28 November 1986, the report into Medway Secondary Metals Limited was completed on 21 October 1987 and the report into Pennine Commercial Holdings plc was completed on 26 July 1996. There are no plans to publish the reports; in 1996 the Secretary of State concluded that publication was not justified.

Carbon Sequestration

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how carbon capture and storage technology will be considered in Government negotiations on the clean development mechanism of the Kyoto Protocol. [175420]

Mr. Woolas: I have been asked to reply.

The Government believe that carbon capture and storage forms an important part of the portfolio of mitigation options needed to tackle climate change. Carbon finance, channelled through instruments such as the Clean Development Mechanism (CDM), offer a useful incentive to this technology, notably in key developing countries. In international negotiations, the UK has consistently argued, through the EU, that such projects should be considered under the CDM.

Governments agreed at the Second Meeting of Kyoto Parties (COP/MOP2) that after the opportunity to consider outstanding issues at the recent meeting in Bali, we should seek agreement this year in Poznan to a decision providing guidance to the CDM Executive Board. We will continue to press at the Fourth Meeting of Parties (COP/MOP4) for a decision clarifying how the board should consider such projects.

Certification Officer: Expenditure

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the Certification Officer's expenditure was on *(a)* hospitality and *(b)* travel in the latest year for which figures are available. [179235]

Mr. McFadden: In 2006-07, the Certification Officer spent *(a)* £65 on hospitality and *(b)* £3,183 on travel and subsistence for himself and his staff.

Certification Officer: Finance

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the Certification Officer's budget is for *(a)* 2007-08 and *(b)* 2008-09. [178989]

Mr. McFadden *[holding answer 14 January 2008]:* The Certification Officer's budget is for 2007-08 is £697,883. The budget for 2008-09 has not yet been agreed.

Certification Officer: Manpower

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many full-time equivalent staff work in the Certification Office. [178990]

Mr. McFadden *[holding answer 14 January 2008]:* In addition to the Certification Officer, who works three days a week, the Certification Officer has nine full-time equivalent staff.

Regional Development Agencies: Planning

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans there are to designate regional development agencies (RDAs) as regional planning bodies; how conflicts of interest between RDAs' planning and economic roles will be prevented; and what estimate he has made of the likely costs to RDAs of making such changes. [178008]

Mr. Timms: The Review of Sub-National Economic Development and Regeneration, which was published in July 2007, indicated that the RDAs outside London would in future be responsible for producing a single integrated regional strategy for their regions, encompassing the existing economic and spatial strategies; and that they would be designated as the regional planning body. These integrated strategies will result in greater alignment of economic and spatial planning at the regional level and will need legislation. A consultation document on how this will be implemented will be issued shortly. The Government will consider the likely costs to the RDAs in the light of the responses to consultation but intend that overall the process of producing the single strategy will be streamlined, compared with the current process for producing two separate strategies.

Regional European Offices: Expenditure

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) what the expenditure was of the East Midlands European Office in the last year for which figures are available; [176603]

(2) what the expenditure was of the South West UK Brussels Office in the last year for which figures are available; [176605]

(3) what the expenditure was of the North East of England Brussels Office in the last year for which figures are available; [176608]

(4) what the total expenditure was of the North West Brussels Office in the last year for which figures are available; [176613]

(5) what the expenditure was of the West Midlands in Europe office in the last year for which figures are available. [176620]

Mr. Timms: I refer the hon. Member to the reply given on 17 December 2007, *Official Report*, column 1164W, which provides the expenditure of UK Regional European Offices in the last year (2006-07).

Renewable Energy: Technology

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on the volume of exports of the support given by UK Trade and Investment and the Renewables Trade Promotion Service to UK renewable technology manufacturers and developers. [175685]

Malcolm Wicks: Over the period 2005-07 the return on investment for the support given by UKTI and RETPS has been significant. For every £1 invested UK companies have won £18 of business.

Rover Group

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what fees have been paid to inspectors investigating MG Rover; and when he expects to publish their report. [178528]

Mr. Timms: The costs as at 31 December 2007 are £9,068,693 plus VAT of £1,661,501 and disbursements of £425,596. The inspection is continuing and I am unable to say when the report will be submitted. The Secretary of State will then consider publication.

South East England House

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the expenditure of South East England House was in the last year for which figures are available. [176525]

Mr. Timms: South East England House received a contribution of £65,000 from the South East England Development Agency in 2006-07. Office costs are shared with the South East England regional assembly, all principal local authorities in the south-east, and with a range of other partners including several of the region's universities.

Trade Unions: Audit

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform by what means the Certification Officer scrutinises annual returns from trade unions. [179233]

Mr. McFadden: The Certification Officer's staff examine all annual returns received from trade unions to ensure that they meet the statutory requirements.

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how the Certification Officer audits trade unions. [178991]

Mr. McFadden *[holding answer 14 January 2008]*: The Certification Officer does not audit trade unions. Trade unions are required to submit to the Certification Officer annual returns relating to their affairs which must contain certain accounts. The accounts in the annual return must be audited. There are specific statutory provisions as to who can carry out this audit.

Trade Unions: Complaints

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints about trades unions the Certification Officer received in each year since 2002; what the substance was of each complaint; and how many the Certification Officer responded to. [179234]

Mr. McFadden: I refer the hon. Member to the answer I gave to the hon. Member for Horsham (Mr. Maude) on 19 November 2007, *Official Report*, column 487. That answer gave details on the numbers of complaints accepted by the Certification Officer and determined in each year since 2002. The Certification Officer responds to all complaints he receives about trades unions. All decisions made by the Certification Officer after 2001 and a selection of key decisions made before are available on the Certification Officer's website www.certoffice.org. Those decisions provide detail on the substance of complaints.

TREASURY

Banks: Switzerland

Mr. Sheerman: To ask the Chancellor of the Exchequer if he will take steps to bring subsidiaries of Swiss banks operating in the UK under equivalent banking regulatory arrangements as apply to those of EU member states. [177373]

Angela Eagle: UK registered subsidiaries of Swiss banks are subject to the EU regulatory arrangements and requirements relevant to the business they carry out. Any UK subsidiary carrying out banking business will be subject to regulatory oversight by the Financial Services Authority (FSA). The FSA will apply the relevant directives, including supervision of capital adequacy in accordance with the EU capital requirements directive, at the level of that subsidiary.

Buildings: Cabinet Office

Mr. Hoban: To ask the Chancellor of the Exchequer, pursuant to the answer of 12 December 2007, *Official Report*, column 613W, on buildings: Cabinet Office, what vacant space in the Prime Minister's Offices there was in each of the last 10 years; [178346]

(2) pursuant to the answer of 12 December 2007, *Official Report*, column 613W, on buildings: Cabinet Office, what the total area of the Prime Minister's offices was in each of the last 10 years. [178348]

Angela Eagle: The total area and vacant space in the Prime Minister's Offices recorded on e-PIMS since 2005-06, the earliest date from which data are available, is as follows:

	Total area (m²)	Area of vacant space (m²)
2005-06	4,066.2	0
2006-07	4,066.2	0
2007-08 (current)	4,066.2	0

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 12 December 2007, *Official Report*, column 613W, on buildings: Cabinet Office, (1) what vacant space in the Cabinet Office's estate there was in each of the last 10 years; [178347]

(2) on buildings: Cabinet Office, what the total area of the Cabinet Office's estate was in each of the last 10 years. [178349]

Angela Eagle: The total area and vacant space in the Cabinet Office's estate recorded on e-PIMS since 2005-06, the earliest date from which data is available, is as follows:

	Total area (m²)	Area of vacant space (m²)	Percentage of vacant space against total area
2005-06	161,673	676	0.4
2006-07	143,339	4782	3.3
2007-08 (current)	146,886	4635	3.2

The reduction in area between 2005-06 and 2006-07 is because The National School of Government, previously part of Cabinet Office, became an independent department on 1 January 2007.

Child Benefit: Personal Records

Jim Cousins: To ask the Chancellor of the Exchequer what the cost has been to date of the Poynter Review into the loss of child benefit records by HM Revenue and Customs; and what the total cost of the review is expected to be. [178193]

Jane Kennedy: I refer the hon. Gentleman to the answer I gave the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 10 January 2008, *Official Report*, column 695W.

Death: Weather

Mr. Burstow: To ask the Chancellor of the Exchequer how many people died from cold weather related illnesses in the last 10 years; how many of them were from each (*a*) age cohort and (*b*) primary care trust area in each year; and if he will make a statement. [178415]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 15 January 2008:

As National Statistician, I have been asked to reply to your recent question asking how many people died from cold-related illnesses in the last 10 years; how many of them were from each (a) age cohort and (b) primary care trust area in each year. (178415)

There is no official definition of cold-related illnesses or causes of death, and 'cold' in itself is never recorded as the underlying cause of death according to the rules of the International Classification of Diseases. However, hypothermia or subnormal body temperature may be mentioned on the death certificate.

The tables attached provide the number of deaths where hypothermia was mentioned on the death certificate, in (a) England by five-year age group, and (b) each primary care organisation in England, from 1997 to 2006 (the latest year available).

Table 1 Number of deaths with any mention of hypothermia on the death certificate[1], England, by age group, 1997-2006[2]

Deaths (persons)

Age group	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
0-4	0	0	1	1	0	0	0	0	0	0
5-9	0	0	1	1	0	0	0	0	0	0
10-14	0	0	0	1	0	0	0	2	0	0

Total	370	310	306	300	250	195	180	167	152	172

[1] Hypothermia was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 991.6 for the years 1996 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code T68, for the years 2001 to 2006. Deaths were included where hypothermia was mentioned anywhere on the death certificate.
[2] Figures are for deaths registered in each calendar year.

[1] Hypothermia was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 991.6 for the years 1996 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code T68, for the years 2001 to 2006. Deaths were included where hypothermia was mentioned anywhere on the death certificate

[2] Based on boundaries as of 2008

[3] Figures are for deaths registered in each calendar year

Debts: Counselling

Mr. Drew: To ask the Chancellor of the Exchequer what representations he has received from (*a*) the Church of England and (*b*) other churches on debt counselling. [178968]

Angela Eagle: HM Treasury has not received any representations from (*a*) the Church of England or (*b*) other churches on debt counselling.

Departmental Administration

Mr. Hoban: To ask the Chancellor of the Exchequer what progress his Department has made towards its administrative burden reduction target. [178567]

Angela Eagle: Progress towards the administrative burden target was set out in the Treasury's simplification plan published in December 2007. The plan is available on the Treasury's website at:

http://www.hm-treasury.gov.uk/media/4/4/simplificationplan111207.pdf

Departmental Buildings

Mr. Prisk: To ask the Chancellor of the Exchequer how many (*a*) new build and (*b*) refurbishment projects of a value of under £250,000 for which his Department was responsible took place in 2005-06; and how many of those projects were subject to the Building Research Establishment Environmental Assessment Method. [176725]

Angela Eagle: There were no new build or refurbishment projects under £250,000 in value undertaken by the Treasury in 2005-06.

Departmental Contracts

Jim Cousins: To ask the Chancellor of the Exchequer what the (*a*) objective and (*b*) value was of each contract placed with (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by his Department and its agencies in each year since 2004-05. [179023]

Angela Eagle: The nature and total value of all contracts, consultancies and other services placed by The Treasury and its agencies with Deloitte and Touche, Ernst and Young, KPMG, PricewaterhouseCoopers and PA Consulting are contained in the following tables:

Departmental Legal Opinion

Mr. Hoban: To ask the Chancellor of the Exchequer how much was spent by his Department on legal advice for police investigations in each of the last 12 months. [178570]

Angela Eagle: There has not been any spending on legal advice for police investigations within HM Treasury in any of the last 12 months.

Electorate: Greater London

Mr. Hands: To ask the Chancellor of the Exchequer how many and what percentage of people on the electoral register in each London borough are *(a)* nationals of EU member states other than the UK and *(b)* not nationals of (i) the UK and (ii) the Republic of Ireland. [179019]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 15 January 2008:

As National Statistician I have been asked to reply to your question concerning how many and what percentage of people on the electoral registers in each London borough are (a) nationals of EU member states other than the UK and (b) not nationals of (i) the UK and (ii) the Republic of Ireland. (179019)

Data separately identifying British, Irish, or Commonwealth citizens are not collected centrally; these citizens are grouped together on local authority electoral returns. Therefore we are unable to produce data separately for British and Irish citizens.

The attached table provides the nearest available data to those you requested. It provides figures for 1 December 2006 for each London Borough and the City of London, on the number and proportion of registered electors who qualify through EU citizenship, excluding British, Irish, Cypriot and Maltese citizens (Cypriot and Maltese citizens qualify as Commonwealth citizens). Also shown are equivalent data for those electors who qualify through British, Irish or Commonwealth citizenship.

Electoral counts for 1 December 2007 will be published on 28 February 2008.

Table 1. Number and percentage of the electorate qualifying through European Union citizenship, and number and percentage of the electorate qualifying through British, Irish, or Commonwealth citizenship, London boroughs, 1 December 2006

	Electorate qualifying through European Union citizenship[1]	*Percentage of electorate qualifying through European Union citizenship*[1]	*Electorate qualifying through British, Irish or Commonwealth citizenship*[1]	*Percentage of electorate qualifying through British, Irish or Commonwealth citizenship*[1]
City of London	404	7	5,684	93

Office for National Statistics

Employment

Mr. Byers: To ask the Chancellor of the Exchequer what percentage of the working age population were in full-time employment in each local authority area in the most recent period for which figures are available. [179143]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 15 January 2008:

The National Statistician has been asked, to reply to your Parliamentary Question asking what percentage of the working age population were in full-time employment in each local authority area in the most recent period for which figures are available. I am replying in her absence. (179143)

The Office for National Statistics compiles employment statistics for local authorities from the Annual Population Survey (APS) following International Labour Organisation definitions.

Table 1 attached, shows the number of people in full-time employment as a percentage of the working age population by local authority in Great Britain, for the period July 2006 to June 2007 (the latest period for which data are available) from the APS. A copy of this table has been placed in the House of Commons Library.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. Estimates for the City of London in particular are based on very few observations.

English Language

Damian Green: To ask the Chancellor of the Exchequer how much his Department has spent on English language classes for staff in the last year for which figures are available. [177490]

Angela Eagle: A complete record of language training undertaken by Treasury staff is not held centrally and the information requested could be provided only at disproportionate cost.

Excise Duties: Alcoholic Drinks

Dr. Cable: To ask the Chancellor of the Exchequer (1) if he will estimate the revenue which would be raised per annum by increasing duty on spirits by *(a)* one penny, *(b)* five pence, *(c)* 10 pence and *(d)* 20 pence; and if he will make a statement; [178026]

(2) if he will estimate the revenue which would be raised per annum by increasing duty on wines by *(a)* one penny, *(b)* five pence, *(c)* 10 pence and *(d)* 20 pence; and if he will make a statement. [178027]

Angela Eagle: The revenue effects of illustrative changes to alcohol duty are set out in table 6 on page 11 in the Tax Ready Reckoner, published alongside the pre Budget report and available at

http://www.hm-treasury.gov.uk./media/1/F/pbr_csr07_taxreadyreckoner.pdf.

Dr. Cable: To ask the Chancellor of the Exchequer what level of duty was charged on *(a)* spirits, *(b)* wines, *(c)* beer and *(d)* tobacco in each year since 1990; and if he will make a statement. [178028]

Angela Eagle: The information requested can be found in the Budget documents for each year.

Freedom of Information Act 2000

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how many Freedom of Information requests his Department has received since the Freedom of Information Act 2000 came into force; and in how many instances his Department took more than *(a)* six, *(b)* 12, *(c)* 18 and *(d)* 24 months to provide a substantive response; [175530]

Angela Eagle: Statistics on the Treasury's performance under the Freedom of Information Act are available in the Library of the House and published by the Ministry of Justice. The most recent publication is available at:

http://www.justice.gov.uk/docs/quarterly-stats-jul-sep-07.pdf

The data published comply with the agreed reporting requirements for central Government Departments and show that the Treasury responded to 94 per cent. of requests within the statutory deadline. The additional information sought could be provided only at disproportionate cost.

Railways: Standards

Mr. Evans: To ask the Chancellor of the Exchequer what estimate he has made of the effect on the UK economy of cancelled train services in December 2007 and January 2008. [179357]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 15 January 2008:

The National Statistician has been asked to reply to your recent question asking what estimate has been made of damage to the UK economy caused by cancelled trains in December 2007 and January 2068. I am replying in her absence. (179357)

Estimates of growth in the volume of economic activity of the rail sector are included as part of a wider estimate of the output of the Land Transport sector published in ONS's monthly Index of Services First Release (IoS FR). The growth in rail transport is measured by the change in the number of passenger-kilometres travelled each month, based on data collected by the Office of Rail Regulation (ORR). While it is not possible to separately identify the impact of any cancellations to rail services during the period December 2007 and January 2008, this will be reflected in the published estimates. Estimates for December 2007 based on these data from the ORR will be published in the IoS FR for the first time on 25 April 2008, and estimates for January 2008 on 25 July 2008. If there is a wider impact of any cancellations to rail services on other sectors it would be reflected in the estimates of growth for these sectors published as part of GDP, which are typically based on estimates of turnover returned to ONS by businesses. However, again any such impact would not be separately identifiable.

Registration of Births Deaths Marriages and Civil Partnerships: Internet

Mr. Gauke: To ask the Chancellor of the Exchequer how much compensation has been paid by the General Register Office to local authorities in consequence of difficulties arising in the introduction and operation of Registration On-line. [177094]

Angela Eagle: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 15 January 2008:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking how much compensation has been paid by the General Register Office to local authorities in consequence of difficulties arising in the introduction and operation of Registration On-line. (177094)

Compensation claims could be lodged up to December 2007, and are still being assessed. These relate to the additional costs incurred by register offices where birth, death and stillbirth registrations which they had needed to take manually for a short period after the introduction of Registration On-line then had to be input retrospectively to the Registration On-line database. Payments totalling 43,000 have so far been agreed.

Taxation: Occupational Pensions

Tony Baldry: To ask the Chancellor of the Exchequer what assessment he has made of the effect of the tax changes introduced in April 2006 in relation to occupational pension schemes, with particular reference to tax relief for employer contributions on the same basis as other business expenditure. [177884]

Jane Kennedy: The regulatory impact assessment (RIA) of April 2004 'Simplifying the Taxation of Pensions' at:

www.hmrc.gov.uk/ria/simplifying-pensions.pdf

and the annex to that RIA of March 2005 at:

www.hmrc.gov.uk/ria/simplifying-pensions-appendix.pdf

set out the Government's assessment of the impact of the new rules including the plans to evaluate their effects on changes on private pension saving.

VAT: Drinks

Dr. Cable: To ask the Chancellor of the Exchequer (1) which drinks are exempt from value added tax; and if he will make a statement; [178029]

(2) what representations he has received calling on him to *(a)* reduce and *(b)* abolish value added tax on 100 per cent. fruit drinks; and if he will make a statement. [178030]

Jane Kennedy: I refer the hon. Member to the answer the Paymaster General gave to the hon. Member for Bristol, West (Stephen Williams) on 17 October 2006, *Official Report*, column 1114-15W.

Full details of the scope of the zero rate can be found in HM Revenue and Customs' (HMRC) Notice 701/14, 'Food', which is published on HMRC's website at

www.hmrc.gov.uk.

Representations are regularly made to Treasury Ministers and officials on a wide range of issues.

Welfare Tax Credits: EU Nationals

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer how many claims for *(a)* working tax credits and *(b)* child tax credits were made by citizens of other EU member states resident in Peterborough constituency in 2006-07; and if he will make a statement. [178430]

Jane Kennedy: The information requested is not available.

Written Answers to Questions

Wednesday 16 January 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Carbon Emissions: Government Departments

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to reduce carbon dioxide emissions on the Government estate in 2008. [177726]

Mr. Woolas: DEFRA, like all Government Departments, is committed, through the sustainable operations targets for the Government Office Estate, to reducing carbon emissions from offices by 12.5 per cent. by 2010-11 and 30 per cent. by 2020, relative to 1999-2000 levels.

Working with the Carbon Trust, DEFRA has developed a comprehensive and fully costed Carbon Management Programme (CMP), which is already delivering significant savings across the DEFRA Network Estate.

Fisheries: Enforcement

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will break down by the subheading his Department's budget for fisheries enforcement in 2007-08; and if he will make a statement. [176142]

Jonathan Shaw: The main budget for fisheries enforcement-related expenditure by subheading for the Marine and Fisheries Agency for 2007-08 is as follows:

	£ million
Pay and non pay (estimated)[1]	3.8
Surface surveillance	6.4
Aerial surveillance	1.8
Satellite monitoring and fisheries management and enforcement IT systems	0.4 plus 0.6 held in central DEFRA budgets

[1] There is no specific pay and non pay allocation for fisheries enforcement. The above figure is a best estimate, calculated on the basis of the percentage time spent on fisheries enforcement work during 2007 deducted from the total 2007-08 pay and non pay allocation.

Floods: Warnings

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if he will invite local authorities to encourage parish councillors to act as flood wardens to alert the most vulnerable people to imminent risk of floods. [175670]

Mr. Woolas: Sir Michael Pitt's independent interim report on the summer 2007 floods addresses this area. My right hon. Friend the Secretary of State has stated that the Government agree with all 15 of Sir Michael's urgent recommendations and will work with other organisations involved in implementing them.

I understand that in some areas parish councillors form part of the voluntary warden scheme. However, DEFRA policy, while encouraging volunteers, does not depend on them.

Irish Sea: Pollution

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the recent co-operation between the Government and the Government of the Republic of Ireland on the monitoring of pollution in the Irish sea. [176662]

Jonathan Shaw: The Irish sea is bounded by England and Wales, Scotland, Northern Ireland and the Irish Republic and these regions will all have their specific mechanisms for monitoring and reporting on pollution in the Irish sea.

Partnership-working on the state of the Irish sea is carried out in the framework of the OSPAR Convention for the Protection of the North East Atlantic to which the UK and the Republic of Ireland are Contracting parties. Regular assessments are carried out, information gathered by the various organisations is brought together and assessments are made and published in the OSPAR Quality Status Report (QSR). The last QSR was published in the year 2000, and included a regional report on the Celtic seas. The next QSR will be published in 2010.

Nitrate Vulnerable Zones

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if his Department will ensure that less than 70 per cent. of England will be designated as nitrate vulnerable zones (NVZs); what research has been used by his Department in its designation process for NVZs; and if he will make a statement. [178156]

Mr. Woolas: Our review of the current nitrate vulnerable zones (NVZs) has shown that coverage needs to be increased from 55 per cent. to about 70 per cent. of England. This is necessary because nitrate pollution has increased in some areas of the country since the last round of NVZ designations in 2002.

The nitrates directive requires all known areas of land to be designated as nitrate vulnerable zones (NVZs) if they drain to surface freshwaters or groundwaters which contain or could contain, if preventative action is not taken, nitrate concentrations greater than 50mg/l; or natural freshwater lakes, or other freshwater bodies, estuaries, coastal waters and marine waters which are eutrophic or may become so in the near future if protective action is not taken.

The document 'G1—Summary of methodology for identifying NVZs 2006', which is available on the DEFRA website, provides a description of how water quality monitoring data, collected by the Environment Agency from a network of monitoring points and boreholes, are assessed against the above criteria to identify nitrate-polluted waters, and how areas of land draining to these waters were identified for designation as NVZs.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs for what scientific and other reasons under the nitrate

vulnerable zones legislation there is *(a)* a six month slurry storage requirement for (i) the poultry and (ii) the pig sectors and *(b)* a five month requirement for other sectors. [178168]

Mr. Woolas: The proposed storage capacity requirement of six months for pig slurry and poultry manure and five months for all other slurry was put forward in the recent consultation about implementing the Nitrates Directive in England.

The supporting document "D4 Rationale for the proposed NVZ Action Programme measures", available to view on our website, provides the reasoning behind the proposed Action Programme measures, including the storage capacity requirement.

The consultation is now closed and I am carefully considering all the responses before making recommendations on how the implementation of the Nitrates Directive in England should progress.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if he will introduce a longer time period for compliance with the requirements of the nitrates vulnerable zone directive. [178169]

Mr. Woolas: The consultation on implementing the Nitrates Directive in England closed on 13 December 2007. I am carefully considering all the responses before making recommendations on how implementation should progress.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy for the Government's new action programme proposals to be waived in those areas of existing nitrate vulnerable zones exhibiting a long-term decline in levels of nitrate. [178171]

Mr. Woolas: I am considering under what circumstances removal of land from within an existing Nitrate Vulnerable Zone may be possible in the future. The consultation on implementation of the Nitrates Directive in England, which closed on 13 December, invited stakeholder views on this issue. I am in the process of considering carefully all responses received before making final decisions on how to progress implementation of the Nitrates Directive in England.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if his Department will undertake more intensive monitoring of those areas where nitrate vulnerable zone designation has been questioned by farmers and landowners. [178172]

Mr. Woolas: The consultation on implementing the Nitrates Directive in England closed on 13 December 2007. I am carefully considering all the responses before making recommendations on how implementation should progress.

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs how his Department takes into account farmers' views on the proposed new nitrate vulnerable zones legislation. [178548]

Mr. Woolas: The development of proposals for revising the NVZ regulations took account of farmers' views from a series of workshops held over winter 2005-06 and extensive dialogue with the National Farmers Union, the Country Land and Business Association and the Tenant Farmers' Association during the two-year period up to August 2007.

Farmers have also had the opportunity to comment on the proposals through a public consultation that closed on 13 December, and a further series of workshops conducted in that period. DEFRA is currently analysing more than 700 consultation responses and intends to publish a summary analysis on the Department's website in early 2008.

Nitrates: Agriculture

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy to introduce a derogation from the 170kgsN/ha whole farm limit to as near a 250kgsN/ha limit as possible. [178170]

Mr. Woolas: DEFRA is currently preparing to submit an application to the European Commission for a derogation from the 170kgsN/ha/yr whole farm limit for applications of livestock manure, and we will open discussions with the Commission at the earliest opportunity.

Nitrates: Rivers

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on trends in overall nitrate levels in monitored rivers in England. [178157]

Mr. Woolas: A summary of DEFRA's assessment of nitrate pollution in England, including trends in nitrate concentrations in monitored rivers, is provided in "Nitrates in waters—current status in England (2006)". This paper was published in support of the recent consultation on implementing the Nitrates Directive in England.

Sea Fishing: Licensing

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the Marine Bill White Paper and associated Regulatory Impact Assessment, what consultation responses have been received by his Department on the proposed recreational sea angling licence; and what response he has made; [177663]

(2) pursuant to the draft Recreational Sea Angling Strategy, what the timetable is to implement the proposals; and if he will make a statement; [177665]

(3) whether he plans to designate any fish stocks specifically for recreational use; and if he will make a statement. [177666]

Jonathan Shaw: On 6 December 2007, I launched a consultation on the draft Recreational Sea Angling Strategy which runs until 31 March 2008. The strategy includes consideration of management measures for fish stocks of interest to anglers. Any decisions on the implementation of proposals in the strategy will be

made after responses to the consultation have been considered. At that stage, a summary of responses received will be published and individual responses will be publicly available, unless a request has been made for a response to be treated confidentially. A copy of the strategy has been placed in the Library of the House.

Mr. Gale: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect that the introduction of a sea-angling licence would have upon the economy of UK coastal resorts. [179306]

Jonathan Shaw: The Marine Bill White Paper, published in March 2007, included a proposal for the introduction of a chargeable licensing scheme for sea angling. The regulatory impact assessment (RIA) accompanying the White Paper outlined the costs and benefits of this proposal, with reference to the economic contribution of angling to angling-related businesses and local economies.

The RIA identified a risk that the introduction of a chargeable sea-angling licence could displace or reduce angling activity. However, this risk would be mitigated by ensuring that any licence fee was set at a level that would not deter or displace activity and by only introducing such a scheme provided there were clear benefits to anglers. The detailed operation of the scheme would be subject to consultation with stakeholders.

Mr. Gale: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the costs of the *(a)* introduction and *(b)* policing of a requirement for recreational sea-anglers to hold a valid sea-angling licence. [179307]

Jonathan Shaw: The Marine Bill White Paper, published in March 2007, includes proposals to introduce a chargeable licensing scheme for recreational sea angling. The regulatory impact assessment (RIA) accompanying the White Paper estimated that the revenue from such a scheme could generate £9 million to £12 million per annum in licence fees, depending on uptake and the rate of the charge. The RIA also estimated the one-off set-up cost to the Government could be between £0.1 million to £1.5 million, with annual running costs, including enforcement, of between £1.2 million and £2.8 million, depending on how the scheme is implemented and the level of compliance.

Seas and Oceans: Biodiversity

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 December 2007, *Official Report*, column 712W, on seas and oceans: biodiversity, what legal protection is currently offered to *(a)* Braemar Pockmarks, *(b)* Darwin Mounds, *(c)* Haig Fras, *(d)* North Norfolk Sandbanks and Saturn Reef, *(e)* Scanner pockmark, *(f)* Stanton banks and *(g)* Wyville Thomson Ridge; for what reasons each site is not classified as European Offshore marine sites; and if he will make a statement. [177672]

Jonathan Shaw: The Joint Nature Conservation Committee (JNCC) began consultation on these seven offshore sites on 20 December 2007. No decision will be made concerning classification of these sites as European offshore marine sites until the JNCC consultation has concluded and recommendations have been made to Government.

Presently, the Offshore Marine Conservation (Natural Habitats, &c.) Regulations 2007 do not apply to these sites as a matter of law or as a matter of policy.

However as stated in my earlier reply, DEFRA will consider what action might reasonably be taken to protect sites. Consenting authorities are encouraged to take note of proposals when considering any licensing or consenting decisions that may affect sites.

If the JNCC, as our scientific nature conservation advisers, advised us that potential offshore sites are being damaged by fishing activities, we would approach the Commission to ask them to consider proposing protective measures. The JNCC have not indicated that there is any such damage occurring in our current potential sites.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 December 2007, *Official Report*, column 712W, on seas and oceans: biodiversity, under what legislation protection may be given to the *(a)* Braemar Pockmarks, *(b)* Darwin Mounds, *(c)* Haig Fras, *(d)* North Norfolk Sandbanks and Saturn Reef, *(e)* Scanner pockmark, *(f)* Stanton banks and *(g)* Wyville Thomson Ridge sites; and if he will make a statement. [177673]

Jonathan Shaw: The Joint Nature Conservation Committee (JNCC) launched a consultation on these seven offshore sites on 20 December 2007, and it is scheduled to last 12 weeks. Following consultation, the JNCC may recommend to the Government that these sites be submitted to the European Commission for consideration as European offshore marine sites. If the Government then decide to submit these sites to the European Commission they will receive the full legal protection provided by the Marine Conservation (Natural Habitats, &c.) Regulations 2007.

Water Supply

Mrs. Maria Miller: To ask the Secretary of State for Environment, Food and Rural Affairs what provisions are in place to compensate customers whose water supply is interrupted by *(a)* works caused by a leak or burst in a strategic main and *(b)* contamination which makes the water supply unfit for human consumption; and if he will make a statement. [179439]

Mr. Woolas: Customers of water and sewage companies are entitled to payment in recognition of a service failure if a company fails to meet the requirements set out under the guaranteed standards scheme.

Whales

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which governments he plans to make representations to support the international moratorium on whaling prior to the IWC60 meeting; and if he will make a statement.; [177611]

(2) whether he plans to ask non-International Whaling Commission countries to join the IWC prior to the IWC60 meeting to support the international moratorium on whaling; and if he will make a statement; [177614]

(3) what discussions he has had with representatives of foreign governments in relation to whaling since the IWC59 meeting; and if he will make a statement. [177658]

Jonathan Shaw: The UK forms part of a core anti-whaling grouping within the International Whaling Commission (IWC) and supports the IWC's moratorium on commercial whaling. The UK remains strongly opposed to any attempt to lift or weaken the moratorium and, in the longer term, wishes to see it strengthened. We will be meeting with the core anti-whaling group in the run up to IWC60. Posts abroad will also lobby a wide range of governments prior to the meeting to ensure support for the moratorium.

The UK has led efforts to recruit more conservation-minded countries to the IWC through our publication 'Protecting Whales—A Global Responsibility'. This publication has recently been updated and was re-released on 21 December 2007. In the coming weeks, posts will deliver the updated version to host governments, and will continue to engage in discussion with their counterparts on whaling at every appropriate opportunity.

This year, my right hon. Friend the Secretary of State will write to 18 countries encouraging them to join the IWC for the greater protection of whales.

The UK Government have consistently voiced their opposition to Japanese "scientific" whaling. Most recently, on 8 January, I called in the deputy ambassador from the Japanese embassy in London to express the UK's outrage and urge Japan to end its slaughter of whales.

On 21 December 2007, the UK along with 29 other countries took part in a demarché to the Japanese Government calling on Japan to

"cease all its lethal scientific research on whales, and assure the immediate return of the vessels which are implementing JARPA II" (the Japanese 'scientific' Research Programme in the Antarctic).

WALES

Tower Colliery

9. **Ann Clwyd:** To ask the Secretary of State for Wales if he will make a statement on the closure of Tower Colliery. [177791]

Mr. Hain: I would like to commend the team at Tower Colliery on their tremendous success and inspiring journey, demonstrating how a self-managed coal mine can work.

Defence

10. **Mark Pritchard:** To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Defence on the transfer of jobs from RAF Cosford to RAF St. Athan. [177792]

Huw Irranca-Davies: The Secretary of State and I have regular discussions with the Secretary of State for Defence on a range of defence issues.

I understand that the relocation of jobs from RAF Cosford to St. Athan will be completed by 2013.

Economy

11. **Mr. Amess:** To ask the Secretary of State for Wales what recent discussions he has had with the First Minister on the future of the economy in Wales. [177793]

Huw Irranca-Davies: My right hon. Friend has had regular discussions with the First Minister on all aspects of the Welsh economy.

13. **David T.C. Davies:** To ask the Secretary of State for Wales what recent discussions he has had with the First Minister on the future of the economy in Wales. [177795]

Huw Irranca-Davies: I have regular discussions with the First Minister on all aspects of the Welsh economy.

World Heritage Sites

12. **Mr. Martyn Jones:** To ask the Secretary of State for Wales what recent representations he has received on the world heritage sites in Wales. [177794]

Huw Irranca-Davies: My right hon. Friend and I have recently received representations to support the World Heritage bid for Pontcysyllte Aqueduct, which lies within my hon. Friend's constituency.

We were proud to add our support to this world class piece of British engineering; and I would like to thank and congratulate all those who have worked so very hard and put so much dedication into campaigning to get the aqueduct recognised as a World Heritage site.

Seaside Towns

14. **Chris Ruane:** To ask the Secretary of State for Wales what meetings he has had with Cabinet and Welsh Assembly Government colleagues on the co-ordination of policy on seaside towns in Wales. [177796]

Huw Irranca-Davies: My right hon. Friend and I regularly meet ministerial colleagues and Welsh Assembly Government colleagues to discuss issues affecting Wales, including the co-ordination of policies affecting Wales.

I pay tribute to the tireless work of my hon. Friend in campaigning for the improvement of the seaside towns in his constituency.

Prisons

15. **Jenny Willott:** To ask the Secretary of State for Wales what recent assessment he has made of levels of prison overcrowding in Wales. [177797]

Huw Irranca-Davies: The Government are committed to ensuring that there are enough prison places throughout England and Wales.

Health Services: Cross Border Cooperation

Mr. Bone: To ask the Secretary of State for Wales what recent discussions he has had with the First Minister on cross-border health service issues affecting England and Wales. [177907]

Mr. Hain: I have regular discussions with the First Minister on a range of issues, including the provision of cross border health services affecting Wales and England.

Child Poverty

Hywel Williams: To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Work and Pensions on the further steps he is taking to meet the Government's target to reduce child poverty in Wales. [177786]

Mr. Hain: The reforms set out in Ready for Work: next steps to full employment will reduce child poverty by getting more parents, particularly lone parents off benefits and back into work.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 7 January 2008, *Official Report*, column 19W, on Afghanistan: peacekeeping operations, how many civilians are employed by his Department for the take-off and landing phase of unmanned aerial vehicles; from what company these civilians are contracted; and what the nationality of each civilian so employed was in each year since 2005. [178533]

Mr. Bob Ainsworth: One civilian contractor is deployed in Afghanistan to assist UK forces with the take-off and landing phases of UAVs. The individual deployed at any one time is drawn from a pool of five trained personnel, all of whom are American nationals. The civilian contractors are not directly employed by the MOD but supplied through Brandes, a sub-contractor of Thales, the prime contractor for this system. A civilian has been employed in this role since September 2007, the date on which UAV operations of this type commenced in Afghanistan.

Armed Forces: Deployment

Mr. Jim Cunningham: To ask the Secretary of State for Defence what steps the Government has taken to assist personnel with settling back into the community on return from operational duties. [179178]

Derek Twigg *[holding answer 15 January 2008]:* I refer the hon. Member to the answer I gave on 14 January 2008, *Official Report*, columns 877-78W, to the hon. Member for North Cornwall (Dan Rogerson).

Armed Forces: Driving

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library copies of his Department's Annual Road Safety Report issued since 1997-98. [175451]

Derek Twigg: I will arrange for the documents to be placed in the Library of the House. The reports can also be found at:

http://www.transportsafety.dnr.mil.uk/articles/pmoArticle.asp?articleheader=Defence%20Annual%20Road%20Safety%20Report

Armed Forces: Housing

Mr. Bellingham: To ask the Secretary of State for Defence how many housing association tenants live in his Department's accommodation. [171105]

Derek Twigg: There are no housing association tenants living in service accommodation.

Armed Forces: Mental Health

Mr. Jim Cunningham: To ask the Secretary of State for Defence what steps the Government have taken to tackle mental health issues arising among armed forces personnel, with particular reference to those returning from operational duty. [179180]

Derek Twigg *[holding answer 15 January 2008]:* We recognise that operational deployments can be very stressful experiences and to that end measures are in place to increase awareness at all levels and to mitigate the development of operational stresses. Medical staff and the Chain of Command are trained to recognise signs of mental illness and stress and where practicable a period of "decompression" is arranged for the returning unit between the end of the operational deployment and post operational leave. Additionally pre- and post-deployment talks are given to educate personnel and their families to the possible after-affects of an operational deployment and, if required, what medical and welfare support is available.

For those who require it, we provide treatment primarily through our 15 military Departments of Community Mental Health across the UK (plus satellite centres overseas), which provide out-patient mental healthcare. A wide range of psychiatric and psychological treatments are available, including medication, psychological therapies, and environmental adjustment where appropriate. The Defence Mental Health Services have extensive experience in psychological treatments for mental health problems in general, and psychological injury in particular.

In-patient care, when necessary, is provided in psychiatric units belonging to the Priory Group of Hospitals, through a central contract with MOD. The arrangements with the Priory Group mean that the majority of patients can be treated much closer to their parent units than was the case when we maintained the last of our own psychiatric hospitals.

Armed Forces: Peace Establishment

Patrick Mercer: To ask the Secretary of State for Defence (1) what the peace establishment was of the 4th Regiment of the Royal Artillery before its deployment

to Afghanistan; what the strength was of the Regiment on deployment; how many reinforcements to the Regiment were received from (*a*) the regular Army, (*b*) the Territorial Army and (*c*) the regular Army Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Regiment's battle casualty replacement policy is; [177936]

(2) what the peace establishment was of the 1st Battalion Coldstream Guards before its deployment to Afghanistan; what the strength was of the Battalion on deployment; how many reinforcements to the Battalion were received from (*a*) the regular Army, (*b*) the Territorial Army and (*c*) the regular Army Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Battalion's battle casualty replacement policy is; [177938]

(3) what the peace establishment was of the Household Cavalry Regiment before its deployment to Afghanistan; what the strength was of the Regiment on deployment; how many reinforcements to the Regiment were received from (*a*) the regular Army, (*b*) the Territorial Army and (*c*) the regular Army Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Regiment's battle casualty replacement policy is; [177940]

(4) what the peace establishment was of the 1st Battalion Royal Gurkha Rifles before its deployment to Afghanistan; what the strength was of the Battalion on deployment; how many reinforcements to the Battalion were received from (*a*) the regular Army, (*b*) the Territorial Army and (*c*) the regular Army Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Battalion's battle casualty replacement policy is. [177942]

Mr. Bob Ainsworth: The following table provides the information requested. Numbers are rounded to the nearest 100 or where less than 100 to the nearest 10, as appropriate.

Number

	4th Regiment Royal Artillery	*1st Battalion Coldstream Guards*	*Household Cavalry Regiment*	*1st Battalion Royal Gurkha Rifles*
Peacetime establishment prior to deployment	600	600	500	600[1]
Strength on Deployment	400	500	200	600
Level of reinforcement from Regular Army	40	0	0	<10
Level of reinforcement from regular Army Reserves	<10	<10	0	0
Level of reinforcement from Territorial Army	20	0	10	<10
Unit personnel left behind on recruiting duties or were physically unfit to deploy	100	70	30	50
Rear Party Strength[3]	80	70	100	200

[1] Prior to deployment 1 RGR were manned over their establishment requirement, their actual strength was 800.
[2] Only one squadron of the Household Cavalry Regiment has deployed.
[3] Figures for rear party strength exclude those personnel listed as physically unfit to deploy or on recruiting duties.

I refer the hon. Member to my answer of 7 January *Official Report*, column 50W that outlines the policy on battlefield casualty replacement which applies across the Army.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence how many explosive devices have been activated against or by (*a*) Mastiff and (*b*) Vector/Pinzgauer vehicles since being deployed to theatre; how many (i) deaths and (ii) injuries have resulted in relation to each type of vehicle; and how many vehicles have been damaged beyond repair. [177985]

Mr. Bob Ainsworth: I have nothing to add to the answers given by me on 30 October 2007, *Official Report*, columns 1343-44W to the hon. Member for North Shropshire (Mr Paterson).

Delivery Services

Mr. Carmichael: To ask the Secretary of State for Defence which companies are under contract to his Department to provide mail services. [170164]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my right hon. Friend the Secretary of State for Defence gave on 22 March 2007, *Official Report*, column 1034W, to the hon. Member for South-West Norfolk (Mr. Fraser).

Departmental Public Expenditure

Dr. Fox: To ask the Secretary of State for Defence what the total expenditure in near cash terms was in each financial year since 2000-01 as listed in his Department's resource account code hierarchy. [175446]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Liam Fox:

I undertook to write to you in answer to your parliamentary question on 7 January 2008, *Official Report*, column 42W, about the total expenditure in near cash terms in each financial year since 2000-01 as listed in the MOD's resource account code hierarchy.

I provided a detailed breakdown of the MOD's Outturns for the financial years 2001-02 to 2007-07 in my letter of 30 November 2007 to Oliver Letwin, a copy of which is available in the Library of the House. I enclose a copy for ease of reference. The Department did not operate a near cash regime prior to 2001-02. Near cash figures are not readily available at resource account level and could only be provided at disproportionate cost.

Departmental Recycling

Mr. Pickles: To ask the Secretary of State for Defence what recycling scheme is in operation in each building operated by his Department. [176504]

Derek Twigg: The information is not held centrally and could be provided only at disproportionate cost.

The Department's recycling policy states that all non-hazardous waste products especially those generated from offices are recycled, this including, for example, paper, glass, aluminium cans, fluorescent tubes, printer cartridges, toners etc.

It is the responsibility of the organisation within the Department that owns or manages the individual building, site or establishment to introduce a recycling scheme in accordance with this policy which is dependent upon local recycling availability and local recycling infrastructure.

Mr. Jenkins: To ask the Secretary of State for Defence what weight of paper his Department recycled in each of the last five years. [179459]

Derek Twigg: The information is not held in the format requested, however information is available on the amount of waste produced and the total amount recycled. I refer the hon. Member to the answer I gave on 18 December 2007, *Official Report*, column 1457W, to the hon. Member for South Holland and The Deepings (Mr. Hayes).

Iraq: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence how many British service members the 25 December 2007 Permanent Joint Headquarters Personnel Report stated were in *(a)* Iraq, *(b)* Kuwait, *(c)* Bahrain, *(d)* Oman, *(e)* Qatar and *(f)* at sea in support of Operation Telic. [177524]

Des Browne *[holding answer 10 January 2008]:* Figures are not available for 25 December 2007. The following table provides the number of UK service personnel deployed on operations in the locations specified as at 26 December 2007 taken from the personnel report of that date. Numbers for Iraq are rounded to the nearest 100, and for other countries to the nearest 10.

Location	*Number*
Iraq	4,600
Kuwait	320
Bahrain	30
Oman	210
Qatar	420
At sea	920

The number of personnel in theatre will naturally fluctuate on a daily basis for a variety of reasons, including leave (rest and recuperation), temporary absence for training, evacuation for medical reasons, the roulement offerees and other factors. Personnel deployed in Kuwait, Bahrain, Oman, Qatar or at sea provide support both to Operation Telic and to other operations in the region.

Kuwait

Dr. Fox: To ask the Secretary of State for Defence how many of his Department's personnel were based in Kuwait in support of Operation Telic in each year since 2003. [170824]

Des Browne: Following the end of combat operations in Iraq in 2003, the number of UK forces based permanently in Kuwait was reduced to a small contingent responsible for defence diplomacy and support to operations. The size of this contingent fluctuates naturally and we do not have separate records for 2004 and 2005 (for which figures could be provided only at disproportionate cost). However mid and end year numbers (rounded to the nearest five) for the other years requested are as follows:

	Personnel
2003	
Mid year	610
End year	190
2004	
Mid year	None recorded
End year	None recorded
2005	
Mid year	None recorded
End year	None recorded
2006	
Mid year	30
End year	10
2007	
Mid year	20
End year	330

As of 6 January 2008, the UK had some 380 logistic and support personnel deployed in Kuwait. These figures do not include those temporarily deployed in connection with roulements and other temporary support activities.

Ministry of Defence Police and Guarding Agency: Manpower

Dr. Fox: To ask the Secretary of State for Defence how many Ministry of Defence police officers there were in each year since 1997. [177588]

Derek Twigg: The figures for the number of Ministry of Defence police (MDP) officers since 1997 are provided in the following table.

	Number of MDP officers
1997	3,734
1998	3,625
1999	3,568
2000	3,393
2001	3,257
2002	3,247
2003	3,290
2004	3,322
2005	3,415
2006	3,465
2007	3,447

Princess Royal Barracks

Lembit Öpik: To ask the Secretary of State for Defence what measures he proposes to take to preserve the site-based evidence relating to the deaths of army recruits at Deepcut barracks between 1995 and 2002 in the event of the closure and disposal of the Deepcut site. [179136]

Mr. Bob Ainsworth: Responsibility for evidence relating to the deaths of the four recruits at Deepcut between 1995 and 2002 lies with Surrey Police, who undertook the investigations. The Ministry of Defence has not been required to retain any on-site evidence.

RAF Lyneham

Mr. Gray: To ask the Secretary of State for Defence on what dates the *(a)* C130K and *(b)* C130J Hercules fleets will be moving from RAF Lyneham to RAF Brize Norton. [178001]

Mr. Bob Ainsworth: The move of the C130K and C130J fleets from RAF Lyneham to RAF Brize Norton is being planned for summer 2011. The transfer is planned to complete to enable the Royal Air Force to vacate RAF Lyneham by the end of 2012. While it had been previously announced that the C130K fleet would remain at RAF Lyneham until its out of service date, further planning has identified operational benefits and logistic efficiencies from keeping the two aircraft types collocated.

Mr. Gray: To ask the Secretary of State for Defence what estimate his Department has made of the effect on the number of civilians employed at RAF Lyneham of the transfer of the support contract to a new contractor. [178004]

Mr. Bob Ainsworth: The Department does not specify how many personnel the contractor should employ; instead an output specification is used as the basis for the contract. It is the new contractor's decision as to how many people they employ to satisfy the requirement.

The new contractor is currently making plans to take over the service contract at RAF Lyneham from 1 April 2008. The scope of the new contract is the same as the old contract and there are no plans to change the number of MOD civil servants employed at RAF Lyneham on the basis of this new service contract.

HOUSE OF COMMONS COMMISSION

House of Commons Finance and Administration Department: Costs

Mr. Martyn Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission how much the Department of Finance and Administration cost to run in *(a)* 1986, *(b)* 1996 and *(c)* 2006. [179185]

Nick Harvey: The total resource cost of running the former Department of Finance and Administration for the year ended 31 March 2006 was £17,953,000. This figure includes a significant level of corporate expenditure which is not directly attributable to the direct costs of running the Department. Some of the larger corporate items during 2005-06 included pension contributions (£10,277,000), contracts management (£608,000), and child care vouchers (£217,000).

Comparisons with 1986 and 1996 are difficult because of organisational changes and the accounts being cash rather than resource based. The direct cash cost of running the Administration Department in 1986 was £2,372,000; and the Department of Finance and Administration in 1996 was £8,252,000.

House of Commons Finance and Administration Department: Manpower

Mr. Martyn Jones: To ask the hon. Member for North Devon, representing the House of Commons Commission how many members of staff worked in the Department of Finance and Administration in *(a)* 1986, *(b)* 1996 and *(c)* 2006. [179184]

Nick Harvey: The Department of Finance and Administration had the following staff in post as at 31 March:

1986: 95

1996: 114

2006: 151

House of Commons: Planning

Richard Younger-Ross: To ask the hon. Member for North Devon, representing the House of Commons Commission how many building projects the Commission has commissioned since 1997; and how many of them were *(a)* over budget and *(b)* late. [179182]

Nick Harvey: I regret that information to this level of detail cannot be readily produced without disproportionate cost, but if my hon. Friend wished to table a more specific question about a particular project I shall endeavour to give him a full reply.

Poultry Meat

Mr. Oaten: To ask the hon. Member for North Devon, representing the House of Commons Commission what proportion of chicken served on the House of Commons estate was free range in the most recent period for which figures are available. [179297]

Nick Harvey: During calendar year 2007, £75,300 was spent on chicken meat (fresh); £7,400 was spent on free-range chicken (that is, just under 10 per cent. of expenditure on chicken). As many products are purchased as individual items, not by weight, the proportion by weight is estimated at 7 per cent. of the total.

Most of the free range products purchased were chicken breasts. Certain chicken products are not readily available as free range, for example boiling fowl, chicken wings and halal - these amounted to 6 per cent. of expenditure.

It is the House of Commons catering service's policy to buy chicken from two reliable suppliers with very high standards of food safety. All fresh poultry products purchased, including chicken, are fully traceable to the farms of origin.

Visitor Reception Building

Richard Younger-Ross: To ask the hon. Member for North Devon, representing the House of Commons Commission how late the new visitor centre is; what extension of time has been granted; and what the overspend will be. [179183]

Nick Harvey: I refer the hon. Member to the answer I gave recently about the visitor reception building on 18 December 2007, *Official Report*, column 1246W.

TRANSPORT

A2: Gravesham

Mr. Holloway: To ask the Secretary of State for Transport what estimate was made of the cost of constructing a bridleway to connect Down's Road and Hog Lane on the A2 road in Gravesham. [177294]

Mr. Tom Harris: No estimate was made for the cost of constructing a bridleway to connect Downs Road and Hog Lane on the A2 in Gravesham.

Airports: Security

Mr. Greg Knight: To ask the Secretary of State for Transport what discussions she has had with BAA on screening passengers passing through scanners at airport security points more quickly. [179197]

Jim Fitzpatrick: My right hon. Friend has regular discussions with industry, including the BAA, on a range of security issues. We have long recognised the need to balance security measures with the needs of the travelling public. However, the security of passengers must never be compromised.

Seafarers: Training

Mr. Carmichael: To ask the Secretary of State for Transport what steps her Department has taken in response to the European Commission warning of possible court action against the UK for failing to implement European legislation on the recognition of seafarer certificates; and when her Department plans to implement the relevant legislation. [177818]

Jim Fitzpatrick: The Department regrets the delay in transposing this Directive, which amends Directive 2001/25/EC on the minimum level of training for seafarers. We are however committed to transposing the Directive into UK legislation as quickly as possible.

The Directive will be transposed into UK legislation by a new statutory instrument. The drafting of this is at an advanced stage. A 12-week consultation on this draft will commence shortly prior to laying the final Regulations before Parliament. It is anticipated that this process will be completed and the legislation brought into force in spring 2008.

Driving: Foreigners

Mr. Drew: To ask the Secretary of State for Transport if she will make it her policy to require foreign nationals to demonstrate a year's driving without offences in the UK before they are able to apply for a UK driving licence. [178980]

Jim Fitzpatrick: When applying for a first British provisional licence, or exchanging an existing foreign licence for a British equivalent, all driving licence applicants are treated equally, irrespective of their nationality. There are no plans to change this policy.

Road traffic law is also applied equally to drivers of all nationalities. Any driver who accumulates sufficient penalty points is liable for disqualification from driving by a court.

Great Western Trains: Standards

Mr. Laws: To ask the Secretary of State for Transport what recent assessment she has made of train *(a)* punctuality and *(b)* overcrowding on the Weymouth to Bristol line; and if she will make a statement. [177832]

Mr. Tom Harris: By early December, punctuality across the First Great Western (FGW) franchise stood at 82.5 per cent. We have impressed on FGW the need for this to improve. Joint action plans are in place between Network rail and FGW to help achieve this and are monitored monthly by the department.

Measures to improve punctuality and to increase capacity on individual routes are matters for the train operator.

Network Rail: Repairs and Maintenance

Mr. Hancock: To ask the Secretary of State for Transport what discussions she had with Network Rail on rail network engineering projects over the Christmas period; what action she took following those discussions; and if she will make a statement. [177344]

Mr. Tom Harris: The Secretary of State met Iain Coucher, chief executive of Network Rail, on 3 January. She emphasised to him that, while the department had no intention of intervening in Network Rail's operations, the level of disruption caused to passengers over the Christmas period had been unacceptable.

On 8 January, the Office of Rail Regulation announced that it will be conducting an investigation into Network Rail's handling of engineering works. This will focus in particular on the overruns that occurred over the Christmas period. The initial results are expected by the end of February.

Railways

Stephen Hammond: To ask the Secretary of State for Transport what steps the Department has taken to ensure Network Rail is improving its safety procedures following the Waterloo derailments of 11 September and 24 October 2006. [178339]

Mr. Tom Harris: The report into these incidents by the Rail Accident Investigation Branch (RAIB) was published on its website (www.raib.gov.uk) on 18 December 2007. RAIB made 14 recommendations, mostly directed at Network Rail. It is for the Office of Rail Regulation, the health and safety regulator for Britain's railway, to consider the recommendations and Network Rail's response to the incidents and to ensure that action is taken by Network Rail where appropriate.

Railways: Crime

Mrs. James: To ask the Secretary of State for Transport what assessment she has made of the steps being taken by train operating companies to reduce numbers of assaults on platform and train staff. [179190]

Mr. Tom Harris: The rail industry is undertaking a range of initiatives to help reduce the numbers of assaults on its staff. This includes the setting up of the pan-industry Rail Personal Security Group to address the issue. The rail industry, though, cannot be expected to work alone in tackling staff assaults. The police, local authorities, crime and disorder reduction partnerships, and others need to play their part too—as do the public in respecting the transport environment.

Railways: Freight

Norman Baker: To ask the Secretary of State for Transport how many miles of railway line are available to freight traffic only. [178140]

Mr. Tom Harris: Using Office of Rail Regulation's definition of freight-only lines Network Rail estimates that there are 585 track km of freight-only lines. This equates to 364 track miles.

Railways: Overcrowding

Mr. Jenkins: To ask the Secretary of State for Transport what recent assessment she has made of train *(a)* punctuality and *(b)* overcrowding on the line between Tamworth and London. [179380]

Mr. Tom Harris: Punctuality is reported by Network Rail and is monitored on a daily basis by West Coast Trains, London Midland and East Midlands Trains. The results are reviewed by the Department against key performance benchmarks set for each franchise.

Officials at the Department also review timetables proposed by the train operators to ensure that they provide services compliant with their franchise commitments. It is the responsibility of train operators to manage their rolling stock resources in order to fulfil their franchise commitments and minimise crowding.

Railways: Portsmouth

Mr. Hancock: To ask the Secretary of State for Transport if she will pursue provisions requiring *(a)* an additional train coach to the current two car unit service operating hourly and *(b)* a half hourly three car unit service between Portsmouth and Cardiff in the next relevant franchise negotiations; and if she will make a statement. [178246]

Mr. Tom Harris: Responsibility for delivering a service which meets the standards in the franchise agreement is a matter for First Great Western.

Railways: Standards

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 7 January 2008, *Official Report*, column 9W, on railways: standards, how many passengers were given the opportunity by *(a)* South West Trains and *(b)* her Department to read an unabridged version of the ergonomic study. [178975]

Mr. Tom Harris: Only a redacted version of the study has been made available by South West Trains to passengers. South West Trains have, however, made the full report available to Passenger Focus who have confirmed that the redacted version accurately reflects the report's findings.

Transport: Heavy Goods Vehicles

Mr. Todd: To ask the Secretary of State for Transport if she will require all non-UK registered heavy goods vehicles using UK roads to be equipped to the standards required of UK registered vehicles, with particular reference to identical parameters for speed limiters. [179400]

Jim Fitzpatrick: It is already a requirement under the provisions of directive 92/6/EEC as amended by directive 2002/85/EC for heavy goods vehicles (HGV) registered in any EU member state to be fitted with a speed limiter. This requires that the speed limit for an HGV should not exceed 90 kilometres per hour.

All vehicles have to comply with minimum standards of roadworthiness irrespective of the country in which they are registered. If they do not their drivers and operators can be prosecuted and fined. The vehicle can also be prohibited from moving until necessary repairs have been carried out.

Travel Concession Authorities

Mr. Cox: To ask the Secretary of State for Transport in which areas of the travel concession authorities' financial expenditure her Department expects that Gershon savings can be found. [179086]

Ms Rosie Winterton: It is for the travel concession authorities to determine where best they can make Gershon efficiency savings.

There are a number of ways by which travel concession authorities could make such savings. Where appropriate they could move to county-wide administration of concessionary travel schemes (if they are currently managed at the district level) or could move to joint administration with other authorities. The administration of concessionary travel could also be streamlined by, for instance, issuing passes bi- or tri-annually instead of yearly, or by adopting streamlined procedures for monitoring and calculating reimbursement payments, in co-operation with bus operators.

The Department has been working with local authorities to find ways of improving the efficiency of concessionary fares administration. An eventual move to full smart-ticketing, subject to up-front investment, would significantly reduce the scope for passenger and operator fraud, improve the collection of data needed for calculating reimbursement, and reduce the need for separate passenger surveys. To assist this process the Government are paying a grant of £31 million to ensure that bus passes for the new national concession starting April 2008 are in ITSO smartcard form.

COMMUNITIES AND LOCAL GOVERNMENT

Departmental Consultants

John McDonnell: To ask the Secretary of State for Communities and Local Government how much her Department spent from its *(a)* running costs and *(b)* programme expenditure on consultants in (i) 2004-05, (ii) 2005-06 and (iii) 2006-07. [178499]

Mr. Dhanda *[holding answer 14 January 2008]*: The Department for Communities and Local Government (CLG) was created following Machinery of Government changes on 5 May 2006.

For the 2006-07 financial year, expenditure on consultants for CLG was £72.742 million (of which £7.254 million was administration running costs, the remainder programme expenditure). Comparable figures for earlier financial years are not available and could be obtained only at disproportionate cost.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Communities and Local Government whether personal data for which her Department is responsible is *(a)* stored and *(b)* processed overseas; and if she will make a statement. [176024]

Mr. Dhanda: No personal data associated with the Communities and Local Government corporate infrastructure is stored and/or processed overseas.

Fire Services: Pensions

Danny Alexander: To ask the Secretary of State for Communities and Local Government what estimate she has made of the effect on payments made under the Fire Service Pension Scheme from the likely change in the number of retirements due to ill health in each of the next 10 years. [177957]

Mr. Dhanda: In 2004, the Firefighters' Pension Scheme 1992 was amended to provide that eligibility for an ill-health pension was restricted to those who were permanently disabled for the performance of the duties of their role as a firefighter, whether instead of, or in addition to, engaging in fire-fighting. This reflected changes in the duties of firefighters.

This is resulting in a reduction of about 100 ill-health retirements per annum for fire and rescue authorities in England, giving an estimated annual saving of £1.5 million for each year group, index linked. This will reduce future liabilities by up to £21.3 million per annum.

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what representations her Department has received from organisations calling for energy performance certificates to be attached to valuations. [171498]

Yvette Cooper: We have received no recent representations calling for energy performance certificates to be linked to mortgage valuations.

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government (1) what estimate her Department has made of the number of prospective home buyers who have made use of the home information pack. [174316]

(2) what estimate she has made of the number of requests by potential buyers to read home information packs. [174318]

Yvette Cooper: No such estimate has been made.

Homes and Communities Agency: Powers

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether agents of the Homes and Communities Agency will have the power to enter private property. [174454]

Yvette Cooper: Agents of the Homes and Communities Agency will have the power to enter land, but only for the purpose of surveying it, or estimating its value, in connection with either a proposal to acquire that land or any other land, or any claim for compensation in respect of any such acquisition. The agency must give at least 28 days notice of the intended entry.

These powers are the same as the existing powers of the Urban Regeneration Agency established by the Leasehold Reform, Housing and Urban Development Act 1993 which will be dissolved once the Homes and Communities Agency is established.

Housing: Low Incomes

Mr. Drew: To ask the Secretary of State for Communities and Local Government what the expenditure from the public purse has been in the Stroud district on *(a)* social housing and *(b)* affordable housing in each year since 2002. [177676]

Mr. Iain Wright: The following table shows expenditure through the Housing Corporation's Affordable Housing Programme (AHP) between 2002-03 to 2006-07 including expenditure on major repairs and works to RSL stock in Stroud district and through Local Authority Social Housing Grant (LASHG). LASHG was abolished from 1 April 2003.

£000

	Social housing	*Low Cost Home Ownership (LCHO)*	*Major repairs and works to stocks through AHP*	*Total expenditure AHP*	*Total expenditure LASHG*	*Total annual expenditure*
2002-03	227	54	60	341	452	793
2003-04	656	327	28	1,011	0	1,011
2004-05	332	207	24	563	0	563
2005-06	269	377	16	662	0	662
2006-07	289	124	4	417	0	417

Housing: Renewable Energy

Lembit Öpik: To ask the Secretary of State for Communities and Local Government (1) what assessment her Department has made of the use of the Planning Policy Statement 22 viability clause in the practical application of local authority Merton rules; and what estimate she has made of the number of developments under the Merton rule that have achieved at least a 10 per cent. carbon dioxide reduction from the use of onsite renewables; [165211]

(2) what assessment she has made of the effect of the Merton planning rule on the uptake of micro-renewables; and if she will make a statement. [165209]

Yvette Cooper: The information required to make the assessments sought is not held centrally and could be assembled only from local authorities at a disproportionate cost. I also refer the hon. Member to the answer given to the hon. Member for Bexhill and Battle (Gregory Barker) on 29 October 2007, *Official Report*, 682W. This answer explains that assessments of the type sought by the hon. Member will vary substantially according to the assumptions made on matters such as the range of developments to which local policies are applied, the expected numbers of developments to be completed, their energy demands, the extent to which the provision of installed equipment complies with the original planning permission and whether the technologies installed in practice provide the predicted savings.

Immigration: Population

Mr. Lilley: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the number of additional new households which will be formed in the next 25 years beyond those expected in a zero net migration scenario; and what proportion of total household growth such households will represent over the same period. [179440]

Mr. Iain Wright: The latest 2004 based household projections showed annual average household growth of 223,000 per year from 2004 to 2026 in England, of which 73,000 (33 per cent.) are attributable to net migration.

Mobile Homes

Adam Afriyie: To ask the Secretary of State for Communities and Local Government by what means her Department ensures that park home residents are informed of changes in legislation governing park homes. [178501]

Mr. Iain Wright: Communities and Local Government publish information on changes to park home legislation through various mediums, including press notices, on the departmental website, and direct communication with site owners, national trade bodies, national resident stakeholder groups and those local authorities in England in which park home sites are situated.

Planning: Renewable Energy

Tom Brake: To ask the Secretary of State for Communities and Local Government what recent discussions her Department has had with developers on the Merton Rule. [164001]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Bexhill and Battle (Gregory Barker) on 29 October 2007, *Official Report*, 680W. This refers to the many discussions we have had with a wide range of interested stakeholders, in consulting on and developing our measures to drive higher environmental performance standards in new development. Developers are amongst the stakeholders that we have had discussions with in this context.

Racial Discrimination: EU Action

Harry Cohen: To ask the Secretary of State for Communities and Local Government what the Government's policy is on the EU's proposed definition of indirect discrimination in the draft Race Directive. [177068]

Mr. Dhanda: The European Race Directive was agreed by all members of the European Union, including the UK, in June 2000. As I stated in my reply to my hon. Friend on 8 October 2007, *Official Report*, column 26W, we intend to amend domestic law to meet concerns set out in a Reasoned Opinion from the European

Commission that the UK has not fully transposed the directive in relation to the definition of indirect discrimination.

Second Homes: National Parks

Tim Farron: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the merits of a ban on extensions to second homes in national parks. [178535]

Mr. Iain Wright: I am aware that the impact of second homes is a particular concern in some areas, but it is for local authorities to adopt policies that will allow them to deal with local issues when they are determining an application for planning permission.

Certain types of householder development can, however, proceed without the specific approval of the local planning authority. Permitted development rights are set nationally and are intended to allow householders to make relatively small-scale and uncontentious improvements to their homes.

We announced on 30 November, following consultation, our intention to amend the current system. This is intended to ensure that what is permitted development reflects better the potential impact on others. Our proposals provide for a generally more restrictive approach to extensions in certain designated areas, including national parks, compared to non-designated areas.

Local planning authorities also have powers to remove these rights locally by using an "article 4 direction" to require that an application is made and their approval sought. It will then be for them to determine whether a proposal is acceptable based on relevant planning considerations, including local policies. An article 4 direction can apply to a particular type of development and/or a specific area, but could not impose restrictions based on the ownership of a particular property. The planning system regulates the use of land and the residential status of an applicant would not be material.

Self-Employed

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many self-employed people were under contract to *(a)* her Department, *(b)* the Government offices for the regions and *(c)* the Planning Inspectorate in the latest period for which figures are available. [178966]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Temporary Employment

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many days of agency work were paid for by *(a)* her Department, *(b)* the Government offices for the regions and *(c)* the Planning Inspectorate in 2007. [178967]

Mr. Dhanda: This information is not held centrally in the format requested and could be extrapolated only at disproportionate cost.

Urban Areas: Carbon Emissions

Tony Baldry: To ask the Secretary of State for Communities and Local Government (1) what consideration will be given to local development frameworks when considering planning applications for eco-towns; [166301]

(2) what is the proposed process for determining planning applications for eco-towns. [166302]

Yvette Cooper: Eco-towns will need full planning application. Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that the application is determined in accordance with the development plan unless material considerations indicate otherwise. Some areas will also want to consider reviews of the development plan or mini reviews of the Regional Spatial Strategy. As set out in the Eco-towns prospectus, there may be circumstances where use of the New Towns Act powers might be used.

CULTURE, MEDIA AND SPORT

Departmental Official Engagements

Mr. Hands: To ask the Secretary of State for Culture, Media and Sport when he will answer Question 166020, on engagements of the Minister for Sport, tabled on 15 November 2007 by the hon. Member for Hammersmith and Fulham. [179296]

Mr. Sutcliffe: This question was answered on 14 January 2007.

GCap Media

Adam Price: To ask the Secretary of State for Culture, Media and Sport whether Ministers in his Department received requests for a meeting with GCap Media to discuss the radio licensing regime operated by Ofcom, with particular reference to XFm during 2007. [179052]

James Purnell *[holding answer 14 January 2008]:* No.

Licensing

Mr. Betts: To ask the Secretary of State for Culture, Media and Sport how long stakeholders were given to comment on a draft of the guidance on Expedited Licence reviews under the Violent Crime Reduction Act 2006 before that guidance was finalised. [175322]

Mr. Sutcliffe: In issuing guidance on the use of the new expedited review process, the priority was to provide advice as soon as possible to help the police tackle issues such as gun and knife crime on licensed premises. The guidance is non-statutory and non-binding and, while there was no requirement to conduct a public consultation, we were nevertheless able to give stakeholders sight of the draft and four days in which to comment.

London Bubble Theatre Company: Finance

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport what representations he has received on the future funding proposals for the London Bubble Theatre Company by Arts Council England. [178079]

Margaret Hodge: DCMS has received seven letters on the future funding of the London Bubble Theatre Company since 18 December 2007. There are no other recorded representations.

The Arts Council operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them. The arm's length principle ensures that the arts are not 'run' by the Government and are not subject to political interference: individual funding decisions are taken independently by people with expert knowledge of the sector.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Taliban

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with officials in his Department on negotiations with the Taliban in Afghanistan; and if he will make a statement. [178554]

Dr. Howells: I refer the hon. Member to my right hon. Friend the Prime Minister's statement to the House on 12 December 2007, *Official Report*, columns 303-07, where he made the UK's position clear. We are not negotiating with the Taliban leadership and we do not propose to do so. However, we support President Karzai's efforts to bring disaffected Afghans into society's mainstream, providing they renounce violence and accept Afghanistan's constitution.

In my regular discussions with officials on Afghanistan, we have covered support for Afghan-led efforts to reach out to Taliban elements who no longer want to continue their armed opposition, in order to weaken the insurgency and isolate its leadership.

India: Human Rights

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a further round of the ad hoc EU-India human rights dialogue has been scheduled. [179318]

Dr. Howells: A further meeting of the ad hoc EU-India human rights dialogue is planned to follow the EU-India Summit of 30 November 2007 and discussions to find a mutually convenient date are in hand. The UK will continue to work closely with the EU and India on human rights issues including through this important dialogue.

Iran: Nuclear Power

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterparts on Iran's nuclear programme and the use of *(a)* sanctions and *(b)* other policies; and whether the impact of those policies on UK troops was discussed. [179108]

Dr. Howells: My right hon. Friend the Foreign Secretary discusses the issue of Iran's nuclear programme regularly with the US Secretary of State. The US is also part of the E3+3 group of countries that is leading the international community in seeking a negotiated solution to this issue and which therefore meets regularly to co-ordinate our approach. That approach is based on a generous offer to Iran should they suspend their proliferation sensitive activities and the threat of sanctions should they continue to refuse to do so. Through the E3+3, the Government and the US have played an important role in securing three United Nations Security Council Resolutions on Iran, two of which have focused on sanctions. The E3+3 are committed to a diplomatic solution to the concerns of the international community about the Iranian nuclear programme. We have not specifically discussed the impact of these policies on UK troops.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the number of academies there will be between 2007-08 and 2020-21. [172110]

Jim Knight: There are currently 83 academies open and we anticipate that 50 will open in each of the next three years, bringing the overall total of open academies to more than 230 by September 2010.

The projected number of academies for subsequent years will be subject to the outcome of future comprehensive spending reviews.

Academies: Construction

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families what the tender process will be for the design and build of the federated academy on the Isle of Sheppey; and what steps he has taken to ensure an open and transparent process at each stage. [177156]

Jim Knight: In line with national academies policy through Building Schools for the Future (BSF), the project to develop and deliver the building programme will be managed by Kent Local Education Partnership (LEP).

On 17 December, Kent announced the Land Securities Trillium/Northgate Information Solutions consortia as its preferred partner. This LEP will deliver all BSF and academies projects in the Gravesham, Thanet and Swale district areas. The consortia includes a design supply chain made up of the architectural practices of Fielden Clegg Bradley, Ryder HKS, Arup and K4.

Kent's preferred bidders were appointed following a 15 month procurement competition held in accordance with relevant EU legislation and overseen by Partnership

for Schools and Partnerships UK. The design element of the procurement was overseen by the Commission for Architecture and the Built Environment and Partnerships for Schools with client design advice to Kent being provided by Gensler.

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of potential bidders for the design and build contract for the federated academy on the Isle of Sheppey; and how many international companies have expressed interest. [177157]

Jim Knight: Kent county council selected a preferred bidder for its first Local Education Partnership on 17 December 2007 to deliver, among other schools, the proposed Sheppey Academy. This followed a 15 month procurement competition held in line with relevant EU legislation. A total of six consortia made bids for the project and all six consortia included substantial companies with multi-national portfolios of work and substantial experience in the education sector.

Academies: Curriculum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what freedoms accrue to academies as a consequence of his policy that they do not have to follow national curriculum disapplication procedures; and if he will make a statement. [164017]

Jim Knight: The headteacher of maintained schools is able to disapply the national curriculum, for individual pupils:

who have a statement of special educational needs, under section 92 of the of the Education Act 2002;

for a temporary period, through regulations under section 93 of the Act;

However, he must obtain consent from the Secretary of State to disapply the national curriculum for groups of pupils or the school community, for a specified period:

to enable curriculum development or experimentation, under section 90 of the Act.

The current model funding agreement states that academies must follow the national programmes of study for all pupils in English, science, maths and ICT. However, this is not required if in the opinion of the Principal it is inappropriate to follow the national curriculum because of the pupil's ability or attainment.

This allows academies the freedom to use different curriculums where pupils have already surpassed the national curriculum key Stage. It also allows academies to disapply the national curriculum if the ability of the pupil is low and they would benefit from a different approach. The latter is similar to the ability of maintained schools to disapply if the pupil has a statement of SEN.

Academies: Sponsorship

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which academies *(a)* are and *(b)* will be sponsored or co-sponsored by universities; and if he will make a statement. [172109]

Jim Knight: Those academies open, in implementation or in feasibility which are sponsored or co-sponsored by universities are listed in the following chart.

Academy Name	*Project Status*	*Project Title*	*Sponsor/co-sponsoring university*	*Opening date*
The City Academy Bristol	Open	Bristol 1	University of the West of England	1 September 2003
North Liverpool Academy Nottingham	Open	Liverpool 1 -North	University of Liverpool	1 September 2006
University Samworth Academy	Implementation	Nottingham 3	University Of Nottingham	1 September 2009
Merchants' Academy Withywood	Implementation	Bristol 2	University of Bristol	1 September 2008
Red House Academy	Implementation	Sunderland 3	University of Sunderland	1 September 2009
Eastside Academy (New School)	Feasibility	Birmingham 2	Birmingham City University (formerly UCE)	1 September 2011
Brit Legacy School South Area Academy (name TBC)	Feasibility	Cheshire 2	University of Chester	1 September 2009
Swanswell Academy	Feasibility	Coventry 2	Coventry University Sheffield	1 September 2010
TBC	Feasibility	Derbyshire 1	Hallam University	1 September 2011
The Newton Academy	Feasibility	St Helens 1	Liverpool Hope University	1 September 2011
The Oxford Academy	Feasibility	Oxfordshire 2	Oxford Brookes University	1 September 2008
City of London Academy Islington	Feasibility	Islington 2	City University, London	1 September 2008
St Alban's Academy	Feasibility	Birmingham 8	Aston University	1 September 2010
Harborne Hill Academy	Feasibility	Birmingham 7	University of Birmingham	1 September 2010

Building Schools for the Future Programme

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will publish the timetable for Phase II of Building Schools for Future. [178494]

Jim Knight: Building Schools for the Future aims to renew all secondary schools in England where there is need, in 15 waves of investment which started from 2005-06. We have now announced the specific projects and authorities in the first six waves of Building Schools for the Future. Our delivery agent, Partnerships for Schools, is this week hosting the launch event for wave six, where school building work can start from 2010-11.

We aim this year to consult on how we manage waves seven onwards–of the programme, building on the lessons we have learned from the early waves. We have already announced that we will give all authorities with projects in these waves the opportunity to revise their expressions of interest in the programme: our guidance on this will be informed by the consultation. We aim to announce which authorities will be in wave seven by the end of this year, which can access Building Schools for the Future funding from 2011-12. The exact timetable for this programme is, of course, subject to future public spending decisions.

Children in Care: Pupil Referral Units

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what percentage of children referred to pupil referral units as a result of their behaviour were looked after children in the latest period for which figures are available. [179405]

Beverley Hughes: The requested information is not collected centrally.

Children: Day Care

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families (1) what new children's centres he plans to open in Hendon; when and where each is expected to open; what the original timetable was for opening such centres; what *(a)* capital and *(b)* revenue funding his Department expects to provide for each over the next three financial years; how many places each such centre will offer; and if he will make a statement; [177923]

(2) what children's centres operate in Hendon; what *(a)* capital and *(b)* revenue funding his Department has provided to each such centre in the last three financial years; how many places are offered by each such centre; and if he will make a statement. [177924]

Beverley Hughes: Local authorities are responsible for the planning and implementation of Sure Start Children's Centres in their areas. There are currently four designated children's centres in the London borough of Barnet, two of which are located in the Hendon constituency. There are a further nine planned for designation in 2008, four of which will be located in the Hendon constituency. We have given Barnet an indicative number of a further nine centres to be delivered by 2010 to reach remaining children under five in the final phase of the roll out of children's centres. Revenue and capital allocations for Barnet children's centres for each of the next three years and last three years are given in the following tables. It is the authority's responsibility to determine allocations between individual centres. Sure Start Children's Centres do not offer a set number of places. Each centre is expected to offer services to around 800 children under five and their families in the local community although this figure may be higher in areas of high population density. Centres in the 30 per cent. most disadvantaged areas offer childcare to some children in their area. Information is not held centrally about the number of child care places in each centre.

£

	Children's Centre revenue	*Sure Start, Early Years and child care capital allocation*[1]
2008-09	3,651,335	2,342,190
2009-10	4,912,063	3,199,744
2010-11	5,983,537	2,520,657

[1] Includes capital funding streams for children's centres and early years and child care quality and access. Local authorities have flexibility to decide how much to spend on each element.

£

	Children's Centre revenue	*General Sure Start Grant capital allocation*
2005-06	238,558	[1]317,666
2006-07	537,361	[2]2,337,313
2007-08	2,176,374	4,278,485

[1] One off two-year capital allocation for 2004-06 covering children's centres and sustainability of child care.

[2] From 2006, capital funding streams for children's centres, sustainability and extended schools capital were merged into the General Sure Start Grant capital allocation. Local authorities were given flexibility to decide how much to spend on each element.

Children: Speech Impaired

John Bercow: To ask the Secretary of State for Children, Schools and Families whether improved joint working across agencies for services to children with speech, language and communication difficulties will be included in the statement of values for integrated working with children and young people due to be published in 2008. [178287]

Jim Knight: No. The statement of values for integrated working describes principles and values for all children's practitioners to follow in order to improve the outcomes for children and families. As such, it would not be appropriate for it to include specific areas of expertise.

John Bercow: To ask the Secretary of State for Children, Schools and Families what guidance his Department will provide to children's trusts and their partners to ensure that by 2010 they have in place arrangements to provide identification and early intervention for children who need additional help; whether this guidance will include information on identifying and supporting children with communication difficulties; and if he will make a statement. [178301]

Jim Knight: In 2005 the Department issued "Statutory Guidance on Inter-agency Co-operation to Improve the Wellbeing of Children: Children's Trusts". This describes the duties placed on local authorities

and other key partners to co-operate to improve the five outcomes for children and young people—be healthy, stay safe, enjoy and achieve, making a positive contribution and achieve economic wellbeing. The guidance sets out the features of co-operation through children's trusts and provides a strategic framework within which all children's services within a local area will operate.

In addition, the Department provides a range of guidance to service providers on supporting children with additional needs. This includes the statutory guidance in the Special Educational Needs Code of Practice which makes clear schools' and local authorities' responsibilities to identify and make provision for children with SEN, including those with communication difficulties, and the importance of early intervention.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 27 November 2007, *Official Report*, column 380W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 1997. [177183]

Kevin Brennan: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information, I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-51WS.

Information on the number and cost of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175333]

Kevin Brennan: The Department was formed as part of the machinery of government changes announced on 28 June 2007 and therefore there were no redundancies in my Department in the periods described.

Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what the four independent settings are that are the main providers of a child's education but not currently registered with either Ofsted or his Department. [176977]

Jim Knight: The four unregistered settings are as follows:

a small tuition group which provides a curriculum based on Christian principles for children aged 4 to 11 and operates for five hours a day for up to 20 children;

a support centre for home educators which provides academic lessons for 18 hours from Monday to Thursday and optional recreational based activities for three hours on Fridays;

an establishment providing 16½ hours of education from Monday to Friday for three to six-year-olds as part of a home education programme where parents also provide five hours 15 minutes a week;

a centre educating both pupils placed by local authorities and others. Pupils attend for a total of 20 hours from Monday to Friday.

Education: Parents

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government plan to take to engage parents further in the education of their children. [177809]

Beverley Hughes: As children do better at school if parents, fathers as well as mothers are engaged, the Department has set out in the Children's Plan (published December 2007) plans to help mothers and fathers get more involved in their children's learning. Specifically we intend to:

Provide every child from the moment they arrive in secondary school with a personal tutor who will co-ordinate support for the child throughout their time in the school.

Encourage all schools to regularly seek the views of parents, enhancing the role of Parents Councils.

Continue to provide support for parents who find it more difficult to get involved, by expanding the availability of Parent Support Advisors to 10—15 schools in every local authority.

Offer all parents regular, up to date information on their child's attendance, behaviour and progress in learning.

In addition, my Department will continue to provide free book packs for parents of all children in England at nine months, 18 months, three years and in Reception, which will be reinforced by the 2008 National Year of Reading and more family learning programmes.

Educational Institutions

Dr. Vis: To ask the Secretary of State for Children, Schools and Families (1) what definition he uses of institution as used in section 76(1)b of the Education and Skills Bill; [177889]

(2) how many institutions, other than independent schools, he expects to be registered on the new Independent Educational Institutions register as set out in the Education and Skills Bill; [177890]

(3) what the reasons are for the decision in the Education and Skills Bill to treat part-time educational institutions differently from other forms of education otherwise than at school provision. [177892]

Jim Knight: Part 4, Chapter 1, clause 76(1)b of the Education and Skills Bill provides a definition of an institution other than an independent school.

Parents have a duty to ensure their children receive full-time education. Most parents choose full-time education in a school, with a minority choosing to educate otherwise than at school. Where parents delegate a substantial part of their children's education to others, we believe that the state has responsibility for ensuring that children have appropriate learning opportunities and learn in a safe and secure

environment. The Bill places education where children are educated without their parents being present on the same regulatory footing as all other settings which provide the major part of a child's education.

I refer my hon. Friend to my response given to PQ 176977, which describes four institutions that we anticipate will need to register under current proposals. Some responses to our public consultation suggested that there were more institutions that would need to register, but they provided insufficient detail for us to make a precise estimate of the total.

GCE A-Level

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many pupils were entered for a GCE A-level in *(a)* accounting, *(b)* art and design, *(c)* biology, *(d)* business studies, *(e)* chemistry, *(f)* communication studies, *(g)* dance, *(h)* design and technology, *(i)* engineering, *(j)* English literature, *(k)* drama and theatre studies, *(l)* French, *(m)* geography, *(n)* German, *(o)* health and social care, *(p)* history, *(q)* home economics, *(r)* information and communication technology, *(s)* leisure studies, *(t)* mathematics, *(u)* further mathematics, *(v)* media studies, *(w)* performance studies, *(x)* performing arts, *(y)* physical education, *(z)* physics and (aa) travel and tourism in (i) mainstream schools in the maintained sector, (ii) city technology colleges, colleges for the technology of the arts and academies and (iii) schools in the independent sector in each year since 1997. [177300]

Jim Knight: The information has been placed in Library.

Figures for VCE qualifications have been given where GCE-A level is not applicable.

GCE A-Levels

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many people are studying *(a)* sports studies, *(b)* PE, *(c)* photography, *(d)* performing arts, *(e)* performance studies, *(f)* music technology, *(g)* media studies, *(h)* leisure studies, *(i)* technology, *(j)* information and communication, *(k)* home economics, *(l)* health and social care, *(m)* film studies, *(n)* drama and theatre studies, *(o)* design and technology, *(p)* dance, *(q)* communication studies, *(r)* business studies, *(s)* art and design, *(t)* accountancy and *(u)* travel and tourism at (i) AS-Level and (ii) second year A-Level; and how many people completed the relevant A-Level in each of the last 10 years. [178118]

Jim Knight: The information required to answer part (iii) has been placed in Library.

Figures for VCE qualifications have been given where GCE-A level is not applicable.

General Certificate of Secondary Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families for what reasons the Government target for GCSE performance is measured against the standard of performance at a C grade or better; and if he will make a statement. [177887]

Jim Knight: GCSEs are unique qualifications because they span two levels of the National Qualifications Framework: grades D-G are at "level 1", while grades at C and above represent "level 2". Level 2 qualifications recognise the ability to gain a good knowledge and understanding of a subject area of work or study, and to perform varied tasks with some guidance or supervision. Learning at this level involves building knowledge and/or skills in relation to an area of work or a subject area and is appropriate for many job roles.

The learning and skills attained at level 2 are therefore appropriate for many job roles and represent the progression route to A Levels and other higher qualifications. Government targets reflect our determination to see the majority of young people reaching the standard which enables them to make such progression.

Geronimo Communications

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what payments have been made by Geronimo Communications to *(a)* his Department and *(b)* officials in his Department in each year since 1999; and if he will make a statement. [177741]

Kevin Brennan *[holding answer 10 January 2008]*: There are no records of any payments received from Geronimo Communications and paid into departmental bank accounts.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which officials in his Department have managed the contract with Geronimo Communications since 1 January 2000; and if he will make a statement. [177829]

Kevin Brennan: Geronimo Communications have had a PR framework agreement with the Department since 2000, awarded as a result of three separate European tenders. The European tenders resulted in a number of framework agreements awarded to several PR suppliers to cover the anticipated PR requirements of the Department over the framework life. Framework agreements rather than contracts are used where there is a regular demand for a particular service over a period of time. Users then 'call off' from the frameworks by letting contracts that relate to a specific project.

There is split responsibility between the corporate contract management of the framework agreements and contract management at individual job level. The Media Procurement Unit, part of the Department's Commercial Group within Corporate Service Directorate run the tender process, award and corporate contract manage the framework agreements. The duties performed by the Media Procurement Unit with a supplier include dissemination of supplier information to users, corporate communications, supplier forums and surgeries, arbitration and processing of framework variations.

Communications Directorate is the main user of the PR framework agreements, 'calling-off' from a framework agreement for a project. Those users will then 'contract manage' an individual project, selecting a supplier, setting the specification and monitoring budgets, quality and outputs.

To list each individual contract manager that has placed work with Geronimo Communications since 2000 would create disproportionate costs.

Gifted Children

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what proportion of children identified as gifted and talented achieved level 7 in *(a)* English and *(b)* science at Key Stage 3 in the last three years; [177225]

(2) what proportion of children identified as gifted and talented achieved level 8 in mathematics at Key Stage 3 in the last three years. [177226]

Jim Knight: The proportion of students identified as gifted and talented in maintained schools who achieved level 7 in English and science in 2006 was 30.0 per cent. and 44.3 per cent. respectively. The corresponding figures for 2007 were 25.3 per cent. and 45.7 per cent.

The proportion of students identified as gifted and talented in maintained schools who achieved level 8 in mathematics in 2006 was 28.1 per cent. The corresponding figure for 2007 was 28.8 per cent..

National data on gifted and talented pupils has only been collected since 2006.

The gifted and talented students not achieving this benchmark will almost certainly include many who have been identified for their talent in, for example, creative arts or sports.

Gifted Children: Free School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children identified as gifted and talented are entitled to free school meals. [177227]

Jim Knight: The available information is given in the table. The Department advises schools to ensure that their gifted and talented populations are broadly representative of their wider school populations in respect of gender, ethnic and socio-economic background. The new gifted and talented strand of the City Challenges will include work to improve schools' capacity to identify underachieving gifted and talented pupils from disadvantaged backgrounds.

Maintained primary and secondary schools[1]: number and percentage of gifted and talented pupils by their free school meal (FSM) eligibility[2, 3], summer 2007, England

	Primary Schools			Secondary Schools		
	Number of pupils	*Percentage of gifted and talented group[4]*	*Percentage of cohort (incidence)[5]*	*Number of pupils*	*Percentage of gifted and talented group[4]*	*Percentage of cohort (incidence)[5]*
Known to be eligible for FSM	34,420	11.4	5.3	29,350	6.9	7.1
Other pupils	268,430	88.6	7.7	396,480	93.1	14.0
Total	302,850	100.0	7.3	425,830	100.0	13.1

[1] Includes middle schools as deemed.
[2] Headcount of pupils.
[3] Includes dually registered pupils.
[4] The number of gifted and talented pupils by their characteristics expressed as a percentage of the total number of gifted and talented pupils.
[5] The number of gifted and talented pupils by their characteristics expressed as a percentage of the total number of pupils in the same cohort.
Note:
Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.
Source:
School Census.

Gifted Children: GCE A-Levels

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children identified as gifted and talented achieved three As at A-Level in the last three years. [177224]

Jim Knight: I refer the hon. Member to the answer I gave to the hon. Member for Havant (Mr. Willetts) on 9 January 2008, *Official Report*, column 650W.

Gifted Children: General Certificate of Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children identified as gifted and talented did not achieve 5 A*-Cs, including English and mathematics, at GCSE in the last three years. [177223]

Jim Knight: The proportion of students identified as gifted and talented in maintained schools who did not achieve 5 A*-C grades at GCSE including English and mathematics in 2006 was 15.1 per cent. The corresponding figure for 2007 is 14.8 per cent. National data on gifted and talented pupils has only been collected since 2006.

The gifted and talented students not achieving this benchmark will almost certainly include many who have been identified for their talent in, for example, creative arts or sports.

Headteachers: Hampshire

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families what proportion of head teachers in *(a)* Southampton, *(b)* Romsey and *(c)* Hampshire are within (i) one year, (ii) two years, (iii) three years, (iv) five years and (v) 10 years of standard pension age. [177421]

Jim Knight: The information requested is not available at local authority or constituency level.

Islington Green Academy: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which trust has donated money to the Islington Green Academy via the City University; and if he will make a statement. [177221]

Jim Knight: City University London is a joint sponsor, together with the City of London Corporation, of the City of London Academy, Islington which is expected to replace Islington Green School from September 2008. The university has raised funds from four sources to provide sponsorship: the Cass Foundation, the Saddlers Company, the Kitchin Fund and a philanthropic benefactor who has expressed a wish to remain anonymous. The university and Department are respecting that wish. The donations are being made to the university, not to the academy and the donors will have no say in the running of the academy. This anonymous donor has been subject to a due diligence check by the university.

The rules relating to charitable foundations generally, not just academies, mean that not all donations need to be made public. It is commonplace for charities to receive donations from benefactors who do not wish publicity. An Academy Trust, as a charitable company, has to record its income in published annual accounts, and has to include a note with accounts on any amounts received as a charitable donation.

Sponsors of academies cannot themselves act anonymously and must be named in the Funding Agreement.

Languages: Schools

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what plans he has to extend modern foreign language teaching in *(a)* primary and *(b)* secondary schools; whether he plans to make the study of a modern foreign language at school compulsory; and if he will make a statement. [177922]

Jim Knight: The Children's Plan, published in December 2007, confirmed that the primary curriculum will be reviewed, including introducing languages as a compulsory subject. This takes forward the recommendation in Lord Dearing's Languages Review that languages should become a compulsory part of the primary curriculum, and builds on the existing entitlement for all Key Stage 2 pupils to learn a language in class time by 2010. Progress so far is good and already over 70 per cent. of primary schools are offering languages in class time. We are extending language teaching in primary schools through: a teacher training programme in a primary languages specialism, which has so far trained nearly 3,000 teachers, with thousands more to be trained over the next few years; increased funding for local authorities to support the delivery of primary languages; and access for teachers to sources of support for use in the classroom.

At secondary level, languages are compulsory at Key Stage 3 (ages 11-14). The new secondary curriculum, which will be taught from September 2008, extends the range of languages pupils can study at this level by relaxing the requirement that schools first teach a working language of the European Union so that they can offer any major world or European language.

As a result of the continued decline in take up of languages at GCSE following their removal from the compulsory Key Stage 4 curriculum (ages 14-16) in 2004, Lord Dearing's Languages Review looked at how best to increase participation in language learning. He did not recommend making languages compulsory at Key Stage 4 because he felt that a 'one size fits all' approach was not the best way to motivate learners. Instead, he recommended a package of measures to extend language learning post-14 which we are now implementing. These include: two new performance indicators in the Achievement and Attainment Tables from 2008 to measure attainment and participation in languages; a more engaging secondary curriculum; more and better support for language teachers; a major communications campaign to promote the benefits of language teaching to pupils, parents and the school workforce; and the Open School for Languages, a major web-based initiative which will offer innovative approaches to the learning of languages.

London Academy Edgware

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families where the London Academy is ranked amongst schools for results at each key stage; and what the Academy's value-added measures were in the latest period for which figures are available. [177680]

Jim Knight: The following tables provide data on:-

(a) Where the London Academy is positioned amongst all maintained, mainstream schools (including CTCs and Academies) for 2007 (Amended) Revised KS4 results and 2006 (Amended) Revised KS3 results.

(b) The 2007 Revised CVA measures for the London Academy.

(a) Ranks amongst schools

2007 Revised KS4

London Academy	*Result*	*Position out of 3044 schools*[1,2]
Average uncapped point score	35.5	1913
Percentage 5A*-C	54.6	1908
Percentage 5A*-C inc. English and Maths	39.1	1847

2006 Revised KS3

London Academy	*Result*	*Position out of 3109 schools*[1,2]
Average point score	32.2	2568

[1] All positions based on unrounded results. A rank of 1 being the highest school/measure.

[2] All maintained mainstream schools including CTCs and Academies whose results were published in the 2006 or 2007 Achievement and Attainment tables.

(b) 2007 Revised CVA measures for the London Academy

KS2-KS4 CVA	1023.9
KS3-KS4 CVA	1012.2

2007 Amended KS4 and 2006 Amended KS3 school level attainment files

Nurseries

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families for how many weeks on average three and four-year-old children received the free nursery entitlement in *(a)* 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08; how many children (i) were eligible for and (ii) took up the entitlement in each of those years; how much was provided in the dedicated schools grant for the entitlement in each of those years; what the average staffing cost per child of the entitlement was in each of those years; what the average expenditure per child was on the entitlement in each local authority in each of those years; and if he will make a statement. [178357]

Beverley Hughes: Information is not available in the form requested.

Since April 2004 all three and four-year-olds have been entitled to a free part-time early education place for 12.5 hours per week for 38 weeks of the year. From 2010, this offer will be extended from 12.5 to 15 hours per week for 38 weeks of the year.

The following table provides information on the number of three and four-year-olds taking up or benefiting from early education places for the years 2004-07.

Number of three and four-year-olds taking up or benefiting from early education places[1,2,3] by type of provider, England, 2004-07[4] position in January each year (2007 data as at 22 May)

	2004	2005	2006	2007
Private and voluntary providers[4]				
Number of children taking up early education places	[5]445,300	[5]432,800	[5]429,400	[5]446,900
Percentage of population[6]	39	39	38	39
Number of children benefiting from some free early education	[7]388,600	[7]396,700	[8]401,800	[8]420,700
Percentage of population[6]	34	35	36	37
Independent schools[9]				
Number of children taking up early education places	54,700	52,000	50,100	50,500
Percentage of population[6]	5	5	4	4
Number of children benefiting from some free early education	[7]38,400	[7]39,200	[8]37,900	[8]37,900
Percentage of population[6]	3	3	3	3
Maintained nursery and primary schools				
Number of children benefiting from some free early education	676,500	663,800	657,700	663,800
Percentage of population[6]	59	59	59	58
Nursery schools and nursery classes in primary schools				
Number of children benefiting from some free early education	320,200	312,300	312,500	318,900
Percentage of population[6]	28	28	28	28
Infant classes in primary schools[10]				
Number of children benefiting from some free early education	356,300	351,500	345,200	344,900
Percentage of population[6]	31	31	31	30
Special schools[11,12]				
Number of children benefiting from some free early education	4,100	3,700	3,600	3,700
Percentage of population[6]				
All providers				
Number of children taking up early education places	[1]1,180,500	[1]1,152,400	[1]1,140,800	[1]1,165,000
Percentage of population[6]	103	103	102	101
Number of children benefiting from some free early education	[1]1,107,500	[1]1,103,400	[1]1,101,100	[1]1,126,100
Percentage of population[6]	97	98	98	98

[1] Headcount of children aged three and four at 31 December in the previous calendar year, rounded to the nearest hundred.
[2] Numbers of three and four year olds in schools may include some two year olds.
[3] Any child attending more than one provider may have been counted twice.
[4] Includes some local authority day nurseries registered to receive funding.
[5] Scaled up from the data as returned by providers to all providers of early years education.
[6] Number of places taken up by three and four year olds expressed as a percentage of the three and four year old population.
[7] Providers returned the number of three and four year olds for which they had received or expected to receive funding.
[8] Local authorities returned the number of three and four-year-olds for which they expected to receive funding.
[9] Includes direct grant nursery schools.
[10] Includes reception and other classes not designated as nursery classes.
[11] Includes general hospital schools.
[12] Excludes pupils who are also registered elsewhere.

Notes:
1. Rounding of components may cause discrepancies in totals.
2. '–' = less than 0.5 per cent.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 19/2007 'Provision for children under five years of age in England: January 2007', available on my Department's website at:

www.dcsf.gov.uk/rsgateway/.

The Dedicated Schools Grant (DSG) was only introduced in 2006-07. We do not separately identify the amount of funding in the DSG for early years. It is up to the local authorities to decide how to distribute their overall allocation.

In 2004-05 and 2005-06 LAs received funding to provide free nursery education for three and four-year-olds through the under-fives sub-block of their education formula spending share (EPS). In 2004-05 £3,208 million was funded through the under-fives block of the education formula spending (EFS) and in 2005-06 £3,456 million was funded. EFS was not ringfenced, so funding for education—including the notional under five's funding—could be spent on other sectors and vice versa.

Parenting Orders

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many parenting contracts have been issued in each year since 2004. [177299]

Kevin Brennan: The information is set out in the table.

The Department has collected data on local authorities' use of parenting contacts (in cases of irregular school attendance and exclusion) since September 2004.

Parenting contracts offered by local authorities and accepted by parents

School academic year	*Irregular attendance*	*Exclusion*
2004-05	5,717	410
2005-06	10,207	1,898
2006-07	13,278	2,535
Total	29,202	4,843

Additional data on parental responsibility measures are provided at local authority level and are published at:

www.dfes.gov.uk/schoolattendance/otherinitiatives/Data.cfm

Pre-School Education: Greater London

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many children in (*a*) Hendon and (*b*) Barnet aged (i) three and (ii) four are benefiting from the free early years programme; what plans he has to expand this provision in (A) Hendon and (B) Barnet; how much has been awarded to Barnet as part of the dedicated schools grant to support the costs in increasing early years education for (1) 2007-08 and (2) 2008-09; and how many registered childcare places for under eights there (x) are and (y) were in 1997 in (X) Hendon and (Y) Barnet; and if he will make a statement. [177691]

Beverley Hughes: 3,500 three-year-olds and 3,800 four-year-olds in Barnet benefited from the free early education entitlement in 2007. Numbers broken down to constituency level are not available.

At present all three and four year olds are entitled to 12.5 hours of free early education per week for 38 weeks a year. That will rise to 15 hours a week for 38 weeks by 2010. Barnet's most disadvantaged three and four-year-olds will become eligible for the extended offer in 2009 and all children in the Borough in 2010.

Dedicated Schools Grant (DSG) allocations do not separately identify the amount of funding for early years. Local authorities are responsible for the distribution of their overall allocation in the light of local priorities. The final 2007-08 dedicated schools grant (DSG) allocation for Barnet was £185.129 million. The indicative DSG allocation for 2008-09 is £196.451 million. (This figure will be finalised in spring 2008 using actual January pupil counts. Additional funding to support the increase of the free entitlement to 15 hours is being made available through the standards fund. The indicative allocations for 2009-10 and 2010-1, in Barnet are £484,000 and £2,154,000, respectively.

In 1997 there were 7,900 [1]registered childcare places for under eights in Barnet.

There were 9,000 [2]registered childcare places for children under eight years old in Barnet, in [3]2007.

[1] Data Source: Children's Daycare Facilities Survey

[2] Data Source: Ofsted.

[3] Figures for 1997 and 2007 quoted above are not comparable as they are derived from different data sources.

Pre-School Education: Southern Region

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 10 July 2007, *Official Report*, column 1404W, on pre-school education: southern region, if he will publish local authorities' estimates of funding allocated to early years. [178584]

Beverley Hughes: The Department published local authorities' estimates of the average per pupil amount allocated by local authorities to maintained providers and to private, voluntary and independent sector providers for delivery of the free entitlement early years provision in August 2007. The Free Entitlement to Early Years Provision Table for 2007-08 can be found on the DCSF website at:

http://www.dfes.gov.uk/localauthorities/section52/subPage.cfm?action=section52.default&ID=87

Private Education: Registration

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families on what dates changes were made to the wording of his Department's consultation document on the transfer of responsibility for the registration of independent schools and the regulation of independent and non-maintained special schools to Ofsted following its initial publication; whether any such changes were made to electronic versions of the consultation document only; and if he will make a statement. [177800]

Jim Knight: I can confirm that minor changes were made to the electronic versions only of the consultation document on 31 July and 5 September 2007, to provide greater clarity, following feedback from consultees. These changes did not materially affect the proposals on which we consulted.

Pupils: Allergies

Mr. Stewart Jackson: To ask the Secretary of State for Children, Schools and Families whether he plans to issue guidance to nursery schools on the provision of spring-activated automatic injection device pre-loaded with adrenaline for staff supervising children with allergies; and if he will make a statement. [178513]

Beverley Hughes: The 'National Standards for under 8s day care and childminding' covers the provision and administration of medication to children in early years settings. The standards will be subsumed and replaced by the statutory framework for the Early Years Foundation Stage (EYFS), which will underpin the provision of child care from birth to five, when it comes into effect this September. The EYFS sets out specific legal requirements and statutory guidance for providers, including

the provision of necessary training for staff on administering prescription medicines requiring technical/medical knowledge.

Pupils: Drugs

Mr. Malins: To ask the Secretary of State for Children, Schools and Families if he will introduce compulsory and random drug tests in all state schools for pupils over 15 years old. [178103]

Jim Knight: This Department has no plans to introduce compulsory and random drug testing in schools.

Decisions about whether to employ drug testing rest entirely at school level. The Department's guidance, Drugs: Guidance for Schools (DFES 2004) offers guidance on voluntary drug testing in schools and makes clear that such an approach should be clearly stated in the school's drug policy, which should be developed in consultation with pupils, parents, staff, governors and the whole school community.

Qualifications: Hendon

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what percentage of GCSE students in schools in Hendon constituency achieved five or more A* to C grades inclusive in *(a)* 1997 and *(b)* 2007; what the value added score for each school in Hendon constituency was in 2007; what the average point score at A level was (i) for each school in Hendon constituency (A) per candidate and (B) per exam entry, (ii) for all schools in Hendon constituency and (iii) nationally in 2007; what the percentage of (1) A and B and (2) A to E grades achieved at each school in Hendon constituency was in 2007; and if he will make a statement. [177927]

Jim Knight: The figures to answer part *(a)* and *(b)* are as follows:

	1997	*2007*
Percentage of pupils who achieved 5+A*-C	49.4	69.8
Percentage of pupils who achieved 5+A*-G	88.6	95.0

Notes:
1. Figures include GCSEs and equivalents.
2. The 1997 figures are for pupils aged 15 at the beginning of the academic year, i.e. 31 August.
3. The 2007 revised figures are for pupils at the end of key stage 4.

Information required to answer the rest of the question can be found in the achievement and attainment tables that have been placed in the Library.

School Meals: Finance

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what financial support his Department provides to schools in Hendon to improve school food; and if he will make a statement. [177928]

Kevin Brennan: The Government have invested £220 million over the three years 2005-06 to 2007-08 to assist authorities and schools in improving school lunches and other school food. Barnet local authority received over £770,000 of that funding, with a further £473,000 going to schools. Schools, including those in Hendon, received a lump sum of £1,070 per primary school and £1,500 per secondary school, with an additional 50p per pupil.

Further funding of £240 million over the three years from 2008-09 to 2010-11 is also being made available to local authorities, to help manage the direct costs of providing a school lunch. For 2008-09, Barnet local authority will receive over £480,000.

Schools: Buildings

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what progress his Department has made on bringing around 3,500 secondary school buildings up to 21st century standards; and if he will make a statement. [178495]

Jim Knight: In 1997, investment in school buildings was under £700 million a year and schools had suffered from many years of under investment, with a large backlog of condition and suitability needs. This year, Government funding for investment in school buildings and facilities is £6.4 billion and it will rise to over £8 billion a year by 2010-11—a seven-fold increase in real terms under this Government.

Since 1997, every school in England has benefited from this growth in funding. Since 2000, every school has been given money directly to invest in its own priorities. By 2010-11, a typical secondary school, for example, will have received over £900,000 to improve its buildings and facilities.

In the 10 years to 2007, there were 162 new secondary schools built, and a further 26 new or significantly refurbished academy buildings. Additionally, over 6,600 science laboratories were built or refurbished, and over 430 sixth form blocks built or refurbished. Many other secondary schools benefited from new general classrooms, new kitchens or dining rooms, improved sports facilities and the replacement of decayed temporary accommodation with permanent.

Ensuring that all secondary school have 21st century facilities is now driven by Building Schools for the Future, which with the academies programme aims to rebuild or renew all secondary schools in England where there is need in 15 waves of investment.

There are now 72 local authorities in the first six waves of the programme, supported in developing their projects by our delivery agent, Partnerships for Schools. The first all-new school in this programme was opened in September in Bristol. Additionally, 39 authorities not yet in Building Schools for the Future are being offered One School Pathfinder funding to renew their neediest secondary school. There are a further 106 academies buildings in development outside of the BSF programme. In all, almost 1,000 schools are now in planning or procurement through Building Schools for the Future, Academies, or as One School Pathfinders. Further, we will provide £8 million of funding by 2010-11, to each of 76 authorities not yet in Building Schools for the Future, to improve diploma provision for 14-19 year olds and to improve facilities for young people with special educational needs.

Full details of our school improvement programme are in my written statement of 10 October 2007.

Schools: Hendon

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what the average *(a)* level of school attendance and *(b)* number of exclusions per pupil was in Hendon schools in the latest period for which figures are available; and if he will make a statement. [177493]

Kevin Brennan: The latest available information for absence relates to autumn term 2006 and spring term 2007 and is shown in the table.

The latest available information for exclusions relates to the academic year 2005/06 and is shown in the table.

Primary and secondary schools' Number of permanent and fixed period exclusions 2005/06 Hendon parliamentary constituency

	Permanent exclusions[2]		Fixed period exclusions	
	Number of exclusions	Percentage of the school population[3]	Number of exclusions	Percentage of the school population[4]
Primary schools	-	-	n/a	n/a
Secondary schools[1]	7	0.08	8.36	9.85

n/a= Not available

[1] Includes middle schools as deemed. Secondary data include figures for one academy. Exclude special schools and independent schools.

[2] Number of permanent exclusions as reported by schools.

[3] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January 2006.

[4] The number of fixed period exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January 2006.

[5] Less than three or a rate based on less than three.

Schools: Manpower

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many full-time equivalent *(a)* teaching assistants, *(b)* support staff and *(c)* teachers were employed in schools in Hendon in the latest period for which figures are available. [177732]

Jim Knight: The following table shows the full-time equivalent number of teaching assistants, support staff and teachers employed in local authority maintained schools in Hendon in January 2007. This is the latest information available.

Full-time equivalent teaching assistants, support staff and teachers in local authority maintained schools in Hendon constituency, January 2007

	Hendon constituency
Teaching assistants	420
Support staff[1]	650
Teachers	
Qualified	910
Unqualified	120

[1] Includes teaching assistants.

Note:
Figures are rounded to the nearest 10.

School Census

Social Services: Parents

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to support parents during the first year of a child's life. [177808]

Beverley Hughes: This Government have made significant improvements to the support for parents of young children. We have introduced paid paternity leave, doubled maternity pay and are increasing maternity leave to a year, some of which can be transferred to fathers. We have introduced a right to request flexible working for parents, which five million parents have exercised. Six in 10 mothers now work flexibly.

We are establishing a nationwide network of Sure Start children's centres offering access to high quality integrated early years services, including child and family health services, antenatal and post-natal services, parental outreach and family support services, support for children and parents with special needs and early learning. There are currently over 1,900 children's centres offering services to over 1.2 million children under five and their families. By 2010, there will be 3,500, one for every community.

We have recently announced £30 million additional funding to 2011 to extend the health-led parenting support projects which offer a structured programme for parents with the most intense needs of home visits by trained nurses during pregnancy and the first two years.

Special Educational Needs: Norfolk

Dr. Gibson: To ask the Secretary of State for Children, Schools and Families how many and what proportion of children attending schools in Norfolk have special educational needs without a statement; how many counties in England have *(a)* fewer and *(b)* more such children attending schools within their boundaries; and if he will make a statement. [177802]

Jim Knight: Figures from the school census show that, in January 2007, Norfolk local authority had 12,276 primary school pupils with special educational needs without statements, representing 19.4 per cent. of the total number of primary school pupils, including middle schools deemed as primary. In percentage terms, there are 102 local authorities with fewer such children attending schools within their boundaries, 43 local authorities with more and 4 local authorities with the same.

In secondary schools, Norfolk local authority had 8,085 pupils with special educational needs without statements, representing 17.2 per cent. of the total of

secondary school pupils, including middle schools deemed as secondary. In percentage terms, there are 89 local authorities with fewer such children attending schools within their boundaries, 57 local authorities with more and one local authority with the same. Note that the local authorities of City of London and Isles of Scilly do not have any secondary school pupils.

Special Educational Needs: Barnet

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what *(a)* percentage and *(b)* number of students in Barnet have special educational needs but are without statements; where this ranks Barnet local education authority (LEA) in relation to other LEAs in (i) London and (ii) England; and if he will make a statement. [177494]

Jim Knight: Figures from the School Census show that, in January 2007, Barnet local authority had 4,902 primary school pupils with special educational needs without statements, representing 18.9 per cent. of the total number of primary school pupils, including middle schools deemed as primary. In percentage terms this ranks Barnet local authority as 18th highest out of 33 London local authorities and 97th highest out of all 150 local authorities in England.

In secondary schools, Barnet local authority had 2,966 pupils with special educational needs without statements, representing 15.2 per cent. of the total of secondary school pupils, including middle schools deemed as secondary. In percentage terms this ranks Barnet local authority as 7th highest out of 33 London local authorities and 62nd highest out of all 150 local authorities in England.

Specialist Schools

Dr. Gibson: To ask the Secretary of State for Children, Schools and Families what schools in Norfolk have specialist status; what the specialty is in each case; how much each such school has received in relation to the specialist status for the latest period for which figures are available; and what applications for specialist status have been received from schools in Norfolk. [177805]

Jim Knight: The following table shows the information requested. There are 52 maintained secondary schools in Norfolk, of which 45 have specialist status including one special school with an SEN specialism. There were seven applications from schools within Norfolk in the latest specialist status application round of autumn 2007. The Department expects to announce the outcome of this round towards the end of January. The Government remain committed to the Specialist Schools programme as a means of raising attainment and achievement for all secondary aged pupils.

Specialist Schools and Academies Trust National Conference

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 10 December 2007, *Official Report*, column 270W, on Specialist Schools and Academies Trust National Conference, what parliamentary business he participated in on 28 November 2007. [177167]

Ed Balls: As recorded in *Hansard, Official Report*, I voted in several divisions on 28 November 2007.

Sports: Hendon

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what steps he is taking to promote sport in Hendon schools; what funding is being provided to school sport partnerships for schools in Hendon for 2008-09; what percentage of students in Hendon are participating in sport for two hours or more per week; how many hours of sport each week for pupils he expects to achieve in Hendon schools; and if he will make a statement. [177491]

Kevin Brennan: The Department for Children, Schools and Families and the Department for Culture, Media and Sport are jointly implementing the national PE, School Sport and Club Links strategy, which involves every maintained school in England. The strategy is driving up the quality and quantity of PE and school sport.

All schools in Hendon are now in a school sport partnership. Some are part of the Barnet South Partnership, which will receive £504,027 in 2008-09. The proportion of pupils in the partnership who are participating in at least two hours of high quality PE and school sport a week is 86 per cent.

The other schools are in the St. James' Partnership, which will receive £414,579 in 2008-09. The proportion of pupils in the partnership who are participating in at least two hours high quality PE and school sport a week is 67 per cent.

Our target is for every partnership to have at least 85 per cent. of pupils participating in at least two hours of high quality PE and school sport a week by 2008. Both partnerships will also benefit from extra funding for competition managers, coaches and top up swimming lessons.

With our delivery partners, we are providing enhanced support for those partnerships that need help to improve their provision.

St. Joseph's College Stoke on Trent

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families if he will make a statement on the future of *(a)* St. Joseph's College in Stoke-on-Trent and *(b)* St. George's School in Salford. [177302]

Jim Knight: It is for the local authority to consider any questions about the future of any maintained school, working with the local diocese or trustees in the case of voluntary aided schools.

I understand that Stoke-on-Trent council have been carrying out a consultation on the possible closure of St. Joseph's, and Salford council have consulted on the possible closure of St. George's, in the context of their Building Schools for the Future projects. In the case of St. Joseph's the consultation included plans to replace the school with a new Roman Catholic (RC) High School on the site of the closing school. The local authorities are now considering the views expressed. If they publish statutory proposals to close the schools, they would be the decision maker following a six week period for comments and objections, but there would be a right of appeal to the schools adjudicator by the local diocesan authorities, the Learning and Skills Council and the governing bodies and trustees of each school.

Proposals for the new RC school to replace St. Joseph's in Stoke-on-Trent could only be proposed by the trustees, or local RC diocese, and they would have to seek the Secretary of State's consent before publishing proposals for the new school without running a school competition.

Teachers: Discrimination

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the age discrimination implications of the new qualification requirements for early years foundation stage teachers which will come into force in September 2008. [177799]

Beverley Hughes: In developing the early years foundation stage (EYFS), which will come into effect this September, the Government have carefully examined all existing legislation (including the age discrimination regulations). The Government are satisfied that the EYFS is lawful while ensuring that we have provided a robust framework for high quality learning, development and care provision for children between birth to five.

Teaching Methods

Daniel Kawczynski: To ask the Secretary of State for Children, Schools and Families (1) what guidance his Department has provided to secondary schools on the teaching of low ability readers by the method of synthetic phonics; [177032]

(2) what funding is available for schools to purchase *(a)* course materials and *(b)* teacher training in synthetic phonics; [177033]

(3) whether it is his policy that every trainee primary teacher should be trained in synthetic phonics; [177034]

(4) what proportion of teacher training establishments are training primary school teachers in the use of synthetic phonics; [177035]

(5) what guidance his Department has provided to primary schools in England on the teaching of reading by synthetic phonics; [177036]

(6) what proportion of primary schools in England are teaching reading using synthetic phonics. [177037]

Jim Knight: Improving standards of literacy at all key stages is one of the Government's top priorities. Following Sir Jim Rose's review of the teaching of early reading, we have provided a wealth of guidance on the systematic teaching of phonics. We have done this through the renewal of the primary framework for literacy which puts phonics at the heart of teaching literacy; through the provision of training to all primary schools as part of the Communication Language and Literacy Development (CLLD) programme; and through the publication of Letters and Sounds, a high quality phonics teaching document sent free to all primary schools and local authorities last year.

Although this guidance is targeted specifically at early years settings and primary schools, secondary schools are able to access freely all the guidance we provide. For secondary schools, the Secondary National Strategy has produced a specific teaching unit on phonics as part of the literacy progress units designed to help secondary schools in helping pupils struggling with reading to catch up. However, we have concentrated the main thrust of our guidance on early years settings and primary schools where it is of prime importance that firm foundations in the teaching of early reading are laid.

We do not gather information on the proportion of primary schools in England which use phonics to teach reading. Phonic knowledge is a part of the KS1 national curriculum, so all schools are required to teach it.

It is this Department's intention that every trainee teacher should be trained in the use of high quality, systematic phonics teaching. We have asked the Training and Development Agency to ensure that all teacher training establishments give sufficient attention to phonics teaching and we will continue to work with the national strategies to ensure that teachers and support staff receive the appropriate continuing professional development.

We do not provide funding specifically targeted at the teaching of phonics. We believe that schools are best placed to target their funding to suit local needs. All training and materials produced through the national strategies are provided free-of-charge to schools.

Teenage Pregnancy Unit

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what budget has been allocated to the Teenage Pregnancy Unit for the next three financial years; [179407]

(2) what projects are being undertaken by the Teenage Pregnancy Unit; [179408]

(3) how many civil servants are working for the Teenage Pregnancy Unit; and what their job descriptions are. [179409]

Beverley Hughes: The funding available to support implementation of local teenage pregnancy strategies is £27.5 million for each of the next three years (2008/09 to 2010/11). A further £5.8 million is retained by the Teenage Pregnancy Unit to fund work that is managed centrally. The 'running costs' for the Teenage Pregnancy Unit itself in 2007/08 are £280,000. Decisions on funding for TPU for future years have not yet been agreed.

The main tasks of the Teenage Pregnancy Unit include:

supporting the delivery of local strategies through: performance management and sharing best practice;

policy development; and

mainstreaming teenage pregnancy work within wider Government strategies.

There are 3.5 civil servants working in the Teenage Pregnancy Unit, covering the following responsibilities:

National programme manager

National policy manager

National support manager

Administrative support (0.5)

HOME DEPARTMENT

Arrests: Alcoholic Drinks

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* arrests and *(b)* prosecutions for (i) being drunk and disorderly, (ii) being found drunk on a highway, public place or on

licensed premises and (iii) being drunk in or when entering a designated sports event there have been in each police force area in England and Wales in each year since 1997. [176110]

Mr. Coaker: Information on the number of defendants proceeded against for the offences requested are provided in tables 1 to 3.

In addition to court proceedings, the offences of being found drunk and disorderly and being drunk in a highway, public place or on licensed premises can attract a penalty notice for disorder from 2004. Data on the number of these are provided in table 4.

The arrests collection undertaken by the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences), by age group, gender, ethnicity, and main offence group, ie violence against the person, sexual offences, robbery, burglary etc.

From the aggregated data collected centrally on arrest, we are unable to identify specific offences.

Table 1: Number of defendants proceeded against at magistrates courts for selected alcohol offences, by police force area, England and Wales, 1997-2006[1,2]

Offence: Being found drunk in a highway or other Public place whether a building or not, or a licensed premises

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Staffordshire police force were only able to submit sample data for defendants proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[1] These data are on the principal offence basis

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Staffordshire police force were only able to submit sample data for defendants proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

Table 3: Number of defendants proceeded against at magistrates courts for selected alcohol offences, by police force area, England and Wales, 1997-2006[1,2]

Offence: Being guilty while drunk of disorderly behaviour

Statute: Criminal Justice Act 1967 S.91

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[2] Offence is a Notifiable offence included within OBTJ figures

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department how many asylum claimants have received leave to remain as a result of grant of *(a)* asylum, *(b)* humanitarian protection, *(c)* discretionary leave and *(d)* family indefinite leave to remain since 1 April 2003, broken down by nationality; and how many dependants have received leave to remain in each of these categories and nationalities. [172684]

Mr. Byrne *[holding answer 10 December 2007]:* The requested information is contained in the tables placed in the House Library. Information on dependants granted under the Family ILR exercise is not available and could be obtained only by examination of individual case records at disproportionate cost.

Information on asylum decisions is published quarterly and annually. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Commonwealth

Mr. Clappison: To ask the Secretary of State for the Home Department what estimate she has made of the number of Commonwealth citizens resident in the UK in *(a)* 1997 and *(b)* at the most recent date for which an estimate is available; what estimate she has made of the number of Commonwealth citizens registered to vote in the UK; which Commonwealth countries have reciprocal rights for voting with the UK; and what checks are carried out on the immigration status of applicants for electoral registration. [177394]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 16 January 2008:

The National Statistician has been asked to reply to your question on what estimate has been made of the number of Commonwealth citizens resident in the UK in *(a)* 1997 and *(b)* at the most recent date for which an estimate is available; what estimate has been made of the number of commonwealth citizens registered to vote in the UK; which Commonwealth countries have reciprocal rights for voting in the UK; and what

checks are carried out on the immigration status of applicants for electoral registration. I am replying in her absence.

(177394)

In 1997, there were an estimated 695,000 Commonwealth citizens resident in the UK. In 2006, the corresponding estimate was 1,112,000. These estimates are based on Labour Force Survey data and, as with any sample survey data, are subject to margins of error.

With respect to Commonwealth citizens registered to vote, data separately identifying British, Irish, or Commonwealth citizens are not collected centrally; these citizens are grouped together on local authority electoral returns. Therefore we are unable to produce data on voter registration separately for Commonwealth citizens.

With respect to which Commonwealth countries have reciprocal rights for voting in the UK, the Ministry of Justice advise that this information is not held centrally. In respect of the UK, the Representation of the People Act 1983 provides that all Commonwealth citizens who are lawfully resident here are entitled to vote in parliamentary and local elections. Decisions about the voting rights of Commonwealth, including British, citizens resident in other Commonwealth countries are for the individual countries concerned.

With respect to checks on immigration status, the Ministry of Justice advise that all electors are required to state their nationality on the canvass form when registering to vote. Furthermore, electoral registers are available for public inspection and anyone who believes that an ineligible person has been included may object and notify the Electoral Registration Officer (ERO) who may then make further inquiries as to the eligibility of that individual.

The Electoral Administration Act strengthened this process by:

allowing any individual to object to another person's registration details at any time;

allowing an ERO to initiate and conduct a review of a person's registration at any time;

creating a new criminal offence of supplying false information or failing to supply information to the electoral registration officer at any time; and

giving the police more time to carry out investigations into electoral fraud (they may apply to court to have the normal one year limit for bringing prosecutions increased to two years, so long as there has been no undue delay in the investigation).

Crime

Mr. Pickles: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of cases of criminal damage which occurred after 9:00 pm in each of the last two years. [176440]

Mr. Coaker: The British Crime Survey asks at what time of day victims of criminal damage believe such incidents happened. The question uses broad time bands and it is not possible to estimate the number of cases that occurred after 9 pm. The following table shows the available information for the last two survey years.

Proportion of criminal damage incidents by time of day, 2005-06 and 2006-07, BCS

	2005-06		2006-07	
	Number	*Percentage*	*Number*	*Percentage*
Morning/ Afternoon[1]	—	24	—	23
Morning	—	5	—	4
Afternoon	—	14	—	12
Morning/ Afternoon (unsure which)	—	6	—	7
Evening/Night[2]	—	76	—	77
Evening	—	36	—	36
Night	—	21	—	24
Evening/Night (unsure which)	—	18	—	17
Unweighted base	3,779		3,865	

[1] Morning is from 6 am to noon. Afternoon is from noon to 6 pm.
[2] Evening is from 6 pm to midnight. Night is midnight to 6 am.

Crime: Victims

Mr. Ruffley: To ask the Secretary of State for the Home Department how many victims of crime there were in each of the last 25 years, broken down by *(a)* police and *(b)* local authority area. [177988]

Mr. Coaker: The information requested is not available.

Police recorded crime statistics are available at police force and local authority area level but they provide counts of the number of offences rather than number of victims. The British Crime Survey can provide estimate of the number of victims at national level but not at police force or local authority area level.

Criminal Records Bureau: Telephones

Mr. Harper: To ask the Secretary of State for the Home Department what the Criminal Records Bureau policy is on the diversion of office telephone lines to personal telephones. [177228]

Meg Hillier: The Criminal Records Bureau does not operate a policy on the diversion of office telephone lines to personal telephones.

Deportation: China and Nigeria

Mr. Malins: To ask the Secretary of State for the Home Department how many *(a)* Nigerian and *(b)* Chinese nationals are in prison in the UK; and in respect of how many such people deportation was judicially recommended. [178115]

Mr. Hanson: I refer the hon. Gentleman to my answer on 19 November 2007, *Official Report*, column 516W. At the end of September 2007 there were *(a)* 1,098 Nigerian and *(b)* 349 Chinese national prisoners held in all prisons in England and Wales. Figures for the numbers of foreign national prisoners held in prisons in England and Wales are published every quarter. The latest figures are available in "Population in Custody—September 2007", available at the website:

http://www.justice.gov.uk/publications/populationincustody.htm

—where the aforementioned figures can be found.

Information on the number of these nationals for whom deportation has been judicially recommended is not collated centrally and is not available.

Comparable information for Scotland and Northern Ireland is the responsibility of the Scottish Executive and the Northern Ireland Prison Service.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Drugs: Misuse

Mr. Malins: To ask the Secretary of State for the Home Department if she will estimate the cost to the criminal justice system associated with the criminal activity of problematic drug users in 2007-08. [178110]

Mr. Coaker: The Home Office is not planning to estimate the cost to the criminal justice system associated with the criminal activity of problematic drug users in 2007-08.

A Home Office Research Study, "The Economic and Social Costs of Class A Drug Use in England and Wales 2003/04", provided an estimate of the criminal justice costs associated with problem drug users' criminal activity. The total cost to the criminal justice system was estimated to be around £4 billion for the year 2003-04.

Source:

"The Economic and Social Costs of Class A Drug Use in England and Wales, 2003/04", in "Measuring different aspects of problem drug use: methodological developments" Chapter 3, Table 3.3, OLR 16/06. This report is available on the Home Office RDS website at: http://www.homeoffice.gov.uk/rds/pdfs06/rdsolr1606.pdf

Drugs: Voluntary Organisations

Mr. Malins: To ask the Secretary of State for the Home Department if she will outsource drug work currently undertaken by statutory authorities to private charities; and if she will make a statement. [178102]

Mr. Coaker: The pooled treatment budget for substance misuse (PTB) and the young people's substance misuse partnership grant (YPSMPG) is allocated to each one of 149 local drug action teams (DATs). Together with mainstream funding, DATs use this to meet locally assessed needs by commissioning services for drug work, such as treatment and education, from a range of providers which can include private charities, as well as voluntary and statutory organisations.

Human Trafficking

Damian Green: To ask the Secretary of State for the Home Department if she will announce a timetable for the ratification of the Council of Europe Convention on People Trafficking; and if she will make a statement. [163151]

Mr. Coaker: The Government are determined to prioritise the effort to tackle the misery of human trafficking. That is why in line with our wider strategy to combat trafficking we intend to ratify the Convention before the end of this year subject to achieving necessary changes to domestic legislation in all parts of the UK.

Licensed Premises: Non-Domestic Rates

Mr. Pickles: To ask the Secretary of State for the Home Department what the maximum increase in business rates is that can be levied on licensed premises in an alcohol disorder zone. [176703]

Mr. Coaker: Alcohol disorder zones (ADZs) are designed to address the problem of alcohol-related crime and disorder in town and city centres when all other measures have failed. The charge to license holders in relation to the costs incurred in respect of an alcohol disorder zone is completely separate from business rates. The details of the charging scheme are set out in the draft regulations which were laid on 8 January 2008.

National Firearms Licensing Management System

James Brokenshire: To ask the Secretary of State for the Home Department what recent assessment she has made of *(a)* the compatibility of the software used in the National Firearms Licensing Management System with the software used in the National Firearms Register on the Police National Computer and *(b)* the interface between the two systems; and if she will make a statement. [170024]

Mr. Coaker: The software within the National Firearms Licensing Management System is compatible with the National Firearms Register on the Police National Computer in that the systems communicate directly with each other through an automated electronic interface.

The National Policing Improvement Agency is now heading a review of the effectiveness of the interface in light of operational experience.

Passports: Pensioners

Mr. Dismore: To ask the Secretary of State for the Home Department how many pensioners in *(a)* Hendon and *(b)* the UK have received free passports. [177503]

Meg Hillier: The Identity and Passport Service (IPS) does not ask passport holders to keep their address up to date on our database. Therefore, IPS cannot identify the number of current residents by geographical area that have taken advantage of the scheme to issue free passports to those applicants born on or before 2 September 1929.

However, from October 2004, when the concessionary scheme was introduced, until 31 December 2007; 468,264 people born on or before 2 September 1929 have been issued with free passports in the United Kingdom.

The entitlement also included a refund available to those that were eligible and applied for a passport in the period between 19 May 2004 and the inception of the scheme. Therefore, the total number includes 18,901 refunds that have been applied for and processed under this provision.

NORTHERN IRELAND
Burglary

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many *(a)* robberies and *(b)* burglaries were reported in each Police Service of Northern Ireland District Command Unit in each of the last 10 years; and how many of these resulted in convictions. [174863]

Paul Goggins: The number of recorded robberies in Northern Ireland fell by 648 (29 per cent.) between 2001-02 and 2006-07. The number of recorded burglaries fell by 5581 (32.5 per cent.) in the same period.

The Policing Board and the PSNI have made reducing the number of domestic burglaries a key priority and this was included as a specific target in the 2007-10 Policing Plan.

Tables 1 and 2 show the numbers of recorded robberies and burglaries in each district command unit since the new structure was set up in 2001-02.

Table 3 documents the number of prosecutions and convictions for robberies while Table 4 documents the same for burglaries. The figures relate to the police district command unit in which an offender's address falls.

Data are collated on the principal offence rule; so only the most serious offence with which an offender is charged is included.

It is not possible routinely to reconcile recorded crime data from PSNI with prosecution and conviction data. Data from PSNI relate to the number of offences whereas data on prosecutions and convictions relate to the number of offenders brought before the courts. In addition, PSNI data denote each offence as it has been initially recorded and this may differ from the offence for which a suspect or suspects are subsequently proceeded against in the courts, therefore prosecution and conviction statistics should not be compared with the number recorded.

Table 1: Recorded robbery offences

Crime Prevention

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many households have used the Lock Out Crime scheme in Northern Ireland since inception. [178318]

Paul Goggins: A total of 18,216 households registered for the Lock Out Crime scheme and 16,928 homes had additional home security devices installed.

Prisoners: Correspondence

Lady Hermon: To ask the Secretary of State for Northern Ireland what monitoring takes place of mail (*a*) sent to and (*b*) received by inmates in Northern Ireland prisons. [175793]

Paul Goggins: All mail sent to and received by inmates in Northern Ireland prisons is opened by prison staff and checked for any illicit enclosures or contraband.

A 10 per cent. sample of mail sent and received is randomly censored by prison staff for security reasons.

The only exception to this is legal and privileged mail. A record is kept of all mail sent to, and received by, inmates.

Rape

Mr. Dodds: To ask the Secretary of State for Northern Ireland what arrangements are in place to provide counselling and advice to victims of male rape in Northern Ireland. [174860]

Paul Goggins: The provision of counselling services to victims of rape is now the responsibility of the Northern Ireland Administration, however, the Northern Ireland Office does fund Victim Support Northern Ireland to provide information, help and emotional support to all victims of crime. Victim support will also make onward referrals to organisations such as Nexus who provide counselling services to victims of sexual violence.

The Northern Ireland Office is working jointly with the Department of Health, Social Services and Public Safety to develop a cross-cutting regional strategy on sexual violence which will be published in spring 2008. One of its key objectives is the establishment of a Sexual Assault Referral Centre which will provide immediate medical care, advice and other support services to all victims of sexual violence.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many accusations of rape were withdrawn in circumstances where admission of false allegations were made in Northern Ireland in each of the last 10 years. [174861]

Paul Goggins: Figures relating to the numbers of rape allegations which are withdrawn in circumstances where there is admission of false allegations are not recorded in the format requested.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Bank of Credit and Commerce International: Insolvency

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the administration and liquidation of the Bank of Credit and Commerce International began; what fees were collected by insolvency practitioners and their advisers in relation to the Bank; and when the liquidation was finalised. [178446]

Mr. McFadden: The UK operation of BCCI was placed into provisional liquidation on 5 July 1991. At about the same time BCCI operations in Luxembourg (its place of registration) and in the Cayman Islands were also put into provisional liquidation. On 14 January 1992, attempts at rescue having failed, the High Court ordered that BCCI be wound up and similar orders were made in the other jurisdictions at about that time.

The most recent date at which the costs of the liquidation are available is 15 January 2007, from the annual report to the Secretary of State. The English liquidators' remuneration totalled US $337 million paid and legal fees incurred by the English liquidators totalled US $225 million. In addition to those legal fees are the amounts which have been paid to the Bank of England following the abandonment of the liquidators' action in 2006, which totalled some £85 million, including VAT and interest. It is noteworthy that despite the high costs total moneys received by the UK liquidators as at 15 January 2007 amounted to just over US $4.1 billion and there had been five dividends to

creditors who had by then received 81 per cent. of their debts. The liquidators paid a further dividend of 3 per cent. on 27 November 2007 and expect to make a further payment but are unable to provide detail at present.

The liquidation is not yet finalized. The liquidators are making every effort to conclude the liquidation and pay final amounts to creditors as soon as possible, however, the English liquidation is one of several worldwide that are closely linked and only when they are all substantially complete will it be possible for a formal conclusion in this country.

Bankruptcy

Mr. Burstow: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many individuals in each *(a)* age cohort and *(b)* London borough filed for bankruptcy in each year since 1997; and if he will make a statement. [178420]

Mr. McFadden: The number of bankruptcies by age, and separately, by London borough can be seen in tables 1 and 2 as follows. This level of detailed information is only available for the years 2000 to 2006.

Table 1: Number of bankruptcy orders in England and Wales

Age group	2000	2001	2002	2003	2004	2005	2006
Under 25	876	1,051	1,254	1,725	2,648	3,498	4,006
25 to 34	5,810	6,258	6,339	7,233	9,319	11,844	15,539

Christmas

Mr. Burns: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176923]

Mr. Thomas: The cost of producing 900 departmental Christmas cards in 2007 was £1,020.81.

Specific postage costs cannot be provided as the cards were posted along with regular departmental mail.

Departmental Marketing

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many branded plastic bags his Department has purchased in the last 24 months for which figures are available; and at what cost. [176363]

Mr. Thomas: Central records indicate that the Department has not purchased any departmentally branded plastic bags in the last two years.

Farepak

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the investigation of Farepak will be finalised and the report published. [178524]

Mr. McFadden: I expect the investigation of Farepak to be completed within the next two to three months. For reasons given in a written ministerial statement by the Under-Secretary on 10 December, the report cannot be published. However, as my hon. Friend explained, if court proceedings ensue, information from the investigation will enter the public domain.

Fuel Poverty: Greater London

Tom Brake: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many households are classified as living in fuel poverty in each London borough. [179281]

Malcolm Wicks: London borough level estimates of fuel poverty are available only for 2003. The following table shows fuel poverty levels taken from the Fuel Poverty Indicator dataset (available online at http://www.fuelpovertyindicator.org.uk/) for all the London boroughs:

London Borough	*Estimate of number of fuel poor households*
Barking and Dagenham	3,900
Barnet	6,700
Bexley	5,000
Brent	5,300
Bromley	6,700
Camden	4,800
City of London	200

Westminster	5,600
Grand Total	16,2200

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what role the new Local Better Regulation Office will play in the enforcement of home information pack regulations by local authorities. [176362]

Mr. McFadden: The Local Better Regulation Office's objective, as proposed in the Regulatory Enforcement and Sanctions Bill, is to ensure that local authorities in England and Wales exercise their statutory duties effectively, in a way which does not give rise to unnecessary burdens, and which is transparent, accountable, proportionate and consistent. It has a number of functions in pursuance of its objective. These could include LBRO ensuring that local authorities are enforcing home information pack regulations effectively and in accordance with the principles of better regulation, if the need arose.

Housing: Carbon Emissions

Mr. David Anderson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are being taken to encourage householders to access the low carbon building programme. [178091]

Malcolm Wicks: We are working in partnership with the Energy Saving Trust to promote the low carbon buildings programme household funding stream, raising awareness of the funds that remain available to successful applicants.

To date, we have used both their advice network and market segmentation models to target those that are most likely to install microgeneration technologies and apply for grants. We have also raised awareness at a national and regional level through the issuing of a press release that focussed on the low carbon buildings programme in

December 2007.

Furthermore, at officials' last review meeting with industry representatives in September 2007, we encouraged the involvement of industry in promoting the programme, and look forward to meeting with them in February 2008 to discuss the outcomes.

Grants of up to £2,500 remain available to successful applicants until the funds are exhausted in full or March 2009, whichever comes sooner. Further details are available at www.lowcarbonbuildings.org.uk.

Industry: Heating

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the watts of heat which were generated by British industries between November 2006 and March 2007; [179047]

(2) what estimate he has made of the watts of heat generated in the UK by industry which were captured and reused between November 2006 and March 2007. [179051]

Malcolm Wicks: The latest data available are for 2005. They show that industrial sectors used 233.4 TWh of energy for heating purposes whilst the services sector used 149.7 TWh. The majority of this energy was supplied by gas and other heating fuels. These data are published in UK Energy Consumption on the BERR website.

The topic of utilising surplus heat is being considered as part of work on Heat, with a Call for Evidence due to be published by the end of January.

Insolvency: Complaints

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will bring forward legislative proposals to ensure that all complaints against insolvency practitioners are investigated by a body independent of the accountancy and law trade associations. [178448]

Mr. McFadden: There are no plans to bring forward such legislative proposals.

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints made against insolvency practitioners in the last 10 years were not resolved within five years. [178529]

Mr. McFadden: The seven recognised professional bodies that are authorised by the Secretary of State for the purpose of authorising and regulating insolvency practitioners are not required to maintain or provide this information to the Secretary of State. Of the 90 insolvency practitioners who are authorised by the Secretary of State, officials are not aware of any complaints that took more than five years to resolve.

Insolvency: Fees and Charges

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will investigate instances of insolvency practitioners charging more than £500 per hour. [178443]

Mr. McFadden: The Insolvency Rules 1986 determine how the remuneration of an office holder (liquidator/trustee etc.) is to be fixed and provide that such remuneration shall be fixed by reference to the time properly given to the administration, or as a percentage of the assets which are realised and distributed. In most insolvency cases it is for the liquidation or creditors' committee to determine the basis for fixing the remuneration or, in the absence of such a committee, the creditors decide the matter. The Rules also make provision for the court to review the amount of remuneration charged.

As the amount of remuneration is subject to review by the court the Secretary of State has no powers to investigate the amount of remuneration charged.

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make it his policy to investigate those cases where the fees paid to insolvency practitioners exceed 10 per cent. of the cash collected by them. [178447]

Mr. McFadden: The Secretary of State has no plans to investigate the fees paid to insolvency practitioners. In liquidation and bankruptcy cases it is for those who have most interest in the matter, the creditors, to consider the level of remuneration charged by an insolvency practitioner and they, or the relevant committee, must approve such remuneration. Where a minority of creditors are concerned that the remuneration appears excessive, provided at least 25 per cent. in value of creditors agree, application may be made for the court to review the level of remuneration charged.

Insolvency: Licensing

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many insolvency practitioners have been licensed by each of the recognised supervisory bodies. [178450]

Mr. McFadden: The most recent figures for the number of insolvency practitioners licensed by each of the recognised supervisory bodies are set out in tabular form as follows:

Year 2007

Authorising body	*Total number of IPs as at 1 January 2007*
The Institute of Chartered Accountants in England and Wales (ICAEW)	729
Association of Chartered Certified Accountants (ACCA)	174
The Institute of Chartered Accountants of Scotland (ICAS)	106
The Institute of Chartered Accountants in Ireland (ICAI)	46
Insolvency Practitioners Association (IPA)	369
The Law Society (LS)	152
The Law Society of Scotland (LSS)	16
Total	1,592

Insolvency: Regulation

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will bring forward legislative proposals to achieve the regulation of the insolvency industry by a single independent regulator. [178449]

Mr. McFadden: The Secretary of State has no plans to bring forward proposals to provide for a single insolvency regulator. The Insolvency Regulation Working Party considered this matter and in their report, published in 1999, emphasised that insolvency practice had never been the prerogative of any one profession. The Working Party also considered that the operational role allocated to the professional bodies in the regulation of insolvency practitioners had bought significant value in creating a regulatory infrastructure and in extending the scope of regulation.

Maxwell Companies: Insolvency

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the administration and liquidation of the Maxwell Group of Companies began; what fees were collected by insolvency practitioners and their advisers in relation to the companies; and when the liquidation was finalised. [178445]

Mr. McFadden: The "Maxwell Group of Companies" has never been a single group of companies under common ownership or in a common insolvency proceeding. The term is a generally descriptive one that has been used to refer, inter alia, to Maxwell Communication Corporation plc ("MCC"), Mirror Group Newspapers plc ("MGN"), various private companies reputedly in the ownership of the Maxwell family and certain pension scheme related companies.

MGN did not enter any form of insolvency proceeding.

MCC was a parent company of some 400 companies worldwide, and entered administration on 20 December 1991. The majority of the subsidiary companies entered various forms of insolvency proceeding, most of which have been finalised. MCC remains in administration. The majority of private companies and pension related companies also entered various insolvency proceedings during December 1991.

In relation to MCC and some 300 of its subsidiaries, as at 31 May 2007 the administrator's legal and other professional fees amounted to some £59 million. In

addition, a further £33 million of fees were incurred in relation to litigation actions. Total realisations, including recovery actions, amount to more than £1,200 million.

Further fees were borne by various MCC subsidiary companies that are not included in the above. In addition, the figures do not include fees incurred in relation to the various private companies and pension scheme related companies, information which is not readily available to the Insolvency Service without incurring disproportionate cost.

Members: Correspondence

John Barrett: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the hon. Member for Edinburgh West's letters of 10 October 2007 and 23 November 2007, with regard to Mr. Iain Hay of Edinburgh. [177822]

Mr. Thomas: I apologise for the delay in responding to the hon. Member. This was due to an administrative error. A reply will be issued shortly.

National Identity Register

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans his Department has to make use of data on the national identity register when they are established; and what the estimated annual cost to his Department of that use is. [174029]

Mr. Thomas: The Department for Business, Enterprise and Regulatory Reform will be working with the Home Office prior to the introduction of the national identity scheme to establish how identity information held on the proposed national identity register might be used to provide easier access to the Department for Business, Enterprise and Regulatory Reform's services for our customers. It is too early in the process to establish the detailed costs and benefits.

Nuclear Power Stations

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) with reference to the answer of 8 July 2006, *Official Report*, columns 779-80W, on nuclear power stations, whether the full costs of funding research into Generation IV reactor designs will be met by private investors should a new generation of nuclear reactors be built in the UK; and if he will make a statement; [179079]

(2) how much has been spent from the public purse on research into Generation IV reactor designs; and if he will make a statement. [179087]

Malcolm Wicks: In line with the reactor designs currently being assessed by the regulators through the Generic Design Assessment (GDA) process, any new nuclear reactors built over the next 10 to 15 years will be Generation III designs. These designs are already available commercially and any research necessary for their deployment in the UK will be a matter for industry.

Generation IV reactor designs are not expected to be built commercially until 2030 or beyond. Basic research into aspects of their development, for example on new materials that would be reliable at higher temperatures, is generally too far from potential exploitation in the market place to attract private sector funding. Basic research of this type is likely to continue to rely on public funding through the UK Research Councils and the European Union Euratom Framework programme, with the level of support dependent upon both the quality of the scientific proposals and the strategic priority given to that research area by the organisations concerned.

BERR does not fund research into Generation IV advanced reactors systems and the UK has now stood down as an active member of the Generation IV International Forum (GIF). The decision to stand down reflected the need to match financial and other resources with the Department's strategic priorities. While valuable in some respects, further involvement in the forum was not considered to be as relevant to the Department's mission as other competing priorities.

Since 2005 the UK Research Councils, which are funded from the science budget through the Department for Innovation, Universities and Skills, have provided some £1.63 million to support research relevant to Generation IV advance reactor systems.

UK research organisations also participate in European research collaborations relevant to Generation IV advance reactor systems that are funded by the European Commission. Details of collaborations from 2002-06 (including a small number on advanced reactor systems) can be found in "Euratom FP6 Research Projects and Training Activities Vols 1-3", which are available from the following website:

http://ec.europa.eu/research/energy/fi/fi_pubs/article_1186_en.htm

Nuclear Power Stations: Finance

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received from energy companies interested in building new nuclear power stations on guarantees for the funding of radioactive waste arisings and final decommissioning of any new plants constructed. [177841]

Malcolm Wicks: Government are clear that any energy company that operates a new nuclear power station must pay its full costs of decommissioning and its full share of waste management and disposal costs. The Energy Bill, introduced to Parliament on 10 January 2008, will impose new legal duties on operators in this regard and will create new powers for Ministers to ensure that operators meet those duties.

In the course of his official engagements, the Secretary of State regularly meets representatives from energy companies as well as other stakeholders. Representations by energy companies interested in building new nuclear power were received in response to the Government consultation on "The Future of Nuclear Power" which closed on 10 October 2007 and are available on the BERR website.

Political Levy

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 17 December 2007, *Official Report*, column 1073W, on the political levy, what guidance has been produced or offered by *(a)* his Department and *(b)* the Certification Officer, on the (i) legality and (ii) appropriateness of the practice of trade unions

charging the same overall subscription fee for members who opt-out and re-diverting the political levy revenue into their general fund. [177694]

Mr. McFadden: The Department has produced guidance on contracting out of a political fund in a publication entitled 'Trade union political funds: a guide for trade unions, their members and others'. The Certification Officer has also produced guidance on contracting out of a political fund in a publication entitled 'Guidance for trade unions and employers' associations wishing to establish a political fund'. These guidance materials describe the statutory requirements relating to the manner of giving effect to exemptions.

Mr. Tyrie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 17 December 2007, *Official Report*, column 1073W, on the political levy, according to records held by the Certification Officer, how many union members each union has who do not contribute to the general fund. [177695]

Mr. McFadden: The following table shows the number of members not contributing to the general fund of the trade unions concerned. As before, the figures are based on the latest returns made to the Certification Officer by the relevant trade unions.

Name	*Total number of union members declared on union's annual return to Certification Officer (a)*	*Total number of members contributing to the general fund declared on union's annual return to Certification Officer (b)*	*Number of members not contributing to the general fund (a) - (b)*

[1] Final return for period up to 26 April 2007.

Post Offices

Tom Brake: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what Crown post offices there are, broken down by Government Region; and in each case whether the premises are *(a)* owned outright, *(b)* jointly owned and *(c)* leased by the Government; and if he will make a statement; [179277]

(2) how many Crown post offices there were on 1 May 1997. [179282]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Regional European Offices: Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much central Government funding the North West Brussels Office received in each of the last five years. [176599]

Mr. Timms: The North West Brussels Office does not receive funding directly from the central Government.

INTERNATIONAL DEVELOPMENT

Whales

Bill Wiggin: To ask the Secretary of State for International Development, (1) what discussions he has had with representatives of other Governments on whaling since the IWC59 meeting; and if he will make a statement; [177573]

(2) whether he plans to discuss whaling and the international moratorium on whaling with other Governments before the IWC60 meeting; and if he will make a statement; [177574]

(3) what recent discussions he has had with his foreign counterparts on the subject of whale conservation; and if he will make a statement. [177575]

Jonathan Shaw: I have been asked to reply.

The UK forms part of a core anti-whaling grouping within the International Whaling Commission (IWC) and supports the IWC's moratorium on commercial whaling. The UK remains strongly opposed to any attempt to lift or weaken the moratorium and, in the longer term, wishes to see it strengthened. We will be meeting with the core anti-whaling group in the run up to IWC60. Posts abroad will also lobby a wide range of Governments prior to the meeting to ensure support for the moratorium.

The UK has led efforts to recruit more conservation-minded countries to the IWC through our publication 'Protecting Whales—A Global Responsibility'. This publication has recently been updated and was re-released on 21 December 2007. In the coming weeks, posts will deliver the updated version to host Governments, and will continue to engage in discussion with their counterparts on whaling at every appropriate opportunity.

This year, my right hon. Friend the Secretary of State will write to 18 countries encouraging them to join the IWC for the greater protection of whales.

The UK Government have consistently voiced their opposition to Japanese "scientific" whaling. Most recently, on 8 January, I called in the deputy ambassador from the Japanese embassy in London to express the UK's outrage and urge Japan to end its slaughter of whales.

On 21 December 2007, the UK along with 29 other countries took part in a demarché to the Japanese Government calling on Japan to

"cease all its lethal scientific research on whales, and assure the immediate return of the vessels which are implementing JARPA II" (the Japanese 'scientific' Research Programme in the Antarctic).

LEADER OF THE HOUSE

Departmental Ministerial Policy Advisors

Mr. Hoban: To ask the Leader of the House whether any of her special advisers have outside appointments. [178476]

Ms Harman: Special advisers are appointed under terms and conditions set out in the "Model Contract" and "Code of Conduct for Special Advisers," copies of which are in the Library of the House.

My special advisers do not have any outside appointments.

Members: Pensions

Mr. Laws: To ask the Leader of the House what estimate she has made of the required rate of employer contribution to the pension scheme of hon. Members using the FRS 17 accounting standard to assess the costs of that scheme; and if she will make a statement. [178042]

Helen Goodman: None. The Resource Accounts and actuarial valuation use different measures of the cost to the Exchequer of providing benefits under the PCPF because they are used for different purposes and use different assumptions about investment returns.

The FRS 17 is an accounting standard used in reporting the liabilities and assets of the PCPF in the House of Commons Members Resource Accounts (HC 832). The Resource Accounts use the return on corporate bonds for the valuation of accrued liabilities and current service costs. The standard is a financial reporting standard and is not the appropriate tool for setting the level of employer contribution for the PCPF.

The assessment of the required rate of employer contribution for the Parliamentary Contributory Pension Fund is made by the Government Actuary's Department every three years using a standard methodology which includes an assessment of the expected rate of return of the Fund's assets. This approach is widely used in the private and public sectors. The last actuarial review in 2005 assessed the underlying rate of employer contribution at 18.1 per cent. of Members' salaries with a further 8.7 per cent. required to make good the current deficit. The next actuarial review was agreed by the Trustees at their last meeting and any revision to the current employer contribution rate will come into effect from 2009.

JUSTICE

Antisocial Behaviour: Hampshire

Mr. Hancock: To ask the Secretary of State for Justice how many *(a)* cautions and *(b)* fines have been issued for (i) vandalism, (ii) graffiti, (iii) litter and (iv) antisocial behaviour in each district and unitary council area in Hampshire in each of the last eight quarters for which records are available. [178199]

Maria Eagle: Information covering cautions and penalty notices for disorder (PNDs) issued for selected offences related to antisocial behaviour (including littering) in Hampshire police force area covering the years 2005 and 2006 are provided in tables 1 and 2. Antisocial behaviour is not a specific offence, but is

defined as a person acting in an antisocial manner that caused or is likely to cause harassment alarm or distress.

Data on cautions and PNDs for criminal damage are also provided in these tables. This offence class includes but cannot separately identify offences of *(a)* vandalism and *(b)* graffiti. Data broken down by each district and unitary council area in Hampshire are not held by my Department.

The Department for Environment, Food and Rural Affairs (DEFRA) collects data on the number of fixed penalty notices issued for graffiti and littering broken down by local authority area. These data are provided in table 3.

Table 1: Number antisocial behaviour offences for which a caution was issued in the Hampshire police force area, by quarter, 2005 and 2006[1,2]

Chelmsford Prison: Suicide

Mr. Burns: To ask the Secretary of State for Justice (1) how many suicides there have been in Chelmsford Prison since 4 May 2007; what steps are being taken to prevent suicides at Chelmsford Prison; and if he will make a statement; [179433]

(2) what assessment he has made of the trend in the number of suicides in Chelmsford Prison since 2006; and if he will make a statement. [179434]

Maria Eagle: There have been four apparent self-inflicted deaths at Chelmsford Prison since 4 May 2007[1].

Since 2004 the Prisons and Probation Ombudsman has been conducting investigations into all deaths in prison custody. All such deaths are also subject to a coroners inquest. The investigations into the deaths at HMP Chelmsford are on-going and it is too early to say what factors may have contributed to these particular deaths.

However, we do know that the prison population contains a high proportion of very vulnerable individuals, many of whom have experienced negative life events that we know increase the likelihood of them harming themselves. Issues that increase risk include drug/alcohol abuse, family background and relationship problems, social disadvantage or isolation, previous sexual or physical abuse, and mental health problems.

Every death in prison affects families, staff and other prisoners deeply. Ministers and the Prison Service are completely committed to reducing the number of such tragic incidents. The updated Prison Service suicide prevention strategy was published in October 2007 with implementation due to be completed in every prison, including Chelmsford, by end-April 2008. Building on several years of learning from the experience of prisoners, staff, investigators, inspectors and others, it incorporates developments such as improved cross-agency information flows, the provision of safer cells, increasing prisoner peer support, and the introduction of ACCT (assessment, care in custody and teamwork) the care-planning system for prisoners at risk of suicide or self-harm, introduced across the prisons estate in partnership with the Department of Health during 2005-07.

HMP Chelmsford itself has developed a strong relationship with Samaritans to provide support for prisoners. Over the last year there has been a great deal of work to improve suicide prevention related training for staff. This includes training in ACCT, use of cut down tools, and resuscitation techniques.

[1] to 14 January 2008.

Chorley Magistrates Court

Mr. Hoyle: To ask the Secretary of State for Justice how many court cases are due to be heard in the Chorley, South Ribble and Ormskirk magistrates courts; what steps he is taking to ensure that cases are heard expeditiously at those courts; and if he will make a statement. [177070]

Maria Eagle: The number of cases due to be heard in the south west Lancashire magistrates courts fluctuates day to day depending on the numbers of offences being prosecuted by the Crown. A general indicator of the volume of work proceeding through the courts at any one time is the number of trials due to be heard.

As at 21 December 2007, a total of 280 trials were listed to be heard at the three court sites in south west Lancashire. These trials were listed on trial dates up to and including April 2008. The 280 trials are made up of 108 trials to be heard at Chorley, 94 at Leyland, and 78 at Ormskirk.

Ensuring cases are progressed through the courts as quickly and efficiently as possible is a key objective for the staff in HMCS.

Courts: Interpreters

Mr. Malins: To ask the Secretary of State for Justice how much was paid from the public purse to interpreters in the courts in the Greater London area in the most recent year for which figures are available. [178183]

Maria Eagle: The information requested is not collected for the Greater London area. This information could be provided at disproportionate cost only through the manual searching of individual court files.

Judges

Mr. Malins: To ask the Secretary of State for Justice how many *(a)* full-time and *(b)* deputy district judges there were in England and Wales in each of the last five years. [178112]

Maria Eagle: The number of district judges (DJ), including district judges (Magistrates' Courts) (DJ(MC)), and deputy district judges (DDJ), including deputy district judges (Magistrates' Courts) (DDJ(MC)), in post for the period 2004-08 is as follows:

Number

	District Judges	*Deputy District Judges*	*District Judges (Magistrates' Courts)*	*Deputy District Judges (Magistrates' Courts)*
2004 (1 April)	433	801	104	173
2005 (1 April)	430	826	128	167
2006 (1 April)	449	840	134	158
2007 (1 April)	450	780	139	169
2008 (1 January)[1]	439	825	141	155

Offenders: Deportation

Mr. Byers: To ask the Secretary of State for Justice how many foreign nationals were given a custodial sentence followed by a recommendation for deportation in each of the last 10 years. [179144]

Mr. Hanson: Information on the numbers of foreign nationals who were given a custodial sentence followed by a recommendation for deportation is not available and could be obtained only at disproportionate cost.

Personal Records

Mr. Hoban: To ask the Secretary of State for Justice what *(a)* budget and *(b)* official facilities provision he has made for the review of the sharing and protection of personal information being led by Professor Mark Walport. [178950]

Mr. Wills: The independent review of data sharing has a budget of £25,000 excluding staff costs. Neither Richard Thomas nor Doctor Mark Walport receive any remuneration for undertaking this review.

The Ministry of Justice has provided office space, IT and communication facilities, and staff resources to support the review.

Mr. Hoban: To ask the Secretary of State for Justice how many full-time officials from his Department are working on the review of the sharing and protection of personal information being led by Professor Mark Walport. [178951]

Mr. Wills: Four full-time officials from my Department, including one who has been appointed but has not yet started, have been seconded to the review team.

Prisoner Escapes

Mr. Burstow: To ask the Secretary of State for Justice how many absconders there have been from HMP *(a)* Highdown and *(b)* Downview in each of the last 10 years. [178413]

Maria Eagle: The number of incidents of prisoners absconding from *(a)* Highdown, and *(b)* Downview in each of the last 10 years where data have been

published is shown in the following table. Those published data are also available for all prisons at the following link:

http://www.hmprisonservice.gov.uk/abouttheservice/prisonperformance/performancestatistics/

[1] As at 11 January 2008.

[2] Denotes open prisons.

The table includes only those establishments holding 10 or more life sentenced prisoners.

Operational capacity for establishments is the total number of prisoners that an establishment can hold taking into account control, security and the proper operation of the planned regime.

The capacity provided is for all prisoners held at these establishments including non-life sentenced prisoners.

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of the prison population were serving a life sentence in each year since 2000, in each secure accommodation site; and if he will make a statement. [179097]

Mr. Hanson: The numbers and proportions of life sentenced prisoners held in each prison establishment in England and Wales as at 30 June in each year from 2000-07 are in the following table.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Lifer population as at 30 June, by establishment and year

Notes
1. Total lifer population includes all establishments however the breakdown only includes those establishments with 10 or more lifers in each year
2. Total population figures have been rounded to nearest 100; figures at establishment level are rounded to nearest 5.

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of the prison population were serving an indeterminate sentence in each year since their introduction, in each secure accommodation site; and if he will make a statement. [179098]

Mr. Hanson: The following table shows the number and proportion of prisoners serving sentences of imprisonment for public protection in each prison establishment as at 30 June in 2006 and 2007. Although sentences of imprisonment for public protection were introduced in April 2005, figures are not given for 30 June 2005 as there were very few sentenced prisoners serving these sentences at this time.

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

IPP population as at 30 June, by establishment and year

South West	492	8
South Central	329	5
London	333	6
Kent and Sussex	208	4
High Security	222	4
Contracted Prisons	540	6
Total	5,407	7

Notes
1. The total prison population includes the remand population (unfilled and convicted unsentenced), sentenced prison population (including fine defaulters) and non-criminal prisoners.
2. These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners Release

Mr. Byers: To ask the Secretary of State for Justice how many people who had been in prison for (*a*) more than 10 years, (*b*) between five and 10 years, (*c*) between two and five years and (*d*) between one and two years were released in each of the last 10 years. [179145]

Mr. Hanson: The following table gives the available information on the numbers of persons discharged, by original sentence length band, for adult (aged 21 and over) and young offender (aged 18 to 20) prisoners released between 1997 and 2006 from all prison establishments in England and Wales. These figures were taken from tables 3.13 and 4.11 in the annual prison statistics England and Wales for data relating to 1997 to 2002 and from table 10.1 and 10.2 in the annual Offender Management Caseload Statistics for data relating to 2003 to 2006. The published tables also indicate the average time served within these bands. Copies of these publications can be found in the House of Commons Library and at the websites:

http://www.homeoffice.gov.uk/rds/omcs.html

and

http://www.justice.gov.uk/publications/prisonandprobation.htm

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

[1] Excludes discharges following recall after release on licence, non-criminals, persons committed to custody for non-payment of a fine and persons reclassified as adult prisoners.

Note

Additions may not add to totals because they have been rounded separately.

TREASURY

Academies

Mr. Hoban: To ask the Chancellor of the Exchequer (1) if he will make a statement on the progress of the review of academy schools by the Number 10 Delivery Unit; [178552]

(2) what the names are of all those who have worked for the Prime Minister's Delivery Unit in the last 12 months; [179064]

(3) whether a copy of the review of academy schools by the Prime Minister's Delivery Unit will be made publicly available; [179065]

(4) when the Prime Minister's Delivery Unit review of academy schools will report; [179066]

(5) how many people are working on the Prime Minister's Delivery Unit review of academy schools; [179067]

(6) what the timescale is for the Prime Minister's Delivery Unit review of academy schools. [179068]

Andy Burnham: I refer the hon. Member to the answer the Minister of State for Children, Schools and Families gave to the hon. Member for Yeovil (Mr. Laws) on 19 November 2007, *Official Report*, column 624W and also to the remarks made on the Floor of the House by the Secretary of State for Children, Schools and Families on 13 November 2007, *Official Report*, columns 561-62. PMDU reviews are confidential advice to Ministers; we do not disclose the recommendations or publish the report.

The review of the academies programme is being jointly led by a number of officials in the Prime Minister's Delivery Unit in partnership with Treasury and DCSF officials in the Academies and Capitals Group of the Department. The serving Director of the Prime Minister's Delivery Unit is Richard Page-Jones and Ray Shostak is the Head of the Unit.

Carbon Markets Expert Group

Mr. Hoban: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 13 December 2007, *Official Report*, column 809W, on Carbon Markets Expert Group, when invitations will be issued to prospective members of the group; and by what date answers will be requested; [178409]

(2) what experience will be required of members of the Carbon Markets Expert Group. [178410]

Angela Eagle: Invitations were issued to 16 prospective members of the group on 19 December 2007, and answers were requested by 5 January 2008. Members have been selected in order to bring experience of a wide range of issues related to carbon markets and emissions trading, including investment banking, trading, brokerage, project credit development, and related professional services. The members are from the following firms:

Barclays Capital;

Cameo Global;

Cantor CO2e;

CEAG (Consilience Energy Advisory Group);

Citigroup;

Climate Change Capital;

Ecosecurities;

European Climate Exchange;

JP Morgan;

KPMG;
Lehman Brothers;
Merrill Lynch;
Morgan Stanley;
Natsource;
TFS;
UBS.

Delivery Services

Jim Cousins: To ask the Chancellor of the Exchequer what outsourced couriers and postal service providers HM Revenue and Customs has used since 2005-06; and how much was paid to such providers in *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08. [171491]

Jane Kennedy *[holding answer 6 December 2007]*: For the year April 2006 to March 2007, HMRC handled approximately 300 million pieces of outgoing post.

HM Revenue and Customs postal and courier services are supplied by Royal Mail; TNT UK Ltd.; G4S; Lynx International Ltd. and the DX Group Ltd.

The amounts paid to these providers since 2005-06 to date is as follows:

	£
2005-06	86,000,000
2006-07	86,000,000
April 2007 to November 2007	54,000,000

Note
Amounts rounded to the nearest million.

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what proportion of total mail deliveries made on behalf of his Department and its agencies were carried out by mail carriers employed by HM Revenue and Customs in the last 12 months. [169890]

Angela Eagle *[holding answer 3 December 2007]*: 68.5 per cent. of official mail deliveries from the Treasury building at 1 Horse Guards road in 2007 were carried out by mail carriers also employed by HM Revenue and Customs.

Departmental Christmas

Mr. Maude: To ask the Chancellor of the Exchequer whether *(a)* his Department and *(b)* HM Revenue and Customs will hold a (i) Christmas pantomime or similar production and (ii) Christmas party in 2007. [175188]

Angela Eagle: Neither the Treasury nor HMRC held a Christmas party or Christmas pantomime in 2007.

Departmental Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer how many times the police have investigated security breaches in agencies of his Department in the last five years. [178937]

Angela Eagle: There has been only one police investigation of an information security breach in the past five years.

Mr. Hoban: To ask the Chancellor of the Exchequer how many discrete physical searches there have been in his Department for missing data discs in the last 12 months. [179078]

Jane Kennedy: Information on the total number of discrete physical searches that have been conducted for missing data discs is not available centrally and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Chancellor of the Exchequer what estimate his Department has made of the number of discs containing data protected by the Data Protection Act 1998 that were sent to the National Audit Office in the last 12 months. [179082]

Jane Kennedy: This information is not available and could be collated only at a disproportionate cost.

Departmental Ministerial Policy Advisors

Mr. Hoban: To ask the Chancellor of the Exchequer whether any of his Department's special advisers have outside appointments. [178487]

Angela Eagle: Special advisers are appointed under terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

Departmental Public Bodies

Mrs. May: To ask the Chancellor of the Exchequer for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175301]

Angela Eagle: The Treasury has not had responsibility for any publicly funded regulators or inspectorates in any year since 1997.

Departmental Recycling

Mr. Jenkins: To ask the Chancellor of the Exchequer what weight of paper his Department recycled in each of the last five years. [179452]

Angela Eagle: The weight of paper in metric tonnes recycled from the Treasury building in 1 Horse Guards road in each of the last five years was:

	Tonnes
2003	116.3829
2004	179.1666
2005	156.4906
2006	138.2113
2007	171.4356

Dismissal

Jim Cousins: To ask the Chancellor of the Exchequer how many HM Revenue and Customs staff in *(a)* total, *(b)* England, *(c)* Scotland, *(d)* Wales, *(e)* Northern Ireland and *(f)* each region of England were dismissed because of (i) their attendance record and (ii)

their attendance record on grounds of sickness in each year since 2005. [179308]

Jane Kennedy: The total numbers of HM Revenue and Customs staff dismissed since 1 April 2005 are shown in the following table. Records of the reasons for dismissal are not held centrally and could be obtained only at disproportionate cost.

Region/country	2005-06	2006-07	2007-08 to date
East	19	14	21
East Midlands	22	16	15
London	33	25	22
North East	86	59	34
North West	89	70	55
South East	44	34	16
South West	20	13	18
West Midlands	25	20	18
Yorkshire and Humberside	54	23	12
England	392	274	211
Northern Ireland	8	9	9
Scotland	73	68	42
Wales	22	18	17
Total	495	369	279

Excise Duties: Fuels

Mr. MacNeil: To ask the Chancellor of the Exchequer if he will consider derogating from EU regulations, as negotiated by the French Government, to enable a reduction in fuel duty in rural areas by three per cent. until 2011, with particular reference to the Scottish islands. [174202]

Mr. Carmichael: To ask the Chancellor of the Exchequer what consideration he has given to implementing a scheme whereby those living in rural and remote areas with extremely high dependence upon cars are allowed preferential rates of fuel duty. [176744]

Angela Eagle: Fuel duty helps the Government meet their objectives of reducing polluting emissions and funding public services. A derogation to alter fuel duty rates in this way would have to be carefully considered in the light of the above objectives as well as administrative and fraud considerations and the Government have no current plans to seek one.

Interest Rates

Mr. Willetts: To ask the Chancellor of the Exchequer what the *(a)* net and *(b)* gross (i) household and (ii) national savings rate was (A) quarterly and (B) annually in each year for which data is available. [171918]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2008:

As National Statistician I have been asked to reply to your question on what (a) the net and (b) the gross rate of (i) household and (ii) national savings was quarterly and annually in each year for which data is available. (171918)

Data for this are shown in the table below. In the UK National Accounts, following international guidelines, the household sector is combined with the non-profit institutions serving households sector (NPISH), and it is not possible to separate the two. Examples of institutions included within the NPISH sector are: charities; trade unions, universities, churches and political parties.

An estimate of a UK national saving ratio is not published but has been derived using UK gross saving and UK gross national income as the denominator.

Quarterly estimates of net saving are not published so only annual estimates are shown back to 1987. Net saving is calculated as gross saving less the consumption of fixed capital.

Data on gross saving, consumption of fixed capital, net saving, and gross and net saving ratios for the households and NPISH sector are shown in Table 1 below annually back to 1987. The household saving ratio is available back to 1948 annually and 1955 quarterly.

Data on gross saving, consumption of fixed capital, net saving, and gross and net saving ratios for the UK are shown in Table 2 below annually back to 1987, data before this time is not available.

Table 1: Gross and net savings for the household and NPISH sector

	£ million			Percentage	
	Gross saving (NSSH)	Consumption of fixed capital (QWLL)	Net saving	Gross saving ratio (RVGL)	Net saving ratio
1987	17673	12545	5128	6.4	1.9
1988	15071	14760	311	4.9	0.1
1989	22980	15390	7590	6.7	2.2
1990	30393	16935	13458	8.0	3.6
1991	42262	17750	24512	10.3	6.0
1992	51376	17117	34259	11.7	7.8
1993	49820	18066	31754	10.7	6.8
1994	44836	19025	25811	9.3	5.4
1995	51790	20087	31703	10.2	6.2
1996	51183	21756	29427	9.4	5.4
1997	54390	23704	30686	9.5	5.3
1998	41844	25053	16791	7.0	2.8
1999	33136	27976	5160	5.3	0.8
2000	33584	30517	3067	5.1	0.5
2001	45137	32909	12228	6.4	1.7
2002	36301	36043	258	5.0	0.0
2003	37421	36903	518	4.9	0.1
2004	29307	42366	-13059	3.7	-1.7
2005	46745	42623	4122	5.6	0.5
2006	43840	42877	953	5.0	0.1

Table 2: Gross and net savings for the UK

	£ million			Percentage	
	Gross saving (NQET)	Consumption of fixed capital (NQAE)	Net saving (NQET)	Gross saving ratio	Net saving ratio
1987	73904	55248	18656	17.7	4.5
1988	82481	60488	21993	17.6	4.7
1989	89833	65741	24092	17.5	4.7
1990	92819	72787	20032	16.8	3.6
1991	92152	78145	14007	15.8	2.4
1992	89139	79331	9808	14.6	1.6
1993	92538	81312	11226	14.4	1.8
1994	108806	83649	25157	15.9	3.7

1995	117281	86160	31121	16.3	4.3
1996	125240	90145	35095	16.3	4.6
1997	142061	91935	50126	17.4	6.1
1998	158257	95051	63206	18.1	7.2
1999	146294	101055	45239	16.1	5.0
2000	147613	106372	41241	15.4	4.3
2001	156483	110434	46049	15.5	4.6
2002	167161	116007	51154	15.5	4.8
2003	175725	119239	56486	15.4	5.0
2004	187751	128427	59324	15.5	4.9
2005	186347	131093	55254	14.8	4.4
2006	191385	133936	57449	14.5	4.4

Marginal Tax Rates

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 12 December 2007, *Official Report*, column 617W, on marginal tax rates, what estimate he has made of the number of households which will experience marginal deduction rates of between *(a)* 60 and 61 per cent. and *(b)* 62 and 63 per cent. under the 2008-09 tax and benefits system. [178343]

Jane Kennedy: Estimates of the number of families facing marginal deduction rates above 60, 70, 80 and 90 per cent. under the 2008-09 tax and benefits system were published in the 2007 pre-Budget report and comprehensive spending review, table 5.2.

These estimates are not sufficiently reliable to be broken down into narrower ranges for marginal deduction rates.

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when a reply will be sent to the hon. Member for West Worcestershire's letter of 9 November 2007 on capital gains tax and the loss of indexation allowance (PO reference: 1/52674/2007, HMT reference: 1154N 07/08). [178998]

Jane Kennedy: I have written to the hon. Member and regret not having done so earlier.

Young People

Mr. Hayes: To ask the Chancellor of the Exchequer how many staff aged between 16 and 18 were employed by his Department *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171283]

Angela Eagle: The number of staff aged between 16 and 18 recruited to the Department in each of the following years is:

	Number
1998	3
1999	2
2000	3
2001	1
2002	1
2003	1
2004	2
2005	1
2006	2
2007	2

Provision for training is arranged locally by individual line managers, and central records are not kept on the amount of time or funding allocated to individuals.

The Department does not hold any personal data of those working via an employment agency.

HEALTH

Accident and Emergency Departments: Admissions

Mr. Dismore: To ask the Secretary of State for Health what proportion of accident and emergency department admissions at *(a)* Barnet and Chase Farm hospital, *(b)* Royal Free hospital and *(c)* Northwick Park hospital were seen, treated and discharged or admitted within target times set in the most recent period for which figures are available; what the equivalent figures were in 1997; what the (i) average and (ii) longest waiting time for treatment was in the last 12 months; and if he will make a statement. [177995]

Mr. Bradshaw: The information is not available centrally in the format requested.

Data is collected on the proportion of attendances at accident and emergency (A and E) departments that are seen and admitted, transferred or discharged within four hours of arrival. It is not possible to establish the proportion of patients who are admitted to hospital via A and E departments that were also seen, diagnosed and treated within four hours of arrival.

Information is also not available at the level of individual hospitals. For 2006-07 and quarters 1 and 2 of 2007-08 the percentage of patients who were seen and admitted, transferred or discharged within four hours of their arrival at the relevant national health service trusts is shown in the following table. Data available on performance against the operational standard do not go back to 1997.

			Percentage
	2006-07	*2007-08 Q1*	*2007-08 Q2*
Barnet and Chase Farm hospitals NHS trust	97.5	99.1	99.2
North West London hospitals NHS trust	97.1	97.5	97.8
Royal Free Hampstead NHS trust	98.4	98.5	98.6

Note:
The Department collects A and E data at trust rather than hospital level. The table shows data for the relevant trusts. The Northwick Park hospital information is provided by North West London hospitals NHS trust.
Source:
Department of Health dataset QMAE

Mr. Dismore: To ask the Secretary of State for Health how many attendances there were at *(a)* Barnet Hospital accident and emergency department, *(b)* Royal Free Hospital accident and emergency department and *(c)* Edgware Hospital walk-in centre in (i) each of the last three years and (ii) 2007-08 to date; and if he will make a statement. [178083]

Mr. Bradshaw: The information is not available centrally in the format requested, as data on accident and emergency (A and E) attendances are not collected at the level of individual hospitals and services.

The following table shows the number of attendances at A and E departments for the relevant trusts for the requested years.

	2004-05	*2005-06*	*2006-07*	*2007-08*
Barnet and Chase Farm Hospitals NHS Trust	139,165	149,082	150,859	74,418
Barnet PCT	77,124	88,787	95,263	46,563
Royal Free Hampstead NHS Trust	75,949	78,411	77,228	38,635

Note:
The 2007-08 data include quarter 1 and quarter 2 only.
Source:
Department of Health dataset QMAE

The Department collects A and E data at trust rather than hospital level, and the table shows data for the relevant trusts. The Edgware Hospital walk-in centre is provided by Barnet PCT.

Ambulance Services: Barnet

Mr. Dismore: To ask the Secretary of State for Health (1) what steps are being taken to improve emergency ambulance services in Barnet; [177898]

(2) what the *(a)* target response time and *(b)* average response time in the (i) last 12 months and (ii) in 2008 and *(c)* longest response time in the (A) last 12 months and (B) 2007-08 for an NHS ambulance service call was in Barnet; and if he will make a statement. [177903]

Mr. Bradshaw: It is for strategic health authorities (SHAs), as the local headquarters of the national health service, and primary care trusts, as commissioners, to ensure that national response time standards are delivered and maintained by ambulance trusts, and we understand that my hon. Friend has raised this directly with Barnet primary care trust.

The Department implemented a £25 million capital incentive scheme during 2006-07. A similar scheme operated in 2004-05. Both schemes rewarded trusts who demonstrated improved levels of performance including response times.

NHS ambulance trusts are required to meet the following response times:

Category A (presenting conditions which may be immediately life threatening) calls should be responded to within eight minutes irrespective of location, in 75 per cent. of cases. All NHS ambulance trusts should respond to 95 per cent. of category A calls, with a vehicle capable of transporting the patient, within 19 minutes of the request for transport being made.

Category B (presenting conditions which though serious are not immediately life threatening) calls should be responded to within 19 minutes in 95 per cent. of cases.

Since 1 October 2004 local NHS organisations have had responsibility for managing and monitoring the ways in which local services respond to category C (presenting conditions which are not immediately serious or life threatening) calls.

The data that the Department collect on ambulance response times is published on an annual basis in the statistical bulletin, "Ambulance Services, England". The latest statistical bulletin, "Ambulance Services, England, 2006-07" was published in June 2007.

These documents are available in the Library and on the information centre for health and social care website:

www.ic.nhs.uk/pubs

Ambulance Services: Expenditure

Daniel Kawczynski: To ask the Secretary of State for Health what the cost of running the Ambulance Control Centre was in *(a)* Shropshire and *(b)* Warwickshire in (i) 2004 and (ii) 2006. [165841]

Mr. Bradshaw: The information is not held centrally at the level of detail requested.

However, NHS West Midlands strategic health authority has advised that locally held comparative management information for 2006-07 indicates that the Warwick (Leamington Spa) ambulance control centre was more efficient than the Shropshire (Shrewsbury) centre in terms of both cost per member of staff and cost per call dealt with. Management information of this nature is not audited by the Department and is designed for local analysis and decision making.

Barnet and Chase Farm Hospital

Mr. Dismore: To ask the Secretary of State for Health what progress has been made on the review of services at Barnet and Chase Farm hospital; and if he will make a statement. [177996]

Mr. Bradshaw: The provision of services at Barnet and Chase Farm hospitals national health service trust is a matter for the local NHS.

However, we have been informed that following formal public consultation, the boards of Barnet, Haringey and Enfield primary care trusts decided on 12 December 2007 to proceed with option 1 as proposed in the Barnet, Enfield and Haringey Clinical Strategy. This proposes that Chase Farm hospital becomes an elective surgery centre, with emergency care moving to Barnet and North Middlesex hospitals.

Breast Cancer: Screening

Mr. Dismore: To ask the Secretary of State for Health (1) what progress is being made on the breast screening service in Barnet; what estimate he has made of how long it will take to clear outstanding cases; and if he will make a statement; [177900]

(2) what progress has been made on breast cancer screening for Hendon residents. [178179]

Mr. Bradshaw: London strategic health authority (SHA) has advised that the North London Breast Screening Service, which provides services to Barnet and Hendon residents, was suspended for safety reasons in December 2006. The service resumed in May 2007, and was reintroduced gradually. As of October 2007, there were no outstanding cases and the service is running to full capacity.

Cancer: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many and what proportion of cancer patients in Barnet were *(a)* seen and *(b)* treated within the target time of (i) one month from diagnosis to treatment and (ii) two months for urgent GP referral to treatment; what the performance of (A) Barnet Chase Farm and (B) Royal Free hospitals was in each category; and if he will make a statement. [177902]

Mr. Bradshaw: The information requested for quarter 2 of 2007-08 is as follows:

One month (31-day) diagnosis to treatment standard (quarter 2 2007-08):

Barnet and Chase Farm Hospitals NHS Trust: 100 per cent.

Royal Free Hampstead NHS Trust: 100 per cent.

Two month (62-day) urgent general practitioner referral to treatment standard (quarter 2 2007-08):

Barnet and Chase Farm Hospitals NHS Trust: 98.2 per cent.

Royal Free Hampstead NHS Trust: 96.9 per cent.

Chiropody: Stoke-on-Trent

Mr. Flello: To ask the Secretary of State for Health what assessment he has made of the availability of NHS chiropody services for pensioners in Stoke-on-Trent; and if he will make a statement. [178081]

Dawn Primarolo: It is for primary care trusts in partnership with local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, outlined in the national service frameworks, and to commission services accordingly. This process provides the means for addressing local needs within the health community, including the provision of chiropody.

Chlamydia: Screening

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* men and *(b)* women were screened by each local Chlamydia screening programme in (i) 2005-06 and (ii) 2006-07. [179339]

Dawn Primarolo: The information requested is shown in the following tables. The programme was rolled out to primary care trusts (PCTs) in a phased way. The introduction of the programme in all PCTs is currently being completed. At the end of September 2007, we had 65 programme areas reporting data to the Health Protection Agency.

Number of men and women screened for Chlamydia within each programme area, 2005-06

Programme area	*Males*	*Females*	*Total*
Birmingham	532	4,582	5,114
Brent and Harrow	548	1,882	2,430
Brighton	1,049	4,603	5,652
Camden and Islington	145	3,070	3,215
Cornwall	1,988	4,167	6,155
Coventry	153	1,102	1,255
Durham and Teeside	1,656	2,794	4,450

Number of men and women screened for Chlamydia within each programme area, 2005-06

Programme area	*Males*	*Females*	*Total*

Number of men and women screened for Chlamydia within each programme area, 2006-07

Programme area	Males	Females	Total

[1] Cell size of one to four have been masked to protect deductive disclosure in accordance with Office for National Statistics guidelines.

Note:

1. Total includes records where sex is unknown/not specified. Consequently, males and females may not add up to total.
2. The data from the NCSP are screens outside of genito-urinary medicine.
3. The data available from the NCSP are the number of screens and not the number of people screened.
4. The data only include those aged 13-24.

Source:

The National Chlamydia Screening Programme (NCSP). Data as of 17 December 2007.

Contraception: Hampshire

Sandra Gidley: To ask the Secretary of State for Health how many NHS community contraception clinics there are in *(a)* Hampshire, *(b)* Southampton and *(c)* Southern Test Valley. [177417]

Dawn Primarolo: The information is not held in the format requested.

Primary care trusts are responsible for commissioning services to meet the needs of the communities they serve. This includes the provision of community contraception clinics.

Contraception: Young People

Sandra Gidley: To ask the Secretary of State for Health what information is provided for *(a)* boys and *(b)* girls aged between 13 and 15 on the services provided by NHS community contraception clinics. [177422]

Dawn Primarolo: The recommended standards for sexual health services advise that primary care trusts (PCTs) should ensure information about local sexual health service provision is readily available to enable people to access appropriate services. It also states that PCTs should target specific population groups who are less well serviced by, or find it more difficult to access existing provision. Specific service provision will be based on local need but should include services for young people.

In addition, sex and relationships education guidance from the Department for Children, Schools and Families recommends that young people should be given information on where they can access local contraceptive advice services. In order to achieve "healthy school" status arrangements must be in place to refer students to specialist services that can provide advice on contraception including community contraceptive services.

Departmental Expenditure

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 3 December 2007, *Official Report*, column 996W, on departmental expenditure, what written guidance documents were provided by the finance directorate; and if he will place in the Library a copy of the note entitled "Financial Planning and CSR2007". [178010]

Mr. Bradshaw: As was the case in previous Administrations it is not Government practice to put internal guidance documents in the public domain.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 6.2 of his Department's resource accounts for 2006-07, on which local authority schemes there was slippage; and for each such scheme what costs arose from such slippage. [178271]

Mr. Bradshaw: The information is not collected centrally. It is for strategic health authorities working with national health service organisations in their economy, to agree and monitor detailed plans for both revenue and capital investment with local authorities.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 6.4 of his Department's resource accounts for 2006-07, for what reasons his Department underspent its non-cash budget by £490 million. [178274]

Mr. Bradshaw: The £490 million non-cash underspend relates to non-cash resources held in the departmental unallocated provision. This was set aside to cover unplanned non-cash expenditure but was not needed during 2006-07.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 4.34 of the NHS in England's Operating Framework for 2008-09, if he will break down the £5,859 million from central budgets to be devolved to strategic health authorities. [178306]

Mr. Bradshaw: The allocation of the 2008-09 strategic health authorities (SHAs) bundle of central budgets to be devolved to SHAs for their local management is currently being finalised, taking account of views from SHA representatives, but will provisionally include funding to support the following areas:

PMEDs: Personal Administration Costs for Non Dispensing Doctors
Securing Recombinant Clotting Factors
Childhood Vaccination
Training and Co-ordination for End of Life Care
Cancer Network Support
Genetics White Paper services
Revenue Support
Executive Leadership Development
High Security Infectious Disease Units
National Artificial Eye Service
London Ambulance Service
National Intensive Care Bed Register
Choose and Book Appointments Line
Hospital Chaplaincy
Olympics support
Student Bursaries/Multi-professional education and training (MPET)/MPET levy
Getting Ahead of the Curve Public Health Laboratory Service
High Cost Area Adjustment
Heart Improvement
National Screening Programmes Pilots and Quality Management.
Diabetes
Rare Conditions—Burns
Cancer Related Training including Endoscopy
Training and Co-ordination for End of Life Care
Cancer Peer Review
National Cancer Programme - central support
National Cancer Screening Management
Primary Care Trust Commissioning Development and Fitness for Purpose Programme
Mental Health Choice and Inclusion
Care Services Improvement Partnership
Community Equipment
Mental Capacity Act
New General Medical Services Contract fees for Dispensing Doctors
Local Pharmaceutical Services
Clinical Excellence Awards
Community and Prison Drug Treatment
Prison healthcare payments to Home Office
Dangerous People with Severe Personality Disorders
Independent Sector Treatment Centres
NHS Direct—non contestable core services

Departmental Regulation

Mrs. May: To ask the Secretary of State for Health for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175307]

Mr. Bradshaw: Information on the Department's Public Bodies, including their remit and budget, is published annually by the Cabinet Office in the Public Bodies Directory. This is available at:

www.civilservice.gov.uk/other/agencies/public_bodies/index.asp

The directory for each year from 1998 to 2006 is currently available and the 2007 directory will be available shortly.

The information on the cost of restructurings is not held centrally and could be obtained only at disproportionate cost.

Developing Patient Partnerships

Ian Stewart: To ask the Secretary of State for Health what plans he has to fund Developing Patient Partnerships beyond April 2008; and if he will make a statement. [174855]

Mr. Bradshaw: A further grant to Developing Patient Partnerships was agreed on the condition that it worked towards self-sufficiency by increasing its subscriber base. There are therefore no plans to provide any further support for Developing Patient Partnerships beyond its current Section 64 grant arrangements that end in March 2008.

Edgware Hospital: Admissions

Mr. Dismore: To ask the Secretary of State for Health what steps are being considered to provide more beds at Edgware hospital. [178061]

Mr. Bradshaw: The provision of beds at Edgware hospital is a matter for the local national health service.

However, we understand that there are no plans to close any beds at Edgware hospital.

Edgware Hospital: Ophthalmology

Mr. Dismore: To ask the Secretary of State for Health what progress has been made in allowing opticians to refer patients direct for ophthalmology services at Edgware Hospital. [178117]

Mr. Bradshaw: The provision of ophthalmology services is a matter for the local national health service.

We understand that a project looking at direct referral from opticians to ophthalmology is under way in the Barnet Primary Care Trust (PCT) area. The project is looking at how and when Barnet PCT can implement direct referral.

Edgware Hospital: Rehabilitation

Mr. Dismore: To ask the Secretary of State for Health what steps are being taken to develop rehabilitation services at Edgware hospital. [178062]

Mr. Bradshaw: The development of rehabilitation services at Edgware hospital is a matter for the local national health service.

Edgware Hospital: Standards

Mr. Dismore: To ask the Secretary of State for Health what steps are being taken to improve management of out-patient and follow-up appointments at Edgware hospital. [178060]

Mr. Bradshaw: The management of appointments at Edgware hospital is a matter for the local national health service.

However, we understand that Healthcare Commission wrote to Barnet and Chase Farm hospitals NHS trust regarding problems with the installation of its patient administration system. We have been assured that the problems have now been resolved.

Eyesight: Testing

Mr. Dismore: To ask the Secretary of State for Health how many pensioners in Hendon aged over 60 years had free eye tests in the last year for which figures are available. [177501]

Mr. Bradshaw: The latest year for which data broken down by patient eligibility type are available is 2005-06. During the year ending 31 March 2006, there were 68,633 sight tests paid for by the national health service in Barnet primary care trust (PCT), of which 24,121 were for persons aged 60 or over.

During the year ending 31 March 2007, there were a total of 70,226 sight tests paid for by the NHS in Barnet PCT. Reliable information broken down by patient eligibility type is not currently available. Information is not available at constituency level.

Family Practitioner Services

Mr. Lansley: To ask the Secretary of State for Health what steps he plans to take to ensure that the proposed 100 new general practitioner practices in the 25 per cent. of primary care trusts with the poorest primary care provision have a remit to prevent as well as treat disease. [178270]

Mr. Bradshaw: It will be for primary care trusts to determine the precise nature of their service specifications to meet local need. However, the Department has asked that they reflect a strong focus on preventing ill health by reaching out to those communities who need it most and may not readily seek care.

Family Practitioner Services: Barnet

Mr. Dismore: To ask the Secretary of State for Health what the *(a)* average and *(b)* highest number of patients registered with a GP in Barnet was (i) in 1997 and (ii) at the most recent date for which figures are available; and if he will make a statement. [177904]

Mr. Bradshaw: The information is not available in the format requested. The following table shows patients registered with a practice, rather than a specific general practitioner (GP) within a practice in Barnet in 1997 and 2006.

Selected statistics for selected area as at 1997 and 2006

Number (headcount)

	Barnet health authority, 1997	*Barnet primary care trust, 2006*
Total practices	83	77
GPs (excluding retainers and registrars)[1]	195	218
Registered Patients	363,544	372,760
Average GP list size	1,864	1,710
Average practice list size[2]	4,380	4,841
Largest practice list size[2]	13,292	15,189

[1] General medical practitioners (excluding retainers and registrars) includes GP providers and GP others data as at 1 October 1997, 30 September 2006.

[2] GP census collects the number of patients who are registered to a practice rather than a specific GP, therefore it is not possible to ascertain individual GP list sizes.

Source:
The Information Centre for health and social care General and Personal Medical Services Statistics.

Family Practitioner Services: Working Hours

Mr. Lansley: To ask the Secretary of State for Health what percentage of GP practices offer extended opening hours, broken down by *(a)* region and *(b)* primary care trust area. [178302]

Mr. Bradshaw: This information is not collected centrally. However, the latest figures from the Department's quarterly access to primary care survey show that 9 per cent. of patients say they are able to make appointments at their general practitioner practice outside 8am to 6pm Monday to Friday.

Finchley Memorial Hospital

Mr. Dismore: To ask the Secretary of State for Health what progress is being made with the plans to modernise Finchley Memorial Hospital; and if he will make a statement. [178164]

Mr. Bradshaw: The future of services provided at Finchley Memorial Hospital is a matter for the local national health service.

However, we have been informed that NHS London approved the strategic outline case for the redevelopment of Finchley Memorial Hospital, including the re-siting of the Marie Foster Centre, in summer 2007.

Food: Environmental Health

Mr. Gordon Prentice: To ask the Secretary of State for Health if he will require local authorities to publish on the web a list of all restaurants and establishments serving food to the public with *(a)* the date when last inspected by environmental health officers, *(b)* their hygiene scores and *(c)* details of any successful prosecutions for breaches of food safety legislation; and if he will make a statement. [177894]

Dawn Primarolo: It is not currently a legal requirement for local authorities to display a food business's hygiene inspection information on a website, although over a hundred choose to do so voluntarily. The Food Standards Agency is carrying out an evaluation of these schemes and will consider making a recommendation about a national approach to publishing this information. The recommendation will be based on research the Agency has commissioned on the type of information consumers find useful when making choices about where they purchase food. The Agency will also consider how it can support and encourage all local authorities in publishing this data.

Food: Labelling

Mrs. James: To ask the Secretary of State for Health what steps his Department is taking with food manufacturers to improve food labelling. [178228]

Dawn Primarolo: The Food Standards Agency (FSA) has actively engaged with food manufacturers on a number of food labelling issues such as voluntary front of pack nutrition labelling and the European Commission Review of Food and Nutrition Labelling legislation. The FSA's recommended traffic light colour-coded approach to nutrition labelling has been adopted by eight retailers, whose combined sales make up more than 40 per cent. of the retail market, as well as 16 manufacturers and four service providers.

The Agency is also working with all stakeholders to improve food labelling information through the revision of existing voluntary guidance on clear labelling, country of origin labelling and marketing terms.

Gastrointestinal System: Health Services

Mr. Lansley: To ask the Secretary of State for Health what consultations his Department has had with gastroenterologists on the new referral pathways under the choose and book system for patients with gastroenterological disease. [178046]

Mr. Bradshaw: There are no new referral pathways under the choose and book system for patients with gastroenterological disease. Referral pathways are not the role or purpose of the choose and book system.

The national choose and book team have however worked closely with senior gastroenterologists and members of specialist gastroenterology organisations to define clinic types and key words that will enable referrers to find these types of services effectively using the choose and book system.

General Practitioners: Barnet

Mr. Dismore: To ask the Secretary of State for Health what GP practices in Barnet offer specialist services; what these services are; and if he will make a statement. [177

Mr. Bradshaw: The provision of specialist services by general practitioners (GP) is a matter for the local national health service.

However, we have been informed that since the introduction of the new GP contract, Barnet primary care trust has introduced and completed a training programme which has led to the creation of specialist practitioners covering diabetes, dermatology, coronary heart disease and medicines for older people.

General Practitioners: Income

Mr. Dismore: To ask the Secretary of State for Health what the *(a)* average and *(b)* highest annual income was among GPs in Barnet in (i) 1997 and (ii) 2006-07; and if he will make a statement. [177896]

Mr. Bradshaw: Information for both average and highest annual earning general practitioners in Barnet in 1997 and 2006-07 is not collected centrally.

Health Education: Alcoholic Drinks

Mark Simmonds: To ask the Secretary of State for Health how much the Government plan to spend in each of the next three years on improving the public's knowledge of what constitutes a unit of alcohol. [179412]

Dawn Primarolo: Public knowledge of what constitutes a unit of alcohol forms a part of all Department of Health and Home Office Social Marketing Campaigns dealing with the risks associated with drinking above recommended Government limits.

In the financial year 2007-08 the Home Office will spend £3.5 million and the Department £1.3 million on campaigns to raise public awareness about binge drinking.

For the financial year 2008-09 the Department plans to spend £6 million on a new national campaign to raise public awareness about the risks of binge and harmful drinking. The major component of this campaign will seek to improve public knowledge about units and how to assess how much you drink. The level of Home Office contribution to this campaign has not been confirmed.

The current campaign targeting 18 to 24-year-old binge drinkers will continue. We expect the overall national campaign to run over a number of years, however, for the financial year 2009-10, funding decisions have not yet been made.

Health Services: Armed Forces

Mr. Vara: To ask the Secretary of State for Health pursuant to the answer of 7 January 2007, *Official Report*, column 107W, on health services: armed forces, whether specific financial provision is made for each primary care trust to provide care to injured service personnel once they have left the military. [178540]

Mr. Bradshaw: The national health service is responsible for the health care of service personnel on leaving the armed forces. Funding for ex-service personnel is on the same basis as funding for other members of the population.

Health Services: Foreigners

Mr. Dismore: To ask the Secretary of State for Health in what circumstances foreign national patients are expected to pay for *(a)* emergency treatment, *(b)* routine hospital treatment, *(c)* GP services and *(d)* primary care; and if he will make a statement. [179057]

Dawn Primarolo: Free national health service treatment is based on ordinary residence in the United Kingdom. Foreign nationals may have to pay for NHS treatment if they are not ordinarily resident in the UK.

For primary medical services, acceptance onto an NHS list is at the discretion of general practitioner (GP) practices. If a practice refuses an application to provide free primary medical services to a foreign national on the basis that the individual cannot be regarded as ordinarily resident in the UK, they can offer to treat the person as a private patient. The amount charged is a matter for the practice.

For hospital treatment, anyone who is not ordinarily resident in the UK is considered an overseas visitor and is subject to the "NHS (Charges to Overseas Visitors) Regulations 1989", as amended. They will be charged for any hospital treatment unless an exemption from charge category within these regulations applies to them.

No charge may be made to anyone, regardless of residency, for treatment provided by a GP that he or she considers to be immediately necessary, or for treatment provided solely in an Accident and Emergency (A and E) department of a hospital. Emergency treatment provided in a hospital other than in an A and E department will not be free unless the individual is entitled to free treatment in his or her own right.

Health Services: Hampshire

Mr. Hancock: To ask the Secretary of State for Health what assessment he has made of levels of health inequality in each council area in Hampshire over the last 10 years; and if he will make a statement. [178202]

Dawn Primarolo: Primary care trusts (PCTs) are responsible for commissioning services to meet the needs of the communities that they serve. PCTs use information on health inequalities as part of their assessment of the health needs of local populations, which in turn inform their operating frameworks.

The South Central Strategic Health Authority has assured the Department that PCT frameworks for 2008-09 and beyond, are currently being produced alongside and in conjunction with the local area agreements produced by local authorities.

One of the main criteria that is checked when these plans are assessed by the strategic health authority is that they address health inequalities adequately.

Health Services: Hendon

Mr. Dismore: To ask the Secretary of State for Health what steps are being taken to improve community health services for Hendon residents; and if he will make a statement. [178065]

Mr. Bradshaw: The provision of community services is a matter for the local national health service.

However, we understand that Barnet primary care trust is looking at ways to improve community services as part of the Barnet, Enfield and Haringey clinical strategy.

Health Services: Publicity

Mr. Lansley: To ask the Secretary of State for Health how much is being spent in the End Waiting, Change Lives campaign on *(a)* button badges, *(b)* lapel badges, *(c)* stickers, *(d)* campaign packs and *(e)* patient leaflets; and what volume of each item is being produced. [170192]

Mr. Bradshaw: The total cost of the button badge, lapel badge and stickers is £8,165. 20,000 button badges, 30,000 lapel badges and 70,000 stickers have been produced.

The total cost of the campaign packs is £71,292 which includes copywriting, design, and print costs. In total 23,350 campaign packs have been produced.

The total cost of the patient leaflet is £35,493. This includes copywriting, design, print, translation and production of alternate formats. 1 million copies were produced.

Health Services: Standards

Mr. Lansley: To ask the Secretary of State for Health what criteria are used to determine that it is not in the best interests of an individual patient for the 18-week referral-to-treatment target to apply to them. [178308]

Mr. Bradshaw: There will always be some patients for whom starting treatment within 18-weeks of referral would not be clinically appropriate.

Decisions on whether it is clinically appropriate to start treatment within 18 weeks of referral rests with clinicians in consultation with patients.

Health: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many people in Barnet were diagnosed with *(a)* type 2 diabetes, *(b)* obesity problems as (i)

adults and (ii) children, *(c)* alcohol dependency and *(d)* drug dependency in (1) 2006-07 and (2) 1997; and if he will make a statement. [178177]

Mr. Bradshaw: The information is not available in the format requested. Data on the number of people in Barnet with type 2 diabetes, alcohol dependency and drug dependency are not available centrally.

The following table provides estimated prevalence of obesity among adults aged 16 and over, along with associated confidence intervals for Barnet local authority (LA). These estimates are taken from model-based estimates of healthy lifestyle behaviours, and are only for the combined years 2003-05. Model-based estimates by LA are not available for children.

Model-based estimates of obesity prevalence in Barnet local authority, 2003-05

	Percentage
Estimated prevalence of obesity	16.8
95 per cent. lower confidence interval	15.2
95 per cent. upper confidence interval	18.6
Comparison of estimated prevalence for obesity with national estimate[1,2]	1

[1] The national estimate is derived directly from the Health Surveys for England 2003-05 (with associated confidence intervals) and therefore is not a model-based estimate.
[2] It should be noted that the scores for comparing the synthetic estimate to the national estimate relate to the data as follows:
1=CI significantly below NE
2=overlapping,
3=CI significantly above NE.
The national estimate is derived directly from the health surveys for England 2003-05 (with associated confidence intervals) and therefore is not a model-based estimate.
Sources:
1. Model-based Estimates of Healthy Lifestyle Behaviours, 2003-05
2. Neighbourhood Statistics, Office for National Statistics (ONS)

Hospitals: Cleaning Services

Anne Milton: To ask the Secretary of State for Health how many representations his Department received from *(a)* strategic health authorities, *(b)* primary care trusts, *(c)* hospital trusts and *(d)* members of the public on lack of (i) clean towels and (ii) clean bedding in hospitals in each year since 1997. [177975]

Mr. Bradshaw: The Department receives around 100,000 letters and e-mails a year from hon. Members and members of the public. In the three-year period to 31 December 2007, a total of around 3,000 of these concerned the wider need to ensure that patients in hospital are treated in a clean and safe environment. It is not possible to identify how many of the inquiries were specifically concerned with the availability of clean towels and bedding.

Local health service managers are responsible for the provision of adequate supplies of clean linen, including towels and bedding, and it is recognised that patients' care is supported by their effective use.

Incontinence: Medical Equipment

Bob Spink: To ask the Secretary of State for Health (1) when he will publish an impact assessment for the proposals contained in Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances, and related services, to primary care revised proposals; [177314]

(2) when he will publish a summary of responses to the consultation Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances, and related services, to primary care; and if he will make a statement; [177315]

(3) what response he has made to the results of the consultations on the arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances, and related services, to primary care; and if he will make a statement. [177875]

Mr. Bradshaw: The Department intends to publish an impact assessment following detailed evaluation of the responses to the consultation entitled 'Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—to Primary Care Revised Proposals' and following further discussion with interested parties. The impact assessment will be published on the Department's website, giving all parties the opportunity to comment on it.

The consultation is part of an ongoing process that began in October 2005 and two earlier partial regulatory impact assessments were prepared. The first was published in October 2005 with the initial consultation. This included dressings and reagents, as well as stoma and incontinence appliances, as we were also reviewing arrangements for them at that stage. The new arrangements for dressings and chemical reagents were implemented in October 2006. The second was published in November 2006. Copies of both of these have been placed in the Library.

The latest consultation closed on 28 December 2008 and responses are being evaluated. A summary of these responses—and an indication of next steps—will be published no later than 28 March 2008.

Influenza: Vaccination

Sir Peter Soulsby: To ask the Secretary of State for Health how many influenza vaccinations were administered in Leicester in each of the last five years. [178039]

Dawn Primarolo: The data on influenza vaccination uptake are collected by the primary care trust (PCT). Data have been provided for the last five years for those aged 65 years and over. Data for those aged 65 years in clinical risk groups have only been collected since 2005-06 and are also provided. This information is shown in the following table.

Vaccination uptake (percentage) among the 65 years and over for Leicester for each year between 2002 to 2006 (cumulative data)

		65 years and over		
		Leicestershire, Northamptonshire and Rutland Health Authority		
Survey year	*Strategic health authority (SHA)/primary care trust (PCT) Name*	*Total persons aged 65 and over from returning practices*	*Total persons vaccinated*	*Total percentage uptake*
2002-03[1]	Eastern Leicester PCT	22,457	14,024	62.4
	Leicester City West PCT	19,784	12,162	61.5
	South Leicester PCT	25,933	18,480	71.3
	Charnwood and North West Leicestershire PCT	29,293	19,852	67.8
	Eastern Leicester PCT	21,206	15,456	72.9
	Leicester City West PCT	18,168	12,876	70.9
2003-04	South Leicester PCT	26,456	18,752	70.9
	Charnwood and North West Leicestershire PCT	36,302	25,420	70.0
	Eastern Leicester PCT	22,694	15,793	69.6
	Leicester City West PCT	19,658	12,071	61.4
2004-05	South Leicester PCT	26,796	19,708	73.5
	Charnwood and North West Leicestershire PCT	36,129	25,504	70.6
	Eastern Leicester PCT	22,708	16,132	71.0
	Leicester City West PCT	19,598	12,940	66.0
2005-06	South Leicester PCT	27,259	21,102	77.4
	Charnwood and North West Leicestershire PCT	37,203	27,686	74.4
2006-07[2]	Leicestershire, Northamptonshire and Rutland PCT	104,929	77,861	74.2
	Leicester City PCT	41,445	28,425	68.6

		Under 65 years and at risk[3]		
Survey year	*SHA/PCT Name*	*Total persons aged under 65 at risk from returning practices*	*Total persons vaccinated*	*Total percentage uptake*
2005-06	Leicester City West PCT South	11,201	4,583	40.9
	Eastern Leicester PCT	14,392	8,426	58.5
	Charnwood and North West Leicestershire PCT	14,521	6,954	47.9
	Leicestershire PCT	5,828	2,683	46.0
2006-07[2]	Leicestershire City PCT	30,912	13,972	45.2
	Leicestershire County and Rutland PCT	52,703	22,881	43.4

[1] For seasons 2002 to 2005 Leicester fell under Leicestershire, Northamptonshire and Rutland health authority. Data here are provided at PCT level

[2] For season 2006-07 the geography changed again and data is shown by both Leicestershire, Northamptonshire and Rutland authority and Leicester City PCT

[3] Data for individuals aged under 65 years and in a risk group has only been collated since the 2005-06 season and therefore unavailable for previous years

Notes:

1. Uptake figures include only those general practitioner practices who have returned confirmation to the survey and reflect data for individuals vaccinated at these premises.
2. The change in geography reflected in uptake returns by PCT mapped to the designated area.

Source:

Health Protection Informatics web based reporting site (HPI)
Influenza Immunisation Uptake Monitoring Programme Health Protection Agency/Department of Health

Mr. Dismore: To ask the Secretary of State for Health how many Hendon residents received influenza vaccinations for the 2007-08 winter. [178180]

Dawn Primarolo: The data on influenza vaccination uptake are collected by the primary care trust (PCT). Provisional influenza vaccination uptake data up to the end of November 2007 are available for Barnet PCT which includes the constituency of Hendon. They show that 34,693 people aged 65 years and over, and 9,504 people aged under 65 years in clinical risk groups, have received influenza vaccine by the end of November 2007.

National Blood Service

Jim Cousins: To ask the Secretary of State for Health if he will hold a meeting with hon. and rt. hon. Members with a National Blood Service centre in their constituency to discuss the McKinsey report into the National Blood Service as soon as it is presented to Ministers. [178066]

Mr. Bradshaw: The National Blood Service (NBS) is an operating division of NHS Blood and Transplant (NHSBT). The chairman and chief executive of NHSBT have indicated that they would be willing to meet with stakeholders, including any hon. Members to explain any changes as a result of the work carried out by McKinsey once they have been agreed.

Mr. Dismore: To ask the Secretary of State for Health what progress is being made in relation to the review of the National Blood Service, with particular reference to the Colindale Centre. [179091]

Dawn Primarolo: The National Blood Service (NBS) is an operating Division of NHS Blood and Transplant (NHSBT). The senior management team and the Board of the NHSBT are currently considering the results of a review of the NBS strategy.

Details of the proposals for NBS, including plans for the centre in Colindale, will be published shortly. As part of this process, NHSBT will write to all hon. Members.

Negligence

Mr. Baron: To ask the Secretary of State for Health how many clinical negligence cases were open on the NHS Litigation Authority database at the most recent date for which information is available; and how many of those cases are being funded by *(a)* legal aid, *(b)* conditional fee agreements, *(c)* before the event insurance, *(d)* private means and *(e)* other means. [178411]

Ann Keen *[holding answer 14 January 2008]*: The information requested is shown in the following table. The NHS Litigation Authority supplied the data.

Number of clinical negligence cases open on the NHS Litigation Authority database and their funding arrangements where known as at 31 December 2007:

	Number of reported incidents[1] open at 31 December 2007	*Number of actual claims open at 31 December 2007*	*Total number of open cases at 31 December 2007*
BTE Insurance	17	598	615
Conditional Fee Arrangement	88	2,703	2,791
Legal Services Commission	355	4,492	4,847
Self Funded	30	647	677
Unknown	779	2,203	2,982
Total	1,269	10,643	11,912

[1] Reported incidents are incidents that have been reported but which have not yet been made into an actual claim

Mr. Baron: To ask the Secretary of State for Health how many clinical negligence cases were brought in the last year for which information is available; and how many of those cases were funded by *(a)* legal aid, *(b)* conditional fee agreements, *(c)* before the event insurance, *(d)* private means and *(e)* other means. [178412]

Ann Keen *[holding answer 14 January 2008]*: The information requested is in the following table. The NHS Litigation Authority supplied the data.

Number of clinical negligence cases received by the NHS Litigation Authority in 2006-07 and their funding arrangements where known as at 31 December 2007

Funded by	*Number of clinical negligence cases received in 2006-07*
BTE Insurance	310
Conditional Fee Arrangement	1,456
Legal Services Commission	1,251
Self Funded	591
Unknown	1,812
Total	5,420

NHS Equipment: Private Sector

Tony Baldry: To ask the Secretary of State for Health what guidance his Department gives to NHS hospital trusts on the use of NHS equipment for private patients; and whether there are restrictions on NHS hospital trusts using specialist equipment purchased by the NHS for treating private patients. [170296]

Mr. Bradshaw: Legislation allows a national health service trust to offer private health care so long as this does not to any significant extent interfere with the performance of its functions or obligations under NHS contracts.

A NHS foundation trust may offer private health care, provided that it complies with any restrictions in its authorisation and that the provision of NHS services remains its principal purpose. Legislation limits the total proportion of income a NHS foundation trust may derive from private charges to its 2002-03 level.

This has been reiterated in guidance. Most recently, the 'Code of Conduct for Private Practice - Guidance for NHS Medical Staff', published in 2003, said that

"Provision of services for private patients should not prejudice the interests of NHS patients".

NHS Foundation Trusts: Mergers

Norman Lamb: To ask the Secretary of State for Health what guidance his Department has produced on mergers between an NHS foundation trust and a non-foundation NHS trust; what his policy is on the treatment of non-foundation NHS trust historic deficits when merging with a NHS foundation trust; and if he will make a statement. [178245]

Mr. Bradshaw: Monitor (the statutory name of which is the independent regulator of national health service foundation trusts) has issued guidance which address mergers and also acquisitions involving NHS foundation trusts (NHSFTs). These are available on Monitor's website at:

www.monitor-nhsft.gov.uk.

Where an NHS trust and NHSFT come together the normal practice has been to deal with these by acquisition rather than merger. The assets and liabilities of the NHS trust transfer intact at their balance sheet value. These values will reflect the impact of historic surpluses or deficits.

The Department is currently working with Monitor and others on the development of guidance on NHS corporate transactions. This guidance is described in further detail on page 54 of the 2008-09 Operating Framework for the NHS in England.

NHS: Computerisation of Personal Records

Mr. Dismore: To ask the Secretary of State for Health what progress has been made towards computerisation of NHS records of Barnet residents. [178073]

Mr. Bradshaw: Computerisation of national health service patient records in both primary and secondary care has been a reality across the NHS for many years.

Barnet and Chase Farm hospital NHS Trust went live with the Cerner Millennium patient administration system, provided through the national programme, in 2007.

NHS: Finance

Mr. Dismore: To ask the Secretary of State for Health what the financial position of *(a)* Barnet Primary Care Trust, *(b)* Barnet Chase Farm NHS Trust and *(c)* Royal Free NHS Trust (i) was at the end of 2006-07 and (ii) is expected to be at the end of (1) 2007-08 and (2) 2008-09; and if he will make a statement. [177905]

Mr. Bradshaw: The following table shows the final accounts for 2006-07 and the quarter 2 2007-08 forecast outturn position for Barnet primary care trust (PCT), Barnet and Chase Farm Hospitals NHS Trust and Royal Free Hampstead NHS trust. Information on the financial plans for 2008-09 is not collected centrally.

£000

Organisation name	2006-07 final accounts surplus/(deficit)	2007-08 quarter 2 forecast outturn surplus/(deficit)
Barnet PCT	46	0
Barnet and Chase Farm Hospitals NHS Trust	(11,398)	2,594
Royal Free Hampstead NHS Trust	18,005	10,088

Notes:
1. Information in the table provided is already in the public domain and in the Library.
2. An initial high level financial plan for 2008-09 will be collected by the Department on the 31 January. This will be followed by a full collection on the 1 March, and it is planned that these will be signed off by the 31 March.
3. In 2006-07, the system of cash brokerage and planned support that had previously operated across the NHS, was replaced for NHS trusts by a formal system of interest-bearing loans. This is consistent with moving trusts to a foundation trust regime where they need to borrow for working capital needs.

Sources:
Audited summarisation schedules 2006-07.
Department of Health financial returns 2007-08.

NHS: Questionnaires

Tim Farron: To ask the Secretary of State for Health what the cost was of posting the Ipsos MORI NHS questionnaire and reply envelopes by first class post; and what estimate was made of the cost of sending the questionnaires and replies by second class post. [179411]

Mr. Bradshaw: It is not possible to provide a detailed breakdown of postal or other individual costs involved in the general practitioner patient survey as these relate to the commercial contract with Ipsos MORI. However we can assure that the postal survey was achieved at a substantially discounted rate. First class post has been used as independent expert evidence on postal surveys has shown this to be more effective in administering successful surveys including increased response rates and reducing the need for reminders (and therefore costs).

Nurses: Pay

Mr. Dismore: To ask the Secretary of State for Health what the average salary of a *(a)* newly qualified nurse, *(b)* qualified nurse and *(c)* nurse consultant in Barnet was in (i) 1997 and (iii) 2007; and if he will make a statement. [177986]

Mr. Bradshaw: The information is not available in the format requested.

It is not possible to distinguish between a newly qualified nurse and a qualified nurse in order to calculate an average salary. Data for nurse and nurse consultant pay are not collected by primary care trust area.

However, the starting pay for a newly qualified nurse in England in 1997-98 was £12,385. In 2007-08 it was £19,454 in April rising to £19,683 in November.

Nurse consultants did not exist in 1997.

There are two pay bands for nurse consultants which depend on the demands of the job.

In 2007 the nurse consultants' pay bands ranged from £36,712—£90,607.

Nutrition: Sustainable Development

Mr. Peter Ainsworth: To ask the Secretary of State for Health what steps are taken by the Food Standards Agency to ensure that advice offered to the public on nutrition is compatible with the principles of sustainable development. [178356]

Dawn Primarolo: The Agency seeks to take sustainable development into account in its activities and policy decisions, including nutritional advice to the public. This commitment is supported by training and written guidance for staff on applying the principles of sustainable development.

Osteoporosis

Mark Hunter: To ask the Secretary of State for Health with reference to the answer of 14 March 2007, *Official Report*, column 447W, on osteoporosis, what steps his Department has taken to ensure that strategic health authorities spend the capital provision for dual x-ray absorptiometer scanning provision for that purpose. [179554]

Mr. Ivan Lewis: The capital provision of £17 million to improve national health service capacity in dual X-ray absorptiometer (DXA) scanning provision in the diagnosis of osteoporosis has been included in strategic health authorities' (SHAs) strategic capital allocation and is not ring fenced. While the Department does not monitor how SHA strategic capital is spent, it has been clear in its expectations that this funding is spent exclusively on DXA provision. In May 2006, the National Director for Older People, Professor Ian Philp, wrote to SHAs to highlight the importance of DXA scanning in delivering the relevant elements of the National Service Framework for Older People.

Osteoporosis: Drugs

Mr. Dismore: To ask the Secretary of State for Health what progress is being made by the National Institute for Health and Clinical Excellence in the appraisal of drugs for osteoporosis; and if he will make a statement. [179104]

Dawn Primarolo: The National Institute for Health and Clinical Excellence (NICE) received four appeals against its two Final Appraisal Determinations (FADs) on treatments for the primary and secondary prevention of osteoporotic fragility fractures in postmenopausal women.

The appeals were heard by NICE's Appeal Panel on 22 October 2007. The Appeal Panel upheld the appeals and referred both FADs back to the Appraisal Committee to reconsider its guidance. NICE expects to publish final guidance later in 2008.

Further detailed information, including the Appeal Panel's decision, is available on NICE's website at:

www.nice.org.uk/search/guidancesearchresults.jsp?keywords=Osteoporosis&searchType=guidance

Patient Choice Schemes

Mr. Laws: To ask the Secretary of State for Health whether all patients must be offered access to a consultant within 13 weeks of referral under the choose and book system; whether it is possible to book appointments more than 13 weeks ahead under the choose and book system; and if he will make a statement. [175583]

Mr. Bradshaw: For the past two years, the national health service has had in place an operational standard for a maximum 13-week wait from general practitioner (GP) referral to first out-patient appointment with a consultant. All patients can expect this minimum standard of access regardless of how the referral is made.

The choose and book system can facilitate the booking of appointments more than three weeks ahead. It is the responsibility of providers to ensure that they publish sufficient appointment slots on the system to enable GPs and patients to directly book into these slots.

Prescriptions: Fees and Charges

Mr. Hayes: To ask the Secretary of State for Health how much was raised from NHS prescription charges in *(a)* 1997 and *(b)* the most recent year for which figures are available. [178238]

Dawn Primarolo: Revenue raised from national health service prescription charges collected by pharmacists, appliance contractors and from prescription prepayment certificate fees, in England, are accounted for by financial year. The data requested is shown in the following table:

	Prescription charge revenue (£ millions)
1996-97	295.7
1997-98	326.9
2006-07	411.7

Notes:
1. Prescription charge income prior to 2001-02 drawn from cash data in appropriation accounts. 2001-02 and subsequent years' data drawn from resource data in summarised accounts.
2. The 2006-07 figure excludes prescription charges collected by dispensing doctors, which are not collected centrally, but remains with primary care trusts.

Pressure Sores

Mr. Burstow: To ask the Secretary of State for Health when information on the number of pressure ulcer incidents which have occurred in the last five years will be available; and if he will make a statement. [178414]

Mr. Ivan Lewis: The number of pressure ulcer incidents in private and public care homes, broken down by local authority, is not collected centrally.

Primary Care Trusts: Tribunals

Mrs. May: To ask the Secretary of State for Health whether funding was made available by the Government to primary care trusts to cover the cost of reimbursing nursing care charges arising from appeals tribunals. [172707]

Mr. Ivan Lewis: Primary care trusts have paid out over £180 million as a consequence of retrospective reviews of continuing healthcare, funding was made available by the Department to cover this.

Radiotherapy

Mr. Stewart Jackson: To ask the Secretary of State for Health how many radiotherapy linear accelerators for cancer treatment are in use in each acute hospital trust in the eastern region; and if he will make a statement. [178579]

Mr. Ivan Lewis: As at the 30 November 2007, there were 31 linear accelerators for cancer treatment installed in six trusts in the East of England Strategic Health Authority region. The following table identifies the individual trusts where the machines are installed.

Name of trust	*Number of linear accelerators installed*
Cambridge University Hospitals NHS Foundation Trust	7
East and North Hertfordshire NHS Foundation Trust	9
Essex Rivers Healthcare NHS Trust	3
Ipswich Hospital NHS Trust	4

Name of trust	Number of linear accelerators installed
Norfolk and Norwich University Hospitals NHS Trust	4
Southend University Hospitals NHS Foundation Trust	4
Total for the region	31

Source
Health Protection Agency November 2007

The Department does not routinely keep data on whether the machines are in clinical use or used for research purposes or as a backup machine for routine maintenance.

Recycling

Mr. Pickles: To ask the Secretary of State for Health what recycling schemes are in operation in each building operated by his Department. [176376]

Mr. Bradshaw: For each building for which the Department is responsible, its recycling activity forms part of its general cleaning and waste management contract.

Retirement

Daniel Kawczynski: To ask the Secretary of State for Health if he will make it his policy to ensure that people retiring early to live in another EEA country are able to obtain an E106 form. [177031]

Dawn Primarolo: I refer the hon. Member to the answer given to the hon. Member for South-West Devon (Mr. Streeter) on 14 January 2008, *Official Report*, column 1026W.

Ritalin: Children

Tim Loughton: To ask the Secretary of State for Health how many methylphenidate prescriptions were issued to children under the age of 18 years in the last year. [179420]

Mr. Ivan Lewis: I refer the hon. Member to the answer given to the hon. Member for Yeovil (Mr. Laws) on 20 November 2007, *Official Report*, column 838W.

Royal Free Hospital

Mr. Dismore: To ask the Secretary of State for Health what progress has been made on the Royal Free hospital's bid to become a Foundation Trust. [177993]

Mr. Bradshaw: The Royal Free Hampstead NHS trust has received the support of the Secretary of State to make an application to Monitor (the statutory name of which is the independent regulator of national health service foundation trusts) to be considered for authorisation as a NHS foundation trust. Subject to meeting Monitor's criteria for assessment, the trust will be authorised on 1 March 2008.

Royal Free Hospital: Paediatrics

Mr. Dismore: To ask the Secretary of State for Health if he will make a statement on the outcome of the reorganisation of children's services at the Royal Free Hospital. [178166]

Mr. Bradshaw: The provision of children's services at the Royal Free Hospital is a matter for the local national health service.

However, we have been informed that the Royal Free Hampstead NHS Trust is conducting patient surveys to see how children and families view the new service.

Royal Free Hospital: Patient Choice Schemes

Mr. Dismore: To ask the Secretary of State for Health what progress has been made on the choose and book system at *(a)* the Royal Free and *(b)* Barnet and Chase Farm hospitals; and if he will make a statement. [177998]

Mr. Bradshaw: Royal Free Hampstead hospital NHS trust is currently live with the choose and book (CAB) system, and offers patients direct booking. Barnet and Chase Farm hospitals NHS trust is also live with the CAB system, and currently offers indirect booking, with direct booking scheduled to commence in spring 2008.

Utilisation of CAB for both providers is shown in the following table.

	Percentage December 2006	Percentage December 2007
Royal Free	17	39
Barnet and Chase Farm	17	24

Smoking: Barnet

Mr. Dismore: To ask the Secretary of State for Health what estimate he has made of the number of people who stopped smoking in Barnet in each of the last three years. [177981]

Mr. Bradshaw: The following table shows the estimate of the number of people to stop smoking in Barnet in the last three financial years.

	Number that successfully quit smoking at the four-week follow up
2004-05	837
2005-06	1,673
2006-07	2,941

Sources
Statistics on NHS Stop Smoking Services in England, April 2004 to March 2005
Statistics on NHS Stop Smoking Services in England, April 2005 to March 2006
Statistics on NHS Stop Smoking Services in England, April 2006 to March 2007

The numbers are based on those who self-report as having successfully quit smoking at a four-week follow up. This indicates someone that has not smoked at all in the two weeks after their initial quit date.

Smoking: Public Places

Andrew Rosindell: To ask the Secretary of State for Health what assessment he has made of the impact of the prohibition of smoking in public places on health since its introduction; and if he will make a statement. [179669]

Dawn Primarolo: I refer the hon. Member to the answer given on 18 December 2007: *Official Report*, column 1365W to my hon. Friend the Member for Livingston (Mr. Devine).

Tuberculosis: Vaccination

Anne Milton: To ask the Secretary of State for Health what research his Department has conducted on the likely effect changing the BCG vaccination programme to a selective scheme will have on rates of tuberculosis infection in children. [177978]

Dawn Primarolo: The change in BCG vaccination policy was taken following advice from the independent Joint Committee on Vaccination and Immunisation (JCVI). JCVI has considered the scientific and medical evidence, and a statement of its position on BCG vaccination is available at:

www.advisorybodies.doh.gov.uk/jcvi/bcg-jcvi-statement_updateAug2007.pdf

Written Questions

Mr. Amess: To ask the Secretary of State for Health when he plans to answer written questions *(a)* 172430, tabled on 4 December 2007, *(b)* 169534, tabled on 26 November 2007 and *(c)* 169605, tabled on 26 November 2007; what the reason for the delay is in each case; and if he will make a statement. [177737]

Dawn Primarolo: Answers were given on 9 January. We endeavour to answer all parliamentary questions as soon as possible and are taking a number of steps to improve our performance.

DUCHY OF LANCASTER

Departmental Sustainable Development

John McDonnell: To ask the Chancellor of the Duchy of Lancaster (1) whether his Department is on course to meet the commitments in the Sustainable Operations on the Government Estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling to 40 per cent. of its waste by 2010; [175568]

(2) whether his Department met the target in the Sustainable Operations on the Government Estate to reverse the then upward trend in carbon dioxide emissions by April 2007; [175569]

(3) whether his Department is working towards an accredited certified environmental management system (such as ISO 14001 or EMAS) *(a)* for its whole estate and *(b)* in some of its buildings. [175570]

Phil Hope: The Cabinet Office is on track to exceed the commitment in the Sustainable Operations on the Government Estate (SOGE) targets to source at least 10 per cent. of its electricity from renewables by 31 March 2008. The Department is also on target to meet the commitment to recycle 40 per cent. of its waste by 2010.

The Cabinet Office has implemented an environmental management system (EMS) accredited to ISO 14001 environmental standards. The EMS covers the whole of the Department's core central London estate including Downing street.

Due, primarily, to a large increase in the size of the Department since the baseline year, the Cabinet Office did not meet the target to reverse the current upward trend in carbon emissions by April 2007.

The Cabinet Office is committed to meeting the SOGE: climate change and energy targets. As part of this, the Cabinet Office has signed up to the Carbon Trust's Carbon Management programme to improve our energy management practices, identify likely areas for potential energy savings, reduce energy consumption, associated carbon emissions and costs.

Public Participation: Incentives

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 December 2007, *Official Report*, column 1344W, on public participation: incentives, what payment was made to each participant excluding the cost of accommodation and travel. [174879]

Edward Miliband: Each participant received £75 in addition to the cost of accommodation and travel.

Smith Institute

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster when the Charity Commission will complete its investigation into the Smith Institute; and when it will publish the report. [178553]

Phil Hope: This is a matter for the Charity Commission as the independent regulator of charities in England and Wales. The Commission has told me that it cannot, at this stage, provide a precise timeline for the completion of its inquiry, but that it is currently expected to conclude in the next few months. The Commission will, as is its normal practice, publish a report of its findings after the inquiry is completed, setting out any wider lessons for the charity sector.

WORK AND PENSIONS

Children Daycare

Danny Alexander: To ask the Secretary of State for Work and Pensions how much has been spent on each means of communication under the national communications campaign to communicate the benefits of formal childcare in each month since its launch. [177974]

Beverley Hughes: I have been asked to reply.

Since the launch of the DCSF national communications campaign to communicate the benefits of formal childcare to low income parents in March 2007, the following has been spent on each means of communication by month:

										2007 £
	March	April	May	June	July	August	September	October	November	December
Direct mail	115,356					49,299		200,345	189,872	
Leaflet distribution through door drop and third parties	17,406					14,854	17,126	69,592	12,861	7,988
Face to face in supermarkets and shopping centres in low income areas	49,545							149,443	65,383	
Advertising (radio, press, posters,)	332,069						93,880		44,396	21,466
PR			28,536	28,536	28,536			22,860	37,860	22,860

This spend includes costs for several campaign strands, all of which communicate the benefits of formal childcare: the affordable childcare campaign which used direct mail, leaflet distribution, advertising and face to face; the London Childcare Affordability Programme campaign, which used direct mail and leaflet distribution; the targeted campaign to Pakistani and Bangladeshi parents, which launched in December with radio advertising; and PR activity to promote early learning and childcare.

Children: Maintenance

Mr. Evennett: To ask the Secretary of State for Work and Pensions what estimate he has made of the amount of extra maintenance which might be paid by compliant non-resident parents under the provisions of the Child Maintenance and Other Payments Bill. [164284]

Mr. Plaskitt: Table 19.5 of the September 2007 Child Support Agency Quarterly Summary of Statistics shows that in the year to April 2007, the CSA collected or arranged through Maintenance Direct £890 million of child maintenance, including the collection of arrears.

In the year to April 2016 the value of child maintenance collected or arranged through the statutory maintenance service is expected to be around £1.3 billion. The reforms are also expected to create an additional 200,000 voluntary arrangements, with an estimated value of maintenance flowing of £250 million.

These figures are based on the current best available evidence base. They are however subject to behavioural uncertainties and depend on the choices that parents make, as well as the decisions that would be made by the Commission and should therefore be treated as indicative only.

Departmental Illegal Immigrants

Damian Green: To ask the Secretary of State for Work and Pensions how many illegal immigrants have been discovered working for his Department and its agencies in the last year for which figures are available. [170483]

Mrs. McGuire: There are no cases of which we are aware of illegal immigrants who have been discovered working for the Department for Work and Pensions in the last year.

Departmental Manpower

Mrs. May: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women of each civil service grade are employed by his Department. [172733]

Mrs. McGuire: The number of people employed in the Department appear in civil service statistics collected and published by the Office for National Statistics. The most recent publication is for the year to 30 September 2006. Table H of the publication presents permanent employees by Department, responsibility level, ethnic origin and gender.

This can be found at:

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilService2006TablesandCharts.xls

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Work and Pensions whether his Department is working with an accredited certified environmental management system *(a)* for its whole estate and *(b)* in some of its buildings. [172981]

Mrs. McGuire *[holding answer 10 December 2007]*: The Department for Work and Pensions meets the mandate within targets for sustainability on the Government estate by operating a corporate environmental management system, based on ISO 14001 across all its functions. It is not, at this time, intended to seek certification for this. Jobcentre Plus (an executive agency of DWP) operates an environmental management system which is accredited to ISO 14001 within its South East area—this covers 88 buildings and 6,000 staff.

Additionally, our estates partner—Land Securities Trillium—operates an environmental management system accredited to ISO 14001, covering all the estates functions delivered by them at sites occupied by DWP.

Elderly: Scotland

Mr. Carmichael: To ask the Secretary of State for Work and Pensions what steps his Department plans to take to assist elderly people in Scotland over the winter months in 2008. [177115]

Mr. Mike O'Brien: In winter 2006-07 we made 1,028,120 winter fuel payments to people in Scotland. Figures are not yet available for this winter, but we expect the numbers to be similar.

In addition, we are currently undertaking a fuel poverty partnership pilot with the energy industry. This targets 250,000 pensioners in receipt of pension credit throughout England, Scotland and Wales, which aims to increase the take up of energy efficiency measures and Warm Front grants. In Scotland 16,500 recipients of pension credit will be contacted.

In the event of sustained freezing temperatures, eligible customers (generally those in receipt of income related benefits) may be entitled to cold weather payments. All of these activities are part of the cross government Keep Warm Keep Well initiative which aims to tackle fuel poverty.

Mr. Heathcoat-Amory: To ask the Secretary of State for Work and Pensions how many people employed in his Department work on administering EU structural funds, and what the cost of such staff was in 2006-07. [176043]

Mr. Plaskitt: In 2006-07 people were employed in the Department for Work and Pensions on administering EU structural funds, and the running costs related to these staff were £2.2 million.

Financial Services: Religion

Tony Baldry: To ask the Secretary of State for Work and Pensions what steps the Government are taking to improve access to suitable financial instruments to reduce financial exclusion amongst those unable to use conventional financial arrangements due to their religious beliefs. [177881]

Andy Burnham: I have been asked to reply.

It is the Government's strong belief that everyone, irrespective of their religious beliefs, should have access to appropriate financial products and services. To this end, the Government have introduced a number of legislative changes since 2003, including those to allow the equal tax treatment of mortgages that comply with Sharia'a principles, and will continue to make further changes where necessary. In addition, in April 2007 my right hon. Friend the Member for Normanton (Ed Balls), the then Economic Secretary to the Treasury, announced that National Savings and Investments (NS&I) would assess the feasibility of the Government issuing Sharia'a compliant retail products. NS&I will report back to Ministers in spring 2008.

Fuel Payments

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions pursuant to the answer of 27 November 2007, *Official Report*, columns 333-34W, on fuel payments, in what form information relating to eligibility for winter fuel allowance is *(a)* collected and *(b)* made available; and what estimate his Department has made of the number of pensioner households eligible for the winter fuel allowance in (i) Cornwall and the Isles of Scilly, (ii) the south west and (iii) England. [172795]

Mr. Mike O'Brien: The vast majority of winter fuel payments are made automatically because most people aged 60 and over are receiving a DWP benefit which allows us to check their eligibility based on information on our departmental computer systems. A person is ineligible for a winter fuel payment if, for example, they are serving a custodial sentence or have been in hospital for more than 52 weeks.

A small number of people who are not in receipt of a benefit administered by DWP need to complete a claim form so that we can assess their eligibility. Our publicity campaign, which we run each year, includes advertisements in the press and information in leaflets. This informs people of the qualifying conditions and how to claim if they need to.

It is not possible to give an estimate of the number of pensioner households eligible for a winter fuel payment in Cornwall and the Isles of Scilly, the south west and England. This is because we do not know whether people whose details are not held by departmental systems may be eligible, unless they provide the relevant information on a claim form.

Notes:

1. To qualify for a winter fuel payment a person has to be aged 60 or over and ordinarily resident in Great Britain during the September qualifying week but there are some exclusions to the qualifying conditions.

2. Statistics showing the number of households and individuals who receive winter fuel payments are placed in the Library each year.

Jobcentre Plus: Rural Areas

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions pursuant to the answer of 13 December 2007, *Official Report*, columns 803-04W, on Jobcentre Plus: rural areas, (1) what estimate he has made of the cost of introducing flexible support arrangements for jobseekers; [176954]

(2) what assessment of need takes place in planning provision for flexible support arrangements by Jobcentre Plus; [176955]

(3) what flexible support arrangements are put in place by Jobcentre Plus, broken down by area. [176956]

Caroline Flint *[holding answer 7 January 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Mel Groves, dated 16 January 2008:

The Secretary of State has asked me to reply to your questions about the provision of flexible service support arrangements provided by Jobcentre Plus. This is something which falls within the responsibilities delegated to Ms Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

We wrote to you on 13 December providing information regarding those factors that District Managers consider when reviewing local Service Delivery Plans. Every effort is made to ensure that all customers can access our services regardless of where they live. If there are concerns about customer access to a Jobcentre, we can arrange for flexible service provision.

The provision of services in our Districts, including flexible arrangements, follows an assessment of customer needs. This takes into account local knowledge, local circumstances, national priorities, and follows consultation with local stakeholders as how best to meet customer needs in the most efficient and effective manner.

I am sure that you will be aware of the "Cornwall Works" programme (that part of Cornwall's Local Area Agreement delivering on the worklessness agenda). This programme is a successful consortium of service providers, including a key input from Jobcentre Plus, and has introduced a Neighbourhood Action Team for Pengegon and Parc an Tansys. The collective effort of this group has facilitated the provision of services directly to customers in housing estates who need more support to address worklessness. This is clearly helping those who would not normally seek out services from a Jobcentre and is helping those in greatest need to find work or support in becoming ready for work. I am pleased that the concept of the Neighbourhood Action Team is likely to be expanded with the help of European Social Funding. I understand that Pengegon and Parc an Tansys as well as Redruth North, parts of Pool and Illogen are specifically earmarked.

The District has already successfully used European Social Funding to finance a series of projects, working with local organisations, to target help and support for those communities where there is greatest need.

There is also a great deal being done to meet the needs of customers in the Devon and Cornwall District in general and specifically for customers in and around your constituency. The flexible service provision includes:

access to a New Deal Lone Parent Adviser on an ad hoc basis in Children's Centres in Falmouth, Penryn and at a Family Centre in Falmouth;

access to a New Deal Lone Parent Adviser and Disability Employment Adviser on a fortnightly basis at 'Link into Learning' in Falmouth;

joint working arrangements with the Children's Centres in Redruth, Camborne and St Day.

Furthermore during the consultation period on the closure of Camborne Jobcentre, Kerrier District Council offered the possibility of sharing their premises. This was subject to agreement by their Scrutiny Committee.

I am confident that the variety of programmes and activities supports our customers in Devon and Cornwall and your constituents. I encourage this type of support activity throughout Jobcentre Plus as it helps focus on greatest need and compliments the services already provided through our network of Jobcentres, Contact Centres and Benefit Delivery Centres.

Jobcentre Plus does not maintain a central list of the flexible support arrangements in place or a central record of the cost associated with introducing those arrangements and this information could only be obtained at disproportionate cost. Information is held at District level because the arrangements tend to change and adapt to meet local circumstances.

Carolyn Webster, European Social Fund Manager for Devon and Cornwall, would be happy to help if you would like to discuss this local information in more detail, Carolyn can be contacted on 01872 355021.

I hope this reply is helpful.

Jobseeker's Allowance: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people in Peterborough constituency in receipt of jobseeker's allowance who have been offered suitable work and have refused it in the last 12 months; and if he will make a statement. [174411]

Mr. Plaskitt: The available information is that from August 2006 to July 2007, 10 people in Peterborough received jobseeker's allowance sanctions for refusal of employment.

Joint Child Poverty Unit

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what his responsibilities are in relation to the Joint Child Poverty Unit; and what arrangements are in place for liaison with other Departments on the work of the Unit. [178426]

Caroline Flint *[holding answer 14 January 2008]:* The Child Poverty Unit brings together officials from both the Department for Work and Pensions and the Department for Children, Schools and Families. It will report to Ministers in both Departments and to a child poverty board comprised of senior officials from across Whitehall. At ministerial level, this board will report to the Cabinet Committee on Domestic Affairs (Families, Children and Young People).

The unit will play a lead co-ordinating role, as the Government pursue their multi faceted child poverty strategy which includes transport, health and regeneration as well as employment, skills and the tax and benefit system, on the way towards our ambitious but vital goal of eradicating child poverty by 2020 a reality.

The unit is also currently setting up working groups with officials across a number of Government Departments and local government offices, and will work closely with HM Treasury.

Pensions

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people receive the retirement pension age addition for those aged 80 years or over in each constituency in England. [175072]

Mr. Mike O'Brien: The information has been placed in the Library.

Danny Alexander: To ask the Secretary of State for Work and Pensions what discussions officials in his Department have had with officials from HM Treasury on increasing the level of trivial commutation. [177954]

Mr. Mike O'Brien: Officials meet regularly with officials from HM Treasury on this and other matters.

Danny Alexander: To ask the Secretary of State for Work and Pensions in which year the Government plans to reinstate the link between earnings and the basic state pension. [178493]

Mr. Mike O'Brien: In the Government's White Paper "Security in retirement: towards a new pensions system" we stated,

"During the next Parliament...we will re-link the uprating of the basic state pension to average earnings. Our objective, subject to affordability and the fiscal position, is to do this in 2012 but in any event at the latest by the end of the next Parliament. We will make a statement on the precise date at the beginning of the next Parliament."

Pensions: Financial Assistance Scheme

Susan Kramer: To ask the Secretary of State for Work and Pensions what the Financial Assistance Scheme's running costs were in each year in which figures are available. [175721]

Mr. Mike O'Brien: Total administration costs since the Financial Assistance Scheme was announced in May 2004 are shown in the following table.

Financial year	*Expenditure (£ million)*
2004-05	1.06
2005-06	4.73
2006-07	3.99
2007 November 2007	1.79

Note:
The administrative costs for 2005-06 include the initial set up costs for the procurement, development and delivery of the FAS IT system to support FAS assessments and payments.

Performance Appraisals

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what percentage of staff in his Department met *(a)* 100 per cent. *(b)* 90 per cent. *(c)* 80 per cent. *(d)* 70 per cent. *(e)* 50 per cent. *(f)* 40 per cent. *(g)* 30 per cent. *(h)* 20 per cent. *(i)* 10 per cent. and *(j)* none of their objectives and targets in their most recent appraisals; [177962]

(2) what percentage of staff in his Department met *(a)* 100 per cent. *(b)* 90 per cent. *(c)* 80 per cent. *(d)* 70 per cent. *(e)* 60 per cent. *(f)* 50 per cent. *(g)* 40 per cent. *(h)* 30 per cent. *(i)* 20 per cent. *(j)* 10 per cent. and *(k)* none of their objectives and targets in their most recent appraisals. [179402]

Mrs. McGuire: The information requested is not available in the format requested.

Danny Alexander: To ask the Secretary of State for Work and Pensions what objectives, targets or standards new employees in his Department are required to meet in their probationary period; and how the performance of new recruits in his Department is assessed. [177964]

Mrs. McGuire: Probationers and new recruits are expected to work to the same standards of behaviour and attendance as all other employees in the Department.

New recruits must complete a probation period of six months. During this time the probationer's attendance, capability and conduct is monitored. Appropriate objectives and targets are set by line managers according to the particular role and degree of training required.

The performance of new recruits is assessed in the same way as any other employee in the Department. DWP has a Performance and Development System to support day-to-day performance management which applies to all staff up to and including Grade 6.

Social Fund

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions how many successful applications to the Social Fund have been made in each of the last five years; and what proportion of these applications were made *(a)* by telephone, *(b)* in writing and *(c)* by face-to-face interview. [173432]

Mr. Plaskitt: The available information is given in the following tables. The data cannot be broken down into applications made by *(a)* telephone, *(b)* in writing and *(c)* by face-to-face interview.

Social fund initial awards for Great Britain

thousand

	Community care grants	*Crisis loans*	*Budgeting loans*
2002-03	245	1,064	1,251
2003-04	256	1,059	1,250
2004-05	261	1,000	1,200
2005-06	275	1,016	1,217
2006-07	271	1,072	1,298

Social fund initial awards for Great Britain

thousand

	Sure start maternity grants	*Funeral payments*	*Total (all five award types)*
2002-03	225	42	2,827
2003-04	226	43	2,834
2004-05	225	40	2,727
2005-06	225	38	2,771
2006-07	224	37	2,902

Notes:
1. Figures do not include awards made after review, reconsideration or appeal.
2. Totals may not sum due to rounding.

Source:
DWP Social Fund Policy, Budget and Management Information System

Social Security Benefits: Pensioners

Mr. Sheerman: To ask the Secretary of State for Work and Pensions what the average value of benefits in kind provided by the state was to *(a)* single pensioners and *(b)* pensioner couples in Huddersfield in 1996-97 and in each year since then. [162540]

Mr. Mike O'Brien: A wide range of services and benefits in kind are available to older people and these are administered both centrally and locally. As a result, the information is not available in the format requested: some information is not collected and some could be obtained only at disproportionate cost. The information which is available is given as follows.

(i) NHS services

People aged 60 and over are able to claim free prescriptions and eye tests on the grounds of age.

The NHS services information is not available broken down into single pensioner and pensioner couples.

Information on the value of medicines provided by the national health service (NHS) to pensioners is available only at primary care trust level.

The following table shows the estimated net ingredient cost (NIC) of medicines dispensed by the NHS in the community, to patients aged 60 and over, in the South Huddersfield and Huddersfield Central PCTs which existed from October 2000 to September 2006.

Total NIC spent on people over 60 claiming free prescriptions

Financial year	*PCT South Huddersfield - NIC*[1]	*PCT Huddersfield Central NIC*[1]
		£
October 2000 - March 2001	1,556,247	4,578,673
April 2001 - March 2002	3,660,956	9,996,305
April 2002 - March 2003	4,274,282	11,269,579
April 2003 - March 2004	5,031,551	12,547,823
April 2004 - March 2005	5,363,708	13,115,300
April 2005 - March 2006	4,986,221	11,766,929

[1] These figures have been taken from the prescription cost analysis database and are estimates based on a sample of prescriptions.

Notes

Net Ingredient Cost (NIC) - NIC is the basic cost of a drug. It does not take account of discounts, dispensing costs, fees or prescription charges income.

Data for the period April 2006 to September 2006 are not available as they are part year.

Free NHS sight tests were made available to people aged 60 and over from 1 April 1999. Information on the value of NHS sight tests provided to people aged 60 and over within the area of the former Huddersfield Central primary care trust (PCT) and South Huddersfield PCT is only available on a consistent basis for the years set out in the following table:

Financial year	*Number of free NHS sight tests given to people aged 60 and over within Huddersfield Central PCT*	*Estimated cost of NHS sight tests to people aged60 and over in Huddersfield Central PCT (£)*	*Number of free NHS sight tests given to people aged60 and over within South Huddersfield PCT*	*Estimated cost of NHS sight tests to people aged 60 and over in South Huddersfield PCT (£)*
2003-04	16,598	286,000	2,863	49,000
2004-05	15,868	283,000	2,875	51,000
2005-06	16,632	306,000	3,483	64,000

Note

2006-07 sight test data are not available at PCT level. Strategic health authority (SHA) and primary care trust (PCT) level data for the first half of 2007-08 will be available in the NHS Information Centre for Health and Social Care's publication "General Ophthalmic Services: Activity Statistics for England and Wales: April 2007-September 2007" due to be published by March 2008.

Information on the age of adults who qualify on grounds other than their age for help with other NHS services, such as optical vouchers or relief from dental charges, is not collected centrally.

(ii) Social services

The table shows gross current expenditure for Kirklees metropolitan district council, which includes Huddersfield council, on older people aged 65 or over from 1996-97 to 2005-06. Social services information is not available broken down into single pensioner and pensioner couples. Information is not available separately for Huddersfield.

Gross current expenditure[1] *by Kirklees metropolitan council on older people (aged 65 or over)*

Year (1 April to 31 March)	*Gross current expenditure*
	£000
1996-97	39,360
1997-98	40,113
1998-99	43,639
1999-2000	46,928
2000-01	48,970
2001-02	54,971
2002-03[2]	58,353
2003-04[3]	60,522
2004-05	70,552
2005-06	77,061

[1] Gross expenditure includes income from client contributions, but excludes capital charges and certain income items which count as expenditure elsewhere in the public sector, such as contributions from primary care trusts. This is to avoid double counting within the aggregate public sector accounts of the money involved.

[2] From 2002-03 onwards, the data include clients who transferred to council with social services responsibilities (CSSR) support on 8 April 2002, who were formally in receipt of higher rates of income support under the Department for Work and Pensions preserved rights scheme.

[3] From 2003-04, additional funding was made available to CSSRs via the Supporting People grant.

Source

Revenue outturn (RO3) and personal social services expenditure (PSS EX1) returns

(iii) Television licences

Free television licences for people aged 75 or over were introduced in November 2000. TV Licensing, who administer free licences as agents for the BBC, are not able to provide geographical breakdowns of licences issued. However, figures, shown in the following table, are available for the number of households with at least one person aged 75 or over claiming Winter Fuel Payments in Huddersfield constituency. These people would be eligible for a free television licence.

Huddersfield constituency

	Number of households with someone aged 75 or over
2004-05	5,085
2005-06	5,180
2006-07[1]	5,150

[1] Main payment run only

Note

Data prior to 2004-05 are not available.

Social Security Benefits: Telephone Services

Sandra Osborne: To ask the Secretary of State for Work and Pensions what estimate he has made of the average cost of making a benefit claim by telephone. [170794]

Caroline Flint: The Department estimates the average cost of making a benefit claim by telephone using a BT landline telephone is in the following table.

Benefit	*Basis of calculation*	*Cost (p)*
Attendance allowance	0800 number	Nil
Carers allowance	0800 number	Nil
Disability living allowance	0800 number	Nil
Incapacity benefit	0800 number	Nil
Income support	0800 number	Nil
Jobseeker's allowance	0800 number	Nil
Pension credit	0800 number	Nil
State pension	0845 number. Monday to Friday 6am to 6pm. Based on an average call of 20 minutes at 3.95p per minute including a 6p set up fee per call.	86
State pension	0845 number. Monday to Friday before 6am and after 6pm and on Saturday. Based on an average call of 20 minutes at a BT rate of 1p per minute including a 6p set up fee per call.	26
Social fund crisis loans	0800 number	Nil

The Pension Service will always offer to call state pension customers back if they express any concerns about the costs being incurred.

Customers calling an 0800 or 0845 number from their mobile phone, non BT phone network or from abroad will be charged at the specific operator's call rate.

Social Security Benefits: Young People

Norman Lamb: To ask the Secretary of State for Work and Pensions how many women aged *(a)* 19 years and under and *(b)* 15 years and under, with dependent children, are in receipt of income-related benefits in England; and what the average amount of benefit is they receive. [177203]

Mr. Plaskitt: The information is not available.

There are currently five income-related benefits: income support; income-based jobseeker's allowance; pension credit; housing benefit; and council tax benefit. All the benefits have different rules as regards to the minimum age of claimants. Income support and jobseeker's allowance cannot be paid to anyone under 16 years of age. Pension credit is for those aged 60 and over. There is no lower age limit for housing benefit, but it is payable to those under 16 years of age only in very exceptional circumstances. Council tax benefit is not payable to anyone under 18 years of age; under that age an individual cannot be liable for council tax.

New claims for income support and jobseeker's allowance no longer include amounts for children; parents receive child tax credits instead. Because of this, there is no reliable information on those claimants who have dependent children.

As at May 2004, the most recent available figure, there were 22,000 women aged 16 to 19 claiming housing benefit who had a dependent child in their household. This figure includes both single claimants and those with a partner. The average weekly amount of housing benefit in these cases was £80.10.

As at May 2004, the most recent available figure, there were 18,000 women under 19 years of age claiming council tax benefit who had a dependent child in their household. This figure includes both single claimants and those with a partner. The average weekly amount of council tax benefit in these cases is £13.00.

Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what assessment he has made of the suitability of his Department's call centre automated response systems to meeting the needs of customers; and if he will make a statement. [173433]

Mrs. McGuire: The National Audit Office report on the Department's contact centres ("Delivering effective services through contact centres" (HC941 published 15 March 2006) noted that

"all the automated systems used by the Department comply with good practice. In particular, they have short scripts and offer useful information to the caller".

These systems are kept under constant review by managers to ensure they continue to be as helpful as possible.

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what measures are in place to ensure that his Department's customer contact centres facilitate the provision of support to individuals who have a variety of cross-cutting queries to be addressed in a single contact; and if he will make a statement. [173434]

Mrs. McGuire: The Department's contact centres provide a good quality of service to the majority of its customers but we do recognise that customers who need to deal with more than one part of the Department may not always find it as easy as we would like to get answers to cross-cutting queries. The Department has recently introduced a new internal directory for customer contact staff to use to help signpost customers to the right point of contact for the resolution of their inquiry. This is the first step towards the introduction of a more integrated approach. Our aim is that in the future there should be 'no wrong door' for customers who contact the Department.

ELECTORAL COMMISSION COMMITTEE

Peter Hain

Adam Price: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission has received the final and comprehensive account of the donations that the right hon. Member for Neath (Mr.

Hain) received as part of his campaign for the deputy leadership of the Labour party; and what steps the Commission plans to take with regard to the previously undeclared donations. [179356]

Peter Viggers: The Electoral Commission informs me that the right hon. Member for Neath (Mr. Hain) provided further information on 10 January about donations made to his deputy leadership campaign. The Commission is undertaking initial permissibility checks on this information before publishing the relevant details on its website in the register of donations to regulated donees. The Commission will then follow up any outstanding compliance issues.

Political Parties: Finance

Mr. Tyrie: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 18 December 2007, *Official Report*, column 1235W, on political parties: finance, whether the sponsorship or subsidy of a regulated donee's website is a donation or a donation-in-kind; and what records the Commission holds of the regulated donors which have declared such sponsorship. [177637]

Peter Viggers: The Electoral Commission informs me that subsidy of a regulated donee's website might constitute a donation (cash or non-cash), depending on the particular circumstances. In the Commission's view, donations in support of websites do not fall within the definition of 'sponsorship' in paragraph 3 of Schedule 7 to the Political Parties, Elections and Referendums Act 2000.

The register of donations made to regulated donees is published on the Commission's website and includes both cash and non-cash donations. There are two entries on the register of donations to regulated donees which explicitly mention non-cash donations given for website services.

Written Answers to Questions

Thursday 17 January 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bats: Ecology

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department issues on the qualifications required of a bat ecologist; and if he will make a statement. [177547]

Joan Ruddock: We do not hold numbers on bat ecologists but there are currently just over 800 volunteer bat workers. Volunteer bat workers who provide advice on Natural England's behalf receive training from experienced bat specialists. The Bat Conservation Trust provides a service to Natural England in supporting these trainers. In addition they receive written guidance and instructions.

Batteries: Recycling

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government have taken to increase levels of recycling of batteries. [179566]

Joan Ruddock: We are currently consulting on the transposition of the EU batteries directive. When transposed, the directive will reduce the quantity of hazardous and non-hazardous waste batteries going to landfill and increase the recovery of the materials they contain. Collection targets set by the directive for portable batteries are 25 per cent. by 2012, rising to 45 per cent. by 2016. The prohibition of incinerating or landfilling industrial and automotive batteries implies a 100 per cent. collection and recycling target for industrial and automotive batteries.

The consultation is due to close on 14 March and the UK, along with all other member states, has a deadline of 26 September this year to transpose the directive's provisions into national law.

Research and trials to provide evidence for the consultation and to investigate the best ways of implementing the batteries directive have been carried out on portable batteries. The waste and resources action programme (WRAP) is currently working in partnership with a range of local authorities and not-for-profit organisations that already run recycling collection services to pilot portable waste battery collection trials in the UK. Trials include establishing 'drop off' points at places such as supermarkets, as well as other methods of collection including at the kerbside.

Supported by funding from DEFRA through the business resource efficiency and waste (BREW) programme and the devolved administrations, the trials form part of a wider effort to develop cost-effective ways for the UK to meet the targets of the batteries directive.

The results of the various trials will be used to help Government identify the best mechanisms and most efficient methods of collecting batteries in line with directive targets.

Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of equivalent carbon dioxide emissions have been offset by the Government Carbon Offsetting Fund in each year since its creation. [176170]

Mr. Woolas: The Government Carbon Offsetting Fund (GCOF) offset 120,111.42 tonnes of equivalent carbon dioxide emissions in 2006-07.

Departmental Marketing

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many plastic bags *(a)* his Department and *(b)* the Waste Resources Action Programme has purchased in the last 24 months for which figures are available; and at what cost. [176555]

Joan Ruddock: The core-Department purchases in the region of 4,100 clear plastic bags per month, for both recycling and under-desk bins. This totals some 98,400 bags over 24 months, at a cost of £6,000.

WRAP's purchases of plastic bags in the last 24 months are:

Type of bag	*Number purchased in last 24 months*
Plastic carrier bags	0
Kitchen bin liners	2,500
Zip-lock reusable plastic sample bags[1]	15,000
Biodegradable liners for home composting	4,000
Biodegradable liners for food waste collections	2,000

[1] The zip-lock reusable plastic sample bags have been used at various public exhibitions to give out samples of green waste-derived compost, containing a flower bulb suitable for planting in a domestic garden, in order to demonstrate that green waste-derived compost is a good growing medium. After use for this primary purpose, these bags could be re-used for other purposes in the home or garden.

Information on the WRAP's costs of purchase could be provided only at disproportionate cost.

Energy: Conservation

Mr. Ellwood: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with ministerial colleagues on steps the Government are taking to improve domestic energy efficiency. [179531]

Mr. Woolas: We regularly meet ministerial colleagues to discuss domestic energy efficiency and its contribution to the climate change agenda. The Secretary of State met the Secretary of State for Business, Enterprise and Regulatory Reform on issues including this in mid-December. Progress against our domestic climate change and energy security objectives is reviewed by Cabinet Ministers though the Economic Development (Environment and Energy) Committee, chaired by the Chancellor.

Floods: Yorkshire and the Humber

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what Flood Defence Budget has been allocated to Yorkshire and the Humber for *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [179259]

Mr. Woolas: The indicative allocation for the Yorkshire Regional Flood Defence Committee which covers Yorkshire and the north bank of the Humber estuary is shown in the following table:

	Allocation (£ million)
2008-09	43.4
2009-10	51
2010-11	58.2

Allocations are from the Environment Agency to the Regional Flood Defence Committee.

These figures do not include funding for local authorities or internal drainage boards.

The Department will be seeking promotional activity on these figures to reassure the public.

Greenhouse Gas Emissions: Expenditure

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government have spent on reducing greenhouse gas emissions in each year since 1997, broken down by main components of expenditure in each year. [179151]

Mr. Woolas: A full response to this question could be made at disproportionate cost only.

Heathrow Airport: Sustainable Development

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what role his Department had in relation to the project for the sustainable development of Heathrow; and if he will make a statement; [179975]

(2) whether he made representations to the Department for Transport in relation to the project for sustainable development of Heathrow airport; and if he will make a statement. [179965]

Mr. Woolas: Ministers and officials in DEFRA engage regularly with colleagues at the Department for Transport on matters relating to Heathrow which affect DEFRA lead policy responsibilities: notably on air quality, noise, and climate change impacts. DEFRA officials were engaged in the project for sustainable development of Heathrow modelling work in relation to air quality, and have been involved in the noise, air quality and climate change elements of the subsequent development of the public consultation on the development of Heathrow.

Home Energy Efficiency Scheme

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of Warm Front assessors' recommendations have led to work being carried out *(a)* in Nottinghamshire, *(b)* Bassetlaw and *(c)* England. [177742]

Mr. Woolas *[holding answer 10 January 2008]*: The percentage of instances where an insulation measure recommended by a Warm Front assessor leads to the work being completed is as follows.

Insulation

Area	*Proportion (percentage)*
Nottinghamshire	79.5
Bassetlaw	80.5
England	80.3

The percentage of instances where a heating measure recommended by a Warm Front assessor leads to assistance being provided, including where this only involves an installer technical survey being completed, is as follows:

Heating

Area	*Proportion (percentage)*
Nottinghamshire	96.7
Bassetlaw	94.2
England	96.1

Available data do not identify figures for the proportion of instances where a recommendation for heating assistance leads to a heating measure being installed or the repair of an existing system being completed. Further analysis of the data is taking place.

Home Energy Efficiency Scheme: Conflict of Interests

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to prevent a conflict of interest arising from the managing agents of the Warm Front scheme owning the contractor Iguana Services Ltd. [177000]

Mr. Woolas: DEFRA employ independent quality assessors who audit the performance of both Iguana and eaga plc. This ensures that Iguana's position as a subsidiary of eaga does not adversely affect scheme delivery.

Home Energy Efficiency Scheme: Standards

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received from recipients of assistance under the Warm Front programme in relation to the performance of contractors; what steps he has taken in response; and if he will make a statement. [179972]

Mr. Woolas: I refer the hon. Member to the answer given to the hon. Member for Shrewsbury and Atcham (Daniel Kawczynski) on 14 January 2008, *Official Report*, column 861W.

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the performance of eaga and its subsidiaries in operating the Warm Front programme; and what plans he has to review the operation of *(a)* the programme and *(b)* its commercial contractors. [179973]

Mr. Woolas: DEFRA monitors the performance of Warm Front as part of an ongoing monthly reporting cycle.

DEFRA also employs independent quality assessors, who provide in-depth analysis of the performance of Warm Front contractors, both as part of a regular audit cycle, and on an individual project basis where required.

Labour Party: Elections

Adam Price: To ask the Secretary of State for Environment, Food and Rural Affairs whether he *(a)* informed the Permanent Secretary of the relevant Department of the donations he received as part of his campaign for the deputy leadership of the Labour party and *(b)* registered them with the Cabinet Office in accordance with the Ministerial Code. [179969]

Hilary Benn: In accordance with the requirements of the Ministerial Code, a list of Ministers' relevant interests declared to their Permanent Secretary will be published in due course.

Waste Disposal: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates have been made of whether the proposed new charges for domestic rubbish collection are expected to increase or decrease the total tax burden on families with children. [176535]

Joan Ruddock: There are no proposed new charges for domestic rubbish collection. The Government intend to allow five local authorities to pilot waste incentive schemes. Under these schemes those who make the most effort to reduce or recycle their waste would earn a rebate. For schemes which include a charging element, those throwing away the most residual waste could pay more. The impact on families with children could depend on several factors, including the design of individual schemes, the size of the household and, of course, the amount of waste each family throws away.

DEFRA has not made any estimates of how waste incentive schemes will affect families with children. For illustrative purposes, the Impact Assessment, which is available on the DEFRA website, presented a distributional analysis which gives an example of how one type of scheme, in a local authority with particular characteristics, would impact upon families of different sizes and income levels. This assesses how financial transfers might feel to different types of households, with poorer households valuing these more highly. It does not present actual financial flows, as it was primarily included to show local authorities how they might account for impacts of the distribution of financial burdens.

The actual impact on the tax burden faced by families will depend on how the scheme is set up and how well families are able to respond to the price signal provided by the scheme. The example distributional analysis in the Impact Assessment was based on a separate study showing that larger households (e.g. families with children) tend to produce more waste overall. As can be seen in the Climate Change Bill, local authorities piloting a waste incentive scheme must take account of disadvantaged groups. It would be up to local authorities to decide whether families with children (and any other group in society) should be treated differently under a waste incentive scheme and, if so, how. My Department intends to work with stakeholders to develop guidance on this issue.

Waste Management: Standards

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to make proposals for regional development agency waste performance targets. [177937]

Joan Ruddock: I refer the hon. Member to my answer to him on 7 January 2008, *Official Report*, column 69W.

Wildlife: Finance

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs how many local authorities applied for funding from his Department to support local wildlife facilities in each of the last five years. [179763]

Joan Ruddock: Local wildlife facilities could mean any number of organisations, for example: nature reserves, wildlife parks, zoos, rescue centres, rehabilitation facilities etc. To be able to provide the information required by my hon. Friend a more specific request is required, including what type of funding is being referred to. My hon. Friend is welcome to write to me with the details and I will respond to him.

NORTHERN IRELAND

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Northern Ireland what obligations his Department and its agencies place on contractors in relation to the audit of personal data and IT equipment. [176468]

Mr. Woodward: Auditing of personal data and IT equipment is not carried out by contractors in the Northern Ireland Office.

English Language Classes

Damian Green: To ask the Secretary of State for Northern Ireland how much his Department has spent on English language classes for staff in the last year for which figures are available. [177434]

Mr. Woodward: In 2007-08 further education funding is available for learning and development considered to be essential to a member of staff's current post. English language would be considered under this category but no applications were submitted.

Morgan Allan Moore

Mr. Hoban: To ask the Secretary of State for Northern Ireland what meetings *(a)* he and *(b)* officials in his Department have had with representatives of the company Morgan Allan Moore in the last 12 months. [179594]

Mr. Woodward: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

HOME DEPARTMENT

Animal Experiments

Andrew Rosindell: To ask the Secretary of State for the Home Department how many laboratories are licensed for animal testing in the UK. [177931]

Meg Hillier: There are currently 201 designated establishments licensed under the Animals (Scientific Procedures) Act 1986.

Andrew Rosindell: To ask the Secretary of State for the Home Department how many proposals were made under the Animals (Scientific Procedures) Act 1986 to use animals in science in 2007; and how many of these proposals were accepted. [177933]

Meg Hillier: During 2007 617 project licences were applied for under the Animals (Scientific Procedures) Act 1986. Of these 475 were granted, 136 are still outstanding and six have not been proceeded with.

Foreign Workers: EU Nationals

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 14 November 2007, *Official Report*, columns 583-4W, on foreign workers: EU nationals, what her most recent estimate is of the number of dependants aged under 17 years residing in the UK with A8 nationals working in the UK. [169336]

Mr. Byrne: The only available data relate to dependants reported to be accompanying A8 nationals when they register on the Worker Registration Scheme and are published quarterly in the Accession Monitoring Report (AMR). This report currently gives data from 1 May 2004 to 30 September 2007. The information on dependants under 17 years of age is published in table 5 of the report.

A copy of the AMR will be placed in the House Libraries.

Passports

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department if she will lower the age of eligibility for free passports to 65 years. [174596]

Meg Hillier *[holding answer 17 December 2007]:* When the then Home Secretary announced the introduction of free passports on 19 May 2004, he made it clear that this was a special concession for the second world war generation, as a way of recognising all those who had contributed to the national effort during the war years. Those who qualify are British nationals born on or before 2 September 1929 and therefore were old enough by the end of the war to have made a substantial contribution to the national effort.

There are no plans to provide free passports to all those aged 65 or over. This would be considerably more expensive and could lead to an increase in passport fees for all other applicants.

Passports: Applications

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 7 January 2008, *Official Report*, column 292W, on passports: applications, how many passport interview offices were fully operational by 31 December 2007. [178986]

Meg Hillier: 59 interview offices were in live operations by 31 December 2007. A further two offices have already gone live in early January with another five opening by end January 2008.

WALES

Morgan Allan Moore

Mr. Hoban: To ask the Secretary of State for Wales what meetings *(a)* he and *(b)* officials in his Department have had with representatives of the company Morgan Allan Moore in the last 12 months. [179593]

Mr. Hain: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

Renewable Energy

Mrs. Gillan: To ask the Secretary of State for Wales what discussions he has had on the tendering process conditions imposed by the Welsh Assembly Government on renewable energy company investors for schemes that exceed 50 megawatts; and if he will make a statement. [179934]

Mr. Hain: I have regular discussions about all aspects of renewable energy production in Wales, which I strongly support. However, tendering is entirely a matter for the Welsh Assembly Government. I understand prospective developers are assessed against open and objective criteria. It is important that their financial, economic and technical capacity are fully assessed so that the project can be delivered for the benefit of Wales.

DEFENCE

Armed Forces: Housing

Mr. Baron: To ask the Secretary of State for Defence what targets he has set for upgrading all single living accommodation to grade *(a)* 1 and *(b)* 2 categories under the grade for charge initiative; and when he expects these targets to be met. [179928]

Derek Twigg: The Department's targets only envisage delivering new or improved single living accommodation bed-spaces to the highest standard (grade 1). We plan to deliver some 30,000 new or improved bed-spaces by 2013.

Mr. Baron: To ask the Secretary of State for Defence how many single living accommodation bed-spaces were upgraded to grade *(a)* 1 and *(b)* 2 categories under the grade for charge initiative in each of the last four years. [179929]

Derek Twigg: The Department has targets to deliver only grade 1 bed-spaces. For each of the last four financial years the number of bed-spaces delivered is shown in the following table.

Financial year	*Number of new or improved bed-spaces*
2006-07	5,565
2005-06	5,540
2004-05	5,635
2003-04	2,915

Mr. Baron: To ask the Secretary of State for Defence how many newly-acquired *(a)* grade 1, *(b)* grade 2, *(c)* grade 3, *(d)* grade 4 and *(e)* ungraded single living accommodation bed-spaces were added to stock in each of the last five years; and what targets he has for adding new bed-spaces to stock in each grade for charge. [179932]

Derek Twigg: The Department only targets the delivery of new or improved single living accommodation (SLA) to Grade 1 standard. Numbers of newly built or improved SLA bed-spaces delivered in each year are only available for the last four financial years and are shown in the following table.

Financial year	*Number of new or improved bed spaces*
2006-07	5,565
2005-06	5,540
2004-05	5,635
2003-04	2,915

The Department will build or improve a further 30,000 bed-spaces to grade 1 standard by 2013.

Iraq: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence (1) how many personnel who have served in *(a)* Iraq and *(b)* Afghanistan are recorded as having a mental health problem, broken down by condition. [177532]

(2) how many personnel who have served in *(a)* Iraq and *(b)* Afghanistan have been diagnosed with a mental health condition. [173722]

Derek Twigg: The information requested is detailed in the latest version of UK Armed Forces Psychiatric Morbidity Report (January to March 2007), copies of which are available in the Library of the House.

The Defence Analytical Services Agency is currently validating and analysing the data for the second quarter of 2007 (April to June), and their report will be published shortly.

Ministry of Defence Police and Guarding Agency

Dr. Fox: To ask the Secretary of State for Defence at what locations Ministry of Defence police officers have been replaced with *(a)* civilian police forces and *(b)* private security forces since 2003. [177588]

Derek Twigg: The Ministry of Defence Police have never been replaced by a civilian police force or a private security force at any functioning Defence establishment. However, when establishments close and all MOD functions have withdrawn it is possible that private security forces are used, but this would provide a guarding not policing service.

PRIME MINISTER

Gordon Brown

Adam Price: To ask the Prime Minister whether he *(a)* informed the Permanent Secretary at the Treasury of the donations he received as part of his campaign for the Leadership of the Labour Party and *(b)* registered them with the Cabinet Office in accordance with the Ministerial Code. [179967]

The Prime Minister: In accordance with the requirements of the Ministerial Code, a list of Ministers' relevant interests declared to their permanent secretary will be published in due course.

SCOTLAND

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Scotland whether personal data for which his Department is responsible are *(a)* stored and *(b)* processed overseas; and if he will make a statement. [176014]

David Cairns: The Scotland Office does not retain personal data.

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Scotland what obligations his Department places on contractors in relation to the audit of personal data and IT equipment. [176469]

David Cairns: The Scotland Office does not retain personal data and is an integral part of the Scottish Executive's IT system who undertake a rolling audit of IT equipment.

Mrs. Villiers: To ask the Secretary of State for Scotland what audits his Department carried out in relation to personal data and IT equipment in each of the last 10 years. [176488]

David Cairns: The Scotland Office was established on 1 July 1999. The office does not retain personal data and is an integral part of the Scottish Executive's IT system who undertake a rolling audit of IT equipment.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Scotland what products featuring departmental or Government branding were procured by his Department in each of the last five years. [179784]

David Cairns: Business cards.

Mr. Hoban: To ask the Secretary of State for Scotland how many posters or displays there are in the offices of his Department displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179850]

David Cairns: The Scotland Office does not have any such posters or displays in its offices, except the gallery of previous Secretaries of State that is displayed in Dover House. The Office has added photographs to this gallery in the last five years but separate records of the costs involved are not maintained.

Departmental Redundancies

Mr. Hoban: To ask the Secretary of State for Scotland pursuant to the answer of 8 January 2008, *Official Report*, column 350W, on departmental redundancies, how many staff in the Scotland Office are on loan from each Government Department. [180459]

David Cairns: The figures at 31 March 2007 were:

Department	*Number on loan*
Scottish Executive	29
Ministry of Justice	21
Total	50

Trade Unions

Mr. Hoban: To ask the Secretary of State for Scotland what meetings he has had with trade union officials since 1 July 2007; on what dates; and with which trade unions. [179864]

David Cairns: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

CULTURE, MEDIA AND SPORT

Arts Council of England: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many regularly funded organisations are supported by Arts Council England. [179702]

James Purnell: In 2007-08 Arts Council England supported 990 regularly funded organisations.

Arts Council of England: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport which Arts Council England regularly funded organisations were informed in December 2007 that their funding was to be reduced. [179448]

James Purnell *[holding answer 16 January 2008]:* Arts Council England operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them. They have said the following in response to requests to see the names of the organisations listed in their proposals:

> "Our proposals for non-renewal of funding cannot be made available until our National and Regional Councils make final decisions. This information is considered confidential and commercially sensitive during the response period. This is especially so in the case of a recommendation that might be overturned by the National Council or a Regional Council. Regularly funded organisations who have a right to respond to our recommendation, should be able to do so freely without fear that our intention to reduce or stop their funding is potentially unnecessarily, and without their consent, released into the public domain. A full announcement will be made at the beginning of February."

Arts Council of England: Standards

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what criteria Arts Council England uses when assessing the artistic quality of the work of their regularly funded organisations. [179700]

James Purnell: Arts Council England operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them.

In October 2006 Arts Council England published guidance on how it assesses artistic quality. A copy of the guidelines will be placed in the Library of the House.

This is also available on Arts Council England's website at:

http://www.artscouncil.org.uk/publications/information_detail.php?rid=0&sid=&browse=recent&id=92

Arts Council England is reviewing these guidelines this year following the publication of the McMaster Review.

Arts: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what steps the Government have taken to support the creative industries in the West Midlands since 1997. [179149]

James Purnell *[holding answer 15 January 2008]:* My Department has sought to co-ordinate action across government in support of the creative industries. In November 2005, we established the Creative Economy Programme which brought together DCMS, DTI (as it then was), industry representatives and Government bodies such as the Arts Council, the UK Film Council and the Design Council. We will shortly launch a strategy document for the creative industries which will set out the challenges that Government and industry will need to address in order to sustain and grow this vitally important sector of the economy.

Key agencies in the West Midlands with responsibility for growing the creative industries, including the Regional Development Agency Advantage West Midlands, Culture West Midlands, Business Link, the Learning and Skills Council, Arts Council England, Screen West Midlands and Skillset, have come together to form the Creative Industries Strategy Group. This group is developing a regional "Creative Industries Manifesto", which will help raise the profile of the sector nationally and internationally; it will also work to bring key initiatives to the region, such as national centres of excellence or major events.

In addition, since 1997, funding from the European Regional Development Fund has supported a number of projects, including business support and venture capital projects, related to the development of the creative industries in the region. Projects in the 2000-06 Objective 2 Programme have included the establishment of the Advantage Creative Fund (£1.6 million), Business Support for Creative Industries in Birmingham (£2.5 million) and the West Midlands Media Production Fund (£3.7 million).

BBC America: Finance

Mr. Greg Knight: To ask the Secretary of State for Culture, Media and Sport what procedures are in place to ensure that licence fee moneys are not used to subsidise BBC America *(a)* directly and *(b)* indirectly; and if he will make a statement. [178433]

James Purnell *[holding answer 15 January 2008]*: Under the terms of its charter and agreement, the BBC is prohibited from using licence fee revenue to fund any commercial service or any service aimed primarily at users outside the UK. The BBC's Fair Trading Guidelines, available on the BBC website, set out the BBC's approach to complying with its obligations to keep licence fee revenue separate from its commercial operations.

Sports

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport which activities his Department define as sports; and when the list of activities included within his Department's definition of sport was last revised. [179502]

Mr. Sutcliffe: My right hon. Friend the Secretary of State wrote to the Local Government Association on 23 December 2007 confirming that the definition of sport in the new performance measurement framework will remain largely unchanged from the definition currently used for the DCMS public service agreement on moderate intensity sport and for the Comprehensive Performance Assessment. A copy of this letter has been placed in the House Library.

The definition of sport will continue to measure sport and active recreation such as recreational walking and cycling. From April 2008 the definition of sport will also include measurement of some lighter intensity sports and physical activities such as yoga, bowls and pilates for those aged 65 or over; as these activities place a degree of physical demand on that age group.

This broad definition supports the Government's aim of getting 2 million more people more active by 2012.

Sport England are developing a new strategy on how they will build a world-class community sport infrastructure. As part of this work Sport England will review which sports fall within their funding remit. Her Majesty's Treasury is leading on a cross-Government physical activity strategy for all, which will look at policy, funding and delivery of wider physical activity.

Sports: Greyhounds

Mr. Mullin: To ask the Secretary of State for Culture, Media and Sport what plans he has to regulate greyhound racing; and if he will make a statement. [177814]

Mr. Sutcliffe: The Government welcome the recent report by Lord Donoughue into greyhound racing, and we endorse the view that the industry needs to introduce significant reform if it is going to meet the welfare standards expected in the 21st century. While any regulation would be a matter for my right hon. Friend, the Secretary of State for Department for the Environment, Food, and Rural Affairs, we agree with the recommendation in the report that the industry must aim to be self-regulated. I hope that everyone involved in administrating, promoting, funding and providing gambling facilities for the sport will work together to develop a collective response to Lord Donoughue's recommendations.

Swimming: Finance

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the availability of funding to swimming clubs in Greater London. [178080]

Mr. Sutcliffe: Swimming clubs in London are eligible to apply for lottery funding from Sport England's London region, which has £29 million for investment in community projects in 2004-09, of which approximately £15 million remains to be allocated.

Swimming is also part of the Exchequer-funded community club development programme (CCDP), which provides investment in equipment and facilities in clubs. Six clubs in London have benefited from the CCDP programme.

Sport England has also awarded £247,500 of lottery funding to the Amateur Swimming Association (ASA) between 2007 and 2010 to fund three coaches to raise the standard and quality of coaching in identified swimming clubs in London. A fund of £750,000 (comprising £375,000 from Sport England and £375,000 from the Learning Skills Council) has been established for coach qualification bursaries in 2007-09. Swimming coaches linked to clubs in London have the opportunity to apply for grants from this fund to support their personal professional development.

Sport England has also awarded the ASA £8.8 million over four years to support the delivery of its 2005-09 national strategic plan. This enables it to

allocate resources to its London regional development staff whose role is to deliver development programmes (including the PE and School Club Links programme) and lever further investment into swimming from the public, private, voluntary and charitable sectors, which will benefit clubs. The ASA runs workshops to update clubs on funding opportunities, and publishes a quarterly newsletter for clubs with details of potential avenues for club funding.

Television: Licensing

Jessica Morden: To ask the Secretary of State for Culture, Media and Sport what estimate his Department has made of the percentage of households which *(a)* have no television licence, *(b)* do not have a television and *(c)* have a television but are unlicensed. [178422]

James Purnell: This is a matter for the BBC. I have, therefore, asked the BBC's Head of Revenue Management to consider the question raised by my hon. Friend and to write to her direct. Copies of the reply will be placed in the Libraries of both Houses.

CHILDREN, SCHOOLS AND FAMILIES

Children in Care: Higher Education

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what research his Department has undertaken on levels of debt of looked-after children on graduation from university. [179570]

Kevin Brennan: During the consultation on our Green Paper "Care Matters: Transforming the Lives of Children and Young People in Care" children and young people told us that they faced financial barriers to entering higher education, including a belief that they will not be able to meet the additional costs. This is supported by research evidence from the Institute of Education and the Frank Buttle Trust which showed that young people who have been looked after typically have higher levels of debt on graduation than their peers and identified significant variations in the level of financial support offered by different local authorities.

The consultation confirmed the support for our proposal to introduce a £2,000 higher education bursary for care leavers to ensure that they get a minimum level of financial support. Eighty three per cent. of young people at the "Care Matters" consultation events thought the bursary was a good idea and 73 per cent. thought it would encourage more young people who were looked after to go on to higher education.

Departmental Coordination

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many people in his Department are responsible for liaising with the Department for Innovation, Universities and Skills. [178123]

Kevin Brennan: Following the Machinery of Government changes last year, three separate Departments were established with clear demarcation of responsibility. However, we have sought to maintain effective communication links across the three new Departments to minimise disruption to our customers. A range of officials in DCSF are in regular discussion with the Department for Innovation, Universities and Skills across a number of issues, covering both policy and the provision of corporate services. The issues being discussed and number of people involved varies.

Departmental Cost Effectiveness

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what efficiency savings his Department was required to make as part of its spending review 2004 (SR04) targets; what efficiency projects have been undertaken in the Department in pursuit of those targets; on what date each was initiated; and how much each was predicted to contribute to the SR04 target. [163193]

Kevin Brennan: The Department is jointly committed with the Department for Innovation, Universities and Skills (DIUS), to the efficiency target set originally for the Department for Education and Skills (DFES).

The DFES target is 2.5 per cent. a year over the spending review 2004 period. This means being able to demonstrate cumulative gains against our baseline of £1.45 billion in 2005-06, £2.9 billion in 2006-07 and £4.35 billion in 2007-08.

Details of the specific initiatives which contribute to our Gershon efficiency target are set out in our Efficiency Technical Note, which is available on the Department's website:

www.dcsf.gov.uk

Mr. Laws: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 19 July 2007, *Official Report*, column 531W, on Departments: cost effectiveness, what the target is for efficiency savings to be divided between the two newly created Departments. [163386]

Kevin Brennan: Machinery of Government changes within the Department have resulted in the Department for Education and Skills (DFES) target being split between the Department for Innovation, Universities and Skills (DIUS) and the Department for Children, Schools and Families (DCSF).

Treasury are keen that there is a shared responsibility for the overall target and that this is agreed formally. Both DCSF and DIUS permanent secretaries have set out their continued commitment to the overall target. However, it is important for governance and accountability purposes that each Department knows which initiatives within the programme it is responsible for. We have calculated an indicative split of the Gershon Targets and progress towards them is outlined in the autumn performance reports for each Department. The Department published its autumn performance reports in December 2007, which are available on our website:

www.dcsf.gov.uk

Departmental Ministerial Policy Advisers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether any of his Department's special advisers have declared a conflict of interest. [163194]

Kevin Brennan: Special advisers are appointed under the terms and conditions set out in the Model Contract for Special Advisers. Copies of the Model Contract are available in the Libraries of the House.

Oxford Cambridge and RSA Examinations

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what meetings he had with executives of the OCR exam board in each of the last three months; and what was discussed at such meetings. [178572]

Kevin Brennan: My right hon. Friend has not had any meetings with the executives of the OCR exam board in the last three months.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how frequently he meets executives of the OCR exam board. [178573]

Kevin Brennan: My right hon. Friend has not met the executives of the OCR exam board, and as of 14 January 2008 no meetings with the board are scheduled.

Private Sector

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what departmental investigations have taken place since 1 January 2007 into the management of his Department's contracts with private sector agencies; and if he will make a statement. [177830]

Kevin Brennan: The Department carries out a programme of regular risk based audit assessments across the range of its business. This includes reviews of the quality of contract management.

Investigations may be carried out into issues where there appears to be evidence of possible malpractice or impropriety. Since 1 January 2007, the Department has undertaken two formal investigations that have concerned or included consideration of issues relating to the management of contracts with private sector organisations.

Regulation

Mrs. May: To ask the Secretary of State for Children, Schools and Families for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175315]

Kevin Brennan: The following table sets out the annual budget for each of the financial years from 1998-99 to 2006-07 for each of the regulatory and inspectorate bodies that were the responsibility of the former Department for Education and Skills (2001-02 to 2006-07) and the former Department for Education and Employment (1998-99 to 2000-01). Final figures are not currently available for 2007-08 for the Department for Children, Schools and Families and information is not readily accessible prior to 1998-99.

The Department does not hold specific financial information in relation to the cost of any restructuring that these bodies may have undertaken. This information could be gathered from the bodies themselves only at disproportionate cost.

Annual budget provision for regulatory and inspectorate bodies of the former Department for Education and Skills and the former Department for Education and Employment since 1998-99

£000

Financial year	Adult Learning Inspectorate	Office for Fair Access	Office of the Children's Commissioner	General Teaching Council	Qualifications and Curriculum Authority
2006-07	27,100	500	3,000	449	150,900
2005-06	26,100	400	3,000	609	151,000
2004-05	30,712	500	—	3,007	155,014
2003-04	30,000	—	—	3,300	94,700
2002-03	25,400	—	—	3,500	69,900
2001-02	21,500	—	—	7,400	54,269
2000-01	—	—	—	—	61,326
1999-2000	—	—	—	—	58,292
1998-99	—	—	—	—	54,800

Note:
Adult Learning Inspectorate transferred to Ofsted from 1 April 2007.
Source:
Departmental resource accounts from 1998-99 to 2006-07.

Schools: Sports

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many school governing bodies and school sport associations work with competition managers. [179061]

Kevin Brennan: Competition managers work with schools, national governing bodies of sport and school sport associations within each county area to increase inter-school sport competition. The national school sport competition framework has been developed in partnership with some 20 national governing bodies of sport.

School sport partnerships now include all maintained schools in England. There are currently 90 competition managers in post, each working across two school sport partnerships. On average, there are 48 schools per partnership. This means that competition managers are currently working with around 7,200 primary schools and 1,440 secondary schools. The appointment of a total of 226 competition managers by January 2009 will ensure that all maintained schools in England will be included in this framework.

Special Educational Needs: Greater London

Mr. Hands: To ask the Secretary of State for Children, Schools and Families how many pupils have been statemented in schools in each London borough in each of the last five years. [179289]

Jim Knight: The information requested is given in the following table.

Maintained mainstream schools: number of pupils for whom statements were newly made, London local authorities, 2002-06, position in January each year

	2002	2003	2004	2005	2006
London[1]	4,840	4,930	4,520	4,040	3,840
Inner London[1]	1,790	1,860	1,710	1,460	1,450

TRANSPORT

A63

Mr. Goodwill: To ask the Secretary of State for Transport what plans she has to de-trunk the A63. [179697]

Mr. Tom Harris: The Highways Agency published Draft Statutory Orders to de-trunk the A63/A19 route, between the Boot and Shoe roundabout at Micklefield and Loftsome Bridge, on 28 June 2007. A number of objections have been received to the proposal from local councils, including North Yorkshire county council and Leeds city council. Objections have also been received from the hon. Member for Selby (Mr. Grogan) and some local residents. The Highways Agency aims to resolve the objections to enable de-trunking in 2008.

Aviation: Noise

Justine Greening: To ask the Secretary of State for Transport whether the Adding Capacity at Heathrow Airport public consultation has taken account of the Putting noise on the map airport noise maps information published on 18th December 2007 by the Department for the Environment, Food and Rural Affairs relating to Heathrow airport; and if she will make a statement. [176961]

Jim Fitzpatrick *[holding answer 7 January 2008]:* Paragraphs 51-54 of Annex E of the Adding Capacity at Heathrow Airport Consultation document drew attention to the requirements of the European Environmental Noise Directive (END) 2002/49 EC for major airports to produce strategic noise maps. Following preparations of the noise maps, airports will have to produce action plans setting out measures to mitigate aircraft noise.

However the consultation document noted that, given the difference in parameters, it was not possible to draw any meaningful conclusions between the END Lden maps and the annual summer Leq contours used by the Department. The environmental commitment given in the Future of Air Transport White Paper undertook not to increase the size of the area significantly affected by noise as measured by the annual departmental 57dBA Leq noise contour.

British Railways Board

Norman Baker: To ask the Secretary of State for Transport how many people are employed by the British Railways Board (Residuary); and what that body's budget was in 2006-07. [178138]

Mr. Tom Harris: Full details of BRB (Residuary) Ltd's budget and results for 2006-07 are available in the annual report and accounts for the company which can be found on their website at www.brbr.gov.uk

This shows that the company made a statutory profit before tax of £9.4 million in 2006-07 and employed 27 people on a full-time equivalent basis.

Commissioners of Irish Lights: Finance

Mr. Brazier: To ask the Secretary of State for Transport if she will publish the Review of Funding for the Commissioners of Irish Lights in hard copy and electronically. [179005]

Jim Fitzpatrick: I refer the hon. Member to my reply given on 14 January 2008, *Official Report*, column 843W. The report of the Irish Lights Study will be published in hard copy and in electronic format.

Mr. Brazier: To ask the Secretary of State for Transport how much the Republic of Ireland *(a)* have contributed to the funding of the Commissioners of Irish Lights in the last five years, *(b)* will contribute to the funding of the Commissioners of Irish Lights for 2007-08 and *(c)* is recommended to contribute towards the funding of the Commissioners of Irish Lights by the recent review of such funding. [179006]

Jim Fitzpatrick: The information requested is set out as follows.

	Irish Government supplement (€000)	*Light dues collected in ROI (€000)*	*Sundry income generated in the ROI (€000)*	*Total contributed by ROI to the GLF (€000)*	*Average exchange rate for year*	*Total contributed by ROI to the GLF (£000)*
2002-03	3,455	5,279	304	9,038	1.5661	5,771
2003-04	4,113	4,998	717	9,828	1.4382	6,833
2004-05	5,734	4,489	746	10,969	1.4701	7,462
2005-06	5,456	4,754	1,007	11,217	1.4660	7,652
2006-07	5,808	4,614	646	11,068	1.4728	7,515
2007-08 (estimated)	5,800	4,700	980	11,480	1.3900	8,259

Note:
The Irish Lights Evidence Study has not yet been completed. Following its completion there will be negotiations between the two Governments to determine appropriate contributions towards the funding of the Commissioners of Irish Lights.

Daedalus Airfield

Peter Viggers: To ask the Secretary of State for Transport what recent assessment she has made of the status of Daedalus airfield at Lee-on-Solent. [179830]

Jim Fitzpatrick: The Maritime and Coastguard Agency and its parent Department, the Department for Transport have now reviewed the status of Daedalus airfield and are of the view that it is not a Government aerodrome, within the meaning of the Air Navigation Order 2005. It is a civilian (unlicensed) aerodrome in the occupation of the Hampshire Police Authority (HPA).

The HPA occupies the site as lessee and under the terms of its lease is responsible for the operational management of the aerodrome, including matters of safety and airfield access.

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Transport what the cost was of redundancies in her Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175339]

Jim Fitzpatrick: The Department for Transport and its agencies had no compulsory or voluntary redundancies between 2004 and 2006, but made headcount reductions by undertaking voluntary staff exit schemes, including early retirements. The cost across the seven agencies and the central Department based on financial accounting years were:

	£ million
2003-04	1.7
2004-05	7.1
2005-06	10.4

The Department is only able to provide derails of the voluntary exit schemes in the time spans requested at disproportionate cost.

Electric Vehicles

Paul Rowen: To ask the Secretary of State for Transport what assessment her Department has made of the contribution to *(a)* carbon dioxide emissions and *(b)* congestion reduction targets of permitting the use of two-wheeled, self-balancing electric transportation devices on the public highway; what plans she has to bring forward measures to allow the use of such devices on such highways; and if she will meet representations of manufacturers of such devices to discuss their merits. [179961]

Jim Fitzpatrick: The Department for Transport has made no assessment of the contribution to carbon dioxide emission or congestion reduction targets of permitting the use of two-wheeled, self-balancing electric transportation devices. However, if, as I understand, their use is likely to be as an alternative to walking or cycling then their potential in terms of greenhouse gas and local pollution reduction would appear to be at best negligible.

There have been a number of meetings, demonstrations and exchanges of correspondence, both at ministerial and official level, with manufacturer representatives. There are currently no plans for further meetings.

Freight

Norman Baker: To ask the Secretary of State for Transport what percentage changes there were in the movement of freight within the United Kingdom by *(a)* road, *(b)* rail, *(c)* water and *(d)* pipeline in each year since 2001. [178145]

Jim Fitzpatrick: The available information on domestic freight by mode for Great Britain is published in Transport Statistics in Great Britain Table 4.1. The web link for this table is:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/freight/tsgbchapter4datatables.xls.

Table Domestic freight transport by mode

Billion tonne kilometres/percentage

	Goods moved							
	Road		*Rail*[1]		*Water*		*Pipeline*	
	Billion tonne kilometres	*Percentage inc*	*Billion tonne kilometres*	*Percentage inc*	*Billion tonne kilometres*	*Percentage inc*	*Billion tonne kilometres*	*Percentage inc*
2001	158.5		19.4		58.8		11.5	
2002	159.4	0.6	18.7	-3.6	67.0	13.9	10.9	-5.2
2003	161.7	1.4	18.9	1.1	61.0	-9	10.5	-3.7
2004	162.5	0.5	20.4	7.7	59.4	-2.6	10.7	1.9
2005	163.4	0.6	21.7	6.6	60.9	2.5	10.8	0.9
2006	166.9	2.2	22.1	1.9	51.8	-14.9	10.8	0

[1] Rail figures are for financial years.

Sources:
Road and Water, DFT; Rail, ORR; Pipeline, BERR.

Norman Baker: To ask the Secretary of State for Transport what the annual movement of freight by road, in billion tonne kilometres, was in each year since 1997. [178133]

Jim Fitzpatrick: Annual figures for the level of road freight activity by GB-registered goods vehicles in Great Britain (measured in billion tonne kilometres), excluding foreign vehicle activity, are shown in the following table.

	Goods moved (billion tonne kilometres)
1997	157
1998	160
1999	158
2000	159
2001	159
2002	159
2003	162
2004	163
2005	163
2006	167

Source:
Table 4.1, Transport Statistics Great Britain 2007.

Heathrow Airport

Mr. Hands: To ask the Secretary of State for Transport (1) whether Heathrow Airport has exceeded the number of flights operating during the night quota period in each season since winter 2006-07; [179291]

(2) whether Heathrow Airport has exceeded the quota count points system for noise levels during the night quota period in each season since winter 2006-07. [179292]

Jim Fitzpatrick: Heathrow airport has operated consistently within the Government's night flight regime requirements. This regime specifies seasonal maxima covering both aircraft movements and noise quota amounts. The maxima for the seasons from winter 2006-07 to date are as follows:

	Winter 2006-07	*Summer 2007*	*Winter 2007-08*
Movements	2,550	3,250	2,550
Quota	4,140	5,610	4,140

The night restrictions regime has recognised for a number of years that there will be occasions when the airport can be affected by extraordinary circumstances which cannot be anticipated (for example aircraft delays caused by security, severe weather or ATC situations). Accordingly, in such circumstances, there is provision under the regime that flights may be dispensed i.e. will not count against the limits.

Justine Greening: To ask the Secretary of State for Transport which individuals and organisations have been sent a copy of the Adding Capacity at Heathrow Airport consultation document; and if she will make a statement. [179450]

Jim Fitzpatrick *[holding answer 16 January 2008]:* On the launch of the 'Adding Capacity at Heathrow Airport' consultation we sent out 766 consultation documents to a wide range of organisations, as set out in Annex G of the consultation document. The full list of these organisations has been placed in the House of Commons Library.

We also sent out over 217,000 Summary Documents to residents around the airport, which recommends that they request the full Consultation Document to inform their response. To date we have sent over 900

copies of the consultation document to a range of different organisations, interests and members of the public who have requested a copy. Our obligations under data protection legislation prevent us from releasing the names of individuals concerned. The consultation document is available at the consultation exhibitions which we are running in the communities around the airport. To date, 470 copies of the Consultation Document have been given out at the exhibitions. Seven of these exhibitions had taken place by 15 January, with five remaining.

Heathrow Airport: Pollution

Justine Greening: To ask the Secretary of State for Transport what estimate her Department has made of nitrogen dioxide emissions at Heathrow airport in the latest period for which figures are available; and if she will make a statement. [179437]

Jim Fitzpatrick *[holding answer 16 January 2008]:* I refer the hon. Member to the written answer I gave on 7 January 2008, *Official Report*, column 4W, to my hon. Friend the Member for Henley (Mr. Johnson)

Heathrow Airport: Sustainable Development

Justine Greening: To ask the Secretary of State for Transport what assessment was made as part of the Project for the Sustainable Development of Heathrow of the carbon dioxide emissions in relation to option *(a)* 1, *(b)* 2 and *(c)* 3 from the additional passenger traffic travelling to and from Heathrow under each option; and if she will make a statement. [179963]

Jim Fitzpatrick: The carbon dioxide emissions from additional passengers travelling by air under options one, two, and three in the "Adding Capacity at Heathrow Airport" consultation are set out in annex B of the consultation document, available at:

http://www.dft.gov.uk/consultations/open/heathrowconsultation/consultationdocument/

Carbon dioxide emissions from additional surface access trips to Heathrow would depend on the detail of the surface access strategy accompanying any extra capacity. This would need to be developed by the airport operator as part of a comprehensive transport assessment prior to a planning application.

Network Rail: Private Roads

Mrs. Spelman: To ask the Secretary of State for Transport how many unadopted roads in the UK Network Rail owns. [179709]

Mr. Tom Harris: This is an operational matter for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question.

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Parking

Mr. Goodwill: To ask the Secretary of State for Transport what obligations are placed on local parking enforcement authorities to make refunds when an adjudicator has ruled a particular parking zone or bay illegal or not fully in compliance with legislation. [179698]

Ms Rosie Winterton: An adjudicator who allows an appeal against a penalty charge may direct an authority to refund any money already paid in respect of the penalty charge, sale, or release of the vehicle. The authority must comply with such a direction without delay. Adjudicators can only make such directions in relation to individual appeal cases.

Railways

Norman Baker: To ask the Secretary of State for Transport what recent assessment she has made of the profit margins achieved by rolling stock companies and the contingent effect upon the rail network. [179138]

Mr. Tom Harris *[holding answer 15 January 2008]:* This is a matter which is being considered as part of the Competition Commission's investigation into the leasing of rolling stock to passenger rail operators.

Railways: Essex

Mr. Jenkin: To ask the Secretary of State for Transport what the reasons were for the overrunning of engineering works affecting train services between Liverpool Street and Essex over the Christmas and New Year period; and if she will make a statement. [179569]

Mr. Tom Harris: The independent Office of Rail Regulation (ORR) has launched an investigation into Network Rail's management of engineering projects including the causes of the major engineering over-run at Liverpool Street over Christmas and the new year. The ORR expects to publish its findings by 29 February 2008. We will not seek to pre-empt the ORR's investigation by speculating on causes before its report is issued.

Mr. Burns: To ask the Secretary of State for Transport (1) what the reasons are for the disruption of the Liverpool Street to Chelmsford rail line experienced since 31 December 2007; what steps are being taken to improve the quality of service for commuters on that line; and if she will make a statement; [179431]

(2) for what reasons Liverpool Street Station was not fully operational for commuters on 1 January 2008; and if she will make a statement. [179432]

Mr. Tom Harris *[holding answer 16 January 2008]:* The independent Office of Rail Regulation (ORR) has launched an investigation into Network Rail's management of engineering projects including the causes of the major engineering over-runs at Liverpool Street over Christmas and the new year. The ORR expects to publish its findings by 29 February 2008. We will not seek to pre-empt the ORR's investigation by speculating on causes before its report is issued.

Railways: Finance

Mr. Hancock: To ask the Secretary of State for Transport if she will estimate the costs of running a Sunday rail service (a) overall and (b) for each train operating company (i) on Christmas day and (ii) on Boxing day. [177134]

Mr. Tom Harris: We have no plans to do so. Whether or not to run services on Christmas day and Boxing day is primarily a matter for the commercial judgment of Network Rail and train operators who are best placed to assess the potential costs and revenue. This has, though, to be balanced against the need to carry out major infrastructure upgrades at times when trains are not running.

Railways: Overcrowding

Mr. Hancock: To ask the Secretary of State for Transport what estimate she has made of levels of overcrowding (a) at peak times, (b) at off-peak times and (c) on Saturdays at each station on the Portsmouth to Cardiff via Salisbury rail route in the latest period for which figures are available; and if she will make a statement. [179505]

Mr. Tom Harris: The Department for Transport has made no estimate of the levels of crowding at each station on the Portsmouth to Cardiff rail route.

Railways: Tamworth

Mr. Jenkins: To ask the Secretary of State for Transport what the reasons are for the time taken to complete the works on Upper Gungate Bridge in Tamworth constituency by Network Rail. [179768]

Mr. Tom Harris: This is an operational matter for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question:

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Tyres: Safety

Mr. Goodwill: To ask the Secretary of State for Transport what steps she is considering to raise the awareness of driving with under-inflated tyres; and what data she has on numbers of vehicles on the road with under-inflated tyres. [179696]

Jim Fitzpatrick: The Department for Transport launched the ACT ON CO_2 communications campaign in March 2007. One element of the campaign is to provide drivers with tips for more fuel efficient 'smarter' driving techniques to help reduce CO_2 emissions. This includes ensuring that tyres are maintained at the correct pressure.

The Department has used a variety of media to raise awareness of the campaign, including television, radio, online and print media, directing people to the ACT ON CO_2 website for more detailed advice.

In October 2007 the Department for Transport endorsed TyreSafe's 'Tyre safety month' to raise awareness of the issue.

The Department does not collect data on the numbers of vehicles on the road with under-inflated tyres, however a survey in 2007 carried out by Michelin found that 80 per cent. of cars were running with incorrect tyre pressures. Further research conducted by TNO for the Dutch Ministry of Environment showed that 50 per cent. of cars were running on under-inflated tyres.

WORK AND PENSIONS

Accidents: Farms

Miss McIntosh: To ask the Secretary of State for Work and Pensions how many farm accidents there were in the last 12 months for which figures are available. [176848]

Mrs. McGuire: A total of 1,315 accidents were reported to the Health and Safety Executive (HSE) under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR) in 2006-07 by duty holders in the agriculture and hunting industry, including farms. This also includes accidents to workers, the self-employed and members of the public from work activities in the agriculture and hunting sectors.

The total includes fatal and 'major injuries' and 'over three day injury' accidents as defined in RIDDOR. In simple terms, a major injury is defined as an amputation, fracture (not in fingers/toes), certain dislocations, and injury requiring immediate medical treatment or a stay in hospital for over 24 hours. An over three day injury is one where the injured person was required to be absent from normal (work) duties for more than three whole days (including week ends). It also includes accidents to workers, the self-employed and members of the public from work activities in the agriculture and hunting sectors.

2006-07 is the most recent full year for which data are available. However, because of late reporting to HSE, the data are provisional and will be finalised next year in 2008.

Health and Safety Executive: Bureaucracy

Gordon Banks: To ask the Secretary of State for Work and Pensions what steps his Department is taking to ensure that the Health and Safety Executive minimises administrative burdens to business in carrying out its functions. [176988]

Mrs. McGuire: The Health and Safety Executive has, alongside other Departments and regulators, outlined its commitment to reducing administrative burdens by 25 per cent. through the publication of its second simplification plan in November 2007, accessed at:

http://www.hse.gov.uk/simplification/index.htm.

To date, HSE's plan identifies projects that are designed to do so by 22 per cent. by 2010.

Industrial Health and Safety: Local Authorities

Mr. Pickles: To ask the Secretary of State for Work and Pensions what guidance the Health and Safety Executive has given to local authorities on (*a*) outdoor Christmas lights, (*b*) outdoor lighting in general and (*c*) working at heights. [176246]

Mrs. McGuire: The Health and Safety Executive (HSE) has not provided any specific guidance to local authorities on (*a*) outdoor Christmas lights or on (*b*) outdoor lighting in general.

HSE has provided good straight forward guidance to local authorities on (*c*) working at heights. An operational circular (No 200/31) for HSE and local authorities on the interpretation and enforcement of the work at height regulations 2005 was published along with an inspection pack for enforcing authorities. These can be accessed through HSE's website www.hse.gov.uk together with other guidance on work at height.

Jobcentre Plus: Administration

Danny Alexander: To ask the Secretary of State for Work and Pensions how much has been spent on average per year on the administration of Jobcentre Plus in the last five years, and what proportion of this has been spent on the delivery of frontline services. [172629]

Mr. Plaskitt: The administration of Jobcentre Plus is a matter for the chief executive, Lesley Strathie. I have asked her to reply to the hon. Member.

Letter from Mel Groves, dated 17 January 2008:

The Secretary of State has asked the Chief Executive to reply to your question concerning how much has been spent on average per year on the administration of Jobcentre Plus in the last five years and what proportion of this has been spent on the delivery of frontline services. This is something which falls within the responsibilities delegated to Ms Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

The information available is set out in the table below. This contains details of the administration expenditure in Jobcentre Plus over the past four years since 2003/4. Not all costs can be accurately split between customer facing and non customer facing activities. However, the proportion of staff deployed on customer facing activities provides a good approximation of the proportion of costs spent on customer facing activities. This is because most costs are either staff or staff related.

	Net administration costs (£ million)	*Proportion staff deployed on front line activities*
2003-04	3,042	71
2004-05	3,244	73
2005-06	3,463	84
2006-07	3,542	89

Notes:

1. The administration cost totals for each year relevant annual report and accounts. The last report being 2006-07.
2. The proportion of staff deployed on front line services is extracted from our activity based management system. Information is only available for 2003-04 onwards.

I hope this is helpful.

Morgan Allan Moore

Mr. Hoban: To ask the Secretary of State for Work and Pensions what meetings (*a*) he and (*b*) officials in his Department have had with representatives of the company Morgan Allan Moore in the last 12 months. [179595]

Mr. Hain: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

Pension Credit

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of households in which at least one person will receive (*a*) pension credit and (*b*) the minimum income guarantee credit in 2008. [174804]

Mr. Mike O'Brien: Current forecasts for 2008-09 show 2.72 million households in receipt of pension credit, of which 2.04 million are estimated to be in receipt of the pension credit guarantee credit.

Notes:

1. Forecasts are rounded to the nearest 10,000 and are annual average case loads consistent with forecasts published at the 2007 pre-Budget report and comprehensive spending review. Benefit expenditure and caseload tables are available at www.dwp.gov.uk/asd/asd4/expenditure.asp
2. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.
3. The number of households in receipt of guarantee credit includes those in receipt of guarantee credit only and those in receipt of both guarantee credit and savings credit.

Source:

DWP Forecasts

Danny Alexander: To ask the Secretary of State for Work and Pensions how many households in each region have had at least one person in receipt of (*a*) pensioner credit and (*b*) the minimum income guarantee credit in each year since their introduction. [174884]

Mr. Mike O'Brien: The answer is in the following table.

Households in receipt of pension credit and the pension credit guarantee credit 2003-07

	November 2003		*May 2004*		*May 2005*		*May 2006*		*May 2007*	
	Pension credit	*Guarantee credit*	*Pension credit*	*Guarantee credit*	*Pension credit*	*Guarantee credit*	*Pension credit*	*Guarantee credit*	*Pension credit*	*Guarantee credit*
All	2,084,700	1,842,690	2,490,760	2,004,780	2,682,730	2,088,990	2,717,380	2,118,830	2,733,500	2,135,850
North East	124,280	106,690	147,570	114,570	156,680	117,740	157,430	118,870	157,440	119,250

Households in receipt of pension credit and the pension credit guarantee credit 2003-07

	November 2003		May 2004		May 2005		May 2006		May 2007	
	Pension credit	*Guarantee credit*	*Pension credit*	*Guarantee credit*	*Pension credit*	*Guarantee credit*	*Pension credit*	*Guarantee credit*	*Pension credit*	*Guarantee credit*
North West	285,980	252,980	332,590	271,230	354,960	280,740	357,560	283,640	356,140	285,530
Yorkshire and the Humber	200,810	175,270	241,840	189,990	258,880	195,910	261,650	197,750	262,390	198,420
East Midlands	144,690	126,030	178,600	139,330	193,290	145,490	195,990	148,020	196,580	148,540
West Midlands	216,810	193,350	256,910	208,710	276,840	216,420	279,420	218,570	280,340	219,360
East of England	159,940	141,240	202,300	158,220	220,610	166,890	224,190	169,950	227,080	172,260
London	233,480	218,160	264,860	232,370	285,420	243,410	290,220	247,690	292,420	250,490
South East	205,480	179,090	254,320	199,340	276,770	209,530	282,030	213,660	285,280	217,100
South West	171,570	147,080	205,590	161,720	221,070	169,140	224,820	172,320	225,770	173,520
Wales	121,890	108,170	145,900	119,260	158,370	125,680	161,330	128,360	162,720	129,950
Scotland	219,650	194,440	259,980	209,780	279,370	217,660	282,420	219,720	283,530	220,680
Unknown	190	180	280	240	460	360	330	280	810	740

Notes

1. The number of households in receipt are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Pension credit was introduced in October 2003 so data for 2003 are as at November.
4. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.
5. The number of households in receipt of guarantee credit includes those in receipt of guarantee credit only and those in receipt of both guarantee credit and savings credit.
6. Time series data include minimum income guarantee (MIG) cases; households on income support where the claimant and/or partner are aged 60 or over. About 1.8 million MIG cases transferred to pension credit on 6 October 2003.

DWP Work and Pensions Longitudinal Study 100 per cent. data.

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many (*a*) single pensioners and (*b*) pensioner couples received (i) pension credit and (ii) income support in England in each year since 1997. [175071]

Mr. Mike O'Brien: The answer is in the following tables.

Pensioners in receipt of pension credit 2003-07

	Single pensioners in receipt of pension credit	*Pensioner couples in receipt of pension credit*
November 2003	1,398,000	345,000
May 2004	1,639,000	446,000
May 2005	1,756,000	488,000
May 2006	1,771,000	503,000
May 2007	1,779,000	507,000

Notes:

1. Figures are rounded to the nearest thousand.
2. Totals may not sum due to rounding.
3. Pension credit was introduced in October 2003 so data for 2003 are as at November.

Work and Pensions Longitudinal Study 100 per cent data. DWP Information Directorate

Pensioners in receipt of income support/minimum income guarantee 1997-2003

As at May	*Single pensioners in receipt of income support/minimum income guarantee*	*Pensioner couples in receipt of income support/minimum income guarantee*
1997	1,202,000	224,000
1998	1,161,000	212,000
1999	1,137,000	206,000
2000	1,135,000	214,000
2001	1,205,000	233,000
2002	1,215,000	242,000
2003	1,229,000	259,000

Notes

1. Figures are rounded to the nearest thousand.
2. Totals may not sum due to rounding.
3. Pensioners are defined as benefit units where either the claimant and/or partner are aged 60 or over.
4. From April 1999 income support for pensioners became the minimum income guarantee.
5. Figures from 1997 to 1999 are taken from a five per cent. sample are subject to a degree of sampling variation. They are also adjusted to be consistent with the overall caseload from the Work and Pensions Longitudinal Study.

Pensioners

Kelvin Hopkins: To ask the Secretary of State for Work and Pensions what the net cost would be of increasing the basic state pension for all pensioners to £119.05 a week in 2008-09. [172160]

Mr. Mike O'Brien: The estimated net cost is approximately £21 billion in 2008-09 which takes savings from income-related benefits into account.

Notes:

1. 'All pensioners' is defined as all individuals over state pension age living in the United Kingdom. The estimate does not include pensioners claiming a UK pension, but living overseas. Including this group would increase the estimated costs.

2. Savings from income related benefits have been estimated using the Department's Policy Simulation Model.

3. The estimate is consistent with mid-2004 GAD population projections.

4. The estimate is in 2007-08 prices and has been rounded to the nearest £ billion.

Kelvin Hopkins: To ask the Secretary of State for Work and Pensions what the net cost would be of increasing the basic state pension for all existing pensioners to 60 per cent. of median population income in 2008-09. [172161]

Mr. Mike O'Brien: The estimated net cost is approximately £22 billion in 2008-09 which takes savings from income-related benefits into account.

Notes:

1. 60 per cent. of median population income for a single person with no children after deducting housing costs was £108 per week in 2005-06 (Households Below Average Income, DWP). This figure has been uprated by average earnings to £121.60 per week in 2008-09.

2. 'All pensioners' is defined as all individuals over state pension age living in the United Kingdom. The estimate does not include pensioners claiming a UK pension, but living overseas. Including this group would increase the estimated costs.

3. Savings from income related benefits have been estimated using the Department's Policy Simulation Model.

4. The estimate is consistent with mid-2004 GAD population projections.

5. The estimate is in 2007-08 prices and has been rounded to the nearest £ billion.

Pensions

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people made contributions into a group personal pension scheme in 2005-06. [175052]

Mr. Mike O'Brien: The information is not available in the format requested. Such information as is available is presented as follows:

Employer sponsored group personal pensions

	Thousand
	Number of members
Personal pensions	1,890
Stakeholder pensions	870

Notes:

1. The information shows the number of Personal and Stakeholder pension scheme members. They are derived from monthly and annual statistical returns submitted to HMRC by pension providers alongside claims for the repayment of basic rate income tax on contributions. Due to lags in providers submitting monthly returns the number and amounts shown in the tables will tend to underestimate the number of members during the year.

2. The number of members relates to members of each reporting provider and should not be taken as numbers of individuals, since individuals can have more than one pension provider.

3. Employer sponsored schemes include group personal pensions, group stakeholder pensions and all contracts set up under a trust by an employer.

Source:

As reported to HMRC by providers between 6 April 2005 to 5 April 2006

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people aged *(a)* 18 to 25, *(b)* 25 to 45 and *(c)* 45 to 65 years are contracted out of the state second pension; and what proportion of the working population in each age group these figures represent. [175063]

Mr. Mike O'Brien: The latest available information is in the following table:

Age-group	*Number of people contracted out (Thousand)*	*Percentage of corresponding workforce*
18-25	633	17
26-45	6,779	49
46-64	3,743	43

Notes:

(a) Contracting-out figures are based on a one per cent. sample of LLMD 2 and are shown to the nearest thousand.

(b) Workforce figures on which the percentages are based are from the Office for National Statistics mid-2003 population estimates.

(c) The "46-64 age group" excludes women aged between 60 and 64 as people cannot contract out beyond state pension age (currently 60 for women and 65 for men).

(d) The age-groups set out in the answer differ slightly from those set out in the question to avoid overlapping and to take account of the fact that men cannot contract out beyond state pension age.

Source:

Lifetime Labour Market Database (LLMD) 2, 2003-04

Paul Rowen: To ask the Secretary of State for Work and Pensions how many pensioners have had their pension payment date *(a)* advanced to 21 December 2007 and *(b)* set to be paid on 24 December 2007. [175078]

Mr. Mike O'Brien: The information requested is not available in the format requested. Such information as is available is as follows.

Approximately 5.4 million customers had their payments advanced to 21 December 2007. This figure includes customers in receipt of state pension as well as those people of working age who receive widows benefit and bereavement benefit.

Approximately 3.6 million customers received their payments on 24 December 2007. This figure includes pension credit, state pension and income support customers.

Pensions: Carers

Mr. Waterson: To ask the Secretary of State for Work and Pensions how many people in *(a)* Eastbourne constituency, *(b)* England and *(c)* the UK receive the carer's credit for the state second pension; and what percentage of the population in each area each figure represents. [175073]

Mr. Mike O'Brien: The new carer's credit, replacing home responsibilities protection (HRP), will apply to those reaching state pension age from 6 April 2010. It will allow, in certain circumstances, a parent, a registered foster parent or a carer to build up entitlement to basic state pension and state second pension.

It is estimated that the more generous crediting arrangements will mean up to one million more people (around 90 per cent. of whom are women) will be accruing state second pension.

Currently HRP provides entitlement to state second pension as well as reducing the number of qualifying years needed for a full basic state pension. HRP is awarded to people who receive child benefit for a child under six years old, carers who receive carer's allowance, and certain other carers.

The latest figures available (2003-04) show that in that year just under 1.9 million people in the UK qualified for state second pension because they had

caring responsibilities. This represented just over four per cent. of the UK working age population at that time. Figures for England and at a constituency level are not available.

FOREIGN AND COMMONWEALTH OFFICE

Damascus: Entry Clearances

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the restricted visa service at the British embassy in Damascus. [179385]

Dr. Howells: A restricted visa service has been in operation at our embassy in Damascus since 2 May 2007 for security reasons. Arrangements are therefore in place for Syrian nationals and others resident in Syria to apply at our embassies in Amman or Beirut. It will not be possible for a full service to be resumed until the embassy has relocated to a new building. This is likely to take at least two years. Any inconvenience caused is regretted.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs when the British embassy in Damascus will resume a full visa service; and if he will make a statement. [179387]

Dr. Howells: A restricted visa service has been in operation at our embassy in Damascus since 2 May 2007 for security reasons. Arrangements are therefore in place for Syrian nationals and others resident in Syria to apply at our embassies in Amman or Beirut. It will not be possible for a full service to be resumed until the embassy has relocated to a new building. This is likely to take at least two years. Any inconvenience caused is regretted.

Democratic Republic of Congo: Armed Conflict

Lyn Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of clashes between security forces and the Bundu dia Kongo religious sect in the west of the Democratic Republic of Congo; what assessment he has made of the implications of such events for the political situation in that country; and if he will make a statement. [179486]

Meg Munn: On 5 January 2008 the Bundu dia Kongo (BdK) announced that it wished to replace the elected political leader of Seke Banza territory in western Democratic Republic of the Congo (DRC) with one of its members. The police arrested three members of BdK in the territory on the same day. Unrest followed as a group of about three hundred BdK members, some armed with stones and sharpened sticks, confronted the police in the town of Seke Banza. During this incident the BdK attacked the vehicle of a police commander. As the vehicle left the area it ran over and killed four members of the BdK. A police officer was killed during the violence and twenty-two other people were injured and treated in hospital. The area has been calm since 5 January.

The Government are concerned by these events. The UK supports the effective function of legitimately-elected political leaders in DRC. As the anniversary of the violent clashes in 2007 between DRC security forces and the BdK in the same region approaches, it is hoped that further violence can be avoided through a professional and well-planned response.

Derek Pasquill

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs who in his Department took the decision to refer the matter of Mr Derek Pasquill to the Crown Prosecution Service. [179693]

Meg Munn: The Metropolitan police took the decision to refer the matter to the Crown Prosecution Service.

Entry Clearances: Internet

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what procedures are in place to allow individuals to apply for visas online. [179386]

Dr. Howells: Individuals can apply for visas online through the following website:

www.visa4uk.fco.gov.uk.

This is currently available to applicants in 111 countries and is due to be available globally by April 2008.

Middle East: Armed Conflict

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken since August 2006 to secure the release of the Israeli soldiers kidnapped by Hamas and Hezbollah in June and July 2006. [179110]

Dr. Howells: The UK remains concerned about the welfare of Gilad Shalit, captured by militants in Gaza, and Ehud Goldwasser and Eldad Regev captured by Hezbollah in northern Israel in 2006.

The UK and the international community continue to work for the release of these soldiers as a high priority. Egypt has led international efforts to secure the release of Corporal Shalit. We have remained in close contact with the Egyptian authorities, as well as the Israeli government and Palestinian Authority, and continue to offer our support.

We believe that the most effective way to achieve the release of Ehud Goldwasser and Eldad Regev is to support efforts by the UN to mediate between the parties as part of the implementation of UN Security Council Resolution 1701. The UN Secretary-General has appointed a special facilitator to try and obtain the release of Eldad Regev and Ehud Goldwasser. I was encouraged by an exchange of prisoners between Israel and Hezbollah in October 2007 and hope that this will lead to more progress in the negotiations for the release of these soldiers. We will continue to support the UN's efforts. We will also raise the fate of all of these servicemen with those who might have information about their whereabouts whenever an opportunity arises.

In November 2007 I met the wife and father of Ehud Goldwasser and expressed sympathy for their situation. Shortly before the first anniversary of their capture, I reiterated our call for the release of Gilad Shalit, Eldad Regev and Ehud Goldwasser in a debate in the House on 27 June 2007, *Official Report*, columns 87-92WH. In addition, I made a public statement calling for their release.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to Syria on using its influence to try to secure the release of the Israeli soldiers kidnapped by Hamas and Hezbollah in June and July 2006. [179111]

Dr. Howells: The UK remains concerned about the welfare of Gilad Shalit, captured by militants in Gaza and Ehud Goldwasser and Eldad Regev captured by Hezbollah in northern Israel in 2006. In July 2006, following the kidnap of Goldwasser and Regev, the Syrian ambassador was called to the Foreign and Commonwealth Office and Syria was urged to use its influence to secure the release of these soldiers. During meetings between Syrian and UK Ministers since then we have consistently called on Syria to play a helpful role in Lebanon and the middle east more broadly. This includes supporting full implementation of UN Security Council Resolution 1701, which calls for the release of the captured soldiers. We also continue to support the efforts of the government of Israel, Egypt and others to negotiate the release of Gilad Shalit.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to Iran on using its influence to try to secure the release of the Israeli soldiers kidnapped by Hamas and Hezbollah in June and July 2006. [179112]

Dr. Howells: The UK remains concerned about the welfare of Gilad Shalit, captured by militants in Gaza and Ehud Goldwasser and Eldad Regev captured by Hezbollah in northern Israel in 2006. While the UK has not made any specific representations to the Iranian Government on this issue, we continue to encourage the Iranian Government to play a more helpful role in the region. We believe that most effective way to achieve the release of the soldiers captured by Hezbollah is to support efforts by the UN to mediate between the parties, as part of the implementation of UN Security Council Resolution 1701. We also continue to support the efforts of the Government of Israel, Egypt and others to negotiate the release of Gilad Shalit.

Sri Lanka: Human Rights

Lyn Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effect on the observance of human rights in Sri Lanka of the end of the Sri Lankan Monitoring Mission; and if he will make a statement. [179489]

Dr. Howells: We regret and are very concerned at the departure from the country of the Sri Lanka Monitoring Mission, following the abrogation of the 2002 Cease-Fire Agreement by the Sri Lankan Government. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, paid tribute to their effort in his statement of 4 January, available on the Foreign and Commonwealth Office website at:

http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Patge&cid=1007029391629&a=KArticle&aid=1199197354598%20&year=2008&month=2008-01-01&date=2008-01-04

The departure of the Sri Lanka Monitoring Mission can only add to the case for an expanded presence and mandate in Sri Lanka for the Office of the UN High Commissioner for Human Rights.

Sri Lanka: Peace Negotiations

Lyn Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with the *(a)* Sri Lankan Government and *(b)* Norwegian Government on the status of the ceasefire agreement in Sri Lanka. [179485]

Dr. Howells: On 4 January, my noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, issued a statement on the abrogation of the 2002 Cease-Fire Agreement by the Sri Lankan Government. We continue to reiterate to the Sri Lankan Government their responsibility for addressing Tamil grievances and for setting out a viable framework for a just political solution. My noble Friend also paid tribute to the unstinting work of the Norwegians, whom we continue to consult given their wide experience over five years as facilitators of the peace process.

The full text of my noble Friend's statement is available on the Foreign and Commonwealth Office website at:

http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1007029391629&a=KArticle&aid=1199197354598%20&year=2008&month=2008-01-01&date=2008-01-04.

Syria: Lebanon

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports the Government have received of the *(a)* scale and *(b)* circumstances of the smuggling of weapons from Syria into Southern Lebanon. [179109]

Dr. Howells: In his most recent report on the implementation of UN Security Council Resolution (UNSCR) 1701 in October 2007, the UN Secretary-General reported that arms smuggling across the Syria/Lebanon border was continuing. In particular, the Secretary-General highlighted claims by the Government of Israel that the smuggling of weapons continues from both Iran and from Syria. Israel now claims that Hezbollah has been able to rearm itself to higher levels than before the 2006 conflict and that it now possesses longer-range rockets and new air defence units. Statements by Hezbollah since the conflict appear to confirm Israel's claims that Hezbollah has significantly rearmed. The UK remains seriously concerned by these reports and calls on all countries in the region, including Syria and Iran, to abide by their obligations under UNSCR 1701.

The UK is also taking practical steps to assist the Government of Lebanon to improve border security. The UK is also providing £800,000 worth of training and equipment to a German-led initiative to improve Lebanese border security capacity.

TREASURY

Child Benefit: Personal Records

Mr. Hoban: To ask the Chancellor of the Exchequer what estimate he has made of the total cost of searches conducted at HM Revenue and Customs premises to trace the lost compact discs containing child benefit data. [173352]

Jane Kennedy: The location of the missing data discs is the subject of an ongoing police investigation and no estimate of the total costs has yet been made.

Child Benefit: Poland

Lynne Jones: To ask the Chancellor of the Exchequer what discussions he has had with his counterpart in Poland on the adequacy of the number of staff in place in Poland to check the validity of applications for child benefit made in the UK by Polish migrant workers. [179186]

Jane Kennedy: HMRC works closely with all its European partners, including Poland, to ensure that the well established processes required under the EC social security co-ordination rules, for exchanging information and verification of circumstances, work well.

Departmental Data Protection

Mr. Wallace: To ask the Chancellor of the Exchequer which Minister in his Department reviewed the formal document submitted by his Departmental Security/IT Officer following the last risk assessment and risk management process for the information security in his Department. [179114]

Angela Eagle: The risk assessment and risk management processes for information security are kept under constant review by the Treasury, reporting to the permanent secretary.

Disabled: Children

Kerry McCarthy: To ask the Chancellor of the Exchequer what steps he is taking to help ensure the affordability of childcare for families with disabled children through the tax credits system in parallel with the childcare accessibility pilots announced in 'Aiming high for disabled children: better support for families'. [178442]

Jane Kennedy: 'Aiming high for disabled children: better support for families' committed Government to a £35 million childcare accessibility project over the 2007 comprehensive spending review period, to help test the best ways of meeting provision for families with disabled children.

HMRC's published statistics for provisional awards show that, as at December 2007, there were 118,000 families with disabled children benefiting from the disabled element of child tax credits, and of these, 49,700 families also benefited from the severely disabled element. This means that a family on maximum award with a disabled child would be entitled to an extra £2,440 per year (plus an additional £980 per year if entitled to the severely disabled child addition).

In addition to this, families eligible for the childcare element of working tax credits can receive up to 80 per cent. of the costs of childcare to a limit of £175 per week for one child or £300 per week for two or more children. This is available to families with disabled or non-disabled children.

Foreign Workers: EU Nationals

Mr. Clappison: To ask the Chancellor of the Exchequer pursuant to the answer of 19 November 2007, *Official Report*, columns 583-4W, on foreign workers: EU nationals, what was *(a)* the number of people of working age in employment, *(b)* the working age population and *(c)* the working age population employment rate of (i) the UK, (ii) UK citizens, (iii) UK born citizens, (iv) non-UK citizens and (v) EU A8 citizens was in each year since 2001. [169408]

Angela Eagle *[holding answer 29 November 2007]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question about (a) the number of people of working age in employment, (b) the working age population and (c) the working age population employment rate of (i) the UK, (ii) UK citizens, (iii) UK born citizens, (iv) non-UK citizens and (v) EU A8 citizens in each year since 2001, (169408)

The attached table gives the working age population, employment level and rate, for the categories requested for the three month period ending June each year, from 2001 to 2007.

The data for analysing migrant workers comes from the Labour Force Survey. The National Statistics method for estimating the number of migrant workers employed in the UK is routinely based on the number of people at a given time who were born abroad, are of working age (16 - 64 for men, 16-59 for women), and in employment. However, you have requested data analysed by nationality and this is the basis on which this PQ has been answered.

When interpreting the figures in the table, it is important to bear in mind that the Labour Force Survey (LFS) is not designed to cover everyone who is present in the UK. The survey may undercount the numbers of people who were born overseas. The reasons are set out in the table footnote.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Working age[1] population, in employment and in employment rate[2] by nationality[3] United Kingdom, not seasonally adjusted, April to June 2001 to 2007

thousand—except where indicated

	A	*B*	*C*	*D*	*E*
	Total UK[4]	*UK nationals*	*UK-born UK nationals*	*Non-UK nationals*	*EU A8 nationals*
2001

2007					
Population	36,708	33,713	31,8[illegible]	2,972	501
In employment	27,226	25,205	23,916	2,014	410
Employment rate (percentage)	74	75	75	68	82

[1] Men aged 16 to 64 and women aged 16 to 59.
[2] Number of people in employment of working age as a percentage of all persons of working age.
[3] Including country of birth for UK-born UK nationals.
[4] Column A equals column B plus column D plus those who did not state their nationality.

Note:
It should be noted that the above estimates:
exclude certain people who have been resident in the UK for less than six months;
exclude students in halls of residence who do not have a UK resident parent;
exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc.);
are grossed to population estimates that only include migrants staying 12 months or more;
are grossed to population estimates consistent with those published in spring 2003 which are significantly lower than the latest population estimates as used in the Labour Market Statistics monthly First Release.

Source:
ONS Labour Force Survey (LFS)

Fuels: Prices

Mr. McGovern: To ask the Chancellor of the Exchequer if he will make an assessment of the merits of linking changes in the winter fuel allowance to changes in fuel prices. [179828]

Angela Eagle: The Government keep all tax rates and benefit payments under review as part of the Budget process. However, the pre-Budget report 2005 announced that winter fuel payments will be paid at their current levels for the rest of this Parliament.

Government Departments: Annual Reports

Dr. Tony Wright: To ask the Chancellor of the Exchequer if he will place in the Library the guidance provided by HM Treasury to Departments on what should be included in their 2007 autumn performance reports. [179152]

Andy Burnham: A copy of the guidance to departments on their 2007 autumn performance reports (APRs) is being deposited in the Library.

HM Revenue and Customs: Delivery Services

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how HM Revenue and Customs allocates deliveries to mail carriers employed to handle outgoing mail. [169944]

Jane Kennedy: HM Revenue and Customs allocate mail to carriers based on contractual obligations, level of service requirements and best value.

Northern Rock

Harry Cohen: To ask the Chancellor of the Exchequer what information he has on the remuneration packages of directors and senior managers of Northern Rock. [179831]

Angela Eagle: Remuneration of staff and directors is a matter for the board of Northern Rock. Details of directors' remuneration packages are included in the annual report and accounts.

Parole Board

Mr. Fallon: To ask the Chancellor of the Exchequer what the outcome was of the review of the 16 hour rule announced in paragraph 4.10 of the Parole Board Review 2004 document, Choice for Parents. [179778]

Jane Kennedy: The Government considered the option of extending entitlement to the child care element of working tax credits as set out in pre-Budget report 2004. However, as the child care element is an integral part of the overall tax credits system, it would not be practical to have a shorter hours rule for certain claimants claiming certain elements.

Pensions

Danny Alexander: To ask the Chancellor of the Exchequer what estimate he has made of the annual cost to the Exchequer of raising the level of trivial commutation to *(a)* £16,000, *(b)* £17,000, *(c)* £18,000, *(d)* £19,000, *(e)* £20,000, *(f)* £21,000, *(g)* £22,000, *(h)* £23,000, *(i)* £24,000, *(j)* £25,000, *(k)* £26,000, *(l)* £27,000, *(m)* £28,000, *(n)* £29,000, *(o)* £30,000, *(p)* £31,000, *(q)* £32,000, *(r)* £33,000, *(s)* £34,000 and *(t)* £35,000. [177955]

Andy Burnham: The trivial commutation limit is currently £16,000 and will rise in stages to £18,000 in 2010. The cost of raising the trivial commutation limit would depend upon a number of behavioural factors, though independent research by the Pensions Policy Institute published in June 2007 suggests the cost to the Exchequer from significantly raising the current limits would most likely be very high. Figures from the ABI show that many annuitised pots are below the £16,000 ceiling for trivial commutation, which suggests the limits are already very generous.

At PBR 2006 the Government announced that HMRC would discuss with interested parties concerns raised regarding the administration costs of paying trivial commutation lump sums under current rules. The Government are exploring how the current rules impact on the interests of individual pensioners, pension savers, and pension providers and how they fit with its wider objectives of encouraging pension saving to provide people with an income in retirement.

Revenue and Customs: Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer what policies HM Revenue and Customs has in place to ensure that correspondence is securely delivered; and if he will make a statement. [173360]

Jane Kennedy: HMRC's post and carriage guidance determines which form of postal service should be used for the different types of mail HMRC deals with.

Taxation: Plastic Bags

Mr. Pickles: To ask the Chancellor of the Exchequer what the Government's policy is on the proposals in the London Local Authorities Bill to introduce a new additional plastic bags tax on shops in London. [173340]

Angela Eagle: The Government pledged in the Waste Strategy for England 2007 to phase out free, single-use carrier bags. The Prime Minister made clear in his environment speech of 19 November that in the longer term it will be necessary to eliminate these bags altogether. The Government are actively considering how it can bring forward action that will enable single-use carrier bags to be phased out, but determining the right way forward needs careful consideration, including the need for compliance with E.U. law.

JUSTICE

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Justice whether any of his Department's special advisers also work for organisations outside his Department. [178484]

Maria Eagle: Special advisers are appointed under terms and conditions set out in the 'Model Contract' and 'Code of Conduct for Special Advisers', copies of which are in the Library of the House. My Department's special advisers have informed the permanent secretary that they hold no outside appointments.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he will reply to the letter, dated 19 November, from the right hon. Member for Manchester Gorton, regarding Mr Kurm Shezad Butt. [177550]

Mr. Straw: I apologise for the delay. The letter was sent on 16 January 2008.

Sir Gerald Kaufman: To ask the Secretary of State for Justice when he will reply to the letter of 29 November 2007 from the right hon. Member for Manchester, Gorton with regard to Mr A. Anwar. [179263]

Mr. Straw: I wrote to the right hon. Member on 13 January. I apologise for the delay.

National Offender Management Service: Consultants

Nick Herbert: To ask the Secretary of State for Justice how much was spent by *(a)* the National Offender Management Service (NOMS) on external consultancy fees and *(b)* his Department on external consultancy fees related to NOMS in each of the last three years. [179366]

Mr. Straw: Central collation of NOMS HQ costs started in February 2006, following its creation on 1 April 2005. The amount spent on consultants by NOMS during the period February 2006 to December 2007 is as follows:

	£
February 2006 to March 2006	1,893,670
April 2006 to March 2007	4,013,390
April 2007 to December 2007	4,264,450
Total	10,171,510

It is not possible to provide details of Consultancy spend for NOMS by the wider Department, since such details were not collated centrally during this period. The cost, however, is likely to be negligible in the context of information provided in the table.

National Offender Management Service: Manpower

Nick Herbert: To ask the Secretary of State for Justice how many full-time equivalent staff are employed by *(a)* the National Offender Management Service, *(b)* the National Probation Service and *(c)* HM Prison Service. [179367]

Mr. Straw: The last published figures were as at 31 December 2006 and showed that there were 21,370.98 full-time equivalent staff in post in the national probation service. Updated figures covering Quarter 4 2006-07 (1 January 2007 to 31 March 2007) and Quarter 1 2007-08 (1 April 2007 to 30 June 2007) are currently being validated and will be published shortly in issue 13 of the Workforce Information Report.

On 30 September 2007 there were 48,714 full-time equivalent staff employed by the public sector Prison Service.

The full-time equivalent figure for staff employed by the National Offender Management Service as at 30 September 2007 was 1601.16.

Offensive Weapons

Mr. Ruffley: To ask the Secretary of State for Justice how many *(a)* under 18-year-olds and *(b)* over 18-year-olds were convicted of illegally carrying (i) knives and (ii) other weapons in each year since 1997, broken down by police authority area; and if he will make a statement. [176295]

Mr. Straw: The number of persons convicted of illegally carrying (i) knives and (ii) other weapons in each year since 1997 by police force area is shown in the following tables.

Number of defendants aged 10 to 17 who were convicted at all courts for illegally carrying offensive weapons excluding knives, in England and Wales by police force area for the years 1997 to 2006[1, 2, 3]

[1] These data are on the principal offence basis
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
[3] Staffordshire police force were only able to submit sample data for defendants proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

HEALTH

Alan Johnson

Adam Price: To ask the Secretary of State for Health whether he *(a)* informed the Permanent Secretary in the relevant Department of the donations he received as part of his campaign for the deputy leadership of the Labour Party and *(b)* registered them with the Cabinet Office in accordance with the Ministerial Code. [179970]

Alan Johnson: In accordance with the requirements of the Ministerial Code, a list of Ministers' relevant interests declared to their permanent secretary will be published in due course.

Arthritis: Industrial Health and Safety

Mr. Stephen O'Brien: To ask the Secretary of State for Health what steps he is taking to increase awareness of rheumatoid arthritis in the workplace; and what plans he has to issue guidance to employers on supporting employees with rheumatoid arthritis. [172207]

Ann Keen: As part of the cross-Government Health, Work and Well-being Strategy, we are working to improve the support that is available to employers to support staff with long-term conditions, including rheumatoid arthritis, to obtain and to remain in work.

This includes a free occupational health and return to work support and advice service for small and medium sized businesses, which is being piloted by the Health and Safety Executive until February 2008.

We have also established a Vocational Rehabilitation Task Force to look at the best ways of encouraging and supporting employers to provide good quality rehabilitative services to their staff.

We are also encouraging employers to provide good quality occupational health services and through the Health, Work and Well-being Strategy, we are working to engage employers and show them the business benefits of taking action to support their staff.

British Pregnancy Advice Service

Mr. Stewart Jackson: To ask the Secretary of State for Health how much was paid in fees for abortions and sexual health services by the NHS to the Peterborough branch of the British Pregnancy Advice Service in each year since 1997; and if he will make a statement. [179272]

Dawn Primarolo: This information is not collected centrally.

Cancer: Home Care Services

Mr. Letwin: To ask the Secretary of State for Health what assessment he has made of the effects on patients of recent changes to the access that patients have to home-delivery of cancer-care equipment. [174901]

Ann Keen: The Department is not aware of any national changes in access to home delivery of cancer care equipment so has not made an assessment of any implications.

Cancer: Screening

Mark Simmonds: To ask the Secretary of State for Health what budget has been allocated for each year of the National Awareness and Early Diagnosis Initiative. [179413]

Ann Keen *[holding answer 16 January 2008]:* No specific central budget has been allocated for the National Awareness and Early Detection Initiative. The National Awareness and Early Detection Initiative will involve collaboration with many non-departmental organisations and charities, including the national health service, who do not report their costs to the Department. An overall budget for the initiative has not been calculated, as partners will fund different elements of the initiative.

Cardiac Rehabilitation

Anne Milton: To ask the Secretary of State for Health (1) who is responsible for providing cardiac rehabilitation in each primary care trust in England; and where that treatment is provided; [176984]

(2) what the average cost of providing cardiac rehabilitation was in *(a)* Surrey Primary Care Trust, *(b)* the South East Coast Strategic Health Authority and (c) England following (i) a heart attack, (ii) heart bypass surgery, (iii) angioplasty, (iv) angina, (v) heart failure, (vi) implantation of cardiac devices and (vii) arrhythmias in the last 12 months; [176985]

(3) what recent assessment his Department has made of the effectiveness of cardiac rehabilitation services; and if he will make a statement. [176987]

Ann Keen: Chapter 7 of the "Coronary Heart Disease National Service Framework," published in 2000, issued appropriate guidance to the national health service about the provision of cardiac rehabilitation services. Putting this into practice is a matter for the NHS, working in partnership with stakeholders and the local community. It is the responsibility of NHS organisations to plan, monitor and develop these services based on their specific local knowledge and expertise.

A new National Cardiac Rehabilitation Audit has been introduced across England, jointly sponsored by the British Heart Foundation and the Healthcare Commission. This will provide stronger evidence on effectiveness and encourage local areas to appraise and improve their provision of cardiac rehabilitation.

The Cardiac Rehabilitation Audit stated that the average rehabilitation programme costs per patient have been approximately £550, allowing for inflation, since 2001.

Anne Milton: To ask the Secretary of State for Health how many representations he has received on cardiac rehabilitation since June 2007; and what meetings *(a)* he, *(b)* his Ministers and *(c)* departmental officials have had on cardiac rehabilitation in that period. [176986]

Ann Keen: The Department has regular contact with patient organisations, clinicians and other stakeholders involved in the championing and provision of cardiac rehabilitation services.

Community Equipment Programme

Mr. Harper: To ask the Secretary of State for Health (1) with reference to the answer of 25 July 2007, *Official Report*, column 1240W, on wheelchairs, what progress has been made in publishing the outline model for wheelchair services as part of the transforming community equipment and wheelchair services programme. [177233]

(2) if he will make a statement on how the proposed changes under the Transforming Community Equipment and Wheelchair Services Programme will affect the staff members currently employed by the NHS who issue equipment under section 31 agreements; [177234]

(3) when he will report on the progress of the new delivery system of community equipment trial launched in the North West of England in October 2007; [177235]

(4) what the minimum competency level is for an approved or accredited retailer's staff, as mentioned in the outline model for the Community Equipment Programme. [177245]

Mr. Ivan Lewis *[holding answer 9 January 2008]*: A collaborative process to develop an outline model for delivery of wheelchair services (similar to that undertaken for community equipment services) was undertaken in 2007 and two potential models were developed. The business case to support the recommended way forward is currently being finalised.

It is a matter for each local authority and health partnership to decide whether the transforming community equipment and wheelchair services programme (TCEWS) retail market is the right solution for their locality. They will need to assess the impact on their employees as part of their decision making process.

The minimum competency levels for accredited retailers have been drafted by the working group developing the regulatory function and will be finalised in April. For further information, copies of the British Health Trades Association/National Association of Equipment Providers Newsletter, have been placed in the Library.

The TCEWS programme will be evaluating the testing of the retail model in the North West. This evaluation will be published as a report in the spring and will include the results of user views on the new model of service delivery.

Diabetes: Greater London

Lynne Featherstone: To ask the Secretary of State for Health what percentage of people with diabetes in each London health care trust was screened for diabetic retinopathy in relation to the targets outlined in the National Framework for Diabetes: Delivery Service in each year since 2003. [175595]

Mr. Bradshaw: The information requested has been placed in the Library. Data are only available from 2004.

Foetuses: Surgery

Mr. Amess: To ask the Secretary of State for Health which hospitals in England and Wales have equipment which enables doctors to perform keyhole surgery on unborn babies; and if he will make a statement. [174061]

Ann Keen: The data are not collected centrally.

General Practitioners

Mrs. Gillan: To ask the Secretary of State for Health how many GPs are registered as having a special interest, broken down by specialty. [165655]

Ann Keen: The number of general practitioners (GPs) registered as having a special interest (GPSIs) as at 30 June 2007 was 1,752. We have no data on the numbers by specialty.

The data on the number of GPSIs is collected quarterly from all primary care trusts using the Quarterly Activity Return and it provides the numbers as at the last day of the quarter. The latest available data are for June 2007.

Source:

Department of Health Quarterly Activity Return Commissioner based.

Harry Cohen: To ask the Secretary of State for Health what steps the Government are taking to encourage GPs to give more detailed advice on self-management programmes to patients with long-term conditions. [177050]

Ann Keen: We have no steps to specifically encourage general practitioners (GPs) to give more detailed advice on self-management programmes to patients with long-term conditions. However, the National Service Framework for Long-term Conditions sets out the quality requirement for a person-centred service to support those living with long-term conditions in managing their condition, maintaining independence and achieving the best possible quality of life. To become full partners in care, patients need information, advice, education and support. GPs have a key role to play in meeting these needs.

Health Services

Norman Lamb: To ask the Secretary of State for Health how much funding will be allocated to each local authority to fund contracts for local involvement networks; and when this funding will be provided to each authority. [177205]

Ann Keen: Over the next three years (2008-11) each local authority (LA) with a social services responsibility will receive funding for LINks. On 7 December, the Department wrote to all LAs confirming their allocations for 2008-09, with provisional figures for 2009-10 and 2010-11.

As set out in the comprehensive spending review settlement, from April 2008, the majority of revenue funding will be delivered to councils through the new area based grant. This area based grant is paid on an unringfenced basis to all LAs. As such LAs are able to determine locally how best to spend the grant in order to deliver local and national priorities in their areas. The area based grant will be administered by the Department for Communities and Local Government and paid to LAs on a monthly basis from the beginning of the 2008-09 financial year.

The following table outlines how much each LA is projected to receive over the next three years, it can also be found on the Department website at:

www.dh.gov.uk/en/Policyandguidance/PatientAndPublicinvolvement

Hepatology: Consultants

Mr. Amess: To ask the Secretary of State for Health how many consultants specialising in hepatology there are; and how many there were in *(a)* 1996, *(b)* 1998, *(c)* 2001, *(d)* 2005 and *(e)* 2006. [177139]

Ann Keen: This information is not collected centrally.

Hospital Wards: Gender

Mike Penning: To ask the Secretary of State for Health when he expects the use of mixed sex wards to end in the NHS. [163404]

Ann Keen: Guidance issued to the national health service requires the provision of single sex accommodation, which can take a number of forms. NHS trusts may provide single rooms, single sex bays within a mixed ward, single sex wards or combinations of these types. We do not collect information on the number of trusts who have mixed sex wards per se.

The NHS Operating Framework for 2008-09 includes a requirement for primary care trusts to agree, publish and implement stretching local plans for improvement, with identified time scales and monitoring mechanisms. The NHS Institute for Improvement and Innovation published guidance in December 2007 to support the NHS in delivering this.

Hospitals: Infectious Diseases

Norman Lamb: To ask the Secretary of State for Health how many cases of *(a)* MRSA infection and *(b)* clostridium difficile infection have been diagnosed in staff working in the NHS in each of the last three years. [174243]

Ann Keen: The Health Protection Agency collects data on all cases of methicillin-resistant *Staphylococcus aureus* bloodstream infections and cases of *C. difficile* infection in patients aged two and over in acute national health service trusts in England through the mandatory surveillance scheme but this does not include information about whether patients are also NHS staff.

Norman Lamb: To ask the Secretary of State for Health what arrangements are in place for routine screening of NHS staff for *(a)* MRSA infection and *(b)* clostridium difficile. [174244]

Ann Keen: Current guidance does not recommend routine screening of healthcare staff for either of these infections.

Universal screening of patients for methicillin-resistant *Staphylococcus aureus* (MRSA) is being introduced because there is evidence that it can contribute to reducing MRSA infection rates. Expert advice is that routine screening of staff is not indicated, and therefore not recommended but may be used to help control or investigate an outbreak.

The current clinical evidence does not suggest that universal screening of staff for *Clostridium difficile* would be clinically, or cost, effective as individuals without symptoms are not considered to present an increased risk of infecting others.

Liver Diseases

Mr. Amess: To ask the Secretary of State for Health how many *(a)* males and *(b)* females in each age group had (i) coronary artery disease and (ii) liver cancer in (A) Southend, (B) Essex and (C) England and Wales in each of the last 10 years. [177141]

Ann Keen: The Department is not able to provide prevalence data on coronary artery disease in the form requested. However, the Quality and Outcomes Framework (QOF) dataset does provide the number of patients with coronary artery disease (termed coronary heart disease (CHD) in the QOF). This dataset does not separate men and women and does not hold data on the age of the patients. The data are available only from the financial year 2004-05. Only practices in England who participate in QOF are included. The number of patients is shown in the following table.

The Office for National Statistics have provided data for liver cancer in the following tables.

Quality and Outcomes Framework data

Number of patients with CHD	2004-05	2005-06	2006-07
Southend	6,015	6,158	[1]—
Essex	56,620	58,289	[2]58,857
England	1,893,184	1,900,640	1,898,565

[1] Southend PCT was abolished in October 2007 when it merged with Castle Point and Rochford; separate data are not available.

[2] Essex strategic health authority was abolished in July 2007. This figure is an estimate obtained by adding together figures for the primary care trusts south east Essex, south west Essex, west Essex, north east Essex and mid Essex.

Registrations of newly diagnosed cases of liver cancer[1], by sex, Southend unitary authority, 1996 to 2005

	Males	Females
1996	4	3
1997	3	3
1998	5	3
1999	4	2
2000	2	4
2001	2	5
2002	8	4
2003	5	2
2004	4	5
2005	2	2

[1] Liver cancer is coded to C22 in the International Classification of Diseases 10th Revision (ICD-10). The numbers by age group for Southend and Essex would be disclosive, so only 'all ages' for Southend and two age groups for Essex have been provided.

Maternity Units

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 11 December 2007, *Official Report*, column 504W, on maternity units, how many of each type of unit *(a)* opened and *(b)* closed in each year listed; and how many delivery beds were available in each type of unit in each year. [177169]

Ann Keen: That information is not collected centrally.

National Service Framework for Older People: Osteoporosis

Mark Hunter: To ask the Secretary of State for Health what progress has been made on the implementation of the recommendations for osteoporosis services contained in the National Service Framework for Older People. [179577]

Mr. Ivan Lewis: Progress in implementation of the recommendations contained in the National Service Framework for Older People, including those for osteoporosis services, is detailed in "A New Ambition for Old Age: Next steps in implementing the National Service Framework for Older People" published in April 2006. This publication was issued at the mid-way point of the 10-year National Service Framework for Older People.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 15 November 2007, *Official Report*, column 377WA, on Doctors' and Dentists' Review Body, what the assumptions were behind his Department's central estimate of NHS cost pressures; and if he will place in the Library a copy of the underlying data. [169868]

Ann Keen: The central estimate for cost pressures, net of efficiency, on the NHS hospital and community health services in England for 2008-09 are 2.3 per cent. The underlying assumptions and data are set out in annex A of the 2008-09 Payment by Results guidance, a copy of which is available in the Library. Annex A is as follows:

Breakdown of 2008-09 tariff uplift

	2008-09 over 2007-08 baseline		
	£ million	Percentage	Assumptions
Baseline	59,540	—	—
Increase in pay and prices			
Pay	1,640	2.8	Pay settlement in line with DH recommendation to the Pay Review Bodies: 1.5 per cent. doctors' and dentists' and 2 per cent. NHS PRB. Also include pay drift and staging.
Non-pay inflation	350	0.6	GDP deflator at 2.75 per cent.
Drugs	400	0.7	Includes NICE
Clinical Negligence	210	0.4	Forecast local contributions
Revenue cost of capital	210	0.4	PFI; depreciation; cost of capital
Gross pay and price	2,810	4.7	—
Efficiency	-1,790	-3.0	Assumes 3.0 per cent. efficiency
Net pay and price	1,020	1.7	—
Quality and reform	330	0.6	To cover costs of tackling health care associated infections, pay reform/legislation, staff security and local cost of delivering the Information Management and Technology programme.
Overall	—	2.3	—

Note:
Figures may not sum due to rounding.

Mr. Lansley: To ask the Secretary of State for Health what the total overall funding allocation to primary care trusts was in each year since 2002-03; and what proportion of the total NHS budget this represented in each year. [174773]

Mr. Bradshaw *[holding answer 17 December 2007]:* The information is shown in the following table.

Revenue allocations as a percentage of the total national health service revenue budget

	NHS revenue budget[1] (£ billion)	*Revenue Allocations[2, 3] (£ billion)*	*Revenue allocations as percentage of NHS budget*
2002-03	51.935	41.468	80
2003-04	61.866	45.027	73
2004-05	66.874	49.328	74
2005-06	74.168	53.925	73
2006-07	78.356	64.310	82
2007-08	86.848	70.355	81
2008-09[4]	92.642	75.880	82

[1] 2002-03 to 2005-06 figures are outturn (the actual year end position), 2006-07 and 2007-08 figures are estimated outturn, and 2008-09 is plan.
[2] Allocations were to health authorities in 2002-03 and to primary care trusts from 2003-04.
[3] 2002-03 allocations were announced on 6 December 2001, 2003-04 to 2005-06 allocations on 18 December 2002, 2006-07 and 2007-08 allocations on 9 February 2005 and 2008-09 allocations on 13 December 2007.
[4] Includes the £1.7 billion budgets which were issued alongside primary care trust allocations and which will be made recurrent from 2009-10.

NHS: Management

Mr. Lansley: To ask the Secretary of State for Health what the average management costs were for all NHS trusts in England in *(a)* cash terms and *(b)* as a percentage of the trust's income in 2006-07; and which 10 trusts have the highest management costs (i) in cash terms and (ii) as a percentage of the trust's income. [162829]

Mr. Bradshaw: Information on management costs for national health service trusts, in expenditure terms and as a percentage of NHS trust income, for 2006-07, is included at table 1.

Information on the 10 NHS trusts with the highest expenditure on management costs and the highest management costs as a percentage of the NHS trusts' income for 2006-07 is included at tables 2 and 3.

Total NHS trust spend on management costs in 2006-07 equated to 3.1 per cent. of turnover.

Table 1: Management costs NHS trusts 2006-07

	Total senior managers and managers (Thousand)	*Total income (£000)*	*As percentage of income*
5 Boroughs Partnership NHS Trust	4,247	93,684	4.5
Aintree University Hospitals NHS Foundation Trust	1,876	65,740	2.9
Airedale NHS Trust	3,477	98,756	3.5

Primary Care Trusts

Anne Milton: To ask the Secretary of State for Health what steps his Department has taken to enable Surrey Primary Care Trust to meet the Government's commitment that *(a)* by the end of 2007 all diabetic patients will have been offered comprehensive retinal screening followed by a programme of treatment for diabetic retinopathy if needed and *(b)* by the end of March 2008, 80 per cent. of patients will have been screened. [176980]

Ann Keen: The Department has a range of work in hand to support the national health service in delivering this target. Strategic health authorities (SHAs) actively performance manage primary care trusts (PCTs) to ensure they have arrangements in place to ensure delivery. All PCTs are monitored on their progress towards achieving the target. The target is included within the Local Delivery Plan Agreements between SHA and PCTs (which are reviewed quarterly through a data return).

Anne Milton: To ask the Secretary of State for Health what percentage of patients were offered

cardiac rehabilitation in (a) Surrey Primary Care Trust, (b) the South East Coast Strategic Health Authority and (c) England following (i) a heart attack, (ii) heart bypass surgery, (iii) angioplasty, (iv) angina, (v) heart failure, (vi) implantation of cardiac devices and (vii) arrhythmias in the last 12 months. [176983]

Ann Keen: The Department does not collect this information centrally.

Chapter 7 of the "Coronary Heart Disease National Service Framework," published in 2000, issued appropriate guidance to the national health service about the provision of cardiac rehabilitation services. Putting this into practice is a matter for the NHS, working in partnership with stakeholders and the local community. It is the responsibility of NHS organisations to plan, monitor and develop these services based on their specific local knowledge and expertise.

A new national Cardiac Rehabilitation Audit has been introduced across England, jointly sponsored by the British Heart Foundation and the Healthcare Commission. This will provide stronger evidence on effectiveness and encourage local areas to appraise and improve their provision of cardiac rehabilitation.

Mr. Jamie Reed: To ask the Secretary of State for Health (1) what his responsibilities and the responsibilities of (a) primary care trusts, (b) acute hospital trusts, (c) local authorities, (d) national expert clinical bodies, (e) local clinicians and (f) public and patient involvement panels are in the configuration of health services and hospital services; [177189]

(2) what the procedure is for the reconfiguration of local health services. [177191]

Ann Keen: Proposals for the reconfiguration of services are a matter for the national health service locally, working in conjunction with clinicians, patients and other stakeholders. The interim report on the NHS Next Stage Review recommends that change should only be initiated when there is a clear and strong clinical basis for doing so.

Reconfiguration proposals are currently subject to a three-month public consultation. The outcome is then subject to scrutiny by local authority Overview and Scrutiny Committees (OSCs), comprising elected councillors.

Where OSCs are unhappy with the consultation process, or do not believe that the changes being proposed are in the interests of the local health service, they can refer the proposals to the Secretary of State for final decision.

On 4 July 2007, my right hon. Friend the Secretary of State for Health (Alan Johnson) announced that he would seek the advice of the Independent Reconfiguration Panel, established to advise on contested service change proposals, on all cases referred to him by OSCs.

Very few local reconfiguration decisions are referred to the Secretary of State but such scrutiny will ensure that proposals are made in the best interest of clinical need and patient care.

Sheep Meat: Safety

Mrs. Gillan: To ask the Secretary of State for Health what steps he is taking to regularise the trade in prepared sheep meat, known as smokies; and if he will make a statement. [179690]

Dawn Primarolo: The Food Standards Agency is investigating whether it is possible to produce 'skin-on' sheep meat, known as smokies, in slaughterhouses using safe and hygienic processes. If sufficient supporting evidence is generated it is intended to approach the European Commission to suggest a change in the current law.

Mrs. Gillan: To ask the Secretary of State for Health (1) what estimate he has made of the value of the illegal trade in prepared sheep meat, known as smokies; [179691]

(2) what estimate he has made of the total value of the market in prepared sheep meat, known as smokies. [179692]

Dawn Primarolo: No estimate has been made of the value of the total illegal trade and the total value of the market in prepared sheep meat known as smokies.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures

9. **Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the impact of post office closures on vulnerable people and rural communities. [179529]

Mr. McFadden: It is because the Government appreciates the important social and community role of post offices that we have committed a subsidy of £150 million per year between now and 2011. Where post office closures are taking place, Post Office Ltd. takes into account the location of alternative branches, as well as the access criteria which are intended to ensure reasonable access in both rural and urban areas and include special protections for deprived urban, rural and remote communities.

10. **Mr. Bone:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with the Post Office on the length and timing of the consultation period for closures of sub-post offices. [179530]

Mr. McFadden: The Government's response to the national public consultation on the post office network, published in May 2007, confirmed that the period for local consultations on proposals for post office closures would be six weeks.

Before that local public consultation begins there are discussions in each area with Postwatch, with local authorities and with sub-postmasters themselves.

We have received representations to make the local consultations longer but we are keen to minimise the uncertainty over the network and for sub-postmasters and mindful that the process overall will take some 15 months from beginning to end.

13. **Ann Winterton:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the Post Office closure programme. [179535]

Mr. McFadden: The process began in October and is being carried out through a series of area plans over a 15 month period. So far, decisions on six area plans have been announced, four have been closed but final decisions have not yet been made and a further four are currently open. We are about a quarter way through the process which is scheduled to be completed by the end of this year.

Business Start-ups

11. **Angela Watkinson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of small businesses closed within three years of starting up in the latest period for which figures are available. [179532]

Mr. Timms: 29 per cent. of UK businesses registering for VAT in 2002 were no longer registered three years later.

17. **Mr. Kidney:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assistance his Department provides for the start-up of small businesses. [179539]

Mr. Timms: Business support to a value of two and a half billion pounds per year, including start-up support, is delivered through regional development agencies and business link.

Unscrupulous Lending

12. **Mr. Allen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to prevent unscrupulous lending practices. [179533]

Mr. Thomas: In 2004 we established two pilot enforcement teams in Birmingham and Glasgow to track down and prosecute illegal money lenders, who were exploiting some of the most vulnerable members of our communities.

Following the success of these pilots I announced in September a national expansion this crack down on illegal lending and there is now a team covering every region of Britain.

Nuclear Power

14. **Mr. Chaytor:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his policy is on the financing of waste management from new nuclear power stations. [179536]

Malcolm Wicks: As my right hon. Friend made clear in the House on 10 January, it will be for energy companies, not the Government, to fund, develop and build new nuclear power stations. That will include meeting the full costs of decommissioning and each operator's full share of the waste management costs. The Energy Bill includes provisions to ensure that this happens.

Offshore Wind Technology

15. **Ann McKechin:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions his Department has had with the Scottish Executive on the use of offshore wind technology. [179537]

Malcolm Wicks: BERR has a range of mechanisms in place to facilitate a dialogue with the Scottish Executive regarding offshore wind technology. For example, in recent months, through ministerial correspondence and significant day to day contact at official level. In addition, BERR and Scottish Executive Ministers and officials participate regularly in Government renewables forums, such as BERR's Research Advisory Board (RAB) and the Forum for Renewable Energy Developments in Scotland (FREDS).

23. **Mr. Whittingdale:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform, what procedures his Department has for taking account of local opinion in its consideration of applications for wind farms. [179545]

Malcolm Wicks: Companies submitting applications for wind farms to the Secretary of State are required to publicise their proposals. The Secretary of State will take all representations received into account before reaching a decision. Where a local authority objects to an onshore wind farm application within its boundaries, the Secretary of State is obliged to call a public inquiry.

Political Funds

16. **Mr. Harper:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what role his Department and the Certification Officer play in regulating trade union political funds and donations to political parties. [179538]

Mr. McFadden: The Department for Business, Enterprise and Regulatory Reform has no regulatory role in these areas. The Certification Officer has a number of statutory functions relating to political funds and the financial affairs of trade unions.

Fuel Poverty

18. **Mr. Dunne:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of recent trends in fuel poverty. [179540]

Malcolm Wicks: Since 1996, we have made good progress towards our targets on fuel poverty. Most recent figures show there are approximately 2.5 million households in fuel poverty in the UK in 2005. This is around four million fewer than in 1996, but represents an increase of 0.5 million households since 2004, reflecting the impact of rising energy prices on fuel poverty. While initiatives to tackle fuel poverty have helped millions of households, recent trends in energy prices present a significant challenge.

Exports: China

19. **Tony Baldry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to assist UK exports to China. [179541]

Mr. Thomas: The Department, together with UK Trade and Investment, assists UK exports to China in many ways, largely through its partnership with the China-Britain Business Council and by nurturing the already strong bilateral relationships during ministerial visits in order to retain the UK as China's preferred partner in Europe.

Employment Agencies

20. **Anne Moffat:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to improve the regulation of temporary worker employment agencies; and if he will make a statement. [179542]

Mr. McFadden: Last December, Amendment Regulations to the Conduct of Employment Agencies and Employment Businesses Regulations 2003 were approved by both Houses. These implement additional measures to protect vulnerable agency workers and come into force on 6 April.

We are also proposing measures in the current Employment Bill to increase penalties for offences against the Employment Agencies Act 1973 and to improve investigative and enforcement powers for the Employment Agency Standards Inspectorate.

Last September we also announced our intention to double the number of Employment Agency standards inspectors: recruitment processes are already in train.

Regulation

22. **Mr. Bellingham:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform, when he next expects to meet small business groups to discuss regulatory burdens. [179544]

Mr. Timms: I shall be meeting small business representative bodies on Monday to discuss the forthcoming enterprise White Paper, and regulation may well be one of the topics raised.

Accountancy: Tax Avoidance

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what powers he has to investigate the affairs of accountancy firms which have been found to be selling tax avoidance schemes which have been declared unlawful by tax tribunals. [178522]

Jane Kennedy: I have been asked to reply

The Government are committed to protecting the tax system against tax avoidance and ensuring that all taxpayers pay their fair share of tax.

The Tax Avoidance Disclosure regime means that those selling avoidance schemes have a direct obligation to provide information about ("disclose") a scheme to HMRC if it falls within certain descriptions. The Finance Act 2007 gave HMRC new powers to inquire into a promoter it reasonably suspects of failing to disclose a scheme if required

Aside from this, HMRC's powers in relation to third parties (including those who sell avoidance schemes) are generally restricted to collecting information relating to the tax payable by the individual or corporate taxpayer. Powers to inquire into the affairs of an agent are generally restricted to instances of criminal behaviour by the agent.

It is not illegal to sell tax avoidance schemes, whether or not they are successful in their aim of avoiding tax.

Nuclear Power Stations: Contracts

Mr. Betts: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, what steps he will take to ensure that UK firms can bid for contracts to undertake work on nuclear power stations developed by foreign owned companies. [179369]

Malcolm Wicks: We have invited companies to bring forward proposals to build new nuclear power stations.

It will be for the private sector to manage these projects, and we are keen that the market chooses the best options for all parts of the projects. Government should not impose conditions on any part of the process that are not designed to ensure that this objective is met.

Political Levy

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how the Certification Officer oversees political funds and finances of trades unions. [179427]

Mr. McFadden *[holding answer 16 January 2008]:* The certification officer determines complaints brought by members alleging breaches of political fund rules or about the conduct of political fund ballots or the application of general funds for political purposes. He also considers for approval the draft political fund rules of a trade union and the draft rules for ballots concerning political funds.

The certification officer receives, examines and makes available for inspection the annual returns of the financial affairs of trade unions, which include accounts of political funds. I refer to my answer to question 2007/968 about the certification officer's treatment of the annual returns of trade unions. He may, in specified circumstances, appoint an inspector to investigate and report upon the financial affairs of a trade union (except certain federated trade unions). He may also, if he thinks there is good reason to do so, require a trade union to produce relevant documents and explanations of the documents.

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the Certification Officer's time is spent overseeing political funds and finances of trades unions. [179428]

Mr. McFadden *[holding answer 16 January 2008]:* The certification officer (CO) estimates in broad terms the proportion of time spent by his staff (not including the CO's time) in certain areas of his statutory duties. His annual reports for the past five years show the following in relation to the proportion of time spent by his staff on finances of trade unions and political funds. The column headed 'Political Funds' will mainly relate to the approval of political fund ballot rules and political funds rules. However, some political fund work may also be included in the other two columns.

Percentage

1 April to 31 March	*Political funds*	*Annual returns of trade unions and employers' associations and the maintenance of the lists of TUs and EAS*	*Complaints and trade union finances*
2002-03	[1]2	57	37
2003-04	5	50	41
2004-05	7	51	35
2005-06	2.5	57	35
2006-07	2	54	41

[1] Political funds and trade union independence

Trade Unions

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Certification Officer may take to investigate the affairs of a trade union. [179430]

Mr. McFadden *[holding answer 16 January 2008]:* The certification officer has no statutory authority to undertake general investigations into the affairs of trade unions. He may, in specified circumstances, appoint inspectors to investigate and report upon the financial affairs of a trade union (except certain federated trade unions). He may also, if he thinks there is good reason to do so, require a trade union to produce relevant documents and explanations of the documents.

Trade Unions: Complaints

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many hearings before the Certification Officer were held to consider complaints against trades unions in each of the last five calendar years. [179429]

Mr. McFadden *[holding answer 16 January 2008]:* The following table shows the number of hearings before the Certification Officer that were held to consider complaints against trades unions in each of the last five calendar years:

1 January to 31 December	*Number of hearings*
2003	13
2004	12
2005	11
2006	14
2007	14

Unfair Commercial Practices Directive

Mr. Greenway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 9 January 2008, *Official Report*, column 684W, on the Unfair Commercial Practices Directive, what steps he plans to take to strengthen consumer protection from misleading copycat packaging once the regulations come into force; and what assessment he has made of the capacity of Trading Standards to enforce the regulations. [179266]

Mr. Thomas: The Office of Fair Trading and Trading Standards Services will have a duty to enforce the Consumer Protection from Unfair Trading Regulations (CPRs) implementing the Unfair Commercial Practices Directive. The Government believe that these enforcement arrangements suffice to adequately enforce the CPRs, including in relation to misleading copycat packaging design. OFT and Trading Standards Departments will have to act in a manner consistent with their duty to enforce the regulations. Indeed the Gowers Review of Intellectual Property notes that in this context the Local Authority Coordinators of Regulatory Services have said that once the UCPD is in place they will act on behalf of consumers by pursuing businesses who act improperly.

For this reason the Government do not propose to allow businesses to enforce the regulations. However, it will review the position three years after the regulations come into force.

COMMUNITIES AND LOCAL GOVERNMENT

Christmas

Mr. Burns: To ask the Secretary of State for Communities and Local Government how much *(a)* her Department and *(b)* the Minister of State for Housing spent on (i) Christmas cards and (ii) postage of Christmas cards in 2007. [176908]

Mr. Dhanda: Communities and Local Government spent £2,221.70 plus VAT on Christmas cards in 2007. The other information requested is not held separately.

Council Tax: Lone Parents

Mr. David Jones: To ask the Secretary of State for Communities and Local Government what guidance her Department gives to local authorities on claims for single person discount for council tax from single parents whose children are serving with the armed forces. [179710]

John Healey: The Secretary of State for Defence announced on 25 September 2007 that service personnel on operational duty in Iraq or Afghanistan will receive a flat rate payment of £140 for a six-month tour of duty to help with the cost of their council tax and is equivalent to 25 per cent. of the average council tax bill for 2007-08.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what products featuring departmental or Government branding were procured by *(a)* her Department and *(b)* its agencies in each of the last five years. [179919]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Communities and Local Government whether any of her Department's special advisers have outside appointments. [178498]

Mr. Dhanda: Special advisers are appointed under terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Communities and Local Government what her Department's policy is on recycling. [174397]

Mr. Dhanda: The recycling policy for Communities and Local Government is:

to meet the cross-government target of increasing the recycling rate to 40 per cent. of total waste arisings by 2010, which the Department has already met, and to increase the rate to 75 per cent. by 2020.

to use resources more efficiently by following the waste management hierarchy; that is, to eliminate the requirement for resources where possible, to reduce consumption and to encourage re-use, to provide recycling and composting schemes wherever possible and to ensure any non-recyclable waste is disposed of by the most sustainable method available

to ensure that

i. all waste is dealt with according to the law and best practice guidance

ii. key staff are trained in what the law and best practice demands

iii. all staff are encouraged to adhere to the waste management hierarchy, avoiding waste production wherever possible, recycling all waste where facilities exist and only using general waste bins for non-recyclable waste

Mr. Hayes: To ask the Secretary of State for Communities and Local Government how much and what proportion of its waste her Department recycled in each of the last five years. [174434]

Mr. Dhanda: I refer the hon. Member to the answer given on 12 December 2007, *Official Report*, column 542W.

First Time Buyers: Wirral

Stephen Hesford: To ask the Secretary of State for Communities and Local Government what types of Government support are available to first-time house buyers, with particular reference to the Wirral, West constituency. [179155]

Yvette Cooper: The Government are committed to supporting first time buyers. Support is available through the provision of affordable housing and low cost home ownership schemes such as the First Time Buyers Initiative.

The First Time Buyers Initiative is part of the HomeBuy low-cost home-ownership scheme which the Government introduced in April 2006. This initiative targets key workers and other eligible groups that have sufficient income to sustain home ownership, but are currently prevented from entering the housing market.

No figures are available specifically for Wirral, West constituency, however Wirral received in excess of £7 million from the Housing Corporation Affordable Housing Programme in the period 2004-07. This has resulted in 123 homes for low cost home ownership and 213 homes for social rent being made available. In addition, Wirral metropolitan borough council has secured approximately 300 affordable houses over the last two years in negotiations with developers.

Following the recent Spending Review the increased Regional Housing Pot allocations for 2008-11 will deliver additional affordable housing across the region, for which Wirral have the opportunity to further increase the supply of affordable homes for sale.

Home Information Packs

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government what discussions her *(a)* ministers and *(b)* officials had with the Plain English Campaign on home information packs; and whether the home information pack template was submitted to the Plain English Campaign for assessment. [175368]

Yvette Cooper: The Plain English Campaign was consulted by the Department on the home information pack forms (the home information pack index, sale statement, home use and home contents forms). All other documents in the home information pack are produced by bodies other than the Department.

Housing: Floods

Miss McIntosh: To ask the Secretary of State for Communities and Local Government how many people she estimates will not have been able to return to their homes before Christmas Day 2007 as a result of damage from this year's floods. [174152]

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government how many families remain unable to return to their homes following the 2007 summer flood damage. [177711]

John Healey: I wrote to the hon. Member on 19 December 2007. Since then further data have been provided by local authorities and as of early January around 9,150 households of the households originally affected remain displaced.

I met with representatives of flood affect councils and the insurance industry on 10 December and agreed a package of concerted actions to help people still badly affected by the floods. Getting people back into their homes as quickly as possible is a Government priority

and I announced on the 20 December that £1 million of extra funding will be made available to the small number of councils with a large number of households not yet back in their own homes after the floods:

http://www.communities.gov.uk/news/corporate/619896.

Housing: North West Region

Helen Jones: To ask the Secretary of State for Communities and Local Government how the Government Office for the North West plans to ensure that bids from areas wishing to become housing growth points will provide (*a*) enough affordable housing for purchase and (*b*) enough housing for rent to meet the needs of the area. [172599]

Yvette Cooper *[holding answer 10 December 2007]*: The responsibility for assessing housing growth point expressions of interest rests with Communities and Local Government, with Government Office for the North West (GONW) providing support to this process. GONW has provided advice to local authorities on the issues that their area should be addressing in their expression of interest, including the need for affordable housing. The assessment exercise will ensure that these issues are appropriately considered.

Helen Jones: To ask the Secretary of State for Communities and Local Government what the role of Government Office for the North West is in assessing bids for housing growth areas. [172641]

Yvette Cooper *[holding answer 10 December 2007]*: The responsibility for assessing housing growth point expressions of interest rests with the Department of Communities and Local Government, with Government Office for the North West (GONW) providing support to this process.

Government Office North West's role has included articulating Government policy to regional stakeholders including local authorities, facilitating quality bids and assisting Communities and Local Government and other Government agencies to gain a full understanding of the local circumstances.

In response to requests, GONW has organised an informal briefing session in the House, to which all hon. Members in relevant constituencies have been invited to attend.

Housing: Warrington

Helen Jones: To ask the Secretary of State for Communities and Local Government on what occasions representatives of the Government Office for the North West (GONW) have met representatives of Warrington Borough Council to discuss future housing plans; who was present at each of these meetings; and what attempts have been made by GONW to discuss these issues with hon. Members representing the borough. [172385]

Yvette Cooper *[holding answer 10 December 2007]*: Representatives from Government Office for the North West (GONW) are in regular dialogue with local authorities regarding housing issues in the region.

The GONW Housing Intervention team facilitates and attends various regional and sub-regional working groups to which local authorities are invited to field representatives. However, they have not had one to one meetings with Warrington borough council (BC) on specific housing related issues.

Jo Lappin, Deputy Regional Director, Housing, Planning and Transport, has met with representatives from Warrington BC on a number of occasions since April 2007 as detailed in the following list, during these discussions the issue of housing in the borough was raised.

Thursday 12 April meeting with Diana Terris, Chief Executive

Monday 12 November meeting with Diana Terris, Chief Executive

Friday 16 November meeting with Andy Farrall, Strategic Director for Environment and Regeneration

A meeting was also held with the North West Regional Minister on Monday 19 November to discuss economic growth in Warrington, during which housing was raised, attendees were as follows:

Rt Hon Beverley Hughes MP, North West Regional Minister

Jo Hawley, Private Secretary to Beverley Hughes MP

Jo Lappin, Deputy Regional Director, Housing, Planning and Transport, GONW

Diana Terris, Chief Executive of Warrington Borough Council (WBC)

Cllr Ian Marks, Leader of WBC (Lib Dem)

Cllr Keith Bland, Deputy Leader of WBC (Conservative)

Dr Robert Barr, Executive Member of WBC, Planning and Regeneration

Cllr Terry O'Neil, Leader of the Labour Group at WBC (Labour)

Andy Farrall, Strategic Director for Environment and Regeneration

Peter Crompton, Director, BE Group

Paul Hafren, Principal, Warrington Collegiate Institute

Mike Ralph, Planning Director, Modus Properties

Alan Charters, Construction Director, Miller Developments

In response to requests, GONW has organised an informal briefing session in the House, to which all hon. Members in relevant constituencies have been invited to attend.

Judith Armitt

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government on what occasions Judith Armitt, the Thames Gateway Chief Executive, has visited Thurrock in an official capacity since her appointment; and for what purposes. [165125]

Yvette Cooper *[holding answer 20 November 2007]*: Between November 2006 and November 2007, Judith Armitt, as Chief Executive of the Thames Gateway, visited Thurrock on the following occasions:

2006

13 November—visit with Ruth Kelly to RSPB visitors' centre

2007

15 February—Meeting with Leader of Thurrock council (n.b. although this meeting took place in Westminster, the original meeting would have been on 18 January in Thurrock, but was cancelled due to bad weather)

26 March—Tour of Thurrock with Urban Development Corporation (UDC)

29 March—Meeting at Thurrock UDC offices

10 May—Meeting at Thurrock UDC offices

23 May—Tour of Thames Gateway with Permanent Secretary

31 May—Thurrock UDC Board meeting at their offices

20 July—Meeting at Thurrock UDC offices

10 September—Meeting at Thurrock UDC offices

3 October—Tour of Thurrock with CABE

5 November—Meeting in Southend with representatives from South Esses local regeneration partnerships followed by tour of the DP World London Gateway development at Shellhaven, Thurrock, with Yvette Cooper MP.

Labour Party: Elections

Adam Price: To ask the Secretary of State for Communities and Local Government whether she *(a)* informed the Permanent Secretary in the relevant Department of the donations she received as part of her campaign for the Deputy Leadership of the Labour Party and *(b)* registered them with the Cabinet Office in accordance with the Ministerial Code. [179968]

Mr. Dhanda: In accordance with the requirements of the Ministerial Code, a list of Ministers' relevant interests declared to their permanent secretary will be published in due course.

Licensing Act 2003

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether she plans to require CON29 local authority searches to include information on licensing decisions, reviews, applications or enforcement action under the Licensing Act 2003. [171588]

Yvette Cooper: We have no plans to do so.

Local Government: Contracts

Mr. Drew: To ask the Secretary of State for Communities and Local Government if she will bring forward proposals to amend Part II (Public Supply or Works Contracts) of Chapter 9 of the Local Government Act 1988 to take account of the Government's commitment to fairness in competitive tendering arrangements under the Transfer of Undertakings (Protection of Employment) Regulations. [179328]

John Healey: When contracting in circumstances where the Transfer of Undertakings (Protection of Employment) Regulations 2006 (TUPE) are to be applied, best value authorities are permitted to take into account relevant workforce matters.

The Local Government Best Value (Exclusion of Non-commercial Considerations) Order 2001 (SI 2001 No 909) made under Section 19 of the 'Local Government Act 1999' provides, in respect of best value authorities, for certain workforce matters set out in Part II of the Local Government Act 1988 to cease to be prohibited matters in the contractual process. This is to the extent that they are relevant to the achievement of best value and for the purposes of TUPE.

North Yorkshire Fire Service: Finance

Miss McIntosh: To ask the Secretary of State for Communities and Local Government what representations she has received on her consultation for the proposed future financial provision for the North Yorkshire Fire Service. [177982]

John Healey: We received a written representation from North Yorkshire Fire and Rescue Authority, and my hon. Friend the Under-Secretary of State for Communities and Local Government, my hon. Friend the Member for Gloucester (Mr. Dhanda), met a delegation of members and officers from the authority on 8 January.

Miss McIntosh: To ask the Secretary of State for Communities and Local Government if she will make a statement on the financial settlement for the North Yorkshire Fire Service for 2008-09. [179261]

John Healey: I announced the proposed local government finance settlement to the House on 6 December 2007, *Official Report*, column 981. The House will have the chance to debate the matter in due course.

Public Expenditure: Stroud

Mr. Drew: To ask the Secretary of State for Communities and Local Government how much her Department and its predecessors have spent in Stroud district since 2002, broken down by specific initiative. [178983]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Recycling: Christmas

Sarah Teather: To ask the Secretary of State for Communities and Local Government what estimate she has made of the effect on the level of recycling of Christmas-related waste; and what steps she has taken to assist local authorities in dealing with such recycling. [178927]

Joan Ruddock: I have been asked to reply.

Based on a sample of 20 local authorities in 2005-06, the Waste and Resources Action Programme (WRAP) estimates that 190,000 tonnes of additional recycling will take place in the UK as a result of waste generated because of Christmas.

WRAP helps local authorities to promote recycling at Christmas through the Recycle Now programme, and works with the Woodland Trust to promote Christmas card recycling and the availability of dedicated collection points. The target for this year (2007-08) is to recycle 100 million Christmas cards.

Regional Development Agencies: Finance

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what requirements her Department has placed on regional development agencies in spending monies allocated via the single pot from her Department. [179226]

John Healey: Sponsorship of the regional development agencies (RDAs) rests with the Secretary of State for Business, Enterprise and Regulatory Reform (BERR). However, Communities and Local Government works closely with BERR to agree the RDAs' tasking framework and to ensure that their corporate plans reflect the Department's priorities.

Thames Gateway: Internet

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government when her Department's webpage relating to Judith Armitt, Chief Executive of the Thames Gateway was last updated; and what alterations have been made to this web page since March. [165128]

Yvette Cooper *[holding answer 20 November 2007]:* When the new Communities and Local Government website was re-launched on 28 August 2007, this web page was redesigned along with the rest of the site. However, the information remained the same. Pages relating to the Chief Executive were updated every few months.

Translation Services: Expenditure

Mr. Hands: To ask the Secretary of State for Communities and Local Government how much has been spent on translation costs by each London borough in each of the last five years. [179288]

Mr. Dhanda: The information requested is not held centrally.

Unitary Councils: Bedfordshire

Alistair Burt: To ask the Secretary of State for Communities and Local Government when she expects to submit the invitation to Bedfordshire County Council, Mid-Bedfordshire District Council and South Bedfordshire District Council to submit proposals for unitary government in the Mid-Bedfordshire and South Bedfordshire districts. [163959]

John Healey: On 19 November 2007, we issued a further invitation to three Bedfordshire councils to submit proposals for the area covered by Mid-Bedfordshire and South Bedfordshire district councils. In response, we received a joint proposal from Mid-Bedfordshire and South Bedfordshire district councils on 14 December.

On 19 December, we published a consultation paper, seeking views on this proposal. The consultation closes on 13 February 2008.

Unitary Councils: Exeter

Angela Browning: To ask the Secretary of State for Communities and Local Government (1) when she will publish *(a)* the assessment of the financial viability on the unitary council proposal submitted by Exeter City Council and *(b)* the results of the further examination she ordered regarding the Exeter City Council bid; [171176]

(2) what advice she has received from the Chartered Institute of Public Finance and Accountancy and the Investment Property Forum regarding the financial viability of the proposal for unitary status submitted by Exeter City Council. [171177]

John Healey: We received advice on the financial aspects of the unitary proposals submitted by Exeter city council from independent financial advisers we engaged through the Institute of Public Finance. We received no advice from the Investors Property Forum.

This advice contributed to the decision that I announced on 5 December that we would not be proceeding with Exeter city's proposals for unitary status because, having made a reasonable estimate of the costs and savings that would be likely to occur as a result of restructuring, we believe that the pay back period would be more that the five years specified by the established affordability criterion.

I have no plans to publish the advice we received and the financial assessment of the Exeter city council's unitary proposals.

Urban Areas: Sustainable Development

Tony Baldry: To ask the Secretary of State for Communities and Local Government (1) what plans she has for special planning procedures to be used in determining planning applications for eco-town developments; [171214]

(2) whether the eco-town schemes will be determined by *(a)* new towns legislation and *(b)* mini reviews of regional spatial strategies; and what mechanisms will be used to judge the relative merits of competing proposals. [171218]

Yvette Cooper: I refer the hon. Member to the answer given to him on 16 January 2008, *Official Report*, column 1262W, and the answer given to the hon. Member for Mid-Worcestershire (Peter Luff) on 14 January 2008, *Official Report*, column 918W.

Mr. Arbuthnot: To ask the Secretary of State for Communities and Local Government whether it is Government policy that any proposed eco-towns should be treated as counting towards Government house building targets. [179754]

Yvette Cooper: I refer the hon. Member to the answer I gave to the hon. Member for Mid-Worcestershire (Peter Luff) on 3 December 2007, *Official Report*, column 882W.

Mr. Hunt: To ask the Secretary of State for Communities and Local Government (1) what local consultation processes she plans on the location of eco-town developments; [179832]

(2) what role local authorities will have on the process to select eco-town sites. [179833]

Yvette Cooper: I refer the hon. Member to the answer I gave to the hon. Member for Mid-Worcestershire (Peter Luff) on 14 January 2008, *Official Report*, columns 919-20W.

Written Questions

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government (1) when she will reply to Question 165128, on her Department's website tabled by the hon. Member for Thurrock on 13 November 2007; [174339]

(2) when she will reply to question 165125, on Judith Armitt, tabled by the hon. Member for Thurrock on 13 November 2007. [174341]

Yvette Cooper: I have now replied to my hon. Friend's questions.

INTERNATIONAL DEVELOPMENT

Afghanistan

Dr. Fox: To ask the Secretary of State for International Development pursuant to the Statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, what plans his Department has to recruit and deploy specialists who speak Afghan languages and understand tribal dynamics. [175462]

Mr. Douglas Alexander: My right hon. Friend the Prime Minister's statement referred to plans made specifically by the FCO to recruit more specialists who speak Afghan languages and understand tribal dynamics. The FCO is currently looking at various options for recruiting and deploying such specialists. It is also training its political officers in local languages and is looking at how the UK-based Afghan diaspora might help contribute to reconstruction in Afghanistan.

DFID Afghanistan does, however, recognise the importance of these skills for work in the south of Afghanistan and is talking to the FCO, MOD and Stabilisation Unit about the future staffing of Helmand, which will include provision of such specialists.

DFID is also already working with organisations which have expertise in both areas. These include the Tribal Liaison Office (an Afghan NGO) which deploys a network of Afghan tribal experts across the southern provinces and a number of long-standing Afghanistan academic experts. These experts help inform the design and implementation of elements of DFID conflict prevention and governance programmes using both their knowledge of tribal dynamics and their Dari or Pashto language skills with the local population. DFID is also funding the Centre for Conflict and Peace Studies (an Afghan NGO) to conduct tribal analysis and mapping to inform their work within each province.

Carbon Trust

Mr. Drew: To ask the Secretary of State for International Development what plans he has for his Department to participate in the Carbon Trust's Carbon Management programme over the next 12 months. [178965]

Mr. Malik: The Department for International Development has already signed up to the Carbon Trust (CT) Energy Efficiency Programme. The CT advised DFID that this programme was more appropriate for the size of our estate. We have also achieved accreditation under the Energy Efficiency Accreditation Scheme (EEAS).

Departmental Carbon Emissions

Mr. Drew: To ask the Secretary of State for International Development whether his Department met its target to reverse the upward trend in its carbon emissions by April 2007. [178985]

Mr. Malik: The Department for International Development is strongly committed to reversing the upward trend in carbon emissions. As a Department, we have undergone significant growth in recent years, and this has resulted in increases in our carbon emissions from DFID operations. We did, however, achieve a small overall reduction in kWh usage for 2006-07, relative to 2005-06 before weather correction. Allowing for weather correction, the increase was 1 per cent. over the previous year, the smallest increase since the baseline year of 1999-2000. We are investigating further investment to reduce our carbon emissions further.

Departmental Energy Supply

Mr. Drew: To ask the Secretary of State for International Development whether his Department will meet its commitment to *(a)* source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* recycle figures to 40 per cent. of its waste by 2010. [178984]

Mr. Malik: The Department for International Development has already met the targets for renewable electricity and for recycling waste. From 2004-06, over 90 per cent. of DFID electricity was derived from renewable sources and this figure increased in January 2007 to 100 per cent. renewable for our UK offices. During 2005, DFID changed waste contractors at both UK offices. The new waste contractors guarantee they recycle over 75 per cent. of all waste and produce monthly reports with breakdowns of the various waste streams.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for International Development whether any of his Department's special advisers also work for organisations outside his Department. [178477]

Mr. Douglas Alexander: Special advisers are appointed under terms and conditions set out in the 'Model Contract' and 'Code of Conduct for Special Advisers', copies of which are in the Library of the House.

Departmental Public Buildings

Mr. Drew: To ask the Secretary of State for International Development whether his Department is working towards accreditation of its environmental management systems under *(a)* ISO 14001, *(b)* the EU eco management and audit scheme and *(c)* other certified schemes in respect of (i) the Department's whole estate and (ii) individual buildings within its estate. [178972]

Mr. Malik: The Department for International Development has already established Environment Management Systems (EMS) in both UK offices, based on the principles of the ISO 14001 standard. We are currently working towards formal accreditation at both offices.

Developing Countries: Water

Ann McKechin: To ask the Secretary of State for International Development what recent discussions his Department has had with other governments about placing the issues of water and sanitation on the agenda of the forthcoming G8 meeting. [178922]

Mr. Thomas: The G8 summit in Japan is an important opportunity to galvanise greater action on water and sanitation, particularly since 2008 is the UN's International Year of Sanitation. As the largest bilateral donor in the sector, Japan has already identified water and sanitation as one of the key issues under its presidency. We welcome this. The UK worked hard throughout 2007 with Japan to raise the profile of water and sanitation, and will continue to do so during 2008. In particular we are pressing for a G8 commitment to a revised and strengthened Evian Water Action Plan (agreed at the 2003 summit).

The first preparatory meeting of representatives of the Heads of State was held in Tokyo on 10 and 11 January. They discussed water and sanitation in the context of climate change and the environment, and through its links to health. The next meeting will be in March. In the interim we will continue to work closely with our Japanese colleagues to ensure water and sanitation remain high on the summit agenda.

Dyncorp International

James Duddridge: To ask the Secretary of State for International Development what contracts his Department holds with Dyncorp International. [176999]

Mr. Thomas: DFID has no record of current or previous contracts with Dyncorp International.

Pakistan: Overseas Aid

Tony Baldry: To ask the Secretary of State for International Development what changes the Government plans to make to the DfID-Pakistan Country Programme following recent events in that country; and if he will make a statement. [177879]

Mr. Douglas Alexander: While work for some months has been under way to develop a new Country Assistance Plan, DFID is now considering the implications of recent events for its development assistance in Pakistan.

Palestinians: EU Aid

Richard Burden: To ask the Secretary of State for International Development in what languages the International Donors Conference for the Palestinian State held in Paris on 17 December 2007 has published its *(a)* working papers, *(b)* final statement and *(c)* pledges. [178366]

Mr. Malik: The International Donors Conference was hosted and organised by the French Government in Paris. The speeches and declarations that were made on the day, the final statement and the pledges are available on the website of the French Ministry for Foreign Affairs. The final statement and pledges are available in French and English, and the final statement is additionally available in Dutch. There were no working papers for this conference.

Richard Burden: To ask the Secretary of State for International Development which multinational organisation has responsibility for co-ordinating the implementation of the pledges of the donor groups according to their nature as specified in the final statement of the International Donors Conference for the Palestinian State held in Paris on 17 December 2007. [178368]

Mr. Malik: A donor co-ordination mechanism, with a secretariat in Ramallah, was set-up following the London Ad Hoc Liaison Committee conference in 2005. This continues to provide practical coordination on the ground.

At the Paris donor conference the UK supported the establishment of a more effective monitoring mechanism. We believe this should not only cover pledges by donors, but also progress by Israelis and Palestinians in creating the conditions necessary for aid to be effective. Unfortunately, no such mechanism was agreed at the Paris conference. We continue to call on international partners to agree a monitoring mechanism.

Palestinians: Foreign Trade

Richard Burden: To ask the Secretary of State for International Development what assessment he has made of changes made over the last 12 months to the operation of the back-to-back system introduced by Israel for transporting goods within the West Bank and between the West Bank and Israel; what assessment he has made of the impact of the system on *(a)* speed with which Palestinian goods can be transported and *(b)* costs of transportation; and what representations he is making on the subject. [179075]

Mr. Malik: There are currently six back-to-back crossings for commercial goods between the West Bank and Israel, and one internal back-to-back crossing in Nablus.

Transportation times have increased as goods must be unloaded and loaded at each crossing, and in some cases, goods must take a longer route to use a specified crossing. Restrictions are in place on the opening hours and capacity of the crossings. These factors have contributed to an increase in transportation costs.

DFID is supporting a World Bank study to quantify the additional transport costs these restrictions create. The study will also investigate alternate trade corridors to and from the West Bank.

Palestinians: Small Businesses

Richard Burden: To ask the Secretary of State for International Development what assessment he has made of the likely impact on the development of

Palestinian small and medium-sized businesses of the proposed creation of industrial zones near the Green Line between Israel and Palestine promoting economic co-operation between Israel and Palestine. [178444]

Mr. Malik: The UK Government believe that the proposed industrial zones can help economic recovery given the right conditions. However, the capacity of the six Israel-West Bank crossings will need to be sufficient for processing both the eventual industrial estate traffic and existing trade, including by small and medium businesses. The World Bank is currently assessing the capacity of those crossings and we hope this will clarify whether any of the crossings will be a bottleneck for trade.

Richard Burden: To ask the Secretary of State for International Development what steps have been taken since November 2007 to implement the provisions of the 2005 Agreement on Movement and Access in respect of the Palestinian Territories; and what assessment he has made of the impact such steps had on the ability of Palestinian businesses to trade *(a)* within the West Bank and Gaza, *(b)* between the West Bank and Gaza and *(c)* internationally. [179074]

Mr. Malik: No steps have been taken since November 2007 to implement the 2005 Agreement on Movement and Access. Movement and access remains the main constraint on the ability of Palestinian businesses to trade within, between and outside the West Bank and Gaza Strip. This was the conclusion of both the UK-funded World Bank's Investment Climate Assessment in March 2007 and the UK Government's report on the "Economic Aspects of Peace in the Middle East" of September 2007.

The UK Government continue to call on Israel to fulfil their obligations on Movement and Access. The Palestinian Authority also has obligations to improve security. We hope that progress will be made as part of the peace process started at Annapolis.

Solomon Islands: Overseas Aid

Andrew Stunell: To ask the Secretary of State for International Development (1) what *(a)* UK and *(b)* EU aid is planned to be provided to the Solomon Islands in each of the next three years; and if he will make a statement; [178549]

(2) what aid programmes the UK sponsors in the Solomon Islands; and how much funding was provided for each programme in each year it has been running; [178550]

(3) how much aid the UK gave to the Solomon Islands in each of the last 10 years; and what recent assessment he has made of the effectiveness of his Department's *(a)* work and *(b)* expenditure in the Solomon Islands. [178551]

Mr. Thomas: DFID is currently developing detailed plans for allocating its budget over the three-year period 2008-09 to 2010-11 following the outcome of the comprehensive spending review announced in October. Individual country and regional allocations will not be finalised until March 2008.

Under the 10th European Development Fund (EDF10) the EU have committed to spend €13.2 million on development activities in the Solomon Islands. Indicative annual totals are €0.8 million in 2008, €11.2 million in 2009 and €1.2 million in 2010. In addition, the Solomon Islands may receive small amounts of funding from thematic lines within the Development Cooperation Instrument of the EU Budget; commitments against these lines are made by theme and not for specific countries.

The UK does not currently have any bilateral aid programmes in the Solomon Islands but does provide a small amount of support in the form of pensions for ex-colonial employees. The UK does provide bilateral aid to the Pacific region and multilateral assistance to a range of organisations, some of which may be used for development activities in the Solomon Islands.

Details of the UK's bilateral assistance and imputed multilateral assistance to Solomon Islands over the last 10 years are laid out in the following tables.

Table 1: UK total bilateral gross public expenditure on development 1997-98 to 2006-07

	Solomon Islands (£000)
1997-98	14,934
1998-99	813
1999-2000	719
2000-01	437
2001-02	458
2002-03	567
2003-04	462
2004-05	376
2005-06	273
2006-07	91

Table 2: Imputed UK share of multilateral official development assistance (ODA) 1996-2005

	Solomon Islands (£000)
1996	618
1997	335
1998	1,150
1999	556
2000	3,785
2001	2,962
2002	386
2003	288
2004	268
2005	1,676

As part of the DFID performance management system for its bilateral portfolio, DFID evaluates its projects' effectiveness on an annual basis, and once projects are complete. DFID contacts all its overseas pension recipients on an annual basis to ensure they still qualify for their pensions.

DUCHY OF LANCASTER

Adding It Up

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the total cost of the Adding It Up implementation group was in each of the last five years; and how many *(a)* civil servants, *(b)* special advisers and *(c)* other staff worked in the group in each of those years. [178947]

Andy Burnham: I have been asked to reply.

The 'Adding It Up' implementation group held its final meeting in July 2002. The group has therefore resulted in no direct costs over the past five years. The Government continue to improve the use of evidence and quality of analysis underpinning policy making with the 'Adding It Up' agenda mainstreamed within Departments.

National Youth Volunteering Programme

Tom Brake: To ask the Chancellor of the Duchy of Lancaster what the total budget of the National Youth Volunteering Programme is for 2007-08; how much is allocated to London; and if he will make a statement. [175367]

Phil Hope: In November 2007 the independent charity v announced that over this comprehensive spending review period, they are investing £75 million in the National Youth Volunteering Programme. The allocation for London is approximately £8.5 million. A further £6 million will cover national and multi-regional projects that could include London.

Written Answers to Questions

Monday 21 January 2008

HOUSE OF COMMONS COMMISSION

Parliamentary Recording Unit

Jo Swinson: To ask the hon. Member for North Devon, representing the House of Commons Commission what guidance it issues on posting material provided by the Parliamentary Recording Unit on external websites. [180452]

Nick Harvey: Members may obtain parliamentary material for use on their own parliamentary websites subject to the following conditions.

1. The permission is restricted to use of recordings of proceedings on a Member's own parliamentary website (and not on any searchable third party hosting website).

2. A Member may only use material which features the Member, any reply from a Minister to a question asked by the Member, and any other contributions to the debate on an issue raised by the Member.

3. The recording will be supplied by the Parliamentary Recording Unit watermarked with a portcullis logo to show its origin and discourage its unauthorised use by others. The Member will be asked to acknowledge Parliamentary Copyright on his/her site and ensure the material is not downloadable.

The original webcasting licence from the Speaker and PARBUL was renewed in June 2006, and this permitted the use of the clean feed of proceedings to be used in a live webcast maintained or operated by the House of Commons. It specifically stated that the clean feed shall not be passed to any other person.

Following representations from Members, the licence was varied so the above guidelines could be adopted. This variance was noted by the Administration Committee on 12 December 2006.

Portcullis House: Escalators

Tom Brake: To ask the hon. Member for North Devon, representing the House of Commons Commission how many times the escalators in Portcullis House have been *(a)* replaced and *(b)* repaired since the building opened. [179727]

Nick Harvey: The escalators in Portcullis House were installed in 1999 and *(a)* were replaced during the summer recess of 2007 and *(b)* repairs and component replacements have been carried out from time to time notably on the handrails, the drive mechanisms and lighting.

WALES

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Wales what products featuring departmental or Government branding were procured by his Department in each of the last five years. [179783]

Mr. Hain: In 2006 my Department procured pens bearing the Wales Office logo. However, as my Department records expenditure on total office supplies and not individual items, the cost can be obtained only at a disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Wales how many posters or displays there are in the offices of his Department displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179851]

Mr. Hain: My Department does not currently have any posters or displays of Ministers.

In March 2007 posters were produced for a reception. However, as my Department records expenditure on total office supplies and not individual items, the cost can be obtained only at a disproportionate cost.

Trade Unions

Mr. Hoban: To ask the Secretary of State for Wales what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179863]

Mr. Hain: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Birds of Prey

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many birds of prey there were in the UK in each year since 2001. [177727]

Joan Ruddock: Bird of prey populations are not assessed annually in the UK so it is not possible to provide figures for each year since 2001. The population of most species is assessed periodically by species-specific surveys of breeding numbers. The latest available results from these, together with the year/s of survey, are provided in the following table. The table also gives the estimated population trend since 2001.

A tentative estimate for the current total population of all birds of prey in the UK, based on the information in the table, is around 145,000 breeding pairs.

Species	*Population estimate (breeding pairs)*	*Year of estimate*	*Population trend since 2001 (see footnotes)*
Honey Buzzard[1]	33-69	2000	Increase
Marsh Harrier[1]	360	2005	Increase

Species	Population estimate (breeding pairs)	Year of estimate	Population trend since 2001 (see footnotes)
Hen Harrier[1]	806	2004	Increase
Montagu's Harrier[1]	10-12	2004	Stable/fluctuating
Goshawk[1]	410	1994-2000	Stable
Golden Eagle[1]	442	2003	Stable
Osprey[1]	148	1998-2002	Increase
Merlin[1]	1,330	1990-94	Increase
Peregrine[1]	1,492	2002	Increase
Hobby[1]	2,200	2000	Increase
Sparrowhawk[2]	40,000	2000	Stable
Buzzard[2]	44-61,000	2001	Increase
Kestrel[2]	35,400	2000	Stable
Red Kite[3]	1,355	2007	Increase
White-tailed Eagle[3]	33	2006	Increase

[1] For these species, population trend information is derived from survey work carried out since 2001 that provides data on population trends but not an assessment of the total population, based on data collated annually by the UK Rare Breeding Birds Panel and reported in the journal "British Birds", together with additional information collected by local raptor groups.
[2] For these species, population trend information is derived from survey work carried out since 2001 that provides data on population trends but not an assessment of the total population. This information is derived from the British Trust for Ornithology's annual Breeding Bird Survey.
[3] For these species a full survey has been carried out in recent years. Population trend information is derived from a comparison between the results of the most recent survey and earlier full surveys carried out since 2001.

Climate Change Committee: Public Appointments

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to appoint the Chairman of the Climate Change Committee; and if he will make a statement. [180686]

Mr. Woolas: The process for appointment of the Chair designate of the Shadow Committee on Climate Change is under way and we aim to appoint as soon as it has been completed.

European Fisheries Fund

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 December 2007, *Official Report*, column 1269W, on the European Fisheries Fund (EFF), whether he has made a formal request to the Commission to allow the UK to carry over the 2007 EFF budget allocated to the UK; and if he will make a statement. [177687]

Jonathan Shaw: I have not made a formal request to the European Commission to allow the UK to carry over the 2007 portion of its European Fisheries Fund budget allocation, since it is not yet clear that any reduction in the overall budget will be imposed.

Fisheries: National Income

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the gross value added of *(a)* England, *(b)* the North West and *(c)* Copeland was derived from commercial fishing over the last 20 years. [175938]

Jonathan Shaw: Estimates of gross value added are available only at UK level. The information we hold is presented in the following table.

Details of current prices gross value added at basic prices for the UK fishing industry (including landings abroad)

	Gross value added (£ million)
1987	473
1988	449
1989	423
1990	472
1991	496
1992	486
1993	527
1994	396
1995	415
1996	415
1997	412
1998	399
1999	406
2000	398
2001	377
2002	374
2003	376
2004	389
2005	399
2006	468

Office for National Statistics, Series QTUF.

Fisheries: Penalties

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the European Commission on the possible penalties the UK could face for not submitting its European Fisheries Fund Operational Programme to the European Commission by 31 December 2007; and if he will make a statement. [177686]

Jonathan Shaw: There is no provision for penalties in relation to submission of Operational Programmes after 31 December 2007. I have therefore had no discussions with the European Commission on this matter. However, it is open to the Commission to take

action as noted in my answers of 21 November 2007, *Official Report*, columns 863-864W and 5 December 2007, *Official Report*, columns 1268-69W to the hon. Member.

Floods

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs which five regions are most at risk of flooding. [179260]

Mr. Woolas: Rainfall does not, over the years, recognise Government administrative boundaries. At-risk areas cross regional boundaries.

Local Government Finance: Rural Areas

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has for the funding for rural community councils expressed in real terms in each financial year to 2012-13. [179581]

Jonathan Shaw: On 14 December, I announced a flat £3.45 million for the network of rural community councils in England for each of the next three financial years.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had on the method of allocating funding to rural community councils in England; and if he will make a statement. [179585]

Jonathan Shaw: On 14 December, I was pleased to announce that £3.45 million would be made available to support the network of rural community councils (RCCs) in England for each of the next three years. This funding will be channelled through Action with Communities in Rural England (ACRE), the lead body for the RCC network, who will be responsible for making allocations to individual RCCs. ACRE is currently developing its plans for allocating the funding, in consultation with DEFRA, and will make this information available to the RCCs as soon as possible.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs when he will reply to the letter from the hon. Member for West Worcestershire dated 19 December 2007, on flooding funding in the form of subsidies and grants for private individuals. [180320]

Mr. Woolas: The hon. Member's letter of 19 December 2007 was transferred to the Secretary of State for Communities and Local Government for reply.

National Parks

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the proportion of members of National Park boards who live within five miles of the relevant national park. [180112]

Jonathan Shaw: No estimation has been made of the proportion of members of national park boards who live within five miles of the relevant national park.

New Forest

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what the timetable is for reviewing and renewing the Minister's Mandate for the New Forest; and if he will make a statement. [177515]

Joan Ruddock: The Minister's Mandate for the New Forest is due for review and renewal in 2008. Since the current mandate was presented to the Forestry Commission in 1999, the New Forest has seen considerable change, not least the establishment of the New Forest national park. Any future mandate would need to take account of those changes and the new legislation and governance arrangements for the area.

Preparation of the management plan for the national park is due for completion in March 2009. The management plan will establish the framework for future actions to secure and enhance the area's special qualities and the Forestry Commission, who are responsible for the management of 47 per cent. of the park area, will play a full part in its delivery.

Given the time scale for the preparation of the management plan, I have asked the Forestry Commission to seek views locally about whether it is better for the mandate to be reviewed in 2008 as originally intended or after the National Park Management Plan is completed. Should the review be deferred then, I would extend the existing mandate over the intervening period. Once I have received the Forestry Commission's advice, I will write to the hon. Member.

Post Offices: Closures

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with *(a)* the Secretary of State for Business, Enterprise and Regulatory Reform and *(b)* the Post Office on the likely effect on rural and semi-rural areas of the proposed post office closures. [177876]

Jonathan Shaw: The forum for discussions and decisions on the likely effect of the proposed post office restructure in all areas, both rural and urban, is the cross-Government Ministerial Committee on the post office network (MISC33). The role of this Committee has been to allow collective consideration of, and decisions on, issues relating to the future of the post office network. DEFRA Ministers have played a full part in the work of the Committee.

Renewable Energy: Public Buildings

Adam Price: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the electricity requirements of the central Government estate were procured from renewable energy providers in the last period for which figures are available. [179813]

Mr. Woolas: In its 2006 annual report "Sustainable Development in Government", the Sustainable Development Commission (SDC) reported that the Government estate was sourcing 23 per cent. of its electricity from renewable sources in the reporting period 2005-06. The information was compiled from information returned by Departments. The SDC's report is available on its website at: http://www.sd-commission.org.uk/sdig2006.

Rights of Way

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs how many local authorities had adopted rights of way improvement plans at (*a*) 21 November 2007 and (*b*) the latest date for which information is available; and which local authorities have not yet adopted a plan. [179582]

Jonathan Shaw: By 21 November 2007, 34 out of 126 individual and joint local highway authorities had adopted rights of way improvement plans, and as at 31 December 2007 this number had not changed.

The local authorities which have not yet adopted a plan are:

North East region

Northumberland county council
Northumberland national park
Durham county council
Darlington borough council
Stockton borough council
Middlesbrough borough council
Redcar/Cleveland
Tyne and Wear Joint (Gateshead; North Tyneside; South Tyneside; Newcastle; Sunderland)

North West region

Blackburn
Oldham metropolitan borough council
Rochdale metropolitan borough council
Bolton metropolitan borough council
Bury metropolitan borough council
Tameside
Merseyside (Wirral; Liverpool; Sefton; St. Helens; Knowsley)
Manchester city
Salford city council
Trafford metropolitan borough council
Warrington
Halton borough council
Wigan metropolitan borough council

Yorkshire and Humberside

East Riding
Hull city council
North East
Lincolnshire
North Lincolnshire
North Yorkshire county council
City of York
Barnsley metropolitan borough council
Doncaster metropolitan borough council
Sheffield
Bradford
Calderdale metropolitan borough council
Kirklees
Leeds city council
Wakefield metropolitan borough council

West Midlands

Shropshire
Herefordshire
Staffordshire
Walsall
Solihull
Telford and Wrekin
Coventry city council
Sandwell metropolitan borough council
Dudley metropolitan borough council
Wolverhampton metropolitan borough council
Stoke on Trent

Eastern region

Luton
Essex county council
Norfolk Broads authority
Norfolk county council
Southend borough council

South West region

Cornwall county council
Dorset county council
Wiltshire county council
Bristol; South Gloucestershire; Bath and North East Somerset
Torbay
Plymouth
Poole and Bournemouth
N Somerset
Swindon

South East region

Buckinghamshire
East Sussex
Kent
Medway
Milton Keynes
Portsmouth
Reading
Slough borough council
Southampton
Surrey
West Berkshire
West Sussex
Wokingham district council

Outer London boroughs

Barnet
Barking and Dagenham
Bexley
Brent
Croydon
Ealing
Enfield
Haringey
Harrow
Havering
Hillingdon
Hounslow

Kingston
Merton
Newham
Redbridge
Richmond
Sutton
Waltham Forest

Waste Disposal: Domestic Wastes

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made, and what research was undertaken, by *(a)* his Department, *(b)* his consultants Eunomia and *(c)* the Waste Resources Action Programme into the change in the burning of household rubbish following the imposition of new bin taxes. [176548]

Joan Ruddock: Powers provided in the Climate Change Bill will allow up to five local authorities to come forward to pilot non-revenue raising incentive schemes, which are designed to encourage householders to reduce the waste they throw away and increase recycling.

My Department has not made an estimate or undertaken research into the increase in the burning of household rubbish following the introduction of pilot waste incentive schemes, nor has Eunomia undertaken work in this area for Government. As for the Waste and Resources Action Programme (WRAP), they are not responsible for research or policy on backyard burning.

Waste Disposal: Fees and Charges

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what penalties councils will be able to levy for non-payment of the proposed new charges for domestic rubbish collection. [176536]

Joan Ruddock: Powers provided in the Climate Change Bill will allow up to five local authorities to pilot non-revenue raising incentives schemes, which are designed to encourage household waste minimisation and recycling.

It is envisaged that local authorities running pilot schemes would be able to recover any money owed by residents through the courts as a civil debt.

Waste Disposal: Fly Tipping

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what his Department's latest projection is of the likely change in fly-tipping in *(a)* percentage and *(b)* volume terms, broken down by local authority, under the plans for proposed new charges for domestic rubbish collection; [176537]

(2) what assessment has been made of the effect of higher charges for the collection and disposal of waste on levels of waste-related offences. [176565]

Joan Ruddock: My Department has made no projections for increases in fly-tipping under waste incentive schemes.

For modelling purposes, the impact assessment for this policy assesses the possible effect of waste incentive schemes on levels of waste-related offences, and the potential costs to local authorities. The impact assessment can be found on the Department's website.

We also think that it is sensible for pilot authorities to review their policies for tackling fly-tipping, and to have a fly-tipping prevention strategy in place. Having a strategy in place to deal with fly-tipping is good common sense for all authorities.

Evidence from other countries where similar schemes operate suggests that an increase in fly-tipping is not an automatic consequence of introducing them. Where increases in fly-tipping have been seen overseas, this quickly tails off where schemes are well designed and effective enforcement action is taken. Having a good strategy is in the first instance an important part of effective enforcement.

Further details will also be covered in guidance, which is currently being developed and will be publicly consulted on.

Waste Information Services Ltd.: Finance

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what payments *(a)* his Department and *(b)* the Waste Resources Action Programme has made to (i) Waste Information Services Ltd. and (ii) the Sauce Consultancy in the last 36 months. [176577]

Joan Ruddock: No such payments have been made by my Department to either company.

In the last 36 months, the Waste and Resources Action Programme (WRAP) has made payments to Waste Information Services Ltd. totalling £3,509.60. No payments have been made by WRAP to Sauce Consultancy over this period.

Water Supply

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made by the tri-sector partnership for water and sanitation on achieving the millennium development goals. [179490]

Mr. Thomas: I have been asked to reply.

DFID supports tri-sector partnerships that aim to help achieve the water and sanitation Millennium Development Goal targets. In particular DFID is funding:

The Partnership for Water and Sanitation (PAWS) which matches skills and expertise of UK groups with partner countries in Africa to build capacity for the delivery of water and sanitation. PAWS support is assisting three countries as follows:

Ethiopia

United Utilities works with the Government of Ethiopia to address water loss and strengthen capacity in 24 towns and to train Ministry staff.

Nigeria

Atkins, South West Water and Cranfield University work with WaterAid Nigeria and the Government of Benue State to establish Water Consumer Associations in three small towns, and enhance customer engagement in water service provision to over 40,000 people.

South Africa

A twinning arrangement between Yorkshire Water and Zululand District Municipality is exchanging knowledge in customer care, water quality and asset management which is providing improved services to over 150,000 people.

The Water and Sanitation for the Urban Poor (WSUP) programme is a partnership between the private, public and civil society sectors to provide more effective delivery of water supply and basic sanitation services to approximately 3.5 million low-income urban and peri-urban communities by 2015. WSUP is piloting projects in Kenya, Madagascar, Mozambique and India. This project has made good progress, with current projects expected to reach 35,000 people with better water and sanitation services by March 2008.

Whales: Conservation

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the threat to endangered whale species posed by the Japanese whaling fleet in waters off Antarctica. [179596]

Jonathan Shaw *[holding answer given 17 January 2008]:* Japan plans to kill 935 minke and 50 fin whales in the Antarctic this season under its "scientific" research programme (known as JARPA II). Agreed estimates from the International Whaling Commission's Scientific Committee for both species are too old and uncertain to be relied upon. While it seems unlikely that Japan's activities will put the survival of either species at serious risk, we note that fin whales are listed as "Endangered" on the World Conservation Union Red List of threatened species. Hunting this species may therefore put at risk the survival of small localised populations frequenting the Antarctic and South Pacific.

When I called in the Japanese Deputy Ambassador on 8 January 2008, I stressed that we found the hunting of "Endangered" fin whales particularly unacceptable; the same point was firmly made in the Demarche presented to the Japanese Government on 21 December 2007.

TRANSPORT

Bus Services: Concessions

Mr. Cox: To ask the Secretary of State for Transport (1) what plans she has to provide extra discretionary funding to travel concession authorities in the event that the cost of providing the national bus concessionary fares scheme substantially exceeds the amount of special grant funding provided to them; [179085]

(2) what rural proofing was undertaken by her Department in respect of the national bus concessionary fares scheme; [179088]

(3) what allowance was made for the disparity between transport inflation and specific grant inflation allowance in the special grant funding provided to travel concession authorities. [179089]

Ms Rosie Winterton: The Government are making £212 million available to travel concession authorities in England for 2008-09 to cover the cost of the new statutory minimum bus concession which commences on 1 April 2008. This is based on very generous assumptions about fares, the take-up of passes, and the number of extra journeys. It also includes a significant contingency to allow for the difficulty of distributing grant by formula and uncertainty around likely travel patterns. No specific allowance has been made for transport inflation but the total allocation will increase to £217 million in 2009-10 and £223 million in 2010-11. We are confident that this will be sufficient to cover the on-going cost of the concession although we will be monitoring its impact closely. Authorities offering concessions that are more generous than the statutory minimum must do so at their own cost. We have no plans to provide additional funding to individual authorities.

In terms of considering the needs of rural authorities, we are proposing a distribution of this grant that takes into account visitor numbers, levels of bus use, retail floor space, and eligible population – all variables likely to be linked to the eventual pattern of cost. Our proposed distribution also reflects the clear preference of those who responded to our recent consultation on the issue.

Bus Services: Fares

Tim Farron: To ask the Secretary of State for Transport what the average rise in bus fares was in each English local authority in each of the last 10 years. [180107]

Ms Rosie Winterton: The information requested is not available. However, estimates for London, the metropolitan areas and the rest of England were published for 1996-97 to 2006-07 in Table G of the Public Transport Statistics Bulletin GB in September 2007. They are shown in the following table.

Local bus fare indices, 1996-97 to 2006-07

1995 = 100

	London	*English PTE areas*	*English non-PTE areas*	*England*
1996-97	105.5	106.4	106.2	106.0
1997-98	109.4	112.8	112.0	111.5
1998-99	113.8	117.9	117.3	116.4
1999-2000	117.2	123.5	122.6	121.4
2000-01	117.3	128.6	129.2	125.8
2001-02	115.5	135.5	136.1	130.3
2002-03	114.8	140.7	142.4	134.3
2003-04	116.9	146.7	149.0	139.4
2004-05	126.8	153.3	155.9	147.2
2005-06	139.7	166.0	166.2	159.4
2006-07	151.5	168.3	159.5	160.1

Bus Services: Passengers

Norman Baker: To ask the Secretary of State for Transport (1) if she will list the 10 town or council areas, with *(a)* the largest percentage increases in bus usage and *(b)* the largest percentage decreases in bus usage for the latest year for which figures are available; [180274]

(2) if she will list the 10 town or council areas with the *(a)* largest and *(b)* smallest number of bus journeys made for the latest year for which figures are available. [180275]

Ms Rosie Winterton: The information requested is not available from the DFT annual survey of bus operators. Local authority estimates of bus passenger journeys are published on the Audit Commission's best value data web page at:

www.audit-commission.gov.uk/performance/dataprovision.asp

Cars

Norman Baker: To ask the Secretary of State for Transport what the average mileage of a car in England was in each year since 1994. [178135]

Ms Rosie Winterton: The following table shows the estimated average annual mileage of four-wheeled cars in England for 1995-97 (combined years) to 2006. The figures are based on data from the National Travel Survey.

Annual mileage of four-wheeled cars, England, 1995-97 to 2006

	Average mileage
1995-97	9,600
1996-98	9,570
1997-99	9,440
1998-2000	9,540
1999-2001	9,340
2002	9,160
2003	9,200
2004	9,100
2005	8,950
2006	8,740

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Transport what products featuring departmental or Government branding were procured by *(a)* her Department and *(b)* its agencies in each of the last five years. [179787]

Jim Fitzpatrick: Full details of individual products featuring departmental or Government branding procured in each of the last five years could be provided only at disproportionate cost. Branded items that we have procured, however, include typical promotional goods such as carrier bags for use in exhibitions; road safety stickers to support our campaigns, pens, desk pads and mugs. Less typical promotional items, but relevant to the promotion of road safety, include triangular reflectors and ice scrapers.

Mr. Hoban: To ask the Secretary of State for Transport how many posters or displays there are in the offices of her Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179847]

Jim Fitzpatrick: A number of display panels around our two headquarters buildings in London inform staff and visitors about our objectives, our structure and governance and our work. Five panels include the names and photographs of Ministers. The costs are usually included in contracts covering other internal publicity activity and separating out this information could be provided only at disproportionate cost.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Transport whether any of her Department's special advisers also work for organisations outside her Department. [178475]

Jim Fitzpatrick: Special advisers are appointed under terms and conditions set out in the "Model Contract and Code of Conduct for Special Advisers", copies of which are in the Library of the House.

Driving Tests: Elderly

Mr. Evans: To ask the Secretary of State for Transport what recent representations she has received on a proposed compulsory driving test for elderly drivers. [179359]

Jim Fitzpatrick *[holding answer 15 January 2008]:* Over the last 12 months the Department has received numerous representations from Members of Parliament, stakeholders and interested parties on this issue.

Driving Under Influence: Death

Chris Ruane: To ask the Secretary of State for Transport how many young people who died as a result of road traffic accidents were *(a)* under the influence of alcohol and *(b)* under the influence of drugs in each of the past 10 years. [180131]

Jim Fitzpatrick: The percentage of drivers and riders killed over the legal blood alcohol limit by age group for Great Britain from 1997 to 2006 is shown in the table.

	Motorcycle riders					*Cars and other motor vehicles*					
	Age					*Age*					
	16-19	*20-29*	*30-39*	*40+*	*All Ages*	*16-19*	*20-29*	*30-39*	*40+*	*All Ages*	*All*
1997	10	14	16	7	13	25	23	26	12	19	17
1998	15	7	18	6	11	17	25	24	9	17	15

	Motorcycle riders					Cars and other motor vehicles					
	Age					Age					
	16-19	20-29	30-39	40+	All Ages	16-19	20-29	30-39	40+	All Ages	All
1999	23	8	12	2	9	22	31	31	7	20	17
2000	17	10	13	5	10	20	32	34	12	22	18
2001	11	14	12	1	10	18	35	25	14	22	18
2002	27	15	10	2	11	18	31	37	14	19	19
2003	10	20	12	8	13	18	33	28	12	19	19
2004	19	19	13	10	14	26	31	32	16	25	21
2005	26	11	13	11	13	25	33	33	13	24	20
2006[1]	14[2]		10[3]		11	25	33	24	19	25	20

[1] Provisional data. The sample size for 2006 is not yet sufficient to give a full age breakdown.
[2] Age groups 16-29
[3] Age groups 30+

This table can also be found on the Department's website at the following address:

http://www.dft.gov.uk/172974/173025/221412/221549/227755/285672/Article3DrinkDrivetab1.xls

Information on whether or not drivers involved in accidents failed a drugs test is not collected by the Department.

Driving: EC Action

Mr. Moore: To ask the Secretary of State for Transport with reference to the written ministerial statement of 11 June 2007, *Official Report*, column 38WS, on drivers' hours (derogation for reservists), whether the Minister has received a response from the European Commission to the request for a derogation from regulation (EC) 561/2006; and if she will make a statement. [180872]

Jim Fitzpatrick: There has been ongoing dialogue with the European Commission officials dealing with our request. A response is expected shortly. I will inform the House of the Commission's decision at that time.

Enterprise and Economic Development

Mr. Prisk: To ask the Secretary of State for Transport what her Department's planned expenditure on business support, promotion of enterprise and economic development is from 2007-08 to 2010-11; and which elements of this expenditure are planned to be funded through the regional development agencies' single pot. [179276]

Jim Fitzpatrick: The Department for Transport has, as one of its four departmental strategic objectives for the period 2008-09 to 2010-11, the goal

"to sustain economic growth and improved productivity through reliable and efficient transport networks",

and much of its total spending will contribute towards the achievement of that objective. However, it does not plan any expenditure that is directly for business support, promotion of enterprise or economic development. The DFT does not contribute any funding to the regional development agencies' single pot.

Eurostar: Ebbsfleet International

Mr. Gale: To ask the Secretary of State for Transport how many passengers have travelled from Ebbsfleet via Eurostar since the inauguration of that service. [179779]

Mr. Tom Harris: This is an operational matter for Eurostar. The hon. Gentleman should contact the company for an answer to his question at the following address:

Simon Montague
Director of Communications
Eurostar
Eurostar House
Waterloo
SE1 8SE.

Eurostar: Fares

Mr. Gale: To ask the Secretary of State for Transport what surcharge was applied to passengers taking weekend breaks in Paris and travelling by Eurostar from (*a*) Ebbsfleet and (*b*) Paddington. [179780]

Mr. Tom Harris: This is a matter for Eurostar who advise that it imposes no surcharges for travellers taking weekend breaks from any of its UK stations including Ashford International, Ebbsfleet International and St. Pancras International. Eurostar does not serve London Paddington.

Inland Waterways

Norman Baker: To ask the Secretary of State for Transport how many miles of waterways and canals have been lost for transportation purposes in each year since 1997. [178146]

Jonathan Shaw: I have been asked to reply.

None. On the contrary, the network of canals and waterways managed by our sponsored navigation bodies (British Waterways, the Environment Agency and the Broads Authority) has expanded by 150 miles since 1997. This is largely due to British Waterways' involvement in a number of restoration schemes. It is also currently involved in the restoration of a further 50 miles of canals.

We have no information on waterways managed by other navigation bodies.

London and South Eastern Railway: Fares

Mr. Gale: To ask the Secretary of State for Transport pursuant to the Strategic Rail Authority's Integrated Franchise Agreement Briefing Document, what the agreed ceiling for fare increases was for South Eastern Railway. [179759]

Mr. Tom Harris: The Stakeholder Briefing Document for the Integrated Kent Franchise, published by the Strategic Rail Authority in January 2005, stated that bidders had been asked to prepare proposals which anticipated either a continuation of the present fare structure (annual increases of 1 per cent. above the retail price index) or a fares regime that allowed tickets to be priced at 3 per cent. above the retail price index for the first five years of the franchise. Government would then decide which to proceed with once bids had been returned and a measure of the cost and affordability of each proposition was known.

Southeastern regulated fares have an overall cap of an annual average increase of 3 per cent. above the retail price index, or 6.8 per cent. for 2008.

Individual regulated fares can increase by more than the average and for Southeastern fares, the maximum is 8 per cent. above inflation. Therefore, individual regulated fares on South Eastern were permitted to rise by up to 11.8 per cent. for 2008, provided average increases were limited to RPI+3 per cent.

London and South Eastern Railway: Finance

Mr. Gale: To ask the Secretary of State for Transport how much subsidy South Eastern Railways received from her Department as a percentage of the income from the franchise in each of the last three years for which figures are available. [179781]

Mr. Tom Harris: It is not possible to provide figures regarding the percentage of subsidy to income. Franchise income is commercially sensitive information.

The amount of subsidy paid to London and South Eastern Railways can be found on the Department's website at:

http://www.dft.gov.uk/pgr/rail/passenger/franchises/franchisepaymentprofiles.

Motor Vehicles: Testing

David Wright: To ask the Secretary of State for Transport what steps she is taking to reduce the number of vehicles being driven on UK roads without a valid MOT certificate. [180722]

Jim Fitzpatrick: The 'new style' MOT certificates issued by testing stations come with a sticker setting out the expiry date of the MOT to help motorists comply with the requirement to have a valid MOT certificate. We are also exploring the potential for issuing reminder notices about MOT expiry dates as a further measure to support compliance.

We provide the police with access to the computerised record of MOT test results so that police officers can—for example during roadside enforcement operations—identify vehicles without a valid MOT using ANPR cameras and then take action.

David Wright: To ask the Secretary of State for Transport what estimate she has made of the number of vehicles on the road with no valid MOT certificate. [180723]

Jim Fitzpatrick: The most recent on the road survey was undertaken in March 2006 this showed that around 4.2 per cent. of vehicles in use on the road did not have a valid MOT. When applied to the whole vehicle fleet this would relate to around 1.2 million vehicles. The exercise is expected to be repeated this year.

Network Rail: Repairs and Maintenance

Mrs. Laing: To ask the Secretary of State for Transport what input she intends to have in the inquiry now being carried out by the Office of Rail Regulation into the January 2008 overruns of engineering works on the west coast route modernisation. [180491]

Mr. Tom Harris: The Office of Rail Regulation (ORR) has launched an urgent investigation into Network Rail's management of engineering projects, including the overrun of works on the west coast main line over the new year. It has sought representations from a number of interested parties, including the Department for Transport. The Department is happy to answer any questions of the ORR where this can be helpful to its investigation.

Road Length

Norman Baker: To ask the Secretary of State for Transport how many miles of *(a)* roads and *(b)* cycle lanes were constructed in England in each year since 1997, broken down by local authority area. [178136]

Ms Rosie Winterton: Data on lengths of roads constructed are not collected centrally.

The Department does make annual estimates of total road lengths by local authority and by road class. These are for total lengths only, so any change between years can be due to reclassification and closure of roads as well as new construction. It is not possible to identify how much of the change is due to construction only. The latest figures are published online at:

http://www.dft.gov.uk/pgr/statistics/datatablespublications/roadstraffic/roadlengths/regionclass/.

Information on the length of new cycle lanes constructed in England, outside London, for the financial years from 2001-02 to 2006-07 is set out in the tables, which have been placed in the Libraries of the House. These data have been collected only since 2001-02 and are provided in kilometres.

The information is provided by local authorities on an annual basis as part of their annual performance report on their local transport plans. It is not verified by the Department. Responsibility for the accuracy of the data rests with individual authorities. The data are incomplete and include some estimates.

Figures are not available for London boroughs but Transport for London report that around 550 km of the London Cycle Network+ were completed by April 2007 with a target of 900km due for completion by end 2010.

Roads: Lighting

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government has taken to encourage local councils to fund improved street lighting. [178468]

Ms Rosie Winterton: Over the 10 year period covered by the first and second Local Transport Plan rounds, the Department for Transport is providing more than £6.5 billion for highways maintenance to English highway authorities outside London, to cover a range of investment in the network including street lighting. In addition, we have allocated £1.4 billion in credits for street lighting PFI schemes, including £64.3 million recently announced for the Coventry Street Lighting PFI project. Revenue support grant can also be used to operate street lighting.

In a range of guidance and advice, the Government have encouraged local councils to consider how good street lighting adds to the character of an area, and can make an important contribution to, for example, reductions in accidents, crime or the fear of crime, or increased night-time mobility.

In addition, the Department is represented on the UK Lighting Board, which brings together national and local government, and which contributes to the dissemination of best practice in street lighting. The Department also endorses and promotes the board's code of practice on highway lighting management, "Well-lit Highways" (TSO, 2004).

Ministers and officials take many opportunities to engage with local authorities in this area. Most recently, I spoke to the 11th annual Institution of Lighting Engineers/Surveyor street lighting conference in December 2007.

Roads: Taxation

Mr. Burns: To ask the Secretary of State for Transport how many motor vehicles have been crushed for non-payment of road tax since the relevant provisions came into force. [179580]

Jim Fitzpatrick: The number of vehicles scrapped in the UK since 1997 is as follows:

	Number
1997 to 2001	39,304
2002	19,450
2003	34,024
2004	32,889
2005	39,181
2006	34,369
2007	46,126
Total vehicles scrapped	245,343

Safety Belts: Death

Chris Ruane: To ask the Secretary of State for Transport how many drivers aged 17 or under who died as a result of road traffic accidents were *(a)* wearing a seatbelt and *(b)* not wearing a seatbelt at the time of the accident in each of the past 10 years. [180130]

Jim Fitzpatrick: The information requested is not available.

Research reported in the published "Second Review of the Government's Road Safety Strategy" and "Road Safety Research Report No. 76: Trends in Fatal Car-occupant Accidents" both published on 26 February 2007, estimates that about a third of fatally injured car occupants were not wearing their seatbelts. For 2005 figures, it represents about 565 people, and it is estimated that about 370 people might have survived if they had been properly restrained. This research also reported that higher proportions of fatally injured car occupants were not wearing seatbelts in cars driven by young drivers. These reports are available at the following links and have also been deposited in the Libraries of the House:

http://www.dft.gov.uk/pgr/roadsafety/strategytargetsperformance/2ndreview/

http://www.dft.gov.uk/pgr/roadsafety/research/rsrr/theme5/76?version=2

A research report giving further details on seat belt wearing has also been published by TRL limited:

http://www.trl.co.uk/store/report_detail.asp?srid=6160&pid=220

Speed Limits: Driving Offences

Mr. Hoyle: To ask the Secretary of State for Transport how many people in Lancashire were referred for speed awareness courses in the most recent period for which figures are available; and how many people in Lancashire are due to take speed awareness courses. [180508]

Jim Fitzpatrick: This information is not held by the Department. The decision to offer a speed awareness course as an alternative to prosecution, is entirely a matter for the local police. The number of people referred for speed awareness courses or due to take them in Lancashire will therefore be a matter for the Lancashire police.

Trade Unions

Mr. Hoban: To ask the Secretary of State for Transport what meetings she had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179867]

Jim Fitzpatrick: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

Transport: Coventry

Mr. Greg Knight: To ask the Secretary of State for Transport what grants her Department has provided for transport infrastructure in Coventry in the last 12 months; and what future such grants are planned to be made. [180277]

Ms Rosie Winterton: The Department has provided local transport capital allocations for Coventry city council and the West Midlands Passenger Transport Authority for 2007-08 and has announced funding for 2008-09 to 2010-11, as shown in the following table.

The seven West Midlands metropolitan district councils and the PTA are free to redistribute most of their funding allocations among themselves if they so decide.

	2007-08	2008-09	2009-10	£ million 2010-11
Coventry CC—Highways Capital Maintenance	2.101	2.804	2.430	2.255
Coventry CC—Major Projects (Primelines)	8.961	1.933	0	0
Coventry CC—Integrated Transport	3.321	3.408	3.522	3.657
WMPTA—Integrated Transport	21.280	21.514	21.831	22.218

A grant of £2.043 million has been allocated for 2008-09 to capital maintenance on the detrunked sections of the A45 in Coventry. About 18 per cent. of the specific road safety grant which totals between £4.4 million and £4.7 million per year between 2007-08 and 2010-11 across the West Midlands metropolitan area is for capital projects, that is for transport infrastructure.

Additionally, the West Midlands urban traffic control system major scheme bid is currently being considered by the Department. The bid is still subject to final confirmation and approval, but should it be successful, a total of £26.6 million would be awarded covering the West Midlands Authorities.

£64.3 million of private finance initiative credits for the 25 year Coventry street lighting project have been announced.

In addition Coventry is benefiting from investment in strategic transport infrastructure including the west coast main line.

WOMEN AND EQUALITY

Departmental Data Protection

Mrs. Villiers: To ask the Minister for Women and Equality whether personal data for which the Government Equality Office are responsible are *(a)* stored and *(b)* processed overseas; and if she will make a statement. [176009]

Barbara Follett: The Government Equalities Office does not store or process any personal data overseas.

Discrimination

John McDonnell: To ask the Minister for Women and Equality what responsibility *(a)* she and *(b)* Ministers in other Departments have for policy on (i) racial, (ii) religious, (iii) disability and (iv) age discrimination. [174782]

Barbara Follett *[holding answer 17 December 2007]:* I refer my hon. Friend to the written ministerial statement made by my hon. Friend the Minister for the Cabinet Office on 18 October 2007:

http://www.publications.parliament.uk/pa/cm200607/cmhansrd/cm071018/wmstext/71018m0001.htm#07101814000009.

Government Equalities Office

Philip Davies: To ask the Minister for Women and Equality how much has been spent by the Government Equalities Office *(a)* in total and *(b)* on staff costs on promoting equality and diversity since it was established; and how many people are employed by the Office for this purpose. [173819]

Barbara Follett: The formation of the Government Equalities Office was announced on 26 July this year. In the 2007-08 financial year it, and its predecessor organisation, have spent £51.54 million in total to date.

Of this amount, £48.63 million was used to fund the Equality and Human Rights Commission, the Women's National Commission and the former Commissions for Racial Equality and Equal Opportunity.

As all of the work that the GEO does is concerned with promoting equality and diversity, all 61 of its permanent staff and six temporary staff are employed for this purpose.

In the 2007-08 financial year the GEO staff costs amounted to £1.94 million from 1 April to 30 November. This figure excludes staff costs paid by the commissions aforementioned.

The GEO currently has 61 permanent staff and six temporary staff in post. This excludes Private Office and the costs of legal staff working alongside the Office.

Figures are rounded to the nearest £10,000. Full-year figures are included as normal accounting conventions require them to be accounted for on a full-year basis.

Polygamy

Mrs. May: To ask the Minister for Women and Equality what estimate she has made of the number of recognised legal polygamous marriages in the United Kingdom. [174511]

Barbara Follett: A formal estimate has not been made although it is generally thought there are fewer than 1,000 legally recognised polygamous marriages within the UK.

Single Equalities Bill

Mr. Harper: To ask the Minister for Women and Equality when she expects to publish a draft of the Single Equalities Bill; and if she will make a statement. [179349]

Barbara Follett *[holding answer 15 January 2008]:* The Government have given a manifesto commitment to introduce a new Equality Act during the lifetime of this Parliament.

PRIME MINISTER

Members: Correspondence

Mr. Soames: To ask the Prime Minister when he expects to reply to the letters from the hon. Member for Mid Sussex on 26 September 2007 and on 13 November 2007 about Lord Kinnock; and what the reason is for the time taken in replying. [180620]

The Prime Minister: My right hon. and noble Friend Lord Kinnock continues to be an excellent chairman of the British Council. Speeches made at the Labour Party conference are not a matter for the Government.

NORTHERN IRELAND

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Northern Ireland what audits his Department and its agencies have carried out in relation to personal data and IT equipment in each of the last 10 years. [176489]

Mr. Woodward: The Northern Ireland Office has not performed any auditing of personal data in the last 10 years. In each of the last 10 years, my Department has maintained an asset register of IT equipment.

Internal Audit has not carried out specific audits of IT equipment. It has carried out the following audits of asset management which includes IT equipment within the scope.

NI Prison Service asset management audits in 2002-03 and in 2006-07

NIO core Department, an asset management audit was carried out in 2000-01

Audit logs of the following actions are maintained on our accredited systems.

System File access

Printing

Internet Access

Email

User Accounts

These audit logs are monitored on a weekly basis. However, this is one of the areas that will be investigated during the 2nd phase of the data handling procedures in Government review.

Departmental Pay

Sarah Teather: To ask the Secretary of State for Northern Ireland pursuant to the answer of 27 November 2007, *Official Report*, column 288W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 1997. [177182]

Mr. Woodward: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information, I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-51WS.

Information on the number and cost of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Missing Persons

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons are registered as missing in Northern Ireland, broken down by *(a)* age, *(b)* sex and *(c)* religion. [168540]

Paul Goggins: 68 persons were registered as missing in Northern Ireland as of early November 2007. Only a very small number of persons reported missing are not subsequently located.

Missing persons are dealt with at district level and the breakdown by age, sex and religion requested could not be provided without conducting a full examination of the records of each district, which could be carried out only at disproportionate cost.

Rape

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many recorded rapes there were in Northern Ireland in each of the last 10 years, and what percentage of those recorded rapes led to a conviction in each of those years, broken down by Police Service of Northern Ireland District Command Units. [174857]

Paul Goggins: The Government is committed to improving the rates of successful prosecution in rape cases. Specialist police units, staffed by highly skilled and trained personnel, are dedicated to enhancing the service to victims of rape and sexual assault and both PSNI and the Public Prosecution Service are seeking to develop models of best investigative practice so that more offences can achieve the threshold for prosecution.

The Northern Ireland Office and the Department of Health and Social and Personal Services have also jointly developed, and consulted on, a draft regional strategy for addressing sexual violence in Northern Ireland which will address these issues through a robust action plan delivering on strategic objectives in three key areas—crime prevention, better victim support and improved protection and justice measures. The strategy is to be published this spring.

Table 1 shows the number of rapes (including attempts) recorded by PSNI from 2001-02 to 2006-07 by DCU. As the DCU structure was only introduced in 2001-02, it is not possible to provide a breakdown by DCU prior to this year.

Table 2 shows the number of prosecutions, convictions and percentage conviction rate for rape by District Command Unit from 2000 to 2005 (the years for which figures are available).

Data are collated on the basis of the principal offence; so only the most serious offence with which an offender is charged is included.

It is not possible routinely to reconcile recorded crime data from PSNI with prosecution and conviction data. Data from PSNI relate to the number of offences, whereas data on prosecutions and convictions relate to the number of offenders brought before the courts. In addition, PSNI data denote each offence as it has been initially recorded, and this may differ from the offence for which a suspect or suspects are subsequently proceeded against in the courts. I therefore regret that a direct comparison between recorded rape and convictions for rape cannot easily be made.

Table 1: Number of rapes (including attempts) recorded by PSNI from 2001-02 to 2006-07 by District Command Unit

District Command Unit	Recorded 2001-02	Recorded 2002-03	Recorded 2003-04	Recorded 2004-05	Recorded 2005-06	Recorded 2006-07

CULTURE, MEDIA AND SPORT

Archaeology: Finance

Dan Rogerson: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the likely impact of Comprehensive Spending Review settlement on the portable antiquities scheme. [176799]

James Purnell *[holding answer 7 January 2008]:* The portable antiquities scheme (PAS) is funded by the Museums, Libraries and Archives Council (MLA) and so any decisions on its future funding are a matter for the MLA. The MLA has already committed to maintain current levels of support for the scheme for 2008-09. Since the 2004 Spending Review, the Department's funding allocation to the MLA has not included ring-fencing for the PAS.

Arts Council of England: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what the timetable is for finalising Arts Council England funding proposals to arts organisations, with particular reference to regional theatres. [179446]

James Purnell *[holding answer 16 January 2008]:* The Arts Council operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them.

Arts Council England gave arts organisations (including regional theatres) who have been notified of a proposal not to renew or to reduce their funding, until 15 January to respond. Regional councils will meet on the following dates to finalise proposals ahead of ratification by Arts Council England National Council on 29 January:

Date	Region
15 January	Yorkshire
21 January	North East
25 January	North West
23 January	East
24 January	East Midlands
23 January	West Midlands
24 January	London
24 January	South East
21 January	South West

Arts: Cumbria

Tim Farron: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effects on the cultural and creative sectors in Westmorland and Lonsdale constituency of the decision of the Northern Rock Foundation to cease co-funding of arts and heritage projects in partnership with Government agencies from 2008-09. [180202]

Margaret Hodge: The closure of any charitable grant programme is clearly regrettable. Funding for individual arts organisations is a matter for Arts Council England. They are aware of the potential impact and are in discussion with partners and arts organisations in the area.

Big Lottery Fund: Grants

Ben Chapman: To ask the Secretary of State for Culture, Media and Sport what projects were awarded money by the Big Lottery Fund in Wirral South in each of the last five years. [179645]

Mr. Sutcliffe: The list of projects awarded money by the Big Lottery Fund in Wirral South in each of the last five years is as follows:

2003-04

Metropolitan Borough of Wirral
Irby Golf Club Junior Section
Cheshire Wildlife Trust—Wirral Wildlife
Belvidere Centre/Wallasey Spastics and Physical Handicapped Association
Metropolitan Borough of Wirral
Barnstondale Centre
25th Birkenhead Scout Group
Bebington Citizens Advice Bureau Limited
The Lyndale School
Caldy Mini Rugby Club
Bebington Centre for Voluntary Service
Heygarth Primary School
Birkenhead Phab Club

2004-05

Heroes Return (19 awards)
The Merchant Navy—Wirral Branch
Stick n Step
Bebington 2nd Scouts
Dusted
Thornton Hough Women's Institute
Merseyside Squash Rackets Association
Bebington High Sports College (Wirral LEA)
Claire House Children's Hospice
Stanton Estate Residents Association
Employment Opportunities for People with Disabilities
Team Wirral Tracs
Upton By Chester and District Parish Council
The Cheshire Regiment Association Birkenhead and District Branch

2005-06

Heroes Return (five awards)
Foxfield School Parent Teachers Association
Stick n Step
Royal British Legion Port Sunlight Branch
Wirral Urban Farm Association
Liverpool Victoria Rowing Club
Thornton Hough Women's Institute
Royal British Legion West Cheshire and District
Bromborough U3A
Higher Bebington Royal British Legion Social Club Limited
Bebington Road Allotment Society
Royal British Legion (Willaston-in-Wirral Branch)
The Pensby and Kylemore Community Centres Association
Thornton Hough Village Hall
Bebington Citizens Advice Bureau Limited
Royal Engineers Association Birkenhead Branch
West Kirby Lions Club
Merseyside Asylum Seekers and Refuges Pre and Post Natal Support Group
The Bidston Preservation Trust
Crossroads in Wirral, Caring for Carers Ltd
Eastham Blades Junior Football Club
Nothing Rhymes with Poets
Caldy Mini Rugby Club
Bebington University of the Third Age
Royal Engineers Association Chester Branch
Wirral Pathfinders

2006-07

The Heswall Society
The Friends of Flaybrick Society
Meadowside School
Eastham Women's Institute
Bebington Day Centre Club
Royal Army Ordnance Corps Association (Merseyside Branch)
Wirral Sapphires Majorette Troupe
South Wirral High School
Clare Mount School
Bebington High Sports College SSCO

2007-08

Wirral Urban Farm Association
10th Birkenhead Scout Group
Mersey Basin Business Foundation
Friends of Dibbinsdale Local Nature Reserve
Weatherhead High School Media Arts College
Bebington Road Allotment Society
Millfields Primary School
Kings Regiment Association Liverpool
Stanton Road Primary School
Ellesmere Port Panthers Basketball Club
Port Sunlight Rugby Football Club Limited

Big Lottery Fund: Public Participation

Harry Cohen: To ask the Secretary of State for Culture, Media and Sport how many people voted for each project competing in the Big Lottery Fund People's £50 million Lottery contest. [179749]

Mr. Sutcliffe: A break down of votes registered for each project competing in the Big Lottery Fund People's £50 million Lottery contest is listed in the following table:

Project	*Number of votes*	*Percentage of total vote*
Eden Project: The Edge	34,559	12.07
Sustrans' Connect2	119,348	41.69
Sherwood: The Living Legend	48,822	17.05
Black Country Urban Park	83,556	29.19

Corporate hospitality

David Simpson: To ask the Secretary of State for Culture, Media and Sport on how many occasions he has accepted corporate hospitality in the last 12 months. [171317]

Margaret Hodge: Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

Departmental Recycling

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what weight of paper his Department recycled in each of the last five years. [179460]

Mr. Sutcliffe: The Department does not hold records for the last five years.

The Department introduced a new waste management system at its Cockspur street offices in January 2007.

The weight of recycled paper in 2007 was 52.24 tonnes.

National Lottery

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport if he will assess the appropriateness of deciding the allocation of lottery funding according to the results of telephone and e-mail votes. [178519]

Mr. Sutcliffe: People who play the lottery deserve to have a greater say in how lottery money is used. Telephone and e-mail voting is only one of the many ways that people are able to become involved in deciding where local lottery money is spent.

Not all lottery grants will be decided in this way, but is important that people have a genuine opportunity to influence where local lottery funding goes.

Lottery distributors are working together to identify best practice and to develop options for increasing public involvement in decisions about lottery funding themes and local lottery spending.

Olympic Games 2012

Mr. Dodds: To ask the Secretary of State for Culture, Media and Sport what he expects as the sporting legacy of the 2012 Olympics to be for Northern Ireland. [174910]

James Purnell: Sports policy in Northern Ireland, including the sporting legacy of the 2012 Olympic and Paralympic games, is a devolved matter, and is the responsibility of the Minister for Culture, Arts and Leisure. His officials participate fully in the London Organising Committee for the Olympic and Paralympic games (LOCOG) Nations and Regions Group and all other associated steering groups.

Sports: Databases

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what the total cost to public funds was of the Active Places database in each year for which figures are available. [178943]

Mr. Sutcliffe: The initial costs for Active Places for the first three years between 2004 and 2007 was £5.2 million. The budget for the current financial year 2007-08 is £1.1 million which is spent on data maintenance, data acquisition, systems development and hosting.

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the percentage of all UK sports facilities that are currently on the Active Places database; and if he will make a statement. [178944]

Mr. Sutcliffe: Unfortunately it is not possible to estimate the percentage of UK sports facilities on Active Places, as it is only applicable to England. The database currently holds information on 11 sport facility types. Sport England estimates that over 80 per cent. of formal sport in England takes places on these types of facilities and that Active Places database includes over 90 per cent. of these facilities. The Sports Council for Northern Ireland has developed its own version of Active Places and the Sports Council for Wales is currently developing a version as well.

Tourism: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of *(a)* UK and *(b)* overseas tourists visiting Cleethorpes in each of the last five years. [179714]

Margaret Hodge: The tables show *(a)* the number of domestic overnight trips to the Yorkshire region and *(b)* the number of overseas visits to the Northern Lincolnshire region for the latest years for which data is available.

Information on visits at constituency or ward level by domestic and foreign tourists is not available.

Domestic overnight trips by UK residents[1]

	Yorkshire[2] *(million)*
2002	12.2
2003	13.1
2004	10.0
2005	11.9
2006	10.1

[1] The methodology for the UKTS changed in 2005 meaning that comparisons with previous years should be treated with caution. This change occurred as a result of concerns with the quality of 2004 data, which is thought to be an under-representation of the true position.

[2] North Yorkshire, West Yorkshire, South Yorkshire, West East Riding of Yorkshire, Kingston-upon Hull, North Lincolnshire and North-East Lincolnshire.

International Passenger Survey (ONS)

COMMUNITIES AND LOCAL GOVERNMENT

Allotments

Dr. Tony Wright: To ask the Secretary of State for Communities and Local Government what steps the Government is taking to increase the availability of allotments. [179163]

Mr. Iain Wright: The provision of allotments is the responsibility of local authorities. The Smallholdings and Allotments Act 1908 places a duty on local authorities to provide allotments where they perceive demand for them in their area.

Planning Policy Guidance Note 17 (Planning for Open Space, Sport and Recreation) requires local authorities to assess the needs of their communities for a range of open spaces, and to address any identified deficiencies. It also suggests that authorities should allocate sites within their plans for the provision of new open spaces.

To further support local authorities, we are currently revising the good practice guide for the management of allotments in conjunction with the Local Government Association.

Arm's Length Management Organisations

Mr. Betts: To ask the Secretary of State for Communities and Local Government whether under Clause 225, sub section (2) of the Housing and Regeneration Bill a specified person to whom management functions of a registered provider may be transferred could be an arm's length management organisation. [179370]

Mr. Iain Wright: I can confirm that the new management transfer power proposed for the social housing regulator OFTENANT at clause 225 of the Housing and Regeneration Bill permits the regulator to transfer management functions of social housing owned by a registered provider to any other specified person (that is, any organisation). This includes arm's length management organisations.

Clause 225 is a new power recommended by the Cave Review of social housing regulation. It gives OFTENANT the power to address systematically poor management without transferring ownership of the assets. The power could be used in respect of all a provider's homes or a proportion of them, so it could be used to address issues on a specific estate. The owner of the homes would be subject to the regulatory regime and would ensure the managing agent met any relevant standards. This power could only be exercised following an inquiry under clauses 183 to 186 and is subject to appeal to the High Court.

Similarly, if OFTENANT directed the registered provider to put social housing management functions out to competitive tender, under clause 223, an arm's length management organisation could tender for the work and be selected as manager.

Cheshire County Council: Reorganisation

Mrs. Dunwoody: To ask the Secretary of State for Communities and Local Government what estimate of the cost of the re-organisation of Cheshire County Council has been made by her Department; and if she will publish the information on which this estimate is based. [180205]

John Healey: The Secretary of State has assessed the financial estimates made by Cheshire county council and certain Cheshire district councils in connection with their proposals for the creation of unitary authorities in Cheshire. Those estimates were made public by the councils on their websites.

Community Centres: Closures

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many *(a)* village halls and *(b)* community centres closed permanently in each of the last 10 years. [180387]

John Healey: The information requested is not held centrally and could be provided only at disproportionate cost.

Community Relations: Emergency Services

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government whether consideration has been given to establishing wardens to co-ordinate between local communities and the emergency services in the event of a civil disaster. [172058]

Gillian Merron: I have been asked to reply.

The Civil Contingencies Act (2004) requires frontline responders (eg the emergency services, Environment Agency and local authorities) to ensure effective arrangements are in place to protect their communities in an emergency, which includes how best to involve their communities to meet the needs of the local area.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many posters or displays there are in the offices of her Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179839]

Mr. Dhanda: The Department for Communities and Local Government has spent £5,402 plus VAT on display boards which show the names and photographs of Ministers in the foyers of the Department's two main central London buildings.

Information for our agencies is not held centrally and could be provided only at disproportionate cost.

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether *(a)* the authorised or *(b)* required elements of a home information pack will inform buyers of the potential impact of underground works, such as the new Crossrail development. [173289]

Yvette Cooper: Information on proposed railway or road schemes, which may involve underground works, forms part of the property search dealing with inquiries made of local authorities. This search is a required element of the home information pack.

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the effect on the housing market of the introduction of home information packs. [174317]

Yvette Cooper: I refer the hon. Member to the home information packs update written ministerial statement made on 22 November 2007, *Official Report*, columns 140-42WS.

Mr. Stephen O'Brien: To ask the Secretary of State for Communities and Local Government what assessment she has made of the potential use of home information packs to be made by lawyers in the conveyancing process. [175355]

Yvette Cooper: The home information pack (HIP) includes evidence of title and standard local searches. Providing it in a HIP will mean this information will be available for lawyers at the start of the conveyancing process. Many solicitors have also become pack providers.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether *(a)* the authorised and *(b)* required elements of a home information pack will inform buyers of the potential impact of underground works. [176604]

Yvette Cooper: I refer the hon. Member to the answer given today (PQ 173289).

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which three mortgage lenders from the top 30 do not accept personal searches in a home information pack. [176612]

Yvette Cooper: The information requested is contained in the Council of Mortgage Lenders Handbook which sets out individual lenders' policies on acceptance of personal searches.

Home Information Packs: Pilot Schemes

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) whether the full conclusions of each geographic dry run for home information packs will be published *(a)* by the end of 2007 and *(b)* before home information packs are extended to one or two bedroomed homes; [173221]

(2) whether IPSO-MORI have concluded their work on the home information pack dry-run and pilot research. [173286]

Yvette Cooper: I refer the hon. Member to the home information packs update written ministerial statement made on 22 November 2007, *Official Report*, columns 140-42WS.

IPSOS-MORI is still in the process of finalising its conclusions and a copy of the research report will be placed in the House Library once the project has been finalised.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government in what locations home information pack pilots and dry-runs took place; and over which periods of time in each case. [176178]

Yvette Cooper: The Department's area trials began in Bath, Newcastle, Southampton, Northampton, Huddersfield and Cambridge from 6 November 2006 with trials in the London borough of Southwark and North West Wales commencing on 12 February 2007. The final phase, including processing the information and drawing conclusions is still being finalised by IPSOS-MORI.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government (1) whether the full conclusions of each geographic dry run for home information packs will be published *(a)* by the end of

2007 and *(b)* before home information packs are extended to one or two bedroom homes; [176590]

(2) whether IPSO-MORI have concluded their work on the Home Information Pack dry-run and pilot research; [176600]

(3) what the timetable is for the publication of the results of the pilot studies from the Home Information Pack dry run. [176177]

Yvette Cooper: I refer the hon. Member to the home information packs update written ministerial statement made on 22 November 2007, *Official Report*, columns 140-42WS.

IPSOS-MORI is still in the process of finalising its conclusions and a copy of the research report will be placed in the Library of the House once the project has been finalised.

Homes and Communities Agency

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what powers the Homes and Communities Agency will have in relation to the provisions of *(a)* regional spatial strategies, *(b)* local authority local development frameworks and *(c)* the Mayor of London's spatial plan for the purposes of development under its oversight. [171646]

Yvette Cooper: The Housing and Regeneration Bill makes provision for the Homes and Communities Agency to have a role in relation to regional spatial strategies and local development frameworks in specified circumstances.

Clause 18 of the Bill adds the Homes and Communities Agency to section 4 of the Planning and Compulsory Purchase Act 2004 so that if the Homes and Communities Agency has been made the local planning authority for any area that falls within the responsibility of the Regional Planning Board (for example as English Partnership has in Milton Keynes), the Regional Planning Board must seek the agency's advice when revising the regional spatial strategy, or when reviewing and monitoring its implementation.

Clause 13 of the Bill gives the Secretary of State the power to designate an area and in doing so may confer specified planning functions upon the Homes and Communities Agency. The functions which may be conferred upon the Agency are set out in clause 14 and include powers in relation to the production and maintenance of local development documents. The Agency will not have any powers in relation to local development frameworks at the outset and are only likely to be conferred in exceptional circumstances.

The Agency has been given no specific powers in relation to the Mayor of London's spatial plan, nor does the Bill make provision to confer planning functions on the Agency in relation to that plan where an area within Greater London is designated under clause 13.

Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many domestic dwellings are on the valuation list in England. [180161]

John Healey: The number is 22,418,512 as at 5 November 2007.

Housing Data Domain Group

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the answer of 16 October 2007, *Official Report*, column 1035W, on the Housing Data Domain Group, if she will place in the Library a copy of the minutes of the meeting of the Neighbourhood Statistics: Housing Data Domain Group of 2 October 2006. [176455]

Mr. Iain Wright: The minutes of the Neighbourhood Statistics Housing Data Domain Group meeting of the 2 October 2006 have been placed in the Library of the House.

Housing: Carbon Emissions

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what steps she plans to take to minimise the increased greenhouse emissions that will arise from the implementation of the new housing programme proposed to be taken forward under provisions within the Housing and Regeneration Bill. [172805]

Yvette Cooper: We have committed to an ambitious timetable for improvements to the carbon standard of new homes so that from 2016 all new homes will be zero carbon. In 2010 and 2013 we will improve the carbon standard as set out in building regulations by 25 per cent. and 44 per cent. respectively, compared to current building regulations.

We have also made the commitment that all new homes developed by English Partnerships or with direct funding from the Government's housing growth programmes are now being built to level 3 of the Code for Sustainable Homes. Additionally, Housing Corporation funded homes built by registered social landlords will, from the start of the next national Affordable Housing programme (beginning April 2008) comply with level 3 of the Code. As well as producing 25 per cent. less carbon than homes built to current building regulations, these homes will also be designed to minimise their environmental impact outside of carbon emissions in areas such as the water they use, the waste they generate and the materials that they are built from.

Furthermore, the industry, together with local authorities and other stakeholders have been invited to come forward with proposals for eco-towns. Eco-towns will be entirely new settlements which are exemplar "green developments" of 5,000 to 20,000 homes and designed to meet the highest standards of sustainability. The development as a whole (including all homes) should reach zero carbon and should use the standards set out in the Code for Sustainable Homes as a guide.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what records her Department keeps of the number and location of zero carbon homes. [176194]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Meriden (Mrs. Spelman) on 24 January 2007, *Official Report*, column 1904W.

Housing: Elderly

Tim Farron: To ask the Secretary of State for Communities and Local Government if she will bring forward proposals to amend Article Six of Annex A to Planning Policy Statement 7 to enable the provision of retirement dwellings for farmers in rural areas. [179342]

Mr. Iain Wright *[holding answer 15 January 2008]:* The Government have no plans to amend paragraph 6 of annex A of Planning Policy Statement 7, which deals with the circumstances in which agricultural needs may justify the provision of new dwellings in isolated locations.

Planning Policy Statement 3 (PPS3) highlights the need for local authorities to plan for the provision of market and affordable housing in rural areas that contributes to the creation and maintenance of sustainable rural communities in market towns and villages. PPS3 also sets out how local authorities in rural areas could use the rural exception site policy to deliver solely affordable housing on sites which would not normally be used for housing, and for that housing to be kept as affordable in perpetuity.

Housing: Energy

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many energy performance certificates have been logged on the Energy Performance Certificate database. [176230]

Yvette Cooper: The number of energy performance certificates which have been logged on the database up to 2 January 2008 is 257,820.

Housing: Floods

Mr. Hancock: To ask the Secretary of State for Communities and Local Government on which of the flood plain areas identified by the Environment Agency in the South East she expects housing to be built in the next 10 years. [165863]

Yvette Cooper: The Government's policy set out in Planning Policy Statement 25 (PPS25) is to strengthen protection against flooding.

It will be for local planning authorities to determine applications for housing development in their areas. Decisions should be made in light of the policies in their local development frameworks, supported by strategic flood risk assessments prepared in consultation with the Environment Agency, and in accord with the principles of PPS25.

Housing: Inspections

James Duddridge: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of *(a)* home inspectors and *(b)* domestic energy assessors required under the roll-out of home information packs; and how this estimate was calculated. [176087]

Yvette Cooper: I refer the hon. Member to the home information packs update written ministerial statement made on 22 November 2007, *Official Report*, columns 140-42WS.

Housing: Low Incomes

Tim Loughton: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the availability of housing provided through Government funded schemes for *(a)* nurses, *(b)* teachers, *(c)* police officers, *(d)* firefighters and *(e)* paramedics in (i) East Worthing and Shoreham and (ii) West Sussex. [161914]

Yvette Cooper: Key workers have priority access to all of the Government's low cost home ownership products.

In June 2007, we published the Housing Green Paper: "Homes for the future: more affordable, more sustainable" in which I announced £8 billion for affordable housing during the comprehensive spending review period. This represents a 58 per cent. increase on current spending. The funding will enable us to deliver 70,000 more affordable homes by 2010. We are also committed to providing 45,000 new affordable homes for rent by 2010-11 (a 50 per cent. increase) and 25,000 shared ownership and shared equity homes a year funded by the Housing Corporation. In addition, we will look to support additional shared ownership homes through public sector land and local housing companies.

Tim Loughton: To ask the Secretary of State for Communities and Local Government how much was spent on the advertising, promotion and marketing of the Key Worker Living Scheme in *(a)* East Worthing and Shoreham and *(b)* West Sussex in each year since its inception. [161922]

Yvette Cooper: We do not centrally hold on this data on how much was spent on the advertising, promotion and marketing of the Key Worker Living programme. HomeBuy Agents are responsible for the marketing of low cost home ownership schemes, including the Key Worker Living programme.

Tom Brake: To ask the Secretary of State for Communities and Local Government what assessment she has made of the likely effect on provision of low-cost residential housing in each London constituency of home information packs for one and two bedroomed homes; and if she will make a statement. [173487]

Yvette Cooper: I refer the hon. Member to the written ministerial statement 'Home Information Packs' made on 22 November 2007, *Official Report*, columns 140-42WS.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many *(a)* housing associations and *(b)* councils offer the Social Homebuy Scheme to their social tenants. [176182]

Yvette Cooper: I refer the hon. Member to the answer given on 29 October 2007, *Official Report*, column 665W.

Housing: Torbay

Mr. Sanders: To ask the Secretary of State for Communities and Local Government what the reasons were for the 100 per cent. increase in housing development expected in Torbay proposed by her appointed panel in the South West Regional Spatial Strategy; and if she will make a statement. [179704]

John Healey: The Panel's reasons for their recommended increase are set on page 118-119 of the report. My right hon. Friend the Secretary of State is currently considering all the recommendations made by the Panel and she is planning to publish her proposed changes to the draft regional spatial strategy in the spring. No conclusions have yet been reached on any of the Panel's recommendations.

Land: Contamination

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what involvement *(a)* she, *(b)* other Ministers in her Department and *(c)* officials of her Department have with the Urban Regeneration and the Environment programme run by the Natural Environment Research Council; and what account has been taken of that programme in the programme of clean-up of contaminated sites being remediated for development. [167817]

Mr. Iain Wright: The Chief Scientific Adviser of the Department worked with the co-ordinator of the NERC Urgent programme and the head of research and analysis of the Local Government Association to produce a four-page glossy digest of key findings of Urgent—distilled from 31 scientific papers—prepared explicitly for the heads of environment, parks and engineering at every local authority. The publication can be found on the NERC website at:

http://www.nerc.ac.uk/publications/other/documents/urgent.pdf.

The chief scientific adviser of the Department and the head of analysis at the Local Government Association hope to be able to repeat this exercise for the current Engineering and Physical Sciences Research Council programme on the sustainable urban environment.

The Local Authority Research Council Initiative has been relaunched with CLG as a member, and a project of work, led by the chief scientific adviser of CLG, is being developed that will enable members of local authorities to become more sophisticated in articulating the research agenda they would like to see undertaken in universities rather than just receiving what comes out from work that the universities decide to undertake.

The Department sets out national planning policy for England for development on land affected by contamination in Planning Policy Statement 23: Planning and Pollution Control and its Annex 2: Development on Land Affected by Contamination. They can be found on the Department's website at:

http://www.communities.gov.uk/planningandbuilding/planning/planningpolicyguidance/planningpolicystatements/planningpolicystatements/pps23/.

Local Authorities: Rodents

Sir Peter Soulsby: To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to local authorities and registered social landlords on dealing with mice and rat infestations in residential properties. [178040]

Mr. Iain Wright: Infestations from mice, rats and other vermin are hazards covered by the Housing Health and Safety Rating System (HHSRS) which came into force in April 2006. This replaced the fitness standard as the regime governing the statutory minimum standards for housing.

In February 2006 the Department published the documents "Housing Health and Safety Rating System: Operating Guidance, Housing Health and Safety Rating System: Enforcement Guidance" and "Housing Health and Safety Rating System: Guidance for landlords and property related professionals".

Local Government Finance: Leisure

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how many local authorities applied for funding from her Department to help fund local leisure facilities in each of the last five years. [179767]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Local Government: Reorganisation

Mrs. Dunwoody: To ask the Secretary of State for Communities and Local Government what criteria govern the re-organisation of local government; when they were established; and what changes there have been to them since December 2007. [180204]

John Healey: The criteria against which the Secretary of State considered proposals for unitary status, were published in the "Invitation to councils in England: to make proposals for future unitary structures", published in October 2006. These criteria have not changed since then.

Planning Permission

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what assessment *(a)* she and *(b)* her agencies have made of the effect of requiring planning permission for second homes on house prices. [176208]

Mr. Iain Wright: None.

Planning Permission: Biofuels

Bob Spink: To ask the Secretary of State for Communities and Local Government what planning applications for biodiesel production plants have been referred to planning inspectors in each of the last five years. [179245]

Mr. Iain Wright: The following table shows the number of planning appeals decided by planning inspectors during the last five financial years which involve biodiesel or biomass plants.

	Appeals decided	*Number allowed*	*Percentage allowed*
2003-04	3	3	100
2004-05	0	0	—
2005-06	2	1	50
2006-07	0	0	—
2007-08 (to date)	3	2	67

Recycling: Christmas

Sarah Teather: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of local authorities providing recycling services for *(a)* Christmas trees and *(b)* Christmas cards. [178928]

Joan Ruddock: I have been asked to reply.

Christmas trees are recycled through a number of routes. Both local authorities and businesses offer facilities where individuals can deposit their Christmas trees. Many local authorities offer either specific collection points or operate a green waste collection following Christmas and collect trees through this route, but my Department does not hold details of the exact number doing so.

205 local authorities in England collect cards at the kerbside as part of their dry recycling collection scheme. The Woodland Trust also promotes a dedicated Christmas cards collection scheme in association with WHSmith, Tesco, TK Maxx and Marks and Spencer. Last year, 93 million cards were collected through the Woodland Trust scheme, saving 2,400 tonnes of CO_2. This is equivalent to taking over 700 cars off the road for a year.

Regional Government: Ministers

Mrs. May: To ask the Secretary of State for Communities and Local Government if she will list the constituencies visited by the Minister for *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and the Humber, *(d)* London, *(e)* the South East, *(f)* the South West, *(g)* the East Midlands, *(h)* the West Midlands and *(i)* the East of England in their capacity as regional Ministers.[1] [177442]

Hazel Blears: In their capacity as regional Minister, the Minister for the region has visited or attended meetings in the following constituencies. Due to the role of regional Minister, which involves regional or sub-regional meetings, the Minister may not have visited a constituency per se, but attended a meeting held in that area.

(a) North East

Blaydon
Blyth Valley
City of Durham
Easington
Hexham
Houghton and Washington East
Jarrow

Regional Planning and Development

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the estimated date is by which every local planning authority in England will have completed its local development framework. [176184]

Mr. Iain Wright: The work programmes for local planning authorities (called local development schemes) are drawn up by the authorities themselves and cleared by regional government offices. Each is different: each is intended to be tailored to the individual needs of the area. Every LDF includes a core strategy as the key overarching document but other plans vary according to circumstances. Projections are not easy to make with total accuracy but I currently expect over 90 per cent. of core strategies to be adopted by March 2011, 99 per cent. by March 2012 and 100 per cent. by March 2013.

Sustainable Development: Northstowe

Mr. Pickles: To ask the Secretary of State for Communities and Local Government for what reasons Northstowe was not adopted as an eco-town. [171718]

Yvette Cooper: The proposal for a new settlement at Northstowe was put forward by local authorities in Cambridgeshire (Cambridgeshire county council, South Cambridgeshire district council and Cambridge city council) and adopted in the Cambridgeshire structure plan in 2003, and taken forward in 2006 through the South Cambridgeshire Core Strategy and an area action plan all of which predate the eco-towns programme. I understand that a planning application, being taken forward by English Partnerships and Gallaghers, who jointly own most of the area for development is expected shortly. The ambition is for Northstowe to be an early prototype for eco-towns including being an exemplar of sustainability in the use of renewable energy resources and reducing carbon emissions.

Urban Areas: Carbon Emissions

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what plans she has for eco-pubs and eco-clubs to operate in eco-towns. [166739]

Yvette Cooper: The Eco-towns Prospectus published in July 2007 sets out the vision for these new settlements, which must include a good range of facilities and services for their communities. The specific facilities such as pubs and clubs will be a matter for the promoters of schemes to determine but it is a key objective of the scheme that the development as a whole should achieve zero carbon. The Government expect eco-towns to lead the way in design and sustainability of the town and its buildings, leisure and commercial as well, as housing, and have announced a competition to encourage the best design for all aspects of the new eco-towns.

Urban Areas: Sustainable Development

Grant Shapps: To ask the Secretary of State for Communities and Local Government what assessment she has made of the implications for infrastructure provision of each eco-town proposal. [174466]

Yvette Cooper: We are currently undertaking a cross-Government review of the eco-towns expressions of interest and expect publish proposals in the spring. As part of the review, we are assessing proposals against the criteria set out in the Eco-town prospectus, and this includes transport, land use and the infrastructure needed to make the development deliverable and sustainable.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes have been proposed in each eco-town proposal. [174536]

Yvette Cooper: We have received over 50 expressions of interest for eco-towns. The housing provision in each proposal is indicative at this stage, but ranges between 5-20,000 in most proposals, which is in line with the eco-town criteria.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what assessment she has made of the balance between the use of greenfield and brownfield land in each eco-town proposal. [174537]

Yvette Cooper: We are currently undertaking a cross-government review of the eco-towns expressions of interest and expect to publish proposals in the spring. There have been over 50 expressions of interest including both green and brown field land, including using surplus public land like disused barracks.

INTERNATIONAL DEVELOPMENT

ACP Countries: EU External Trade

Mr. Clifton-Brown: To ask the Secretary of State for International Development if he will make representations to the EU for alternatives to be offered to African, Caribbean and Pacific countries unable to conclude European partnership agreements by 31 December 2007. [179735]

Mr. Thomas: 35 African, Caribbean and Pacific countries signed an Economic Partnership Agreement before the end of 2007 deadline. A further 32 least developed countries (LDCs) have chosen to trade under the Everything But Arms initiative, benefiting from duty free quota free access into European Union markets. The remaining 10 non-LDC ACP countries may still sign an EPA during 2008-09 and the UK continues to urge the Commission to be flexible in these negotiations. On 10 December, the UK, along with the Netherlands, Denmark and Ireland, made a declaration setting out our continued concern for non-LDCs who had not then initialled an agreement and urged the Commission to show flexibility.

For the 10 non-LDCs that have not signed an EPA we expect minimal, if any, trade disruption due to their current trade patterns with the EU. However, if these countries do request an alternative, it remains the UK position, as set out in 2005, that the European Commission should be ready to provide a WTO-compatible alternative to an EPA.

Africa: International Assistance

Lyn Brown: To ask the Secretary of State for International Development whether the political unrest in Kenya has had any impact upon his Department's funded projects in *(a)* the Democratic Republic of Congo, *(b)* Burundi, *(c)* Uganda and (d) Sudan. [179488]

Mr. Thomas: The political unrest in Kenya has currently had no direct impact on DFID funded programmes in the Democratic Republic of Congo, Burundi, Uganda or the Sudan. However, we continue to monitor the situation closely given the potential impact—in particular on fuel supplies and prices.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for International Development whether personal data for which his Department is responsible is *(a)* stored and *(b)* processed overseas; and if he will make a statement. [176017]

Mr. Thomas: DFID has a number of small databases which are maintained for internal operational purposes in its overseas offices, including some which contain personal data relating to DFID staff. No personal data for which DFID is responsible is either stored or processed overseas outside DFID offices.

Mrs. Villiers: To ask the Secretary of State for International Development what obligations his Department and its agencies place on contractors in relation to the audit of personal data and IT equipment. [176466]

Mr. Douglas Alexander: Contracts awarded by DFID include standard terms and conditions which place obligations on contractors in relation to confidentiality of information, security of equipment and auditing requirements. These clauses specify contractors must have prior written consent from

DFID to disclose any confidential information obtained during or arising from the contract, that DFID and the National Audit Office have unrestricted access to their accounts, files and records and that the Official Secrets Acts apply to them. For higher value IT contracts, DFID has built in additional data protection clauses, which require the contractor to comply with the Data Protection Acts.

Mrs. Villiers: To ask the Secretary of State for International Development what audits his Department has carried out in relation to personal data and IT equipment in each of the last 10 years. [176474]

Mr. Thomas: Within the last 10 years, DFID has carried out the following specific audits relating to personal data and IT equipment:

	Audit
1998	Information management
	Information systems configuration management
1999	Asset control
2006	Asset management, disposal and accounting
2007	Data security assurance

In addition, DFID's Internal Audit Department reviews the local operation of controls over IT assets and data management as part of a rolling programme of administrative audits across DFID's overseas offices.

The National Audit Office also reviews controls over information assets to the extent necessary for its audit of DFID's financial statements.

EU External Trade

Mr. Clifton-Brown: To ask the Secretary of State for International Development what steps he is taking to ensure that the European Commission observes World Trade Organisation rules on *(a)* most favoured nation and *(b)* Singapore terms clauses within European partnership agreement negotiations. [R] [179731]

Mr. Thomas: The recently agreed Economic Partnership Agreements (EPAs) between the EU and African, Caribbean and Pacific countries are compatible with the World Trade Organisation (WTO) rules on Free Trade Areas in Article XXIV of the General Agreement on Tariffs and Trade. There are no WTO rules on Investment, Competition, Transparency in Government Procurement and Trade Facilitation (otherwise known as the Singapore Issues) or on most favoured nation clauses in free trade agreements.

Palestinians: EU Aid

Richard Burden: To ask the Secretary of State for International Development if he will place in the Library the final statement of the International Donors Conference for the Palestinian State held in Paris on 17 December 2007. [178367]

Mr. Malik: A copy of the statement will be placed in the Library. It is also available at:

www.diplomatie.gouv.fr/en/country-files_156/israel-palestinian-territories_290/peace-process_2155/conference-of-donors-for-the-palestinian-territories-17.12.07_10439.html

Tanzania: Overseas Aid

Mr. Gale: To ask the Secretary of State for International Development how much the UK Government paid in aid to Tanzania in each of the last five years; what proportion of that aid was paid directly to the government of Tanzania; what proportion of the aid was project-specific; what projects were funded by UK aid; and if he will make a statement. [178321]

Mr. Douglas Alexander *[holding answer 21 January 2008]:* Details of the UK's bilateral assistance and imputed multilateral assistance to Tanzania over the last five years are laid out in the following tables.

The majority of the UK's bilateral assistance to Tanzania is provided direct to the Government of Tanzania in the form of Poverty Reduction Budget Support (PRBS). We provide significant levels of PRBS as Tanzania meets the requirements of the UK's Conditionally Policy, namely, a commitment to poverty reduction, a respect for human rights and a credible reform programme in place, including of public financial management. The UK regularly monitors Tanzania's continued adherence to this policy, including throughout the year with the 13 other budget support donors and also using a range of diagnostic tools (for example, the World Bank's Public Expenditure and Financial Accountability indicators) and independent surveys of corruption. We also use international and local data on poverty reduction to assess the progress the Government of Tanzania are making in improving the lives of their people.

In addition to PRBS, the UK provides significant support to the Government of Tanzania's efforts to reform, improve public financial management and tackle corruption. For example, the UK has just agreed to provide £20 million over the next four years to support the Government's public service reforms and build their capacity to deliver basic services to the poor.

In addition to our support direct to Government, the UK provides significant project and programme support to strengthening accountability and deepening democracy in Tanzania, including through support for

civil society, the media and Parliament. Levels of scrutiny within Tanzania have significantly increased in the last two years. Alongside this, the UK supports the private sector to deliver the continued economic growth Tanzania needs to lift itself out of poverty in the long-term.

Table 1: UK total bilateral gross public expenditure (GPEX) on development 2002-03 to 2006-07

	Total UK bilateral GPEX to Tanzania (£000)	*Proportion going directly to Government of Tanzania (percentage)*	*Proportion delivered as DFID poverty reduction budget support (percentage)*	*Other DFID programme and project specific (percentage)*	*Aid from other UK official sources (percentage)*
2002-03	102,614	74	44	49	7
2003-04	162,372	41	37	13	51
2004-05	130,009	66	50	24	26
2005-06	114,134	92	74	24	1
2006-07	115,023	90	78	19	2

Note
Rows may not sum due to rounding.

I have placed a table in the Library detailing the UK's bilateral projects in Tanzania over the last five years.

Table 2: Imputed UK share of multilateral official development assistance (ODA) 2001-05

	Tanzania (£000)
2001	23,114
2002	10,738
2003	76,356
2004	28,066
2005	36,645

Trade Unions

Mr. Hoban: To ask the Secretary of State for International Development what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179860]

Mr. Douglas Alexander: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

Zimbabwe: Migration

Mr. Clifton-Brown: To ask the Secretary of State for International Development pursuant to the answer of 18 December 2007, *Official Report*, column 1234W, on Zimbabwe: asylum, what assistance is being provided to *(a)* Zambia, *(b)* Mozambique and *(c)* Botswana to assist in dealing with immigrants from Zimbabwe. [179076]

Mr. Thomas: The information is as follows.

Zambia

The International Organisation for Migration (IOM) has recently undertaken a rapid assessment of the patterns and impact of Zimbabwean migrants at the Chirundu border post. Depending on the results of the survey, DFID Zambia will consider funding an IOM support centre at the border post to provide humanitarian assistance to irregular migrants and other vulnerable groups in the area.

Mozambique

I refer the hon. Member to my answer of 30 October 2007, *Official Report*, column 1063W. As yet there has been no authoritative assessment on the numbers of Zimbabwean immigrants in Mozambique. Cross border movements continue and IOM, Save the Children and UNICEF are monitoring the situation. UNHCR stands ready to help anyone that registers as a refugee, but as yet no one has. DFID Mozambique also stands ready to assist and is currently assessing the needs of those worst affected by the floods in the areas bordering Zimbabwe.

Botswana

IOM is constructing a reception centre on the border to provide humanitarian assistance to Zimbabweans deported from Botswana. In line with the centre at Beitbridge in South Africa, referred to in my answer of 18 December 2007, *Official Report*, column 1234W, the centre will provide a meal, medical check up, transport home and information on safe migration.

SCOTLAND

Departmental Ministerial Policy Advisors

Mr. Hoban: To ask the Secretary of State for Scotland whether any of his Department's special advisers also work for organisations outside his Department. [178472]

David Cairns: Special advisers are appointed under terms and conditions set out in the "Model Contract" and "Code of Conduct for Special Advisers", copies of which are in the Library of the House.

Devolution

Mr. Carmichael: To ask the Secretary of State for Scotland whether he has any plans *(a)* to review the Scotland Act 1998 and *(b)* for further devolution of powers to the Scottish Parliament. [179953]

David Cairns: The Scotland Act 1998 is working well to secure the benefits of devolution within the United Kingdom for Scotland. Flexibility has always been contained in the Scotland Act and the Government will continue to be willing to adjust the settlement, using the powers contained within the Scotland Act, in whatever way is appropriate in the interests of good government. We will only make changes that strengthen the stability of the Union.

Fuels: Prices

Mr. Carmichael: To ask the Secretary of State for Scotland what recent discussions he has had with HM Treasury colleagues on fuel costs in rural Scotland; and if he will make a statement. [179951]

David Cairns: My right hon. Friend and I have regular discussions with our Treasury colleagues on a range of issues.

Railways

Mr. Carmichael: To ask the Secretary of State for Scotland what recent discussions he has had with the Scottish Executive on the development of high speed rail to Scotland; and if he will make a statement. [179952]

David Cairns: The Secretary of State has had no recent discussions with the Scottish Executive on the development of high speed rail to Scotland.

The Department for Transport White Paper "Delivering a Sustainable Railway" published on 24 July 2007 set out that the Government's strategy to improve the quality of inter-urban rail services is to make the best use of existing networks by lengthening existing trains, increasing service frequencies and tackling key congestion pinch points. Consequently, the Government see no case for supporting a high-speed rail line at this stage.

DUCHY OF LANCASTER

Departmental Email

Mr. Jenkins: To ask the Chancellor of the Duchy of Lancaster if he will take steps to reduce the number of hard copies of e-mails printed by officials in his Department. [179470]

Phil Hope: Cabinet Office is continuing to undertake a number of measures to mitigate the unnecessary printing of e-mails.

The Department has adopted an electronic records management system. This system will eliminate the need to print documents for filing, significantly reducing the number of e-mails which are printed. The roll-out of the system is estimated to be complete by March 2008. Staff are encouraged to include a message on all electronic correspondence discouraging the recipient from printing the e-mail unless absolutely necessary.

Departmental Flexible Working

Andrew Selous: To ask the Chancellor of the Duchy of Lancaster how many staff *(a)* have applied to work flexible hours and *(b)* work flexible hours in the Cabinet Office. [164334]

Gillian Merron: Flexible working incorporates a wide variety of working patterns including part-time, job share, compressed and staggered hours or term-time working.

The Cabinet Office currently has 198 members of staff that work either part-time or non-standard full-time hours. Information on applications for flexible working is not held centrally.

Departmental Official Residences

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster (1) what the *(a)* capital and *(b)* notional open market rental value is of each official residence available to Ministers in his Department; [176348]

(2) how much was charged by the Cabinet Office to other Departments for each of the three official ministerial residences in Admiralty House in *(a)* 2005-06 and *(b)* 2006-07; [176509]

(3) what payment the *(a)* Office of the Deputy Prime Minister and *(b)* Deputy Prime Minister's Office made to the Cabinet Office for the use of Admiralty House as an official ministerial residence for the year 2006-07. [176510]

Phil Hope: No Cabinet Office Ministers are accommodated in official residences. Information on capital values of freehold properties is included in the National Asset Register. Information on notional open market rental values is not held. Information on rental income from freehold properties is included in the Cabinet Office's annual resource accounts, copies of which are available in the Library.

Departmental Recycling

Mr. Jenkins: To ask the Chancellor of the Duchy of Lancaster what weight of paper his Department recycled in each of the last five years. [179463]

Phil Hope: The Cabinet Office began recording comprehensive waste data in 2002-03. The weight of paper and cardboard recycled by the Cabinet Office, including the Prime Minister's Office, over the last five years is shown in the following table.

	Recycled paper and cardboard (tonnes)
2002-03	111.8
2003-04	177.8
2004-05	328.32
2005-06	338.3
2006-07	324.98

Sustainable Development

James Duddridge: To ask the Chancellor of the Duchy of Lancaster on what dates the ministerial Sub-Committee on sustainable development in Government has met since May 2005; how long each meeting lasted; and whether there are plans to place sustainable development in Government under the responsibility of a Cabinet Sub-Committee. [177516]

Phil Hope: On 23 July 2007, the Prime Minister introduced a reduced number of more focused and cross-cutting Cabinet Committees. As part of this, the Sub-Committee on sustainable development was dissolved,

and responsibility for sustainable development transferred to the Economic Development (Environment and Energy) Sub-Committee. This will allow work on sustainable development to be driven in the context of our broader efforts on climate change and sustainability. Details of the Committee's membership and terms of reference can be viewed at:

http://www.cabinetoffice.gov.uk/secretariats/committees/edee.aspx

or in the Library of the House.

Information relating to the proceedings of Cabinet Committees, including when, how often and for how long they meet, is generally not disclosed; as to do so could harm the frankness and candour of internal discussion.

Telephone Services: Fees and Charges

Mr. Steen: To ask the Chancellor of the Duchy of Lancaster if he will make it his policy to enable clients contacting Government agencies to do so by telephone without charge. [179598]

Phil Hope: Decisions on telephone tariffs are a matter for Departments and agencies although the Central Office of Information recommends that affordability, based on the needs of the people for whom services are intended, should be considered.

Trade Unions

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179859]

Edward Miliband: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not normal practice to disclose details of such meetings.

Voluntary Sector: Funding

Bob Spink: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 12 December 2007, *Official Report*, column 561W, on voluntary sector funding, what his estimate is of the amount of work carried out by the voluntary sector in delivering public services for which no payment was made in the last year; and if he will make a statement. [175783]

Phil Hope: It is legitimate for third sector organisations to recover the appropriate level of overhead costs associated with the provision of a particular service. Third sector organisations are not expected to deliver a public service contract for which they are not reimbursed on a sustainable basis. We recognise the added contribution that some third sector organisations bring over and above the core requirements of public service contracts, for example, through the use of volunteers.

WORK AND PENSIONS

Business

Mr. Prisk: To ask the Secretary of State for Work and Pensions what his Department's planned expenditure on business support, promotion of enterprise and economic development is for each year from 2007-08 to 2010-11; and which elements of this expenditure are planned to be funded through regional development agencies' single pot. [179230]

Caroline Flint *[holding answer 15 January 2008]:* The primary focus of DWP's policies is to help individuals move into and progress in work, especially people claiming out-of-work benefits and others who face particular disadvantages in the labour market.

Though not directly intended as business support or the promotion of enterprise, both employers and the economy will benefit from policies that promote higher levels of employment by improving the functioning of the labour market and ensuring there is a wider pool of potential recruits for the vacancies that employers need to fill.

In addition, some of our labour market help to individuals has a more direct effect on employers. Through the new deal self-employment option, support is offered to individuals who want to set up their own business. Other measures, such as local employment partnerships, aim to help more of our priority customers into work through working with employers to develop ways of increasing the efficiency of job matching or improving work-related skills.

Child Support Agency: Manpower

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people are employed by the Child Support Agency to process special payments. [175241]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 21 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many people are employed by the Child Support Agency to process special payments. [175241]

The Agency has two methods of processing special payments. If a payment is made as part of a response to a complaint or as an action on a case which the Agency is administering clerically, the payment is made by the caseworkers in these areas along with their other duties.

Special payments which do not arise from a complaint are currently dealt with by a central team of around 24 full time equivalent employees.

I hope you find this answer helpful.

Departmental Cost Effectiveness

Danny Alexander: To ask the Secretary of State for Work and Pensions in which areas his Department has made savings towards its March 2008 target of a £960 million saving. [177961]

Mrs. McGuire: Progress on delivery of the efficiency targets is reported six monthly in the departmental report and the autumn performance report. The autumn performance report for 2007 (ISBN 978-184763-201-2) published in December, is the latest publication. This can be found on our website at:

http://www.dwp.gov/ukpublications/dwp/2007/autumnreport/

and progress against our target is on page 73. The following table replicates the information in the autumn performance report:

Annual financial efficiency savings to September 2007

	£ million
Jobcentre Plus	£417
The Pension Service	£109
Child Support Agency	
Disability and Carers Service	£7
The Rent Service	
Corporate Centre and Enabling Functions[1]	£739
Total	£1,272

[1] Corporate Centre and Enabling Functions include initiatives that cut across DWP for example the savings from paying our customers directly into their bank accounts.

Departmental Equality

Philip Davies: To ask the Secretary of State for Work and Pensions how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173844]

Mrs. McGuire: The Department has a central team that takes forward an extensive programme of work on equality and diversity and ensures that the Department complies with all equality legislation.

Information on the number of staff in the central team and how much has been spent in total and on staff costs by the central team in each of the last three years is shown in the following table. Information on the number of other staff in the Department working on equality and diversity cannot be disaggregated from their wider duties and could be obtained only at disproportionate cost. Information on the costs of promoting equality and diversity outside the central team is not held centrally and could be obtained only at disproportionate cost.

Figures for the central team

	Headcount	Staff costs (£)	Total (£)
2007-08	[1]24.44	1,145,386	1,741,766
2006-07	[2]20.80	1,118,750	1,707,090
2005-06	[3]26.11	1,195,576	1,608,313

[1] April 2007.
[2] April 2006.
[3] April 2005.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171540]

Mrs. McGuire: Performance bonus payments are awarded to employees on the basis of their individual performance. The expenditure incurred during the last five years is in the following table.

Financial year	Total paid (£ million)
2003-04	25.29
2004-05	38.61
2005-06	42.82
2006-07	40.68

The actual spend on bonus payments for 2007-08 is not yet available.

Sarah Teather: To ask the Secretary of State for Work and Pensions pursuant to the answer of 10 December 2007, *Official Report*, column 188W, on departmental pay, how many of those earning over £100,000 were employed *(a)* as special advisers and *(b)* in a political role in each year since 2002. [177175]

Mrs. McGuire: Since 2003, the Government have published on an annual basis the number of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on Thursday 22 November 2007, *Official Report*, 147-51WS.

Information on the numbers and costs of special advisers prior to 2003 was provided at regular intervals and this information will be available in the Library of the House.

Departmental Recycling

Mr. Pickles: To ask the Secretary of State for Work and Pensions what recycling scheme is in operation in each building operated by his Department. [176244]

Mrs. McGuire: DWP has in excess of 1,000 sites so it is not possible to provide details of all the recycling schemes that are available on a site-by-site basis. The Department is committed however to meeting the waste and recycling targets for sustainable operations on the Government estate. During 2006-07 DWP recycled 67 per cent. of its measurable office waste, of which 90 per cent. was paper and cardboard. Overall, during the same period the Department produced 26 per cent. less waste than in the 2004-05 baseline year.

In collaboration with its estate partner Land Securities Trillium, the Department operates a range of recycling schemes across the estate. In addition to the recycling of all confidential waste paper (covering the whole of the estate), a total paper recycling scheme has been introduced in over 300 buildings and continues to be rolled out wherever practical. All fluorescent lighting tubes are recycled, as is waste cooking oil. Arrangements are in place also to recycle redundant furniture, IT equipment, printer toner cartridges and mobile phones no longer required by the Department.

Departmental Sustainable Development

John McDonnell: To ask the Secretary of State for Work and Pensions whether his Department is on course to meet the commitment in the Sustainable Operations on the Government Estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [172979]

Mr. Plaskitt *[holding answer 10 December 2007]:* The Department has already met both targets. In 2006-07, 54 per cent. of our electricity was supplied from renewable sources, with a further 9 per cent. from CHP sources. Waste figures for 2006-07 indicate that the Department recycled 67 per cent. of the waste that it produced.

The Department has plans in place to maintain this level of performance and to enhance it wherever possible—for example, we are working to extend the range of recycling schemes available across the estate.

John McDonnell: To ask the Secretary of State for Work and Pensions whether his Department met the Sustainable Operations on the Government Estate target to reverse the then upward trend in carbon dioxide emissions by April 2007. [172980]

Mr. Plaskitt *[holding answer 10 December 2007]:* The Department did not meet the target to reverse the upward trend in carbon emissions by April 2007. However, early indications for 2007-08 indicate that the upward trend has been reversed significantly, as the many projects and campaigns in place to reduce energy use begin to show positive results. It is important to note that the range of services offered to the public and the way in which they are delivered has changed dramatically since the baselines were set. Enhanced customer service, such as extended opening and contact times, means the Department has maximised its contribution to the social element of sustainable development; the trade-off for this being an increase in energy use, albeit one that we are successfully addressing.

English Language

Damian Green: To ask the Secretary of State for Work and Pensions how much his Department has spent on English language classes for staff in the last year for which figures are available. [177427]

Mrs. McGuire: The Department for Work and Pensions did not spend any resources on specific English language classes for its staff.

Health and Safety

Harry Cohen: To ask the Secretary of State for Work and Pensions what guidance and training his Department provides to employers on health and well-being in the workplace. [177049]

Mrs. McGuire: Employers are central to our aspirations of improving the health of the working age population and helping more people with health conditions and disabilities to find and keep work. As such, a key focus of the cross-government Health, Work and Well-being Strategy is engaging and supporting business. Practical support provided has included supporting Institute of Directors' guidance on managing workplace well-being; the Health and Safety Executive's (HSE) Workplace Health Connect pilot, which has been testing the provision of free occupational health and return to work advice to smaller and medium-sized employers; and Shift's "Action on Stigma" campaign, which has developed resources to help line managers deal with employees with mental health conditions. We have also announced our intention to pilot a new advice and support service for employers, specifically focused on managing staff suffering from mental ill-health.

This programme builds on the core activity of the HSE which works with employers and trade unions to make workplaces healthier and reduce the likelihood of injury and ill-health being caused by work. HSE provides a wide range of free and priced written guidance on the management of health and safety, as well as an extensive website. In addition, HSE's public enquiry telephone contact centre, Infoline, provides access to workplace health and safety information, guidance and expert advice.

DWP has also set up a Vocational Rehabilitation Task Group to look at the best ways of encouraging and supporting employers to provide good quality rehabilitative services to their staff. The task group has commissioned an evidence review to assess the impact and cost-effectiveness of such interventions, which will help to guide employers.

Health and Safety Executive: Accidents

Mr. Hayes: To ask the Secretary of State for Work and Pensions how many accidents took place at Health and Safety Executive facilities over the last 12 months for which figures are available, broken down by category. [178217]

Mrs. McGuire: Accidents[1] on HSE facilities for the last 12 months are set out in the following table, broken down by category. The last 12 months cut across two work years.

	April 2006 to March 2007	*April 2007 to December 2007*
Total RIDDOR accidents	11	4
of which:		
Fatal injuries	0	0
Major injuries	1	1
Dangerous occurrences	1	0
Over three day injuries:	9	3

The numbers of RIDDOR reportable accidents on HSE premises remains well below the average for the standard industrial classification that HSE belongs to.

[1] This includes all accidents HSE is required to report under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR).

Health and Safety Executive: Hertfordshire Oil Storage Terminal

Mike Penning: To ask the Secretary of State for Work and Pensions who is meeting the cost of the Health and Safety Executive's inquiry into the Buncefield disaster. [177365]

Mrs. McGuire *[holding answer 10 January 2008]:* The investigation into the Buncefield incident is being carried out by staff from the Health and Safety Executive and the Environment Agency overseen by an independent Major Incident Investigation Board chaired by Lord Newton. HSE and EA meet their own costs in the first instance. However, both organisations recover these costs from the site operators managing the sites involved in the incident through a statutory charging regime.

The costs of the Major Incident Investigation Board itself are not recovered.

Income Support: Lone Parents

Danny Alexander: To ask the Secretary of State for Work and Pensions how many lone parents claimed income support in each region of the UK, broken down by *(a)* ethnicity and *(b)* family size in each quarter since 1997. [176944]

Caroline Flint: The information requested has been placed in the Library.

Industrial Accidents: Death

Ann McKechin: To ask the Secretary of State for Work and Pensions how many work-related deaths in *(a)* Scotland and *(b)* the UK were not investigated by the Health and Safety Executive in the last five years. [178252]

Mrs. McGuire: All work-related deaths in Scotland, in the last five years, have been investigated by the Health and Safety Executive (HSE).

All work-related deaths in the rest of the Great Britain (i.e. England and Wales), in the last five years, have been investigated by the HSE. HSE cannot provide statistics for Northern Ireland as it is not responsible for workplace Health and Safety in this country.

The above work-related deaths are those which are reportable to the HSE under The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR).

Industrial Health and Safety: Animal Housing

Miss McIntosh: To ask the Secretary of State for Work and Pensions what assessment of health and safety standards in private kennels will be undertaken prior to the provisions of section 68 of Clean Neighbourhoods and Environment Act 2005 commencing on 6 April 2008; and if he will initiate an inquiry into the health and safety standards at the kennels at which a dog attacked a lady handler in December 2007. [177384]

Mrs. McGuire: I am not aware of any plans to undertake health and safety assessments or inspections of kennels in preparation for the implementation of this section of the Act, though kennel operators are free to review their risk assessments and precautions at any time they see fit.

Local authorities enforce health and safety legislation at kennels, and may undertake inspections as part of their routine activities.

Salisbury district council has already initiated an investigation into the incident at West Grimstead on 14 December 2007.

Miss McIntosh: To ask the Secretary of State for Work and Pensions what steps the Health and Safety Executive recommends to protect kennels staff against attacks by animals. [177385]

Mrs. McGuire: HSE does not have plans to make any recommendations for protecting staff working at kennels. General HSE guidance on assessing risks to health and safety is available. HSE would look to the industry to develop and make specific recommendations, as they have the experience and knowledge to ensure any guidelines are practical and sensible.

International Labour Organisation: Anniversaries

Mr. MacShane: To ask the Secretary of State for Work and Pensions what plans he has to mark the 90th anniversary of the founding of the International Labour Organisation in 2009. [179476]

Mr. Plaskitt: The United Kingdom has played a significant role in the work of the International Labour Organisation since it was created in 1919; and the Government will, over the course of 2008, consider proposals to mark the 90th anniversary of its founding, including the possibility of national events.

Lighting

Mr. Pickles: To ask the Secretary of State for Work and Pensions what research the Health and Safety Laboratory has conducted into outdoor lighting. [176259]

Mrs. McGuire: The Health and Safety Laboratory has not undertaken any major pieces of research work on outdoor lighting. It has undertaken a variety of lower level projects on behalf of the Health and Safety Executive (HSE) linked to particular investigations/activities.

Local Housing Allowance

Andrew Selous: To ask the Secretary of State for Work and Pensions what steps he is taking to assist local authorities in the introduction of local housing allowance on 7 April 2008; and if he will make a statement. [180683]

Mr. Plaskitt: The Department of Work and Pensions has an extensive programme of support and advice to help local authorities introduce the local housing allowance.

The Department has provided local authorities with £59 million to support the implementation of the local housing allowance.

The Department delivered 20 regional seminars for local authorities throughout summer 2007. A range of implementation and guidance products have already been made available to assist local authorities with specific activities, based largely on examples of good practice provided by LHA pathfinder authorities.

The Department has developed a range of products to support local authorities in communicating with their stakeholders, particularly welfare rights organisations and landlords. A key aim of the LHA is to promote financial inclusion by encouraging tenants to have their benefit paid directly into their own bank accounts, and we have provided advice and information to local authorities to enable them to support their customers in opening bank accounts.

The Department will continue to provide communications, advice and support to local authorities in the run-up to the roll out of the local housing allowance in April 2008.

Means Tested Benefits: Personal Savings

Tony Baldry: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of means-tested benefits in retirement on incentives to save. [177883]

Mr. Mike O'Brien: As part of its research and analysis programme over the last few years, the Department has published several analyses on incentives to save in a pension, and the role of income related benefits. This includes Projections of Pension Credit Entitlement, Financial Incentives to Save for Retirement, the Pensions Bill–Impact Assessment, and the Gender Impact Assessment of Pension Reform. These analyses show that, under reasonable assumptions about factors such as investment growth, the large majority of individuals likely to be affected by private pension reform—including many of those who may end up on income related benefits in retirement—can expect to benefit from saving.

The Department also commissioned work on savings incentives from NIESR (The Effects of Means-testing Pensions on Savings and Retirement) and IFS (The Importance of Incentives in Influencing Private Retirement Savings: Known Knowns and Known Unknowns). These found, respectively, that the introduction of pension credit in 2003 strengthened incentives for lower-income households to save for retirement, and that many individuals face positive incentives to save in a private pension.

National Insurance: Migration

Mr. Hollobone: To ask the Secretary of State for Work and Pensions how many national insurance numbers have been issued to migrants from the EU accession countries in eastern Europe in *(a)* England, *(b)* Northamptonshire and *(c)* Kettering in the last year. [166486]

Caroline Flint *[holding answer 20 November 2007]:* The available information is in the following table. The figures relate to the countries mentioned in note 5. as figures excluding Cyprus and Malta are not available for the geographical areas requested.

National insurance number registrations to citizens of EU accession countries in 2006-07 in England, Northamptonshire and Kettering

Area	*Number of registrations*
England	264,970
Northamptonshire	5,780
Kettering	590

Notes:
1. Figures are rounded to the nearest 10. Some additional disclosure control has been applied.
2. Local authority is assigned by matching postcodes against the relevant postcode directory.
3. Local authority counts are based on the most recently recorded address of the NINO recipient.
4. Years referred to are financial years.
5. Accession countries are classed as Malta, Rep of Estonia, Rep of Latvia, Rep of Lithuania, Bulgaria, Hungary, Poland, Romania, Cyprus, Rep of Slovenia, Czech Rep and Slovak Rep.

Source:
100 per cent extract from National Insurance Recording System at 14 May 2007

The county of Northamptonshire consists of Corby, Daventry, East Northamptonshire, Kettering, Northampton, South Northamptonshire and Wellingborough local authorities.

Natural Gas: Safety Measures

Bob Russell: To ask the Secretary of State for Work and Pensions (1) what steps his Department is taking to discourage members of the public from attempting to fix faulty gas appliances themselves; and if he will make a statement; [172139]

(2) what steps his Department is taking to reduce the number of illegal gas installers; and if he will make a statement; [172140]

(3) what estimate he has made of the number of illegal gas installers working in the UK; [172142]

(4) what estimate he has made of the number of carbon monoxide poisoning incidents caused by illegal gas installers in the last period for which figures are available. [172143]

Mrs. McGuire: The law requires people who work on gas appliances to be competent and, if that gas work is done as business, that business must be CORGI-registered. The Health and Safety Executive (HSE) publicises this key message, and the danger and likely illegality of DIY work, through a range of free guidance literature and via its website www.hse.gov.uk/gas/domestic/index.htm. CORGI, approved by HSE to run the gas installer registration scheme, reinforces these messages through regular publicity campaigns, co-ordinated with the gas industry. A reform of the gas installer registration scheme will establish this as a major responsibility of the appointed provider of the new scheme.

HSE follows up complaints and information received about illegal gas installers. It takes targeted enforcement action in line with the Health and Safety Commission's Enforcement Policy Statement. In 2006-07 approximately 9 per cent. of all offences prosecuted by HSE related to gas safety matters; of

these 19 per cent. related specifically to unregistered installers. HSE has undertaken targeted enforcement initiatives against illegal installers, leading to innovative penalties such as community orders with an unpaid work requirement and to cases being well publicised. HSE also works with CORGI in tackling the issue of unregistered gas installers, through both investigative and awareness raising activities. The reform of the registration scheme envisages a possible new function for the new provider to take enforcement action against illegal gas workers.

Statistics on the number of illegal gas installers working in the UK are not available.

There are no official figures on the number of carbon monoxide poisoning incidents caused by illegal gas work. There was one fatal incident in 2006-07 involving such work, in which three people were killed. The installer was prosecuted and received a custodial sentence.

Pensions: Females

Mr. Gauke: To ask the Secretary of State for Work and Pensions what estimate he has made of the percentage of women who will qualify for the basic state pension in their own right by 2020. [177607]

Mr. Mike O'Brien *[holding answer 10 January 2008]:* Under the pension reforms introduced by the Pensions Act 2007, anyone reaching state pension age in 2020 who has paid or has been credited with national insurance contributions for at least one year will be entitled to some basic state pension in their own right. The provisions of the Act ensure that more women will become entitled to a basic state pension and we estimate that over 90 per cent. of women reaching state pension age in 2025 will be entitled to a full basic state pension.

Pensions: Married People

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of beneficiaries of pension sharing orders under the age of 65 years whose former spouse already receive a pension. [177952]

Mr. Mike O'Brien: The information requested is not available.

Pensions: Teesside

Dr. Kumar: To ask the Secretary of State for Work and Pensions how many people *(a)* in Teesside and *(b)* in Middlesbrough South and East Cleveland are expected to benefit from the restoration of private pensions for those in company schemes which collapsed. [179724]

Mr. Mike O'Brien: In most cases the sponsoring employer of failed pension schemes no longer exists, therefore, the address provided to Financial Assistance Scheme Operational Unit (FASOU) is that of the administrator or receiver, which often bears no geographical relevance to where the company was located as a going concern. Providing an accurate picture of those who have lost their pensions by constituency or region is therefore not possible.

The FASOU only has addresses for members about whom schemes have submitted data. We are not, therefore, able to give a meaningful breakdown by location for all affected members at this time.

Personal Accounts: Consultants

Mr. Waterson: To ask the Secretary of State for Work and Pensions how much has been paid by his Department to consultants for advice on the implementation of the personal accounts system. [165389]

Mr. Mike O'Brien: The implementation of the personal accounts system has not yet started. Expenditure has been incurred by DWP on operational implications of the policy and legislation for the Government's proposed reform of non-state pensions, including the framework for the personal accounts scheme. Expenditure on consultancy advice has amounted to £6,604,522 up to the end of October 2007.

Social Security Benefits

Danny Alexander: To ask the Secretary of State for Work and Pensions how many people are employed in the official error taskforce; how much is paid in salaries annually to staff in the taskforce; how many cases in relation to each type of benefit the official error taskforce has corrected in each week since its creation; and what the cost was of official error in relation to each type of benefit corrected by the taskforce in each week since its creation. [177959]

Mr. Plaskitt: The official error taskforce has developed and oversees a programme of error reduction and correction initiatives. There are currently 10 members of staff on the taskforce, participating on a part-time basis alongside their normal duties. The proportion of time spent on the taskforce varies between members with annual salary costs attributable to taskforce duties amounting to £47,000.

By September 2007, the taskforce programme has resulted in over 100,000 income support and jobseeker's allowance, and over 74,000 pension credit cases being reviewed with cumulative weekly errors totalling over £1.2 million having been corrected in income support and jobseeker's allowance cases and over £1.1 million in pension credit cases.

Danny Alexander: To ask the Secretary of State for Work and Pensions what *(a)* percentage and *(b)* cash value of each type of benefit is paid (i) into bank accounts, (ii) into building societies, (iii) into Post Office card accounts and (iv) by giro. [177960]

Mr. Plaskitt: The answer is not available in the format requested. The following table is a snap shot for October 2007 and shows the approximate *(a)* percentage and *(b)* cash value of each of the main benefits administered by DWP, paid (i) into bank/building society accounts (ii) into Post Office card accounts (POca), and (iii) by DWP cheque.

	Bank/building society		POca		Cheque	
	Percentage of payments	Cash values (£ million)	Percentage of payments	Cash values (£ million)	Percentage of payments	Cash values (£ million)
State pension	81	3,375	18	875	1	[1]60
Incapacity benefit	80	486	18	124	2	[1]—
Income support	70	1,127	26	725	4	94
Jobseeker's allowance	77	137	15	26	8	20
Industrial injuries disablement benefits	76	60	23	19	1	0.6
Attendance allowance	79	77	17	21	4	4
Disability living allowance	81	575	17	121	2	15
Carers allowance	80	74	19	22	1	0.8

[1] State pension cheque values include payments of incapacity benefit and widows benefit.

Notes:
1. Figures relate to GB only.
2. Income support value figures include payments of pension credit.
3. State pension value figures for bank/building society and POca figures include payments of widows benefit.
4. Cash values have been rounded to the nearest £ million.

Source:
DWP Method of Payment Statistics for the month of October 2007.

Social Security Benefits: Administration

Danny Alexander: To ask the Secretary of State for Work and Pensions how much was spent by his Department administering each type of benefit in each year since 1997. [166816]

Mrs. McGuire: The information is not available in the format requested.

Social Security Benefits: Prisoners

Mr. MacNeil: To ask the Secretary of State for Work and Pensions what steps his Department is taking to tackle fraud and errors in payment in benefits paid to prisoners. [175329]

Mr. Plaskitt: It is the responsibility of benefit recipients to advise the Department if they are committed to prison. However, we recognise that not all prisoners do notify us of this, so we have processes in place for HM Prison Service and the Scottish Prison Service, to send us data on admissions so we can identify prisoners who are receiving benefits to which they are no longer entitled. From December 2006, the frequency of these data were increased from monthly to weekly. In 2006-07, nearly 8,000 cases were corrected as a result of this type of data matching. This led to us identifying over £2.2 million in recoverable overpayments.

Jobcentre Plus has also introduced employment benefit surgeries across the prison estate, to assist prisoners in closing down benefit claims efficiently on entry into custody.

Stockline/ICL Explosion

Ann McKechin: To ask the Secretary of State for Work and Pensions what costs the Health and Safety Executive has incurred to date from the investigation of the Stockline/ICL explosion at Hopehill road, Glasgow on 11 May 2004. [178251]

Mrs. McGuire: The Health and Safety Executive's costs were calculated, to include the completion of the criminal prosecution, at approximately £2 million. This included costs of £1.2 million from the Health and Safety Laboratory (HSL), which carried out the forensic and scientific work, which identified that the only credible cause of the explosion was a leak of LPG from a corroded underground metallic pipe.

Ann McKechin: To ask the Secretary of State for Work and Pensions what the planned timetable is of the public inquiry instructed to investigate the circumstances of the Stockline/ICL Plastics explosion in Hopehill road, Glasgow on 11 May 2004. [178256]

Mrs. McGuire: Lord Gill, Lord Justice Clerk has agreed to chair the inquiry. The timetable for the inquiry is a matter for the chairman. An announcement of the setting up and running of the inquiry will be made shortly.

Telephone Services: Social Fund and Jobcentre Plus

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) if he will place in the Library a copy of telephone scripts used by call centre staff in *(a)* the Social Fund and *(b)* Jobcentre Plus; [172628]

(2) what the proportion of calls received by *(a)* the Social Fund and *(b)* Jobcentre Plus were from a mobile telephone in the latest period for which figures are available. [172631]

Caroline Flint: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. She will write to the hon. Member.

Letter from Lesley Strathie, dated 21 January 2008:

The Secretary of State has asked me to reply to your questions asking, if he will place in the Library a copy of telephone scripts used by call centre staff in (a) the Social Fund and (b) Jobcentre plus; and what the proportion of calls received by (a) the Social Fund and (b) Jobcentre Plus were from a mobile telephone in the latest period for which figures are available. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

A copy of the current scripts used when a customer wishes to make a claim to working age benefits or apply for a Crisis Loan from the Social Fund, by Contact Centre staff will be placed in the Library. The Scripts are frequently updated to reflect our commitment to continuous service improvement. If you wish to

see how this process works in practice Val Gibson, my Director of the Contact Centre Directorate, will gladly arrange for you to visit a Contact Centre. She will contact you about arranging this.

Jobcentre Plus is unable to establish the origin of each call received through any of our telephones. Our telephony systems do not record if a customer's call is made from a land line or mobile phone.

Unum Provident

Harry Cohen: To ask the Secretary of State for Work and Pensions what contacts there have been between Unum Provident and his Department in the last five years. [177053]

Mrs. McGuire: The Government consulted widely with stakeholders in public and private sector organisations such as Unum Provident about its welfare reform plans. Unum Provident was one of over 600 organisations who responded to the Government's Green Paper on welfare reform when comments were invited. The Department has commissioned work from a variety of research establishments over this period, including the University of Wales Medical School, now incorporating the Cardiff University Centre for Psychosocial and Disability Research, which is sponsored by Unum Provident, but the Department has no direct relationship, commercial or otherwise, with Unum Provident.

Along with other experts, two Unum Provident employees have contributed to the work of the Technical Working Group that carried out the review of the personal capability assessment, but their contribution was as individual experts in benefit assessment and in supporting return to work for people with disabilities, rather than acting on behalf of Unum Provident.

Ministers have also taken part in symposia arranged by "Beginnings", a Unum-sponsored consortium of a wide range of public, private and voluntary sector organisations brought together to develop an integrated approach to disability issues.

Welfare Tax Credits: Employment

Danny Alexander: To ask the Secretary of State for Work and Pensions how many parents are in receipt of in-work credits; and what percentage of them have stayed in employment for *(a)* up to three months, *(b)* three to six months, *(c)* six to nine months, *(d)* nine to 12 months, *(e)* 12 to 18 months, *(f)* 18 to 24 months and *(g)* over two years. [177972]

Mr. Plaskitt: An in-work credit can be claimed for the first 52 weeks of employment. Recipients of in-work credits are not tracked beyond their claim so data are only available for up to 12 months of employment.

There were 35,280 completed in-work credit claims that started during the period April 2004 to October 2006 and will therefore have been completed by October 2007. The durations of these claims are: 14 per cent. less than three months; 6 per cent. between three and six months; 9 per cent. between six and nine months; 11 per cent. between nine and 12 months, and; 60 per cent. for 12 months.

INNOVATION, UNIVERSITIES AND SKILLS

Educational Institutions: Crime

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many crimes were reported to have taken place in teaching establishments for which his Department is responsible in 2007; and if he will make a statement. [178241]

Mr. Coaker: I have been asked to reply.

The Home Office has responsibility for crimes recorded by the police. However, from the statistics which are collected centrally it is not possible to identify offences committed in teaching establishments.

TREASURY

Absent Parents

Andrew Selous: To ask the Chancellor of the Exchequer what the Office for National Statistics' most recent estimate is of the number and proportion of children who live apart from their *(a)* father and *(b)* parents. [180109]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 21 January 2008:

As National Statistician I have been asked to reply to your request for the most recent estimate of the number and proportion of children who live apart from their *(a)* father and *(b)* parents. (180109)

The Office for National Statistics does not make such estimates.

Children living with their mother but not their natural father include those in lone mother households, those in households with a mother and step-father and any living with their mother (but not their father) in communal establishments. Estimates for the first of these categories are readily available from the Labour Force Survey (LFS) for the second quarter of 2007 (April to June). Of the estimated 12.9 million dependent children living in families in households in the United Kingdom, 2.8 million dependent children were in lone mother families. Comparable figures for the other two categories are not readily available. For step families, available estimates based on the 2001 Census relate to number of families and do not separately identify the number of children living with a step-father.

There is no single estimate of children living apart from both parents. This group includes children living in households with other relatives (e.g. grandparents) or in foster or adoptive families; and children living in communal establishments without their parents e.g. those 'looked after children' in residential homes.

Alcoholic Drinks: Death

Lynne Featherstone: To ask the Chancellor of the Exchequer with reference to the answer of 27 February 2007, *Official Report*, columns 1287-89W, on Alcoholic Drinks: Death, when the figures for the number of deaths with an alcohol-related underlying cause in 2006 and 2007 will be available; and if he will make a statement. [179660]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 21 January 2008:

The National Statistician has been asked to reply to your recent question asking, with reference to the Answer of 27th February 2007, Official Report, columns 1287-9W, on alcoholic drinks: death, when figures for the number of deaths with an alcohol-related underlying cause in 2006 and 2007 will be available. I am replying in her absence. (179660)

Figures on alcohol-related deaths registered in 2006 are now available, and the tables attached provide the number of deaths with an alcohol-related underlying cause in each (a) London borough and (b) Government Office Region and Wales, in 2006. The corresponding figures for deaths registered in 2007 are expected to be available in June 2008.

Table 1. Number of deaths with an alcohol-related underlying cause of death,[1] London boroughs, 2006[2]

	Deaths (persons)
Inner London	325
Camden	36
City of London	0
Hackney	22
Hammersmith and Fulham	22
Haringey	25
Islington	27
Kensington and Chelsea	18
Lambeth	37
Lewisham	17
Newham	28
Southwark	32
Tower Hamlets	16
Wandsworth	22
Westminster	23
Outer London	499
Barking and Dagenham	15
Barnet	29
Bexley	22
Brent	46
Bromley	25
Croydon	42
Ealing	31
Enfield	38
Greenwich	42
Harrow	12
Havering	19
Hillingdon	45
Hounslow	27
Kingston upon Thames	17
Merton	11
Redbridge	25
Richmond upon Thames	19
Sutton	12
Waltham Forest	22

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The specific causes of death categorised as alcohol-related, and their corresponding ICD-10 codes, are shown in the box below.
[2] Figures are for deaths registered in each calendar year.

Table 2. Number of deaths with an alcohol-related underlying cause of death,[1] Government Office Regions and Wales, 2006[2]

	Deaths (persons)
North East	435
North West	1,209
Yorkshire and The Humber	679
East Midlands	505
West Midlands	801
East of England	556
London	824
South East	921
South West	587
Wales	430

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The specific causes of death categorised as alcohol-related, and their corresponding ICD-10 codes, are shown in the box below.
[2] Figures are for deaths registered in each calendar year.

Box 1. Alcohol-related causes of death—International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	ICD-10 code(s)
Mental and behavioural disorders due to use of alcohol	F10
Degeneration of nervous system due to alcohol	G31.2
Alcoholic polyneuropathy	G62.1
Alcoholic cardiomyopathy	I42.6
Alcoholic gastritis	K29.2
Alcoholic liver disease	K70
Chronic hepatitis, not elsewhere classified	K73
Fibrosis and cirrhosis of liver (excl. Biliary cirrhosis)	K74 (excl. K74.3-K74.5)
Alcohol induced chronic pancreatitis	K86.0
Accidental poisoning by and exposure to alcohol	X45
Intentional self-poisoning by and exposure to alcohol	X65
Poisoning by and exposure to alcohol, undetermined intent	Y15

Bank Services

Sarah Teather: To ask the Chancellor of the Exchequer what estimate he has made of the number of people in each *(a)* age cohort and *(b)* region without a bank account. [180382]

Angela Eagle: The most recent data available that allow assessment to be made of the number of households with no access to a bank account are the Family Resources Survey from 2005-06. The following tables show the proportion of households without a bank account of any kind by age of the household reference person (the owner of the household, or the person with the highest income), and by region.

(a) Proportion of unbanked households by age of household reference person

Age of household reference person	Percentage of households with no account
24 and under	7
25-29	4
30-34	4
35-39	4

(a) Proportion of unbanked households by age of household reference person

Age of household reference person	Percentage of households with no account
40-44	4
45-49	5
50-54	4
55-59	4
60-64	5
65-69	6
70-74	7
75-79	6
80 and over	9
Total	5

(b) Proportion of unbanked households by Government office region

Government office region	Percentage of households with no account
North East	6
North West	5
Yorks and Humberside	6
East Midlands	14
West Midlands	5
Eastern	3
London	5
South East	2
South West	2
Wales	6
Scotland	5
Northern Ireland	11
Total	5

Child Benefit: Personal Records

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the statement of 20 November 2007, *Official Report*, columns 1110-18, on HM Revenue and Customs, whether the package contained material other than the two missing computer discs. [179642]

Jane Kennedy: Given that the facts of the case remain the subject of investigations by the police and the IPCC, and are also being looked into by Kieran Poynter's review of HMRC data handling procedures, it would be inappropriate to comment at this stage.

Mr. Hoban: To ask the Chancellor of the Exchequer what the cell field structure was of the data on the two child benefit data missing discs. [179656]

Jane Kennedy: For security purposes, it would not be appropriate to provide the information requested.

Death: Lincolnshire

Shona McIsaac: To ask the Chancellor of the Exchequer how many people in *(a)* the North East Lincolnshire and *(b)* North Lincolnshire Primary Care Trust areas died from (i) stroke-related illnesses, (ii) lung disease and (iii) heart disease in each of the last five years. [179713]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 21 January 2008:

The National Statistician has been asked to reply to your recent question asking how many people in (a) the North East Lincolnshire and (b) North Lincolnshire Primary Care Trust areas have died from (i) stroke-related illnesses, (ii) lung disease and (iii) heart disease in each of the last five years. I am replying in her absence. (179713)

The table attached provides the number of deaths where (i) stroke, (ii) chronic lung disease and (iii) coronary heart disease was the underlying cause of death in (a) North East Lincolnshire Care Trust Plus, and (b) North Lincolnshire Primary Care Trust, for 2002 to 2006 (the latest year available).

Table 1: Number of deaths with an underlying cause of stroke, chronic lung disease or coronary heart disease[1], North East Lincolnshire Care Trust Plus and North Lincolnshire Primary Care Trust (PCT)[2], 2002 to 2006[3]

						Deaths (persons)
Cause	Area	2002	2003	2004	2005	2006
Stroke	North East Lincolnshire Care Trust Plus	193	168	195	176	170
	North Lincolnshire PCT	188	185	148	150	127
	Total	381	353	343	326	297
Chronic Lung Disease	North East Lincolnshire Care Trust Plus	111	94	125	90	93
	North Lincolnshire PCT	77	105	97	87	92
	Total	188	199	222	177	185
Coronary Heart Disease	North East Lincolnshire Care Trust Plus	347	348	302	303	310
	North Lincolnshire PCT	341	305	251	304	272
	Total	688	653	553	607	582

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes I60-I69 for stroke, J40-J47 for chronic lung disease and I20-I25 for coronary heart disease.
[2] Based on boundaries as of November 2007.
[3] Figures are for deaths registered in each calendar year.

Departmental Freedom of Information

Norman Baker: To ask the Chancellor of the Exchequer what percentage of Freedom of Information requests received by his Department have given rise to responses that have been published by his Department. [180223]

Angela Eagle: The number of requests to HM Treasury, along with those of other central Government bodies, is published by the Ministry of Justice in quarterly and annual reports. Information has so far been published up to September 2007 and shows that HM Treasury had received 3,260 requests.

HM Treasury website includes a disclosure log which publishes those disclosures judged to be of wider public interest. For the aforementioned period, the Treasury has published 78 disclosures on their website—2.4 per cent. of all requests received.

EC Trade: Job Creation

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer how many jobs have been created as a result of trade with the EU in the last two years; and how many are expected to be created in the next two years. [180267]

Angela Eagle: The Government estimate around 500,000 jobs in the UK are linked, directly or indirectly, to the growth in the export of goods and services to the European Union since 2004. The Government have no estimate on future job creation from trade with the EU.

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer what estimate he has made of the number of UK jobs which are contingent upon UK exports to the EU. [180268]

Angela Eagle: The Government estimate around 3.5 million jobs in the UK are linked, directly and indirectly, to the export of goods and services to the European Union.

Employment: Wirral

Ben Chapman: To ask the Chancellor of the Exchequer what the employment rate in Wirral is; and if he will make a statement. [179628]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 21 January 2008:

The National Statistician has been asked to reply to your Parliamentary Question about employment in the Wirral. I am replying in her absence. (179628).

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) following International Labour Organisation definitions.

There were an estimated 134,000 people, aged 16 and over, in employment, resident in the Wirral unitary authority, for the 12 months ending March 2007, from the latest available data from the APS. The corresponding headline employment rate, for persons of working age (males aged 16 to 64 and females aged 16 to 59) was 70.2 per cent for the 12 months ending March.

As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

Income Tax

Mr. Redwood: To ask the Chancellor of the Exchequer how many people paid income tax on an earned income of £50,000 or more for each of the last 15 years in *(a)* the private sector and *(b)* the public sector. [179371]

Jane Kennedy: Information in the form requested is not available. Information on the distribution of earnings by total income is shown in table 3.6 for the years 1999-2000 to 2004-05 on the HMRC website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#36.

A split between public and private sector employments is not available.

Loans

Mr. Paice: To ask the Chancellor of the Exchequer what research his Department has undertaken on the conversion by the courts of unsecured to secured loans against borrowers' wishes; and what plans he has to bring forward proposals to amend the regulatory regime affecting such cases. [180476]

Maria Eagle: I have been asked to reply.

The courts do not convert unsecured to secured loans, therefore the Government have not undertaken any research on the conversion by the courts of unsecured to secured loans against borrowers' wishes.

Courts do use charging orders. These are not the same as converting an unsecured loan into a secured loan. The purpose of charging orders is set out in section 1 (1) of the Charging Orders Act 1979 which provides that where a creditor is owed money under a judgment or order of the High Court or county court, a charging order may be made "for the purposes of enforcing that judgment or order" in order to secure payment of "any money due or to become due under the judgment or order". There are no plans to amend section 1 (1) of the Charging Orders Act 1979.

Lone Parents

Mr. Fallon: To ask the Chancellor of the Exchequer what representations he has received from the Joseph Rowntree Foundation on lone parents and mini-jobs; and if he will make a statement. [180102]

Jane Kennedy: Representations are regularly made to Treasury Ministers and officials on a wide range of issues.

Low Incomes: Social Security Benefits

Ben Chapman: To ask the Chancellor of the Exchequer what steps the Government are taking to support people who are on low incomes and working full-time. [179629]

Jane Kennedy: The Government support people who are on low incomes and working full-time primarily through the working tax credit (WTC). Together with the national minimum wage, tax credits have enabled the Government to guarantee minimum levels of income and tax credits entitlement for full-time workers.

This means, for instance, that from April 2008, a single person, aged 25 or over, who is in full-time work will have a combined weekly income and tax credit entitlement of at least £187. A household with one adult in full-time work, with one child, will have a combined weekly income and tax credit entitlement of no less than £290, while for a couple with no children and one adult in full-time work the equivalent minimum will be £221.

The Government also offer support for low-income workers through the child care element of WTC. This ensures that workers can keep more of their earnings by paying for up to 80 per cent. of child care costs up to a maximum of £175 per week for one child and £300 for two or more children.

National Debt

Mr. Hayes: To ask the Chancellor of the Exchequer what the cost of servicing the national debt was in the latest period for which figures are available; and what it was in 1997. [180437]

Angela Eagle: Figures for central Government debt interest payments in current prices are published monthly by the Office for National Statistics and can be found in Table 1.1C: Central Government (series NMFX), available at:

http://www.statistics.gov.uk/StatBase/tsdtables1.asp?vlnk=fsf

Central Government debt interest payments form approximately 97 per cent. of the total public sector debt interest payments.

As a percentage of gross domestic product (GDP), total public sector debt interest payments have fallen from 3.6 per cent. in 1997-98 to 2.2 per cent. in 2006-07.

Pay

Mr. Redwood: To ask the Chancellor of the Exchequer what the annual percentage increase was in *(a)* public sector salaries and *(b)* private sector salaries in each of the last 15 years. [179372]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 21 January 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the annual percentage increase was in (a) public sector salaries and (b) private sector salaries in each of the last 15 years. I am replying in her absence. (179372)

ONS estimates growth in public and private sector earnings using the Average Earnings Index, which is the ONS's measure of short term changes in earnings. I attach a table that provides these figures.

However, ONS's source of information on annual salary rates is the Annual Survey of Hours and Earnings (ASHE). Annual levels of earnings have been estimated from the Annual Survey of Hours and Earnings (ASHE) since 1999, and are provided for employees on adult rates of pay, who have been in the same job for more than a year. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

ASHE results can be obtained on the National Statistics website at:

http://www.statistics.gov.uk/ashe

Average Earnings Index: All employee jobs, main industrial sectors, seasonally adjusted—Great Britain

	Public sector (including bonuses, excluding arrears)		*Private sector (including bonuses, excluding arrears)*	
2000=100	*Index LNNJ*	*Annual growth (percentage)*	*Index LNKY*	*Annual growth (percentage)*
1991	73.7	—	67.7	—

Annual Earnings Index, Office for National Statistics

Pay: Public Sector

Mr. Lansley: To ask the Chancellor of the Exchequer what the evidential basis is for a restriction of public sector pay increases to 2 per cent. or less to contribute to an inflation rate below 2 per cent. [177206]

Andy Burnham: The Government are committed to continuing to support public sector workers in their efforts to deliver the best possible public services. Over the last 10 years, the Government have therefore sought to increase the number of frontline workers as well as their pay. In particular, the period January 2000 to January 2006 saw an increase of 29.4 per cent. in public sector average earnings, which compares to 23.8 per cent. in the private sector over the same period.

The Government's objectives for public sector pay settlements are that they should be consistent with maintaining the necessary levels of recruitment, retention and staff engagement needed to support service delivery; ensuring that total pay bills represent value for money and are affordable within Departments' overall expenditure plans; and consistent with the Government's achievement of the inflation target of 2 per cent.

Wage pressures are one of the factors considered by the monetary policy committee of the Bank of England when setting interest rates to meet the inflation target.

Pensioners: Inflation

Kate Hoey: To ask the Chancellor of the Exchequer pursuant to the answer of 12 December 2007, *Official Report*, column 605W, on Pensioners: Inflation, what the components are of the retail price index basket of goods and services; and how they are weighted. [180287]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 21 January 2008:

The National Statistician has been asked to reply to your parliamentary question asking (i) what the components of the retail price index basket of goods and services are; and (ii) how they are weighted. I am replying in her absence. (180287)

The CPI and the RPI measure changes from month to month in the cost of a representative 'basket' of goods and services bought by consumers. Each year the ONS reviews the RPI and CPI basket of goods and services and updates the weights used to aggregate price changes, to ensure the selection of products in the basket and their weights remain representative of the overall pattern of expenditure of the average household covered by the published indices.

There are some goods and services where household expenditure is sufficiently large that they merit inclusion in the basket in their own right: examples include petrol and telephone charges. More commonly, it is necessary to select a sample of specific goods and services that can give a reliable measure of price movements for a broader range of similar items. For example, price changes for garden spades might be considered representative of price changes for other garden tools.

The components of the 2007 RPI and CPI basket of goods and services are shown in this article, available on the National Statistics website. Please see Annex B of:

Damon Wingfield (2007) "CPI and RPI: The 2007 Basket of Goods and Services"

http://www.statistics.gov.uk/CCI/article.asp?ID=1746

Each item in the index is weighted to reflect the proportion of household expenditure spent on them. Changes in the weights of components over time reflect changes in the expenditure pattern of households. The underlying data source for the weights for both the RPI and CPI is ONS's Expenditure and Food Survey (EPS). The EPS is a continuous household survey which monitors the spending patterns of around 6,000 households across the country each year.

For further information on how the items are weighted you may wish to reference the publication by David Baran "Consumer Prices Index and Retail Prices Index: Updating Weights for 2007".

Personal Income: Greater London

Tom Brake: To ask the Chancellor of the Exchequer what the average household income was in each London borough in each year since 1997. [179726]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 21 January 2008:

The National Statistician has been asked to reply to your recent question asking what the average household income was in each London Borough in each year since 1997. I am replying in her absence. (179726).

Estimates of household income (which include income from all sources such as earnings, benefits, pensions, and investment income), are generally based on household surveys. The largest of these is the Family Resources Survey which has an annual sample in the UK of around 28,000 households. This is sufficient to produce estimates of household income at national and regional level, but not for smaller areas. Statistics on earnings by employees are available for local authorities from the Annual Survey of Hours and Earnings (ASHE) which is an employer-based survey.

The ONS has published estimates of household income for what are known as the medium layer super output areas, for 2004/05 only. These estimates are based on a statistical model and are classed as experimental statistics—this means they have been developed in accordance with the principles set out in the National Statistics Code of Practice but have yet to be fully accredited as National Statistics. They are available through the Neighbourhood Statistics section of the ONS website. Super Output Areas (SOA's) are a new geographic hierarchy designed to improve the reporting of small area statistics. Unlike electoral wards, these SOA's are of consistent size across the country and are not subject to regular boundary change.

The table provided shows household income for each London borough for 2004/05, before and after housing costs. These estimates have been calculated using the estimates of income and also estimates of population for each SOA to calculate a weighted average income for each London Borough. The population estimates themselves are also experimental statistics. Figures on the number of households in each SOA are not available.

The average household income figures for the UK are taken from the 'Households Below Average Income' series produced using the Family Resources Survey. These are National Statistics. The 'Household Below Average Income' series usually presents results based on median incomes, however mean incomes are presented here to be more comparable with the small area statistics.

Average weekly household income[1,2] — London boroughs, 2004-05

£ (per week)

	Net weekly equivalised[3] household income	
	Before housing costs[4]	After housing costs[4]

ONS, Department for Work and Pensions

Revenue and Customs: Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer what changes to its administrative procedures on transfer of confidential data HM Revenue and Customs has instituted since the beginning of November 2007. [179639]

Jane Kennedy: I refer the hon. Member to Kieran Poynter's interim report which was published on 17 December 2007 and is available in the Library of the House.

Kieran Poynter will consider the need for any further procedural changes in his final report which is expected in the first half of 2008.

Stamp Duty Land Tax

Grant Shapps: To ask the Chancellor of the Exchequer what requirements a home must have to be eligible for zero stamp duty land tax. [180155]

Angela Eagle: The requirements for a home to qualify for the stamp duty land tax zero-carbon homes relief are set out in The Stamp Duty Land Tax (Zero-Carbon Homes Relief) Regulations 2007. These regulations were made on 6 December 2007 and came into force on 7 December 2007 but the tax relief applies to acquisitions of qualifying properties on or after 1 October 2007. The following is a link to the regulations:

http://www.opsi.gov.uk/si/si2007/uksi_20073437_en_1

Taxation: Car Allowances

Mr. Frank Field: To ask the Chancellor of the Exchequer whether he plans to increase the 40p per mile tax free allowance which employees using their own cars may claim if undertaking legitimate business activities. [180504]

Angela Eagle: The Government stated in the pre-Budget report that an announcement on the taxation of cars used for business travel—including mileage payments—would be made at Budget 2008.

Trade Unions

Mr. Hoban: To ask the Chancellor of the Exchequer what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179869]

Angela Eagle: Treasury Ministers and officials have meetings with a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous administrations, it is not the Government's practice to provide details of all such meetings.

Under the Freedom of Information Act, Treasury Ministers' diaries are available on the Treasury website:

http://www.hm-treasury.gov.uk/about/information/foi_disclosures/foi_disclosures_index.cfm

Work for Change Programme

Robert Key: To ask the Chancellor of the Exchequer if he will place in the Library a copy of HM Revenue and Customs initial impact assessment of socio-economic factors in its Workforce Change programme. [179552]

Jane Kennedy: There is no initial impact assessment for the Workforce Change programme as a whole.

Socio-economic issues are among the factors reflected in the impact assessments for specific buildings published 12 to 18 months before a building is due to be fully vacated. These impact assessments are already available, both internally to staff and externally on the HMRC website:

www.hmrc.gov.uk

Working Families Tax Credit

Willie Rennie: To ask the Chancellor of the Exchequer if he will bring forward proposals to amend the legislative provision for childcare support received through working families tax credit to allow those in training or further education to have time spent in study taken into account. [180206]

Jane Kennedy: The child care element of working tax credits (WTC) is designed to help remove the child care barrier that often prevents people taking up or returning to work. Eligibility to this system is therefore dependent on claimants being in formal employment for a minimum of 16 hours per week. Parents undertaking training courses or further education with

a view to moving into work may qualify for access to free child care resource (through New Deal and education providers direct) and so there are currently no plans to extend the child care element of WTC to this group.

Willie Rennie: To ask the Chancellor of the Exchequer if he will review the number of hours parents are required to work before they are eligible to receive child care support through working families tax credit. [180207]

Jane Kennedy: The working tax credits (WTC) system is dependent on claimants being in formal employment for a minimum of 16 hours per week. Since the child care element is an integral part of the overall system, it would not be practical to have a shorter hours rule for certain claimants claiming certain elements.

DEFENCE

Military Covenant

14. **Mr. Randall:** To ask the Secretary of State for Defence what recent assessment he has made of his Department's effectiveness in upholding the military covenant. [180016]

Derek Twigg: The Government provide a wide range of support to our armed forces and veterans and their families. We have made a number of improvements recently including enhancements to operational equipment, accommodation, compensation and medical support. The Command Paper, due in the spring, will outline steps taken so far and future initiatives to enhance the Government's support.

19. **Mr. Mackay:** To ask the Secretary of State for Defence what recent steps he has taken to improve his Department's meeting of its obligations in respect of the military covenant; and if he will make a statement. [180021]

Derek Twigg: I refer the hon. Member to the answer I gave earlier today to the hon. Member for Uxbridge (Mr. Randall).

23. **Tony Baldry:** To ask the Secretary of State for Defence what recent assessment he has made of his Department's effectiveness in upholding the military covenant. [180025]

Derek Twigg: I refer the hon. Member to the answer I gave earlier today to the hon. Member for Uxbridge (Mr. Randall).

Afghanistan

16. **Mr. Hollobone:** To ask the Secretary of State for Defence if he will make a statement on the personnel and material provided to UK armed forces in Afghanistan by other members of NATO. [180018]

Des Browne: UK armed forces in Afghanistan are ably supported by other members of NATO, both in terms of personnel and material.

Military Vehicles

17. **Sir Nicholas Winterton:** To ask the Secretary of State for Defence what steps he is taking to improve the safety of military vehicles in theatre. [180019]

Des Browne: All equipment, including military vehicles, must comply with legislation and other statutory provisions covering safety. It is incumbent on the MOD to ensure that the equipment it provides and systems it operates are safe, that hazards have been eliminated or residual risks reduced to an acceptable level.

Military operations are inherently risky. We keep the threats our troops are facing in theatre under regular review and, where appropriate, seek to amend our tactics or introduce new protection solutions such as improved counter measures and uparmouring. When judged necessary, we have introduced whole new vehicle types, such as the Mastiff heavy protected patrol vehicle.

Selly Oak Hospital

18. **Mr. Kidney:** To ask the Secretary of State for Defence what progress has been made in developing the military-managed wing at Selly Oak hospital. [180020]

Derek Twigg: Excellent progress has been made since we announced, over a year ago, that we were establishing a military-managed ward at Selly Oak hospital for military trauma orthopaedic patients whom it is clinically appropriate to accommodate together. The ward achieved the desired operational capability last July. We shall build on these arrangements when we move into the new Birmingham hospital in 2010. I pay tribute to the military medical and NHS civilian ward staff who are providing first-class treatment and care for severely wounded military personnel.

Aircraft Carriers

20. **Andrew Rosindell:** To ask the Secretary of State for Defence what the target in-service dates are for HMS Queen Elizabeth and HMS Prince of Wales aircraft carriers. [180022]

Mr. Bob Ainsworth: The in-service dates for the future aircraft carriers are 2014 and 2016.

John Barrett: To ask the Secretary of State for Defence what progress has been made on the future aircraft carrier programme; and when the new carriers are planned to come into service. [180023]

Mr. Bob Ainsworth: Work to move to manufacture continues with the industrial alliance delivering the project. Legal formalities to allow the joint venture between BAE Systems and VT Group to receive a manufacture contract are being progressively addressed. There has been no change to the planned in service dates of 2014 and 2016.

Key Worker Status

22. **Ms Butler:** To ask the Secretary of State for Defence what steps he is taking to ensure that serving personnel are made aware of their key worker status when buying homes. [180024]

Mr. Bob Ainsworth: Every suitable opportunity will be taken to get across the important message that all qualifying Service personnel across England and Wales now have key worker status. This will be achieved in a variety of ways, through internal communications systems, Service publications, and briefings by the Joint Service Housing Advice Office, as well as through regional and local media, external websites and magazines.

Postal Services

24. **Jessica Morden:** To ask the Secretary of State for Defence what plans he has for the extension of free postal services to service personnel in Iraq and Afghanistan. [180026]

Mr. Bob Ainsworth: The Ministry of Defence and Royal Mail jointly announced on 12 November that the freepost scheme for the Iraq and Afghanistan theatres will continue as long as we have personnel deployed in those areas. The Department keeps the details of the scheme under continuous review but no further changes are currently planned.

Ex-service Personnel: Housing

Ian Lucas: To ask the Secretary of State for Defence what progress has been made on developing arrangements by which former services personnel can claim a local connection when applying for social housing. [180007]

Derek Twigg: I refer my hon. Friend to the answer I gave earlier today to my hon. Friend the Member for Crawley (Laura Moffat).

Barbara Keeley: To ask the Secretary of State for Defence what progress is being made on enabling former service personnel to claim a local connection when applying for social housing. [180017]

Derek Twigg: I refer my hon. Friend to the answer I gave earlier today to my hon. Friend the Member for Crawley (Laura Moffatt).

Defence Diversification

David Taylor: To ask the Secretary of State for Defence what recent assessment he has made of the effectiveness of his Department's defence diversification policies since 2001. [180012]

Mr. Bob Ainsworth: The Ministry of Defence most recently considered its approach to defence diversification in 2004 and 2006. We concluded that our diversification agenda was firmly embedded within the Department's core activities.

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence (1) pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 305, on Afghanistan, whether the 5,000 former fighters were part of the Program-Tachim-e Sol' scheme; [175457]

(2) pursuant to the statement by the Prime Minister on 12 December 2007, *Official Report*, column 305W, on Afghanistan, whether the 5,000 former fighters who have laid down their arms were part of the Program-Tachim-e Sol' scheme. [177734]

Des Browne: The Program-Tachim-e Sol' is owned by the Government of Afghanistan, who advise that the majority of the 5,000 former fighters referred to by the Prime Minister were part of this scheme.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, how many civilian helicopters his Department estimates NATO will lease for use in Afghanistan; whether the leased helicopters will operate in Regional Command South; what defensive aides suites the leased helicopters will have; when he expects the first leased helicopter to enter Afghanistan; for how long each contract will last; how much each contract will cost; and if he will make a statement. [175459]

Des Browne: NATO will lease a mix of aircraft suitable to carry the contracted 13,000kg of freight per day. They will be used throughout Afghanistan, including in Regional Command South. The first aircraft is expected to enter Afghanistan in early 2008, on a one year contract with the option to extend for a second. I am withholding details of the defensive aids for these helicopters as it would, or would be likely to, prejudice the capability, effectiveness or security of NATO forces. I am also withholding information on the cost of the contract as its disclosure would prejudice commercial interests.

Mr. Jenkin: To ask the Secretary of State for Defence how many UK helicopters with hoists for medical support there are in theatre in *(a)* Afghanistan and *(b)* Iraq. [179579]

Mr. Bob Ainsworth *[holding answer 17 January 2008]:* In both Iraq and Afghanistan, all UK helicopters deployed as part of the immediate response teams, which provide the medical evacuation capability, are equipped with hoists.

Ann Winterton: To ask the Secretary of State for Defence who will take over from the 52 Brigade in Afghanistan; and what changeover date *(a)* was originally planned and *(b)* is noe expected. [179958]

Des Browne: I shall inform the House of the units to be deployed in due course.

Armed Forces: Driving

Ann Winterton: To ask the Secretary of State for Defence whether British military personnel are required to hold the relevant British driving licence for the relevant category while driving different vehicles in theatre. [180096]

Mr. Bob Ainsworth: Not all military vehicles are included in British driver licensing regulations. Personnel are required to hold the appropriate licence for the weight of the vehicles they will be driving while in theatre. Additionally, all drivers are required to undertake specific training on those vehicles which they will be required to drive.

Armed Forces: Foreigners

Dr. Murrison: To ask the Secretary of State for Defence how many and what proportion of non-UK citizens serving in each branch of the armed forces went absent without leave in each of the last 10 years. [180050]

Derek Twigg: The information is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Housing

Mr. Bellingham: To ask the Secretary of State for Defence (1) what estimate he has made of the cost of void and unused accommodation to his Department in 2007-08; and if he will make a statement; [170996]

(2) pursuant to his answer of 30 October 2007, *Official Report*, column 1349W, on armed forces housing, what the cost of rent, council tax, maintenance and administration in relation to void properties in the married quarters estate has been in *(a)* England, *(b)* Scotland and *(c)* Wales in the last 12 months. [171517]

Derek Twigg: The average costs of void properties are no different to those for occupied properties. In England and Wales the majority of service family accommodation is owned by Annington Homes Ltd. (AHL). As part of the agreed contract with AHL, the MOD pays 42 per cent. of the market rent of each property to AHL (an average of some £3,500 per property per year). In Scotland properties are owned by MOD and no rental charges are incurred.

All properties in England, Scotland and Wales incur standing costs of council tax and maintenance. Contribution in lieu of council tax is averaged out at approximately £1,200 per property per annum. Maintenance is an average of approximately £2,500 per property per annum. Information on administrative costs is not held in the format requested.

It is worth noting that the vast majority of void properties are held to facilitate the need to queue houses for families to satisfy entitlement and also to effectively manage future unit moves.

Mr. Bellingham: To ask the Secretary of State for Defence how much of the announced £5 billion expenditure on his Department's accommodation over the next 10 years has already been allocated to existing or approved projects over that period. [170997]

Derek Twigg: We recently announced that we have reassessed our likely spend on accommodation for the next 10 years to take account of those elements previously excluded. The total amount will in fact be £8.4 billion. Of that, £3.1 billion will be spent on new-build and upgraded accommodation projects, with approximately two thirds allocated to current approved projects and the balance against a programme for the improvement of both single living and family accommodation.

Mr. Bellingham: To ask the Secretary of State for Defence whether the planned £5 billion to be spent on his Department's accommodation includes expenditure on *(a)* barrack rebuilds, *(b)* refurbishments and *(c)* military base upgrades. [170998]

Derek Twigg: We recently announced that we have reassessed our likely spend on accommodation for the next 10 years to take account of those elements previously excluded. The total amount will in fact be £8.4 billion. Of that, £3.1 billion will be spent on new-build and upgraded accommodation, £2.3 billion on refurbishment and maintenance and £3 billion on routine costs, including rent, other leasing costs and the equivalent of council tax.

That expenditure does not, therefore, include expenditure on the rebuild or refurbishment of non living accommodation at either military barracks or military bases.

Mr. Bellingham: To ask the Secretary of State for Defence how much was spent on *(a)* refurbishment and *(b)* emergency repairs and upkeep of his Department's accommodation in 2006-07. [171000]

Derek Twigg: The Ministry of Defence spent some £12.5 million on upgrading service families accommodation (SFA) in Great Britain to the top standard for condition in 2006-07. In the same period, some £122.5 million was spent on repairs and general upkeep of properties.

Details of SFA expenditure in Northern Ireland and overseas is not held centrally and could be provided only at disproportionate cost.

Expenditure on single living accommodation (SLA) is spread throughout the Department. The required details of total spend on SLA are not held centrally and could be provided only at disproportionate cost. However, Defence Estates spent some £120 million on providing new SLA in 2006-07.

Mr. Bellingham: To ask the Secretary of State for Defence what *(a)* recent discussions he has had on and *(b)* steps he is taking to make his Department's (i) housing procurement strategy, (ii) refurbishment programme and (iii) emergency repairs functions more efficient. [171001]

Derek Twigg: Defence Ministers are taking an active lead in the work being done on accommodation—this involves frequent meetings, briefings and site visits with stakeholders, service personnel and other interested parties. We want to ensure a step-change and to drive forward further work on upgrading and improving accommodation, including repair and maintenance.

In recent years a single Housing Prime Contract (HPC) has been set up covering the maintenance of some 45,000 service families accommodation (SFA) in England and Wales, which replaced hundreds of previous contracts. The HPC helpline ensures that emergency calls are responded to quickly with nearly all emergency repairs now being effected within the

required timescales. Since 2003 SFA in Scotland has been maintained as part of the Regional Prime Contract.

In a similar timeframe, Project Single Living Accommodation Modernisation (SLAM) was launched to deliver new en-suite SLA across the UK together with several parallel PFI projects. These initiatives have resulted in 12,000 SFA and 20,000 SLA being upgraded since 2002 and have increased the efficiency of delivery.

We are also developing an Estate Development Plan which will help us ensure we have an estate of the right size and quality.

Mr. Bellingham: To ask the Secretary of State for Defence what his definition is of his Department's accommodation on which £5 billion over 10 years is to be spent. [171004]

Derek Twigg: We recently announced that we have reassessed our likely spend on accommodation for the next 10 years to take account of those elements previously excluded. The total amount will in fact be £8.4 billion. Of that, £3.1 billion will be spent on new-build and upgraded accommodation, £2.3 billion on refurbishment and maintenance and £3 billion on routine costs, including rent, other leasing costs and the equivalent of council tax.

Accordingly, the £8.4 billion entirely relates to living accommodation.

Mr. Bellingham: To ask the Secretary of State for Defence what proportion of his Department's housing budget is taken up by administrative costs in 2007-08; and how much of the announced £5 billion expenditure on his Department's accommodation over the next 10 years will be spent on administrative and overhead costs. [171106]

Derek Twigg: The management of housing in Great Britain is carried out by a directorate within Defence Estates, the organisation responsible for the defence estate. The budget of the housing directorate includes £26 million for administrative and other overheads.

As the Secretary of State for Defence recently announced, we have reassessed our likely spend on accommodation for the next 10 years to take account of those elements previously excluded. The total amount will in fact be £8.4 billion. The £8.4 billion does not include any administrative or other overheads of the Department.

Mr. Bellingham: To ask the Secretary of State for Defence what his Department's expenditure on married quarters is in 2007-08; and how much of the announced £5 billion expenditure on his Department's accommodation over the next 10 years is planned to be spent on married quarters. [171107]

Derek Twigg: Current forecasts for 2007-08 include some £400 million of expenditure on married quarters in the United Kingdom. This includes the maintenance of the housing stock of some 50,000 houses and upgrading of at least 600 houses to the highest standard. Because of the way in which the management of housing is carried out overseas, it is not possible to provide an accurate forecast for overseas housing without disproportionate effort and cost.

We recently announced that we have reassessed our likely spend on accommodation for the next 10 years to take account of those elements previously excluded. The total amount will in fact be £8.4 billion. Around £4.5 billion of this amount is planned to be spent on married quarters in the United Kingdom.

Mr. Bellingham: To ask the Secretary of State for Defence what areas of expenditure will be included within the proposed £5 billion to be spent on his Department's accommodation over the next 10 years. [171108]

Derek Twigg: We recently announced that we have reassessed our likely spend on accommodation for the next 10 years to take account of those elements previously excluded. The total amount will in fact be £8.4 billion. Of that £3.1 billion will be spent on new-build and upgraded accommodation, £2.3 billion on refurbishment and maintenance and £3 billion on routine costs, including rent, other leasing costs and the equivalent of council tax.

Mr. Baron: To ask the Secretary of State for Defence when the Government expect all service accommodation to be at an acceptable standard at the planned rate of improvement. [180111]

Derek Twigg: The Ministry of Defence (MOD) is committed to providing decent accommodation for service personnel and their families. Addressing accommodation issues globally is one of our top priorities, but will take time as there is no quick fix to dealing with a legacy of decades of under funding.

Defence Estates is currently working with the armed forces on a long-term Estate Development Plan. This will allow us to identify future requirements and timescales for implementation.

The accommodation of more than 12,000 service families has been upgraded in the last six years. The current funded programme is expected to deliver 600 upgrades this financial year, 600 next year and some 800 for each year thereafter.

In addition, since 2001, some 20,000 new or improved single living accommodation bed-spaces have been delivered with a further 30,000 planned by 2013.

Mr. Dai Davies: To ask the Secretary of State for Defence what progress has been made on project SLAM on increasing and enhancing service accommodation. [180294]

Derek Twigg: In the five years since the contract award in December 2002, Project Single Living Accommodation Modernisation (SLAM) has delivered 9,540 new bed-spaces, with a further 3,716 in construction and 2,592 in the design and development stage. Much of this accommodation is single en-suite rooms, with communal kitchen, laundry and drying room facilities and living areas.

In total, under Project SLAM and similar initiatives, some 20,000 new or improved bed-spaces have been delivered since 2001 with a further 30,000 to be delivered by 2013.

Armed Forces: Mental Health Services

Richard Younger-Ross: To ask the Secretary of State for Defence what research his Department has commissioned on the causes and prevention of combat stress. [172895]

Derek Twigg: MOD has funded the King's College London Centre for Military Health Research (KCMHR) to undertake major research into the health of those who have served on recent operations in both Iraq and Afghanistan. Many of its findings have already been published in the peer-reviewed medical literature, including major pieces of work published in 2006. This research showed that there was no increase in psychiatric disorders seen in regular personnel deployed on the first phase of Op. Telic compared to the rest of the UK armed forces, and that the later Op. Telic deployments examined were not associated with any worsening of mental health consequence compared to the initial Op. Telic group.

Within KCMHR, the Academic Centre for Defence Mental Health has been established as an in-house mental health research resource which is looking into a variety of smaller scale aspects of dealing with the mental health of service personnel.

A Tri-Service Overarching Review of Operational Stress Management was carried out in 2004-05 which recognised the issues surrounding operational and combat stress. The armed forces were tasked with adopting its recommendations as appropriate within their single-service provisions.

Armed Forces: Pay

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 18 December 2007, *Official Report*, column 1449W, on armed forces pay, what the change was of the lowest increase in armed forces salaries against the retail price index; and which rank this was in relation to. [177635]

Derek Twigg: I refer the hon. Member to the answer my right hon. Friend, the Minister for the Armed Forces (Mr. Ainsworth) gave him on 18 December 2007, *Official Report*, column 1449W. The average salary, on armed forces pay, is not available by rank and could be provided only at disproportionate cost.

Illustrative rates for military salaries (excluding allowances) are, however, published by DASA in table 2.26 of United Kingdom Defence Statistics. These show the rates for each rank for that pay level with the largest number of people at 1 May 2005. As such, they do not reflect all the possible changes to the various pay levels within a rank, nor the movements between increments which individual servicemen receive.

The following table shows the year-on-year percentage changes derived from these figures rounded to one decimal place. The ranks are shown in terms of Army ranks.

		2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*Compounded over period*
General	Level 1	2.5	2.3	2.8	7.5	6.3	23.2
Brigadier	Level 3	3.7	3.5	2.5	3.0	3.0	16.7
Colonel	Level 1	3.7	3.5	2.5	3.0	3.0	16.7
Lieutenant Colonel	Level 9	3.7	3.5	2.5	3.0	3.0	16.7
Major	Level 9	4.2	3.5	2.5	3.0	3.0	17.3
Captain	Level 2	4.2	3.5	2.5	3.0	3.0	17.3
Lieutenant	Level 8	3.7	3.5	2.5	3.0	3.0	16.7
2nd Lieutenant	Level 5	3.7	3.5	2.5	3.0	3.0	16.7
Warrant Officer I	Level 4 H1	4.4	3.5	2.5	3.0	3.0	17.5
Warrant Officer II	Level 6 H	3.7	3.5	2.5	3.0	3.0	16.7
Staff Sergeant	Level 6 L1	3.7	5.5	2.5	3.0	3.0	19.0
Sergeant	Level 5 H	3.7	3.5	2.5	3.0	3.0	16.7
Corporal	Level 3 H	3.7	3.5	2.5	3.0	3.0	16.7
Lance Corporal	Level 5 H	3.7	3.5	2.5	3.0	3.0	16.7
Private	Level 1 L1	4.2	4.0	2.9	3.0	3.3	18.7

Note:
Service personnel on these pay levels have at times received larger increases than colleagues on different spine points within the same pay range for their rank. This is the result of the Armed Forces Pay Review Body having targeted some groups with recommendations for higher pay increases than those aimed at the majority of their service colleagues. Note that the compounded increase over that period for each of the other pay levels within these ranks would be at least the 16.7 per cent. quoted for other ranks.

The changes in the retail prices index year-on-year are as set out in my answer on 18 December 2007, *Official Report*, column 1449W.

Armed Forces: Schools

Dr. Fox: To ask the Secretary of State for Defence what the projected budget is for service children's education schools in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [177595]

Derek Twigg: The current projected resource control totals for service children's education for the next three financial years are as follows:

	£ million
2008-09	78.359
2009-10	79.743
2010-11	80.674

Armed Forces: Vehicles

Mr. Swayne: To ask the Secretary of State for Defence how many road traffic accidents occurred which involved both a military tracked vehicle and a civilian vehicle, in each of the last five years. [178929]

Derek Twigg: Road traffic accidents involving both a military tracked vehicle and a civilian vehicle that occurred over the last five years are as follows:

	Number of accidents involving a military tracked vehicle and a civilian vehicle
2003	38
2004	26
2005	32
2006	103
2007	48

The Department takes all road traffic accidents extremely seriously. To reduce the number of accidents, we deliver road safety campaigns and initiatives through organisations such as the Defence Road Safety Committee.

Armed Forces: Widowed People

Mr. Hoyle: To ask the Secretary of State for Defence what his policy is on the provision of continuing financial support to the widows and widowers of service personnel who die *(a)* on and *(b)* off operations while in receipt of armed forces' continuity of education allowance. [179900]

Derek Twigg: If a continuity of education allowance (CEA) claimant dies in service, the allowance will continue to be paid either to the end of the current stage of education, or for up to two full terms after the term in which the death of the service person occurred, whichever is the longer extension. This support applies to all children for whom CEA was being claimed prior to the date of death in service, and delivers the very continuity that the allowance was designed to provide.

Moreover, if a child is already studying for public examinations, CEA will continue to be paid for up to four years or to the end of the term in which the child takes the examination and then leaves school, whichever is soonest. By way of example, for a child aged 14 to 16 years who subsequently moves on to A-level studies, this would normally be up to four further years. Conversely, for a child aged 16 to 18 years, it would normally be up to two further years.

Given the emphasis on providing continuity of education, the allowance does not infer new entitlement for any child(ren) not already in receipt of CEA when the service parent dies.

Importantly, however, the same degree of support is available in all cases where a CEA claimant dies in service, whether or not the individual was deployed on operations. The above provisions are also available in all instances where CEA claimants are invalided from the armed forces.

Army: Admissions

Willie Rennie: To ask the Secretary of State for Defence on what grounds rejections of applications to join the Army are made. [179757]

Mr. Bob Ainsworth *[holding answer 17 January 2008]:* Applications to join the Army can be rejected because of a failure to satisfy eligibility criteria in any of the following fields:

- Age
- Convictions
- Driving disqualifications/endorsements
- Debt
- Drugs
- Education standard
- Eyesight
- Gender (women are excluded from employment in ground combat roles)
- Height
- Indentured apprentice
- Medical standard
- Nationality
- Parental consent (required for those enlisting below the age of 18)
- Physical fitness
- Record of conduct in previous service with armed forces
- Religion (Satanists are not accepted for service with the Army)
- Reserve liability to commonwealth armed services
- Residency
- Tattoos/body piercing
- Weight/body mass index

The applicability of, and the standard required within, each criterion, can depend on whether an applicant is seeking to become an officer or soldier, and also which trade or arm of the Army the applicant wishes to join.

Colombia: Military Aid

Mr. Hancock: To ask the Secretary of State for Defence what proportion of UK military assistance to the Colombian security forces was committed to humanitarian de-mining programmes in the most recent period for which figures are available. [179504]

Mr. Bob Ainsworth: In financial year 2007-08 it is planned that approximately 8 per cent. of UK MOD financial assistance to Colombia will be focused on humanitarian de-mining.

Mr. Hancock: To ask the Secretary of State for Defence what assistance his Department provided to the Colombian security forces in each of the last five years; what assistance he plans to provide in the future; what the cost was in each year; and if he will make a statement. [179506]

Mr. Bob Ainsworth: The following table provides the approximate cost of to the Department in assisting the Colombian security forces:

Financial year	*£000*
2003-04	120
2004-05	130
2005-06	130
2006-07	190
2007-08	[1]190

[1] Current estimate

This co-operation has been focused on British military education to strengthen human rights values and professional conduct within the Colombian armed forces, and explosive ordnance disposal (EOD) training in order to reduce military and civilian deaths from explosive devices.

We plan to maintain co-operation at a similar level over the next year. However, the provision of future assistance continues to be dependent on our being satisfied that no one receiving UK training is engaged in illegal activities or abuses. Furthermore, we cannot currently specify the precise nature of future assistance as this will also depend on a number of factors such as the availability of UK resources, the wishes of the Colombian Government, and an analysis of training needs.

Mr. Hancock: To ask the Secretary of State for Defence what steps he is taking to ensure that British military assistance to Colombia is restricted to humanitarian work; and if he will make a statement. [179507]

Mr. Bob Ainsworth: UK MOD co-operation with Colombia is focused on three main areas: embedding human rights reforms within the Colombian armed forces in order to increase democratic accountability and minimise human rights abuses; explosive ordnance disposal training to reduce civilian and military casualties from explosive devices; and bespoke counter-narcotics assistance to stem the flow of illegal drugs to the UK and strengthen the rule of law in Colombia. All these areas of activity are aimed at reducing internal conflict in Colombia, thereby alleviating humanitarian suffering.

Mr. Hancock: To ask the Secretary of State for Defence what steps he is taking to ensure British military assistance to Colombia is targeted towards counter-insurgency and counter-narcotics operations. [180348]

Mr. Bob Ainsworth: Our bilateral defence co-operation programme in Colombia has very specific objectives: to strengthen human rights values and professional conduct within the Colombian armed forces; to provide explosive ordnance disposal (EOD) training in order to reduce military and civilian deaths from explosive devices; and to stem the flow of illegal narcotics to the UK. It comes with conditions and safeguards attached which we monitor closely within the limitations of our co-operation programme.

Defence Aviation Repair Agency

John Smith: To ask the Secretary of State for Defence when *(a)* he and *(b)* his Ministers last visited the Defence Aviation Repair Agency at (i) Almondbank and (ii) Fleetlands. [179316]

Mr. Bob Ainsworth: My predecessor last visited the Defence Aviation Repair Agency (DARA) rotary wing business at Fleetlands on 10 May 2007 and the Components business at Almondbank on 22 August 2003. My right hon. Friend the Defence Secretary has not visited DARA.

Defence Aviation Repair Agency: Privatisation

Mr. Hoyle: To ask the Secretary of State for Defence if he will take steps to ensure that any private sector owner of the Defence Aviation Repair Agency be required to maintain current levels of productivity and versatility in repairing war-damaged helicopters. [179140]

Mr. Bob Ainsworth *[holding answer 15 January 2008]:* I announced on 25 July 2007 that work would continue to assess whether sale of Defence Aviation Repair Agency Rotary Wing and Components businesses offers best value for Defence.

As part of this assessment, my officials are considering all operational issues, including the ability of any new private sector owner to maintain the standards currently being achieved by DARA, before a final sale decision is made. Sale will only proceed on the basis that current levels of productivity and versatility are maintained or improved.

John Smith: To ask the Secretary of State for Defence whether he plans to sell the Defence Aviation Repair Agency; and if he will make a statement. [179314]

Mr. Bob Ainsworth: I refer my hon. Friend to the answer I gave on 14 January 2008, *Official Report*, columns 879-80W, to the hon. Member for Chorley (Mr. Hoyle).

Defence Aviation Repair Agency: Standards

John Smith: To ask the Secretary of State for Defence what assessment he has made of the efficiency of the Defence Aviation Repair Agency rotary wing maintenance plants at *(a)* Almondbank and *(b)* Fleetlands. [179317]

Mr. Bob Ainsworth: The performance of the Defence Aviation Repair Agency, including its efficiency, is measured through annual Key Targets, copies of which are available in the Library of the House.

The Defence Aviation Repair Agency's performance against these targets is assessed by the Department's Defence Internal Audit organisation.

Defence Equipment and Support Organisation: Manpower

Annette Brooke: To ask the Secretary of State for Defence pursuant to the answer of 17 December 2007, *Official Report*, column 1035W, on Defence Equipment and Support Organisation: manpower, what the reasons are for the difference between the figures relating to staff numbers provided in the answer and those on the Defence Equipment and Support Organisation's homepage. [180453]

Mr. Bob Ainsworth: The DE&S website uses an approximate manpower figure of 29,000 to provide a general view of the size of the organisation. The precise manpower figure varies over time and in the event of requests for more detailed manpower figures, these are provided. We recognise the need to update the approximate manpower figure on the DE&S website and plan to do this annually.

Defence Export Services Organisation

Angus Robertson: To ask the Secretary of State for Defence (1) how much of the Defence Export Services Organisation's budget was spent securing naval orders from other EU countries *(a)* in 2007-08 and *(b)* in each of the previous 10 years; [178149]

(2) how much of the budget of UK Trade and Investment will be spent on securing naval orders from other EU countries in 2007-08; [178150]

(3) how many of his Department's staff are employed to secure military procurement orders from other EU countries. [178176]

Mr. Bob Ainsworth: The Defence Export Services Organisation (DESO) currently has 15 staff working full-time in support of UK industry efforts to win business in EU countries at an estimated cost in the current year of some £800,000.

Records are not kept, for this or previous years, of the proportion of DESO's budget relating to staff time spent on support for efforts to secure naval orders. This information is also not available with respect to other staff in DESO and elsewhere in the Ministry of Defence, who, when required, assist industry to win orders from EU countries.

UK Trade and Investment will take responsibility for supporting defence trade promotion on 1 April 2008. Its budget is not being used for this purpose until then.

Defence: Expenditure

Mr. Soames: To ask the Secretary of State for Defence what percentage of gross domestic product was spent on defence in *(a)* 1997 and *(b)* 2007. [180617]

Mr. Bob Ainsworth: I refer the hon. Member to my answer on 10 October 2007, *Official Report*, column 635W, to the hon. Member for Bournemouth, East (Mr. Ellwood).

Defence: Procurement

Dr. Fox: To ask the Secretary of State for Defence what *(a)* initial gate and *(b)* main gate decisions on category (i) A, (ii) B and (iii) C equipment projects are due to be taken over the Comprehensive Spending Review 2007 period. [178505]

Mr. Bob Ainsworth: The timing of MOD investment decisions depends on the maturity of the project. It is not therefore possible to provide a list of projects due to submit initial gate and main gate business cases during the comprehensive spending review 2007 period.

The investment decisions for projects are taken as soon as the necessary work is complete—any date used within the Department is for planning purposes only.

Dr. Fox: To ask the Secretary of State for Defence what category *(a)* A, *(b)* B and *(c)* C projects have been (i) deferred, (ii) reduced and (iii) cancelled at (A) initial gate and (B) main gate since 1997-98. [178506]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence what percentage of his Department's planned expenditure on major equipment projects is committed *(a)* three years, *(b)* six years and *(c)* nine years ahead. [178309]

Mr. Bob Ainsworth: The Department is currently in the process of Planning Round 08 and therefore planned expenditure for equipment projects is currently under consideration.

The percentage of the Department's planned expenditure on major equipment projects, currently financially committed, is as follows:

	Percentage
Three years ahead	48
Six years ahead	15
Nine years ahead	3

The answer is based on the projects listed in the National Audit Office Major Projects Report (HC 98-I Session 2007-2008, dated 30 November 2007).

Dr. Fox: To ask the Secretary of State for Defence what his Department's *(a)* pre main gate and *(b)* post main gate category A projects were in each year from 1997-98 to 2007-08. [178580]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Capital Investment

Dr. Fox: To ask the Secretary of State for Defence what *(a)* percentage and *(b)* value of his Department's (i) current and (ii) capital expenditure was paid for in (A) euros, (B) US dollars and (C) other foreign currencies in each year from 1997-98 to 2006-07. [178510]

Mr. Bob Ainsworth: The Department records all expenditure in its books of accounts in sterling, including that incurred in foreign currency. The values recorded in the accounts are the expenditure in currency converted at the general accounting rate (GAR) for the relevant month. All GARs are based on the cost to the Department of the actual purchases of the individual currencies.

The net cash requirement (NCR) reported in the departmental resource accounts reflects all cash expenditure incurred by the Department in a year, both current and capital, in all currencies. There is no central analysis by currency of the split between current (revenue) and capital expenditure and this information could be provided only at disproportionate cost.

The overall expenditure in US dollars and euros is shown as follows and as a percentage of the NCR in each year. Details of actual US dollars and euros expenditure for years prior to 2000-01 is not held centrally and could be provided only at disproportionate cost.

	US dollar expenditure		*Euro expenditure*	
	Value (£ million)	*Percentage of NCR*	*Value (£ million)*	*Percentage of NCR*
2006-07	1,567	5.0	1,389	4.4
2005-06	1,384	4.5	1,384	4.5
2004-05	1,239	4.2	1,244	4.2
2003-04	1,355	5.0	1,080	4.0
2002-03	1,224	4.7	911	3.5
2001-02	1,190	4.8	730	2.9
2000-01	1,204	5.1	719	3.1

Aggregate expenditure in other currencies is relatively small and is less than 1.5 per cent. of NCR in each of the years shown in the aforementioned table.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Defence what products featuring departmental or Government branding were procured by *(a)* his Department and *(b)* its agencies in each of the last five years. [179793]

Derek Twigg: The information is not held centrally and could be provided only at a disproportionate cost.

Mr. Hoban: To ask the Secretary of State for Defence how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179842]

Derek Twigg: Currently there are no displays or posters containing the names or photos of Ministers in the Ministry of Defence London buildings.

Between 2003 and 2004 there were no displays produced containing the names or photos of Ministers.

In May 2005 eight displays were produced for the London buildings at a cost of £2,737.75.

In May 2006 four displays for the London buildings were produced at a cost of £766.10.

Accurate information on displays produced by the Defence Agencies, top level budget areas, trading funds, joint headquarters, single service commands and military units is not held centrally and could be provided only at a disproportionate cost.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Defence whether any of his Department's special advisers also work for organisations outside his Department. [178482]

Des Browne: Special advisers are appointed under the terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are available in the Library of the House.

Departmental Pay

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library an index of civilian salaries of his Department's staff, rebased to 2000, for each financial year from 1996-97 to 2006-07. [180300]

Derek Twigg: Although DASA publish a military salaries index, a similar index is not available for civilian personnel. A similar index is not readily available and could be provided only at disproportionate cost.

Departmental Procurement

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library copies of his Department's *(a)* equipment and *(b)* non-equipment vectors of final demand for each of the years 2002-03 to 2006-07. [178504]

Mr. Bob Ainsworth: The final demand vectors form one part of a complex methodology for deriving the estimates of UK employment dependent on MOD expenditure and defence exports, and associated breakdowns on MOD expenditure in UK industry and commerce. The latest aggregate information on the non equipment and equipment vectors is published by the Defence Analytical Services Agency (DASA) in Table 1.9a of "UK Defence Statistics 2007", a copy of which is available in the Library of the House.

In isolation the raw underlying data used to construct these vectors will not reconcile to these final published estimates as a series of internal adjustments are made to the vectors prior to publication. Moreover, the vectors will also not reconcile to the published MOD resource accounts since they are constructed using cash rather than resource data. To correct these raw figures to make them consistent with published accounts would involve disproportionate cost.

A full account of the methodology, associated caveats and descriptions of the data sources used to construct these vectors can be found in the DASA "Defence Statistics Bulletins Nos. 5 and 5A", both of which are available in the Library of the House.

Departmental Vehicles

Dr. Fox: To ask the Secretary of State for Defence on how many occasions since 1997-98 his Department has implemented *(a)* mileage restrictions, *(b)* track mileage restrictions and *(c)* petrol consumption restrictions. [178508]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

European Fighter Aircraft

Mr. Hayes: To ask the Secretary of State for Defence (1) what the reasons were for the change of specifications in relation to the Eurofighter cannon; and if he will make a statement; [178209]

(2) what the cost of adding the cannon option to the Eurofighter was; how many changes to specifications occurred over this capability; and what the end cost was of such changes. [178210]

Mr. Bob Ainsworth: There is no additional fitting cost because all RAF Typhoon aircraft have always been fitted with a cannon, and nor have there have been changes to the cannon specification. Trials are currently under way to test the activation of the cannon as a potential additional means of delivering an enhanced air-to-surface capability in support of ground forces.

Farnborough Aerodrome

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much TAG paid for the acquisition of the freehold interest in the Farnborough aerodrome. [178539]

Derek Twigg: TAG Farnborough Airport Freehold Limited paid the Ministry of Defence £1 million to acquire the freehold interest of Farnborough airport. A premium of £2 million was also paid to the Ministry of Defence when the 99-year lease was granted to TAG Farnborough Airport Limited in February 2003.

Helicopters: Crew

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* inflow and *(b)* outflow rate was of helicopter crews in each service in the last period for which figures are available. [173725]

Derek Twigg: Available data showing the number of helicopter crew joining the trained strength and leaving each of the services are shown in the following table.

	Inflow	*Outflow*
Royal Navy[1]		
Officers	36	16
NCOs	10	7
Army Air Corps[2]		
Officers	[3]42	[4]22
NCOs	[3]—	32
Royal Air Force[5]		
Officers	54	28
NCOs	68	17

[1] Figures given are for the period 1 October 2006 to 30 September 2007.
[2] Figures given are for the period 1 April 2006 to 31 March 2007.
[3] Combined.
[4] Figures exclude those leaving on retirement.
[5] Figures given are for 2007 up to 13 December 2007.

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* required and *(b)* actual strength of helicopter crews is in each service. [173726]

Derek Twigg: The current requirement and strength for helicopter crew personnel as at 17 December 2007, broken down by service:

Service	*Establishment (requirement)*	*Actual strength*
Army	440	382
Royal Navy	530	460
Royal Air Force	641	628

Hercules Aircraft

Mr. Gray: To ask the Secretary of State for Defence what the out of service date for the C130K fleet is. [178002]

Mr. Bob Ainsworth: The out of service date for the Hercules C-130K fleet is 2012.

Hydrographic Office

Mr. Todd: To ask the Secretary of State for Defence how he plans to clarify the public task of the UK Hydrographic Office, as recommended in the review of that Office; and when he plans to do so. [179398]

Derek Twigg: As owner of the UK Hydrographic Office (UKHO), I commissioned a review of structural and ownership options in February 2007. The recommendations of the review were announced in December 2007. The work to clarify the UKHO public task will be led by MOD officials together with the UKHO. The officials are currently drawing up a project plan for the work.

Marines

Patrick Mercer: To ask the Secretary of State for Defence what the peace establishment was of the 40 Commando Royal Marines before its deployment to Afghanistan; what the strength was of the Commando on deployment; how many reinforcements to the Commando were received from *(a)* the regular Army, *(b)* the Territorial Army, *(c)* the Royal Navy and *(d)* the Royal Marine Reserves; how many of all ranks were (i) left behind on recruitment duties, (ii) physically unfit to deploy and (iii) left behind in barracks to form a rear party; and what the Commando's battle casualty replacement policy is. [177941]

Mr. Bob Ainsworth: Prior to deploying to Afghanistan in September 2007, the peacetime establishment of 40 Commando Royal Marines was 700; the strength of 40 Cdo RM on deployment was less than 20 short of the peacetime establishment; there were no reinforcements from the Regular Army or the Royal Navy; fewer than 10 from the Territorial Army; and 80 from the Royal Marine Reserves and Royal Naval Reserves. There were no individuals left behind in barracks on recruitment duties and on the date deployed fewer than 20 RMs remained in barracks unfit to deploy. Fewer than 30 RMs remained in barracks to form the rear party. Numbers have been rounded to the nearest 100 or where less than 100, to the nearest 10 as appropriate.

The policy on battle casualty replacement was to utilise appropriately trained personnel identified in theatre. In order to rectify a deficiency arising in a specific skill, trained replacements would be requested and deployed forward from the United Kingdom.

Military Afloat Reach and Sustainability Programme

Angus Robertson: To ask the Secretary of State for Defence whether the Government plan to put the Military Afloat Reach and Sustainability project out to EU tender. [178151]

Mr. Bob Ainsworth: The Military Afloat Reach and Sustainability (MARS) programme consists of three classes of ships (Fleet Tanker, Fleet Solid Support and Joint Sea Based Logistic), which will carry fuel, stores and provide logistic support for maritime and expeditionary forces including the Future Carrier. MARS Fleet Tankers will be procured competitively and the design and build requirement was advertised in the Official Journal of the European Union on 10 December 2007. No decisions have yet been made however, as to where the ships will finally be built. The procurement strategies for later ship classes in the MARS programme are still under development to ensure flexibility within the programme.

Angus Robertson: To ask the Secretary of State for Defence what discussions have taken place with staff at BAE Govan and Scotstoun about the procurement of the Military Afloat Reach and Sustainability project. [178152]

Mr. Bob Ainsworth: The Military Afloat Reach and Sustainability (MARS) Integrated Project Team has ongoing dialogue with a number of key players in the shipbuilding industry, including BAE Systems. BAE Systems attended the MARS Industry day in November 2007 and has registered its interest in delivering the Fleet Tanker (FT) element of the MARS programme. Upon request, those interested in delivering the FT have been provided with a pre qualification questionnaire and, if returned, this will be evaluated during February and March 2008.

Procurement strategies for later ship classes in the MARS programme are still under development to ensure flexibility within the programme.

Military Aircraft: Helicopters

Dr. Fox: To ask the Secretary of State for Defence how many and what percentage of each helicopter type in the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* RAF are (i) in service and (ii) fit for purpose. [177536]

Mr. Bob Ainsworth: The numbers and types of helicopters utilised by the Royal Navy, Army Air Corps and Royal Air Force which are in the forward fleet and considered fit for purpose are detailed in the following table. Forward fleet aircraft are those that are available to the front line command for operational and training purposes (i.e. those not in depth maintenance). Aircraft defined as fit for purpose are those considered capable of carrying out their planned missions on a given date.

	Forward fleet	*Percentage of total fleet*	*Fit for purpose*	*Percentage of forward fleet*
Royal Navy				
Sea King HC Mk4 and 6	31	74	12	39
Lynx Mk 3 and 8	41	65	25	61
Merlin Mk 1	27	71	12	44
Sea King Mk 5	11	73	6	55
Sea King Mk 7	9	69	6	67
Army Air Corps				
Apache AH Mk1	48	72	25	52
Augusta A 109	4	100	3	75
Lynx AH Mk 7 and 9	57	58	33	58
Gazelle HC Mk 1	45	62	36	80
Royal Air Force				
Chinook HC Mk 2	26	65	17	65
Merlin HC Mk 3	15	68	8	53
Puma HC Mk 1	21	55	14	67
SAR Sea King Mk 3/3a	17	68	9	53

The figures shown are the average for the month of November 2007. The number of helicopters fit for purpose will vary from day to day due, primarily, to routine maintenance requirements. Operational capability is measured in terms of flying hours rather than the number of airframes available.

These figures do not include the six RAF Merlin helicopters recently acquired from Denmark or the eight RAF Chinook Mark 3 helicopters that are being converted to a battlefield support role.

Military Attaches

Mr. Hague: To ask the Secretary of State for Defence how many UK defence attachés and advisers there are *(a)* at each UK diplomatic post, *(b)* in each region of the world and *(c)* in total; what their responsibilities are; how many defence attaché posts have been (i) established and (ii) discontinued at each diplomatic post since 1997; and what effect the withdrawal of Foreign and Commonwealth Office funding for the defence attaché network has had on his Department's plans for its funding. [179164]

Mr. Bob Ainsworth: The following table shows resident attachés by country and by region. Other countries are covered on a non-resident basis.

Region/country	*Defence attaché/defence adviser*	*Military attaché*	*Naval attaché*	*Air attaché*	*Country total*

[1] DA is supported by an Assistant DA.
[2] DA is supported by an Assistant DA.
[3] DA is also the AA and is supported by an Assistant Air Attaché shown under the Air Attaché column above.

The role of defence attachés is to promote the Government's policies in the area of international security co-operation. The principal components of this policy are to strengthen international peace and stability by preventing conflicts, contributing to the transformation of the security structures of vulnerable states, assisting and building partnerships with those who may contribute to peace support operations and by reducing the risk of terrorism through greater co-operation and communication.

The following table details the changes to the MoD's attaché network by country since 1997.

Country	1997[1]	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007[2]	2008[3]

Totals	116	117	125	122	128	127	129	125	128	124	119	116

[1] Based on available records from 1996. No changes are shown in available records from 1997.
[2] Includes changes from the third quarter of 07.
[3] Correct figures as at 16 January 2008.
[4] Vienna is now also used as a base for a co-located DA covering Switzerland, Hungary, Slovakia and Slovenia.

The MOD will continue to maintain a Defence Attaché network that is effective and relevant to our international interests.

Military Equipment: Iraq

Nick Harvey: To ask the Secretary of State for Defence (1) what military equipment the UK gifted to Iraqi forces in each year since 2003; [163033]

(2) what military equipment the Government plan to gift to Iraq over the next 12 months. [163034][1]

Des Browne: The UK has gifted a range of military equipment and infrastructure to prepare the Iraqi security forces to be self-sufficient in the management of their own security.

The following military equipment has been supplied by HMG to the Iraqi Government for use by the Iraqi security forces. A list of security related equipment has also been provided for completeness:

2005 Military Equipment

6,500 AK47 assault rifles

5.3 million rounds of 7.62mm ammunition

25,058 sets of body armour

2,500 helmets

2,000 sets of public order equipment

7,444 Kevlar helmets

308 high frequency radios

992 Binoculars

69 GPS

42 GPS with radio

12 sets of urban operations equipment

450,000 rounds of AK47 blank ammunition (for training purposes)

500,000 rounds of PKM (light machine gun) blank ammunition (for training purposes)

438 Underslung grenade launchers (UGL) for AK47s

18,400 UGL rounds

36,800 UGL training rounds

1. *[Official Report, 26 February 2008, Vol. 472, c. 15MC.]*

5,666 x 9mm pistols
850,000 rounds of 9mm ammunition
3,000 personal radios handset
50 operations room radios
200 vehicle radios
79 refurbished armoured Land Rovers
774 light machine guns (PKMs)
5 million rounds of ammunition for the PKMs
1,150 light machine guns (RPKs)
211 high frequency radios
16 high frequency base station fixed installation kits.

The following security related equipment has also been gifted:

2 luggage x-ray machines
3 archway metal detectors
27 hand-held metal detectors
15 under vehicle search mirrors
211 pick-up vehicles
12 water trucks
9 flat bad trucks
Networked data/voice capability (local area network)
Refurbishment of 24 boats.

2006 Military Equipment

90 Dshka 12.7mm heavy machine guns
6,300 9mm pistols
85 medium machine guns
12 Dragunov sniper rifles
20,500 helmets
14,500 pairs of boots
734 Motorola GM160 VHP radios with microphone and antenna.

The following security related equipment has also been gifted:

415 Iraqi Police Service patrol cars
319 Iraqi Police Service 4x4 patrol cars.

Our records indicate that no military or security-related equipment was gifted to Iraq in 2003 or 2004; none was gifted in 2007. Currently, we have no plans to gift military equipment in future.

Ministry of Defence Police and Guarding Agency: Recruitment

Dr. Fox: To ask the Secretary of State for Defence how many Ministry of Defence police officers were recruited for service in each year since 1997. [177592]

Derek Twigg: The figures for the number of Ministry of Defence police (MDP) officers recruited since 1997 are provided in the following table.

	Number of MDP officers recruited
1997	0
1998	39
1999	61
2000	55
2001	63
2002	126
2003	252
2004	233
2005	272
2006	220
2007	140
Total	1,461

QinetiQ

Mr. Hancock: To ask the Secretary of State for Defence (1) how much has been received from QinetiQ following the sale of each former Government-owned site as a result of the clawback agreement; and in relation to which sites the money has been received; [178249]

(2) in relation to the sale of which sites he expects to receive monies from QinetiQ as a result of the clawback agreement during 2008; how much he expects to receive in relation to each such site; and for which sites he does not expect to receive monies; [178250]

(3) what acreage of land has been transferred from his Department to QinetiQ; how much of that land has subsequently been disposed of and at what price; and if he will make a statement. [178976]

Des Browne: The requested information is not held centrally or in a consistent form. However, it should be possible to compile the requested information without incurring disproportionate cost. I will write to the hon. Member as soon as the work has been completed and place a copy of my letter in the Library of the House.

RAF Innsworth: NATO Rapid Reaction Corps

Mr. Laurence Robertson: To ask the Secretary of State for Defence when he anticipates the Rapid Reaction Corps will move to RAF Innsworth; and if he will make a statement. [180593]

Mr. Bob Ainsworth: The BORONA Programme is drawing up detailed plans for the move of the Headquarters Allied Rapid Reaction Corps to the Innsworth site. The exact timing of the move is subject to ongoing consideration.

Shipbuilding: Glasgow

Angus Robertson: To ask the Secretary of State for Defence what assessment the Government have made of the future viability of Govan and Scotstoun without work from the Military Afloat Reach and Sustainability project. [178174]

Mr. Bob Ainsworth: The MOD is working closely with industry, including BAE Systems, to ensure that a sustainable UK maritime sector is able to support the needs of the Royal Navy both now and in the future.

At this stage, in the timescales required for procurement of the MARS tankers, there is more than sufficient work from other maritime programmes to sustain the required on-shore design and build capability.

Angus Robertson: To ask the Secretary of State for Defence how many orders the Government have helped

secure for Govan and Scotstoun from other EU countries. [178175]

Mr. Bob Ainsworth: The Government's support for naval sales has helped to bring work for a number of UK shipyards, including Scotstoun. But no orders from EU countries have brought work to Govan or Scotstoun in recent years.

Territorial Army: Motor Vehicles

Ann Winterton: To ask the Secretary of State for Defence how many and what forms Territorial Army personnel have to complete in order to take a vehicle out. [180036]

Mr. Bob Ainsworth: All military personnel are required to hold a valid Form Military Transport (FMT) 600 before they may take a service vehicle out.

Additionally, any TA soldier required to undertake a driving duty must complete a Reserve Forces Certificate of Employment stating what activity that soldier has undertaken in the week preceding the driving activity.

Individual units may have local forms and procedures for completion before any type of vehicle is taken out in order to manage their vehicle fleets.

Trident

Mr. Dai Davies: To ask the Secretary of State for Defence what assessment he has made of whether a new production plant for highly enriched uranium is needed for Trident nuclear warheads. [177838]

Des Browne: It is currently assessed that existing stocks of highly enriched uranium are sufficient to meet the needs of the Trident warhead programme.

In 1995 the UK declared a moratorium on the future production of fissile material. This was reaffirmed in the 2006 White Paper on the Future of the UK's Nuclear Deterrent. Negotiating a Fissile Material Cut-Off Treaty, banning the production of fissile material for nuclear weapons, remains the UK's disarmament priority.

Vetting

Mr. Wallace: To ask the Secretary of State for Defence pursuant to the answer of 14 January 2008, *Official Report*, column 891W, on vetting, which other Government Departments use the Defence Vetting Agency for vetting *(a)* applicants for security clearance and *(b)* employees. [180034]

Mr. Bob Ainsworth: The Defence Vetting Agency (DVA) undertakes the role of an approved Shared Service Provider for various Other Governments Departments (OGDs). The DVA reflects the relationship between itself and these repayment customers in a series of Customer Supplier Agreements. Applications for vetting can cover both direct employees and staff undergoing the recruitment process but also, contractor personnel engaged in support of Government approved contracts. The DVA presently conducts selected personnel security vetting inquiries for the following:

British Telecommunications Plc
Competition Commission
Crown Office and Procurator Fiscal Service
Crown Prosecution Service
Department for Business, Enterprise and Regulatory Reform
Department for Children, Schools and Families
Department for Environment, Food and Rural Affairs
Department for Innovation, Universities and Skills
Department for Transport
Department for Work and Pensions
Department of Culture, Media and Sport
Department of Health
ESTYN (HM Majesty's Inspectorate for Education and Training in Wales)
Export Credits Guarantee Department
Financial Services Authority
Food Standards Agency
Gambling Commission (parent organisation Department for Culture, Media and Sport)
Government Car and Despatch Agency
Health and Safety Executive
HM Revenue and Customs
HM Treasury
Home Office (incorporating the Association of Chief Police Officers)
Metropolitan Police Service
Ministry of Justice
National Archives
National Assembly for Wales
National Audit Office
Northern Ireland Office
O2(UK) Plc
Olympic Delivery Authority
Office for Civil Nuclear Security
Office for Standards in Education
Office for the Gas and Electricity Markets
Office of Communications
Office of Fair Trading
Office of Government Commerce
Ordnance Survey
Registers of Scotland
Royal Mail Group
Scottish Court Service
Scottish Government
Serious Fraud Office
Serious Organised Crime Agency
Stabilisation Unit (parent organisation Department for International Development)
The Treasury Solicitor.

World War II: Prisoners of War

Mr. Greg Knight: To ask the Secretary of State for Defence what information his Department holds on the amount of compensation paid by the German Government for British prisoners of war of the Second World War. [180278]

Derek Twigg: No money has been paid by the German authorities specifically to provide compensation for former British prisoners of war (POWs).

In 1964, the then Federal Republic of Germany paid £1 million to the British Government to provide compensation for victims of Nazi persecution. The scheme focused on survivors of Nazi Concentration Camps. Servicemen held as ordinary POWs and civilian internees held in non-concentration camps were excluded. In the late-1990s, a fund totalling some £3.3 billion was set up by the German Government and industry to make payments to those civilians who were forced labourers. Again, service personnel held as POWs were excluded.

FOREIGN AND COMMONWEALTH OFFICE

Capita

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings (*a*) he, (*b*) Ministers in his Department and (*c*) officials have held with (i) directors and (ii) senior executives of (A) Capita Group plc and (B) its subsidiaries since 1 January 2001; what the (1) location and (2) duration of each meeting was; whether a record of each meeting was kept; and if he will make a statement. [180706]

David Miliband: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

Colombia: Human Rights

Mike Wood: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on alleged murders of civilians and breaches of human rights by soldiers of the Colombian Army, in particular the High Mountain Battalions. [180117]

Dr. Howells: I am concerned at continuing allegations of some Colombian policemen and army personnel being involved in abuses. I have raised these concerns with the Colombian Government, including when I visited Colombia in November 2007. However, it is clear that illegal armed groups and terrorist organisations such as the Revolutionary Armed Forces of Colombia are responsible for the majority of abuses in Colombia, as acknowledged in the 2006 report of the Office of the UN High Commissioner for Human Rights in Colombia.

Helping the Government and civil society in Colombia to protect and promote the basic human rights of all Colombians is a priority for this Government. A large part of our bilateral assistance programme, including with the Colombian armed forces, is focused on human rights. I am satisfied that no UK assistance is being used to commit human rights abuses, directly or indirectly. We have received no evidence to suggest that this is the case.

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs what requirements his Department and its agencies place on contractors in relation to the audit of personal data and IT equipment. [176624]

Meg Munn: The only substantial contracts the Foreign and Commonwealth Office (FCO) has for the processing of personal data are with two commercial partners responsible for the collection and administration of visa applications from foreign nationals wishing to travel to the UK. Both contracts contain clauses committing the partner to conformity with ISO27001, the international standard relating to the security of data systems, requiring auditable processes, and to compliance with the provisions of the Data Protection Act. The contracts also provide for surprise audits of partner premises by UKvisas. More generally, FCO model contracts contain specific clauses obliging the contractor to abide by the provisions of the Data Protection Act and empowering the FCO to ensure compliance.

Departmental Equality

Philip Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent by his Department (*a*) in total and (*b*) on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173839]

Meg Munn: The information requested by the hon. Member is as follows:

Total expenditure on diversity

	£
2007-08	[1]277,815.82
2006-07	[2]47,090.50
2005-06	[2]98,955.00

[1] Of which £118,110.82 on training. [2] Training only.

2007-08 is the first year for which the Foreign and Commonwealth Office (FCO) has a dedicated diversity budget for initiatives outside of training.

2007-08 is the first year, in the past three, where there have been dedicated officials working solely on promoting equality and diversity. The total cost of the staff working on equality and diversity issues in 2007-08 is £267,382.00 per annum.

The FCO has one full-time employee promoting equality and diversity who is assisted, on a temporary basis, by the equivalent of 3.9 full-time staff.

Departmental Internet

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 December 2007, *Official Report*, column 828W, on Departmental Internet, how many times each individual blog has been visited since it was established. [179635]

Meg Munn: The statistics available to the Foreign and Commonwealth Office for the blogging platform since its launch are for the site as a whole and not for individual blogs. Since the launch, on 26 September 2007, there have been 181,959 visits to the blogging platform, of which there were 554,259 individual page views.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what products featuring departmental or Government branding were procured by *(a)* his Department and *(b)* its agencies in each of the last five years. [179791]

Meg Munn: This information is not held centrally and it would incur disproportionate cost to collate.

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179844]

Meg Munn: The information requested by the hon. Member is not held centrally and could be obtained only at disproportionate cost.

Departmental Ministerial Policy Advisors

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any of his Department's special advisers also work for organisations outside his Department. [178480]

David Miliband: Special advisers are appointed under terms and conditions set out in the "Model Contract" and "Code of Conduct for Special Advisers", copies of which are in the Library of the House.

Derek Pasquill: Official Secrets

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the classification of any of the documents disclosed by Mr. Derek Pasquill has been amended since the submission to the police of the Department's considered assessment of the damage caused to international relations under Section 3 of the Official Secrets Act 1989 by Mr. Pasquill's disclosures. [180408]

Meg Munn: None of the classifications have been changed.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Ministers approved, before it was presented to the police, the witness statement by his Department setting out its considered assessment of the damage caused to international relations under Section 3 of the Official Secrets Act 1989 by Mr. Derek Pasquill's disclosures. [180422]

Meg Munn: The witness statement was given by a senior Foreign and Commonwealth Office official on behalf of the Department. Foreign and Commonwealth Office. Ministers were briefed on its contents.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library copies of those documents the disclosure of which formed the basis of the prosecution of Mr. Derek Pasquill for breaches of the Official Secrets Act 1989. [180423]

Meg Munn: These documents have remained in the public domain since they were first disclosed.

Diplomatic Service: EU Nationals

Dr. Fox: To ask the Secretary of State for Foreign and Commonwealth Affairs under what circumstances British embassies provide services to citizens of EU member states who lack diplomatic representation in a particular country; and if he will make a statement. [179685]

Meg Munn: Under article 20 of the treaty establishing the European Community, every citizen of the EU, in the territory of a third country in which the member state of which he or she is a national does not have diplomatic or consular representation, is entitled to protection by the diplomatic or consular authorities of any member state, on the same conditions as the nationals of that state. In some countries there are local arrangements between the missions of EU member states whereby each provides consular assistance to the nationals of a number of unrepresented states.

Disclosure of Information

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs how many documents disclosed without authorisation by Mr. Derek Pasquill formed the basis for his prosecution for breaches of the Official Secrets Act 1989. [180315]

Meg Munn: The Crown Prosecution Service brought charges under the Official Secrets Act 1989 on six of the documents disclosed by Mr. Pasquill.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of whether the public disclosure now of *(a)* all or *(b)* some of the documents first disclosed by Mr. Derek Pasquill and which formed the basis of his prosecution for breaches of the Official Secrets Act 1989 would harm international relations. [180316]

Meg Munn: The documents have remained in the public domain since they were first disclosed. The Foreign and Commonwealth Office provided a witness statement to the police, in December 2006, setting out its considered assessment of the damage caused, by the disclosures. We have made no subsequent damage assessment.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the witness statement to the police by the Foreign and Commonwealth Office setting out the Government's assessment of the damage caused under section 3 of the Official Secrets Act 1989 to international relations by Mr. Derek Pasquill's disclosures. [180317]

Meg Munn: The Witness Statement is a police document, produced as part of a criminal investigation, which the Foreign and Commonwealth Office is therefore not at liberty to disclose.

European Directorate

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff work in his Department's European Directorate; what the cost of such staff was in 2006-07; and what each Directorate member's responsibilities are. [176050]

Mr. Jim Murphy: The following table charts the number of Foreign and Commonwealth Office officials working in the European Union Directorate for 2006-07 and for 2005-06 for comparison. The staff numbers and costs are average figures.

	2005-06		2006-07	
	Staff numbers	Cost (£ million)	Staff numbers	Cost (£ million)
EU home	199	9.9	138	7
EU overseas	761	40.2	650	35
Total	960	50.1	788	42

It would incur disproportionate cost to provide the right hon. Member with details of each individual's responsibilities in the directorate.

Humanitarian Aid: Medals

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will bring forward proposals to create a humanitarian service medal or similar recognition for British civilians operating on behalf of the Government in hostile environments. [180618]

Meg Munn: A humanitarian service medal, to reward British civilians working for international organisations overseas, is currently under consideration by the Foreign and Commonwealth Office, Ministry of Defence and Cabinet Office.

Indonesia: Export Credit Guarantees

Willie Rennie: To ask the Secretary of State for Foreign and Commonwealth Affairs what communications he has had with the Indonesian Government on its outstanding debts to the UK Export Credits Guarantee Department in the last six months. [180327]

Meg Munn: Over the last six months, our embassy officials have on several occasions discussed the rescheduling of some elements of Indonesian debts to the Export Credits Guarantee Department with the relevant Indonesian authorities.

The Government of Indonesia owes the Export Credits Guarantee Department about £507 million plus US$400 million. These debts have been rescheduled in the Paris Club along with those of other Paris Club creditors. In addition to rescheduling Indonesia's debts through the Paris Club, the UK has also provided Indonesia with direct aid. In 2006-07, the Department for International Development provided £60 million to Indonesia to help it meet the Millennium Development Goals. This money was used for a range of poverty reducing programmes, including improving maternal health, tackling HIV/AIDS and tuberculosis, and for support to forestry.

Industrial Disputes

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the policy of Ministers in his Department to cross embassy staff picket lines in cases of industrial disputes. [180176]

David Miliband: In the event of an industrial dispute, as at all other times, Ministers act in accordance with their duties under the Ministerial Code.

Legalisation Office: Milton Keynes

Mr. Fallon: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to move the Legalisation Office to Milton Keynes; which private sector users have been consulted; and if he will make a statement. [180101]

Meg Munn: I refer the hon. Member to the written ministerial statement I made on 29 October 2007, *Official Report*, column 25WS.

Middle East: Armed Conflict

Mr. Andrew Turner: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the viability of a one state, equal rights solution to the Israeli-Palestinian conflict. [180599]

Dr. Howells: The UK has made no recent assessment of the viability of such a solution. Our position remains that the solution to the Israeli—Palestinian conflict is a two states solution: a democratic viable Palestinian state living in peace, side by side with Israel.

Middle East: Diplomatic Service

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to his Sunday Times article of 6 January 2008, how many staff he intends to transfer from Europe to the Middle East and South Asia in financial years 2008-09 to 2010-11. [179153]

Meg Munn: Around 60 front line policy staff from Europe will be transferred.

Military Attaches

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons his Department decided to withdraw its funding for the UK defence attaché network; and if he will make a statement. [179165]

David Miliband: As part of the recent comprehensive spending review, Foreign and Commonwealth Office (FCO) Ministers considered carefully the relative

priority of all of our expenditure and took the view that the FCO could not provide funding to the Defence Attaché network at the expense of FCO priorities.

This decision was shared with the Ministry of Defence at an early stage.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what interim arrangements his Department has made with the Ministry of Defence on the funding of defence attachés at UK diplomatic posts following his Department's decision to withdraw its funding. [179166]

David Miliband: The Foreign and Commonwealth Office has agreed to put a ceiling on the charges it will ask the Ministry of Defence (MOD) to pay during the one-year transitional period, from the previous position of not charging the MOD to the future position of charging full economic costs from April 2009. The exact details have not yet been finalised.

Republic of Ireland: Embassies

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on proposed redundancies at HM Embassy, Dublin. [180177]

Meg Munn: As part of its refocus of resources towards growth opportunities in emerging markets there will be a reduction in UK Trade and Investment's (UKTI) Dublin operation. This move is in line with UKTI's strategy to transfer resources to a number of key emerging markets. There will, however, remain an important role for Dublin's UKTI team which is being restructured to meet the needs of a mature market in a globalised economy.

Our embassy in Dublin has followed established consultation procedures with staff throughout. If redundancies do prove necessary, the package they offer will fully meet the requirements of Irish labour law.

Sri Lanka: Armed Conflict

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the consequences of the end of the ceasefire in Sri Lanka. [180502]

Dr. Howells: The Government view the abrogation of the internationally-brokered Sri Lanka cease-fire agreement as a matter of great regret. I refer my hon. Friend to my statement during the debate on Sri Lanka in the House on 17 January 2008, *Official Report*, columns 1183-88.

Tour Operators: Health Services

Mr. Paice: To ask the Secretary of State for Foreign and Commonwealth Affairs whether UK travel operators are obliged to notify the Government when their clients require hospitalisation while on holiday *(a)* in another EU member state and *(b)* outside the EU. [180480]

Meg Munn: UK travel operators are not obliged to notify the Government when their clients require hospitalisation while on holiday in another EU member state or outside the EU. However, recent guidelines issued by the Federation of Tour Operators, the organisation which represents the major UK tour operators, suggest that operators should notify British consular officials of any customer they expect will have to stay beyond their scheduled departure date due to unexpected circumstances such as hospitalisation.

Turkmenistan: Politics and Government

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political and economic situation in Turkmenistan. [179295]

Mr. Jim Murphy: Since coming to power, President Berdimuhamedov has carried out some reforms but has not yet changed the fundamental political and economic character of the country. For example, he has instituted agricultural and educational reform, and modified pensions. He has relaxed travel restrictions and broadened internet access. He has encouraged students to travel abroad for education and members of the Government to learn from the experience of other countries. He has increased Turkmenistan's engagement with other countries and improved relations both with its neighbours and with the wider world.

Under President Berdimuhamedov, Turkmenistan has engaged more with the UN, the Organisation for Security and Co-operation in Europe (OSCE) and EU on human rights, including by extending invitations to experts to visit the country. The UN High Commissioner for Human Rights, the previous OSCE Chairman-in-Office, the current OSCE Secretary-General and the Director of the Office for Democratic Institutions and Human Rights (ODIHR), have all visited this year and have received assurances of co-operation from the President, including on electoral reform. ODIHR sent a needs assessment mission to the presidential election in February 2007. The Government have agreed to a comprehensive EU/UN human rights project. There have been some limited releases of political prisoners.

In late December 2007, President Berdimuhamedov announced reforms which will eventually lead to the abolition of the dual exchange rate. This is a welcome step, although it will take time to work through the economy.

Given the nature of the previous regime, it remains too early to assess the full extent and the ultimate direction of reform, but the signs are encouraging. With our EU and other partners, we will continue to work with Turkmenistan in support of the President's reform agenda.

USA: Diplomatic Service

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what role is played by the British embassy in Washington to facilitate visits by British subjects to US administration sites including the Pentagon. [180171]

Dr. Howells: Our embassy in Washington assists with official visits to Washington and the US where requested, including those which involve visits to US Administration sites such as the Pentagon. All other requests for access to US Administration sites are usually directed to the relevant US institution.

Uzbekistan: Elections

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of the conduct of elections in Uzbekistan in December 2007; [179293]

(2) what discussions he has had with other countries on the conduct of elections in Uzbekistan in December 2007. [179294]

Mr. Jim Murphy: Our ambassador in Tashkent discussed the elections with other embassies, and took part in the EU heads of mission discussions on the outcome of the election.

The EU issued a presidency statement on behalf of EU member states on 27 December 2007 which noted with concern that the presidential election did not meet many Organisation for Security and Co-operation in Europe (OSCE) commitments and other international standards for democratic elections, and that the recommendations issued by the OSCE/Office for Democratic Institutions and Human Rights (ODIHR) after the 2004 parliamentary elections had not yet been implemented.

ODIHR conducted a limited observation mission. It noted that there were more candidates than in previous presidential elections including a female and a non-partisan candidate. However, the electorate was deprived of a genuine choice as all the candidates publicly endorsed the incumbent.

With our EU partners, we stand ready to assist Uzbekistan to co-operate with ODIHR to bring its election process and framework in line with OSCE commitments and other international standards for democratic elections.

Zimbabwe: Sanctions

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department is holding with *(a)* the European Commission and *(b)* the US Administration to strengthen the sanctions regime in relation to Zimbabwe. [179740]

Meg Munn: We are in regular contact with EU and US partners on Zimbabwe regarding the application of our respective targeted measures and how they might be strengthened. We strongly support the renewal of the EU's targeted measures for a further 12 months from February 2008. We would not hesitate to recommend the addition of further names to the list of persons referred to in the EU Common Position on Zimbabwe in response to human rights abuses or specific events.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 18 December 2007, *Official Report*, column 1363W, on Zimbabwe: sanctions, if he will make representations to *(a)* the European Commission and *(b)* other EU-member states to (i) increase the number of and (ii) share information on bank accounts frozen as part of economic sanctions against Zimbabwe. [179743]

Meg Munn: The UK can freeze accounts only in the names of listed persons. If further names are added to the EU regulation, any funds and economic resources held by those persons will be frozen. The UK will encourage other member states, through its participation in the relevant Brussels working groups, to share information regarding the funds they have frozen.

Zimbabwe: Sequestration of Assets

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been frozen in bank accounts under economic sanctions taken against Zimbabwe; and if he will make a statement. [179737]

Dr. Howells: EU member states do not systematically share detailed information for Zimbabwe, or other sanctions regimes, concerning the value of funds they have identified and frozen. However, they are legally obliged to freeze all funds and economic resources belonging to persons listed under the sanctions regime. It is prohibited to make funds or economic resources available, directly or indirectly, to these persons. The reported balance of UK frozen funds amounts to over £170,000.

The UK is firmly committed to the full implementation of all EU sanctions, along with our EU partners.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Aerials

Mrs. Moon: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what consideration has been given to making mobile telecommunications mast-sharing a requirement of future licence applications. [177097]

Mr. Timms: The Government encourage site and mast sharing by mobile telecommunications operators as part of developed planning policy, specifically under Planning Policy Guidance Note 8. The independent regulator, the Office of Communications (Ofcom), is permitted to grant powers under the Electronic Communications Code to operators, and would encourage the sharing of electronic communications apparatus whenever it considers applications.

Operators with plans to share sites and masts must ensure that any proposals for infrastructure sharing do not breach the terms of their licence under the Wireless Telegraphy Act issued by Ofcom. The mobile network operators are committed to voluntary site sharing, and all have reciprocal mast sharing agreements already in

place for standard mast sharing, redevelopment of existing masts and joint development of new masts.

Mrs. Moon: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of *(a)* 3, *(b)* O2, *(c)* Orange, *(d)* T Mobile and *(e)* Vodaphone mobile telecommunication masts that are shared; and between which companies each is shared. [177099]

Mr. Timms: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Bankruptcy: Greater London

Mr. Burstow: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many businesses in each London borough filed for bankruptcy *(a)* less than five years, *(b)* less than 10 years, *(c)* less than 20 years and *(d)* more than 20 years after their establishment in each year since 1997; and if he will make a statement. [178421]

Mr. McFadden: The information requested is not readily available and to attempt to provide it would incur disproportionate cost. The figures given as follows are the best that can be provided in the time available from information held centrally.

Table 1 records the number of individual bankruptcy orders in the London region (classified according to the Official Receiver's (OR) offices), for those cases where trading information was available. The figures are broken down by the length of trading period (years). Table 2 shows a similar breakdown for company compulsory liquidations.

It should particularly be noted that the only information held on which to base 'length of establishment' is the trading start and end dates, but that this is only available for on average 25 per cent. of trading bankrupts and 20 per cent. of compulsory liquidations over the period requested (nationally). This means that these figures should be interpreted with extreme caution and should not be considered to be representative of the totality of trading bankrupts or company liquidations during the period in question.

A breakdown by length of establishment is not available by London borough. Further, it should be noted that there are movements of individual OR's offices between broader regions which coincide with financial years, notably in FY 2004-05, Croydon OR's office moved from Anglia to London region. This means that the statistics cannot be treated as a consistent time series.

Table 1: Number of individual bankruptcy orders by length of time trading, in the London region, 1997-98 to 2006-07[1, 2]

	Trading length (years)				
Financial year	*Less than equal to 5*	*6-10*	*11-20*	*More than 20*	*Total cases trading length available*
1997-98	37	19	12	3	71
1998-99	10	7	3	1	21
1999-2000	54	21	17	7	99
2000-01	62	26	13	7	108
2001-02	40	17	17	4	78
2002-03	67	12	8	7	94
2003-04	76	22	19	9	126
2004-05	99	31	16	8	154
2005-06	132	23	17	5	177
2006-07	333	25	16	1	375

Table 2: Number of company compulsory liquidations by length of time trading, in the London region, 1997-98 to 2006-07[1, 2]

	Trading length (years)					
Financial year	*Less than equal to 5*	*6-10*	*11-20*	*More than 20*	*Total cases trading length available*	*Total number of compulsory liquidations*
1997-98	61	6	2	5	74	1,225
1998-99	120	11	6	4	141	1,370
1999-2000	158	26	6	9	199	1,047
2000-01	117	20	13	3	153	993
2001-02	147	17	10	3	177	866
2002-03	198	39	8	5	250	1,211
2003-04	173	21	13	7	214	823
2004-05	104	11	2	6	123	1,137

Table 2: Number of company compulsory liquidations by length of time trading, in the London region, 1997-98 to 2006-07[1, 2]

	Trading length (years)					
Financial year	*Less than equal to 5*	*6-10*	*11-20*	*More than 20*	*Total cases trading length available*	*Total number of compulsory liquidations*
2005-06	72	19	8	3	102	1,364
2006-07	156	22	9	13	200	1,651

[1] Croydon Official Receiver's office is classified under London region from 2004-05 onwards. It was previously classified under the Anglia region.
[2] From 2004-05 onwards, the figures also include public interest unit (PIU) and carousel.

Carbon Emissions: Utilities

Mr. Paterson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the changes in levels of carbon dioxide emissions which *(a)* has resulted since 2002 and *(b)* is expected to result by 2027 from the progressive switch to natural gas in electricity generation. [175702]

Malcolm Wicks: The share of gas in electricity generation has fallen since 2002 while the share of coal has increased. It is estimated that emissions in 2006 would have been approximately 2.5MtC lower if the shares of gas and coal had not changed from 2002. Data are not yet available for 2007.

If the 2002 shares of coal and gas within fossil fuel generation were to prevail in 2020, emissions would be around 10MtC higher than projected. There is much uncertainty in such calculations. No estimates have been made for 2027.

There are likely to be many other influences on future power station emissions, including the EU emissions trading scheme. The projected effects of the EU-ETS are set out in Annex I of the published projections, which are available at:

http://www.berr.gov.uk/files/file39580.pdf

Certification Officer: Cost Effectiveness

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what requirements there are on the Certification Officer to make Gershon savings or annual efficiency savings. [179573]

Mr. McFadden *[holding answer 17 January 2008]:* The Advisory, Conciliation and Arbitration Service is responsible for providing the Certification Officer with the finance and support services necessary for the performance of his statutory duties. The annual budget process involving the Certification Officer and ACAS addresses the need for efficiency savings.

Certification Officer: Standards

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effectiveness of the Certification Officer in scrutinising union political funds. [179572]

Mr. McFadden *[holding answer 17 January 2008]:* The Certification Officer enjoys an excellent reputation for professionalism, expertise and impartiality. That reputation is based in part on the effective way he carries out his statutory functions in regard to political funds.

Certification Officer: Trade Unions

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the Certification Officer's statutory responsibilities are in relation to trade unions; and what legislative provisions govern them. [180174]

Mr. McFadden: The certification officer has a large number of statutory responsibilities, which are provided by the Trade Union and Labour Relations (Consolidation) Act 1992. A description of these statutory responsibilities is given in the annual report of the certification officer, which is deposited each year in the House Library.

Coal Fired Power Stations: Carbon Emissions

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the carbon dioxide emissions from coal-fired power stations in each year until 2020. [180475]

Malcolm Wicks: The most recent estimates of carbon dioxide emissions from coal-fired power stations in the UK were made for the Energy White Paper 2007. For 2010, 2015 and 2020, they were projected to be 106.3, 69.2 and 57.3 million tonnes of carbon dioxide respectively.

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what amount of carbon dioxide emissions have come from coal-fired power stations in each of the last 10 years. [180477]

Malcolm Wicks: Carbon dioxide emissions for 2007 are not yet available; emissions from coal fired power stations for the last 10 years for which we have data are given in the following table:

	Million tonnes of carbon dioxide emitted
1996	119.6
1997	102.0
1998	105.1
1999	87.8
2000	98.8
2001	110.3
2002	104.0
2003	114.3

	Million tonnes of carbon dioxide emitted
2004	110.0
2005	114.1
2006[1]	125.9

[1] 2006 provisional BERR estimate based on energy consumption data.

Source:
1996-2005 data National Atmospheric Emissions Inventory (NAEI).

Consumers: Finance

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the annual effect on costs for his Department resulting from the merger of Energy Watch, Post Watch and the National Consumer Council. [180384]

Mr. Thomas: The new National Consumer Council (NCC) will create a more effective and efficient system of consumer representation across markets. It is anticipated that any savings that result from the creation of the new NCC will accrue to industry (and ultimately consumers) and not to Government, as sectoral bodies are funded by the individual industries that, in turn, recover their costs from consumers.

Consumers: Protection

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform in relation to which sectors the new National Consumer Council will pursue complaints from consumers. [180383]

Mr. Thomas: The Consumers, Estate Agents and Redress Act 2007 provides for:

a single point of contact for consumers across all markets (Consumer Direct) to obtain information and impartial advice;

the extension of new redress schemes to all energy complaints and the postal services sector to resolve complaints where service providers have been unable to do so;

the consolidation of sectoral consumer bodies to form one stronger body (new National Consumer Council) to represent the interests of consumers across all markets and to provide information and advice on the consumer perspective to business, to Government, and to the sectoral regulators.

The legislation provides for the new NCC to have the power to assist vulnerable consumers in the gas, electricity and postal services sectors with their complaints.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what audits his Department and its agencies carried out in relation to personal data and IT equipment in each of the last 10 years. [176476]

Mr. Thomas: The Department undertakes a formal programme of audits each year which can incorporate audit of personal data. The contents of these audits is dependent on the specific terms of reference for each review and a large number of audits have been carried out each year in the last 10 years across various areas of the Department. Since 1999 all IT provision to the Department has been provided under a PFI agreement. Auditing of the service providers IT equipment is the contractual responsibility of the service provider.

Departmental Pay

Mr. Hayes: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what proportion of his Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171407]

Mr. Thomas: The information is as follows:

Salary bands: BERR core staff in post (SIP) as at 1 November 2007

Band	*SIP Strength*	*Percentage of BERR core*
Senior civil service	164	6
Band C	963	37
Band B	920	35
Band A	374	14
Other (not aligned with pay range)[1]	216	8
Total	2,637	—

[1] Includes staff in Business and Regulatory Reform who recently transferred from the Cabinet Office and whose grades are not yet aligned with the rest of the Department.

The title and range of each position varies according to the work of the individual staff member therefore it is not practical to give a complete breakdown. To summarise:

Band A consists of four pay ranges (1-4) and generally includes those posts providing a support role to management either in operational or administrative areas.

Band B consists of four pay ranges (5-8) and generally includes posts dealing with case work, desk officer functions, research and specialist subject work, policy support, junior management, some secretarial work and other executive type functions.

Band C consists of three pay ranges (9-11) and includes posts with more senior advisory and policy responsibilities or wider ranging managerial functions.

Bonus structure

Non-civil service pay grades and bonus structure:

Pay grades

Posts below senior civil service within the Department for Business, Enterprise, and Regulatory Reform are structured in generalist ranges. These are allocated in line with the Department's grading guidance which specifies the level of tasks required under each range. The ranges are not directly equivalent to the former civil service system of grades but are broadly comparable, as follows:

Former civil service grade	*BERR Range*
Grade 6	11
Grade 7	10
SEO and equivalents	9

Former civil service grade	BERR Range
HEO and equivalents	8
	7
EO and equivalents	6
	5
AO and equivalents	4
	3
AA and equivalents	2

Bonus structure

There are two bonus structures; performance awards and special bonuses.

Special bonuses recognise performance in particularly demanding tasks or situations. Staff in receipt of a special bonus may also receive a performance award. They are taxable, non-pensionable lump sum payments, which can be paid at any time of the year.

Performance awards are linked to the annual staff appraisal system. At the end of each appraisal year staff performance is assessed as highly successful, successful or improvement needed. Approximately 25 per cent. of staff receive a highly successful performance assessment and these get a performance award. These are paid as taxable, non-pensionable lump sum payments as part of annual pay awards. The following table shows the value of 2007 performance awards by range:

Range	HS performance award (£)
2	650
3	702
4	754
5	806
6	858
7	962
8	1,040
9	1,196
10	1,612
11	1,950
FastStream	1,040

Senior civil service pay and bonus structure:

The Senior Salaries Review Body (SSRB) provides independent advice to the Government on the remuneration of the senior civil service (SCS). The Cabinet Office submits the Government's evidence to the SSRB for the annual pay round. Once a decision is made on whether to accept the SSRB recommendation, the Cabinet Office issues documentation on the SCS performance management and pay framework. Individual Departments then make awards of increases to base pay and of non-consolidated bonuses within the framework.

Retirement provision

The normal retirement age for members of PCSPS is age 60. The Department provides a variety of early retirement schemes, although availability for release under these schemes is limited, and an ill-health retirement scheme.

Expenses provision

The Department reimburses staff who have incurred expenses as part of their work for the Department e.g. travel and subsistence and relocation expenses. The cost of preparing an answer for the total expenses incurred over the past 10 years by band would be disproportionate to the benefit to be derived.

Age split by band

	Percentage group				
Band	25years and under	26-35 years	36-45 years	46-55 years	56+ years
SCS	0	6	34	46	15
Band C	0	18	36	35	11
Band B	6	23	36	24	11
Band A	5	11	34	29	22
Other	21	39	18	9	12

Gender split by band

Band	Black and minority ethnic staff	Unknown/ethnicity
SCS	4	12
Band C	7	35
Band B	18	39
Band A	20	38

Departmental Recycling

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what weight of paper his Department recycled in each of the last five years. [179444]

Mr. Thomas: The Department has recycled the following weights for paper and cardboard (they are not segregated):

	Kilograms
2003-04	342,905
2004-05	434,108
2005-06	349,707
2006-07	281,530
2007-08[1]	253,700

[1] April-December

The historic figures (2003-06) are for DTI. It is not practical to separate out the 2007-08 recycling figures for BERR and DIUS since they are co-located. (DIUS has part occupied Kingsgate house for the past two months and was previously located in 1 Victoria street).

Direct Selling

Dr. Kumar: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what measures are in place to regulate door-to-door tradesmen in order to ensure elderly people are protected from fraudulent cold calling. [179605]

Mr. Thomas: Current doorstep selling regulations provide rights to consumers who enter into agreements to buy goods or services in their homes or place of work when the trader's visit was unsolicited. Those rights provide for a cooling off period of seven days, during which time the contract may be cancelled by the consumer, and a requirement that the trader provides the consumer with a written notice of the right to cancel the contract. We are planning, later this year, to introduce new Doorstep Selling Regulations to extend the cooling off period and cancellation rights to include solicited visits, and to require the trader to include the notice of the right to cancel the contract in the written contract.

Additional consumer protection will be provided by the EC Unfair Commercial Practices Directive (UCPD) which will be implemented by the Consumer Protection from Unfair Trading Regulations 2008 (CPRs). Draft regulations will be laid before Parliament shortly and, if approved in debate, will come into force on 6 April. The CPRs will complement the Doorstep Selling Regulations by addressing high pressure sales and deceptive marketing techniques used by unscrupulous traders engaged in doorstep selling and cold calling.

Ecuador: Debt

Willie Rennie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will provide a breakdown of Ecuador's debt to the Export Credits Guarantee Department rescheduled in the Paris Club. [180328]

Malcolm Wicks: As at 31 December 2007 the balance of the debt owed to ECGD and rescheduled under Paris Club arrangements consisted of £16,901,934 principal and £22,049,168 interest.

Electricity: Imports

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of the UK's electricity was supplied from sources outside the UK in *(a)* 2004-05, *(b)* 2005-06 and *(c)* 2006-07. [180181]

Malcolm Wicks: Using data from the Digest of United Kingdom Energy Statistics 2007, imports of electricity accounted for 2 per cent. of the electricity supplied in the United Kingdom in 2004, 2005 and 2006.

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of electricity supplied to Kent was from sources outside the UK in *(a)* 2004-05, *(b)* 2005-06 and *(c)* 2006-07. [180182]

Malcolm Wicks: It is not possible to identify where the electricity supplied to any particular geographic area was generated before it entered the national transmission system.

Electronic Equipment: Recycling

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government has taken to encourage the recycling of electrical equipment. [179565]

Malcolm Wicks *[holding answer 17 January 2008]:* The waste electrical and electronic equipment (WEEE) directive aims to minimise the impact of electrical and electronic goods on the environment, by increasing re-use and recycling and reducing the amount of WEEE going to landfill. It introduces producer responsibility for WEEE. Producers must finance the collection, treatment and recycling/recovery of waste electrical equipment. Distributors supplying electrical and electronic equipment to household end users must provide facilities for waste equipment to be returned free of charge.

The UK Waste Electrical and Electronic Equipment (WEEE) Regulations 2006, implementing the WEEE directive, were laid before the House on 12 December 2006 and entered into force on 2 January 2007 with producer responsibility commencing from 1 July 2007.

The WEEE directive also requires member states to establish adequate collection facilities to enable consumers to discard their WEEE from other forms of waste free of charge. In the UK, local authority civic amenity sites have registered their sites as designed collection facilities (DCFs) where consumers can return their WEEE for free. Producers, through their Producer Compliance Schemes, are liable for the costs of collecting, treating and recycling household WEEE from a DCF. Consumers can locate details of their nearest recycling centre from http://recycle-more.co.uk/

The Department will undertake a campaign to raise consumer awareness later this year. Information on the WEEE regulations is also available from the BERR website at http://www.dti.gov.uk/innovation/sustainability/weee/page30269.html

Electronic Equipment: Waste Disposal

Martin Horwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has undertaken into awareness of the regulations on waste electrical and electronic equipment among *(a)* producers, *(b)* retailers and *(c)* households; and if he will publish the results of that research. [179557]

Malcolm Wicks: No research has been commissioned by the Department to date. The WEEE regulations place a number of obligations on both the producers and retailers of electrical and electronic equipment (EEE) to provide information to householders as to how they should dispose of their WEEE to protect the environment.

The enforcement authorities will be undertaking activities to raise awareness within the producer and retail sectors to ensure that those affected by the

WEEE regulations are aware of their requirements. The Department will undertake a campaign to raise householders' awareness later this year.

Energy Bill

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to bullet point two in paragraph 4, page 69, relating to the impact assessment for the Energy Bill, what are the European legislative requirements. [180064]

Malcolm Wicks: As part of the Strategic Siting Assessment Government intends to conduct a Strategic Environmental Assessment under the Strategic Environmental Assessment Directive.

Energy: Meters

David Taylor: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) whether the Government's forthcoming response to the metering and billing consultation will refer to the creation of a market for smart enabled meters; [180591]

(2) what submissions he has received on the potential inclusion of provision of smart meters in the recently published Energy Bill; and if he will make a statement; [180592]

(3) when the Government will publish its response to the recent consultation on metering and billing in relation to energy supplies. [180598]

Malcolm Wicks: The Government are assessing responses to their recent consultation on metering and billing, and will shortly publish their response, including their approach to the delivery of smart meters. My Department has received a communication about the omission of smart meters from the Energy Bill, to which we will respond in due course.

Energy: Prices

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he last met representatives of Ofgem to discuss energy prices. [180397]

Malcolm Wicks: Ministers have regular meetings with Ofgem to discuss all areas of their remit. The Secretary of State's last meeting was with Sir John Mogg and Alistair Buchanan on 18 December 2007 where they discussed effective operation of the market.

Franco-British Nuclear Forum: Finance

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has for funding of the Franco-British Nuclear Forum; and if he will make a statement. [180447]

Malcolm Wicks: We expect that the budget for the Franco-British Nuclear Forum will continue to be met from the Department's existing budget for nuclear liabilities.

Fuel Poverty

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of households in fuel poverty since 2004. [180462]

Malcolm Wicks: Estimates of the number of households in fuel poverty are published annually and can be accessed through the BERR website at:

http://www.dti.gov.uk/energy/fuel-poverty/strategy/index.html

The most recent publication, "The UK Fuel Poverty Strategy 5th Annual Progress Report 2007", available at http://www.berr.gov.uk/files/file42720.pdf, shows that in 2004 there were approximately 2 million fuel poor households in the UK (1.2 million in England), rising to approximately 2.5 million in the UK in 2005 (1.5 million in England). This report covers up to 2005, the last year for which published statistics are available.

The Energy White Paper, published in May 2007, held projections to 2006. It estimated that an extra 1.2 million households in England were fuel poor in 2006 compared to 2004, this increase being caused by rises in fuel prices.

Fuel Poverty: Rural Areas

Mr. Paice: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many rural households in England are in fuel poverty; and if he will make a statement. [180761]

Malcolm Wicks: A breakdown based on the rurality of the household, as defined by the National Statistics Definition, is available in the "Fuel Poverty 2005—Detailed Tables" available online at:

http://www.berr.gov.uk/files/file42705.pdf

This shows that in 2005 there were approximately 288,000 fuel poor households in a "Village, hamlet or isolated dwelling". This is 14.6 per cent. of the total 1,980,000 houses defined as being members of this category.

Liability: Construction

Andrew Selous: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to ensure proportionate liability for consultants and engineers in construction projects. [179694]

Mr. Timms *[holding answer 17 January 2008]:* My Department sees no current need for any such steps.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the Minister of State will reply to the letter from the hon. Member for West Worcestershire dated 20 November 2007, about people whose assets place them on the margins of eligibility for state aid. [180321]

Mr. Timms: The hon. Member's letter was for my colleagues at the Department for Work and Pensions to respond to. I apologise that the transfer of the letter

was delayed over the Christmas period, but it was completed on 15 January. The hon. Member will receive a response in due course.

Minimum Wage

Mr. Meacher: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many persons he estimates are working *(a)* at below the minimum wage, *(b)* at the minimum wage, *(c)* for between £5.53 and £7.00 per hour, *(d)* for between £7.01 and £8.00 per hour, *(e)* for between £8.01 and £9.00 per hour, *(f)* for between £9.01 and £10.00 per hour and *(g)* for between £10.01 and £12.50 per hour; and what percentage each of these groups are of the total work force. [167850]

Mr. McFadden *[holding answer 26 November 2007]:* The information requested is as follows.

(a) It is estimated that there are 292,000 jobs which were paying below the applicable NMW rate in April 2007.

Some people may be paid below the NMW due to non-compliance with the legislation. The Government have announced their intention to introduce new penalties for all employers who underpay the national minimum wage and a fairer system of paying arrears. These measures are included in the Employment Bill announced in the Queen's Speech 2007. However, not all those that are paid less than the NMW reflect non-compliance. There are a number of circumstances where the national minimum wage does not apply and so individuals may legitimately earn less than the appropriate national minimum wage rate for their age. For example, individuals may be on Government training programmes or apprenticeships, where they are exempt for the first year, up to the age of 26. Employees may also not be receiving the national minimum wage in cash terms because employers can legitimately reduce rates to take into account the cost of accommodation provided, for which there is a standard level of deduction.

(b) The estimates of those at the NMW level are not available from the Office of National Statistics, as hourly earnings are calculated from weekly earnings divided by the numbers of hours, it is not possible to be so precise. However, the number of jobs less than the NMW plus 5p are 921,000 (3.6 per cent.).

(c) 3,939 jobs (16.5 per cent.)

(d) 2,279 jobs (9.5 per cent.)

(e) 2,062 jobs (8.6 per cent.)

(f) 1,777 jobs (7.4 per cent.)

(g) 3,342 jobs (14.0 per cent.)

The numbers are from the Annual Survey of Hours and Earnings (ASHE). They are indicative as they exclude some employees (such as those whose pay has been affected by loss of earnings or those who are not on adult rates) in order to give a better measure of earnings. Therefore, the proportions are more meaningful than the absolute numbers.

Mr. Bellingham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will bring forward proposals to increase the minimum wage for *(a)* adults and *(b)* young workers; and if he will make a statement. [180059]

Mr. McFadden: National minimum wage rates are set by the Government based on the recommendations of the independent Low Pay Commission (LPC). The Low Pay Commission is due to report to Government in February.

New Businesses

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government has taken to encourage individuals and companies to set up businesses in the West Midlands in the last five years. [166165]

Mr. Timms: Over the last five years, the Business Link service in the West Midlands has provided a wide range of support and guidance to companies and individuals who want to set up new businesses. It provides advice on key issues as well as training workshops and mentoring. Since 2002, the Business Link service in the West Midlands has offered a bespoke high growth start-up programme called Mustard. This service includes advice on how to access non-traditional sources of finance including venture capital and business angels. Companies also receive specialist advice from accountancy and finance specialists. Over 500 start-up businesses every year have taken part in this bespoke programme.

The Business Link service in the West Midlands has also supported the Young Enterprise and Prince's Trust initiatives which encourage young people to start their own businesses and has run bespoke programmes to encourage women, ethnic minority and social entrepreneurs to set up businesses.

Since 2003, the Business Link service in the West Midlands has provided support and advice to the following number of individuals and businesses who have been trading for less than 12 months.

	Number of individuals who have been supported at least once with advice or training on how to	
Financial year	*Start up and manage a new business*	*Operate their business during their first 12 months of trading*
2003-04 to 2007-08	94,824	20,791

Manufacturing Advisory Service

The region's important manufacturing sector has benefited from support from the Manufacturing Advisory Service which offers companies access to a range of services as part of the wider larger business support network.

The Manufacturing Advisory Service in the West Midlands (MAS-WM) has been successful in attracting individuals and businesses to the region particularly through its specialist sourcing service which encourages inter-trading between local suppliers.

Advantage West Midlands

Advantage West Midlands (AWM), the regional development agency, also has in place a further range of initiatives to increase the creation, growth and survival of economically sustainable new businesses. AWM also administers the selective finance for investment (SFI) grant for manufacturing and service projects. Under SFI, between April 2004 and March 2007, 234 offers of grant made by AWM were accepted. These grant offers are expected to create 2,782 jobs and safeguard 3,325 jobs. In total, £35.1 million of grant funding has been provided.

Through one of the key delivery mechanisms for delivering the West Midlands Economic Strategy—the High Technology Corridors-AWM has supported the creation of 148 new business, and assisted a further 1,786 businesses.

Inward Investment

The West Midland's region has a good track record of attracting inward investment. The West Midlands is home to around 2,300 foreign owned firms from over 40 countries which employ around 250,000 people.

AWM manages inward investment activity for the region, working with a range of regional, national and international partners. Support for potential inward investors includes land and property searches, help with staff recruitment training and assistance with developing partnerships, particularly with universities.

News Corporation

Philip Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what communication has occurred between *(a)* the Secretary of State and *(b)* other members of his Department and BSkyB, News International or any News Corporation controlled company following BSkyB's acquisition of a 17.9 per cent. stake in ITV; and what form this communication has taken in each case; [180998]

(2) whether his Department has been contacted by BSkyB, News International or any other News Corporation controlled company during the past four weeks in relation to the Competition Commission's final report into the BSkyB acquisition of a 17.9 per cent. stake in ITV published on 20 December 2007; [180999]

(3) whether his Department has been contacted by BSkyB, News International or any other News Corporation controlled company during the past four weeks in relation to the Competition Commission's final report sent to him on 14 December 2007. [181000]

Mr. Thomas: Since receipt and publication of the Competition Commission's final report of its inquiry into British Sky Broadcasting Group plc's (BSkyB) acquisition of a 17.9 per cent. shareholding in ITV plc, my right hon. Friend the Secretary of State has received written representations from BSkyB as well as from Virgin Media, ITV plc, Rapture Television, the Campaign for Press and Broadcasting Freedom and by Mr. David Hammond. In addition, BERR officials have met with representatives of BSkyB to receive further oral representations.

Nuclear Power

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to paragraph 3.77 of the White Paper on Nuclear Power, CM 7296, what steps may be taken by Ministers to ensure a level playing field between nuclear power and other forms of electricity generation. [180088]

Malcolm Wicks: As set out in the White Paper, it is not intended that incentives will be provided through the fiscal regime to invest in nuclear power generation in preference to other types of generation. Should it be determined that the timing of nuclear decommissioning creates a tax disadvantage for nuclear operators, the Government will consider whether it might be appropriate to take action to ensure a level fiscal playing field between nuclear power and other forms of electricity generation. There are no proposals for measures at this stage.

Paul Flynn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to post on his departmental website the written submissions received by the consultation on nuclear energy policy held in 2007; and if he will list those individuals and organisations that made submissions, but requested their content not to be published by the Department. [180450]

Malcolm Wicks: I placed the written responses on our consultation website at www.direct.gov.uk/nuclearpower2007 on 10 January 2008, the day that we published our White Paper on nuclear power. Where respondents requested confidentiality, we have not published their names or their submissions.

Nuclear Power Stations: Construction

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to paragraph 3.4 of the White Paper on Nuclear Power, Cm 7296, whether an inquiry looking into an application for a new nuclear power plant will be permitted to examine any potential local effects of such a plant being built and operated. [180090]

Malcolm Wicks: The Planning Bill proposes that the Government should set out the case for nationally significant infrastructure projects in National Policy Statements. There would be public consultation before the National Policy Statement was finalised. This would allow relevant local and regional factors to be considered where the statement identified specific locations. National Policy Statements would be subject to scrutiny by Parliament.

This approach would enable the inquiry phase of any application to focus on and examine potential local effects, rather than re-examining national issues that have already been debated.

Developers would be required to consult local communities before they submit a planning application, allowing the community greater opportunity to influence the outcome. The inquiry stage will be easier and quicker for members of the public to engage with and anyone who registers an interest will have a right to be heard subject to the normal qualifications ruling out irrelevant, repetitious evidence. There will also be extra funding to help hard to reach groups have their say.

Nuclear Power Stations: Costs

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the average cost of producing one kilowatt of energy from a nuclear power station. [179424]

Malcolm Wicks: The Department carried out an extensive cost-benefit analysis of the costs of nuclear generation for the Energy Review in 2006 and the Energy White Paper in 2007. This compared the costs of nuclear against those of other low carbon generation options as well as against the cost of generation from gas.

The cost-benefit analysis included a number of sensitivities for the costs of nuclear generation, including variations in the construction cost, discount rate and waste management and decommissioning costs.

The analysis is available at:

http://www.berr.gov.uk/files/file39525.pdf

Nuclear Power Stations: Radiation Exposure

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether it is intended that the Independent Radioactive Waste Management and Decommissioning Fund, as described at paragraphs 3.46 to 3.76 of the White Paper on Nuclear Power, Cm 7296, should be available to pay for such functions including those necessary in the event of unplanned release of radioactivity in the case of an accident involving a breach of containment at a nuclear power station. [180062]

Malcolm Wicks: The Government have determined that independent funds, outside of the control of nuclear operators, should be created to accumulate and manage payments from operators to meet the full costs of decommissioning and full share of waste management costs. These funds will only be accessible to pay for decommissioning and waste management.

The arrangements being put in place through the Energy Bill 2008 are not designed to respond to the event of unplanned release of radioactivity in the case of an accident involving a breach of containment at a nuclear power station. However, should decommissioning result from such an event, the fund could be made accessible to contribute to the associated costs. Should the cost estimates of decommissioning liabilities increase as a result of such an event, operators would be required to make provisions to cover the increase in costs.

Under the Nuclear Installations Act 1965, nuclear operators have strict and exclusive liability for nuclear incidents causing personal injury or damage to property. This liability is capped and in the UK is currently £140 million. The operator must demonstrate that they have the financial security (through insurance or other means) to cover this amount.

Nuclear Power: Inspections

Paul Flynn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to paragraph 2.93 of the White Paper on Nuclear Power, Cm7296, by what *(a)* percentage and *(b)* amounts the Government have authorised the Health and Safety Executive to increase salary levels of the Nuclear Installations Inspectorate's nuclear inspectors; how these changes in remuneration were arrived at; and whether there has been any effect on recruitment as a result of the new payment package. [180451]

Malcolm Wicks: Details of the pay settlement for nuclear inspectors in the Nuclear Installations Inspectorate (NII) are a matter for the Health and Safety Executive. We are hopeful that this settlement will enable the NII to recruit and retain the right calibre of staff they need to carry out their work. However, it is too early to assess the effect the settlement has had on recruitment.

We will continue to work closely with the regulators to ensure they have sufficient resource to carry out their work, including generic design assessments of new nuclear reactors within the three to three and a half year time frame.

Nuclear Power: International Cooperation

Mr. David Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions his Department has had with the United States administration on Global Nuclear Energy Partnership proposals. [180030]

Malcolm Wicks: There have been no recent discussions between my Department and the US Administration on Global Nuclear Energy Partnership proposals.

Political Impartiality

Mr. Harper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for what purpose his Department records the political opinions of *(a)* staff and *(b)* the public. [179321]

Mr. Thomas: The Department does not record the political opinions of its staff.

On public appointments to non-departmental public bodies (NDPBs) information is sought at application stage of political activity, in line with the Commissioner for Public Appointments Code of Practice for Ministerial Appointments to Public Bodies, and is declared in the press notices which announce appointments to these bodies. Appointees are asked to update this information on a regular basis.

Post Offices: Pensions

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government are taking to protect the pensions of those post office workers affected by national post office reorganisation. [177816]

Mr. McFadden: Subpostmasters are agents or franchises and not employees of POL. Therefore neither they nor the staff they employ are members of the Royal Mail pension scheme.

POL staff in Crown Offices are members of the Royal Mail pension scheme. Royal Mail has proposed changes to the scheme to help it tackle the current pension fund deficit and to bring pensions costs down to a more affordable and sustainable level. UNITE and the CWU have both accepted the proposals for pension reform for existing members.

The Government agreed a finance framework in March 2007 which provides Royal Mail with the ability

to manage its pension deficit by allowing the transfer of £850 million of reserves into an escrow account to support the pension fund. This is supplemented by £150 million from Royal Mail's resources.

Post Offices: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether an alternative site for the main post office in Cowgate, Peterborough has been identified for after the expiry of its lease in December 2008; and if he will make a statement. [179271]

Mr. McFadden *[holding answer 17 January 2008]*: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Power Failures: Kent

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many severe electrical blackouts were recorded in *(a)* Gravesham constituency and *(b)* Kent in each of the last five years for which figures are available. [180184]

Malcolm Wicks: Major electricity interruptions are reported to the Secretary of State in accordance with regulation 32 of the Electricity Safety, Quality and Continuity Regulations 2002.

Since 2002:

(a) one major incident affecting the Gravesham constituency was reported in 2007; and

(b) four major incidents were reported that affected parts of Kent—two in 2003 and two in 2007.

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many power cuts attributable to the performance of networks operated by distributors covering the Kent area were reported in each year since 2002; and in each case what was the *(a)* date, *(b)* location and *(c)* number of users affected. [180185]

Malcolm Wicks: Power cuts are a daily occurrence due to faults on every distribution network. Individual reports for each interruption are not submitted to Government. Instead, electricity distribution companies report summary information to Ofgem on an annual basis. These reports include numbers of customer interruptions (CI) and durations of interruptions (customer minutes lost CML). The performance figures for EdF South East (which includes Kent) are:

	CI	*CML*
2002-03	90.42	81.25
2003-04	97.77	90.04

Public Sector Index (Non-Housebuilding) (PubSec) Index

Mr. Gerald Howarth: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the Library a copy of the latest version of the Public Sector Index (Non-Housebuilding) (PubSec) Index. [180297]

Mr. Timms: The Public Sector (Non-Housebuilding) Index was published in the bulletin "Quarterly Building Price and Cost Indices", and I have arranged for a copy of the Index from the December 2007 issue to be placed in the Library.

From January this year, it will be published on the World Wide Web, on BERR's behalf, by the Building Cost Information Service. Their website is at http://www.bcis.co.uk/. The publication has always been available on subscription, and in future the subscription will give access to the information in electronic form. Requests for subscriptions to periodicals should be addressed to the Librarian.

Radioactive Wastes: Waste Management

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his most recent estimate is of the cost to the public purse of disposing of historic nuclear waste. [180448]

Malcolm Wicks: In 2003 Nirex produced figures for the estimated total cost of UK nuclear waste disposal in a geological facility which ranged between £7.5 billion and £10.4 billion (undiscounted) depending on facility design and whether or not high and intermediate level wastes were ultimately located in the same facility or in two separate facilities.
